[PROVINCIAL NOTICE NO.31 OF 2020]

**NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION**

**PROPOSED EXPLORATION FOR PETROLEUM AND GAS ON VARIOUS FARMS IN THE FREE STATE AND KWAZULU-NATAL PROVINCES (12/3/350 ER)**

This Notice is published in terms of Section 47D (1)(c) of the National Environmental Management Act, 1998 (No. 107 of 1998) (NEMA) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended in 2017).

**Applicant:** Rhino Oil and Gas Exploration South Africa (Pty) Ltd ("Rhino Oil & Gas").

**Activity:** Rhino Oil & Gas lodged an application for an Exploration Right (ER) to explore for "Petroleum and Gas" with the Petroleum Agency of South Africa ("PASA") in terms of Section 79 of the Minerals and Petroleum Resources Development Act, 2002 (No. 28 of 2002) (MPRDA). Minerals included in the application are oil, gas, condensate, coal bed methane, helium and biogenic gas.

The 350 ER application area falls mostly within the Free State Province, with a small portion in KwaZulu-Natal (KZN). Formal residential areas and Protected Areas are excluded. In the Free State the included areas lie east of Sterkfontein Dam, north to Harrismith and beyond to Warden. From Harrismith the application area extends westward, past Kestell to Bethlehem. In the north the application area extends from Warden past Reitz up to Lindley. In KZN, the included area is from just south of Woodstock Dam north to the provincial border

The ER application is for undertaking early-phase exploration, which is aimed at indicating the presence of petroleum and gas resources that could warrant further exploration. The initial exploration work programme would be restricted to desktop data review and the undertaking of an aerial survey. No on-the-ground exploration activities are proposed and no access is required to any land.

**Environmental Assessment Practitioner:** SLR Consulting (South Africa) (Pty) Ltd ("SLR").

**Application for Environmental Authorisation:** In terms of the MPRDA, a requirement for obtaining an ER is that the applicant must comply with Chapter 5 of NEMA. Under NEMA, the proposed project requires Environmental Authorisation as it triggers Activity 18 in Listing Notice 2, 2014. As such a Scoping and EIA (S&EIA) process must be undertaken in terms of the EIA Regulations, 2014.

Rhino Oil & Gas made application for Environmental Authorisation to the competent authority in September 2019. The Scoping Report was accepted by PASA in January 2020. The S&EIA process was delayed as a result of the COVID pandemic and the S&EIA timeframes were subsequently extended with PASA's approval. Due to various challenges in sourcing contact information, not all landowners were notified at the time. Efforts have been made to identify and notify additional landowners and provide them with opportunity to participate in the S&EIA process.

SLR has prepared an Environmental Impact Assessment Report in terms of Section 23 of the EIA Regulations, 2014. The EIA report, along with those previously developed as part of the S&EIA process, are available to download from the SLR website ([www.slrconsulting.com/za/slr-documents](http://www.slrconsulting.com/za/slr-documents)). Alternatively contact SLR and the relevant documents can be supplied (email or on CD)

All comments on the EIA report should be forwarded to SLR by no later than 6 October 2020 for inclusion the final report.
