Government Notice No. 2007

NOTICE BY THE BOARD OF CUSTOMS AND EXCISE

Customs and Excise Notice No. 42

EXCISE REVENUE CONTROL—HYDROCARBON OIL REFINERIES

Commencement : 30th June, 1965

The attention of refiners of hydrocarbon oils is invited to this Notice which contains the Board's requirements and directions for the Excise Revenue control of hydrocarbon oil refineries.

PART I—GENERAL

2. LAWS.—The laws relating to the collection of Excise duties on refined hydrocarbon oils are contained in :—

- (a) Customs and Excise Management Act, 1958 ;
- (b) The Hydrocarbon Oil Refineries Act, 1965, No. 17 ;
- (c) Excise Tariff Act (No. 58 of 1958) as amended from time to time.
- (d) The Hydrocarbon Oil Refineries Regulations 1965—Legal Notice L.N. 99 of 1965.

PART II—APPROVAL AND LICENSING

3. APPROVAL.—(a) The written approval of the Board is required before any person sets up business as a refiner of hydrocarbon oils.

(b) Provisional Approval is granted when the Board is satisfied that the application may be approved in principle. The refiner is required to submit a written application to the proper Area Chief Collector, accompanied by plans in quadruplicate showing all tanks, vessels, plant, pipes and places of the proposed refinery, giving the following particulars :—

- (i) Business name and address in Nigeria of the person or firm making the application ;
- (ii) Business name and address of the proposed refinery ;
- (iii) Date when the refinery is expected to be ready for production ;
- (iv) Types of refined products to be produced ;
- (v) Estimated annual production and the proportion for home delivery and export, respectively ;
- (vi) Types of crude oil to be refined and their source ;
- (vii) Types and estimated quantities of blendstocks (if any) to be imported for use in blending ;
- (viii) Description of the plant and process ;
- (ix) Detailed list of all tanks, vessels, plant, pipes and places showing the distinguishing marks and/or numbers by which the tanks, etc., are to be identified. Such identifying marks and/or numbers are to be shown on the accompanying plans ;
- (10) Method of control over production ;
- (11) Method of ascertaining quantities of oils in tanks, etc. ;
- (12) Delivery arrangements and types of trader to be supplied ;
- (13) Hours during which deliveries will take place ;

(c) *Final Approval* is granted by the Board when the refinery has been completed and all requirements stipulated by the Board fulfilled. The refiner is required to apply in writing to the proper Area Chief Collector when construction has been completed, requesting Final Approval. The grant by the Board, of Final Approval authorises the Area Chief Collector to issue a licence allowing refining to commence.

(d) Where a refiner desires subsequently to alter or vary in any way any approved plant or process, he is required to submit a written application to the Board through the proper Area Chief Collector and obtain the Board's written permission before effecting any such alteration or variation.

4. PREMISES.—Applicants are advised not to begin to construct new refineries or alter existing ones until the relevant applications have been approved by the Board.

5. INSTALLATION OF PLANT.—All plant, tanks and vessels in a refinery are to be so installed, positioned and arranged as to enable the proper officer at all times to examine any part thereof and to take any such account as he may consider necessary. Refiners are not to alter the shape, position or capacity of any plant, tank, vessel or pipe without first obtaining the Board's written permission.

6. ENTRY OF PREMISES.—(a) A refiner is required to make and deliver to the Board, an entry of his premises showing detailed particulars of all rooms, plant, tanks, vessels and pipes used in connection with storing and refining hydrocarbon oils. The entry is to describe in detail the precise use to which any room, tank, etc., will legally be put. No storage of materials or products, and no refining or associated process is permitted in any room, plant, tank, etc., which is not included on the entry.

(b) Officers of Customs and Excise are legally empowered to have access at any time to the "entered" premises of a refiner.

(c) After entry has been made and delivered to the Board, a refiner is not to alter the size, shape, position or capacity of any 'entered' room, plant, tank, vessel or pipe without first obtaining the approval of the proper Chief Collector, who may require a new entry to be made when the alterations have been completed.

(d) *Signatories to entries.*—Every entry is to be signed by the person to whom the licence is issued. If the licence is issued to a body corporate, the entry is to be signed by a director, general manager, secretary or other similar official and, except where authority for that person to sign has been given under the seal of the body corporate, is to be made under that seal.

(e) *Form of entry.*—(i) An entry is to be prepared in accordance with Form Sale 41 shown in Annex "A", and three additional copies marked "copy" which may not be signed are to be submitted;

(ii) Distinguishing marks and or numbers on each room, plant, tank, vessel and pipe are to be shown, together with the use to which each is to be put and their position in relation to each other;

(iii) An entry is a legal document and all matter therein is to be contained in the body of the document before the signature of the person making the entry. In the case of an entry for large premises consisting of more than one page, each page is to be serially numbered and reference is to be made at the bottom of each page to the page number and the total number of pages of the entry and the date of the entry to which it relates. Each additional page is to be signed by the signatory to the entry at the bottom of each page in such manner as to ensure that no insertion of any other particulars is made between the signature and the body of the entry. In no circumstances are unsigned and unrelated 'attachments' accepted as part of an entry.

7. *ACCOMMODATION FOR OFFICIAL STAFF.*—(a) *Office accommodation.*—The Board may require a refiner to provide and maintain suitable office, lavatory and sanitary accommodation with furniture, lighting and cleaning for the use of the proper officer.

(b) *Living accommodation.*—The Board may require a refiner to provide at his own expense and lease to the Board suitable living accommodation for the proper officer (and his household) responsible for the control of the licensed premises.

8. *SCALES, WEIGHTS AND OTHER APPLIANCES.*—The Board may require a refiner to provide and maintain such appliances and other facilities as are reasonably necessary to enable the proper officer to take account of goods or to examine them or, in any way, to perform his duties at the licensed premises. Such appliances, etc., need not be for the exclusive use of the officer, but are to be maintained in such a way that all weighing and measuring appliances retain their accuracy.

9. *SIGNBOARD.*—A refiner is required to erect a signboard at the main entrance of his licensed premises to display the business name of the refining business licensed. Such name is to be displayed, in letters not less than three inches high and followed by the words, in letters not less than two inches high, "Licensed by the Board of Customs and Excise as a Refiner of Hydrocarbon Oils, Excise Factory No."

10. *BOND OR DEPOSIT.*—Before approving the issue of an excise licence, the Board requires a manufacturer to make a cash deposit or enter into a bond on Form Sale 21. The amount of deposit or penalty of the bond is to be approved by the proper Area Chief Collector and is subject to official review.

11. *LICENCE:* (a) *Application.*—At the time he requests Final Approval (see paragraph 3 (c) above), a refiner is required to make written application through the proper Area Chief Collector for the issue of a Hydrocarbon Oil Refiner's Licence. The application is to be signed by the proprietor of the firm or, in the case of a body corporate, by a director, general manager, secretary or other similar officer.

(b) *Issue of licence.*—A Hydrocarbon Oil Refiner's Licence Form Ex. 9 is issued by the proper Area Chief Collector following the Board's grant of Final Approval.

(c) *Validity of licence.*—A licence is issued in respect of only one set of premises and expires on the 31st day of December next following the date of issue.

(d) *Licence fee.*—A fee of two hundred and fifty pounds (£250) is payable on each occasion when a licence is issued or renewed.

(e) *Renewal of licence.*—A refiner is required to make written application to the Area Chief Collector for renewal of licence.

12. *LICENSED BUSINESS DISCONTINUED.*—(a) When a refiner discontinues business whether voluntarily or by reason of suspension or revocation of his licence he is required to:

(i) pay duty on all hydrocarbon oils refined or received on which duty has not been paid;

(ii) permit the proper officer to officially seal all plant and equipment so that it cannot be used for refining purpose; and

(iii) surrender the excise licence to the proper Area Chief Collector.

(b) The Board has legal powers to distrain for duties due under sub-paragraph (a)(i) above not paid forthwith.

(c) If sealed plant or equipment are permanently removed from the premises, the owner is to give written notice of the address to which the plant and equipment has been removed.

13. *EXCISE FACTORY NUMBER.*—Every licensed refinery is allocated an excise factory number by the Board.

PART III—MEASUREMENT OF HYDROCARBON OILS

14. BASIS.—(a) Hydrocarbon oils are to be assessed for quantity in bulk imperial gallons irrespective of temperature.

(b) For the calculation of losses, quantities at ambient temperature are to be converted to an assumed quantity at a temperature of sixty degrees Fahrenheit by the use of ASTM-IP Petroleum Measurement Tables British Edition.

15. METHOD OF MEASUREMENT.—The written approval of the Board is required for the method to be used by a refiner to ascertain quantities of hydrocarbon oils received, delivered or contained in tanks or other vessels. Proper calibration tables of all the tanks and vessels used for these purposes are required to be provided by a refiner, whatever the method approved.

16. USE OF DISPLACEMENT FLOWMETERS OR OTHER INSTALLATIONS.—(a) Where approval is sought for the use of positive displacement flow meters to measure a quantity of oil, a refiner is required to provide in his application, full descriptions and drawings of the pattern and type of flow meter to be used.

(b) Where approval is sought for the use of automatic tank gauges or equivalent installations, a refiner is required to provide, in his application, full descriptions and drawings of the type and action of the installation.

(c) The Board's approval of the use of flow meters, automatic tank gauges or other equivalent installation is subject to the refiner's strict compliance with any conditions that the Board may prescribe in its grant of approval. Such conditions may include the requirement to place seals at specified points on flow meters.

17. RECORD OF DISPOSITION OF FLOWMETERS.—(a) A refiner approved by the Board to use flow meters to ascertain quantities of oils is to keep, in respect of each meter, a Record with the following headings:—

- (i) Make or type ;
 - (ii) Serial number ;
 - (iii) Location ;
 - (iv) Type of oil measured ;
 - (v) Date Sealed ;
 - (vi) Date taken into use ;
 - (vii) Date of 'proving' and 're-proving' ;
 - (viii) Date taken out of use ;
 - (ix) Date seals inspected and result ;
- (b) These records are to be available for inspection by the proper officer on request.

PART IV—IMPORTATION OF HYDROCARBON OILS FOR USE IN REFINING OPERATIONS

18. GENERAL.—Hydrocarbon oils imported by a refiner as blendstocks or feedstocks for his refining operations are treated in the same manner at importation as oils imported for warehousing into a Bonded Oil Warehouse.

19. FORM OF ENTRY.—Entries are to be prepared in quadruplicate on Form C.15.—Entry for Warehousing—and pre-entered at the port or place of importation. On completion of discharge, the entry is to be amended in the prescribed manner to show the actual quantity discharged.

20. ENTRY PROCEDURE.—Details of the Board's requirements are shown in Customs and Excise Notices No. 10 (Goods in Warehouse : Deposit, Operation and Delivery) and No. 13 (Entry Ex-Ship or Aircraft of Imported Goods for Home Consumption).

PART V—REMOVAL OF REFINED HYDROCARBON OILS

21. GENERAL.—The removal of refined hydrocarbon oils from a refinery is treated in the same manner as oils removed from a Hydrocarbon Oils Installation.

22. FORM OF ENTRY FOR REMOVALS WITHOUT PAYMENT OF DUTY.—(a) A refiner is required to submit entries on the following forms:—

Form Sale 88 for hydrocarbon oils to be removed for re-warehousing ; (in quintuplicate) ;

Form Sale 58 (see Annex "B") for hydrocarbon oils for exportation or use as ship or aircraft stores ; (in quadruplicate) ; and to submit them to the proper officer at the refinery before loading commences.

(b) Approximate figures are to be inserted on the entry where the actual quantity to be removed is not known. When the loading is complete the refiner is to amend the entered quantity to that actually removed.

(c) Separate entries are required for each removal.

23. **BOND FOR REMOVALS WITHOUT PAYMENT OF DUTY.**—When hydrocarbon oils are removed for re-warehousing or for shipment for exportation or use as stores, security is to be given to cover any duties of customs or excise which would become due if the oils were not re-warehoused or shipped, as the case may be. The forms of security by bond are:—

Form Sale 16—Bond for the Exportation of Drawback or Warehoused Goods.

Form Sale 17—General Bond for the Exportation of Drawback or Warehoused Goods.

Form Sale 18—General Bond for Shipment of Stores.

Form Sale 22—Bond for the Warehousing of Goods and the Removal of Warehouse Goods.

Form Sale 23—General Bond for the Warehousing of Goods and the Removal of Warehoused Goods.

24. **CERTIFICATES OF LANDING.**—The Board may demand evidence that oils exported overland or by inland waterways have been duly landed at their destination.

25. **DELIVERY FOR HOME USE.**—Before commencing to load any waggon or craft, a refiner is to prepare a delivery note, loading authority or other document for every consignment of hydrocarbon oils to be delivered for home use. The document, the form of which is to be approved by the Board, is to show the date of delivery, the name and address of the consignee, the quantity and description of the oil and the identifying particulars of the waggon, craft or other conveyance. Delivery documents are to be serially numbered and issued in sequence.

PART VI—REFINER'S ACCOUNTS AND RETURNS

26. **ACCOUNTS TO BE KEPT BY REFINER.**—A refiner is required to keep accounts and records in respect of hydrocarbon oils received into, operated on, stored in and delivered from the tanks and vessels, etc., within the bonded and entered refinery and to produce such accounts and records for inspection on request by the proper officer. Where the normal business accounts of the refinery contain the information required in a satisfactory and readily available form for the purpose of official verification, they may be accepted and approved as such.

27. **ACCOUNTING PERIODS.**—(a) Accounting periods are to end on the 8th, 15th, 22nd and last day of the month or on the 10th, 20th and last day of the month at the refiner's option. A refiner is required to make written application and receive the Board's approval of the periods to be adopted.

(b) Accounting periods are numbered in an annual series starting at 1 for the first period in January.

28. **PERIOD RETURNS.**—A refiner is required to submit to the proper officer not later than the third working day following the end of every period, the following returns:—

Form Sale 74—Receipts of Hydrocarbon oil from Nigerian Oilfields and by Importation (see Annex "C").

Form Sale 75—Removals of Oil from Hydrocarbon Oil Refinery to Bonded Warehouses (see Annex "D").

Form Sale 76—Removals of Oil from Hydrocarbon Oil Refinery for Exportation or use as Aircraft/Ship Stores (see Annex "E").

Form Sale 77—Hydrocarbon Oils Delivered from a Refinery for Home Use or Use in Refinery (see Annex "F").

29. **MONTHLY RETURNS.**—A refiner is required to submit to the proper officer not later than the third working day of each month the following returns:—

Form Sale 73—Return of Hydrocarbon Oil Refinery Operations (see Annex "G").

Form Sale 78—Monthly Stocks, Production and Deliveries Account, Hydrocarbon Oil Refinery (see Annex "H").

30. **SIGNATORIES TO RETURNS.**—All returns are to be signed by the proprietor, partner, director, general manager, secretary or authorised signatory as the case may be.

PART VII—ASSESSMENT AND PAYMENT OF DUTY

31. **DUTY POINT.**—Excisable hydrocarbon oils become liable to duty immediately on manufacture but the duty point is on delivery from the entered bonded refinery.

32. **RETURN OF EXCISE DUTY.**—The excise duty due on deliveries for home use is to be summarised on form Sale 77, prepared for each accounting period (see paragraph 28 above).

33. **STANDING DEPOSIT.**—(a) Duty is payable in advance of delivery and is remitted to a Gross Payment Account to be maintained by the refiner.

(b) A refiner is required to apply in writing to the proper Area Chief Collector for approval to set up and maintain a Gross Payment Account and to forward at the same time a Banker's Guarantee covering the maximum amount of duty to be deposited at any one time.

(c) A refiner is required to open a Gross Payment Account by presenting, at the nearest Custom House an entry in triplicate on Form Sale 55—"Entry Ex-Warehouse for Goods for Home Use Liable to Excise Duty" (see Annex "I")—together with a remittance of the sum agreed with the Area Chief Collector to cover the estimated duty over a period plus half a period. The duplicate entry is to be endorsed "Not for statistical purpose".

34. **PERIOD PAYMENTS.**—At the end of every period, a refiner is required to pass an entry in triplicate on Form Sale 55 for the actual amount of duty on hydrocarbon oils delivered for home use during that period together with a remittance for the duty. The entry is to be endorsed across the face:—

"Hydrocarbon oils delivered from refinery as per Return No. /19....." and the duplicate entry is to be endorsed "Not for statistical purpose."

UNESCO SPECIAL FUND APPOINTMENT

1. *Title of Post.*—Specialist in Thermodynamics.

2. *Location.*—Faculty of Engineering, Middle East Technical University, Ankara, Turkey.

3. *Background.*—The Middle East Technical University (METU), founded in 1956, is an institution of higher learning providing facilities for teaching and research in various fields of science and technology. It places particular emphasis on the

development of the resources of Turkey and other countries in the area and on the solution of their economic problems. It is intended to meet, qualitatively as well as quantitatively, the needs created by economic development and to exemplify a new concept of higher scientific and technological education in the Middle East. The language of instruction used in the University is English.

Unesco has, under the Expanded Programme of Technical Assistance, assisted in the development of the University since its start and since 1960 also under funds allocated by the United Nations Special Fund:

The first phase of the assistance programme is being completed, and the Special Fund will provide, during a new five-year period ending in 1970, extended assistance to four Departments in the University's Faculty of Engineering, the Departments of Electrical, Mechanical, Chemical and Mining Engineering.

In the academic year 1964-65 there will be approximately 1,100 students enrolled in the Faculty of Engineering. A full course of instruction is available, leading, after four years' study, to a B.Sc. degree in engineering, and to an M.S. after an additional year. The first year of the courses is common to all branches of engineering, with specialisation taking place in the second year of the course.

The students for the degree courses are selected by means of an entrance examination from applicants who have completed their secondary school studies. For students who are not adequately prepared in the English language for admission to the degree courses, a preparatory course of one year is provided to give the necessary grounding.

4. *Functions.*—The candidate will be required to:

(i) Lecture graduate courses in advanced thermodynamics and catalysis (one course per semester);

(ii) Train counterparts by arranging weekly seminars in advanced topics of thermodynamics, including both chemical engineering thermodynamics, and catalysis.

(iii) Design and supervise the construction of some catalytic reactors at pilot plant scale;

(iv) Establish equipment lists and assist in installing the equipment;

(v) Perform such other functions as may be assigned to him by Unesco in consultation with the Chief Technical Adviser;

5. *Qualifications.*—Advanced degree in chemical engineering, proficiency in subject field based on publications, teaching and research experience.

6. *Language qualifications.*—Fluent English.

7. *Duration of appointment.*—Two years, commencing October 1966.

8. *International salary and allowances.*—(Net of national income tax—payable partly in the currency of the staff member's home or of the duty station).

Base salary per annum: equivalent to Gross \$11,400
Net \$8,930

Post adjustment (cost of living, subject to change without notice) at this date: the local equivalent of \$396
(\$264 without dependants)

Assignment allowance (expatriate allowance): the local equivalent of .. \$1,200
(\$950 if without dependants)

Family allowances: dependent spouse .. \$400
each dependent child .. \$300

Travel is provided for the expert and his dependants (spouse and children under 18 years of age). In addition, Unesco contributes towards the cost of installation at the duty station, the education of dependent children, and the medical expenses of the staff member. On separation from Unesco, a repatriation grant is paid.
