To MR S. F. KOLA

3 Adebiaye Street, Surulere  
the above-named 1st Defendant

This cause will be transferred from the General Cause List to the Hearing Paper for Monday the 8th day of December, 1969 at 9 o'clock in the forenoon, and will come on to be heard on that day if the business of the Court permits or otherwise on some adjournment day of which you will receive no further notice.

If either party desires to postpone the hearing he must apply to the Court as soon as possible for that purpose; and, if the application is based on any matter of fact, he must be prepared to give proof of those facts.

The parties are warned that at the hearing they are required to bring forward all the evidence by witnesses or by documents which each of them desires to rely on in support of his own case and in contradiction of that of his opponent. The proof will be required at the hearing, and not on a subsequent day, and parties failing to bring their evidence forward at the proper time may find themselves absolutely precluded from adducing it at all, or at best only allowed to do so on payment of substantial costs to the other side, and on such other terms as the Court thinks fit to impose.

Parties desirous to enforce the attendance of witnesses should apply at once to the Court to issue one or more summonses for the attendance of the witnesses required. It is indispensable that the application should be made so as to allow time for reasonable notice to the witnesses required.

If the witness is required to bring books or papers, they must be particularised in the summons sufficiently to enable him to understand what is meant.

Any party summoning a witness through the Court, thereby becomes liable to pay such witness a reasonable sum of money to be fixed by the Court for his expense and loss of time.

The Court may refuse to enforce the attendance of a witness unless such sum has been first deposited in the Court.

If either party desires to use in evidence at the hearing any book or document in the possession or power of the other party, he must give the other party reasonable notice in writing to produce it at the hearing, failing which he will not be allowed to give any secondary evidence of its contents.

DATED at Lagos this 18th day of November, 1969.

By Order of the Court.

### Government Notice No. 1996

#### ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

**Post title (Post No., Project).**—PROJECT MANAGER P-5 FISHERY SURVEY AND DEVELOPMENT PROJECT, BURUNDI.

**Vacancy Announcement.**—No. 305-F 1-42.

**Date issued.**—10th November, 1969.

**Closing date.**—5th January, 1970.

**Duty station.**—Bujumbura, Burundi.

**Duration.**—Three years.

**Starting date.**—Immediately.

**Background information.**—The purpose of the project is to assist the Government in the evaluation of the resource potential of the northern part of Lake Tanganyika and in the development of fisheries in Burundi through research, surveys and advisory services. Of the four countries surrounding Lake Tanganyika, Burundi depends most heavily on fish

production from the lake, fish being practically the only source of animal protein. The per capita consumption is, however, still far below the minimum nutrition requirements. There are three types of fisheries: an inshore fishery by pirogues, an artisanal fishery by catamarans, and a purse-seine fishery. The bulk of the catch consists of two species of small sardine-like fish caught by nets with lights. Although the total fish stocks of the lake would support greatly increased landings, the catch from the heavily-fished Burundi waters has been declining since 1965, resulting in a further deterioration of animal protein supply. Present fishing practices are apparently harmful to the conservation of fish stocks. At the same time, there is much room for improvement in all aspects of the industry.

**Duties.**—To organize and supervise a survey and development programme which will include:—

(a) Evaluation of the fish resources in the northern part of the lake and formulation of proper conservation measures;

(b) Study of the biology of fish species of commercial importance and their environment;

(c) Economic and technical studies of the three types of fisheries and advice on their improvements; and

(d) Study of the conditions preservation, transportation and marketing of the fish caught and advice on their improvements.

**Qualifications.**—(1) Graduation from a recognised university and ten years professional experience in fishery biology or hydrobiology, some of which must have been in a senior supervisory capacity.

(2) A knowledge of stock assessment techniques without necessarily being an expert in this field.

(3) Knowledge of or experience in fishery development work.

**Language.**—Fluency in French is essential, and fluency in English as well would be desirable.

**Emoluments.**—Based on US\$ equivalent, they are payable in the currency of the Duty Station, and, on request, partially in the currency of the Home Station. "Gross salary" represents the amount on which pension contributions and benefits are calculated. "Net Salary" is the amount, normally net of national income tax, payable to the staff member less deductions (e.g., pension contributions, health and life insurance schemes).
