1.2.1 Notes on H1, H2 and H3 patients

- H1 patient tariffs are all inclusive, except for certain exclusions as indicated in Annexure A2. Where H1 patients receive certain services/procedures free of charge, a consultation or inpatient fee must at least be raised.
- There is no differentiation on the type of consultation or type of bed in respect of H1 patients.
- The tariff applicable to H1 inpatients is for each 30 days or part thereof.
- H1 outpatients admitted after outpatient treatment are liable for the outpatient fee and the inpatient fee.
- H1 patients who attend two or more clinics on the same day, are assessed for each visit at every clinic. It is also applicable where a patient is referred from one clinic to another for a certain procedure, for example X-rays.
- H3 patients are now classified as private self-funded patients according to their income and will be liable for the full UPFS tariffs.
- H2 and H3 patients will no longer pay an all inclusive tariff.
- There is a differentiation between routine and emergency consultations and bed type in respect of H2 patients.
- H2 and H3 patients who attend two or more clinics on the same day, are assessed for each visit at each clinic.
- The tariffs for H2 and H3 patients are raised for every 12-hour period (day patients excluded).
- H2 and H3 patients admitted after outpatient treatment are liable for both the outpatient visit and the admission.
- Where H2 and H3 patients are referred from one type of ward to another within a 12-hour period, the higher tariff is applicable.
- Patients who fall in the H1 and H2 tariff category according to the means test, but belong to a medical aid or are treated by their private doctors or in terms of the provisions of the Road Accident Fund Act or the Compensation for Occupational Injuries and Diseases Act, must be assessed at the full UPFS tariffs.
- An account must be raised for every 30-day period or part thereof in respect of *long term* patients [patients, whether H1, H2 or H3 patients, admitted for a period of 30 days or longer].
- Foreign patients must be assessed at the full UPFS tariffs, but not at double the tariffs.
- The charge for supplementary health services is a rate per contact with the patient.
- The current tariffs will still apply to H1, H2 and H3 patients admitted on or before 31 January 2004 for the 30-day period or part thereof and until the date when the 30-day period expires. The revised tariffs and prescripts will only be applicable if the patient is still hospitalised after the 30-day period has expired.
