IMPLEMENTATION OF THE ICTE CLUSTER PROGRAMME IN KWAZULU-NATAL

ZNT 1008/2005

The Sector Sub-Programme of the Department of Economic Development provides support services, in partnership with industry stakeholders across the value-chain, to prioritised economic sectors to grow their international competitiveness and to meet government's policy priorities of job creation, economic growth and transformation. The Sector Programme focuses on the following economic sectors namely Arts and Crafts, Agribusiness, Creative Industries, Clothing and Textiles, Furniture, and Information and Communication Technology. The key objectives are to: • Stimulate the international competitiveness of the KZN economy by leveraging resources through strategic partnerships for implementing economic projects; • Enable the retention and creation of sustainable quality jobs through productivity, training, technology and investments; • Facilitate the implementation of strategic high impact projects that stimulate the international competitiveness of prioritised sectors.

Expertise Required:

The KZN Department of Economic Development is requesting tenders from service providers that have extensive knowledge in the ICTE sector Nationally and Internationally, that have sound knowledge on the economic clustering process, understanding the policy and legal implications of the cluster process for the implementation of the ICTE Cluster programme in KwaZulu-Natal. Project	Description
The Implementation of the Information, Communication, Technology and Electronics Cluster Programme in KZN.	The Department of Economic Development Sector Sub-programme has embarked on an extensive programme to provide support to the ICTE sector in KZN. As part of this process, the DED is supporting the undertaking of lead interventions prioritised by industry as critical to supporting the growth of a competitive ICT and electronics sector. These interventions will be driven through an ICT Cluster programme and require that an appropriate institutional structure be established which will be responsible for implementing ICT Cluster intervention strategies. Terms of reference for the project are available as indicated below.

Service providers will be selected primarily on the basis of the service excellence they can provide, the knowledge and experience in working in the sector and of cluster processes, their commitment to Black Economic Empowerment (i.e. support of SMME's and PDI's), their previous track record, and the competitiveness of their proposal.

Tenderers must (1) be registered with the Provincial Treasury Service Providers Database, and (2) strictly abide by the requirements of the KZN Procurement Act (No. 3 of 2001) and Regulations - more particularly in terms of Declarations and the submission of a VALID original Tax Clearance Certificate.
