Government Notice No. 2080**PROCEDURE FOR PROCESSING APPLICATIONS FOR LICENCES FOR JAPANESE TEXTILES**

In view of the many enquiries which have been received in this Ministry following the publication of Legal Notice No. 105 in the *Federation of Nigeria Official Gazette* No. 62 of 22nd August, 1963, the public is invited to note the procedure now being adopted in processing applications for licences for those Japanese goods placed on specific licence.

2. Since the relevant Order came into force on the 22nd of August, 1963, goods affected by it have been placed in three distinct categories, viz:

CATEGORY 'A'—GOODS SHIPPED FROM JAPAN OR ANY OTHER PORT BEFORE 22ND AUGUST, 1963

These include goods in a Nigerian port on 22nd August, 1963, and those on the high seas clearly shipped before 22nd August, 1963. For this class of goods, importers are required to produce their bills of entry and supporting documents and these are stamped for release after checking. It is not expected that these goods will present further problems as most ships which left Japan before 22nd August, 1963, have now reported in Nigerian ports.

CATEGORY 'B'—GOODS ON ORDER AND FOR WHICH INCONTROVERTIBLE LETTERS OF CREDIT WERE ISSUED BEFORE 22ND AUGUST, 1963

Applications for goods under this category are examined and if in order listed for consideration of the Licensing Committee which decides on the value of licences to be issued to applicants.

CATEGORY 'C'—GOODS ON CONTRACT

This category covers goods for which firm orders were placed with Japanese manufacturers, but for which letters of credits had not been opened by 22nd August, 1963. Since this would involve no financial loss on the part of importers, it has been agreed to defer consideration of applications to cover such orders until the claims of all applicants under category 'B' have been met.

3. While category 'A' no longer presents any problem, the position is however different with goods under categories 'B' and 'C'. Applications under category 'B' are being examined at the moment and importers are requested to make sure that their applications are properly made to obviate a waste of time on correspondence. All applications must be forwarded with the necessary documentary evidence so as to place all the facts before the Licensing Committee. Whether or not licences will be issued under category 'C' will depend on the total value of goods allowed under categories 'A' and 'B'; and if it is decided to consider applications under category 'C', licences will be issued against quotas to be decided later.

NOTICE

Registration with the Federal Works Registration Board as a Government contractor does not place the Board under any obligation whatsoever to find work for contractors.

It is the responsibility of individual contractors to find jobs not necessarily from within the Ministry of Works and Surveys.

Award of contracts to contractors depends, among other things, on availability of jobs. When jobs are available, contractors are invited in rotation in the appropriate category.

Certificate of Registration given to contractors by the Federal Works Registration Board is an evidence of recognition that the contractor is capable of executing jobs up to the value of the category as the certificate may indicate.

Secretary,
Federal Works Registration Board
