Government Notice No. 1978

UNESCO SPECIAL FUND APPOINTMENT

1. **Title of Post.**—Specialist in Thermodynamics.

2. **Location.**—Faculty of Engineering, Middle East Technical University, Ankara, Turkey.

3. **Background.**—The Middle East Technical University (METU), founded in 1956, is an institution of higher learning providing facilities for teaching and research in various fields of science and technology. It places particular emphasis on the

development of the resources of Turkey and other countries in the area and on the solution of their economic problems. It is intended to meet, qualitatively as well as quantitatively, the needs created by economic development and to exemplify a new concept of higher scientific and technological education in the Middle East. The language of instruction used in the University is English.

Unesco has, under the Expanded Programme of Technical Assistance, assisted in the development of the University since its start and since 1960 also under funds allocated by the United Nations Special Fund.

The first phase of the assistance programme is being completed, and the Special Fund will provide, during a new five-year period ending in 1970, extended assistance to four Departments in the University's Faculty of Engineering, the Departments of Electrical, Mechanical, Chemical and Mining Engineering.

In the academic year 1964-65 there will be approximately 1,100 students enrolled in the Faculty of Engineering. A full course of instruction is available, leading, after four years' study, to a B.Sc. degree in engineering, and to an M.S. after an additional year. The first year of the courses is common to all branches of engineering, with specialisation taking place in the second year of the course.

The students for the degree courses are selected by means of an entrance examination from applicants who have completed their secondary school studies.
