- (c) adjusting, balancing and related matters, are specified in Schedule 4 to these Rules;
- (d) pattern evaluation and approval of weighing and measuring equipment, are specified in Schedule 5 to these Rules; and
- (e) transport, are specified in Schedule 6 to these Rules.

(2) Where weighing equipment of a capacity below 25kg is graduated in both the metric and the imperial systems or where the equipment is of a non-trade type, a fee that is twice the fee prescribed under sub rule (1) shall be paid.

(3) Where two or more weigh-tables or platforms are connected to one indicating mechanism, separate fees shall be paid in respect of each weigh-table or platform in accordance with their respective capacities.

(4) Where weighing or measuring equipment is fitted with a price computing mechanism, an additional fee, equivalent to half the testing fee for the testing of the computing mechanism, shall be paid.

(5) Where weighing equipment is used to weigh and compute the capacity measurement, an additional fee, equivalent to half the testing fee for the testing of that computing mechanism, shall be paid.

(6) Where weighing or measuring equipment incorporates a ticket printing mechanism, an additional fee equivalent to half the testing fee shall be charged for testing the printing mechanism.

(7) A person who submits weighing or measuring equipment for verification shall incur the costs related to labour, storage, attendance, materials used and any other costs incurred as a result of verification of the equipment.
