Oil Pipeline Act, 1965

APPLICATION FOR AN OIL PIPELINE LICENCE
12½-INCH O.D. PIPELINE

Notice is hereby given in accordance with section 4 of the Oil Pipelines Act, 1965, that Mobil Producing Nigeria whose registered office is at 1-5 Odunlami Street, Lagos has applied to the Federal Ministry of Mines and Power for the right to enter upon, take possession of and use for a period of twenty (20) years a strip of land on the Continental Shelf and underneath the waters thereof for the purpose of laying a 12½-inch outside diameter welded steel pipeline from the Ubit "F" Well Platform to the Ubit Production Platform both of which are located in OML-67.

DESCRIPTION

1. All that strip of land approximately 200 feet wide on the ocean bottom starting at the Ubit "F" Well Platform whose Nigerian Co-ordinates are N30,235 meters; E 636,370 meters and whose Geographic Co-ordinates are Lat. 04° 16' 27" N; Long. 08° 11' 31" E and extending on an approximate bearing of S 80° 02' W a distance of approximately 1.72 miles to the Ubit Production Platform whose Geographic Co-ordinates are N 29,755 meters; E 633,639 meters and whose Geographic Co-ordinates are Lat. 04° 16' 09" N; Long. 08° 10' 03" E. The

beginning of the pipeline at the Ubit "F" Well Platform will be in approximately 88 feet of water. The termination of the pipeline at the Ubit Production Platform will be in approximately 89 feet of water.

2. A copy of the plan of the pipeline route identifying the sea bed and the land affected may be inspected at the Mobil office located on Marina Road, Calabar, the Federal Ministry of Mines and Power, Lagos and Port Harcourt and the office at 1-5 Odunlami Street of the aforesaid Company.

3. Any person who considers that his interest or interests will be injuriously affected by the grant of the Licence should lodge, orally or in writing, not less than seven (7) days before the hearing date in paragraph 6, with the Director of Petroleum Resources, Federal Ministry of Mines and Power, Private Mail Bag 12574, Lagos notice of objection stating the interest of the objector and the grounds of objection.

4. Any Public Officer who received a verbal objection in the course of his duties shall record the name and address, interest and grounds of objection of any person lodging such a verbal objection, and shall forward the details to the Director of Petroleum Resources, Federal Ministry of Mines and Power, Private Mail Bag 12574, Lagos.

5. Matters relating to the amount of compensation payable by the aforesaid Company for the use of the sea bed and land affected shall not be material grounds to include in the objection.

6. The Delegate of the Federal Ministry of Mines and Power shall inquire into objections (if any) duly lodged in accordance with paragraphs 3 and 4 above at 10 a.m. in the Conference Room of the Federal Ministry of Mines and Power office located at Yakubu Gowon Street, Lagos on the 8th day of November, 1971 giving all parties an opportunity to be heard and reports thereof shall be sent without delay to the Director of Petroleum Resources, Federal Ministry of Mines and Power, Lagos.

7. Compensation (if any) payable by the aforesaid Company for the use of the sea bed and land affected shall be determined by negotiations between the Company and those whose interest or interests are affected.

Dated this 23rd day of September, 1971.

WESTERN NIGERIA MARKETING BOARD

OPENING OF THE 1971-72 COCOA SEASON

It is notified for general information that the Western Nigeria Marketing Board, in exercise of its powers under section 16 (n), Cap. 75 of the Laws of the Western State of Nigeria, 1959, has fixed the opening date of the 1971-72 cocoa season in the Western State as mid-night 2nd-3rd September, 1971.

Government Notice No. 1586

WESTERN NIGERIA MARKETING BOARD

COCOA PRODUCER PRICES: 1971-72 SEASON

It is notified for general information that the Western Nigeria Marketing Board, by virtue of its powers under section 16 (a) of the Marketing Board Law (Cap. 75 of the Laws of the Western Region of Nigeria, 1959), has fixed the following minimum prices per ton as the uniform prices payable for cocoa during the 1971-72 season at all gazetted buying stations in the Western State of Nigeria specified in the schedule subjoined:—

| | | Standard Cocoa (Main Crop) | Light Cocoa (Light Crop) |
|----------|---------|-------------------------------|-----------------------------|
| Grade I | | £ 155 | £ 155 |
| Grade II | | £ 140 | £ 140 |

2. The Board will bear the cost of transporting graded cocoa to the Board's Stores/port of shipment. Licensed buying agents will therefore not deduct transport costs from the uniform producer prices payable but will be reimbursed by the Board for this expenditure at the same time as advance payment is made for their gradings.

PRODUCE SALES TAX

3. Under the provisions of the Western Region Produce Sales Tax Law (Cap. 99 of the Laws of the Western Region of Nigeria, 1959), all sales of cocoa made in the Western State of Nigeria by licensed buying agents of the Western Nigeria Marketing Board are subject to Produce Sales Tax at the rate of £4 per ton.

4. For purposes of collection of this tax, for which under the Western Region Produce Sales Tax Law, 1959, the Marketing Board is accountable to the appropriate authority in respect of sales of cocoa made to it or to its licensed buying agents in the Western State, the arrangements as set out in paragraph 5 below are prescribed.

5. The uniform producer prices per ton payable by licensed buying agents of the Western Nigeria Marketing Board at all gazetted buying stations for the 1971-72 season will take into account the incidence of Produce Sales Tax and will accordingly be as follows:—

| | | Standard Cocoa (Main Crop) | Light Cocoa (Light Crop) |
|----------|---------|-------------------------------|-----------------------------|
| Grade I | | £ 151 | £ 151 |
| Grade II | | £ 136 | £ 136 |

(iii) Form Sale 132—Application by a body corporate for a ship chandler licence—(see Annex 'C') as the case may be, to which shall be attached (if an individual or Firm) evidence of registration of his business name under the Registration of Business names Act 1961, and, if a body corporate, evidence of incorporation or registration in Nigeria of the body under the Companies Decree 1968.

(b) The application is to be supported by recommendations from Shipping Companies who would like to avail themselves of the services of the applicant if licensed.

3. *Requirements for the Issue of Licence to Suitable Applicants* : (a) Where in the opinion of the Board, an applicant has been found suitable to be a ship chandler, the applicant shall be required to :—]

(i) furnish security either in cash or a properly completed bond in the sum of two hundred and fifty pounds (£250), on Form C.183—Ship Chandlers' Bond (see Customs and Excise Notice No. 56).

(ii) pay a licence fee of ten pounds (£10); and

(iii) submit two passport photographs.

(b) (i) the bond required under sub-paragraph (a) (i) above is to be signed by both the applicant and his surety.

(ii) any change in the name, status or circumstance of a surety is to be notified in writing by the ship chandler concerned to the proper Collector.

4. *Issue of Licence* : (a) Provided the requirements in paragraph 3 above have been duly satisfied the Board may approve the issue of a licence by the proper Collector of Customs and Excise on Form C.22—Ship Chandler Licence—(see Annex 'D').

(b) An application may be rejected if the Board is satisfied that the number of ship chandlers operating at a particular port is adequate.

5. *Renewal of Licence* : A licence may be renewed provided the Area Chief Collector is satisfied that a holder of a ship chandler licence has performed his duties satisfactorily and has not contravened any of the provisions of the Customs Excise and (ship chandlers) (Licensing) Regulations 1968 and is a suitable person to continue as a Licensed Ship Chandler.

(a) Licence may be renewed in any of the following circumstances :

(i) whenever a Ship Chandler changes his name from that which appears on his licence ;

(ii) annually, on the expiry date, that is, 31st December of every year.

(b) Application for the renewal of a licence shall be made in writing to the Area Chief Collector not later than the 1st day of December of the current year of the licence, and is to be accompanied by a renewal fee of ten pounds (£10). The Chief Collector is to renew the licence if he considers that the applicant is a suitable person or body to continue as a Licensed Ship Chandler.

(c) The Board reserves the right to revoke a licence at any time any provisions of the Regulations are infringed or for any other causes.

6. *Supplies to Ship Restricted to Provisions* : Supplies made to ships by a licensed ship chandler shall be limited to provisions and a list of such provisions must be submitted by the licensed ship chandler to the proper officer before the ship chandler loads the provisions on board such ship.

7. *Warning* : (a) Licensed ship chandlers are warned in their own interest, to obtain the necessary permits, as required by Customs and Excise Notice No. 3, to enter approved wharves and to board ships for the purposes of delivering provisions, confining their movements to the deck of the ship, and their activities as prescribed in regulation 10 of Legal Notice No. 94 of 1968.

(b) Any licensed ship chandler who intends to transport provisions by means of small craft is required to comply with paragraph 4 of the Customs and Excise Notice No. 35 on the Licensing of such craft.

(c) Licensed ship chandlers are also warned that it is an offence against section 67A of the Customs and Excise Management Act No. 55 of 1958, punishable by a fine of £200 and the goods in respect of which the offence was committed would be liable to forfeiture, to :

(i) furnish any statement which is false in any material particular on an application for a ship chandler licence ; or

(ii) sign any such application containing a statement which is false in any material particular.

Government Notice No. 1610

ANNOUNCEMENT OF VACANCY IN THE
FOOD AND AGRICULTURE ORGANIZATION
OF THE UNITED NATIONS

Post title (Post No., Project).—RESIDENT ENGINEER. Survey of the Agricultural Potential of the Wadi Zabid, Yemen (YEM 1)

Vacancy announcement No. 536-AGL-75.

Date issued.—9th August, 1971.

Closing date.—4th October, 1971.

Duty station.—Zabid, Yemen Arab Republic.

Duration.—9-12 months.

Starting date.—As soon as possible.

Background information.—The Wadi Zabid project is a natural resources survey of the land and water resources of this wadi. The Government of Yemen is anxious to develop the potential of the relatively fertile coastal plain adjoining the Red Sea which is crossed by wadi throughout its length. One of these is the Wadi Zabid and the Government considers that the development of this wadi, through a pilot scheme, would provide the basic experience in flood control and improved crop production on which to plan the agricultural development of the other main wadis in the coastal plain. The objective of the UNDP/SF project is to assist the Government in investigating the irrigation potential of the Wadi Zabid by surveys of the land and water characteristics of the area and design of structures for a flood irrigation system covering a projected 20,000 hectares.

The first 2-year phase of this project was completed in June of this year. The work was contracted to a consulting firm and this firm has been given the work of the second phase lasting 12 months. This second phase is to confirm the availability of groundwater for irrigation development in conjunction with the existing surface flood or spate irrigation.

Project Headquarters are in the wadi some 15 miles from the Red Sea and prefabricated houses within an enclosed camp are available. Some 6-8 experts from the consulting firm will also inhabit the project camp. Housing for the Resident Engineer, air-conditioned and furnished, is available at reasonable rent.

Duties.—As Resident Engineer he will ensure that project operations are carried out by the consulting firm in conformity with the objectives of the Plan of Operation. He will represent FAO in dealing with the consulting firm on all matters directly concerned with the project and will have a similar duty in dealing with the Government on their contribution to and participation in the project, and also on matters requiring liaison between the Government, the consulting firm and FAO. He will be responsible for all administrative matters required by FAO in executing the project and the regular submission of reports of progress on the project.

Qualifications.—Graduate of a recognized University with a degree in Engineering Science, preferably Irrigation or Geophysics.

Experience.—More than 10 years' experience in irrigation engineering and/or geophysical investigations, preferably in arid or semi-arid countries.

Languages.—A good knowledge of English is essential and a knowledge of Arabic would be an additional preference.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Office of Personnel, FAO, via delle Terme di Caracalla, 00100 Rome, Italy, by 4th October, 1971. Quote 536-AGL-75.

Date issued.—9th August, 1971.

Closing date.—4th October, 1971.

Duty station.—Wad Medani, Sudan.

Duration.—12 months.

Starting date.—As soon as possible.

Background information.—The UN Development Programme in co-operation with the Ministry of Agriculture of the Republic of Sudan has established a project for the purpose of assisting in organizing and reinforcing the Soil Survey Department to enable it to provide the necessary supervision, co-ordination and correlation of the field work and in strengthening the soil survey teams of the Department. These activities have been completed except for work in the field of soil survey interpretation and land classification. However, a proposed second phase project is currently under active consideration and has been given high priority by the Government. Should this second phase be implemented, it is expected that the post now advertised will be continued for a further period.

Duties.—In collaboration with national counterpart personnel, he will:

1. Give technical guidance for the programme and method of work of the Soil Survey Division.
2. Be responsible for development of Soil Survey interpretation and land capability evaluation, together with the national chief of the Soil Survey Division, and prepare detailed technical instructions for Soil Survey interpretation.
3. Assist in making use of all available experimental field and laboratory data in order to evaluate alternative land use and soil management practices.
4. Train the national counterpart staff in the above techniques.

Qualifications.—A degree in natural science subjects with subsequent qualification or specialization in soil survey and land classification.

Experience.—The incumbent of the post should have had seven years experience of this type of work in areas of vertisols and dark clays under semi-arid conditions.

Title of post.—Project Manager (Hydrometeorology).

Duration.—Initial appointment for one year, with possibility of extension up to 3 years.

When required.—As soon as possible.

Duty station.—Ambohitsilaozana (Station of the Malagasy Institute of Agronomic Research).

Duties.—The expert will be responsible for the general administration of a project of establishment of a hydrological network and strengthening of a rain-gauge and agrometeorological network in the region of Lake Alaotra (7050 km²) in Madagascar. Further, with the assistance of a technician-hydrologist and of a specialist in data processing, he will be required to establish and develop a preliminary hydrometeorological study of the region, to conduct an analysis of the water balance on the basis of data acquired prior to or after the establishment of the network and to introduce a system of processing and publication of agrometeorological and hydrological data of the region.

Qualifications.—The expert must have a university degree in Science (physics, mathematics, geography) or in civil engineering or in agronomy with a specialization in hydrology or hydrometeorology. Knowledge and experience of hydrological field work is essential as is an experience in the conduct of hydrometeorological studies based on water balance, using the scientific analysis methods. Knowledge of agrometeorology would be an asset.

Languages.—A good knowledge of French is essential.

Salary level.—Basic salary equivalent of US \$18,600 per annum (net of national tax) plus allowances.

Allowances

Closing date.—Applications should reach the Secretariat not later than 31st October, 1971.

ADDITIONAL INFORMATION

In the course of studies on the agricultural development of the basin of Lake Alaotra it became apparent that the basic agrometeorological and hydrological data were insufficient. On the other hand, certain data from past research were not fully used and remained scattered in different services and societies. Therefore, the aim of the project is:

- to set up an agrometeorological network.
- to rebuild and strengthen the rain-gauge network.
- to set up a hydrological network.
- to process and use past data as well as data obtained from the new networks.
- to establish the water balance of the lake.
- to train local staff.

The team of experts will consist of a Project Manager (hydrologist) and of a hydrologist, assigned to work in the lake region, as well as of the Malagasy counterpart personnel. Further, an expert in data processing will be assigned in Tananarive to the Division responsible for the data processing in the Malagasy Meteorological Service.

ANNEX TO MAG/WMO.SF/2

ESTABLISHMENT OF A SYSTEM OF FORECASTING AND DETECTION OF CYCLONES AND THUNDER- STORMS AND OF ISSUING WARNINGS TO THE POPULATION

1. Madagascar is located in a part of the world where extremely violent atmospheric disturbances, known as tropical cyclones, occur. These cyclones,

which on the average hit the island four times a year, are characterized by winds of an exceptional force and very heavy rains causing floods which are often disastrous.

2. The establishment of a system of forecasting and detection of cyclones and thunderstorms will make it possible to issue more accurate warnings to the population, enabling measures to be taken which are aimed at reduction of losses of human lives and of overall damage.

3. The activities under the project will be :

(a) Training of staff, particularly in the field of forecasting cyclones, high water, radar meteorology and radar electronics ;

(b) Establishment of three stations equipped with long range (10 cm) radar.

4. The international team of experts will consist of a Project Manager with good experience in tropical meteorology, an expert in radar meteorology and a climatologist. Furthermore, consultants will visit the project to advise the Project Manager in particular fields.

5. The total duration of the project is 42 months.
