## EDITORIAL

The Industrial Property Journal is the Official Journal of the office of Registrar General in Rwanda Development Board. Publication of Journal is provided by the National Law N° 31/2009 of 26/10/2009 on the protection of Intellectual Property in its article 190. The Journal is published monthly by the office of Registrar General as part of the procedures for protection of Industrial Property Rights.

### Applications accepted for registration

NOTICE is given that any person who has grounds of opposition to the Registration of any of the Industrial Property advertised herein according to these classes may within 60 days make his /her opposition from the publication date.

applications processors; computer hardware accelerators; circuit boards; circuit board assemblies; data conversion circuits; data storage devices, namely transponder chips and tags and card packages containing same; development boards, evaluation boards and reference design kits for semiconductors, sensors and software; digital signal controllers; digital signal processors; direct digital synthesizers; earbuds; electronic access cards; electronic identification cards; electronic labels, electronic stickers and electronic tags for identification and security purposes; electronic tickets; electronic wristbands; headphones; high power electronics, namely radio frequency (RF) amplifiers, high side switches and battery sensors; microcircuits; microcomputers; mobile phones; near field communication (NFC) technology-enabled devices; radio frequency transistors; user interfaces for electronic devices; wireless communication devices for recording, organizing, transmitting, receiving, manipulating, and reviewing voice, text, data, image, and audio files; computer hardware, software and firmware, central processing units (CPU), semiconductors, integrated circuits, microcontrollers, and analysis and trace, all for use in the development of stand-alone software programs used in devices such as network switches, engine control modules, cat-scan machines, industrial automation controllers, avionics and wireless handsets; computer hardware and computer software based development tools, namely, compilers, debuggers, integrated development environments, run control, event analysis and trace, all for use in the development of stand-alone software programs used in industrial, consumer and automotive applications; computer hardware and computer software for transferring, storing, converting and displaying medical device data; computer hardware and software for creating, programming, controlling, encoding, scanning, reading and interpreting RFID and NFC chips and tags; computer software for charging smart phones, tablets, and mobile electronic devices; computer software for enabling functionality of safety and testing systems, apparatus and equipment; computer software for enabling functionality of sensors for use in automotive, consumer, industrial and medical applications; computer software for managing computer networks; computer software for tracking; computer software, hardware and chipsets for use with wireless communication apparatuses, consumer electronic devices, smart phones, digital cameras, IP cameras, drones, unmanned aerial vehicles (UAVS) and wearable mobile computers; computer peripherals for processing digital signals, for processing background data and information on computer operating systems, for tracking user activity and location, for enabling activation by speech and touch and for detecting sensory cues and launching applications that correspond to specific sensory cues and computer software, hardware and chipsets for use with these goods; computer software, hardware, and chipsets for streaming music and for synchronizing audio speakers in consumer electronics devices; computer software, namely compilers, linkers, support software to assist in the development of stand-alone programs, and software for assisting in the development of object oriented software applications, such as database systems; computer software, namely operating systems, board support packages (BSPS), virtualization technology software, hypervisor software, embedded software, applications programming interface (API) software, software libraries used to create other computer software; applications software for automotive, consumer, health care, medical, aerospace, military, cellular and mobile communications, networking, motor control, smart energy, and industrial applications, protocol stacks, configuration software, and optimization software; content filtering software, namely, computer software for controlling content made available to a user; control plane software; data plane software; data processing apparatus and software for enabling, controlling, managing and monitoring all aspects of a paperless payment and/or access system employing RFID (radio frequency identification) and/or NFC (near field communication) technology, including allowing users to recharge their payment accounts remotely; deep packet inspection software; downloadable computer software for developing computer hardware and software for chipsets for wireless devices; enterprise security software for use in gateway and other networking devices to provide network security; firewall software; integrated networking, security, and collaboration software; internet security software; intrusion detection and prevention software; load balancing software; VPN (virtual private network) operating software; integrated circuits, computer hardware and software for signal processing in wireless communication apparatuses, consumer electronics devices, portable media devices, mobile gaming devices, pocket computing devices, and smart phones; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; recording discs; computer network interfaces devices; electronic, electro technical and electromagnetic modules; data processing equipment; data

storage apparatus; interfaces for computers; smart cards; smart card integrated circuits; RFID chips and tags; computer hardware and software for creating, programming, controlling, encoding, scanning, reading and interpreting RFID chips and tags; contactless smart cards; dual interface smart cards; dual interface integrated circuits that provide a link between contactless cards and contact cards; writers and readers for wireless transmission to and from transponder chips; electronic apparatus for writing and reading of wireless transmission to and from transponder chips; computer programs for controlling transmission of data to and reading of data from transponder chips; data processing machines for fare determination using transponder chips; encoded smart cards; computer hardware, software and peripheral devices used for access control and authentication purposes; wearable activity trackers; wearable computer peripherals; smartphones; wearable telecommunication apparatus; multicore processors; application-specific integrated circuits (ASICs); integrated circuits embedded with software; signal processors; digital signal processors (DSPs); vector processors; vector signal processors; communications processors; network processors used in network and telecommunications equipment; application-specific hardware accelerators; wireless baseband processors; base stations on a chip, namely wireless base stations on a chip; integrated circuits, namely system basis chips and systems on a chip (SOC); multicore microcontrollers; semiconductor chip sets comprised primarily of semiconductor chips; integrated circuit modules in the form of semiconductor packages and packaging, namely redistributed chip packaging (RCP), and systems-in-package (SiP); radio frequency (RF) power transistors; radio frequency semiconductors; sensors, namely, inertial sensors, pressure sensors, magnetic sensors, touch sensors all for use in automotive, consumer, and industrial applications; proximity sensors; radar sensors; capacitive sensors; acceleration sensors; gyro sensors; sensors for computer interfaces featuring software, firmware and electronic integrated circuit chips; sensor systems comprised of sensors, computer software, microprocessors, microcontrollers, and logic or wireless protocols for enabling functionality of sensors for use in automotive, consumer, and industrial applications; electronic test instruments for developing and testing microprocessor-based systems; semiconductor memories; semiconductor devices, microcontrollers, integrated circuits, circuit boards, chipsets, all for management of operating frequency, voltage and power, optimization of static and dynamic power, power management, power optimization or power reduction; semiconductors, sensors and software for use in automotive, consumer, aerospace, military, cellular and mobile communications, networking, motor control, smart energy, and industrial applications; semiconductors and software for use in healthcare and medical applications; semiconductors, sensors and software for use in wireless connectivity, battery management, smart grid, smart metering applications, engine control units (ECUs) and tire pressure monitoring systems (TPMS); microcontrollers, firmware, sensors, and radio frequency (RF) and analog circuitry devices for use with energy efficient wireless chargers; printed circuit boards namely evaluation boards and reference design kits consisting of software for semiconductors, sensors and software; semiconductors and software for use in portable medical devices, diagnostic and patient monitoring devices, therapy devices, and medical imaging devices; computer application software, namely, computer software for use in applications for multimedia, graphics video, audio and numerically intensive computations; computer network switching software; computer convergence network software; computer network collaboration software; quality of service software; network access software; networking software for operation of chipsets; networking software for content processing; computer software, namely, firmware, applications and development tools, for use in network content processing; failover prevention software; stateful packet inspection software; stateful application inspection software; enterprise security software; wireless radio controller software; command line management software; voice over IP software; video over IP software; networking and security software for use with unified threat management equipment, gateways, integrated access devices, routers, switches, controllers, base stations, hubs, and security appliances; utility software for facilitating computer use at remote locations and for facilitating communications among mobile users over networks; computer software for providing security to remote users and for implementing computer, software, and network security measures for remote users; component-based software modeling tool featuring a graphical user interface, automatic code generators and built-in knowledge-base for use in the rapid design, development, implementation, verification and optimization of embedded applications; software for use in developing other software titles; downloadable, searchable electronic publications, namely reference manuals, user guides, application notes and product specifications on the subject of semiconductors, sensors and software; user manuals in electronic format supplied with the foregoing., (38) Providing information in the field of telecommunications and telecommunications information relating to wireless communications and mobile technologies; consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks. and (42) Providing information in the field of computers, computer software and computer systems; providing information in the field of design and development of computer data networking; providing information in the field of network security and computer security; design for others of integrated circuits, semiconductors, microprocessors, computer hardware and software, and communications software and networks; developing, designing and testing semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software, electro technical and electromagnetic modules and their parts and building elements, data storage apparatuses, interfaces, smart cards, controllers for smart cards, controllers for RFID

chips and tags for others; computer software development in the field of mobile applications; design and development of wireless communications systems for transmission and reception of voice, data and video; design and development of battery charging technology; design and development of data networking systems; design and development of network security and computer security systems; design and development of computer hardware and software for the operation and control of drones; design and development of computer hardware and software for the operation and control of robots; design and development of computer hardware and software for the operation and control of automobiles; cloud computing featuring software for transferring, storing converting and displaying medical device data; developing wireless power transfer technology for use in charging vehicles; platform as a service (PAAS) featuring computer software platforms for use in developing, programming, building, and prototyping IOT (internet of things) devices; platform as a service (PAAS) featuring computer software platforms for wireless acquisition, transmission, conversion and storage of medical device data; providing technical information in the fields of semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software; consulting in the field of telecommunications technology; design and development of wireless communications systems for authentication purposes; providing temporary use of online non-downloadable software applications, development platforms, and development tools that enable software developers to develop, program, build, and prototype software for integrated circuits, chips and data processing equipment; computer programming services; research and design of antennas for scanning, reading and interpreting RFID chips and tags; research and design of NFC (near field communications) apparatus, instruments and equipment; advisory services in relation to all the above.

and repair; replacement and remanufactured parts for all of the forementioned goods; Machine parts for use in compaction, compressing gas, demolition, earth conditioning, earth contouring, earth moving, forestry, namely cutting and cleaning trees and brush, compaction, demolition, earth conditioning, earth contouring, earth moving, landscaping, lawn care, lifting, marine propulsion, material handling, mining, mulching, paving, pipelaying, powering oil and gas drilling operations; producing power from engines and generators, pumping oil, tunnel boring, waste management, air and space, and vegetation management; Metal sealing rings for use with turbomachinery and centrifuges; metal sealing rings for machines for use in agriculture, compaction, construction, demolition, earth conditioning, earth contouring, earth moving, forestry, landscaping, lifting, marine propulsion, material handling, mining, mulching, oil and gas distribution, oil and gas exploration, oil and gas production, paving, pipelaying, power generation, road building and repair, site preparation and remediation, tunnel boring, and vegetation management; metal seals for machines for use in agriculture, compaction, construction, demolition, earth conditioning, earth contouring, earth moving, forestry, landscaping, lifting, marine propulsion, material handling, mining, mulching, oil and gas distribution, oil and gas exploration, oil and gas production, paving, pipelaying, power generation, road building and repair, site preparation and remediation, tunnel boring, and vegetation management; A full line of engine parts for backhoe loaders, skid steer loaders, multi terrain loaders, integrated tool carriers, wheel loaders, track excavators, wheeled excavators, front shovels, telescoping material handlers, track material handlers, wheeled material handlers, track-type tractors, pipelayers, track loaders, landfill compactors, soil compactors, wheel dozers, motor graders, industrial tractors, wheel tractor-scrappers, forest machines, track skidders, wheeled skidders, track feller bunchers, wheeled feller bunchers, forwarders, track harvesters, knuckleboom loaders, vibratory soil compactors, soil compactors, vibrating asphalt compactors, pneumatic compactors, asphalt pavers, track asphalt pavers, screeds, cold planers, road reclaimers, windrow elevators, soil stabilizers, underground mining loaders, waste handlers, augers, bale accumulators, blades, brooms, brushcutters, buckets, mowers, forks, grapples, hammers, harvester heads, mulchers, pulverizers, rakes, rippers, saws, shears, defacers, blowers, plows, stump grinders, thumbs, tillers, trenchers, winches, and water delivery system; motors and engines except for land vehicles; machine coupling and transmission components except for land vehicles; agricultural implements other than hand-operated, namely, bale grabs, bale spears, mulchers, rakes, tillers, trenchers for use in agriculture, compaction, construction, demolition, earth conditioning, earth contouring, earth moving, forestry, landscaping, lifting, marine propulsion, material handling, mining, mulching, oil and gas distribution, oil and gas exploration, oil and gas production, paving, pipelaying, power generation, road building and repair, site preparation and remediation, tunnel boring, and vegetation management; machine couplings and transmission components except for land vehicles; valves being parts of machines; spark plugs; air and gas filters as parts of machines or engines for mechanical purposes; air intake and exhaust assemblies for engines; water regulators being parts of machines; oil filters; couplings for machines; starters for motors and engines; electric pumps; belts for machines; blades as machines parts; attachments for vehicles, namely, grapple buckets for moving earth and loose objects; combustion engine fuel nozzles; water separators for use in engines; fuel heaters for engines; air condensers; alternators for land vehicles; anti-friction bearings for machines; anti-friction pads for machines; anti-

pollution devices for motors and engines; axles for machines; ball rings for bearings for machines, namely, for articulated trucks, on/off highway trucks, asphalt pavers, backhoe loaders, cold planers, compactors, tract loaders, dozers, draglines, drills, shovels, excavators, feller bunchers, forest machines, forwarders, harvesters, hydraulic shovels, knuckleboom loaders, material handlers, motor graders, pipelayers, road reclaimers, skidders, skid steer loaders, wheel dozers, wheel excavators for use in agriculture, compaction, construction, demolition, earth conditioning, earth contouring, earth moving, forestry landscaping, lifting, marine propulsion, material handling, mining, mulching, oil and gas distribution, oil and gas exploration, oil and gas production, paving, pipelaying, power generation, road building and repair, site preparation and remediation, tunnel boring, and vegetation management; bearing brackets for machines; engine bearings; brake linings for machines other than for vehicles; brake segments for machines other than for vehicles; brake shoes for machines other than for vehicles; carburetors; compressed air machines; compressed air pumps; Connecting rods for machines, motors, and engines; control cables being parts of machines, engines, or motors; current generators; cylinder heads for engines; cylinders for machines; cylinders for motors and engines; centering drilling bits being parts of machines; drilling heads being parts of machines; power drills; electric, diesel, gas, and natural gas generator belts; electric, diesel, gas, and natural gas generators; belts for motors and engines; fans for motors and engines; fuel transfer apparatus for internal combustion engines, namely fuel pumps; transmission gears for machines, other than for land vehicles; guards being parts of machines; hammers being parts of machines; hydraulic hammers; lubricating pumps; lubricators being parts of machines; machine fly wheels; pistons for motors; pulleys being parts of machines; electric pumps; reduction gears other than for land vehicles; shaft couplings for machines; bearings for transmission shafts being parts of machines; superchargers for motors and engines; turbochargers for motors and engines; transmission chains and shafts, other than for land vehicles; turbocompressors; parts and fittings for all the aforesaid goods sold as a unit with the goods; mechanical engine parts for land vehicles, agricultural machinery, and earth moving machinery, namely, starting motors, alternators, pistons, cylinder heads, cooling systems parts namely, water pumps for land vehicles, water pumps for use in motors and engines, oil coolers for engines, radiators, heat exchanges for motors and engines and fans for motors and engines, turbochargers, lubricating systems parts namely, oil pumps for land vehicles, oil pumps for use in motors and engines, metal and non-metal engine seals, metal and non-metal engine gaskets for vehicles, gaskets for internal combustion engines, shaft couplings for machines, gears for machines, gears for engines for machines, shafts for engines, air compressors, and blocks; crank shafts for engines, engine camshafts, engine bearings; mufflers for engines and motors; engine exhaust caps; exhaust silencers for engines; radiators and radiator caps for vehicles; exhausts for engines; current generators, compressors, and pumps as parts of machines, motors, and engines, and parts therefor, for use in agriculture, compaction, construction, demolition, earth conditioning, earth contouring, earth moving, forestry, landscaping, lawn care, lifting, marine propulsion, material handling, mining, mulching, oil and gas distribution, oil and gas exploration, oil and gas production, paving, pipelaying, power generation, road building and repair, site preparation and remediation, tunnel boring, waste management, and vegetation management; bearings; blocks, camshafts, crankshafts, cylinder heads, filters for motors and engines, frames, fuel injectors, metal engine gaskets for vehicles, liners, electric seals, pressure components for compacting earth, compressing gas, demolition, earth conditioning, earth contouring, earth moving, forestry, namely cutting and clearing trees, landscaping, lawn care, lifting, marine propulsion, material handling, mining, mulching, paving, pipelaying, powering oil and gas drilling operations, producing power from engines and generators, pumping oil, waste management, and vegetation management; winches; motors for model vehicles and/or slot cars and (12) Vehicles, apparatus for locomotion by land, air or water, and repair and replacement parts for the aforementioned goods; Vehicles, apparatus for locomotion by land, air or water for use in agriculture, compaction, construction, demolition, earth conditioning, earth contouring, earth moving, forestry, landscaping, lifting, marine, material handling, material scrapping, mining, mulching, oil and gas distribution, exploration and production, paving, pipelaying, power generation, road building and repair, site preparation and remediation, waste management, air and space, quarry aggregate and cement, vegetation management, transportation, and government and defense; and repair, replacement, and remanufactured parts for all of the foregoing goods; Vehicles, tractors, marine vehicles and apparatus for locomotion by land, air or water for use in agriculture, compaction, construction, demolition, earth conditioning, earth contouring, earth moving, forestry, landscaping, lifting, marine, material handling, material scrapping, mining, mulching, oil and gas distribution, exploration and production, paving, pipelaying, power generation, road building and repair, site preparation and remediation, waste management, air and space, quarry, aggregate and cement, vegetation management, transportation, and government and defense; and repair, replacement, and remanufactured parts for all of the forementioned goods; Vehicles, apparatus for locomotion by land, air or water, namely, trucks, off-highway trucks, articulated trucks, underground mining trucks, internal combustion fork-lift trucks, electric fork-lift trucks, electric pallet movers, manual pallet movers, asphalt pavers, backhoe loaders, cold planers, compactors, compact track and multi terrain loaders, feller bunchers, forest machines, forwarders, harvesters, highwall miners, hydraulic mining shovels, knuckleboom loaders, material handlers, motor graders, pipelayers, road reclaimers, site prep tractors, agricultural tractors, combines, windrowers, balers, disc mowers and conditioners, sickle mowers and conditioners, bale accumulators, skidders, skid steer loaders, surface mining conveyor systems, telehandlers, track loaders, underground hard rock mining machines, underground longwall mining machines, underground room and pillar mining systems, wheel dozers, wheel excavators, wheel loaders, wheel tractor scrapers, log loaders, backhoe loaders; and repair, replacement and remanufactured parts for all of the forementioned goods; structural, repair and replacement and remanufactured parts for engines for the foregoing vehicles; transmission for land vehicles and structural, repair and replacement parts therefor; locomotives; railcars; Engines for land vehicles; diesel engines for land vehicles, rocket engines for land vehicle propulsion; Vehicle parts, namely, tracks for tracked land vehicles; hydraulic circuits and hydraulic adapters for connecting components of hydraulic systems in vehicles; horns for vehicles; rear view mirrors; side view mirrors for vehicles; seats and seat belts for vehicles; seat suspension, seat cushions and seat arm rests all for vehicles; fitted seat covers for vehicles; vehicle head rest covers; brakes for vehicles; brakes linings for vehicles; brake air compressors for land vehicles; land vehicle structural parts; hydraulic apparatus for use in moving work tools attached to vehicles and not for engines or motors, namely, hydraulic drives, hydraulic gears, hydraulic pumps, and hydraulic shock absorbers; parts and fittings for all the aforesaid goods sold as a unit with the goods; parts and fittings for land vehicles, namely, engines, connecting rods for vehicles other than parts of motors and engines, transmissions for land vehicles; repair, and replacement parts for land vehicles, namely, a full line of structural parts for articulated trucks, on/off highway trucks, asphalt pavers, backhoe loaders, cold planers, compactors, track loaders, dozers, draglines, drills, shovels, excavators, feller bunchers, forest machines, forwarders, harvesters, hydraulic shovels, knuckleboom loaders, material handlers, motor graders, pipelayers, road reclaimers, skidders, skid steer loaders, wheel dozers, wheel excavators for use in agriculture, compaction, construction, demolition, earth conditioning, earth contouring, earth moving,

forestry, landscaping, lifting, marine propulsion, material handling, mining, mulching, oil and gas distribution, oil and gas exploration, oil and gas production, paving, pipelaying, power generation, road building and repair, site preparation and remediation, tunnel boring, and vegetation management; wheelbarrows; hitch covers; mud flaps; license plate holders; covers for vehicle steering wheels; automobile windshield sunshades; bicycles; tricycles; motor scooters; push scooters [vehicles]; air pumps [vehicle accessories]; bicycle horns; bicycle bells; bicycle training wheels
