Government Notice No. 798

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—INSECT ECOLOGIST—Western Samoa Project: Research on the control of coconut palm Rhinoceros Beetle (REG. 291).

Vacancy announcement.—No. 675-AGP-81.

Date issued.—2nd March, 1972.

Closing date.—27th April, 1972.

Duty station.—Apia—Western Samoa.

Duration.—3 years.

Starting date.—July 1972.

Background.—The prime objective of the project is to contribute to the increase of coconut production in the islands of the South Pacific region infested by rhinoceros beetle by developing suitable control techniques of this serious pest of the coconut palm, the most important cash crop in the region. Research into the problem of controlling the coconut palm rhinoceros beetle was started in 1964 with the assistance of UNDP and has been continuing. Although the methods, other than plantation clearing, for the practical control of the beetle have not yet been finalized, considerable progress has been made in research on the biology of the beetle and on biological and chemical control methods. Research will continue throughout a 3 years follow-up project.

Duties.—Under the general direction of the Project Manager and in collaboration with the insect pathologist, and the other insect ecologist, the expert will be responsible for evaluating entomopathogens in the field and develop their use for the control of the rhinoceros beetle. His duties will include:

investigating the transmission and dissemination of entomopathogens in the field;

developing the use of entomopathogens in the control of the rhinoceros beetle, conducting field experiments and assessing their effect on the beetle population;

training of counterpart personnel.

Qualifications.—University degree in Biology, Zoology or Entomology.

Experience.—At least seven years' experience in the development of insect control based on the use of entomopathogens.

Languages.—Good knowledge of English.

Other.—Specialization in animal ecology. Experience in the biological control of Dynastid beetles desirable. Working experience in the tropics.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Personnel Division, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 27th April, 1972. Quote: 675-AGP-81.

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—SMALL SCALE PROJECT—AGRONOMIST (ROOT CROPS).

Vacancy announcement.—No. 671-AGP-80.

Date issued.—1st March, 1972.

Closing date.—26th April, 1972.

Duty station.—Suva—Fiji.

Duration.—Two years.

Starting date.—As soon as possible.

Background.—Tapioca, dalo and yams form essential items of diet for a large proportion of the population. The high demand for these in recent years has not been matched by supply with a result that prices have tended to rise. Higher prices in turn have caused these items to be replaced by rice, flour and potatoes, all of which are partly or wholly imported and, hence, the substitution results in a deterioration in the balance of trade. Government policy will be to encourage increases in local production through marketing assistance, supply of fertilizers, subsidies, credit and research.

Duties.—The incumbent will first evaluate the present varieties growing in the country and will assist in the introduction of improved varieties and the testing of these for high yield, resistance to pests and diseases and adverse climatic conditions.

The incumbent will study agronomic factors limiting yields and large-scale production and will suggest improved cultural practices such as planting methods, rotation, intercropping, disease and pest control.

The incumbent will assist in the formulation of action programmes for production to meet the needs of internal and external markets.

Qualifications.—University degree in Agronomy.

Experience.—At least seven years' demonstrated successful professional experience in tropical agriculture, particularly in tropical roots and tubers, such as cassava, yams, etc.

Languages.—Very good knowledge of English.

Other.—Ability to work with colleagues of various nationalities.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Personnel Division, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 26th April, 1972. Quote: 671-AGP-80.

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—CHIEF SCIENTIST, Fishery Development Project, Argentina (ARG 10).

Vacancy announcement.—No. 674-FID-65.

Date issued.—2nd March, 1972.

Closing date.—27th April, 1972.

Duty station.—Mar del Plata—Argentina.

Duration.—2 years.

Starting date.—As soon as possible.

Background.—The sea area off Argentina contains large, but little exploited fish resources. The Government wants to develop its fisheries, and needs information on the magnitude of the possible yield of these resources, of the fleet required to obtain these yields, etc. as a basis for planning the development. During the first fisheries project ARG 10 first estimates have been obtained on the possible yield of some major fish stocks in the northern half of the area. This work has to be extended on other important fish stocks in the northern and, in particular, also in the southern part of the area, and existing fisheries should be monitored to follow the effects of fishing on the stocks as a means of improving the estimates. This work is part of a larger project including also the aspects of fish processing, marketing, etc.

Duties.—Under the general direction of the project manager, and where appropriate in close collaboration with the local counterparts and the project's master-fisherman gear technologist:

to design resource surveys aimed at evaluating the magnitude of pelagic and demersal resources and their potential yields, to supervise and assist in their execution and the analysis of the results, and to co-ordinate the work of the research vessels in the northern and southern areas;

to supervise and assist in the further development of stock assessment studies based on analysis of commercial catch data and on biological research;

to report on the results of these investigations, and to advise on the possibilities for development or, eventually, need for management of specific fisheries;

to carry out other related duties as required.

Qualifications.—University degree in biology, fisheries or related subjects.

Experience.—At least seven years' practical experience in resource evaluation by means of surveys and other stock assessment methods.

Languages.—Preferably Spanish, or English.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post, and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Personnel Division, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 27th April, 1972. Quote: 674-FID-65.

Duration.—24 months.

Starting date.—1st June, 1972.

Background.—The purpose of the project is to strengthen and integrate the services of Federal, State and Municipal institutions concerned with rural development, with special reference to the organization and rationalization of, and to financial operations with the rural co-operatives system, as well as to agricultural activities of priority status in the existent development plans.

Duties.—The expert in marketing organization and planning will participate in the project team with the following basic terms of reference:

advise governmental institutions in the review of objectives, procedures and organization of programmes and services for marketing improvement;

assist in preparing and implementing projects to improve co-operative marketing organization and methods with special reference to product transport, handling, storage, grading, packing, buying and selling, agricultural input distribution and market information, etc.;

collaborate with the governmental and non-governmental institutions in the preparation of their field personnel and organize and conduct meetings/training programmes on co-operative marketing organization and procedures.

Qualifications.—University degree including studies in economics and marketing. At least seven years' senior professional experience in co-operative marketing, preferably in a developing country.

Experience.—Previous experience of co-operative and marketing work in Latin America would be an advantage.

Languages.—A good knowledge of Portuguese or Spanish and working knowledge of English.

Other.—Ability to plan and organize technical studies and to formulate and present practical proposals for marketing improvements. Ability to write clearly and concisely.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Personnel Division, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 27th April, 1972. Quote: 678-ESR-32.

Government Notice No. 806**ANNOUNCEMENT OF FIELD POST VACANCY IN THE
FOOD AND AGRICULTURE ORGANIZATION
OF THE UNITED NATIONS**

Post title (Post No., Project).—FISHERY STATISTICIAN AND BIOLOGICAL DATA EXPERT. Fishery Research and Development Project (PER 27).

Vacancy announcement.—No. 673-FID-64.

Duty station.—Lima, Peru.

Duration.—2 years.

Starting date.—1st June, 1972.

Date issued.—2nd March, 1972.

Closing date.—27th April, 1972.

Background information.—The FAO Fishery Development Project in Peru is associated with the Instituto del Mar (IMARPE) of the Ministry of Fisheries. IMARPE is responsible for assessing the latent and exploited fishery resources of Peru and for recommending action for their exploitation and management. As part of this work IMARPE is responsible for collecting and processing the catch and effort statistics of the huge anchoveta fishery. The Ministry of Fisheries plans to improve and expand its fishery statistics programme and especially to increase its coverage of the food fish fisheries. This expansion is aimed to make available more accurate and up-to-date statistical information on the anchovy fishery, including data on the fishing effort and the precise location of catches. The first objective in the food fish statistics will be to improve the reliability of data on total catch, which will probably involve a system of sampling of the small scattered landing places.

Duties.—The incumbent will advise and assist the Ministry of Fisheries of Peru, in planning and implementing an expanded and improved fishery statistics system. In collaboration with administrators, biologists, economists, and other users, he will assist in formulating a framework under which the statistics system will operate. Using advanced planning techniques, he will define the system in terms of data requirements, data processing methods, and information outputs. He will estimate manpower and equipment requirements, draw a network of activities needed to put the system into operation, assist in the preparation of operation manuals, and arrange training for counterpart personnel. He will be responsible for advising on the implementation of the proposed improvements in the statistical system. He will give particular attention to:

ensuring that the output is in the detail, and of the reliability required by the different users;

establishing and maintaining close contact and liaison with the different sectors of the fishing industry and government to ensure that basic records and data are accurate; assisting in the data processing, especially the conduct of proper control procedures.

He will assist in the design of sampling plans for biological data and given advice on the efficient use of automatic data processing for compiling and analysing the results.

Qualifications.—University degree in Fisheries Biology, Mathematics or Statistics.

Experience.—At least five years' experience in fisheries work, preferably in the collection and processing of statistical data.

Languages.—Spanish or English essential, with a working knowledge of the other one.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Personnel Division, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 27th April, 1972. Quote: 673-FID-64.

**ANNOUNCEMENT OF FIELD POST VACANCY
IN THE FOOD AND AGRICULTURE ORGANIZATION
OF THE UNITED NATIONS**

Post title (Post No., Project).—FRESH PRODUCE HANDLING EXPERT, Sudan Food Research Centre—UNDP/SF Project SUD 43 (531).

Vacancy announcement.—No. 662-AGS-32.

Date issued.—25th February, 1972.

Closing date.—21st April, 1972.

Duty station.—Khartoum Sudan.

Duration.—18 months.

Starting date.—2nd May, 1972.

Background.—The purpose of the project is to assist the Government in further strengthening the Food Research Centre to enable it to give increased attention to the industrialization and commercialisation of Sudanese food products, by advising the state-owned and private fruit and vegetable processing factories, by identifying and promoting food industry projects, by encouraging greater production and improved distribution of fresh fruit and vegetables, and by continuing the practical training of the Centre's counterpart staff.

Duties.—Under the general supervision of the Project Manager, the expert will:

study the present methods of fresh produce handling and storage and evaluate them against more effective methods and techniques;

establish and operate facilities at the Centre for the packing and storing of fresh fruit and vegetables and through experimental and demonstration work to advise on the installation and operation of central wholesale markets in the Khartoum area;

in conjunction with the Food Microbiology Expert and the Canning Expert, produce a standards code for the industry and advise on the most convenient legislation. The particular aspects to be studied by this expert are the physical properties of the produce and packing material.

On the local fruit and vegetables in their fresh form, the expert will be chiefly concerned with citrus fruits, mangoes, tomatoes, onions and peppers. Particular attention is to be paid to such aspects (such as maturity testing) which may permit growers to benefit from placing a more acceptable produce on the market.

Qualifications.—University degree in post harvest physiology or equivalent.

Experience.—At least 7 years in the field of fresh produce handling.

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—APPLIED INSECT TOXICOLOGIST, Strengthening Plant Protection Research and Training-Korea (KOR/71/532).

Vacancy announcement.—No. 688-AGP-90.

Date issued.—9th March, 1972.

Closing date.—4th May, 1972.

Duty station.—Seoul or Suwon—Korea.

Duration.—Twelve months.

Starting date.—Sept./Oct. 1972.

Background.—The purpose of the project is to assist the Government in strengthening the extension, research, regulatory and control activities in crop protection, thereby reducing losses from crop pests and diseases and increasing quantities and quality of food and fibre crops for internal use and export.

Duties.—Under the general direction of the Project Manager, the insect toxicologist will collaborate with other experts on the project and evaluate the effectiveness of pesticides in laboratory and small-scale field trials and conduct research on pest resistance to pesticides. His duties will include:

Training of counterpart personnel in appropriate methods of pesticide bio-assay: (a) to obtain base-line susceptibility data and to monitor for the incipient development of pest resistance to pesticides (b) to determine the efficacy of individual compounds against specific pests.

Training of personnel in the principles and methods of selecting pesticides with the least possible undesirable side-effects to include human toxicological hazards, occurrences as residues in food, effects on non-target organisms with particular reference to parasites and predators of economic pests and minimum potential for cross and multiple resistance.

In association with the Plant Protection Extension Specialist and the Pest Control (non-chemical) Specialist, plan, conduct and evaluate field trials of selected pesticides.

Qualifications.—University degree in Entomology or in Agriculture with specialization in Entomology.

Experience.—At least seven years, with major emphasis on applied insect toxicology with experience in developing countries desirable.

Languages.—Good knowledge of English.

Other.—Ability to work as member of a team and to establish good personal relationships with his associates.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Government Notice No. 813

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—PROJECT MANAGER, Research on Paralytic Rabies, Palo Alto, MEX/16 (242).

Vacancy announcement.—No. 679-AGA-258.

Date issued.—2nd March, 1972.

Closing date.—27th April, 1972.

Duty station.—Mexico City.

Duration.—18 months.

Starting date.—1st August, 1972.

Background.—In co-operation with the Government of Mexico FAO has operated since 1968 a project concerned with research on paralytic rabies. The main purpose of the project is to develop methods for the effective protection of livestock from bat-transmitted rabies. Project activities include studies of outbreaks of paralytic rabies; development of improved techniques for the diagnosis of rabies in livestock and wildlife; ecological studies of vampire bats, in particular the relationship between bat ecology and rabies epizootiology; development of bat control methods; development of improved vaccines; field trials and immunity studies of vaccinated animals; training of counter-part personnel and organization of training courses. Originally scheduled to terminate in July 1972, the project is expected to be extended for a further 18 months. Activities during the envisaged Phase II of the project will mainly be similar to those described above.

Duties.—On the basis of the Plan of Operation and in close collaboration with the Director of the Instituto Nacional de Investigaciones Pecuarias, the project manager shall :

be responsible for the detailed planning, administration and execution of the project including timing and budgeting of the various elements and the preparation of technical reports ;

co-ordinate the research activities of the project in the fields of virology, ecology and epizootiology of bovine paralytic rabies ;

secure the scientific collaboration of the project with other programmes or National or International Research Centres interested in all aspects of rabies, including vampire bats ecology ;

undertake research work concerning the epizootiology of bovine paralytic rabies.

Qualifications.—A basic veterinary degree and post-graduate training in microbiology or epizootiology.

Experience.—At least 10 years in leading positions covering diagnostic and research work in veterinary microbiology or epizootiology, with active participation in programmes regarding the diagnosis and control of rabies. Experience in the organization and administration of such activities.

Languages.—Good knowledge of Spanish and a working knowledge of English or French.

Other.—Ability to work harmoniously with people of different nationalities.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Government Notice No. 814

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—AGRICULTURAL OFFICER Erosion control planning—MOR. 36 (Pre-project).

Vacancy announcement.—No. 685-AGP-87.

Date issued.—3rd March, 1972.

Closing date.—28th April, 1972.

Duty station.—Rabat—Morocco.

Duration.—Eight months (probably extended to three years).

Starting date.—As soon as possible.

Background.—To assist the Government in reformulating the concept of erosion control for land of all types and control of dam silting, and in developing appropriate techniques. This new concept should permit future activities to be precisely stated, in order that the high expenses incurred by the State to this end may be used as efficiently as possible.

The purpose of the pre-project is :

To perform a number of tasks leading to improved project definition and, hence, to preparation of the plan of operation, especially a detailed programme of work applicable to the whole project.

To initiate a number of preliminary tasks which will enable the project to reach its full effectiveness at the end of the preparatory phase represented by the pre-project.

Duties.—During the first phase of the project (pre-project) the officer will take part in evaluating erosion control work already carried out or in hand, in liaison with the other project officers and the project manager. In particular, he will endeavour to assess the benefits resulting from this work in liaison with the economist.

Subsequently and throughout the project the officer will develop, in liaison with the economist, the soil scientist and the hydro-climatologist, those cultivation systems which are the best adapted to the soil and climatic conditions prevailing in the pilot basins chosen during the first phase, as well as the most suitable cultural techniques. In general, he will help to define standards with a view to the establishment of agricultural practices which will reduce erosion on agricultural land to a minimum and, if possible, increase incomes.

Qualifications.—University degree in agriculture.

Experience.—At least seven years' experience in agricultural production under dry cultivation conditions ; experience of agriculture and especially of cultural techniques in areas susceptible to erosion.

Languages.—French and, if possible, Arabic.

Other.—It would be desirable for the candidate to have a direct part as an agronomist in a soil conservation programme.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Personnel Division, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 28th April, 1972. Quote : 685-AGP-87.

Date issued.—13th March, 1972.

Closing date.—8th May, 1972.

Duty station.—Tegucigalpa—Honduras.

Duration.—One year.

Starting date.—As soon as possible.

Background.—A five-year project starting around March 1972. The essential of the project is to assist the Government to strengthen the Forest Administration by creating a unit for forestry development,

planning and programming within the Ministry of Natural Resources. The objectives of the project are the following :

Definition and establishment on solid grounds of a strong national forest policy.

Formulation of a Forestry and Forest Industries Development Programme.

Initiation and implementation of specific forestry programmes in selected areas.

Development of managerial and technical skills of the forest administration personnel.

Development of communication programmes for mass education and participation in forestry development.

Training of forestry personnel in the above-mentioned fields.

Duties.—Under the supervision of the Project Manager and in co-operation with the counterpart staff and the other members of the international team, in particular the Reforestation specialist, the Forestry Officer (Forest Management) shall be responsible for carrying out the following tasks :

Revising the existing data regarding forest management and selection of pilot areas for forestry development.

Completing necessary inventory and other data needed for the formulation of management plans.

Formulating preliminary and definitive management plans for the pilot areas.

Actual implementation of these plans.

Training national personnel in forest management techniques.

Any other tasks which fall within his subject matter field and are found to be necessary to fulfill in the best possible way the project's objectives.

When carrying out these duties, close collaboration should be maintained with the other UNDP Forestry project, HON 5, as well as with related bilateral schemes under implementation.

Qualifications.—Degree in Forestry.

Experience.—Seven years' experience in Forest Management.

Languages.—Good knowledge of Spanish and working knowledge of English or French—preferably both languages.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Government Notice No. 818

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—HYDROMETRIST (OPAS) (Two posts) FAO/BOT/71/17.

Vacancy announcement.—No. 693-AGL-94.

Date issued.—14th March, 1972.

Closing date.—9th May, 1972.

Duty station.—(1) Maun (2) Francistown (BOTS-WANA).

Duration.—2 years.

Starting date.—As soon as possible.

Background.—Under an existing UNDP project, a national hydrological service was established. Due to difficulties in rapid recruitment and training of national staff, technical assistance and in-service training must continue, after the present project ends in May 1972, and for this purpose two hydro-metrists are required with the experience and ability to undertake responsibility for field and office duties in specified areas.

Duties.—To work under the direction of the Government's Senior Hydrological Engineer, and to undertake the organization and control, collection and preliminary analysis of hydrometric field data. To continue the in-service training of national staff in hydrometry, survey and elementary hydrological computation and processing and other related practical skills.

In addition to extensive field work, the incumbents will be expected to carry out all normal routine and departmental duties devolving upon senior staff in the course of operating and maintaining the National Hydrological Service.

Qualifications.—Either (a) University degree in engineering, science or geography, or (b) GCE A Level or equivalent including mathematics/physics as main subject, followed by an approved course of training in hydrometry.

Experience.—If (a) above, subsequent hydrologic training with at least one year's experience in field hydrometry. If (b), some ten years' practical field experience.

Language.—Fluent spoken and written English essential.

Other.—Ability in practical training is required, and previous work in developing countries is desirable. Candidates should possess the mechanical and practical skills necessary to carry out their duties in arduous and sometimes remote conditions, calling also for a high standard of fitness.

Emoluments.—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Method of application.—Applications to reach Chief, Recruitment Section, Personnel Division, FAO, via delle Terme di Caracalla, 00100-Rome, Italy, by 9th May, 1972. Quote: 693-AGL-94.
