Organizational unit.—Forest Logging and Transport Branch, Forest Resources Division.

Location.—Rome.

Duties and responsibilities.—Under the general guidance of the Director of the Forest Resources Division but with wide latitude for personal initiative, the incumbent is responsible for the divisional activities in the field of logging techniques, transport economics and forest engineering. The main subjects under consideration, which refer to the efficiency of wood harvesting and transport from the stump to the mill, are: the mechanization of logging operations; forest road construction and engineering; the organization of forest work planning; the equipment and methods used for the inland transport of wood products and cargo-handling; the vocational training and prevention of accidents in forest work; the investigation of the inputs and costs of logging and transport and wood products; the review of factors affecting maritime carriage of wood products; the social implications of mechanization as well as of the introduction of new equipment in developing countries which will receive special attention in future programmes. In particular, he will be responsible for:

the planning and supervision of meetings investigations and projects relating to forest logging and transport;

the technical servicing of field officers working in the aforementioned fields under various programmes (UNDP, TA, WFP, etc.);

liaison and co-operation with ILO, UNIDO, IUFRO, etc. and regional United Nations Economic Commissions in regard to training and social conditions of forest workers and the organization of regional training centres and seminars on logging and transportation;

collection, analysis and dissemination of technical data on tools and equipment used in logging and transport.

Some of the responsibility for the Branch work rests with the FAO forestry working group located with the United Nations Economic Commission for Europe in Geneva; the Branch Chief will make arrangements for the close supervision of this group which provides inter alia the secretariat for the FAO/ECE/ILO Committee on Forest Working Techniques and Training of Forest Workers, and its study groups, and for participation in the technical servicing of field officers.

Qualifications—Essential.—University degree in forestry.

At least 12 years' practical experience in forest management, harvesting and transport planning and forest engineering, particularly in developing countries; experience in the integration of wood harvesting and transport in forest management, and in international work.

Very good knowledge of one of the working languages of FAO, and knowledge of one other official language.

Emoluments.—Based on US\$ equivalents, they are payable in the currency of the Duty Station and, on request, partially in the currency of the Home Station. "Gross salary" represents the amount on which pension contributions and benefits are calculated. "Net salary" is the amount, normally net of national income tax, payable to the staff member less deductions (e.g. pension contributions, health and life insurance schemes).

Salary per annum:

Starting	Maximum
(Gross: \$19,120)	(Gross: \$24,030)
Net: \$14,228	Net: \$17,418

Family allowance per annum.—(Subject to eligibility of dependency).

Spouse \$400; child \$300; secondary dependent \$200.

Post adjustment per annum.—Variable according to cost of living and to dependency status. At present from \$816 to \$1,458.

Other benefits.—Subject to specific terms of appointment: pension and medical schemes; annual, sick and maternity leave. Also, for non-locally-filled posts, appointment and repatriation travel, transport of household goods or assignment allowance, installation allowance and repatriation benefits, home leave travel with eligible dependents every 2 years, children's education grant (where applicable).

Method of application.—Applications to reach Chief, Recruitment Section, Office of Personnel, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 5th October, 1970. Quote VA No. 88-FOR.

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—PROJECT MANAGER AND GENERAL AGRONOMIST UNDP/SF BOL-21. "IMPROVEMENT OF AGRICULTURAL PRODUCTION IN THE ALTIPLANO".

Vacancy announcement No.—430-AGP-50.

Date issued.—10th August, 1970.

Closing date.—5th October, 1970.

Duty station.—Belen, Bolivia.

Duration.—Three years.

Starting date.—As soon as possible.

Background information.—The purpose of the project is to assist the overall development of the Bolivian Altiplano by planning and implementing with the assistance of the selected group of farmers and of a supervised credit, a programme of improved agriculture and farm management practices aimed at increasing agricultural production.

The Project Manager will be assisted by internationally recruited experts and consultants in the fields of farm management, animal husbandry, soils, forestry and marketing.

To facilitate the timely operation of the project the Government will provide:

- the services of counterpart specialists in the above fields;
- auxiliary and ancillary personnel;
- local transportation and handling equipment; and
- all records and information available.

Duties.—As Project Manager, on behalf of FAO, the incumbent will be responsible for:

- the detailed planning, organization, administration and execution of the project including timing and budgeting of the various elements and the preparation of technical reports and of the final report;
- assisting in the selection of government counterpart personnel, and recipients of Special Fund fellowships; supervision of the training of government counterpart personnel to ensure the continuation of the research and demonstration programmes upon the termination of the project;
- the direction of international consultants and co-ordination of their work;
- accounting to the Executing Agency (FAO) for all material, equipment and transport, and for the disbursing of funds supplied by the UNSF.

As Agronomist he will be responsible for :

(a) evaluating the local crop production problems and determining the technical measures which could be adapted to achieve the desired objectives in the agricultural development plan of the Altiplano ;

(b) assisting in the selection of local and introduced crop species and varieties which justify development and making demonstration under practical farming conditions ;

(c) investigation and determining suitable cultivation methods and other agricultural practices applicable to the region and crops ;

(d) training local counterparts in the field of agronomy.

Qualifications.—Degree in agriculture with ten years' minimum experience—knowledge of cropping and land use problems in tropical uplands would be an advantage. Ability to design and direct plans to advise and help small farmers in applying improved farming practices. Interest in the socio-economic problems and incentives of the farmers and certain degree of knowledge of supervised credit. Ability to establish and maintain good personal relations with Government officials and experts in the field.

Languages.—Good knowledge of Spanish. Knowledge of any of the other official languages of the Organization would be an asset.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Office of Personnel, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 5th October, 1970. Quote 430-AGP-50.

Date issued.—10th August, 1970.

Closing date.—5th October, 1970.

Duty station.—Valdivia, Chile.

Duration.—36 months.

Starting date.—1st January, 1971.

Background information.—The UN Development Programme in co-operation with the Government of Chile has established a project at the Universidad Austral de Chile for the purpose of establishing training facilities to provide qualified personnel for the milk processing industry, and to initiate applied research in milk technology.

In particular the project will :

(1) train teaching staff in the fields of microbiology, chemistry and the technologies of milk handling and milk products ;

(2) train workers, technicians and administrators for the dairy industry ;

(3) promote applied research and experimentation in the dairy industry to meet its practical requirements ; and

(4) provide and disseminate information on dairy technology to the industry.

Duties.—Under the general supervision of the Project Manager, the Lecturer in Chemistry will be required to ;

(1) plan, organise and run the dairy chemistry courses at the various levels and to give lectures and supervise laboratory work in this subject ;

(2) train counterpart staff and to propose suitable candidates for fellowships in dairy chemistry ;

(3) suggest and initiate appropriate research projects in the dairy chemistry sphere which have particular application to Chilean conditions ;

(4) undertake such other duties as may be required.

Qualifications.—University degree in pure or applied chemistry or in dairy science with a post-graduate degree in dairy chemistry.

Experience.—10 years' teaching experience in dairy chemistry, mostly at the graduate level and at least 5 years research experience.

Languages.—A good knowledge of Spanish essential and at least a working knowledge of English.

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—DAIRY OFFICER (DESIGN ENGINEERING EXPERT), IND. 70/22 "OPERATION FLOOD PROGRAMME".

Vacancy announcement No.—431-AGA-134.

Date issued.—14th August, 1970.

Closing date.—9th October, 1970.

Duty station.—Anand, India.

Duration.—48 months.

Starting date.—As soon as possible.

Background information.—The WFP (jointly administered by UNDP and FAO) has entered into an agreement with the Government of India on 4th March, 1970 (WFP Project 618) which has as its main objective the expansion of the milk processing facilities in the four metropolitan cities of Bombay, Calcutta, Delhi and Madras, from the present 1 million litres per day to 2.27 million litres per day at the end of a 5-year project period. This would involve expansion of the capacities of the milk plants already in operation, construction of a series of new milk plants in rural and urban areas for processing milk and milk products, and installation of a large

number of chilling centres. The main design office will be located near Baroda where the Indian Dairy Corporation has its headquarters. This Corporation has been made responsible by the Government of India for the execution of the project.

Duties.—The expert will be required to assist the Indian Dairy Corporation and the National Dairy Development Board in:

- (1) the engineering aspects of the planning and operation of the project;
- (2) the training of technical personnel and workers in the dairy industry.

The expert may be required to travel frequently to the different milk plants covered under the project.

Qualifications.—University degree or graduate diploma in dairy engineering.

Experience.—7 years' experience in dairy engineering, preferably with at least 3 years in an executive position. The experience should be in the field of designing of layouts for large milk plants, selection and procurement of dairy equipment and planning and scheduling of the construction of milk plants.

Languages.—A good knowledge of English is essential.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Office of Personnel, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 9th October, 1970. Quote 431-AGA-134.
