## NOTICE BY THE BOARD OF CUSTOMS AND EXCISE

Customs and Excise Notice No. 29

EXCISE REVENUE CONTROL—FACTORIES FOR EXCISABLE GOODS OTHER THAN BEER, SPIRITS AND TOBACCO

Commencement : 1st April, 1965

The attention of manufacturers of excisable goods other than beer, spirits and tobacco is invited to this Notice which contains the Board's requirements and directions for the Excise Revenue control of factories.

## PART I—GENERAL

2. LAWS.—The laws relating to the collection of Excise duties are contained in :—

- (a) The Customs and Excise Management Act, 1958 No. 55 of 1958—in particular Parts VIIA and VIII;
- (b) Customs and Excise Act 1962, No. 38;
- (c) Excise Tariff Act 1958 No. 58 of 1958—the latest amendments to the Schedule thereto are in the Excise Tariff (Duties) (No. 2) Order 1964 (Legal Notice 92 of 1964) and Excise Tariff (Duties) (No. 3) Order 1964—Legal Notice 130 of 1964;
- (d) The General Excise Regulations 1960—Legal Notice 114 of 1960.

## PART II—APPROVAL AND LICENSING

3. APPROVAL. (a) The written approval of the Board is required before any person sets up business as a manufacturer of excisable goods.

(b) *Provisional Approval* is granted when the Board is satisfied that the application may be approved in principle. The manufacturer is required to submit a written application to the Area Chief Collector, accompanied by plans in triplicate of the proposed factory giving the following particulars :—

- (i) Name and address in Nigeria of the person or firm making the application;
- (ii) Address of the proposed factory;
- (iii) Date when the factory is expected to be ready for production;
- (iv) Kind of goods to be produced;
- (v) Estimated annual production and the proportions for home use and exportation, respectively;
- (vi) Materials to be used and their composition or formulas;
- (vii) Description of the plant and process;
- (viii) Brand names and labels;
- (ix) Size of containers;
- (x) Working hours in the factory;
- (xi) Method of packaging;
- (xii) Method of marking and numbering packages;
- (xiii) Method of control over production;
- (xiv) Storage arrangements;
- (xv) Delivery arrangements and types of trader to be supplied.

(c) *Final Approval* is required by the Board when the factory has been completed and all requirements stipulated by the Board fulfilled. The manufacturer is required to apply in writing to the Area Chief Collector when construction has been completed requesting Final Approval. The grant of Final Approval authorises the Area Chief Collector to issue a licence allowing manufacture to commence.

(d) *Variations to Approval*. Where a manufacturer desires subsequently to alter or vary in any way any approved material, formula, composition, specification, brand, name, label, packaging or container, he is required to submit a written application to the Board through the Area Chief Collector and obtain the Board's written permission before effecting any such variation.

4. PREMISES. (a) Applicants are advised not to begin to construct new buildings or alter existing ones until the relevant applications have been approved by the Board.

(b) Those parts of a factory in which excisable goods in a finished state are produced and stored up to the point where the revenue account is taken, are to be so designed as to facilitate official control and are to be soundly constructed to minimise the risk of irregular access. Outer doors are to be of stout materials and securely hinged or fitted to prevent their removal when closed. It may be necessary in certain cases for the Board to require windows and other apertures to be secured by wire mesh or bars.

(c) The premises should be so designed as to facilitate revenue control. This is best achieved if raw materials enter at one end and the finished goods emerge at the other under supervision, and are channelled directly into the Products Store. Packing materials are to be introduced in a manner which does not interrupt the flow of operations or provide opportunity for illegal abstraction of dutiable goods. The number of exits is to be kept to the minimum.

5. **MATERIALS STORE.** A room or place in the factory is to be provided by the manufacturer and approved by the Board for the separate and exclusive storage of all raw materials and packing and marking materials. All materials are to be deposited in the Materials Store immediately they are received at the factory.

6. **PRODUCTS STORE.** (a) A secure compartment partitioned off from the rest of the factory and sited close to the point where the finished and packaged goods emerge is to be provided by the manufacturer and approved by the Board for the exclusive storage of excisable goods manufactured in the factory. A Products Store should have separate receipt and delivery doors, normally one of each, provided with fittings for revenue locks. The delivery door must not be capable of being used for direct access to the production area of the factory.

(b) Immediately excisable goods have been manufactured and packed, they are to be marked in a manner approved by the Board and moved forthwith into the Products Store, and there stored or stacked in such a manner as to facilitate the taking of a full account thereof.

(c) Once goods have been delivered from the Products Store they are not to be returned thereto, except with the approval of the Board.

7. **INSTALLATION OF PLANT.** All plant, machinery, equipment, vessels and pipes in a factory are to be so installed, positioned and arranged as to enable the proper officer at all times to examine any part thereof and to take any such account as he may consider necessary. Manufacturers are not to alter the shape, position or capacity of any plant, machinery, equipment vessel or pipe without first obtaining the Board's written permission.

8. **ENTRY OF PREMISES.** (a) A manufacturer is required to make and deliver to the Board, an entry of his premises showing detailed particulars of all rooms, plant, machinery or equipment used in connection with storage and manufacture. The entry is to describe in detail the precise use to which every room, machine, etc. will be put. No storage of materials or products, and no manufacture, is permitted in any room, plant, etc. which is not included on the entry.

(b) Officers of Customs and Excise are legally empowered to have access at any time to the "entered" premises.

(c) After entry has been made and delivered to the Board, a manufacturer is not to alter the size, shape, position or capacity of any "entered" room, plant, machinery or equipment without first obtaining the approval of the appropriate Chief Collector, who may require a new entry to be made when the alterations have been completed.

(d) *Signatories to entries.* Every entry is to be signed by the person to whom the relevant excise licence is to be issued. If the licence is issued to a body corporate, the entry is to be signed by a director, general manager, secretary or other similar official and, except where authority for that person to sign has been given under the seal of the body corporate, the signing is to be done under the seal of the body corporate.

(e) *Form of entry.* (i) An entry is to be prepared in accordance with form Sale 41 shown in Annex "A", and three additional copies marked "copy" which may not be signed are to be submitted.

(ii) Distinguishing marks and numbers on every room and machine are to be shown, together with the use to which each is to be put and their position in relation to each other.

(iii) An entry is a legal document and all matters thereon are to be contained in the body of the document, above the signature of the person making the entry. In the case of an entry for large premises consisting of more than one page, all the pages are to be tied together with tape and the knot sealed with sealing wax. Each page is to be serially numbered and reference made at the bottom of each page to the page number and the total number of pages of the entry and the date of the entry to which it relates. Each additional page is to be signed by the signatory to the entry at the bottom in such manner as to ensure that no insertion of any other particulars can be made between the signature and the body of the entry. In no circumstances are unsigned or unrelated 'enclosures' acceptable as part of an entry.

9. **ACCOMMODATION FOR OFFICIAL STAFF.** (a) *Office accommodation.* The Board may require a manufacturer to provide and maintain suitable office, lavatory and sanitary accommodation with furniture, lighting and other amenities for the use of the proper officer.

(b) *Living accommodation.* The Board may require a manufacturer to provide at his own expense, and lease to the Board, suitable living accommodation for the proper officer and his household.

10. **SCALES, WEIGHTS AND OTHER APPLIANCES.** The Board may require a manufacturer to provide and maintain such appliances and other facilities as are in its opinion necessary to enable the proper officer to take account of goods or to examine them or to perform any other official duties at the licensed premises. Such appliances, etc. need not be for the exclusive use of the officer; in particular all weighing and measuring appliances are to be maintained in such a way that they retain their accuracy.

11. **SIGN BOARD.** (a) A manufacturer is required to erect a sign board at the main entrance to his licensed premises showing the business name of the manufacturing business licensed. Such name is to be displayed, in letters not less than three inches high and followed by the words, in letters not less than two inches high, "Licensed by the Board of Customs and Excise as a ..... (Manufacturer of Aerated Waters, Manufacturer of Matches, or as the case may be)."

(b) Where an excise factory number has been allocated by the Board, the number is also to be displayed on the sign board.

12. **BOND OR DEPOSIT.** Before approving the issue of an excise licence, the Board requires a manufacturer to make a cash deposit or enter into a bond on form Sale 32 to "Secure Excise Duty". The amount of deposit or penalty of any such bond is ordinarily not to be less than twice the estimated monthly excise duty payable and is subject to official review.

13. **LICENCE.** (a) *Application.* At the time of request for Final Approval (see paragraph 3 (c) above), a manufacturer is required to make written application through the appropriate Area Chief Collector for the issue of an excise licence. The application is to be signed by the proprietor of the firm or in the case of a body corporate, by a director, general manager, Secretary or other similar official.

(b) *Issue of Licence.*—An excise licence is issued by the Area Chief Collector after the Board's grant of Final Approval.

(c) *Validity of licence.*—An excise licence is issued in respect of one set of premises only and expires on the 31st day of December next following the date of issue.

(d) *Licence fee.*—A fee of five pounds (£5) is payable on each occasion when a licence is issued or renewed.

(e) *Renewal of licence.* A manufacturer is required to make written application to the appropriate Area Chief Collector for renewal of licence.

14. **LICENSED BUSINESS DISCONTINUED.** (a) Whenever a manufacturer discontinues business whether voluntarily or by reason of suspension or revocation of his licence he is required to:—

(i) pay duty on all goods—whether imported or manufactured locally, on which duty has not been paid ;

(ii) permit the proper officer to seal all plant and equipment so that it cannot be used for further manufacturing purposes ; and

(iii) surrender the excise licence to the appropriate Area Chief Collector.

(b) The Board has legal powers to distrain for duty due under sub-paragraph (a) (i) above not paid forthwith.

(c) If a sealed plant or equipment is to be permanently removed from the premises, the owner is to give the Board a written notice of his intention to do so and furnish it with the address to which the plant or equipment is to be removed.

15. **EXTANT FACTORIES—PERMISSION TO MANUFACTURE.** Manufacturers already in business at the time of coming into force of a new excise duty rate are required to make written application for a licence and deliver an entry of the premises to the appropriate Area Chief Collector who when satisfied that all the requirements of paragraphs 4 to 12 of this notice have been/will be met, will process the application in the prescribed manner.

16. **EXCISE FACTORY NUMBERS.** Every licensed excise factory is allocated an excise factory number by the Board.

### PART III—RECORDS OF MANUFACTURE

17. **MATERIALS REGISTER.** (a) A manufacturer is required to keep a Materials Register to show the quantity of each type of material received and delivered for use in the factory. At the close of each working day the balance on hand, of each kind of material, is to be set forth. Providing a manufacturer's own records are sufficiently comprehensive and contain the required information, they will be acceptable but they are to be made available at all times for inspection by the proper officer.

(b) All materials received are to be accompanied by full supplier's invoices which are to be retained by the manufacturer for at least twelve months and are to be produced to the proper officer on request.

18. **PRODUCTS REGISTER.** (a) Every manufacturer is required to provide and make up daily a Products Register to show details of all excisable goods manufactured, particulars of all goods delivered and a daily balance of stock on hand.

(b) The layout of the Products Register may differ in detail according to trade. A Precedent of a Products Register Form Sale 70 is shown at Annex "B". In respect of particular trades, the "quantity" to be shown in columns 3, 6 and 13 of the precedent is to be expressed in accordance with the actual normal "unit of manufacture", (e.g. the number of pairs in the case of footwear, square yards in the case of cotton fabrics, pounds weight in the case of knitted fabric, and so on).

(c) In factories manufacturing more than one line or brand of goods, separate entries are to be made in the Products Register for each line or brand or, alternatively, separate openings are to be used.

(d) A special form of Products Register is prescribed for the manufacture of matches and a Precedent of this will be forwarded to applicants for excise licences to manufacture matches.

19. OPERATIONS REGISTER. Every manufacturer is required to keep an Operations Register to correlate all the materials recorded in the Materials Register as in stock and as used in manufacture with the excisable goods produced therefrom, as recorded in the Products Register. Providing a manufacturer's own records show this information adequately, they will be accepted but they are to be made available at all times for inspection by the proper officer.

20. NOTICE OF INTENTION TO MANUFACTURE.—A manufacturer is required to give to the proper officer written notice of his intention to manufacture on any particular day and such notice is to give full details of the materials to be used and the excisable goods to be produced therefrom. A manufacturer who is consistently using the same materials to produce the same goods day by day may apply in writing to the Board for authority to dispense with daily notice. Such applications are to be forwarded through the appropriate Area Chief Collector.

21. WASTE. Where materials become defective or are wasted in excess of the normal wastage during the course of manufacture, a manufacturer is required to report the matter to the proper officer and produce to him the defective materials or any residual waste. Particulars of any such materials which are accepted by the officer as being unfit for use or as having been excessively wasted are to be recorded invariably in the Materials Register.

22. DEFECTIVE FINISHED GOODS.—(a) Excisable goods found to be defective and unsaleable at any stage prior to the time the account for duty is taken may be destroyed or returned for re-manufacture at the manufacturer's option. Such goods are deemed not to be "manufactured" and are not liable to duty. A notice of the defect, including quantity and the value of the goods involved, as well as the intended method of disposal, is to be given in writing to the proper officer and the defective goods are to be produced to the officer for examination prior to disposal. If the goods are not to be destroyed or returned for re-manufacture immediately, they are to be kept in the Products Store or other approved secure place, segregated from any other goods.

(b) Goods found to be defective up to the time the account for duty is taken are not to be recorded in the Products Register. Remission of duty on manufactured goods is disallowed, and once the account for duty has been taken, no claim in respect of goods found to be defective thereafter can be entertained.

#### PART IV.—ASSESSMENT AND PAYMENT OF DUTY

23. DUTY POINT.—Excisable goods become liable to duty immediately on manufacture, but the Board is prepared to consider written applications from individual manufacturers for the duty point to be on delivery from the Products Store.

24. EXCISABLE ARTICLES FOR FURTHER MANUFACTURE.—(a) Excisable articles for use as materials for manufacture of other excisable goods, sold to approved licensed manufacturers are exempt from duty, duty being paid on the final product only.

(b) A manufacturer who wishes to avoid the incidence of double excise duty is required, before taking delivery of the goods, to inform the appropriate Area Chief Collector in writing of the name, address, excise factory number and excise licence number of the manufacturer supplying the goods, and full particulars of the goods. The excise duty on such materials will be waived only where any conditions imposed by the Chief Collector are fully satisfied.

(c) All orders for excisable articles for use as materials for further manufacture by licensed manufacturers are to clearly show the purchaser's excise factory number and excise licence number.

(d) Goods on which duty will not be paid are to be entered in the Products Register in the normal way and the item noted with the name and excise factory number of the consignee. The amount of excise duty involved is to be deducted from the monthly duty liability.

(e) Approved manufacturers receiving excisable goods for the manufacture of other excisable goods are required to keep comprehensive records capable of verification by the proper officer, showing the receipt, use in manufacture, account for duty, and any other information required by the appropriate Area Chief Collector.

25. MONTHLY RETURN OF EXCISE DUTY.—(a) At the end of each month, every manufacturer is required to total the relevant columns of the Products Register to determine the total production (or deliveries) on which duty is due. The totals from the Products Register are to be summarised on a "MONTHLY RETURN OF EXCISE DUTY"—Form Sale 69 (See Annex "C")—different brands or lines of goods and goods at different rates of duty to be separately shown.

(b) The return, in duplicate, is to be signed by the proprietor, partner, director, general manager, secretary or authorised signatory as the case may be and is to contain a declaration that the return contains a true and full account of all the goods manufactured/delivered on which excise duty is payable during the month.

26. PAYMENT OF DUTY.—The duty due, as declared on the return, is to be paid to the appropriate Area Chief Collector not later than the 21st day of the month following that in which the duty was incurred.

#### PART V.—DUTY-FREE DELIVERIES

27. SCOPE.—Excisable goods may be delivered from the factory of manufacture without payment of duty for—

- (a) exportation ;
- (b) loading as stores on ships or aircraft ;
- (c) deposit in a bonded warehouse ; and
- (d) use in Nigeria by Persons or Organisations as defined in the Diplomatic Immunities and Privileges Act, 1962, No. 42 and approved by the Board, or for other approved purposes,

28. ENTRY FORMS.—(a) The following entry forms in quintuplicate are to be used—

Sale 54—for deposit in a bonded warehouse (see Annex "D")

Sale 56—for exportation or use as aircraft/ship stores (see Annex "E")

Sale 57—for delivery to Privileged Persons or Organisations or for other approved purposes (see Annex "F").

(b) Except where goods are exported by Government Departments, Marketing Boards, Statutory Corporations or Diplomatic or other Privileged Persons or Organisations, an additional copy of every entry for exports, conspicuously marked "FOR INLAND REVENUE", is required.

(c) An additional copy—for the manufacturer's use—may also be submitted, provided that it is conspicuously marked "MANUFACTURER'S COPY—FOR REFERENCE PURPOSES ONLY". After machine stamping it will be returned to the manufacturer.

29. MANUFACTURER'S NOTICE OF INTENTION TO DELIVER.—(a) Every manufacturer is required to keep a record titled "Notice of Intention to Deliver Excisable Goods Duty-Free." The record is to include the following columns —

- (i) Date of Notice ;
- (ii) Date and Hour of Intended Delivery ;
- (iii) Application Reference ;
- (iv) Quantity and Description of the Goods ;
- (v) Value ;
- (vi) Amount of Excise Duty ;
- (vii) Date of Certificate of Receipt by Approved User ;
- (viii) Entry No. and Date (after passing in the Long Room) ;
- (ix) Particulars of Landing Certificate ;
- (x) Remarks.

(b) A manufacturer is required to give at least twenty-four hours written notice of his intention to deliver any goods from his factory and to keep the above-mentioned record on the entered premises, available at all times for the inspection of the proper officer.

30. PRODUCTION OF GOODS FOR OFFICIAL EXAMINATION.—(a) Any manufacturer whose activities are supervised by an officer stationed on the entered premises (e.g. a manufacturer of matches) is required to produce his goods for official examination at the entered premises before delivery, and to give prior notice of his intention to deliver any goods from his factory by completing the appropriate columns in the "Notice of Intention to Deliver" Record and presenting the prescribed form of entry to the officer.

(b) Other goods are invariably to be produced for examination by the proper officer at the port or place of exportation, loading as stores or warehousing.

31. **EXAMINATION AT FACTORY.**—(a) Where goods are examined before delivery from the manufacturer's premises, all packages opened for official examination are to be re-packed immediately under the supervision of the proper officer and, where practicable, all packages are to be wired or strung for official plumbing or sealing.

(b) If it is not practicable to have the packages officially sealed or plumbed as directed in sub-paragraph (a), the packages are to be gross-weighed by the proper officer and the manufacturer is required to mark each package indelibly with its gross weight.

(c) Before delivery from the premises the manufacturer is to mark indelibly all packages with the words "Delivered duty-free for....."  
(e.g. exportation).

32. **PRE-ENTRY.**—The manufacturer is required to pre-enter the goods:—

(a) in the case of exports and stores, by submitting the entry to the cashier in the Long Room at the port or place of exportation or loading as aircraft or ship stores and producing the goods to the proper officer for examination at the time of shipment;

(b) in the case of deposit in a bonded warehouse, by submitting the entry to the cashier in the Long Room at the port or place of warehousing and forwarding the goods to the warehouse keeper.

33. **DELIVERIES TO DIPLOMATIC AND OTHER PRIVILEGED PERSONS AND ORGANISATIONS.**—(a) The entry (Form Sale 57) is to bear the following form of receipt, certified by the Privileged Person or authorised signatory of the Privileged Organisation concerned:—

"Received into my/our own premises the goods entered overleaf for use only for the duty-free purposes declared on this entry."

(b) The directions of paragraph 30 (a) are to be followed and on completion of the official examination the manufacturer is required to despatch the goods direct to the Privileged Person or Organisation.

(c) The manufacturer is also required to despatch, with the goods, the relevant entry forms for the receipt from the consignee to furnish—on all copies—the prescribed declaration that the goods have been received into his premises for use only for the duty-free purposes declared.

(d) On return of the receipted forms, the manufacturer is required to present the entry to the cashier in the Long Room at the nearest Custom House.

34. **CERTIFICATE OF LANDING.**—(a) Where goods are exported overland or by inland waters the manufacturer is required to produce a certificate of landing to the proper officer within three months from the date of delivery of the goods from the factory.

(b) If the manufacturer fails to produce the certificate of landing within the prescribed period and is unable to give a satisfactory explanation for such failure, the goods in question will be deemed to have been put to dutiable home use and credit for duty (see paragraph 35) will be disallowed.

35. **ACCOUNTING PROCEDURE.**—(a) All deliveries (whether for normal home use or for duty-free purposes) are to be entered in the Products Register and included in the Monthly Return of Excise Duty (see paragraph 25). Credit for duty in respect of duty-free deliveries is to be effected by deduction on the monthly Return of Excise Duty for the month during which entries with relevant certificates of shipment, etc., are returned to the proper officer.

(b) The manufacturer is required to enter on the Monthly Return of Excise Duty particulars of entries bearing satisfactory certificates of shipment, etc., and deduct the total duty of such deliveries from the duty due for the month. Particulars of the entry number and date are to be quoted in each case.

36. **SPECIMEN SIGNATURES OF PRIVILEGED PERSONS AND AUTHORISED SIGNATORIES ON BEHALF OF ORGANISATIONS.**—(a) The names of persons and organisations entitled to receive duty-free goods under the Diplomatic Immunities and Privileges Act, 1962, are published monthly by the Ministry of External Affairs in a booklet entitled "Diplomatic and Consular List".

(b) Privileged Persons and organisations approved by the Board in accordance with paragraph 27 who intend to avail themselves of duty-free deliveries are to forward to the appropriate Area Chief Collector specimen signatures on form Sale 79—"Specimen Signatures of Privileged Persons and Authorised Signatories on behalf of Organisations Entitled to Receive Excisable Goods Duty-Free" (see Annex "G").

(c) Heads of approved Missions and Organisations are required to appoint signatories in respect of deliveries for official use and to forward to the appropriate Area Chief Collector letters of appointment for, and specimen signatures of, authorised signatories.

37. In addition to the special provisions of this Part of this notice, manufacturers are invited to note the information contained in—

Customs and Excise Notice No. 10 (Government Notice No. 699 of 1959)—Goods in Warehouse: Deposit, Operation and Delivery; and

Customs and Excise Notice No. 15 (Government Notice No. 703 of 1959)—The Entry and Loading of Goods for Exportation or Shipment as Stores.

## FEDERAL GOVERNMENT SCHOLARSHIPS SCHEME POST-GRADUATE AWARDS 1965

Applications are invited for Federal Government Post-Graduate Scholarship Awards for research studies and post professional training. The purpose is to ensure that the best possible use is made of all opportunities for higher education available both in Nigeria and in the Commonwealth countries. Joint applications are to be submitted for scholarships to be awarded by the Federal Government from public funds in 1965 and for scholarships to be offered under the Commonwealth Scholarship and Fellowship Plan for 1966.

2. Many awards will be restricted to Nigerian Institutions in fields of studies where adequate facilities exist for post graduate research. Candidates will also be nominated for awards under the Commonwealth Scholarship and Fellowship Plan which include programmes of research extending over a period of not more than two academic years and leading to university degrees or similar qualifications.

## COURSES FOR WHICH AWARDS MAY BE MADE :

(a) Candidates for the Commonwealth Scholarship and Fellowship Plan may apply for awards in any field of study. (The Government of Cyprus offers courses in Forestry only). - (c) *Agriculture*.
- (d) *Science*.—Botany, Chemistry, Physics, Zoology.

The University of Ife has research facilities in the following fields :—Arts, Law, Science, Economics and Public Administration. Candidates whose fields of research are related to any of the above are advised to contact Professors at the above-named Universities with a view of gaining admission for post-graduate work. No guarantee of an award can be given to every applicant who has successfully obtained a place.

4. Candidates whose fields of study are not available at the Universities in Nigeria are advised to apply for admission in appropriate overseas institutions before submitting their applications. Priority will be given to applications of candidates who produce evidence of acceptance, but admission is no guarantee of an award.

5. *Qualifications*.—(a) Applicants must have a good University degree preferably first or second class honours.

(b) Applicants of any age may apply but preference will be given to those under 30.

6. *Application Forms*.—Application for scholarships must be completed on a prescribed form only. Applicants who wish to be considered for Commonwealth Scholarship as well must complete section D.

The forms may be obtained from :—

**Government Notice No. 668****MID-WESTERN NIGERIA POST SECONDARY SCHOLARSHIP AWARD: 1965-66**

Applications are hereby invited from students of Mid-Western origin for the Mid-Western Nigeria scholarship awards for undergraduate studies and for Technical training. The purpose of the scholarship awards is to train Mid-Westerners to fill administrative, technical and professional posts in the Region's Public Service, and to provide qualified staff, for Industries which are essential for balanced Economic Development.

2. Awards will be made tenable in any of the West African Universities. However, where the Scholarship Board is satisfied that institutions for courses of study or training are not available in Nigeria or West Africa, awards for such courses may be made tenable overseas.

3. Official application forms are available in this Ministry and our London Office. Completed application forms which must reach this Ministry *not later than 30th April, 1965*, must be accompanied by

(i) Photostat (not original) copies of candidate's certificates;

(ii) Two passport size photographs showing candidates' full face and shoulders;

(iii) Three copies of Sworn Declaration of Age sworn before a Magistrate.

4. It is the duty of applicants to acquaint themselves with the conditions of admission to the courses of study or training they wish to pursue. For University degrees, however, the qualifications required are the General Certificate of Education at the Advanced Level or the Higher School Certificate at Principal Level in the subjects appropriate to the candidate's course of study, in addition to the evidence of a general education to the level of the West African School Certificate, Division II or its equivalent. Candidates with less than Division II in West African School Certificate are not eligible to apply unless they had subsequently passed the General Certificate of Education examination in at least two subjects, relevant to their proposed course of study, at *one sitting*. For non-university courses the requisite qualifications are the West African School Certificate or an equivalent qualification obtained through the General Certificate of Education at the Ordinary Level or Officially recognised certificates in subjects related to the proposed courses of study.

5. Candidates whose proposed courses of study are available in West African Universities are advised to apply for admission direct to the institutions of their own choice as they would be required to produce evidence of admission before their applications for scholarships are finally considered. Evidence of admission, however, is not a guarantee that the applicant would, in fact be awarded a scholarship. Arrangements will be made by this Ministry to place in overseas institutions, successful candidates whose courses are not available in West African Universities.

6. All applicants in the Government Service must submit their applications through their Ministries or Departments.

7. The following are the courses for which scholarships may be awarded:—
