Government Notice No. 557

MINISTRY OF COMMERCE AND INDUSTRY

ABOLITION OF THE FEDERAL DEPARTMENT OF MARKETING AND EXPORTS

The Federal Government has decided to abolish by *31st March, 1962* the Department of Marketing and Exports which Department has for the past twelve years been very closely associated with the executive functions of the Nigeria Produce Marketing Board system. As the Nigeria Produce Marketing Board system constitutes the most important single influence in the present-day economy of Nigeria, this decision to abolish the Department of Marketing and Exports must be a matter of public interest and calls for an explanation.

2. The Department of Marketing and Exports was established in September 1948 to serve as the common executive organisation of the four Nigeria Commodity Marketing Boards. In 1954, as a result of constitutional changes, the Nigeria-wide Commodity Marketing Board system was replaced by a system of four Regional Marketing Boards responsible for the internal marketing arrangements in their respective Regions, and the Nigeria Central Marketing Board responsible for the export and overseas sale of the produce purchased for export by the Regional Marketing Boards. In 1958, again as a result of a Constitutional decision, the export and operational functions of the Nigeria Central Marketing Board were taken over by the Nigerian Produce Marketing Company Limited (incorporated in Nigeria).

3. At the time these new Marketing Boards were formed in 1954 it was generally recognised that, as far as the Regional Boards were concerned, these bodies might wish to set up their own executive organisations in due course; but it was then decided that until the conditions for a smooth and efficient handover had been created, the Department of Marketing and Exports should continue for the time being to carry out the executive functions of all the Marketing Boards.

4. The Western Region Marketing Board and the Southern Cameroons Marketing Board have already set up their own independent executive organisations while it is the intention of the Eastern Nigeria Marketing Board to do so on 1st April, 1961. This will leave the Northern Regional Marketing Board and the Nigerian Produce Marketing Company Limited as the sole employers of the services of the Department of Marketing and Exports. Both of these bodies have expressed the intention of making their own executive arrangements within the next year.

5. No useful purpose therefore would be served by retaining the Department in being since the

duties and functions for which the Department was specially created to perform will in future be undertaken by the separate executive organisations of the Marketing bodies concerned.

6. Certain former members of the Department's staff are already employed by those Regional Marketing Boards whose own executive organisations are now in existence; it is highly probable that others will be required by the Eastern Nigeria and Northern Regional Marketing Boards and the Nigerian Produce Marketing Company Limited. Arrangements will be made within the provisions of the Government's terms and conditions of service to re-deploy in the Public Service of the Federation the small number of established Civil Servants remaining who do not wish to take up an appointment with the new executive organisations.

7. It must be emphasised that these new arrangements relate only to the executive organisations of the Marketing bodies concerned and in no way affect the structure of the Marketing Board system or the present arrangements under which produce controlled by the Regional Marketing Boards is exported and sold overseas by the Nigerian Produce Marketing Company Limited.

8. It should also be noted that the Federal Produce Inspection Service, although a component part of the Department of Marketing and Exports, will not be affected by the abolition of the Department. The terms on which the Department of Marketing and Exports was appointed as an executive instrument of the Marketing Board organisation expressly excluded the Produce Inspection Service from the appointment. The Federal Produce Inspection Service is a service of Federal Government and exercises its functions on behalf of Federal Government and not on behalf of the Marketing Board organisation. Upon the abolition of the Department of Marketing and Exports the Federal Produce Inspection Service will in its entirety be integrated with the Federal Ministry of Commerce and Industry and will continue to discharge its responsible and important duties of safeguarding the reputation of Nigerian produce by check-testing the quality of export produce at the ports of shipment.
