TRAINING CENTRE FOR MUSEUM TECHNICIANS,  
Jos

Owing to inaccurate and misleading reports in the Press and on the radio about the current training course being held at the new Federal Government—UNESCO Training Centre at the Jos Museum it is necessary to reaffirm that this course is *exclusively* for the training of technicians for service in the museums or projected museums of Africa.

Students will *not* be qualified to proceed from the Jos course to take a degree course in Archaeology at the University of Oxford (where no such course exists) or in any other University. They will be qualified to enter or re-enter the service of African Museums as assistants, with advantage, obtainable in no other educational institution in the world, of basic technical training in the conservation and documentation of museum objects and their display, preservation and storage. Higher training in Museum Technology would only be feasible after several years of practical experience in the technical service of African Museums, to help in the consolidation and establishment of which this institution has been specifically designed.

- (a) Ceremonial Tunics .. (Green Terylene)
- (b) Ceremonial Trousers .. (Grey Terylene)
- (c) Ceremonial Tunics .. (White Terylene)
- (d) Ceremonial Trousers .. (Green Terylene)

The quantities required of items (a) and (b) are estimated to be approximately 1,000 to 1,500 in the first year but this quantity will increase with the expansion of the Army and the progressive maintenance requirement. The quantities of items (c) and (d) will be very small (approximately 20 to 30) as these are provided only for Band, Corps of Drums and Provost. The material (TERYLENE) will be provided by the Nigerian Army but all provision of buttons, threads, linings and trimmings together with hooks and eyes, etc., required by specification, will be the responsibility of the Contractor.

## 2. Special conditions:

(i) The uniform is an expensive and complicated item of dress, the tunics having stand collars, which will require the highest standard of cutting and tailoring.

(ii) A specification for the manufacture of this uniform has been prepared and will be issued to each applicant for Tender Forms. Contractors are advised to study this very carefully, together with the Terms and Conditions of Contract, before submitting their bids.

(iii) After initial scrutiny of the Tenders by the Armed Forces Tenders Board the premises of those Contractors considered as possible manufacturers will be inspected to ensure that the Contractor is able to meet the requirement, both in standard and quality, before final consideration of award of contract. The inspection will be concerned with the availability of machines, i.e., cutting, sewing, button holing, etc., in addition to the general standard of the premises and the production potential.

(iv) The range of sizes required is large and covers 52 detailed sizes of both tunics and trousers. A copy of this size range giving measurements required, will also be made available with the Tender Forms.

(v) The material provided is expensive and therefore the estimates of requirements for material, for garments throughout the range, will be very carefully scrutinized and be a most important consideration with the price bid for making up.

(vi) To ensure uniformity of standard the restriction against sub-contracting will be rigidly enforced and Contractors must establish their capability of total production of the output offered on their own premises.

3. *Viewing*: Samples of the Uniforms required may be seen at the ORDNANCE DEPOT, CLIFFORD STREET, YABA, from where all details and forms may be obtained.

4. *Tenders*: Tenders will be addressed to Secretary, Armed Forces Tenders Board, Ministry of Defence, Lagos, to arrive not later than Tuesday, 31st December, 1963.

5. *Samples*: Samples of Uniforms will be called for to ascertain standard of workmanship, from those Contractors whose bids and premises have been selected as possible manufacturers, before final award of contract.
