GAUTENG TRANSPORT INFRASTRUCTURE AMENDMENT BILL, 2003

Memorandum in terms of Rule 136 of the Standing Rules of the Gauteng Provincial Legislature.

1. REASONS FOR THE BILL

The Gauteng Transport Infrastructure Act, 2001 (Act No. 8 of 2001) ("the Act") was brought into operation on 31 January 2003, except for sections 44 and 60(a) dealing with outdoor advertising. During the finalisation of tender and contract documents to provide for the proposed Gautrain Rapid Rail Link, certain amendments to that Act have proved to be necessary to enable or facilitate the implementation of that and similar projects. Hence the Gauteng Transport Infrastructure Amendment Bill, 2003 ("the Bill") has been drafted to effect these amendments.

The purpose of the Bill is to provide for the necessary land use rights with respect to stations and for the necessary powers of the MEC to enter into a contract or contracts in respect of the Gautrain Rapid Rail Link or similar projects, with the approval of the MEC responsible for financial matters.

Discussions with the local authorities concerned and the Department of Development Planning and Local Government with regard to land use rights in respect of stations on the Rapid Rail Link on the one hand, and the necessity for certainty at the tendering stage in respect of land use rights in respect of stations on the other hand, have resulted in the following scheme of land use rights which are provided for in the amendment:

A new definition of "station" is inserted to include the area used for activities directly related to the operation and administration of the railway system and transport activities with respect to passengers arriving at and departing from the station. The station will thus also include areas for the parking of vehicles, parking garages, drop-off and pick-up areas, public transport and the like.

Broad consensus was reached with the local authorities concerned after discussions with them that certain land uses within the station precinct need not be regulated by town planning schemes and could be directly provided for in the Act, which would obviate the time consuming procedures in respect of amending the applicable town planning scheme. This includes certain limited commercial activities that are directly associated with commuter convenience, including advertising, selling of refreshments, newspapers and magazines, vending machines, public telephones and electronic banking facilities (automatic teller machines).

However, it is foreseen that in the circumstances of most, if not all, stations, it may be desirable to have commercial activities within the station precinct. As

these commercial activities may impact directly on the surrounding urban fabric and may have direct consequences with respect to urban infrastructure, it is necessary that land use rights with regard to commercial or retail land uses have to be regulated by the applicable town planning scheme or zoning scheme. This is to provide for the necessary input of the community in the area, as well as a decision of the municipality, before the approval of such rights takes place in terms of any relevant planning legislation. These activities will be situated within the station and land use rights in respect thereof will have to be obtained in terms of relevant planning legislation.

Regarding the determination of a route for a new provincial road or railway line, section 4 of the Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000) provides for two alternative procedures when an administrator has to come to a decision which may materially and adversely affect the rights of the public, namely a public inquiry or a notice and comment procedure. The present section 6 of the Act opted for a public inquiry procedure. This procedure can be most cumbersome and time consuming and of a duplicating nature where the issues relevant to decision making have been adequately canvassed in the procedure accompanying an environmental investigation and report as contemplated by section 6(3)(a) of the principal Act. Under these circumstances a notice and comment procedure as contemplated by section 4(3) of Act 3 of 2000 will be both practical and expeditious where the environmental report has already been compiled, whereas the public inquiry procedure contemplated in section 4(2) of Act 3 of 2000 can be reserved for those instances where specific issues arise from the notice and comment procedure and the other two reports, which may need further and broader investigation and comment. Section 6 is therefore amended to use a notice and comment procedure for the MEC to come to a decision, and implements the public inquiry procedure only in respect of specific issues. The administrative justice which is thus attained is therefore of a higher standard than that which is required by Act 3 of 2000 in that both procedures are followed.

The existing Act does not fully provide for the kind of contract which is necessary to be entered into by the MEC for the planning, construction, operation, maintenance, control and supervision of the proposed Gautrain Rapid Rail Link. It was therefore necessary to empower the MEC, also with reference to existing provisions in the Act, to conclude contracts such as the draft contract which is already in existence with the approval of the MEC responsible for financial matters.

In this regard it is necessary to provide specifically for the making available of land or rights necessary for the above purposes and to ensure that the necessary powers vested in the MEC can either be exercised by the successful contractor or by the MEC on its behalf, subject to certain safeguards in respect of powers of discretionary or executive nature. The

exercise of these powers when granted in the public interest, cannot be fettered or thwarted by the conclusion of contracts.

Furthermore, it was necessary to create a substantive section whereby personal servitudes or rights vesting in the MEC could be transferred or made available for use by the successful contractor. Servitudes and rights of personal nature cannot by common law be exercised by or transferred to a third party and a specific provision in this regard was thus necessary.

It is evident from the concept of the Rapid Rail Link that co-ordinating agreements with other companies and authorities such as the Airports Company Limited and local authorities will have to be concluded by the MEC in order to co-ordinate the integration of the Rapid Rail Link with existing airport systems, transport facilities and the surrounding urban structure. Provision in that regard is thus also made in the Bill.

A further objective of the Bill is to rationalise the situation with regard to environmental investigations. In terms of the Act and other legislation three such investigations may be required where a new road or railway line is planned, designed and constructed:

- At the stage of route determination (section 6(3)(a) of the Act);
- At the stage of preliminary design (section 8(4)(b) of the Act);
- At the stage of construction of the road or railway line (section 22 of the Environmental Conservation Act, 1989 (Act No. 73 of 1989)). This investigation also covers operational aspects.

The first two investigations have been provided for because there is sometimes a considerable lapse of time between route determination and preliminary design. However, a second investigation is not necessary when the two will take place at the same time or soon after each other, as will be the case with the Rapid Rail Link. The Bill therefore amends section 8(4)(b) of the Act to make the second investigation unnecessary where the competent authority contemplated in environmental legislation regards it as unnecessary because the environmental investigation carried out at the stage of route determination has covered all of the relevant aspects.

2. ENVIRONMENTAL IMPACT

The environmental impact of the Bill relates to the rationalisation of the environmental investigations as outlined above. The Bill has no other environmental impact.

3. FINANCIAL IMPLICATIONS OF THE BILL

There are no financial implications, except that the amendments could bring about streamlined procedures that can save costs.

There are no additional financial implications for local government. There could be cost savings in that some unnecessary rezoning applications will be avoided in the case of station precincts and rail operations areas.

4. COMMENTS RECEIVED AND SOLICITED

The provisions of the Bill have been workshopped with local authorities in the Province, who provided input as to the wording of the amendments. The Bill has also been referred for comments to the Department of Development Planning and Local Government and the Department of Agriculture, Conservation, Environment and Land Affairs, and specific discussions have been held with those Departments. The Department considers that it is not necessary to publish the Bill for comment as the amendments are of a technical nature and do not bring about any material changes or changes in principle. The Bill is also extremely urgent.

Regarding the environmental investigations, as stated above, a similar amendment was contained in the Bill that preceded the principal Act when it was published for comment, but the provision was not carried forward into the Act due to an administrative error. No objections were received to the provision.

5. CLAUSE-BY-CLAUSE EXPLANATION

Clause 1 of the Bill amends the definitions of "rail reserve" and "railway line" and inserts a new definition of "station" to cater for the objectives outlined above.

Clause 2 of the Bill substitutes section 6 of the Act. The new section provides that once a preliminary route report has been prepared and an environmental investigation done, such report and the report of the environmental investigation will be subject to a notice and comment procedure. Relevant municipalities will be consulted specifically regarding the reports. The MEC must then consider the two reports and comments received, and decide either to publish the route or to refer specific issues to a commission for advice. Such issues will be published to allow interested and affected persons to comment, and the commission must then hold a public inquiry and allow persons who have commented to appear to motivate their comments. The commission will then compile a report advising the MEC, who may then take a decision on the route. This procedure is considered less cumbersome, less time consuming and less duplicating than the present procedure, where issues which have already been adequately covered during the environmental investigation may again be subject to a public inquiry. The new section uses both a notice and comment procedure and a public inquiry procedure, thus complies more fully with the provisions of the Promotion of Administrative

Justice Act, 2000.

Clause 3 of the Bill amends section 7 of the Act to correct the cross-reference to the new section 6.

Clause 4 of the Bill amends section 8(4)(b) of the Act to provide that a second environmental investigation at the preliminary design stage is not necessary if the competent environmental authority regards it as unnecessary. Other incidental amendments necessitated by that amendment are also made to that section.

Clause 5 of the Bill amends section 10 of the Act to correct the cross-reference to the new section 6.

Clause 6 of the Bill amends section 50 to empower the MEC to operate a railway line and railway system for the activities outlined above.

Clause 7 of the Bill amends section 51 of the Act to correct a printing error.

Clause 8 of the Bill inserts a new section 51A in the Act to provide for contracts to be concluded for the construction, financing, operation, management, control and supervision of road and rail systems, as indicated above, with the approval of the MEC responsible for financial matters.

Clause 9 of the Bill provides the short title.

BILL

To amend the Gauteng Transport Infrastructure Act, 2001, so as to amend and insert certain definitions; to provide for the necessary land use rights with respect to stations and for the necessary powers of the MEC to enter into contracts for road and rail projects; to amend the procedure in relation to route determination; to make a second environmental investigation at the stage of preliminary design of a road or railway line unnecessary where the competent environmental authority decides that the environmental investigation at the stage of route determination is adequate; and to provide for incidental matters.

BE IT ENACTED by the Gauteng Provincial Legislature as follows:—

Amendment of section 1 of Act 8 of 2001

Short title

9. This Act is called the Gauteng Transport Infrastructure Amendment Act, 2003.

GAUTENG WYSIGINGSWETSONTWERP OP VERVOERINFRASTRUKTUUR, 2003**WETSONTWERP**

Om die Gauteng Wet op Vervoerinfrastruktuur, 2001, te wysig om bepaalde woordomskrywings te wysig of in te voeg; om voorsiening te maak vir die nodige grondgebruikregte met betrekking tot stasies en vir die nodige bevoegdhede van die LUR om konakte te sluit vir pad- en spoorprojekte; om die prosedure met betrekking tot roetebepaling te wysig; om te bepaal dat 'n tweede omgewings-ondersoek by die stadium van voorlopige ontwerp van 'n pad of spoorlyn onnodig is waar die bevoegde omgewingsowerheid van mening is dat die omgewingsondersoek by die stadium van roetebepaling voldoende is; en om voorsiening te maak vir verwante aangeleenthede.

DAAR WORD BEPAAL deur die Provinciale Wetgewer van Gauteng soos volg:—

Wysiging van artikel 1 van Wet 8 van 2001

1. Artikel 1 van die Gauteng Wet op Vervoerinfrastruktuur, 2001 (heirna "die Hoofwet" genoem) word hierby gewysig—

(a) deur die omskrywing van "spoorlyn" deur die volgende omskrywing te vervang:

"spoorlyn" spoorfasilitete vir die gebruik van swaar of ligte spoor en, as die samehang aldus aandui, ook 'n reg van weg [vir die gebruik van swaar of ligte spoor wat as sulks kragtens hierdie Wet geproklameer, aangewys of onteien is], hetsy bokant of onder die grondoppervlakte, asook die spoorreserwe en 'n tydelike verlegging daarvan;

(b) deur die omskrywing van "spoorreserwe" deur die volgende omskrywing te vervang:

"spoorreserwe" die volle wydte van 'n spoorlyn [soos geproklameer of onteien], en ook stasies en sinjalering- en rangeringfasilitete, en ander verwante fasilitete [met inbegrip van kommersiële fasilitete];"

(c) kan ook ander kommersiële of kleinhandelgrondgebruiken insluit wat slegs uitgeoefen mag word nadat die nodige grondgebruikregte uit hoofde van enige betrokke beplanningwetgewing goedgekeur is."

Vervanging van artikel 6 van Wet 8 van 2001

2. Artikel 6 van die Hoofwet word hierby deur die volgende artikel vervang—

"6. (1) By die bepaling van die roete van 'n provinsiale pad of spoorlyn, die wysiging van 'n roete wat kragtens subartikel (11) gepubliseer is, of kragtens artikel (10)(1) as gepubliseer geag is, of die wysiging van 'n roete van 'n bestaande provinsiale pad of spoorlyn, laat die LUR 'n voorlopige roetebelyning opstel in die vorm van 'n geskrewe verslag soos voorgeskryf en bevattende aanbevelings met betrekking tot die roete, en volg die LUR daarna die prosedure in hierdie artikel uiteengesit.

(2) Voordat 'n roete of gewysigde roete bepaal word, laat die LUR sodanige omgewingsondersoek doen en verslag met betrekking daartoe opstel, as wat die bevoegde owerheid beoog in artikel 22 van die WOB mag besluit, of die owerheid beoog in die betrokke ooreenstemmende bepalings van die NWOB wanneer daardie artikels in werking tree.

- (d) 'n verwysing na die beheermaatreëls wat kragtens artikel 7 by die pulikasie van die roete uit hoofde van subartikel (11) in werking tree.

(4) Die LUR pleeg ook oorleg met alle munisipaliteite in wie se gebiede die roete geleë sal wees en versoek hulle om binne 'n bepaalde tyd skriftelik kommentaar te lewer oor die voorlopige roeteverslag en omgewingsverslag, met spesifieke verwysing ook na die uitwerking wat die voorgestelde roete op enige ruimtelike raamwerk of ander strategiese munisipale ontwikkelingbeplanning van die betrokke munisipaliteit kan hê.

(5) Nadat die datum vir kommentaar bepaal kragtens subartikels (3)(c) en (4) verstryk het, moet die LUR die voorlopige roeteverslag en omewingsverlag asook alle skriftelike kommentaar, as daar is, wat kragtens subartikels (3)(c) en (4) voorgelê is, in ag neem, en kan die LUR daarna—

- (a) 'n roete vir die provinsiale pad of spoorlyn bepaal; of
- (b) behoudens subartikels (6) tot (9), 'n spesifieke aangeleenthoid of hede wat uit die gemelde verslae of kommentaar voortspruit na 'n kommissie verwys om 'n openbare ondersoek te hou, om oor daardie spesifieke aangeleenthede raad te verskaf binne 'n tydperk soos deur die LUR bepaal en, nadat sodanige raad in ag geneem is, 'n roete vir die provinsiale pad of spoorlyn bepaal.

- (b) nie meer as twee persone is wat deur munisipaliteite in wie se gebiede die roete geleë sal wees, genomineer is, indien sodanige personele wel binne 14 dae genomineer is nadat die munisipaliteit aldus skriftelik deur die LUR versoek is;

- (g) nie minder as twee persone is nie met gepaste regskwalifikasies en -

ondervinding:

- (i) die voorstander en vier ander lede 'n kworum sal uitmaak vir doeleindes van die werkzaamhede van die kommissie.

(7) Die LUR laat daarna 'n kennisgewing in die voorgeskrewe vormaat en op die voorgeskrewe wyse publiseer, bevattende—

- (a) 'n opsomming van die aangeleentheid of -hede wat na die kommissie verwys is;
- (b) 'n breë beskrywing van daardie deel van die roete wat deur die aangeleentheid of -hede wat na die kommissie verwys is, geraak word;

- (d) 'n uitnodiging aan alle persone wat direk geraak word deur die aangeleentheid of -hede verwys na die kommissie om—
 - (i) skriftelike kommentaar te lever voor 'n datum, nie minder as 30 dae na publikasie van die kennisgewing nie, oor die gemelde aangeleentheid of -hede; en

(8) Op die datum vermeld in die bogemelde kennisgewing, hou die kommissie en voer hy 'n openbare ondersoek uit en moet hy sodoende—

 - (i) 'n openbare verhoor moet behels; en
 - (ii) moet voldoen aan die procedures wat by openbare ondersoeke gevvolg moet word soos voorgeskryf uit hoofde van artikel 10(1)(b) van die Wet op die Bevordering van Administratiewe Geregtigheid, 2000 (Wet No. 3 van 2000); en
- (b) die ondersoek ingevolge die gemelde prosedure uitvoer.

(9) Nadat hy die openbare ondersoek uitgevoer het, moet die kommissie 'n geskrewe verslag oor die ondersoek opstel, met behoud van die beginsels, indien toepaslik, wat in artikel 3 van die Wet op Ontwikkelingsfasilitering, 1995 (Wet No. 67 van 1995) en in provinsiale beplanning- en ontwikkelingwetgewing, uiteengesit is. Die verslag bevat—

- (a) alle geskrewe kommentaar oor die aangeleentheid of -hede wat na die kommissie verwys is;
- (b) 'n opsomming van die mondeline vertoe wat by die openbare ondersoek gerig is; en
- (c) aanbevelings aan die LUR met betrekking tot die gemelde aangeleentheid of -hede, met redes vir sodanige aanbevelings.

(10) Die LUR, in oorleg met die Lid van die Uitvoerende Raad belas met ontwikkelingbeplanning, verseker dat die roetebepaling kragtens subartikels (5)(a) of (b), sover moontlik strook met enige ruimtelike raamwerk of ander strategiese provinsiale ontwikkelingbeplanning wat ingevolge ontwikkeling-beplanningwetgewing van die Provincie geformuleer is.

(11) Na bepaling van 'n roete vir die provinsiale pad of spoorlyn soos beoog in subartikels (5)(a) of (b), publiseer die LUR vermelde roete met verwysing na die middellyn daarvan, by kennisgewing in die *Provinsiale Koerant*, welke kennisgewing bevat—

- (a) sodanige inligting, hetsy by wyse van 'n sketsplan, verwysing na 'n plan wat by 'n gegewe adres beskikbaar is vir inspeksie, of op 'n ander wyse, wat die LUR goed afgaan om die middellyn van die roete aan te dui;

- (b) 'n kennisgewing dat die voorskrifmaatreëls beoog in artikel 7 vanaf datum van publikasie van die roete in werking tree; en
- (c) 'n kennisgewing dat redes vir die LUR se besluit met betrekking tot die bepaling van die roete deur belanghebbende en geaffekteerde partye binne 30 dae na datum van publikasie van die kennisgewing aangevra kan word.

(12) Behoudens artikel 8(2), kan 'n roete of dele daarvan deur die LUR gewysig word slegs nadat die prosedure beoog in artikels 8(1) tot (8) nagevolg is, en die wysigings van die roete moet soos beoog in subartikel (11) gepubliseer word.

(13) Die bepalings van hierdie artikel is nie van toepassing op toegangspaaie nie."

Korttitel

9. Hierdie Wet heet die Gauteng Wysigingswet op Vervoerinfrastruktur, 2003.

GAUTENG WYSIGINGSWETSONTWERP OP VERVOERINFRASTRUKTUUR, 2003

Memorandum ingevolge Reël 136 van die Staande Reëls van die Gautengse Proviniale Wetgewer.

1. REDES VIR DIE WETSONTWERP

Die Gauteng Wet op Vervoerinfrastruktur, 2001 (Wet No. 8 van 2001) ("die Wet") is op 31 Januarie 2003 in werking gestel, behalwe artikels 44 en 60(a) wat met buitemuurse reklame handel. By die finalisering van die tender- en kontrakdokumente om voorsiening te maak vir die voorgestelde Gautrein Snelspoorkombining het dit gevlyk dat bepaalde wysigings aan daardie Wet nodig is om die implementering van daardie en ander soortgelyke projekte moontlik te maak of te vergemaklik. Die Gauteng Wysigingswetsontwerp op Vervoerinfrastruktur, 2003 ("die Wetsontwerp") is dus opgestel om sodanige wysigings aan te bring.

Die doel van die Wetsontwerp is om voorsiening te maak vir die nodige grondgebruikregte met betrekking tot stasies en vir die bevoegdhede van die LUR wat nodig is om 'n kontrak of kontrakte te kan sluit vir die Gautrain Snelspoorkombining of soortgelyke projekte, met die goedkeuring van die LUR belas met finansiële aangeleenthede.

Besprekings met die betrokke plaaslike owerhede en die Departement van Ontwikkelingbeplanning en Plaaslike Bestuur met betrekking tot grondgebruikregte in verband met stasies op die Snelspoorkombining aan die een kant, en die behoefte vir sekerheid by die tenderstadium met betrekking tot grondgebruikregte in verband met stasies aan die ander kant, het aanleiding gegee tot die volgende skema van grondgebruikregte waarvoor voorsiening gemaak is in die wysiging:

'n Nuwe omskrywing van "stasie" word ingevoeg om die area in te sluit wat gebruik sal word vir bedrywigheide direk verbandhoudend met die bedryf en administrasie van die spoorstelsel en vervoerbedrywigheide met betrekking tot passasiers wat by die stasie aankom en vertrek. Die stasie sal dus ook areas insluit vir die parkering van voertuie, parkeergarages, op- en aflaaggebiede, openbare vervoer ensomeer.

Breë konsensus is bereik met die betrokke plaaslike owerhede na besprekings met hulle dat bepaalde grondgebruiken binne die stasieterrein nie deur dorpsbelanningskemas gereguleer hoef te word nie en direk in die Wet gereël kan word, wat die tydrowende procedures in verband met wysiging van die betrokke dorpsbelanningskema sal uitskakel. Dit sluit in bepaalde beperkte kommersiële bedrywe wat direk gekoppel is aan pendelaargerief, soos reklame, verkoop van verversings, koerante en tydskrifte, muntautomate, publieke telefone en elektroniese bankgeriewe (bankautomate).

Dit word egter voorsien dat in die omstandighede van die meeste, indien nie alle, stasies, dit wenslik sal wees om kommersiële bedrywe binne die stasieterrein te vestig. Omdat hierdie kommersiële bedrywe direk op die langsliggende stedelike gebied 'n invloed kan hê en direkte gevolge kan hê vir stedelike infrastruktur, is dit nodig dat grondgebruikregte met betrekking tot kommersiële of kleinhandelgrondgebruiken deur die betrokke dorpsbeplanningskema of soneringskema gereguleer moet word. Dit sal verseker dat insette van die gemeenskap in die gebied in ag geneem word, tesame met 'n besluit van die munisipaliteit, voordat die goedkeuring van sodanige regte in terme van toepaslike beplanningwetgewing gegee word. Gemelde bedrywe sal binne die stasie geleë wees en grondgebruikregte met betrekking daartoe sal ingevolge toepaslike beplanningwetgewing verkry moet word.

In verband met die bepaling van 'n roete vir 'n nuwe provinsiale pad of spoorlyn, maak artikel 4 van die Wet op die Bevordering van Administratiewe Geregtigheid, 2000 (Wet No. 3 van 2000) voorsiening vir twee alternatiewe procedures waar 'n administrateur 'n besluit moet neem wat die regte van die publiek wesenlik kan benadeel, naamlik 'n openbare ondersoek of 'n kommentaar-na-kennisgewing prosedure. Die bestaande artikel 6 van die Wet maak voorsiening vir 'n openbare ondersoekprosedure. Sodanige prosedure kan tydrowend wees en rompslomp en onnodige

duplicasie veroorsaak waar die punte waaraan besluit moet word reeds voldoende aandag geniet het gedurende die prosedure by die omgewingsondersoek en -verslag beoog in artikel 6(3)(a) van die Hoofwet. In hierdie omstandighede is 'n kommentaar-na-kennis prosedure soos beoog in artikel 4(3) van Wet 3 van 2000 meer prakties en vinnig waar die omgewingsverslag reeds opgestel is, terwyl die openbare ondersoekprosedure beoog in artikel 4(2) van Wet 3 van 2000 gebruik kan word in gevalle waar spesifieke kwelpunte uit die kommentaar-na-kennis prosedure en die ander twee verslae voortspruit, welke kwelpunte verdere en breër ondersoek en kommentaar vereis. Artikel 6 word dus gewysig om 'n kommentaar-na-kennis prosedure te gebruik om die LUR in staat te stel om 'n besluit te maak, en pas dit die openbare ondersoekprosedure slegs toe in verband met spesifieke kwelpunte. Die administratiewe geregtigheid wat bereik word is dus van 'n hoër standaard as dié wat deur Wet 3 van 2000 vereis word, deurdat beide procedures nagevolg word.

Die bestaande Wet maak nie volledig voorsiening vir die soort kontrak wat die LUR sal moet sluit vir die beplanning, aanbou, bedryf, onderhoud, beheer en toesig van die voortestelde Gautrein Snelspoerverbinding nie. Dit is dus nodig om die LUR in staat te stel, ook met verwysing na die bestaande bepalings van die Wet, om kontrakte te sluit soos die reeds bestaande konsepkontrak, met die goedkeuring van die LUR belas met finansiële aangeleenthede.

In hierdie verband is dit nodig om spesifiek voorsiening te maak vir die beskikbaarheid van grond of regte wat nodig is vir die voormalde doel en om te verseker dat die nodige bevoegdhede wat in die LUR setel óf deur die suksesvolle tenderaar óf deur die LUR namens hom of haar, uitgeoefen kan word, behoudens sekere veiligheidsmaatreëls met betrekking tot bevoegdhede van 'n diskressionele of uitvoerende aard. Die toepassing van hierdie bevoegdhede wanneer dit in die openbare belang toegestaan is, kan nie deur die sluiting van kontrakte belemmer of gedwarsboom word nie.

Dit is verder nodig om 'n substantiewe artikel in te voeg waardeur persoonlike serwitute of regte wat in die LUR vestig beskikbaar gestel kan word of oorgedra kan word vir gebruik deur die suksesvolle tenderaar. Serwitute en regte van 'n persoonlike aard kan nie ingevolge die gemenerg deur 'n derde party uitgeoefen word of aan hom of haar oorgedra word nie en 'n spesifieke bepaling in hierdie verband was dus nodig.

Dit is duidelik uit die begrip van die Snelspoerverbinding dat die LUR koördinerings-ooreenkomsste sal moet sluit met ander maatskappye en owerhede, soos die Lughawemaatskappy Beperk en plaaslike owerhede, om die integrasie van die Snelspoerverbinding met bestaande lughawestelsels, vervoergeriewe en die langsliggende stedelike struktuur te koördineer. Voorsiening daarvoor word dus ook in die Wetsontwerp gemaak.

'n Verdere doel van die Wetsontwerp is om die situasie met betrekking tot omgewingsondersoekte rasionaliseer. Uit hoofde van die Wet en ander wetgewing word drie sodanige ondersoekte vereis waar 'n nuwe pad of spoorlyn beplan, ontwerp of aangebou word:

- By die stadium van roetebepaling (artikel 6(3)(a) van die Wet);
- By die stadium van voorlopige ontwerp (artikel 8(4)(b) van die Wet);
- By die stadium van aanbou van die pad of spoorlyn (artikel 22 van die Wet op Omgewingsbewaring, 1989 (Wet No. 73 van 1989)). Hierdie ondersoek sluit ook operasionele aspekte in.

Voorsiening is gemaak vir die eerste twee ondersoekte omdat daar soms 'n aansienlike tydsverloop is tussen roetebepaling en voorlopige ontwerp. 'n Tweede ondersoek is egter nie nodig waar die twee gelyk of kort na mekaar sal plaasvind nie, soos die geval met die Snelspoerverbinding sal wees. Die Wetsontwerp wysig dus artikel 8(4)(b) van die Wet om die tweede ondersoek oortolig te maak waar die bevoegde owerheid beoog in omgewingswetgewing dit onnodig ag, omdat die omgewingsondersoek wat by die stadium van roetebepaling gedoen is reeds alle relevante aspekte gedek het.

2. OMGEWINGSINVLOED

Die omgewingsinvloed van die Wetsontwerp hou verband met die rasionalisering van die omgewingsondersoekte soos hierbo verduidelik. Die Wetsontwerp het geen ander omgewingsinvloed nie.

3. FINANSIEËLE IMPLIKASIES VAN DIE WETSONTWERP

Daar is geen finansiële implikasies nie, behalwe dat die wysigings kan lei tot meer vaartbelyne procedures wat koste kan bespaar.

Daar is geen bykomende finansiële implikasies vir plaaslike bestuur nie. Daar kan kostebesparings wees deurdat sommige onnodige hersoneringsaansoeke verminder kan word in die geval van stasieterreine en spoorbedryfgebiede.

4. KOMMENTAAR WAT ONTVANG EN AANGEVRA IS

Die bepalings van die Wetsontwerp is met plaaslike owerhede in die Provinsie bespreek, wat insette met betrekking tot die bewoording van die wysigings gelewer het. Die Wetsontwerp is ook vir kommentaar na die Departement van Ontwikkelingbeplanning en Plaaslike Bestuur en die Departement van Landbou, Bewaring, Omgewing en Grondsake verwys, en spesifieke besprekings is met gemelde Departemente gevoer. Die Departement is van mening dat dit nie nodig is om die Wetsontwerp te publiseer vir kommentaar nie omdat die wysigings van 'n tegniese aard is en nie enige wesentlike veranderings of beginselveranderings meebring nie. Die Wetsontwerp is ook uiteraard dringend.

Met betrekking tot omgewingsondersoek, soos hierboven genoem, was 'n soortgelyke wysiging vervat in die Wetsontwerp wat die Hoofwet voorafgegaan het toe dit destyds vir kommentaar gepubliseer is, maar die bepaling was as gevolg van 'n administratiewe fout nie in die Wet voortgebring nie. Geen beware teen die bepaling is ontvang nie.

5. KLOUSULE-VIR-KLOUSULE VERDUIDELIKING

Klausule 1 van die Wetsontwerp wysig die omskrywings van "spoorlyn" en "spoorreserwe" en voeg in 'n nuwe omskrywing van "stasie" om voorsiening te maak vir die bogemelde doelstellings.

Klausule 2 van die Wetsontwerp vervang artikel 6 van die Wet. Die nuwe artikel bepaal dat sodra 'n voorlopige roeteverslag opgestel is en 'n omgewingsonderzoek gedoen is, sodanige verslag en die verslag van die omgewingsonderzoek aan 'n kommentaar-na-kennis prosedure onderhewig gestel moet word. Betrokke munisipaliteite sal spesifiek met betrekking tot die verslae geraadpleeg word. Die LUR neem die twee verslae en kommentaar wat ontvang is, in ag, en besluit of die roete gepubliseer moet word of om spesifieke kwelpunte of aangeleenthede na 'n kommissie te verwys vir advies. Sodanige aangeleenthede sal gepubliseer word om belanghebbende en geaffekteerde persone 'n kans te gee om kommentaar te lewer, en die kommissie hou dan 'n openbare ondersoek waar persone wat kommentaar gelewer het kan verskyn om hulle kommentaar te motiveer. Die kommissie stel dan 'n verslag op met advies aan die LUR, wat dan 'n besluit oor die roete kan neem. Mening is dat hierdie prosedure in teenstelling met die bestaande prosedure, rompslomp, tydvermorsing en duplikasie sal uitskakel, waar aangeleenthede wat alreeds bevredigend gedurende die omgewingsonderzoek gedek is nie weereens aan openbare ondersoek blootgestel word nie. Die artikel gebruik beide 'n kommentaar-na-kennis prosedure en 'n openbare ondersoekprosedure, en voldoen dus meer volledig aan die bepalings van die Wet op die Bevordering van Administratiewe Geregtigheid, 2000.

Klausule 3 wysig artikel 7 van die Wet om die kruisverwysing na die nuwe artikel 6 reg te stel.

Klausule 4 van die Wetsontwerp wysig artikel 8(4)(b) van die Wet om voorsiening te maak dat 'n tweede omgewingsonderzoek by die stadium van voorlopige ontwerp nie nodig is nie as die bevoegde omgewingsowerheid dit onnodig ag. Ander bykomstige wysigings wat as gevolg van daardie wysiging nodig is, is ook aangebring.

Klausule 5 van die Wetsontwerp wysig artikel 10 van die Wet om die kruisverwysing na die nuwe artikel 6 reg te stel.

Klausule 6 van die Wetsontwerp wysig artikel 50 om die bevoegdheid aan die LUR te gee om 'n spoorlyn en spoorstelsel vir die bogemelde bedrywigheide te bedryf.

Klousule 7 van die Wetsontwerp wysig artikel 51 van die Wet om 'n drukfout reg te stel.

Klousule 8 van die Wetsontwerp voeg 'n nuwe artikel 51A in die Wet om voorseeing te maak vir kontrakte wat gesluit moet word vir die aanbou, finansiering, bedryf, bestuur, beheer en toesig van pad- en spoorstelsels, soos hierbo aangedui, met die goedkeuring van die LUR belas met finansiële angeleenthede.

Klousule 9 van die Wetsontwerp verskaf die korttitel.

Ngalokhu-ke, kunesidingo sokuba kubhekkelwe ngokomthetho ukuhlinzekwa komhlaba kumbe amalungelo anesidingo ngokwezinhloso ezingenhla kanye nokuqinisekisa ukuthi amandla adingakalayo anikezwe u-MEC angasetshenziswa yilovo owusonkontileka ophumelele kumbe u-MEC egameni lakhe, lokho kwensiwa kuqashwe ukuvikeleka kwamandla nokusetshenziswa kwawo emazingeni okuzenzela nakwaphetzulu. Ukusetshenziswa kwa mandla uma enikezelwe ukuba kuzuze umphakathi, kungeze kwavinelwa noma kwacekelwa phansi ukuphothulwa kwezivumelwano.

Nangaphezu kwalokho, kuye kwanesidingo sokuba kwakhiwe isigaba esibhekela ukudluliswa kwelungelo phezu komhlaba womunye kumbe amalungelo asezandleni zika-MEC adluliselwe kulowo ongusonkontileka ophumelele. Amalungelo phezu komhlaba womunye kanye namalungelo omuntu nje awawkazi ngokomthetho ojwayelekile ukuthi amane assetshenziswe kumbe edluliselwe kumuntu wesithathu futhi kwakunesidingo samalungiselelo abhekene nalokhu.ngqo.

Kuyacaca-ke ngokuhambisana nomqondo we-Rapid Rail Link ukuthi ukuhlela izivumelwano nezinye izinkampani kanye neziphatimandla ezifana Nenkampani i-Airports Company Limited kanye neziphatimandla zasekhaya kuzofanele ziphothulwe ngu-MEC ukuze kuhlelwe ukuhlanganisa kwe-Rapid Rail Link kanye nezinhlelo ezikhona esikhumulweni sezindiza, izinsiza zokuthutha kanye nesakhiwo esikhona sasedolobheni. Amalungiselelo aloku nawo enziwe kuMthethosivivinywa. Enye injongo yoMthethosivivinywa, ukulungisa isimo mayelana nocwaningo olwenziwayo Iwendawo. NgokoMthetho neminye imithetho, kungadingeka ukuba kwensiwe ucwaningo oluthathu lapho kuhlelwa, kudizayinwa futhi kwakhiwa umgwaqo noma umzila omusha kaloliwe:

- Esigabeni lapho kunqunywa ngemizila khona (isigaba 6(3)(a) soMthetho);
- Esigabeni sokudizayina okokuqala (isigaba 8(4)(b) soMthetho);;
- Esigabeni sokwakhiwa komgwaqo noma ujantshi wesitimela (isigaba 22 soMthetho Wezokongiwa kweNdawo i-Environmental Conservation Act, ka-1989 (uMthetho No. 73 ka-1989). Lolu phenyo lubuye luthinte futhi nemikhakha yokusebenza.

Ucwaningo olubili lokuqala beluhlinzekelwe ngenxa yokuthi kwenye inkathi kuyenzeka ukuthi kudlule isikhathi eside phakathi kwesigaba sokunquma ngemizila kanye naleso sokudizayina okokuqala. Noma kunjalo-ke, ucwaningo Iwesibili alunasidingo uma lokhu kucwaninga okubili kuzokwenzeka ngesikhathi esisodwa noma kulakanyane, njengalokhu kuzokwenzeka ngocwaningo loMzila i-Rapid Rail Link. Ngakho-ke, uMthethosivivinywa uchibiyela isigaba 8(4)(b) soMthetho ukuze kwensiwe ucwaningo Iwesibili lungabi nasidingo lapho isiphathimandla esikwazi ukwenza umsebenzi esishiwu emthethweni wezendawo sisithatha njengesingenasingo ngenxa yocwaningo Iwezendawo olwenziwe ezingeni lokunqunywa kwendlela luzibhekeli zonke izinto ezifanele.

2. UMTHELELA ENDAWENI OKUHLALWA KUYO

Umthelela woMthethosivivinywa endaweni okuhlalwa kuyo unobudlelwano nokuncishiswa kocwaningo lwendawo njengalokhu sekuchaziwe ngenhla. Kanti uMthethosivivinywa awunawo omunye umthelela endaweni.

3. UKUXABHELELA KOMTHETHOSIVIVINYWA EZIMALINI

Akukho ukuxabhelela ezimalini, ngaphandle kokuthi izichibiyelo zingahle zilethe izinqubo ezihlongozwayo ezingahle zingabi nazindleko eziphezulu.

Azikho izindleko ezingaphezulu ezingabhekana nohulumeni basekhaya. Ukonga kungahle kubonakale ngokuthi kugwenywe ukuthutha okungenasidindo ezindaweni zaseziteshini nasezindaweni lapho kuhamba khona imizila yezitimela.

4. IMIBONO ETHOLAKELE NECELIWE

Izinto ezihilinzekwa uMthethosivivnywa sekufundisenwe ngazo neziphathimandla zohulumeni basekhaya eSifundazweni, eziye zanikezela ngemibono malungana nokusetshenziswa kwamagama ezichibiyelweni. UMthethosivivinywa usuyisiwe nakuMnyango wokuHlelwa kweNtuthuko noHulumeni baseKhaya kanye naseMnyangweni wezoLimo, woKongiwa kweMvelo, wezeNdawo kanye nezoMhlaba, futhi sekubanjwe izingxoxo eziqondene nalokhu naleyo minyango. UMnyango ubona kungekho sidindo sokushicilela uMthethosivivinywa ukuba umphakathi uphawule ngenxa yokuthi izinguquko eziphakanyisiwe ezobuchwepheshe futhi azilethi zinguquko ngokomgommo. UMthethosivivnywa futhi uyaphuthuma kakhulu.

Malungana nocwaningo Iwezindawo-ke, njengalokhu kuchaziwe ngenhla, bekunesichibiyelo esithi asifane kuMthetho-sivivnywa owandulela uMthetho ngqangi ngesikhathi ushicilelwa ukuthi kuphawulwe ngawo, kodwa awuzange waphunyelelisa ukuba ube uMthetho ngenxa yamaphutha enzeka ngesikhathi ubhalwa. Kanti akuzange kube khona ukuphikiswa kwalowo mthetho.

5. INCAZELO NGOMUSHWANA NGOMUSHWANA

Umshwana 1 woMthethosivivinywa uchibiyela izincazelo zika "rizevu kaloliwe" kanye "nomzila wesitimela" bese ufaka incazel entsha "yesiteshi" ukuze kubhekelwe izinhloso ezibhalwe ngenhla.

UMshwana 2 woMthethosivivinywa uchibiyela isigaba 6 soMthetho. Isigaba esisha sihlinzeka ngokuthi uma umbiko wendilela yokuqala sewulungisiwe futhi nocwaningo lwendawo selwenziwe, loyo mbiko kanye nombiko wocwaningo lwendawo kuyoba ngaphansi kwenqubo yesaziso kanye nokubekwa kwemibono. Omasipala abafanele bayothintwa ngqo maqondana nemibiko. U-MEC kufanele acabange ngemibiko emibili kanye nemibono etholakele, bese eyanquma ukuthi uyayishicilela indlela noma udlulisela

izindaba ezithile kukhomishini ukuze imeluleke. Lezo zindaba ziyo shicilelwa ukuze labo abathandayo nabathintekayo bakwazi ukuphawula, futhi ikhomishini kufanele yenze uhlolo lomphakathi futhi ivumele abantu abaphawulile ukuthi beze bazosekela imibono yabo. Ikhomishini iyobe seyi hlanganisa umbiko wokweluleka u-MEC, oyobe-ke esengathatha isinqumo ngomgudu. Le nqubo kucatshangwa ukuthi inezinkinga ezincane, ayisichithi isikhathhi kangako futhi ayiphindaphindi into eyodwa kunenqubo ekhona njengamanje, lapho izinto ebesezenziwe ngesikhathhi socwaningo lwendawo kungafanele zibuye zibe ngaphansi kokuhlolwa ngumphakathi. Isigaba esisha sisebenzisa kokubili inqubo yesaziso kanye neyokuphawula kanye nenqubo yokuhlolwa ngumphakathi, ngakho-ke isebe nzisana ngokugcwele namalungiselelo ahlinzekwa uMthetho Wokukhuthaza Ubulungiswa Bokuphatha, 2000.

UMshwana 3 woMthethosivivinywa uchibiyela isigaba 7 soMthetho ukuze kulungiswe ukuqhathaniseka nesigaba 6 esisha.

UMshwana 4 woMthethosivivinywa uchibiyela isigaba 8(4)(b) soMthetho ukuze kubhekeleke ukuthi kungabi khona sidingo sokwenziwa kocwaningo lwendawo esigaben Sokuhlela esisezingeni lokuqala uma isiphathimandla sezendawo esikwazi ukwenza kahle umsebenzi sikuthatha njengokungenasidindo. Nezinye-ke izichibiyelo ezincane ezenziwe yileso sichibiyelo zenziwe kuleso sigaba.

UMshwana 5 woMthethosivivinywa uchibiyela isigaba 10 soMthetho ukuze kulungiswe ukuqhathaniseka nesigaba 6 esisha.

UMshwana 6 uchibiyela isigaba 50 ukunikeza uNgqongqoshe wesiFundazwe amandla okuhambisa umzila wesitimela kanye nohlelo lukaloliwe ngokwemisebenzi ebaluliwe ngenhla

UMshwana 7 woMthethosivivinywa uchibiyela isigaba 51 soMthetho ukuze kulungiswe iphutha elenzeke kubhalwa.

UMshwana 8 woMthethosivivinywa ufaka isigaba esisha u-51A eMthethweni ukuze kubhekeleke izivumelwano ezingahle ziphothulwe zokwakha, zoxhaso lwezimali, zokusebenza, zokuphatha, zokulawula nokubhekwa sakulalwula komgwaqo kanye nezinhlelo zikaloliwe, njengoba kukhonjisiwe ngenhla, ngokuvumelana noNgqongqoshe wesiFundazwe obhekele izindaba zezimali.

UMshwana 9 woMthethosivivinywa unikeza isihloko esifushane.
