- (a) the preparation, adoption and implementation of a spatial development framework or zoning scheme and of any policy or law concerning land use planning;
- (b) any steps to ensure sustainable development; 55

- (c) the consideration by a competent authority in terms of this Act and any other relevant authority of an application that impacts on the utilisation and development of land; and
- (d) the performance of a function in terms of this Act or other legislation regulating land use planning. 5

Land use planning principles

- 59.** (1) Land use planning is guided by the following principles of spatial justice:
- (a) past spatial and other development imbalances should be redressed through improved access to, and utilisation of, land;
 - (b) spatial development frameworks and policy at all spheres of government should address the inclusion of persons and areas that were previously excluded, with an emphasis on informal settlements and areas characterised by widespread poverty and deprivation; 10
 - (c) spatial planning mechanisms, including zoning schemes, should incorporate provisions that enable redress in access to land by disadvantaged communities and persons; 15
 - (d) land use management systems should include all areas of a municipality and specifically include provisions that are flexible and appropriate for the management of disadvantaged areas and informal settlements;
 - (e) land development procedures must include provisions that accommodate access to, and facilitation of, security of tenure and the incremental upgrading of informal areas; 20
 - (f) a competent authority contemplated in this Act or other relevant authority considering an application before it, may not be impeded or restricted in the exercise of its discretion solely on the ground that the value of land or property will be affected by the outcome of the application; and 25
 - (g) the right of owners to develop land in accordance with current use rights should be recognised.
- (2) Land use planning is guided by the following principles of spatial sustainability:
- (a) land use planning should— 30
 - (i) promote land development that is spatially compact, resource-frugal and within the fiscal, institutional and administrative means of the relevant competent authority in terms of this Act or other relevant authority;
 - (ii) ensure that special consideration is given to the protection of prime, unique and high potential agricultural land; 35
 - (iii) uphold consistency of land use measures in accordance with environmental management instruments;
 - (iv) promote and stimulate the effective and equitable functioning of land markets;
 - (v) consider all current and future costs to all parties for the provision of infrastructure and social services in land developments; 40
 - (vi) promote land development in locations that are sustainable and limit urban sprawl;
 - (vii) result in communities that are viable; and
 - (viii) strive to ensure that the basic needs of all citizens are met in an affordable way; 45
 - (b) the sustained protection of the environment should be ensured by having regard to the following:
 - (i) natural habitat, ecological corridors and areas with high biodiversity importance; 50
 - (ii) the provincial heritage and tourism resources;
 - (iii) areas unsuitable for development, including flood plains, steep slopes, wetlands and areas with a high water table and landscapes and natural features of cultural significance; and
 - (iv) the economic potential of the relevant area or region; 55
 - (c) climate change adaptation and climate change mitigation strategies should be developed and considered in land use planning;
 - (d) the provision and conservation of, and the management of the demand for, energy should be considered in land use planning;

- (e) the safe utilisation of land should be ensured by taking into consideration factors such as sea-level rise, storm surges, flooding, fire hazards and geological formations;
 - (f) the illegal occupation of land should be discouraged with due recognition of informal land development practices; and 5
 - (g) development should be principle-driven and should prioritise long-term social, economic and environmental benefits over short-term benefits.
- (3) Land use planning is guided by the following principles of efficiency:
- (a) land development should optimise the use of existing resources, infrastructure, agriculture, land, minerals and facilities; 10
 - (b) integrated cities and towns should be developed, whereby—
 - (i) the social, economic, institutional and physical aspects of land development is integrated;
 - (ii) land development in rural and urban areas in support of each other is promoted; 15
 - (iii) the availability of residential and employment opportunities in close proximity to, or integrated with, each other is promoted;
 - (iv) a diverse combination of land uses is promoted;
 - (v) the phenomenon of urban sprawl in urban areas is discouraged and the development of more compact towns and cities with denser habitation is promoted; 20
 - (vi) historically distorted spatial patterns of settlement are corrected; and
 - (vii) the quality and functionality of the public spatial environment is promoted; and
 - (c) policy, administrative practice and legislation should promote speedy land development. 25
- (4) Land use planning is guided by the following principles of good administration:
- (a) all spheres of government should ensure an integrated approach to land use planning;
 - (b) all government departments must provide their sector inputs and comply with any other statutory requirements during the preparation or amendment of spatial development frameworks; 30
 - (c) the requirements of any law relating to land development and land use must be met timeously;
 - (d) the preparation and amendment of spatial plans, policy, zoning schemes and procedures for land development and land use applications, should include transparent processes of public participation that afford all parties the opportunity to provide inputs on matters affecting them; 35
 - (e) legislation, procedures and administrative practice relating to land development should be clear, promote predictability, trust and acceptance in order to inform and empower members of the public; 40
 - (f) a spatial development framework, zoning scheme or policy should be developed in phases and each phase in the development thereof should include consultation with the public and relevant organs of state and should be endorsed by the relevant competent authority; 45
 - (g) decision-making procedures should be designed to minimise negative financial, social, economic or environmental impacts;
 - (h) development application procedures should be efficient and streamlined and timeframes should be adhered to by all parties; and
 - (i) decision-making in all spheres of government should be guided by and give effect to statutory land use planning systems. 50
- (5) Land use planning is guided by the principle of spatial resilience, whereby flexibility in spatial plans, policy and land use management systems is accommodated to ensure sustainable livelihoods in communities most likely to suffer the impact of economic and environmental shocks. 55
- (6) The Provincial Minister may prescribe further land use planning principles.
- (7) The Provincial Minister must, before prescribing principles under subsection (6)—
- (a) publish the draft principles in the media in a manner that allows municipalities and other interested persons an opportunity to submit comments on the draft principles; and 60

MEMORANDUM ON THE OBJECTS OF THE WESTERN CAPE LAND USE PLANNING BILL, 2014

1. BACKGROUND

- 1.1 The Western Cape Land Use Planning Bill, 2014 (the Bill), responds to the need for a modernised and efficient system for land use planning which facilitates sustainable development in the Province of the Western Cape (the Province). The Bill is necessitated by the need for legal reform in respect of land use planning, which is still governed by legislation that pre-dates the Constitution of the Republic of South Africa, 1996 (the Constitution). Important in this reform is the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013), which was assented to on 2 August 2013.
- 1.2 The Constitution distributes functional areas relating to planning across all three spheres of government. The Bill provides for the regulation of provincial planning, regional planning and development, urban and rural development, the regulation, support and monitoring of municipal planning and the regulation of public places and municipal roads in line with this division.

2. PURPOSE OF BILL

- 2.1 The Bill focuses on seven objectives. Firstly, it consolidates legislation in the Province pertaining to provincial planning, regional planning and development, urban and rural development, the regulation, support and monitoring of municipal planning and the regulation of public places and municipal roads arising from subdivisions. Secondly, it makes provision for provincial spatial development frameworks. Thirdly, it provides for minimum standards for, and the efficient coordination of, spatial development frameworks. Fourthly, it provides for minimum norms and standards for effective municipal development management. Fifthly, it regulates provincial development management. Sixthly, it provides for land use planning principles, and lastly it repeals certain old-order laws.

3. CONTENTS OF BILL

3.1 CHAPTER I: INTERPRETATION

Chapter 1 contains the definitions.

3.2 CHAPTER II: FUNCTIONS OF MUNICIPALITIES AND PROVINCIAL GOVERNMENT

- 3.2.1 For the purposes of the Bill, Chapter II sets out a broad division of responsibilities between the provincial government and municipalities in the Province.
- 3.2.2 Municipalities are responsible for land use planning in their municipal areas. Metropolitan and local municipalities must at least regulate relevant aspects regarding zoning schemes, the consideration of land use applications and the enforcement of their by-laws and decisions with regard to land use planning.
- 3.2.3 The provincial government is responsible for adopting a provincial spatial development framework and, where applicable, provincial regional spatial development frameworks. Furthermore the provincial government must regulate, support and monitor municipal land use planning to see to the effective performance by municipalities of their land use planning functions.
- 3.2.4 The provincial government is also responsible for deciding on land development applications that will have a substantial effect on the orderly, coordinated or harmonious development of a region or the Province or the general welfare of the inhabitants of a region or the Province due to the nature or scale of the proposed land use or the cumulative effect of multiple developments. Such developments will need both municipal and provincial approval.

3.3 CHAPTER III: SPATIAL PLANNING

- 3.3.1 The Bill requires forward planning in the provincial and municipal sphere of government. The provincial government will adopt a provincial spatial development framework (PSDF) and municipalities will adopt municipal spatial development frameworks (MSDFs). In some instances the provincial government may compile a provincial regional spatial development framework (PRSDF).
- 3.3.2 The drafting and approval of an MSDF is regulated by the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), which instructs municipalities to adopt spatial development frameworks as part of integrated development plans. Chapter III provides for further minimum standards for the drafting and adoption of spatial development frameworks to ensure effective spatial planning by municipalities. The Bill provides for minimum requirements for municipal spatial development frameworks relating to the contents thereof and to ensure alignment thereof with provincial strategies and development plans.
- 3.3.3 The Bill makes provision for municipalities to choose whether to establish intergovernmental steering committees, on which the provincial government will be represented during the drafting of an MSDF, or to consider compulsory comments by the Provincial Minister before a municipal spatial development framework is adopted by a municipality. These provisions of the Bill ensure that the provincial government is afforded the opportunity to comment on an MSDF before its adoption or amendment, which is a justifiable exercise of the provincial government's power to see to the effective exercise by municipalities of their executive authority with regard to municipal planning. These provisions will furthermore contribute to the balancing of economic, social and environmental interests in the future shape of a particular area.

3.4 CHAPTER IV: MUNICIPAL DEVELOPMENT MANAGEMENT

- 3.4.1 Chapter IV regulates the various instruments for municipal development management. It sets minimum standards for the manner in which municipalities must compile, adopt and amend zoning schemes. The Bill makes provision for municipalities to choose whether to establish intergovernmental steering committees, on which the Province will be represented during the compilation or amendment of a zoning scheme, or to consider compulsory comments thereon by the Provincial Minister before a zoning scheme is adopted or amended by a municipality. These provisions of the Bill ensure that the Province is afforded the opportunity to comment on a zoning scheme before its adoption or amendment and is a justifiable exercise of the Province's power to see to the effective exercise by municipalities of their executive authority in respect of municipal planning.
- 3.4.2 This Chapter furthermore provides for minimum requirements for the menu of instruments for development management, namely rezoning, departure, consent use, subdivision, consolidation and the removal, suspension or amendment of restrictive conditions. The Bill provides for minimum standards and requirements that municipalities must comply with when they adopt their own rules and procedures in respect of these instruments.
- 3.4.3 The Bill provides minimum standards for development management. These standards deal with issues such as the minimum information to be submitted by applicants, publication and serving of notices to make provision for public participation in decision-making and to ensure that affected parties are notified, maximum time for decision-making by municipalities, consultation with other organs of state, fees for land use applications, the basis of assessment of land use applications, notification of municipal decisions and the suspension of decisions pending appeals.
- 3.4.4 The Bill further provides for the constitutional powers of the Provincial Minister in respect of support and monitoring, which entitle him or her (and his or her department) to comment on certain land use applications and appeals before they are considered by municipalities. Such comments will alert municipalities to any

fundamental problems with applications and appeals requiring that they be refused or other problems which must be addressed by the imposition of appropriate conditions of approval. This requirement in the Bill, that the provincial government be afforded the opportunity to comment, is a justifiable exercise of its power to see to the effective exercise by municipalities of their executive authority in respect of municipal planning. It will also prevent unnecessary appeals and overburdening courts with review cases.

3.5. CHAPTER V: PROVINCIAL DEVELOPMENT MANAGEMENT

- 3.5.1 Chapter V defines and regulates the power of the provincial government to approve land development that will have a substantial effect on the orderly, coordinated or harmonious development of a region or the Province or the general welfare of the inhabitants of a region or the Province due to the nature or scale of the proposed land use or the cumulative effect of multiple developments. It defines the types of development that require the Head of Department's approval (in addition to the municipality's approval). The Head of Department considers only those aspects of the development that concern provincial planning interests. The provincial approval is required when the development is of a scale or will have an impact that surpasses municipal boundaries. The Provincial Minister may exempt prescribed categories of land development from requiring provincial approval.
- 3.5.2 In order to minimise red tape, the Bill provides for provincial decision-making procedures under this Chapter to be integrated with the municipal decision-making procedures contemplated in Chapter IV.
- 3.5.3 The Bill also provides for a right to appeal to the Provincial Minister against a decision of the Head of Department. Provincial approvals lapse if the approved land development is not commenced within 10 years from the date on which a land development approval came into operation.

3.6 CHAPTER VI: LAND USE PLANNING PRINCIPLES

Chapter VI provides for land use principles that apply across the Province. These principles express the provincial government's concern over issues such as spatial justice and sustainability, efficiency, good administration and spatial resilience. Organs of state must have regard to these principles when they regulate planning, approve plans or make land use decisions.

3.7 CHAPTER VII: EXEMPTIONS AND AUTHORISATIONS

- 3.7.1 Chapter VII empowers the Provincial Minister to exempt municipalities from certain provisions of the Bill in order to reduce the administrative or financial burden on municipalities and to authorise municipalities to deviate in emergency situations from the minimum standards set in the Bill.
- 3.7.2 This Chapter further provides for minimum standards that municipalities must comply with when they provide for exemptions relating to subdivisions and consolidations.

3.8 CHAPTER VIII: PLANNING ADVISORY COMMITTEE

- 3.8.1 Chapter VIII empowers the Provincial Minister to establish a Planning Advisory Committee to render advice that may be necessary on the application of this Bill and its regulations.
- 3.8.2 This Chapter provides for the composition of the Planning Advisory Committee, requirements relating to qualifications and experience of the members, the term of office and conditions of service of the members, and makes provision for meetings of the committee.

3.9 CHAPTER IX: GENERAL PROVISIONS

- 3.9.1 Chapter IX requires a municipality, the Provincial Minister and the Head of Department to consider a written assessment and recommendation by a

professional or technical planner registered in terms of the Planning Profession Act, 2002 (Act 36 of 2002), before it decides or comments on certain land use planning matters. The type of applications and matters specified in this provision of the Bill often concern issues which require professional insight. The provincial government can legitimately require, as part of its oversight function, that municipalities consider professional planning input before deciding on these matters. In this regard the Bill provides that municipalities that do not have the services of a registered planner at their disposal can approach the Province to appoint a professional planner to provide a report. The provision does not curtail the discretion of a municipality, or a planning official with delegated power, to decide on matters contrary to the recommendation of the registered planner. The provision also does not dictate which category of persons may compile land use applications.

- 3.9.2 This Chapter also provides that efforts must be made to integrate the multiple procedures applicable to a single development through agreements, integrated approvals and joint public and intergovernmental consultation. The Bill also allows decisions on applications to be made through a process prescribed by other legislation if that process meets the requirements of applicable by-laws and this Bill.
- 3.9.3 Chapter IX further provides for provincial powers to inspect and enforce compliance with requirements relating to land development approvals by the Head of Department. The Bill proposes the creation of offences and penalties in this regard.
- 3.9.4 The Bill makes provision for the delegation of powers and the assignment of duties by the Premier, Provincial Minister and Head of Department.
- 3.9.5 This Chapter further empowers the Provincial Minister to make regulations to facilitate the implementation of the Bill once enacted.
- 3.9.6 This Chapter further provides for the repeal of old order planning legislation, certain savings and transitional arrangements, and makes provision for the commencement date of the Act to differ in various municipal areas.

4. FINANCIAL IMPLICATIONS

MEMORANDUM OOR DIE OOGMERKE VAN DIE WES-KAAPSE WETSONTWERP OP GRONDGEBRUIKBEPLANNING, 2014

1. AGTERGROND

- 1.1 Die Wes-Kaapse Wetsontwerp op Grondgebruikbeplanning, 2014 (die Wetsontwerp), reageer op die behoefte aan 'n gemoderniseerde en doelmatige stelsel vir grondgebruikbeplanning wat volhoubare ontwikkeling in die Provinsie Wes-Kaap (die Provinsie) fasiliteer. Die Wetsontwerp word genoodsaak deur die behoefte aan wetshervorming ten opsigte van grondgebruikbeplanning wat steeds deur wetgewing gereguleer word wat die Grondwet van die Republiek van Suid-Afrika, 1996 (die Grondwet), voorafgaan. Van belang in hierdie hervorming is die Wet op Ruimtelike Beplanning en Grondgebruikbestuur, 2013 (Wet 16 van 2013), wat op 2 Augustus 2013 goedgekeur is.
- 1.2 Die Grondwet versprei funksionele gebiede wat met beplanning verband hou oor al drie regeringsfere. Die Wetsontwerp maak voorsiening vir die regulering van provinsiale beplanning, streeksbeplanning en -ontwikkeling, stedelike en landelike ontwikkeling, die regulering, ondersteuning en monitering van munisipale beplanning en die regulering van openbare plekke en munisipale paaie in ooreenstemming met hierdie indeling.

2. DOEL VAN WETSONTWERP

- 2.1 Die Wetsontwerp is op sewe doelwitte toegespits. Eerstens konsolideer dit wetgewing in die Provinsie rakende provinsiale beplanning, streeksbeplanning en -ontwikkeling, stedelike en landelike ontwikkeling, die regulering, ondersteuning en monitering van munisipale beplanning en die regulering van openbare plekke en munisipale paaie wat uit onderverdelings voortspruit. Tweedens maak dit voorsiening vir provinsiale ruimtelike ontwikkelingsraamwerke. Derdens bepaal dit minimum standaarde vir, en die doelmatige koördinering van, ruimtelike ontwikkelingsraamwerke. Vierdens bepaal dit minimum norme en standaarde vir doeltreffende munisipale ontwikkelingsbestuur. Vyfdens reguleer dit provinsiale ontwikkelingsbestuur. Sesdens bepaal dit beginsels vir grondgebruikbeplanning, en laastens herroep dit sekere oubedeling-wette.

3. INHOUD VAN WETSONTWERP

3.1 HOOFSTUK I: UITLEG

Hoofstuk I bevat die woordomskrywing.

3.2 HOOFSTUK II: WERKSAAMHEDE VAN MUNISIPALITEITE EN PROVINSIALE REGERING

- 3.2.1 Vir die doeleindes van die Wetsontwerp sit Hoofstuk II 'n breedvoerige indeling van verantwoordelikhede uiteen tussen die provinsiale regering en munisipaliteite in die Provinsie.
- 3.2.2 Munisipaliteite is verantwoordelik vir grondgebruikbeplanning in hul munisipale gebiede. Metropolitaanse en plaaslike munisipaliteite moet minstens tersaaklike aspekte rakende soneringskemas, die oorweging van grondgebruiksaansoeke en die afdwinging van hul verordeninge en besluite ten opsigte van grondgebruikbeplanning reguleer.
- 3.2.3 Die provinsiale regering is verantwoordelik vir die aanneming van 'n provinsiale ruimtelike ontwikkelingsraamwerk en, waar van toepassing, provinsiale streeks-ruimtelike ontwikkelingsraamwerke. Die provinsiale regering moet voorts munisipale grondgebruikbeplanning reguleer, ondersteun en moniteer om toe te sien dat munisipaliteite hul grondgebruikbeplanningswerkzaamhede doeltreffend verrig.

- 3.2.4 Die provinsiale regering is ook verantwoordelik vir besluite oor grondontwikkelingsaansoeke wat 'n wesenlike uitwerking op die ordelike, gekoördineerde of harmoniese ontwikkeling van 'n streek of die Provinsie of die algemene welsyn van die inwoners van 'n streek of die Provinsie sal hê weens die aard of skaal van die voorgestelde grondgebruik of die kumulatiewe uitwerking van veelvoudige ontwikkelings. Sodanige ontwikkelings sal sowel munisipale as provinsiale goedkeuring benodig.

3.3 HOOFSTUK III: RUIMTELIKE BEPLANNING

- 3.3.1 Die Wetsontwerp vereis vooruitbeplanning in die provinsiale en munisipale regeringsfere. Die provinsiale regering sal 'n provinsiale ruimtelike ontwikkelingsraamwerk (PROR) aanneem en munisipaliteite sal munisipale ruimtelike ontwikkelingsraamwerke (MROR'e) aanneem. In sommige gevalle kan die provinsiale regering 'n provinsiale streeks- ruimtelike ontwikkelingsraamwerk (PSROR) saamstel.
- 3.3.2 Die opstel en goedkeuring van 'n MROR word deur die Wet op Plaaslike Regering: Munisipale Stelsels, 2000 (Wet 32 van 2000), geregleer, wat munisipaliteite verplig om ruimtelike ontwikkelingsraamwerke as 'n deel van geïntegreerde ontwikkelingsplanne aan te neem. Hoofstuk III bepaal verdere minimum standaarde vir die opstel en aanneming van ruimtelike ontwikkelingsraamwerke om doeltreffende ruimtelike beplanning deur munisipaliteite te verseker. Die Wetsontwerp bepaal minimum vereistes vir munisipale ruimtelike ontwikkelingsraamwerke met betrekking tot die inhoud daarvan om ooreenstemming met provinsiale strategieë en ontwikkelingsplanne te verseker.
- 3.3.3 Die Wetsontwerp maak voorsiening vir munisipaliteite om te kies om óf interregeringsloodskomitees in te stel, waarop die provinsiale regering verteenwoordig sal word gedurende die opstel van 'n MROR, óf om verpligtende kommentaar deur die Provinsiale Minister te oorweeg voordat 'n munisipale ruimtelike ontwikkelingsraamwerk deur 'n munisipaliteit aangeneem word. Hierdie bepaling van die Wetsontwerp verseker dat die provinsiale regering die geleentheid gegun word om kommentaar te lewer op 'n MROR voor die aanneming of wysiging daarvan, wat 'n regverdigbare uitoefening van die provinsiale regering se bevoegdheid is om toe te sien dat munisipaliteite hul uitvoerende gesag ten opsigte van munisipale beplanning doeltreffend uitoefen. Hierdie bepaling sal voorts bydra tot die ewewig van ekonomiese, maatskaplike en omgewingsbelange in die toekomstige vorm van 'n bepaalde gebied.

3.4 HOOFSTUK IV: MUNISIPALE ONTWIKKELINGSBESTUUR

- 3.4.1 Hoofstuk IV reguleer die verskeie instrumente vir munisipale ontwikkelingsbestuur. Dit stel minimum standaarde vir die wyse waarop munisipaliteite soneringskemas moet opstel, aanneem en wysig. Die Wetsontwerp maak voorsiening vir munisipaliteite om te kies om óf interregeringsloodskomitees in te stel, waarop die Provinsie verteenwoordig sal word gedurende die opstel of wysiging van 'n soneringskema óf om verpligtende kommentaar deur die Provinsiale Minister te oorweeg voordat 'n soneringskema deur 'n munisipaliteit aangeneem of gewysig word. Hierdie bepaling van die Wetsontwerp verseker dat die Provinsie die geleentheid gegun word om kommentaar te lewer op 'n soneringskema voor die aanneming of wysiging daarvan en is 'n regverdigbare uitoefening van die Provinsie se bevoegdheid om toe te sien dat munisipaliteite hul uitvoerende gesag ten opsigte van munisipale beplanning doeltreffend uitoefen.
- 3.4.2 Hierdie Hoofstuk bepaal voorts minimum vereistes vir die keuselys van instrumente vir ontwikkelingsbestuur, naamlik hersonering, afwyking, vergunningsgebruik, onderverdeling, konsolidering en die opheffing, opskorting of wysiging van beperkende voorwaardes. Die Wetsontwerp bepaal minimum standaarde en vereistes waaraan munisipaliteite moet voldoen wanneer hulle hul eie reëls en prosedures ten opsigte van hierdie instrumente aanneem.

- 3.4.3 Die Wetsontwerp bepaal minimum standarde vir ontwikkelingsbestuur. Hierdie standarde handel met kwessies soos die minimum inligting wat deur aansoekers ingedien moet word, die publisering en betekening van kennisgewings om voorsiening te maak vir openbare deelname aan besluitneming, oorlegpleging met ander staatsorgane, gelde vir grondgebruikaansoeke, die grondslag van evaluering van grondgebruikaansoeke, kennisgewing van munisipale besluite en die opskorting van besluite hangende appèlle.
- 3.4.4 Die Wetsontwerp bepaal voorts die grondwetlike bevoegdheids van die Provinsiale Minister ten opsigte van ondersteuning en monitering, wat hom of haar (en sy of haar departement) die reg gee om kommentaar oor sekere grondgebruikaansoeke en appèlle te lewer voordat dit deur munisipaliteite oorweeg word. Sodanige kommentaar sal munisipaliteite op hul hoede stel vir enige grondliggende probleme met aansoeke en appèlle wat vereis dat dit geweier word of vir ander probleme waaraan aandag gegee moet word deur die oplegging van gepaste voorwaardes van goedkeuring. Hierdie vereiste in die Wetsontwerp, dat die provinsiale regering die geleentheid gegun word om kommentaar te lewer, is 'n regverdigbare uitoefening van sy bevoegdheid om toe te sien dat munisipaliteite hul uitvoerende gesag ten opsigte van munisipale beplanning doeltreffend uitoefen. Dit sal ook onnodige appèlle en die oorlading van howe met hersieningsake voorkom.

3.5 HOOFSTUK V: PROVINSIALE ONTWIKKELINGSBESTUUR

- 3.5.1 Hoofstuk V omskryf en reguleer die bevoegdheid van die provinsiale regering om grondontwikkeling goed te keur wat 'n wesenlike uitwerking op die ordelike, gekoördineerde of harmoniese ontwikkeling van 'n streek of die Provinsie sal hê of die algemene welsyn van die inwoners van 'n streek of die Provinsie weens die aard of skaal van die voorgestelde grondgebruik of die kumulatiewe uitwerking van veelvoudige ontwikkelings. Dit omskryf die tipes ontwikkeling wat die goedkeuring van die Departementshoof benodig (benewens die goedkeuring van die munisipaliteit). Die Departementshoof oorweeg slegs daardie aspekte van die ontwikkeling wat provinsiale beplanningsbelange raak. Die provinsiale goedkeuring word benodig wanneer die ontwikkeling van 'n skaal is of 'n impak sal hê wat munisipale grense oorskry. Die Provinsiale Minister kan voorgeskrewe kategorieë van grondontwikkeling daarvan vrystel om provinsiale goedkeuring te benodig.
- 3.5.2 Ten einde administratiewe rompslomp te minimaliseer, bepaal die Wetsontwerp dat prosedures vir provinsiale besluitneming kragtens hierdie Hoofstuk geïntegreer moet word met die prosedures vir munisipale besluitneming beoog in Hoofstuk IV.
- 3.5.3 Die Wetsontwerp bepaal ook 'n reg tot appèl na die Provinsiale Minister teen 'n besluit van die Departementshoof. Provinsiale goedkeurings verval indien die goedgekeurde grondontwikkeling nie binne 10 jaar vanaf die datum waarop die goedkeuring in werking getree het, 'n aanvang neem nie.

3.6 HOOFSTUK VI: BEGINSELS VIR GRONDGEBRUIKBEPLANNING

Hoofstuk VI bepaal beginsels vir grondgebruikbeplanning wat dwarsoor die Provinsie van toepassing is. Hierdie beginsels weerspieël die besorgdheid van die provinsiale regering oor kwessies soos ruimtelike geregtigheid en volhoubaarheid, doelmatigheid, goeie administrasie en ruimtelike veerkragtigheid. Staatsorgane moet hierdie beginsels in ag neem wanneer hulle beplanning reguleer, planne goedkeur of besluite oor grondgebruik neem.

3.7 HOOFSTUK VII: VRYSTELLINGS EN MAGTIGINGS

- 3.7.1 Hoofstuk VII verleen aan die Provinsiale Minister die bevoegdheid om munisipaliteite van sekere bepalinge van die Wetsontwerp vry te stel ten einde die administratiewe of finansiële las op munisipaliteite te verlig en munisipaliteite die magtiging te gee om in noodsituasies van die minimum standarde wat die Wetsontwerp stel, af te wyk.

- 3.7.2 Hierdie Hoofstuk bepaal verder minimum standarde waaraan munisipaliteite moet voldoen wanneer hulle vrystellings in verband met onderverdelings en konsoliderings bepaal.

3.8 HOOFSTUK VIII: BEPLANNINGSADVIESKOMITEE

- 3.8.1 Hoofstuk VIII verleen aan die Provinsiale Minister die bevoegdheid om 'n Beplanningsadvieskomitee in te stel ten einde raad te gee wat nodig kan wees oor die toepassing van hierdie Wetsontwerp en sy regulasies.
- 3.8.2 Hierdie Hoofstuk bepaal die samestelling van die Beplanningsadvieskomitee, vereistes in verband met die kwalifikasies en ondervinding van die lede, die ampstermyn en diensvoorwaardes van die lede, en maak voorsiening vir vergaderings van die komitee.

3.9 HOOFSTUK IX: ALGEMENE BEPALINGS

- 3.9.1 Hoofstuk IX vereis van 'n munisipaliteit, die Provinsiale Minister en die Departementshoof om 'n skriftelike evaluering deur 'n professionele of tegniese beplanner wat ingevolge die Wet op die Beplanningsprofessie, 2002 (Wet 36 van 2002), geregistreer is, te oorweeg voordat hy besluit of kommentaar lewer oor sekere aangeleenthede oor grondgebruikbeplanning. Die tipe aansoeke en aangeleenthede wat in hierdie bepaling van die Wetsontwerp vermeld word, raak kwessies wat professionele insig benodig. Die provinsiale regering kan, as 'n deel van sy toesighoudende werksaamheid, regmatig vereis dat munisipaliteite professionele beplanningsinsette oorweeg voordat hulle oor hierdie aangeleenthede besluit. In hierdie verband bepaal die Wetsontwerp dat munisipaliteite wat nie die dienste van 'n geregistreerde beplanner tot hul beskikking het nie die Provinsie kan nader om 'n professionele beplanner aan te stel om 'n verslag te verskaf. Die bepaling beperk nie die diskresie van 'n munisipaliteit, of 'n beplanningsbeampte met gedelegeerde bevoegdheid, om in stryd met die aanbeveling van die geregistreerde beplanner oor aangeleenthede te besluit nie. Die bepaling skryf ook nie voor welke kategorie van persone grondgebruikaansoeke kan saamstel nie.
- 3.9.2 Hierdie Hoofstuk bepaal ook dat daar gepoog moet word om die veelvoudige prosedures wat op 'n enkele ontwikkeling van toepassing is, te integreer deur middel van ooreenkomste, geïntegreerde goedkeurings en gesamentlike openbare en interregeringsoorlegpleging. Die Wetsontwerp laat ook toe dat besluite oor aansoeke geneem word deur middel van 'n proses wat ander wetgewing voorskryf indien daardie proses aan die vereistes van toepaslike verordeninge en hierdie Wetsontwerp voldoen.
- 3.9.3 Hoofstuk IX bepaal verder provinsiale bevoegdhede om ondersoeke uit te voer en voldoening af te dwing aan die vereistes wat verband hou met goedkeurings deur die Departementshoof van grondontwikkeling. Die Wetsontwerp stel in hierdie verband die daarstelling van misdrywe en strawwe voor.
- 3.9.4 Die Wetsontwerp maak voorsiening vir die delegering van bevoegdhede en die opdraging van pligte deur die Premier, die Provinsiale Minister en die Departementshoof.
- 3.9.5 Hierdie Hoofstuk verleen verder aan die Provinsiale Minister die bevoegdheid om regulasies te maak ten einde die implementering van die Wetsontwerp wanneer dit van krag is te fasiliteer.
- 3.9.6 Hierdie Hoofstuk bepaal verder die herroeping van oubedeling-beplanningswetgewing, sekere voorbehoude en oorgangsreëlings, en maak voorsiening vir die datum van inwerkingtreding van die Wet om te verskil in verskeie munisipale gebiede.

4. FINANSIËLE IMPLIKASIES

Daar sal in toekomstige boekjare vir die provinsiale werksaamheid ten opsigte van grondgebruikbeplanning begroot word.

5. OORLEGPLEGING

- 5.1 'n Konsepwetsontwerp is in die *Provinsiale Koerant* vir kommentaar gepubliseer.
- 5.2 Die volgende partye is ook geraadpleeg:
Provinsiale departemente
Plaaslike Regering
Georganiseerde Plaaslike Regering
Die Nasionale Departement van Landelike Ontwikkeling en Grondhervorming
Rolspelers in die beplanningsbedryf

6. WETGEWENDE BEVOEGDHEID

Die Provinsiale Minister verantwoordelik vir beplanning is oortuig dat al die bepalings van die Wetsontwerp binne die wetgewende bevoegdheid van die Provinsie ressorteer.
