## Government Notice No. 873

IMPORTATION OF MOTOR CARS AND STATION WAGONS FROM THE UNITED STATES OF AMERICA AND CANADA DURING 1958

The need to conserve expenditure of hard currency still obtains and it is accordingly necessary, as in previous years, to control the quantity and distribution of saloon cars and station wagons imported from the United States of America and Canada. The control will continue to be exercised by means of "letters of authority to purchase" which will be issued by the appropriate Federal and Regional Authorities.

2. Recognised distributors of saloon cars and station wagons imported direct from the United States of America and Canada are permitted to sell these vehicles only to persons in possession of a valid letter of authority. Such letters will be issued only to persons who can adduce evidence for a special need for these vehicles.

3. Details will be published in the *Regional Gazette* of the procedure to be followed by applicants in the Regions. Applications for permits to purchase from the Federal allocation may be submitted to the Director, Federal Department of Commerce and Industries, by persons in the following categories:—

(a) Heads of Government Departments and public corporations, in respect of their Lagos and Southern Cameroons official requirements;

(b) Federal Government officers, wherever stationed;

(c) Heads of firms with headquarters in Lagos and branches in the Regions, in respect of the firm's overall requirements for Lagos and the Regions;

(d) Individuals resident in Lagos, and the Southern Cameroons.

4. The following particulars are required with each application:—

(1) Name and address of applicant

(2) Nature of business/profession

(3) Details of any saloon car(s)/station wagon(s) at present owned, mileage already covered and date of first registration in Nigeria, in respect of each vehicle. In the case of firms owning two or more cars, details are also required of the person by whom each car is normally used.

(4) Mileage covered annually.

(5) Areas visited regularly.

5. Two categories of vehicles will be imported. The lower priced cars are listed in Category A and the higher priced cars in Category B hereunder. Permits to purchase vehicles in Category B will be issued only in exceptional circumstances and full reasons must be adduced as to why one of the Category A cars is unsuitable for the applicant.

## CATEGORY A

Make and Type	Agent
Chevrolet	U.A.C.
De Soto (Diplomat)	Arab Bros.
Dodge (Kingsway)	S.C.O.A.
Ford	J. Allen & Co.
Nash	Arab Bros.
Pontiac	U.T.C.
Willys Jeep	Steiner

## CATEGORY B

Buick	U.A.C.
Chrysler	S.C.O.A.
Hudson	C.F.A.O.
De Soto (Firelite)	Arab Bros.
Oldsmobile	U.T.C.

6. In each category there may be certain models exceeding the permitted range of landed costs: licences to import such models will not normally be granted unless prior authority has been sought, and obtained, in each individual case.

7. Successful applicants for permits to purchase North American vehicles will no longer be required to enter into an undertaking not to sell or otherwise dispose of the vehicle within two years of the date of delivery, but any person found to have disposed of a new American car, without good reason, within a few months of acquiring it, is unlikely to be successful in any further application for another American car.

Acting Director of Commerce and Industries

## Government Notice No. 886

FEDERAL MINISTRY OF WORKS AND SURVEYS  
CONTRACT No. 1056  
TENDER

Tenders are shortly to be invited from Contractors registered in Category 'G' for the construction of the new Five Cowrie Creek Bridge on a site upstream and adjacent to the existing bridge to connect Lagos with Victoria Island.

The design for the bridge provides for a deck of a total width of 52 feet extending over eight spans each of 60 feet. The total length of the bridge and approaches is 540 feet.

The abutments of reinforced concrete are to be carried on either reinforced concrete precast piles or Franki piles. The piers are carried on reinforced concrete precast piles 90 feet long (approximately) which are capped about 10 feet above Mean Sea Level.

The deck which provides a 24 foot carriageway together with two cycle tracks each 6 feet wide and two footpaths each 8 feet wide consists of precast post tensioned beams spanning between the piers and abutments.
