1. The Provincial Minister of Local Government, Environmental Affairs and Development Planning in the Western Cape, in terms of regulation 3 of the Environmental Management Framework Regulations, 2010, published under Government Notice R547/2010 in *Government Gazette* 33306 dated 18 June 2010, read with section 24(2) and (3) of the National Environmental Management Act, 1998 (Act 107 of 1998) (the Act), invites members of the public to submit written representations on or objections to the Draft Environmental Management Framework for Mossel Bay Municipality (the Draft EMF).
2. Section 24(3) of the Act provides that the National Minister, or a Provincial Minister with the concurrence of the National Minister, may compile information and maps that specify the attributes of the environment in particular geographical areas, including the sensitivity, extent, and interrelationship and significance of such attributes that must be taken into account by every competent authority. Such information and maps are to be used as environmental management frameworks in the consideration of applications for environmental authorisations in or affecting a geographical area to which the framework applies.
3. Mossel Bay is situated on the Garden Route bounded by the Hessequa Municipality to its west, George Municipality to its east and Oudtshoorn Municipality to its north. The population of Mossel Bay is 96 114 people in 2021, making it the second most populated municipal area in the Garden Route District. Given the anticipated growth in the area, an environmental management framework was drafted for the Mossel Bay Municipality to promote sustainability, sustainable development, secure environmental protection, and cooperative environmental governance in the geographical area.
