### Notice of Proposed Amendment

#### Call for Public Representations on the Proposed Amendment of Geographical Community Content Service Licence

The Malawi Communications Regulatory Authority (MACRA) would like to inform the public that it intends to amend all Geographical Community Content Service Licences. The clause on the coverage area of a geographical community content service shall be deleted and replaced by a new clause where the service coverage area will be determined by the transmitter transmission power prescribed by MACRA.

#### Rationale for the Amendment

The proposed amendment is being made to align with the implementation by MACRA of the FM Band refarming exercise. The refarming of the FM Band is being done to ensure efficient utilization of the radio frequency spectrum, accommodate new content service providers in the FM Band and create a level playing field in the broadcasting sector. Currently geographical community content services licences authorize licencees to provide services within a prescribed radius expressed in kilometers. The effect of this is that licencees provide community content services beyond the areas they were supposed to serve. The amendment of the licences in the manner proposed, will ensure that geographical community content service licencees provide services within the intended target areas.

#### Call for Representations.

Pursuant to Section 41(2) of the Communications Act, Cap 68.01 of the Laws of Malawi, the Authority would like to invite the public and all interested persons to make representations on the proposed amendment.

All representations should be sent either by surface mail or e-mail to the address below by close of business on 8th December 2023.

Notice issued at Blantyre this 10th November 2023.
