**PROVINCIAL NOTICE 90 OF 2020****Adjustment of Eastern Cape Department of Health tariffs: 2020/2021****1. PURPOSE**

The purpose of this submission is to obtain Treasury Approval in terms of Treasury Regulations 7.3.1 for the adjustment of tariffs for the Eastern Cape Department of Health.

**2. BACKGROUND**

The department generates its revenue from patient fees charged to patients who present themselves for treatment at the public health institutions.

**3. METHOD OF CHARGING FEES****Patient Fees**

- (i) These fees are charged according to the
- Ability of patients to pay for healthcare services rendered – means test.
  - Level of public health service delivery
  - Level of the health practitioner rendering the health care service
  - Type of health care service rendered
  - Bed type/ ward if the patient is admitted
  - Emergency and rescue services: charges are calculated on the basis of stages of kilometres travelled and on the level of care rendered to the patient.

This means that patient fees will differ accordingly as above. Services rendered to indigent patients, however, are all inclusive and do not differentiate on bed / ward type and level of health care practitioner.

#### 4. CLASSIFICATION OF PATIENTS ACCORDING TO MEANS TEST AND EXPLANATION OF TARIFFS

Patients are thus classified as follows;

**(ii) Free Services**

There exist certain circumstances under which patients will receive services free of charge. Such services include, but are not limited to Primary health care services. These services are illustrated in Table 2.

**(iii) By Pass Fee**

A by pass fee of R50.00 will be charged to all patients who come to public health hospitals without a referral letter from primary health care institutions and or a doctor.

**5. IMPLEMENTATION OF TARIFFS**

Patient fees will increase by 4.9% from the 2019/20 financial year and the increase applies to externally funded and subsidized patients. This is a Uniform Patient Fee Schedule (UPFS) tariff that is applicable throughout the Republic of South Africa.

**6. CONSULTATION**

On approval of the tariff reviews by Provincial Treasury, communities and other relevant stakeholders will be informed, and the tariffs will be gazetted.

**7. FINANCIAL IMPLICATIONS**

The adjustment of tariffs will increase revenue.

**8. RECOMMENDATION**

Normally the tariff reviews are with effect from the beginning of the financial year, but due the COVID 19 outbreak, the process was delayed from the National Department of Health and has been finalized in May 2020. It is hereby recommended that Eastern Cape Provincial Treasury approves the adjustment of tariffs with effect from 1 July 2020.

Yours in quality health
