NOTICE BY THE BOARD OF CUSTOMS AND EXCISE

Customs and Excise Notice No. 27

# EXCISE REVENUE CONTROL—BREWERIES

Commencement : 1st April, 1959

The attention of brewers of beer is invited to this Notice which contains the Board's requirements and directions for the Excise Revenue Control of breweries.

## PART I—GENERAL

2. LAWS.—The laws relating to the collection of Excise duties on Beer—other than native liquor, are contained in :—

- (a) The Customs and Excise Management Act, 1958 No. 55 of 1958—in particular Parts VI and VIII ;
- (b) The Customs and Excise Act, 1962, No. 38 ;
- (c) The Excise Tariff Act 1965 No. 30, as amended from time to time ;
- (d) The Brewing Regulations, 1959—Legal Notice 68 of 1959.

## PART II—APPROVAL AND LICENSING

3. APPROVAL.—(a) The written approval of the Board is required before any person commences business as a brewer of beer.

(b) *Provisional approval* is granted when the Board is satisfied that the application may be approved in principle. The brewer is required to make written application to the proper Area Chief Collector, accompanied by plans in quadruplicate showing all rooms, vessels, plant and pipes of the proposed brewery, giving the following particulars :—

- (i) Name and address in Nigeria of the person or firm making the application ;
- (ii) Address of the proposed brewery ;
- (iii) Date when the brewery is expected to be ready for production ;
- (iv) Types of beer to be produced ;
- (v) Estimated annual production and the proportion for home delivery and export, respectively ;
- (vi) Materials to be used ;
- (vii) Full description of the plant and process ;
- (viii) Brand names and labels ;
- (ix) Method of packaging ;
- (x) Storage arrangements ;
- (xi) Delivery arrangements and type of trader to be supplied ;

(c) *Final approval* is granted by the Board when the brewery has been completed and all requirements stipulated by the Board fulfilled. The brewer is required to apply in writing to the proper Area Chief Collector when construction has been completed requesting Final Approval. The grant by the Board of Final Approval authorises the Area Chief Collector to issue an excise licence allowing brewing to commence.

(d) *Variations to approval*.—Where a brewer desires subsequently to alter or vary in any way any approved room, vessel, plant, pipe or process he is required to submit a written application to the Board through the proper Area Chief Collector and obtain the Board's written permission before effecting any such alteration or variation.

4. PREMISES.—Applicants are advised not to begin to construct new buildings or alter existing ones until the relevant applications have been approved by the Board.

5. SUGAR STORE.—A brewer who intends to use any description of Sugar or Saccharine substance, extract or syrup in his brewing process is required to provide a room in the brewery for the separate and exclusive storage of "sugar". Such room is to be marked and entered as a "Sugar Store".

6. INSTALLATION OF PLANT.—All plant, equipment, vessels and pipes in a brewery are to be so installed, positioned and arranged to enable the proper officer at all times to examine any part thereof and to take any account of any contents. Brewers are not to alter the shape, position or capacity of any vessel without first obtaining the Board's written permission.

7. MARKING OF PREMISES AND VESSELS.—A brewer is required to mark prominently each room or vessel used in the brewing of beer with the use to which the room or vessel is put. If more than one room or vessel is used for the same purpose, such rooms or vessels are to be marked with distinguishing consecutive numbers.

8. GAUGING VESSELS.—Unless otherwise directed by the Board, a brewer is required to gauge, under official supervision, all mash tuns, worts receivers, coppers, collecting and fermenting vessels or other vessels used for the brewing or storage of beer, and is to provide the necessary tables and implements so that the quantity of liquid in such vessel may at any time be accurately determined. A certificate to the effect that the gauging (of named vessels, etc.) has been accurately carried out is to be signed by the brewer and lodged with the proper Area Chief Collector. Certificates of gauging are to be renewed by the brewer annually on the 1st day of January.

9. ENTRY OF PREMISES.—(a) A brewer is required to make and deliver to the Board, an entry of his premises showing detailed particulars of all rooms, plant, equipment, vessels and pipes used in connection with brewing and storing beer. The entry is to describe in detail the precise use to which any room, vessel, etc., will legally be put. No storage of materials or products, and no brewing is permitted in any room, vessel, etc., which is not included on the entry.

(b) Officers of Customs and Excise are legally empowered to have access at any time to the "entered" premises of a brewer.

(c) After entry has been made and delivered to the Board, a brewer is not to alter the size, shape, position or capacity of any "entered" room, plant, equipment, vessel or pipe without first obtaining the approval of the proper Area Chief Collector, who may require a new entry to be made when the alterations have been completed;

(d) *Signatories to entries.*—Every entry is to be signed by the person to whom the excise licence is to be issued. If the licence is issued to a body corporate, the entry is to be signed by a director, general manager, a secretary or other similar official and, except where authority for that person to sign has been given under the seal of the body corporate, the signing is to be done under the seal of the body corporate.

(e) *Form of entry.*—(i) An entry is to be prepared in accordance with Form Sale 41—"Entry of Premises Licensed for the Manufacture of Excisable Goods"—and three additional copies marked "copy" which need not be signed are to be submitted;

(ii) Distinguishing marks and/or numbers on each room, plant, equipment and vessel are to be shown, together with the use to which each is to be put and their position in relation to each other;

(iii) An entry is a legal document and all matters therein are to be contained in the body of the document above the signature of the person making the entry. In the case of an entry for large premises consisting of more than one page, all the pages are to be tied together with tape and the knot sealed with sealing wax. Each page is to be serially numbered and reference made at the bottom of each page to the page number and the total number of pages of the entry and the date of the entry to which it relates. Each additional page is to be signed by the signatory to the entry at the bottom in such manner as to ensure that no insertion of any other particulars can be made between the signature and the body of the entry. In no circumstances are unsigned or unrelated "enclosures" acceptable as part of an entry.

10. ACCOMMODATION FOR OFFICIAL STAFF.—(a) *Office Accommodation.*—The Board may require a brewer to provide and maintain suitable office, lavatory and sanitary accommodation with furniture, lighting and other amenities for the use of the proper officer.

(b) *Living Accommodation.*—The Board may require a brewer to provide at his own expense, and lease to the Board, suitable living accommodation for the proper officer (and his household) responsible for the control of the licensed premises.

11. SCALES, WEIGHTS AND OTHER APPLIANCES.—The Board may require a brewer to provide and maintain such appliances and other facilities as are, in its opinion, necessary to enable the proper officer to take account of goods or to examine them or to perform any other official duties at the licensed premises. Such appliances, etc., need not be for the exclusive use of the officer, but are to be maintained in such a way that all weighing and measuring appliances retain their accuracy.

12. SIGNBOARD.—A brewer is required to erect a signboard at the main entrance to his licensed premises showing the business name of the brewery licensed. Such name is to be displayed, in letters not less than three inches high and followed by the words, in letters not less than two inches high, "Licensed by the Board of Customs and Excise as a Brewer, Excise Factory No. ....".

13. BOND OR DEPOSIT.—Before approving the issue of an excise licence, the Board requires a brewer to make a cash deposit or enter into a bond on Form Sale 32—"Bond to Secure Excise Duty". The amount of deposit or penalty of any such bond is ordinarily not to be less than twice the estimated monthly excise duty payable and is subject to official review.

14. CUSTOMARY ORDER OF BREWING.—(a) Before an excise licence to brew beer is issued, a brewer is required to submit in writing, through the proper Area Chief Collector, a description of the "Customary Order of Brewing" of his brewery, for the Board's prior approval. The submission, in duplicate, is to be marked "Confidential".

(b) Any deviation from the customary order of brewing, which requires that all worts are to be removed successively from the mash tun to the underback and thence to the coppers, coolers and collecting and fermenting vessels, is to be approved by the Board by Indulgence.

(c) If a brewer desires subsequently to deviate from his approved order of brewing, he is to submit a further written application through the proper Area Chief Collector to the Board, for approval and grant of Indulgence.

15. LICENCE.—(a) *Application.*—At the time he requests Final Approval (see paragraph 3 (c) above), a brewer is required to make written application through the proper Area Chief Collector signed by the proprietor of the firm or in the case of a body corporate, by a director, general manager, secretary or other similar official.

(b) *Issue of Licence.*—An excise licence is issued by the proper Area Chief Collector after the Board's grant of Final Approval.

(c) *Validity of Licence.*—An excise licence is issued in respect of one set of premises only and expires on the 31st day of December next following the date of issue.

(d) *Licence fee.*—A fee of five pounds (£5) is payable on each occasion when a licence is issued or renewed.

(e) *Renewal of Licence.*—A brewer is required to make written application to the proper Area Chief Collector for renewal of licence.

16. **LICENSED BUSINESS DISCONTINUED.**—(a) When a brewer discontinues business whether voluntarily or by reason of suspension or revocation of his licence, he is required to :

(i) pay duty on all beer brewed on which duty has not been paid ;

(ii) permit the proper officer to seal all plant and equipment so that it cannot be used for further brewing purpose ; and

(iii) surrender the excise licence to the proper Area Chief Collector.

(b) The Board has legal powers to distrain for duties due under sub-paragraph (a) (i) above but not paid forthwith.

(c) If sealed plant or equipment is to be permanently removed from the premises, the owner is to give the Board written notice of his intention to do so and furnish it with the address to which the plant or equipment is to be removed.

17. **EXCISE FACTORY NUMBER.**—Every licensed brewery is allocated an excise factory number by the Board.

It is to be available at all times for inspection by the proper officer who may take any extract therefrom and it is not to be removed except when taken up by the proper officer at the end of a month.

(c) Each entry made by a brewer in the Brewing Book is to be made on a separate line and a straight line drawn through the unused portion of that line. At the time of making any entry, a brewer is required to enter the date and hour when such entry is made.

36 gallons of worts of an original gravity of 1055 degrees are deemed to have been brewed, and so in proportion for any less quantity of materials.

(ii) the quantity of worts of an original gravity of 1055 degrees presumed to have been brewed from the materials recorded as used (i.e., the "materials charge") ; and if the quantity calculated in (ii) less 4 per cent, exceeds the quantity calculated in (i), duty is to be charged on the excess in addition to the charge under sub-paragraph (b) above.

(d) Worts of an original gravity of less than 1040 degrees are charged as though they were of a gravity of 1040 degrees.

32. **ALLOWANCE.**—A deduction of six per centum is allowed from the quantity of worts on which duty is to be charged to compensate for accidental loss and waste during the brewing process.
