Abstract

10/10/19

754

order to be able to do this, we need to know the value of α . We can estimate α by using the fact that the distribution of α is approximately normal with mean α_0 and standard deviation σ_α . We can then use the following formula to estimate α :

the findings from the social government financial year 2000-2001, the percentage of respondents who were not satisfied with the performance of the social government was 100%.
