2. Si, à la suite de ces consultations, une Partie Contractante estime que l'autre Partie Contractante ne requiert pas ou n'applique pas effectivement, dans le domaine mentionné au paragraphe 1, des normes de sécurité au moins égales aux normes minimales instituées au moment considéré en application de la Convention, elle informe l'autre Partie Contractante de ces consultations et l'autre Partie Contractante adopte des mesures correctives en conséquence. Si l'autre Partie Contractante ne prend pas des mesures dans un délai de trente (30) jours ou dans un délai plus long éventuellement arrêté d'un commun accord, il y a lieu d'appliquer l'article 4 du présent Accord (Révocation ou Suspension d'une autorisation d'exploitation).

3. Nonobstant les obligations énoncées par l'article 33 de la Convention, il est convenu que tout aéronef exploité ou loué par le ou les transporteur(s) aérien(s) d'une Partie Contractante pour des services à destination ou en provenance du territoire de l'autre Partie Contractante peut, pendant son séjour sur le territoire de l'autre Partie Contractante, être soumis par les représentants habilités de l'autre Partie Contractante à un examen à bord ou à l'extérieur de l'aéronef afin de vérifier la validité des documents de l'aéronef et de ceux de son équipage ainsi que l'état apparent de l'aéronef et de ses équipements pour autant que cela n'entraîne pas un retard déraisonnable.

4. Si une inspection ou une série d'inspections au sol donne lieu à :

a) des motifs sérieux de penser qu'un aéronef ou son exploitation ne respecte pas les normes minimales en vigueur au moment considéré conformément à la Convention, ou

b) des motifs sérieux de craindre des déficiences dans l'adoption et la mise en œuvre effective de normes de sécurité en vigueur au moment considéré conformément à la Convention, la Partie Contractante qui effectue l'inspection est, conformément à l'article 33 de la Convention, libre de conclure que les

critères suivant lesquels les certificats ou les licences relatifs à cet aéronef, à son opérateur ou à son équipage ont été délivrés ou validés ne sont pas égaux ou supérieurs aux normes minimales en vigueur au moment considéré conformément à la Convention.

5. En cas de refus d'accès à un aéronef exploité par le ou les transporteur(s) aérien(s) d'une Partie Contractante aux fins de son inspection au sol conformément au paragraphe 3 ci-dessus, l'autre Partie Contractante a toute latitude d'en déduire qu'il existe des motifs sérieux du type de ceux mentionnés au paragraphe 4 ci-dessus et d'en tirer les conclusions mentionnées au même paragraphe.

6. Chaque Partie Contractante se réserve le droit de suspendre ou de modifier immédiatement l'autorisation d'exploitation accordée à un ou plusieurs transporteur(s) aérien(s) de l'autre Partie Contractante si, à la suite d'une inspection au sol, d'une série d'inspections au sol, d'un refus d'accès pour inspection au sol, de consultations ou de toute autre forme de dialogue, elle conclut à la nécessité d'agir immédiatement pour assurer la sécurité de l'exploitation d'un ou de plusieurs transporteur(s) aérien(s).

7. Toute mesure prise par une Partie Contractante conformément aux paragraphes 2 ou 6 ci-dessus est suspendue dès que les faits qui l'ont motivée ont cessé d'exister.

#### **Article 8 Sûreté de l'aviation**

1. Conformément à leurs droits et obligations en vertu du droit international, les Parties Contractantes réaffirment que leur obligation mutuelle de protéger l'Aviation Civile contre les actes d'intervention illicite, pour en assurer la sûreté, fait partie intégrante du présent Accord. Sans limiter la généralité de leurs droits et obligations en vertu du droit international, les Parties Contractantes agissent, en particulier, conformément aux dispositions de la Convention relative aux infractions et à certains autres actes survenant à bord des aéronefs, signée à Tokyo le 14 septembre 1963, de la Convention pour la répression de la capture illicite d'aéronefs, signée à La Haye le 16 décembre 1970, et de toute autre convention internationale et/ou protocole qui seront en vigueur dans les deux Etats relatifs à la sûreté de l'Aviation Civile.

2. Les Parties Contractantes s'accordent mutuellement, sur demande, toute l'assistance nécessaire pour prévenir les actes de capture illicite d'aéronefs civils et autres actes illicites dirigés contre la sécurité de ces aéronefs, de leurs passagers et de leurs équipages, des aéroports et des installations et services de navigation aérienne, ainsi que toute autre menace pour la sûreté de l'Aviation Civile Internationale.
3. Les Parties Contractantes, dans leurs rapports mutuels, se conforment aux dispositions relatives à la sûreté de l'aviation qui ont été établies par l'Organisation de l'Aviation Civile Internationale et qui sont désignées comme Annexes à la Convention ; elles exigent des exploitants d'aéronefs immatriculés par elles, ou des exploitants d'aéronefs qui ont le siège principal de leur exploitation ou leur résidence permanente sur leur territoire, et des exploitants d'aéroports situés sur leur territoire, qu'ils se conforment à ces dispositions relatives à la sûreté de l'aviation.
4. Chaque Partie Contractante convient que ces exploitants d'aéronefs peuvent être tenus d'observer les dispositions relatives à la sûreté de l'Aviation Civile dont il est question au paragraphe 3 et que toute autre Partie Contractante prescrit pour l'entrée et le séjour sur son territoire et pour la sortie de son territoire. Chaque Partie Contractante veille à ce que des mesures adéquates soient appliquées effectivement sur son territoire pour protéger les aéronefs et pour assurer l'inspection des passagers, des équipages, des bagages à main, des bagages, du fret et des provisions de bord, avant et pendant l'embarquement ou le chargement. Chaque Partie Contractante examine aussi avec bienveillance toute demande que lui adresse l'autre Partie Contractante en vue d'obtenir que des mesures spéciales de sûreté raisonnables soient prises pour faire face à une menace particulière.
5. En cas d'incident ou de menace d'incident de capture illicite d'aéronefs civils ou d'autres actes illicites dirigés contre la sécurité de ces aéronefs, de leurs passagers et de leurs équipages, des aéroports ou des installations et services de navigation aérienne, les Parties Contractantes s'entraident en facilitant les communications et autres mesures appropriées, destinées à mettre fin avec rapidité et sécurité à cet incident ou à cette menace d'incident.
6. Si une Partie Contractante a des motifs raisonnables de croire que l'autre Partie Contractante s'est écartée des dispositions du présent article, ses autorités aéronautiques peuvent demander des consultations. Ces consultations débuteront dans les quinze (15) jours de la réception de la demande. L'absence

ll

d'accord satisfaisant dans les quinze (15) jours suivant le début des consultations constituera un motif pour refuser, révoquer ou suspendre les autorisations de la compagnie ou des compagnies désignées par l'autre Partie Contractante ou pour imposer des conditions à ces autorisations. Si une urgence le justifie, ou pour éviter que ne se poursuive la non-conformité aux dispositions du présent article, une Partie Contractante peut en tout temps prendre des mesures provisoires.

  - b) les exigences de l'exploitation de services qui se poursuivent au-delà de points situés sur le territoire des Parties Contractantes ;

Al

6. Des consultations entre les Parties Contractantes seront organisées chaque fois qu'une Partie Contractante demandera que la capacité offerte dans le cadre de l'Accord soit revue, afin d'assurer l'application des principes de l'Accord qui régissent l'exploitation des services.

3. Si par suite d'un conflit armé, de troubles politiques ou de circonstances spéciales et inhabituelles, une entreprise désignée d'une Partie Contractante n'est pas à même d'exploiter un service sur ses routes normales, l'autre Partie Contractante s'efforcera de faciliter la poursuite de l'exploitation de ce service en rétablissant ces routes de façon appropriée, notamment en accordant pour cette période les droits nécessaires pour faciliter une exploitation viable.

### **Article 3** **Désignation et Autorisation**

1. Chaque Partie Contractante a le droit de désigner une ou plusieurs compagnies aériennes pour exploiter les services convenus en vertu du présent Accord ainsi que de retirer ou de modifier cette désignation. Cette désignation fera l'objet d'une notification écrite par voie diplomatique entre les autorités aeronautiques des Parties Contractantes.

2. Dès la réception de cette désignation et de la demande de la compagnie aérienne désignée, dans la forme et de la manière prescrites pour l'autorisation d'exploitation, chaque Partie Contractante accorde l'autorisation d'exploitation appropriée avec le minimum de délai de procédure, à condition que :

- a) la compagnie aérienne désignée ait son principal établissement sur le territoire de la Partie Contractante qui l'a désignée ;
- b) la Partie Contractante qui a désigné la compagnie ait et maintienne sur elle un contrôle réglementaire effectif ;

3. #### **Article 4** **Refus, révocation et limitation de l'autorisation**

1. Les autorités aéronautiques de chaque Partie Contractante ont le droit de refuser les autorisations prévues à l'article 3 (Désignation et autorisation) et de révoquer ou suspendre ces autorisations ou d'imposer des conditions, de façon temporaire ou permanente si :

- a) elles n'ont pas la preuve que la compagnie désignée a son principal établissement sur le territoire de la Partie Contractante désignant l'entreprise ;
- b) elles n'ont pas la preuve que la Partie Contractante qui a désigné la compagnie a et maintient sur elle un contrôle réglementaire effectif;
- c) la Partie Contractante désignant l'entreprise ne se conforme pas aux dispositions de l'article 7 (Sécurité) ou de l'article 8 (Sûreté de l'aviation) du présent Accord ;

exercés qu'après des consultations entre les autorités aéronautiques conformément à l'article 19 (Consultations) du présent Accord.

### **Article 5 Application des lois et règlements**

1. Les lois et règlements d'une Partie Contractante régissant l'entrée sur son territoire ou le départ de son territoire des aéronefs exploités dans les services aériens internationaux, ou l'exploitation et la navigation de ces aéronefs alors qu'ils se trouvent sur son territoire, s'appliquent aux aéronefs de la compagnie aérienne désignée par chaque Partie Contractante.
2. Les lois et règlements d'une Partie Contractante relatifs à l'entrée et au séjour sur son territoire ainsi qu'au départ de son territoire de passagers, de membres d'équipage et de marchandises, y compris le courrier, tels que ceux qui régissent l'immigration, la douane, les devises ainsi que la santé publique et la quarantaine, s'appliquent aux passagers, aux membres d'équipage, aux marchandises et au courrier acheminés par les aéronefs de la compagnie aérienne désignée de chaque Partie Contractante lorsqu'ils se trouvent sur ledit territoire.
3. Aucune Partie Contractante n'accordera à sa propre compagnie aérienne ni à aucune autre une préférence par rapport à une compagnie aérienne désignée par une autre Partie Contractante et exerçant des activités semblables de transport aérien international, dans l'application de ses règlements relatifs à l'immigration, à la douane, à la quarantaine et aux autres domaines.

### **Article 6 Reconnaissance des Certificats**

1. Les certificats de navigabilité, brevets d'aptitude et licences délivrés ou validés par une Partie Contractante et toujours en vigueur sont reconnus valables par l'autre Partie Contractante aux fins de l'exploitation des services convenus.
2. Chaque Partie Contractante se réserve cependant le droit de ne pas reconnaître, pour le survol de son propre territoire et pour l'atterrissement sur son territoire, les brevets d'aptitude et les licences accordés à ses propres ressortissants par une autre Partie Contractante.

**Article 7**  
**Sécurité**

1. Chaque Partie Contractante peut en tout temps demander des consultations au sujet des normes de sécurité adoptées par une autre Partie Contractante dans des domaines qui se rapportent aux installations et services aéronautiques, aux équipages de conduite, aux aéronefs et à l'exploitation des aéronefs. Ces consultations auront lieu dans les trente (30) jours suivant la demande.

2. Si, à la suite de ces consultations, une Partie Contractante estime que l'autre Partie Contractante ne requiert pas ou n'applique pas effectivement, dans le domaine mentionné au paragraphe 1, des normes de sécurité au moins égales aux normes minimales instituées au moment considéré en application de la Convention, elle informe l'autre Partie Contractante de ces consultations et l'autre Partie Contractante adopte des mesures correctives en conséquence. Si l'autre Partie Contractante ne prend pas des mesures dans un délai de trente (30) jours ou dans un délai plus long éventuellement arrêté d'un commun accord, il y a lieu d'appliquer l'article 4 du présent Accord (Révocation ou Suspension d'une autorisation d'exploitation).

3. Nonobstant les obligations énoncées par l'article 33 de la Convention, il est convenu que tout aéronef exploité ou loué par le ou les transporteur(s) aérien(s) d'une Partie Contractante pour des services à destination ou en provenance du territoire de l'autre Partie Contractante peut, pendant son séjour sur le territoire de l'autre Partie Contractante, être soumis par les représentants habilités de l'autre Partie Contractante à un examen à bord ou à l'extérieur de l'aéronef afin de vérifier la validité des documents de l'aéronef et de ceux de son équipage ainsi que l'état apparent de l'aéronef et de ses équipements pour autant que cela n'entraîne pas un retard déraisonnable.

4. Si une inspection ou une série d'inspections au sol donne lieu à :

a) des motifs sérieux de penser qu'un aéronef ou son exploitation ne respecte pas les normes minimales en vigueur au moment considéré conformément à la Convention, ou

b) des motifs sérieux de craindre des déficiences dans l'adoption et la mise en œuvre effective de normes de sécurité en vigueur au moment considéré conformément à la Convention, la Partie Contractante qui effectue l'inspection est, conformément à l'article 33 de la Convention, libre de conclure que les

critères suivant lesquels les certificats ou les licences relatifs à cet aéronef, à son opérateur ou à son équipage ont été délivrés ou validés ne sont pas égaux ou supérieurs aux normes minimales en vigueur au moment considéré conformément à la Convention.

5. En cas de refus d'accès à un aéronef exploité par le ou les transporteur(s) aérien(s) d'une Partie Contractante aux fins de son inspection au sol conformément au paragraphe 3 ci-dessus, l'autre Partie Contractante a toute latitude d'en déduire qu'il existe des motifs sérieux du type de ceux mentionnés au paragraphe 4 ci-dessus et d'en tirer les conclusions mentionnées au même paragraphe.
6. Chaque Partie Contractante se réserve le droit de suspendre ou de modifier immédiatement l'autorisation d'exploitation accordée à un ou plusieurs transporteur(s) aérien(s) de l'autre Partie Contractante si, à la suite d'une inspection au sol, d'une série d'inspections au sol, d'un refus d'accès pour inspection au sol, de consultations ou de toute autre forme de dialogue, elle conclut à la nécessité d'agir immédiatement pour assurer la sécurité de l'exploitation d'un ou de plusieurs transporteur(s) aérien(s).
7. Toute mesure prise par une Partie Contractante conformément aux paragraphes 2 ou 6 ci-dessus est suspendue dès que les faits qui l'ont motivée ont cessé d'exister.

## Article 8

### Sûreté de l'aviation

1. Conformément à leurs droits et obligations en vertu du droit international, les Parties Contractantes réaffirment que leur obligation mutuelle de protéger l'Aviation Civile contre les actes d'intervention illicite, pour en assurer la sûreté, fait partie intégrante du présent Accord. Sans limiter la généralité de leurs droits et obligations en vertu du droit international, les Parties Contractantes agissent, en particulier, conformément aux dispositions de la Convention relative aux infractions et à certains autres actes survenant à bord des aéronefs, signée à Tokyo le 14 septembre 1963, de la Convention pour la répression de la capture illicite d'aéronefs, signée à La Haye le 16 décembre 1970, et de toute autre convention internationale et/ou protocole qui sont en vigueur dans les deux Etats relatifs à la sûreté de l'Aviation Civile.

2. Les Parties Contractantes s'accordent mutuellement, sur demande, toute l'assistance nécessaire pour prévenir les actes de capture illicite d'aéronefs civils et autres actes illicites dirigés contre la sécurité de ces aéronefs, de leurs passagers et de leurs équipages, des aéroports et des installations et services de navigation aérienne, ainsi que toute autre menace pour la sûreté de l'Aviation Civile Internationale.
3. Les Parties Contractantes, dans leurs rapports mutuels, se conforment aux dispositions relatives à la sûreté de l'aviation qui ont été établies par l'Organisation de l'Aviation Civile Internationale et qui sont désignées comme Annexes à la Convention ; elles exigent des exploitants d'aéronefs immatriculés par elles, ou des exploitants d'aéronefs qui ont le siège principal de leur exploitation ou leur résidence permanente sur leur territoire, et des exploitants d'aéroports situés sur leur territoire, qu'ils se conforment à ces dispositions relatives à la sûreté de l'aviation.
4. Chaque Partie Contractante convient que ces exploitants d'aéronefs peuvent être tenus d'observer les dispositions relatives à la sûreté de l'Aviation Civile dont il est question au paragraphe 3 et que toute autre Partie Contractante prescrit pour l'entrée et le séjour sur son territoire et pour la sortie de son territoire. Chaque Partie Contractante veille à ce que des mesures adéquates soient appliquées effectivement sur son territoire pour protéger les aéronefs et pour assurer l'inspection des passagers, des équipages, des bagages à main, des bagages, du fret et des provisions de bord, avant et pendant l'embarquement ou le chargement. Chaque Partie Contractante examine aussi avec bienveillance toute demande que lui adresse l'autre Partie Contractante en vue d'obtenir que des mesures spéciales de sûreté raisonnables soient prises pour faire face à une menace particulière.
5. En cas d'incident ou de menace d'incident de capture illicite d'aéronefs civils ou d'autres actes illicites dirigés contre la sécurité de ces aéronefs, de leurs passagers et de leurs équipages, des aéroports ou des installations et services de navigation aérienne, les Parties Contractantes s'entraident en facilitant les communications et autres mesures appropriées, destinées à mettre fin avec rapidité et sécurité à cet incident ou à cette menace d'incident.
6. Si une Partie Contractante a des motifs raisonnables de croire que l'autre Partie Contractante s'est écartée des dispositions du présent article, ses autorités aéronautiques peuvent demander des consultations. Ces consultations débuteront dans les quinze (15) jours de la réception de la demande. L'absence

d'accord satisfaisant dans les quinze (15) jours suivant le début des consultations constituera un motif pour refuser, révoquer ou suspendre les autorisations de la compagnie ou des compagnies désignées par l'autre Partie Contractante ou pour imposer des conditions à ces autorisations. Si une urgence le justifie, ou pour éviter que ne se poursuive la non-conformité aux dispositions du présent article, une Partie Contractante peut en tout temps prendre des mesures provisoires.

### **Article 9**

#### **Principes régissant l'exploitation des services agréés**

1. La ou les compagnies aériennes désignées de chaque Partie Contractante auront des possibilités équitables et égales d'exploiter des vols sur toute route convue entre les territoires des Parties Contractantes.
2. Chaque Partie Contractante permet à chaque compagnie aérienne désignée de déterminer la fréquence et la capacité du transport aérien international qu'elle offre en fonction de considérations commerciales du marché.
3. Dans l'exploitation des services agréés, les entreprises de transport aérien désignées devront prendre en considération leurs intérêts mutuels afin de ne pas affecter indument leurs services respectifs.
4. Les services assurés par une compagnie aérienne désignée en vertu des dispositions du présent Accord auront pour but essentiel de fournir une capacité de transport suffisante pour répondre aux demandes de trafic entre le pays dont ladite compagnie a la nationalité et le pays de destination finale du trafic. Le droit d'embarquer ou de débarquer sur ces services du trafic international à destination ou en provenance de pays tiers en un ou plusieurs points des routes indiquées dans le présent Accord sera exercé conformément aux principes généraux de développement ordonné du transport aérien international auxquels souscrivent les deux Parties Contractantes et sera soumis au principe général selon lequel la capacité doit être en rapport avec :
  - a) les besoins de trafic entre le pays d'origine et les pays de destination finale ;
  - b) les exigences de l'exploitation de services qui se poursuivent au-delà de points situés sur le territoire des Parties Contractantes ;
  - c) les besoins de trafic de la région traversée par la compagnie aérienne, compte tenu des services locaux et régionaux.

5. Chaque Partie Contractante convient de prendre des mesures pour éliminer toutes les formes de discrimination ou de pratiques concurrentielles déloyales nuisant à la position concurrentielle d'une compagnie aérienne désignée de l'autre Partie Contractante.

6. Des consultations entre les Parties Contractantes seront organisées chaque fois qu'une Partie Contractante demandera que la capacité offerte dans le cadre de l'Accord soit revue, afin d'assurer l'application des principes de l'Accord qui régissent l'exploitation des services.

#### **Article 10**

##### **Arrangements de partage de codes/de coopération**

1. Pour exploiter ou offrir les services autorisés sur les routes convenues, toute compagnie aérienne désignée d'une Partie Contractante peut conclure des arrangements de commercialisation en coopération notamment en matière de coentreprises, de réservation de capacité et de partage de codes avec :

- a) une ou plusieurs compagnies aériennes de l'une ou l'autre Partie Contractante;
- b) une ou plusieurs compagnies aériennes d'un pays tiers signataire de la décision de Yamoussoukro;

Sous réserve que toutes les compagnies aériennes qui concluent ces arrangements :

- i) détiennent les autorisations appropriées et
- ii) répondent aux conditions normalement appliquées à ces arrangements.

2. Les Parties Contractantes conviennent de prendre les mesures nécessaires pour faire en sorte que les consommateurs soient pleinement informés et protégés en ce qui concerne les vols en partage de code exploités en direction ou en provenance de leur territoire et que, au minimum, les renseignements nécessaires soient fournis aux passagers comme suit:

- a) par le personnel de la compagnie aérienne au moment de la réservation et à toutes les étapes du voyage ;
- b) par écrit, sur le billet et/ou tout autre document remplaçant le billet, comme une confirmation écrite, y compris des renseignements sur la personne à contacter en cas de problème ainsi qu'une indication claire de la compagnie aérienne responsable en cas de dommage ou d'accident.

**Article 11  
Location d'aéronefs**

Les compagnies aériennes désignées de chaque Partie Contractante peuvent exploiter les services visés par le présent Accord au moyen d'aéronefs loués qui répondent aux conditions applicables de sécurité et de sûreté.

**Article 12  
Approbation des programmes de vols**

1. La compagnie aérienne désignée de chaque Partie Contractante soumettra pour approbation aux autorités aéronautiques de l'autre Partie Contractante le programme de vols qu'elle envisage au moins trente (30) jours avant que les services convenus ne soient assurés. Elle fera de même pour toute modification de ce programme.
2. Dans le cas de vols supplémentaires que la compagnie aérienne désignée d'une Partie Contractante souhaite assurer sur les services convenus en dehors de l'horaire approuvé, cette compagnie demandera l'autorisation préalable des autorités aéronautiques de l'autre Partie Contractante. Ces demandes seront soumises au moins trois (3) jours ouvrables avant l'exécution des vols.

**Article 13  
Statistiques**

Les autorités aéronautiques des Parties Contractantes se communiquent mutuellement, sur demande, des statistiques périodiques ou d'autres renseignements similaires relatifs au trafic acheminé sur les services convenus.

**Article 14  
Tarifs**

1. Les tarifs sur les services visés par le présent Accord sont établis par la ou les compagnies aériennes désignées à des taux raisonnables, compte dûment tenu de tous les éléments d'appréciation, notamment des intérêts des usagers, du coût d'exploitation, des caractéristiques du service, d'un bénéfice raisonnable et d'autres considérations commerciales relatives au marché. Il ne sera pas exigé que les tarifs demandés par les compagnies aériennes soient approuvés par l'une ou l'autre des Parties Contractantes.

2. Chaque Partie Contractante peut exiger la notification ou le dépôt des tarifs que la ou les compagnies aériennes désignées proposent d'appliquer pour le transport à destination ou en provenance de son territoire.

3. Les Parties Contractantes conviennent d'accorder une attention particulière aux tarifs qui pourraient être inadmissibles parce que excessivement discriminatoires, indûment élevés ou restrictifs en raison de l'abus d'une "position dominante, artificiellement bas en raison de subventions ou d'un appui direct ou indirect.

**Article 15**  
**Redevances d'usage**

1. Aucune des Parties Contractantes n'imposera ou ne permettra que soient imposées aux compagnies aériennes désignées par l'autre Partie Contractante des redevances d'usage plus élevées que celles qui sont imposées à ses propres compagnies exploitant des services internationaux similaires.

2. Les aéroports, les voies aériennes, les services de contrôle de la circulation aérienne et de navigation aérienne, la sûreté de l'aviation et les autres installations et services connexes qui sont fournis sur le territoire d'une Partie Contractante seront mis à la disposition des compagnies aériennes de l'autre Partie Contractante à des conditions qui ne seront pas moins favorables que les conditions les plus favorables offertes à toute compagnie assurant des services aériens internationaux similaires au moment où sont conclues les modalités de leur utilisation.

**Article 16**  
**Droits de douane**

1. Chaque Partie Contractante exempte sur une base de réciprocité une compagnie aérienne désignée par l'autre Partie Contractante, dans toute la mesure que permet sa législation nationale, des droits de douane, taxes d'accise, frais de visite et autres droits et redevances nationaux sur les aéronefs, le carburant, les lubrifiants, les fournitures à usage technique consommables, les pièces de rechange y compris les moteurs, l'équipement ordinaire des aéronefs, les provisions de bord et autres articles destinés à l'utilisation ou utilisés uniquement en rapport avec l'exploitation ou l'entretien courant des aéronefs de

la compagnie aérienne désignée de l'autre Partie Contractante qui exploite les services convenus.

2. Les exemptions accordées par le présent article s'appliquent aux articles visés au paragraphe 1 :

a) introduits sur le territoire de la Partie Contractante considérée par ou au nom de la compagnie aérienne désignée par une autre Partie Contractante ;

### Article 3 Designation and authorization

- Each Party shall have the right to designate one or more airlines to operate the agreed services in accordance with this Agreement and to withdraw or alter such designation. Such designation shall be effected by virtue of a written notification between the Aeronautical Authorities of both Contracting Parties.
- On receipt of such a designation, and of application from the designated airline, in the form and manner prescribed for operating authorization, each Party shall grant the appropriate operating authorization with minimum procedural delay, provided that:

3. Each Contracting Party shall have the right to refuse to grant the authorization provided for in paragraph 2 of this Article or to impose such conditions that it considers necessary for the exercise of specified rights in Article 2 of this agreement, when that Contracting Party has no evidence that the designated airline has its principal place of business in the territory of the Contracting Party designating the company or the effective control of the designated airlines belongs to the Contracting Party designating the company.
4. On receipt of the operating authorization of paragraph 2, a designated airline may at any time begin to operate the agreed services for which it is so designated, provided that the airline complies with the applicable provisions of this Agreement.

**Article 4**  
**Withholding, revocation and limitation of authorization**

1. The aeronautical authorities of each Party shall have the right to withhold the authorizations referred to in Article 3 (Designation and authorization) of this Agreement with respect to an airline designated by any other Party, and to revoke, suspend or impose conditions on such authorizations, temporarily or permanently:

### Article 7 Safety

1. Each Party may request consultations at any time concerning the safety standards maintained by another Party in areas relating to aeronautical facilities, flight crew, aircraft and the operation of aircraft. Such consultations shall take place within thirty (30) days of that request.
2. If, following such consultations, one Contracting Party finds that the other Contracting Party does not effectively maintain and administer safety standards in any such area that are at least equal to the minimum standards established at that time pursuant to the Convention, the other Contracting Party shall be notified of those findings and the steps considered necessary to conform with those minimum standards, and the other Contracting Party shall take appropriate corrective action. Failure by the other Contracting Party to take appropriate action within thirty (30) days or such longer period as may be agreed shall be grounds for the application of Article 4 (Revocation or Suspension of Operating Authorization) of this Agreement.
3. Notwithstanding the obligations mentioned in Article 33 of the Convention, it is agreed that any aircraft operated by or, under a lease arrangement, on behalf of airline (s) of one Contracting Party on services to or from the Territory of the other Contracting Party, may, while within the Territory of the other Contracting Party, be made the subject of an examination by the authorized representatives of the other Contracting Party provided this does not cause unreasonable delay in the operation of the aircraft. The purpose of this search shall be to verify the validity of the relevant aircraft documentation, the licensing of its crew, and the apparent condition of aircraft and its equipment (in this Article called "ramp inspection").
4. If any such ramp inspection or series of ramp inspections gives rise to:

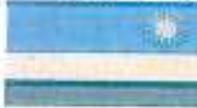

- a) serious concerns that an aircraft or the operation of an aircraft does not comply with the minimum standards established at that time pursuant to the Convention; or
- b) serious concerns that there is a lack of effective maintenance and administration of safety standards established at that time pursuant to the Convention;

The Contracting Party carrying out the inspection shall, for the purposes of Article 33 of the Convention, be free to conclude that the requirements under which the certificate or licenses in respect of that aircraft or in respect of the crew of that aircraft had been issued or rendered valid or that the requirements under which that aircraft is operated are not equal to or above the minimum standards established pursuant to the Convention.

5. In the event that access for the purpose of undertaking a ramp inspection of an aircraft operated by an airline of one Contracting Party in accordance with paragraph (3) of this Article is denied by a representative of that airline, the other Contracting Party shall be free to infer that serious concerns of the type referred to in paragraph (4) of this Article arise and draw the conclusions referred to in that paragraph.
6. Each Contracting Party reserves the right to suspend or vary the operating authorization of an airline of the other Contracting Party immediately in the event the first Contracting Party concludes, whether as a result of a ramp inspection, a series of ramp inspections, a denial of access for ramp inspection, consultation or otherwise, that immediate action is essential to the safety of an airline operation.
7. Any action by one Contracting Party in accordance with paragraphs (2) or (6) of this Article shall be discontinued once the basis for taking that action ceases to exist.

Article 8  
Aviation Security

1. Consistent with their rights and obligations under international law, the Parties reaffirm that their obligation to each other to protect the security of civil aviation against acts of unlawful

interference forms an integral part of this Agreement. Without limiting the generality of their rights and obligations under international law, the Parties shall, in particular, act in conformity with the provisions of the Convention on Offences and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Hague on 16 December 1970 and the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September 1971, the Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation, Supplementary to the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, Done at Montreal on 23 September 1971, signed at Montreal on 24 February 1988, as well as with any other Convention and Protocol relating to the security of civil aviation which the Parties adhere to.

2. Each Party shall provide, upon request of another Party, all necessary assistance to the other Party to prevent acts of unlawful seizure of civil aircraft and other unlawful acts against the safety of such aircraft, their passengers and crew, airports and air navigation facilities, and any other threat to the security of civil aviation.
3. Each Party shall, in its mutual relations, act in conformity with the aviation security provisions established by ICAO and designated as Annexes to the Convention; it shall require that operators of aircraft of its registry or operators of aircraft who have their principal place of business or permanent residence in its territory and the operators of airports in its territory act in conformity with such aviation security provisions.
4. Each Party agrees that such operators of aircraft may be required to observe the aviation security provisions referred to in paragraph 3) above required by every other Party for entry into, departure from, or while within, the territory of that other Party. Each Party shall ensure that adequate measures are effectively applied within its territory to protect the aircraft and to inspect passengers, crew, carry-on items, baggage, cargo and aircraft stores prior to and during boarding or loading. Each Party shall also give sympathetic consideration to any request from every Party for reasonable special security measures to meet a particular threat.
5. When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew, airports or air

navigation facilities occurs, the Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate rapidly and safely such incident or threat thereof.

6. When a Party has reasonable grounds to believe that another Party has departed from the provisions of this Article, the aeronautical authorities of that Party may request consultations. Such consultations shall start within fifteen (15) days of receipt of such a request from any Party. Failure to reach a satisfactory agreement within fifteen (15) days from the start of consultations shall constitute grounds for withholding, revoking, suspending or imposing conditions on the authorizations of the airline or airlines designated by another Party. When justified by an emergency, or to prevent further non-compliance with the provisions of this Article, a Party may take interim action at any time.

3. Neither Contracting Party may grant any preference to its own airline nor any other airline with regard to the designated airline of the other Contracting Party in the application of the laws and regulations provided for in this Article.

**ARTICLE 5**  
**AVIATION SECURITY**

1. Consistent with their rights and obligations under international law, as Signatories or as Parties to the following Conventions, the Contracting Parties reaffirm that their obligation to each other to protect the security of civil aviation against acts of unlawful interference forms an integral part of this Agreement. Without limiting the generality of their rights and obligations under international law, the Contracting Parties, as Signatories or as Parties to, shall in particular act in conformity with the provisions of the Convention on Offenses and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at the Hague on 16 December 1970 and the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September 1971, its Supplementary Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation, signed at Montreal on 24 February 1988, the Convention on the Marking of Plastic Explosives for the Purpose of Detection, signed at Montreal on 1 March 1991, as well as with any other Convention and Protocol relating to the Security of Civil Aviation which both Contracting Parties adhere to.
2. The Contracting Parties shall provide upon request all necessary assistance to each other to prevent acts of unlawful seizure of civil aircraft and other unlawful acts against the safety of such aircraft, their passengers and flight crew, airports and air navigation facilities, and any other threat to the security of civil aviation.
3. The Contracting Parties shall, in their mutual relations, act in conformity with the aviation security provisions established by the International Civil Aviation Organization and designated as annexes to the convention on International Civil Aviation to the extent that such security provisions are applicable to the Contracting Parties; they shall require that operators of aircraft of their registry or operators of aircraft who have their principal place of business or permanent residence in their territory and the operators of airports in their territory act in conformity with such aviation security provisions.
4. Operators of aircraft may be required to observe the aviation security provisions referred to in paragraph 3 above required by the other Contracting Party for entry into, departure from, or while within, the territory of that other contracting Party. Each Contracting Party shall ensure that adequate measures are effectively applied within its territory to protect the aircraft and to inspect passengers, flight crew, carry-on items, and baggage, cargo and aircraft stores prior to and during boarding or loading. Each Contracting Party shall also give sympathetic consideration to any request from the other Contracting Party for reasonable special security measures to meet a particular threat.
5. When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and flight crew, airports or air navigation facilities occurs, the Contracting Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate rapidly and safely such incident or threat thereof.
6. When a Contracting Party has reasonable grounds to believe that the other Contracting Party has departed from the aviation security provisions of this Article, the aeronautical authorities of that Contracting Party may request immediate consultations with the aeronautical authorities of the other Contracting Party. Failure to reach a satisfactory Agreement within 30 (thirty) days from the date of such request shall constitute grounds to withhold, revoke, limit, or impose conditions on the operating authorization and technical permission of an airline of that Contracting Party. When required by an emergency, a Contracting party may take interim action prior to the expiry of 30 (thirty) days.

**ARTICLE 6**  
**AVIATION SAFETY**

1. Each Contracting Party may request consultations at any time concerning safety standards in any area relating to air flight crews, aircraft or their operation adopted by the other Contracting Party. Such consultations shall take place within 30 days of that request.
2. If, following such consultations, one Contracting Party finds that the other Contracting Party does not effectively maintain and administer safety standards in any such area that are at least equal to the minimum standards established at that time pursuant to the Chicago Convention, the first Contracting Party shall notify the other Contracting Party of those findings and the steps considered necessary to conform with those minimum standards, and the other Contracting Party to take appropriate corrective action. Failure by the other Contracting Party to take appropriate action within 15 days or such longer period as may be agreed shall be grounds for the application of Article 8 of this Agreement to revoke or suspend operating authorization.
3. Notwithstanding the obligation mentioned in article 33 of the Chicago Convention it is agreed that any aircraft operated by or, under a lease agreement, on behalf of the airline of one Contracting Party on services to or from the territory of the other Contracting Party, may, while within the territory of the other Contracting Party be made the subject of an examination by the authorized representatives of the other Contracting Party, on board and around the aircraft to check both the validity of the aircraft documents and those of its flight crew and the apparent condition of the aircraft and its equipment (in this Article called "ramp inspection"), provided this does not lead to unreasonable delay.
4. If any such ramp inspection or series of ramp inspections gives rise to:
  - (a) serious concerns that an aircraft or the operation of an aircraft does not comply with the minimum standards established at that time pursuant to the Chicago Convention; or
  - (b) serious concerns that there is a lack of effective maintenance and administration of safety standards established at that time pursuant to the Chicago Convention;

the Contracting Party carrying out the inspection shall, for the purposes of Article 33 of the Chicago Convention, be free to conclude that the requirements under which the certificate or licenses in respect of that aircraft or in respect of the flight crew of that aircraft had been issued or rendered valid or that the requirements under which that aircraft is operated are not equal to or above the minimum standards established pursuant to the Chicago Convention.
5. In the event that access for the purpose of undertaking a ramp inspection of air aircraft operated by the airline of one Contracting Party in accordance with paragraph (3) of this Article is denied by a representative of that airline, the other contracting party shall be free to infer that serious concerns of the type referred to in paragraph (4) of this Article arise and draw the conclusions referred in that paragraph.
6. These consultations shall be held not later than 30 days after receipt of the request, and the Contracting Parties shall cooperate in securing information necessary for resolution of the issue.

5. If the Contracting Parties reach agreement with respect to a price for which a notice of dissatisfaction has been given, each party shall use its best efforts to put that agreement into effect. The price shall take effect without prejudice to paragraph 2 of this Article.
6. In case of tariff change, there shall be no approval required by the Aeronautical Authorities of the Contracting Parties concerned for tariff to be charged by the designated airline for the carriage of passenger, cargo and mail. 2. If the amendment relates to the provision of the Agreement other than those of the annex, the amendment shall be approved by each Contracting Party in accordance with its constitutional procedures.
3. If the amendments relates only to the provision of the annex it shall be agreed upon between the aeronautical authorities of both Contracting Parties.
4. In the event of the conclusion of any general multilateral convention concerning air transport by which both Contracting Parties become bound, this Agreement shall be so modified as to conform to the provision of such a convention.

**TERMINATION**

1. Each Contracting Party may at any time give notice in writing, through Diplomatic channels, to the other Contracting Party of its decision to terminate this Agreement. Such notice shall simultaneously be communicated to the International Civil Aviation Organization (ICAO).
2. The Agreement shall terminate at the mid night (at the place of a written receipt of the notice) after twelve (12) months from the date of receipt of the notice by the other Contracting Party, unless the notice is withdrawn by mutual agreement before the expiry of this period.
3. In the absence of acknowledgment of receipt by the other Contracting Party, the notice shall be deemed to have been received fourteen (14) days after the receipt of the notice by the International Civil Aviation Organization (ICAO).

Such consultations shall take place within thirty (30) days of that request.
2. If, following such consultations, one Contracting Party finds that the other Contracting Party does not effectively maintain and administer safety standards in the areas referred to in paragraph 1 that meet the Standards established at that time pursuant to the Convention, the other Contracting Party shall be notified of such findings and of the steps considered necessary to conform with those Standards. The other Contracting Party shall then take appropriate corrective action. Failure by the other Contracting Party to take appropriate action within fifteen (15) days or such longer period as may be agreed shall be grounds for application of Article 4 (Revocation) of this Agreement.

3. Pursuant to Article 16 of the Convention, it is further agreed that, any aircraft operated by, or on behalf of an airline of one Contracting Party, on service to or from the territory of another Contracting Party, may, while within the territory of the other Contracting Party be the subject of a search (in this Article called "ramp inspection") by the authorized representatives of the other Contracting Party, provided this does not cause unreasonable delay in the operation of the aircraft. Notwithstanding the obligations mentioned in Article 33 of the Convention, the purpose of this search shall be to verify the validity of the relevant aircraft documentation, the licensing of its crew, and that of the equipment and the condition of the aircraft conform to the Standards established at that time pursuant to the Convention.
4. If any such ramp inspection or series of ramp inspections referred to in paragraph 3 gives rise to:
  - a) serious concerns that an aircraft or the operation of an aircraft does not comply with the minimum standards established at that time pursuant to the Convention; or
  - b) serious concerns that there is a lack of effective maintenance and administration of safety standards established at that time pursuant to the Convention;

the Contracting Party carrying out the inspection shall, for the purposes of Article 33 of the Convention, be free to conclude that the requirements under which the certificate or licenses in respect of that aircraft or in respect of the crew of that aircraft had been issued or rendered valid or that the requirements under which that aircraft is operated are not equal to or above the minimum standards established pursuant to the Convention.

5. When urgent action is essential to ensure the safety of an airline operation, each Contracting Party reserves the right to immediately suspend or vary the operating authorization of an airline or airlines of the other Contracting Party
6. Any action by one Contracting Party in accordance with paragraph 5 above shall be discontinued once the basis for taking that action ceases to exist.

## ARTICLE 7 AVIATION SECURITY

1. Consistent with their rights and obligations under international law, the Contracting Parties reaffirm that their obligation to each other to protect the security of civil aviation against acts of unlawful interference forms an integral part of this Agreement.
2. Without limiting the generality of their rights and obligations under international law, the Contracting Parties shall in particular act in conformity with the provisions of the Convention on Offences and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at the Hague on 16 December 1970, the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September, 1971 and the Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation Supplementary to the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation done at Montreal on 23 September 1971, signed at Montreal on 24 February 1988, as well as with any other Convention and Protocol relating to the security of civil aviation which both Contracting Parties adhere to.
3. The Contracting Parties shall provide, upon request, all practicable assistance to each other to prevent acts of unlawful seizure of civil aircraft and other unlawful acts against the safety of such aircraft, their passengers and crew, airports and air navigation facilities and any other relevant threat to the security of civil aviation.
4. The Contracting Parties shall in their mutual relations, act in conformity with the aviation security provisions established by the International Civil Aviation Organization and designated as annexes to the Convention to the extent that such security provisions are applicable to the Contracting Parties.
5. In addition, the Contracting Parties shall require that operators of aircraft of their registry or operators of aircraft who have their principal place of business or permanent residence in their territory and the operators of airports in their territory act in conformity with such aviation security provisions as are applicable to the Contracting Parties.

6. Each Contracting Party agrees that such operators of aircraft may be required to observe the aviation security provisions referred to in paragraphs 4 and 5 above required by the other Party for entry into, departure from, or while within, the territory of that other Party.
7. Each Contracting Party shall ensure that measures are effectively applied within its territory to protect the aircraft and to security screen passengers, crew, carry-on items, baggage, cargo and aircraft stores prior to and during boarding or loading. Each Contracting Party also give positive consideration to any request from the other Contracting Party for reasonable special security measures to meet a particular threat.
8. When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew, airports and air navigation facilities occurs, the Contracting Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate such incident or threat as rapidly as possible commensurate with minimum risk to life from such incident or threat.
9. Each Contracting Party shall have the right, within sixty (60) days following notice, for its aeronautical authorities to conduct an assessment in the territory of the other Contracting Party of the security measures being carried out, or planned to be carried out, by aircraft operators in respect of flights arriving from, or departing to the territory of the first Contracting Party. The administrative arrangements for the conduct of such assessments shall be agreed between the aeronautical authorities and implemented without delay so as to ensure that assessments will be conducted expeditiously.
10. When a Contracting Party has reasonable grounds to believe that the other Contracting Party has departed from the provisions of this Article, the first Contracting Party may request immediate consultations. Failure to reach a satisfactory agreement

within fifteen (15) days from the date of such request shall constitute grounds for withholding, revoking, suspending or imposing conditions on the authorizations of the airline or airlines designated by the other Party. When justified by an emergency, or to prevent further non-compliance with the provisions of this Article, the first Party may take interim action at any time.

## **ARTICLE 8 RECOGNITION OF CERTIFICATES**

1. Certificates of airworthiness, certificates of competency and licenses issued, or rendered valid by one Contracting Party and still in force, shall be recognized as valid by the other Contracting Party for the purpose of operating the agreed services on the specified routes, provided that the requirements under which such certificates and licences were issued or rendered valid are equal to or above the minimum standards which may be established under the Convention.
2. If the privileges or conditions of the licences or certificates referred to in paragraph 1 above, issued by the aeronautical authorities of one Contracting Party to any person or designated airline or in respect of an aircraft used in the operation of the agreed services, should permit a difference from the minimum standards established under the Convention, and which difference has been filed with the International Civil Aviation Organization, the other Contracting Party may request consultations between the aeronautical authorities with a view to clarifying the practice in question.
3. Each Contracting Party, however, reserves the right to refuse to recognize, for flights above or landing within its own territory, certificates of competency and licenses granted to its own nationals by the other Contracting Party.

## **ARTICLE 9 FAIR COMPETITION**

1. Each Contracting Party shall allow designated airlines to have a fair and equal opportunity to compete in providing the international air transportation governed by the agreement.
2. Each Contracting Party shall take action to eliminate all forms of discrimination or unfair competitive practices adversely affecting the competitive position of a designated airline of the other Contracting Party.

A handwritten signature in black ink, appearing to read "M".

## ARTICLE 10 CAPACITY

1. Each Contracting Party shall allow each designated airline to determine the frequency and capacity of the international air transportation it offers based on commercial considerations of the marketplace.
2. Services provided by a designated airline under this Agreement shall retain as their primary objective the provision of capacity and frequency adequate to the traffic demands.
3. Each Contracting Party and its designated airline(s) shall take into consideration the interests of the other Contracting Party and its designated airline(s) so as not to affect unduly the services which the latter provides.
4. Consultations between the Contracting Parties shall be arranged whenever one Contracting Party believes that the capacity and frequency being provided under this Agreement are not in accordance with Article 9 (Fair Competition).

## ARTICLE 11 APPROVAL OF SCHEDULES

1. The designated airline of each Contracting Party shall submit, for information purposes its envisaged flight schedules to the Aeronautical Authority of the other Contracting Party forty-five (45) days prior to the inauguration of its services, specifying the frequency, the type of aircraft, and period of validity. This requirement shall likewise apply to any modification thereof.
2. If a designated airline wishes to operate ad-hoc flights supplementary to those covered in the submitted schedules, it shall notify the Aeronautical Authority of the Contracting Party concerned at least two working days prior to the operation of such flights.

## ARTICLE 12 STATISTICS

The Aeronautical Authorities of each Contracting Party shall provide or cause its designated airline to provide to the Aeronautical Authorities of the other Contracting Party, on request, periodic statistics relating to the traffic uplifted from and discharged in the territory of the other Contracting Party as may be reasonably required.

## ARTICLE 13 CODESHARE/COOPERATIVE ARRANGEMENTS

1. In operating or holding out the agreed services on the specified routes, any designated airline of one Contracting Party may enter into cooperative marketing arrangements such as code-sharing, blocked-space, or any other joint venture arrangements, with:
  - a) an airline(s) of the same Contracting Party, or
  - b) an airline(s) of the other Contracting Party; or
  - c) an airline(s) of a third country,

provided that all airlines in such arrangements hold the appropriate authority to operate on the routes and segments concerned.

2. The Contracting Parties agree to take the necessary action to ensure that consumers are fully informed and protected with respect to code shared flights operating to or from their territory and that, as a minimum, passengers be provided with the necessary information in the following ways:
  - a) orally and, if possible, in writing at the time of booking;
  - b) in written form, on the ticket itself and/or (if not possible), on the itinerary document accompanying the ticket or on any other document replacing the ticket, such as a written confirmation, including information on whom to contact in case of a problem and a clear indication of which airline is responsible in case of damage or accident; and

- c) orally again by the airline's ground staff at all stages of the journey.
- 3. All code-sharing arrangements shall be notified to the appropriate Aeronautical Authorities prior to implementation.
- 4. It is the common understanding of both Contracting parties that code-sharing services are not counted against the frequency entitlement of the marketing airline.

#### **ARTICLE 14 NON-NATIONAL PERSONNEL AND ACCESS TO LOCAL SERVICES**

- 1. The designated airline of each Contracting Party shall be allowed to bring into and to maintain in the territory of the other Contracting Party their representatives and managerial, operational and technical staff of any nationality as required in connection with the operation of agreed services.
- 2. Such representatives and staff requirements mentioned in paragraph 1 above may, at the option of the designated airline, be satisfied by its own personnel of any nationality or by using the services of any other airline, organization or company operating in the territory of the other Contracting Party and authorized to perform such services for other airlines.
- 3. The representatives and staff shall be subject to the laws and regulations in force of the other Contracting Party, and consistent with such laws and regulations:
  - a) each Contracting Party shall, with the minimum procedural delay, grant the necessary employment authorizations, visitor visas or other similar documents to the representatives and staff referred to in paragraph 1 of this Article; and
  - b) Both Contracting Parties shall facilitate and expedite the requirement of employment authorizations for personnel performing certain temporary duties not exceeding ninety (90) days.

## **ARTICLE 15 SALE AND MARKETING OF AIR SERVICE PRODUCTS**

1. The designated airline of each Contracting Party shall have the right to establish in the territory of the other Contracting Party offices for the purpose of selling and marketing international air services as well as for other ancillary products and facilities required for the provision of air transportation.
2. The designated airline of each Contracting Party shall, either directly and at its discretion, through agents, have the right to engage in the sale of air transportation and its ancillary products and facilities in the territory of the other Contracting Party.
3. The designated airline of each Contracting Party shall have the right to sell, and any person shall be free to purchase, such transportation and its ancillary products and facilities in local currency or in any other freely convertible currency.
4. The designated airlines of each Contracting Party shall have the right to pay for local expenses in the territory of the other Contracting Party in local currency or any freely convertible currencies.

## **ARTICLE 16 GROUND HANDLING**

Each designated airline shall have the right to provide their own ground handling services in the territory of the other Contracting Party or otherwise to contract these services out, in full or in part, at its option, with any of the suppliers authorized for the provision of such services. Where or as long as the laws and regulations applicable to ground handling in the territory of one Contracting Party do not allow self-handling or limit the freedom to contract these services out, each designated airline shall be treated on a non-discriminatory basis as regards their access to ground handling services provided by a supplier or suppliers.

## ARTICLE 17 TARIFFS

1. Each Contracting Party shall allow tariffs for air transportation to be established by each designated airline based upon commercial considerations in the marketplace. Intervention by the Contracting Parties shall be limited to:-
  - (a) prevention of tariffs whose application constitutes anti-competitive behavior which has or is likely to or intended to have the effect of crippling a competitor or excluding a competitor from a route;
  - (b) protection of consumers from tariffs that are unreasonably high or restrictive due to the abuse of a dominant position; and
  - (c) protection of designated airlines from tariffs that are artificially low.
2. Tariffs for international air transportation between the territories of the Contracting Parties shall not be required to be filed. Notwithstanding the foregoing, the designated airlines of the Contracting Parties shall continue to provide immediate access, on request, to information on historical, existing, and proposed tariffs to the Aeronautical Authorities of the Contracting Parties in a manner and format acceptable to those Aeronautical Authorities.
3. If either Contracting Party believes that any such tariff is inconsistent with the considerations set forth in paragraph 1 of this Article, it shall request for consultations and notify the other Contracting Party of the reasons for its dissatisfaction as soon as possible. These consultations shall be held not later than thirty (30) days after receipt of the request, and the Contracting Parties shall cooperate in securing information necessary for reasoned resolution of the issue.
