## Oil Pipeline Act Cap. 145

APPLICATION FOR AN OIL PIPELINE LICENCE  
8½ INCH O. D. PIPELINE

Notice is hereby given in accordance with section 8 of the Oil Pipeline Act Cap. 145 (as amended) that Mobil Producing Nigeria whose registered office is at 37 Marina, Lagos has applied to the Federal Ministry of Petroleum and Energy for the right to enter upon, take possession of and use for a period of twenty (20) years a strip of land on the Continental Shelf and underneath the waters thereof for the purpose of laying an 8½ inch outside diameter welded steel pipeline from the Asabo Gas Injection Platform to the Asabo 'C' Well Platform both of which are located in OML-70.

## DESCRIPTION

1. All that strip of land approximately 60.96 metres (200 feet) wide on the ocean bottom starting at the Asabo Gas Injection Platform whose Nigerian Co-ordinates are N 11782 metres ; E 592239 metres and whose Geographic Co-ordinates are Lat. 04° 06' 23" N Long. 07° 47' 42" E and extending on an approximate bearing of N 77° 10' E a distance of approximately 3.65 Km. (2.27 miles) to the site of the Asabo 'C' Well Platform whose Nigerian Co-ordinates are N 12410 metres ; E 595060 metres and whose Geographic Coordinates are Lat. 04° 06' 43" N ; Long. 07° 49' 12" E. The beginning of the pipeline at the Asabo Gas Injection Platform will be in 43.28 metres (142 feet) of water. The termination of the pipeline at the Asabo 'C' Well Platform will be in approximately 42.98 metres (141 feet) of water.

2. A copy of the plan of the pipeline route identifying the sea bed and the land affected may be inspected at the Mobil Office located on Marina Road, Calabar, the Federal Ministry of Petroleum and Energy, Department of Petroleum Resources, Lagos and Port Harcourt and the office at 37 Marina, Lagos of the aforesaid Company.

3. Any person who considers that his interest or interests will be injuriously affected by the grant of the Licence should lodge, orally or in writing, not less than seven (7) days before the hearing date in paragraph 6, with the Director of Petroleum Resources, Federal Ministry of Petroleum and Energy, Broad Street, Lagos notice of objection stating the interest of the objector and the grounds of objection.

4. Any Public Officer who received a verbal objection in the course of his duties shall record the name and address, interest and grounds of objection, of any person lodging such a verbal objection, and shall forward the details to the Director of Petroleum Resources, Federal Ministry of Petroleum and Energy, Private Mail Bag 12701, Lagos.

5. Matters relating to the amount of compensation payable by the aforesaid Company for the use of the sea bed and land affected shall not be material grounds to include in the objection.

6. The Delegate of the Federal Ministry of Petroleum and Energy shall inquire into objections (if any) duly lodged in accordance with paragraph 3 and 4 above at 10 a.m. in the Conference Room of the Federal Ministry of Petroleum and Energy office located at 7 Kofo Abayomi Street, Victoria Island,

Lagos on the 29th day of December, 1975 giving all parties an opportunity to be heard and reports thereof shall be sent without delay to the Director of Petroleum Resources, Federal Ministry of Petroleum and Energy, Lagos.

7. Compensation (if any) payable by the aforesaid Company for the use of the sea bed and land affected shall be determined by negotiations between the Company and those whose interest or interests are affected.

DATED this 13th day of November, 1975.

B. O. ALAWOYA,  
for Director of Petroleum Resources

## FEDERAL MINISTRY OF PETROLEUM AND ENERGY

**PRE-QUALIFICATION OF CONTRACTORS  
FOR DESIGN, SUPPLY AND CON-  
STRUCTION OF PETROLEUM PIPELINES  
AND DISTRIBUTION DEPOTS**

It is the intention of the Federal Military Government to have constructed a series of petroleum and crude oil pipelines together with associated pump stations and nine substantial storage and distribution depots. The pipelines have a total length of about 1,700 kms and vary in diameter from 8 to 20 inches.

The design and construction of the above facilities is to be the subject of international competitive tender and the Ministry of Petroleum and Energy invites suitably experienced and qualified Designer/Contractors to apply for pre-qualification as bidders.

In view of the size and complexity of the projects only substantial companies already established in the pipeline design and construction field will be pre-qualified to bid.

The Ministry has prepared a pre-qualification document which is available from the Permanent Secretary, Ministry of Petroleum and Energy, P.O. Box 12701, Lagos, or from the Ministry's Consulting Engineers—Pencol Engineering Consultants at 19 Grosvenor Place, London S.W. 1, U.K.

Companies wishing to be considered as bidders should complete the document and return to the Ministry by 31st December, 1975. Only Companies pre-qualified by the Ministry will receive Bid Documents.

Companies wishing to offer materials or services on a sub-contract basis only may also apply.

S. M. AKPE,  
Chief Engineer (Projects)

*Closing date*.—1st December, 1975.

*Dutystation*.—Rasht (Iran).

*Duration*.—38 man-months.

*Starting date*.—As soon as possible.

*Background*.—Due to a rise in the standard of living of all classes and increase in population, demand for rice is increasing considerably each year, but the production is not increasing fast enough to meet growing demand. The Government

of Iran is, therefore, anxious not only to increase rice production and improve its quality to meet the expanding demand, but also to explore the possibilities of introducing mechanisation in rice cultivation to overcome anticipated shortage of labour when the country is fully industrialised. The immediate objective of the project is to assist the Ministry of Agriculture and Natural Resources, Government of Iran, in the establishment of a Rice Research Institute at Rasht with stations and substations at other suitable places in the two main rice growing provinces for improving and strengthening research activities with a view to evolving new high-yielding varieties with other desirable characters.

**Duties.**—The incumbent will be responsible for:

1. Development of high-yielding rice varieties with good grain type;
2. Collection, evaluation and maintenance of exotic and local varieties;
3. Exploring the possibilities for mutation breeding;
4. Productions of nucleus seed.

**Qualifications.**—University degree with post-graduate work on rice breeding.

**Experience.**—At least 10 years in rice breeding work.

**Language.**—Very good knowledge of English.

**Emoluments.**—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Candidates may be requested to provide satisfactory evidence of the educational qualifications shown in their applications. Appointments to vacant positions may depend upon the candidate selected providing such evidence for inclusion in his official personnel file.

#### ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

**Post title (Post No., Project).**—PRINCIPAL TECHNICAL ADVISER/PLANT PROTECTION SPECIALIST Establishing a plant protection department PA175/021.

**Vacancy announcement.**—No. AGO/AGP/316.

**Date issued.**—6th October, 1975.

**Closing date.**—1st December, 1975.

**Duty station.**—Praia, Cape Verde Archipelago (Sao Tiago Island).

**Duration.**—One year with possibility of extension up to 30 months.

**Starting date.**—As soon as possible.

**Background.**—The Government of Cape Verde wishes to increase agricultural production in order to achieve self-sufficiency in food for local consumption and for export. In this overall effort for intensification of the production of the most promising crops,

besides the use of better varieties, improved cultural practices and fertilizers, plant protection measures require particular attention.

Considering the ecological conditions of the Cape Verde Islands, the main pests are insects and plant viruses which may cause a considerable handicap to the production of field food crops, vegetables and fruits established in the limited areas of favourable soil and topographical conditions. Therefore it has become indispensable to establish a plant protection unit for the development of pest control techniques. The Government of Cape Verde has requested the assistance of UNDP for this purpose.

**Duties.**—The Principal Technical Adviser, plant protection specialist should have an all-around knowledge of plant protection in tropical areas with both rain-fed and irrigated crops with particular experience in insect pest control plus good administrative experience. He will have to manage the UNDP inputs. He will particularly assist the Government in:

establishing a plant protection department, providing advice on its organization, establishment of facilities and programme of work and training of plant protection personnel;

studying the main insect pests of crops, with particular attention to the assessment of losses and the development of control programmes with main emphasis on cultural control, use of resistant varieties and biological control;

developing extension activities;

establishing regulatory measures and phytosanitary control of imported plant material.

**Qualifications.**—University degree in plant protection.

**Experience.**—Seven to ten years' experience in plant protection.

**Languages.**—Very good knowledge of French. Knowledge of Portuguese an asset.

**Emoluments.**—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Candidates may be requested to provide satisfactory evidence of the educational qualifications shown in their application. Appointments to vacant positions may depend upon the candidate selected providing such evidence for inclusion in his official personal file.

**Duty station.**—TEHERAN, IRAN.

**Duration.**—12 months with possibility of extension.

**Starting date.**—1st January, 1976.

**Background.**—While the preparation of studies and plans at national level for the agricultural sector in Iran is being continuously improved, increasing emphasis is being placed on the performance of work at the province level or even lower

level, in order to present a more complete, comprehensive, sound and realistic basis for development action. Within the Ministry of Agriculture and Natural Resources (MANR), the office responsible for surveys, studies and plans has already started co-operation with the Plan and Budget Organization (PBO) on such work at the provincial level. Urgent need is felt in this office to supplement the available staff with very experienced and high-level international personnel to ensure a higher level of quality of analysis of technical data and for proposals for development of programmes and plans for the agricultural sector in provinces under study. The question of price support policy is also under active consideration, but provincial studies already in progress need to be reinforced, by analysis of production policies, crop-wise, at province level. The immediate objectives of the project are, therefore:

(1) to help conduct agro-economic surveys, province by province;

(2) to help collate all presently available information in MANR and other Government departments relating to agricultural resources and development for each province;

(3) to help prepare comprehensive agricultural development plans for each province;

(4) to analyse factors like cost of production, demand, production and surpluses/deficits in co-operation with on-going studies, to identify possibilities of price-fixation at province level.

This project would also support and supplement the activities of projects: IRA 73/016 (Agricultural Planning, Economics and Statistics) and IRA 74/052 (Agricultural Perspective Planning and Evaluation).

**Duties.**—Under the supervision of the Project Manager, the Livestock Development Expert will:

(i) Collate and analyse presently available information on livestock production and industries in Iran.

(ii) Participate in the agro-economic surveys to be conducted in each province and to prepare the animal production sections of the reports.

(iii) Participate in the preparation of comprehensive livestock programmes integrated into the overall agricultural development plans to be submitted for each province.

(iv) Participate in the training of the local counterpart staff.

**Qualifications.**—University degree with Post-graduate Study in Animal Health or Animal Husbandry.

**Experience.**—At least seven years' experience in planning in the field of animal production.

**Language.**—Very good knowledge of English.

**Emoluments.**—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Candidates may be requested to provide satisfactory evidence of the educational qualifications shown in their application. Appointments to vacant positions may depend upon the candidate selected providing such evidence for inclusion in his official personal file.

**Duration.**—12 months with possibility of extension.

**Starting date.**—As soon as possible.

**Background.**—By a recently approved law of Agricultural Development Pools, the Agricultural Engineering Department is now called the Agricultural Development Organization. The law foresees the establishment of local regional authorities in each agricultural pool in which the Ministries of Agriculture and Natural Resources, Energy and Rural Co-operative, will be represented.

The objective of this project is to assist the new organizational set-up and to suggest an institutional framework to enable the Government, through generating activities in the private sector, to meet its set targets and to accelerate a programme for land and water development, training of personnel, as well as advising on farm mechanization systems. There will be one or two agricultural pools selected as pilot areas, one of which will be fully executed by the Agricultural Development Organization. The others will be sub-contracted to private consulting engineers working under the supervision of the Organization.

**Duties.**—Under the guidance of the Team Leader, and in collaboration with the other experts of the incumbent will co-operate on the following objectives of the project:

(a) carry out on-the-job training of the Organization's staff, personnel from province pools private consulting engineers and contractors;

(b) execute the pilot project in order to enable the personnel of the Organization to gain experience;

(c) assist the Organization in the supervision of work being carried out by the private consulting engineers and contractors.

He will be responsible for:

(i) assessing the present situation of the project areas and recommend, in close co-operation with the Irrigation Specialists, the most appropriate irrigation and drainage structures, methods and practices in different project areas, for prevailing soil, water and climatic conditions;

(ii) drawing up recommendations and demonstrating best field layout and operational procedures for drainage and irrigation projects, from the engineering standpoint;

(iii) sampling, analysing and mapping salt-affected soils, in order to determine leaching methods, efficiency of leaching, quality of water, use of saline waters for irrigations;

(iv) drainage parameters such as optimum water table depth ;

(v) selection of equipment and materials for drainage construction ;

(vi) improvement of physical condition of salt-affected soils ;

(vii) provide economic evaluation of land reclamation taking into consideration different inputs and outputs, such as water quality and quantity, reclamation procedures and techniques, drainage and irrigation, infrastructures and returns from crop production during different stages of reclamation.

**Qualifications.**—University degree with Post-graduate studies in Irrigation and Drainage Engineering or equivalent.

**Experience.**—At least seven years' experience in irrigated agriculture in arid and semi-arid countries. Should have broad experience in design and execution of drainage networks.

**Language.**—Very good knowledge of English.

**Emoluments.**—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Candidates may be requested to provide satisfactory evidence of the educational qualifications shown in their application. Appointments to vacant positions may depend upon the candidate selected providing such evidence for inclusion in his official personnel file.

##### ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

**Post title (Post No., Project).**—RANGE MANAGEMENT/ECOLOGY OFFICER Range Development and Marketing of Feeder Sheep for Feedlots IRA 74/056.

**Vacancy announcement.**—No. AGO/AGP/326.

**Date issued.**—13th October, 1975.

**Closing date.**—8th December, 1975.

**Duty Station.**—Teheran, Iran.

**Duration.**—12 Months (extendible).

**Starting date.**—1st April, 1976.

**Background.**—Demand for meat, principally sheep and goat meat in Iran, has grown at an increasing rate in recent years. In an effort to meet the demand, the Government has established a system of six "meat complexes" in the better range areas where marketing centres, feed lots, slaughterhouses, cold storage and other facilities have been provided. Yet production from the national flock has failed to keep pace with the rapidly increasing demand. The deficit has been met by increasing imports of slaughter sheep and carcass meat. The basic cause for the failure of efforts to increase sheep and goat production is a drastic decline in the nation's rangelands, which provide an estimated 60 to 80 per cent of the total feed requirements of the country's

livestock. Fortunately, the Government has undertaken a programme of livestock and range development. Studies and research on range problems provided scientific bases for the rehabilitation and sustained management of the country's range lands, and 1.5 million hectares of grassland has already been renovated. This project will assist in developing rangelands, increasing land sheep/goat production to meet the demand for mutton and goat meat in the country.

**Duties.**—Under the supervision of the project leader and as a member of the team, the Range Management/Ecology Officer will :

(i) participate in the study of the range areas, the selection of project sites and base camps, and in the negotiations with range users ;

(ii) lead the team work on the survey and planning of the selected range areas, on the preparation of range and livestock management plans and their application ;

(iii) provide on the job training in the field of his specialities to project staff and selected pastoralists.

**Qualifications.**—University degree in Agriculture, or Forestry science with specialization in Ecology.

**Experience.**—At least seven years' experience in arid and semi-arid grazing land ecology and management and good understanding of livestock management desirable: experience in several arid and semi-arid developing countries.

**Language.**—Very good knowledge of English.

**Emoluments.**—Salaries and benefits are liberal, commensurate with the responsibilities of the post and in line with the depth and breadth of training and experience.

Candidates may be requested to provide satisfactory evidence of the educational qualifications shown in their application. Appointments to vacant positions may depend upon the candidate selected providing such evidence for inclusion in his official personnel file.

**Closing date.**—8th December, 1975.

**Duty station.**—Ibadan, Nigeria.

**Duration.**—12 months (extendible).

**Starting date.**—As soon as possible.

**Background.**—An Agricultural Economic Planning project is being implemented under an extended phase at the request of the Nigerian Government with FAO/UNDP assistance. The project will ensure effective and efficient implementation of development plans particularly in the Western State of Nigeria so as to increase the quantity and quality of output of services from various sectors of the economy in general and the agricultural sector—crops, livestock, fish and forest products—in particular.

The project also aims at installing the Programme and Performance Budgeting System (PPBS) in its entirety in the Ministry of Agriculture and Natural Resources, Western State of Nigeria (MANR). It will then proceed to share the experience gained in MANR with other Ministries and government agencies in the Western State, other state, and the Federal Governments.

**Duties.**—Besides co-operating with the Team Leader for achieving the immediate objectives of the project, the Agricultural Statistician will provide

on-the-job training to the Nigerian staff in implementing the following tasks assigned to the Statistics Unit of the Agricultural Planning Division of the Ministry of Agriculture and Natural Resources, (MANR) Western State of Nigeria :

(1) Review of the data needs for agricultural planning, budgeting, project monitoring and evaluation.

(2) Design of field surveys and organising collection of macro and micro data, relating to the agricultural sector of the Western State of Nigeria.

(3) Designing formats and coding procedures for performance reports and specifying channels of reporting for speedy flow of information.

(4) Developing techniques for establishing unit costs and work-norms and measurement of output at activity level for various agricultural development projects.

(5) Developing techniques for verification, management and reporting of inventory of materials and equipments on government stations.

(6) Setting-up a data processing, storage and retrieval system.

(7) Compiling data for an "annual review of the economic trends in the agricultural sector".

(8) Training the staff of MANR in techniques of data collection, processing, storage and retrieval.

(9) Co-operating in organising seminars and in-service-training on the Programme and Performance Budgeting System (PPBS).

**Qualifications.**—Appropriate university degree with post-graduate education in applied statistics.

**Experience.**—At least seven years' experience in designing field surveys and organising field work for collection of agricultural statistics, setting-up data processing units, organising data storage and retrieval systems and writing computer programmes.

**Language.**—Very good knowledge of English.
