##### ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

**Post title (Post No., Project).**—FISHING TECH-  
NOLOGIST. Fisheries Development Project ARG/65/  
510.

**Vacancy announcement.**—No. 756-FID-74.

**Date issued.**—24th April, 1972.

**Closing date.**—19th June, 1972.

**Duty station.**—Mar del Plata.

**Duration.**—24 months.

**Starting date.**—As soon as possible.

**Background.**—The sea area of Argentina contains  
large, but little exploited, fish resources. The  
Government wants to develop its fisheries, and  
needs information on the magnitude of the possible  
yield of these resources, of the fleet required to  
obtain these yields, etc. as a basis for planning the  
development. During the first fisheries project,  
ARG 10, first estimates have been obtained on the  
possible yield of some major fish stocks in the  
northern half of the area. This work has to be  
extended on other important fish stocks in the  
northern and, in particular, also in the southern part  
of the area, and existing fisheries should be monitored  
to follow the effects of fishing on the stocks as a  
means of improving the estimates. This work is part  
of a larger project including also the aspects of fish  
processing, marketing, etc.

**Duties.**—Under the general supervision of the  
Project Manager and in close collaboration with  
other project staff to conduct exploratory and  
experimental fishing, especially using sonar-guided  
purse seining methods; to specify and design modern  
purse seining gear for use in the project, train  
counterpart staff and local personnel in both theoretical  
and practical aspects of fishing technology and  
carry out other related duties as assigned by the  
Project Manager.

**Qualifications.**—Skipper's certificate.

**Experience.**—At least seven years commercial  
purse seining experience.

**Languages.**—Very good knowledge of Spanish and  
working knowledge of English or French.

**Emoluments.**—Salaries and benefits are liberal,  
commensurate with the responsibilities of the post  
and in line with the depth and breadth of training  
and experience.

**Vacancy announcement.**—No. 759-FID-77.

**Date issued.**—24th April, 1972.

**Closing date.**—19th June, 1972.

**Duty station.**—Santiago or Valdivia.

**Duration.**—24 m/m.

**Starting date.**—As soon as possible.

**Background.**—The inland water fisheries are one of the significant resources of Chile. Still relatively undeveloped, they are capable of making an important contribution to the economy of the country through proper commercial exploitation, the stimulation of sport fishing and related tourist activities, as well as for providing food for the local population, many of whom suffer a protein deficiency in their diet. The development of the resources will require a well planned programme and technical knowledge and equipment, to enable Chile to bring the resources into full production.

**Duties.**—Review existing data on the fisheries, the existing programme for inland fisheries, and in conjunction with the Fishery Biologist (Aquaculture) conduct a reconnaissance survey of the inland fishery resources.

Organise and conduct investigations leading to the development and management of fish production.

Conduct investigation on the composition and size of fish stocks, study the life histories of the major fish species of economic importance.

Formulate and initiate a management plan for the optimum exploitation of fisheries.

Train local counterpart personnel in the above, and prepare reports and publications.

**Qualifications.**—University degree in fishery biology or zoology.

**Experience.**—At least seven years' professional experience, chiefly in trout and anadromous fish management.

**Languages.**—Very good knowledge of Spanish and working knowledge of English or French.
