set out in the Schedule hereto in substitution for the regulations published by Government Notice R. 1389 of 24 August 1962, which is hereby repealed.

SCHEDULE

The methods to be employed and the procedure to be followed when samples are taken of winter cereal and winter cereal products under the Winter Cereal Scheme, published by Proclamation R. 162 of 1974, as amended, are as follows:

Winter Cereal in grain form

1. (1) A sample for the determination of the cereal shall be taken as follows:

(a) A sample of winter cereal packed in bags shall be obtained by taking small quantities of the winter cereal from each bag at different levels by means of a probe: Provided, however, that whenever it is impracticable to take a sample from each bag, the sample shall only be taken from such number of bags as may be practicable. The samples shall then be deposited in a container and mixed thoroughly and from this, a sample of approximately 3 kg shall then be taken;

(b) a sample of winter cereal stored or conveyed in bulk shall be obtained by taking small quantities from the bulk with a double-tube probe of suitable length at different places scattered as widely as possible, the probe to be pushed in as deeply as possible. The samples shall then be deposited in a container and mixed thoroughly, and from this, a sample of approximately 3 kg shall then be taken.

(2) A sample for the determination of the class and/or grade of winter cereal shall be taken as follows:

(a) A sample of winter cereal packed in bags shall be obtained by first separating the grain into groups of the same quality and then taking small quantities of the grain in each group at different levels from each bag by means of a probe. The probe must in all cases be pushed deep into the bag. The samples shall then be deposited in a container and mixed thoroughly, and from this, a sample of approximately 3 kg shall then be taken.

(b) A sample of winter cereal stored or conveyed in bulk shall be obtained by taking small quantities from the bulk with a double-tube probe of suitable length at different places scattered as widely as possible. The probe must in all cases be pushed in deep into the bag. The samples shall be deposited in a container and mixed thoroughly, and from this, a sample of approximately 3 kg shall be taken.

Winter cereal products

2. (1) A sample of winter cereal products in ground, compressed or rolled form shall be taken as follows:

(a) Of winter cereal products contained in packings of less than 12,5 kg each, one or more packings shall be taken at random from the quantity from which samples are to be taken; should the contents of one such packing be insufficient for divisions or analysis, further packings being the property of the same person and purporting to contain the same product, shall be taken and the contents of two or more packings mixed thoroughly there and then;

(b) of winter cereal products in bulk or contained in packings each of 12,5 kg or more, three or more approximately equal parts, together measuring about 3 kg, shall be taken at various places scattered as evenly as in practicable over the quantity from which the samples are taken: Provided, however, that in the case of products in a packing, a probe may be used only if the material of the packing from which the sample is taken, is physically suitable for this purpose; should the material be unsuitable

BYLAE

Die metodes wat aangewend en die prosedure wat gevolg moet word by die neem van monsters wintergraan en wintergraanprodukte kragtens die Wintergraanskema, afgekondig by Proklamasie R. 162 van 1974, soos gewysig, is soos volg:

Wintergraan in pitvorm

1. (1) 'n Monster vir die bepaling van die graansoort word soos volg geneem:

(a) 'n Monster van wintergraan wat in sakke verpak is, word verkry deur klein hoeveelhede van die wintergraan op verskillende hoogtes met 'n steker uit elke sak te neem: Met dien verstande egter dat waar dit nie prakties moontlik is om 'n monster uit elke sak te neem nie, die monster slegs uit soveel sakke as wat prakties moontlik is geneem word. Die monsters word in 'n houer gegooi, deeglik gemeng en hiervan word 'n monster van nagenoeg 3 kg geneem;

(b) 'n monster van wintergraan wat in losmaat opgeberg of vervoer word, word verkry deur klein hoeveelhede met 'n dubbelbuissteker van geskikte lengte op verskillende plekke, so verspreid moontlik, uit die losmaatgraan te neem. Die steker moet so diep moontlik ingestek word. Die monsters word in 'n houer gegooi, deeglik gemeng en hiervan word 'n monster van nagenoeg 3 kg geneem.

(2) 'n Monster vir die bepaling van die klas en/of graad wintergraan word soos volg geneem:

(a) 'n Monster van wintergraan wat in sakke verpak is, word verkry deur eers die graan in groepe van dieselfde gehalte te skei en daarna klein hoeveelhede van die graan in elke groep op verskillende hoogtes met 'n steker uit elke sak te neem. Die steker moet in alle gevalle diep in die sak ingestek word. Die monsters word in 'n houer gegooi, deeglik gemeng en hiervan word 'n monster van nagenoeg 3 kg geneem.

(b) 'n Monster van wintergraan wat in losmaat opgeberg of vervoer word, word verkry deur klein hoeveelhede met 'n dubbelbuissteker van geskikte lengte op verskillende plekke, so verspreid moontlik, uit die losmaatgraan te neem. Die steker moet so diep moontlik ingestek word. Die monsters word in 'n houer gegooi, deeglik gemeng en hiervan word 'n monster van nagenoeg 3 kg geneem.

Wintergraanprodukte

2. (1) 'n Monster van 'n wintergraanprodukt in die gemaalde of gedrukte of gerolde vorm word soos volg geneem:

(a) Van wintergraanprodukte wat in verpakkings waarvan die netto massa minder as 12,5 kg is, verpak is, word een of meer verpakkings lukraak geneem uit die hoeveelheid waaruit monsters geneem moet word; indien die inhoud van een sodanige verpakking onvoldoende vir die doel van verdeling of ontleding is, word verdere verpakkings wat die eiendom van dieselfde persoon is en wat voorgee dienselfde produk te bevat, geneem en die inhoud van twee of meer verpakkings word dadelik deeglik gemeng;

(b) van wintergraanprodukte wat in losmaat is of wat verpak is in eenhede waarvan die netto massa 12,5 kg of meer is, word op verskillende punte wat so eweredig as prakties moontlik versprei is oor die hoeveelheid waaruit monsters geneem word, drie of meer naastenby gelyke dele geneem met 'n gesamentlike massa van nagenoeg 3 kg: Met dien verstande egter dat in die geval van produkte in verpakkings, 'n steker alleenlik gebruik mag word as die materiaal waarvan die verpakking vervaardig is, fisies daarvoor geskik is; indien die materiaal nie daarvoor

for this purpose, a few of the containers shall be opened and from the containers thus opened, sufficient portions of the product shall be taken to make up a combined sample of approximately 3 kg.

(2) In the case of bread, at least three loaves of each class of bread on the premises or the vehicle shall be taken at random at different places as a sample: Provided that where the quality of a certain class does not appear to be uniform, the three loaves shall be taken in such a manner as to be more or less representative of all the different qualities: Provided further that a smaller number of loaves may be taken if the quantity available is insufficient or if the taking of the said minimum number of loaves may cause undue hardship to the public.

(3) In the case of confectionery, biscuits, macaroni and macaroni-allied products, at least one unit of each specific type of confectionery or at least one packing of each type of biscuit or macaroni or macaroni-allied product shall be taken as a sample.

3. Samples shall be taken in the presence of, the owner of the winter cereal or winter cereal product or the person in whose custody or in whose charge or on whose premises such winter cereal or winter cereal product may be, or, if neither the owner of the winter cereal or winter cereal product or the person in whose custody or in whose charge or on whose premises such winter cereal or winter cereal product may be, is present, in the presence of another witness.

4. (1) Samples taken in terms of the provisions of paragraphs 1 (1) and 2 (1) shall there and then and in the presence of the owner of the winter cereal or winter cereal product or the person in whose custody or in whose charge or on whose premises such winter cereal or winter cereal product may be, or the witness, be divided into three equal portions each of which shall forthwith be packed and sealed and duly labelled and marked according to its nature. One portion, together with a certificate in the form prescribed in Annexure A and signed by the person who has taken the sample, shall be forwarded to the Wheat Board, P.O. Box 908, Pretoria, 0001 as soon as possible for grading or analysis, or handed or forwarded to a person nominated by the Wheat Board to grade or analyse the sample. The second portion, together with a copy of the said certificate, shall be handed or forwarded by registered post to the owner of the winter cereal or winter cereal product or the person in whose custody or in whose charge or on whose premises such winter cereal or winter cereal product may be. The third portion shall be retained by the person who has taken the sample: Provided that if the total quantity of the winter cereal or winter cereal product available is less than approximately 3 kg and the sample after division are insufficient for grading or analysis, the total quantity available for grading or analysis shall be forwarded to the Wheat Board or handed or forwarded to a person nominated by the Wheat Board to grade or analyse the sample.

(2) Samples taken in terms of the provisions of paragraph 1 (2) shall further be dealt with as prescribed in the grading regulations for winter cereal.

5. Samples taken in terms of the provisions of paragraphs 2 (2) and 2 (3) shall be packed and sealed and duly labelled or marked there and then in the presence of the owner of the winter cereal or winter cereal product or the person in whose custody or in whose charge or on whose premises such winter cereal or winter cereal product may be, or the witness. The samples together with the certificate prescribed in Annexure A and signed by the person who has taken the samples, shall then be forwarded or handed to the Wheat Board, P.O. Box 908, Pretoria, 0001, for analysis

geskik is nie, moet 'n paar van die houers oopgemaak word en moet genoeg vir 'n gesamentlike monster van nagenoeg 3 kg van die produk uit die oopgemaakte houers geneem word.

(2) In die geval van brood word minstens drie brode van elke klas brood wat op die perseel of voertuig is, lukraak op verskillende plekke, as monsters geneem: Met dien verstande dat waar die kwaliteit van 'n bepaalde graad oënskynlik nie eenvormig is nie, die drie brode so geneem word dat dit naastenby verteenwoordigend is van al die verskillende kwaliteite: Met dien verstande verder dat minder brode geneem mag word as die beskikbare hoeveelheid onvoldoende is of as die neem van voornoemde minimum getal brode oormatige ontbering aan die publiek mag veroorsaak.

(3) In die geval van banket, beskuitjies, macaroni en macaroni-verwante produkte word minstens een eenheid van elke spesifieke tipe banket of minstens een verpakking van elke tipe beskuitjie of macaroni of macaroni-verwante produk as monster geneem.

3. Monsters moet geneem word in die bysyn van die eienaar van die wintergraansoort of wintergraanprodukt of van die persoon wat dit in sy bewaring of onder sy toesig het of op wie se perseel dit is of, as nóg die eienaar van die wintergraansoort of wintergraanprodukt, nóg die persoon wat die wintergraansoort of wintergraanprodukt in sy bewaring of onder sy toesig het of op wie se perseel dit is, aanwesig is, in die bysyn van 'n ander getuie.

4. (1) Monsters wat ingevolge die bepalings van paragraaf 1 (1) en 2 (1) geneem word, word dadelik in die bysyn van, die eienaar van die wintergraansoort of wintergraanprodukt of die persoon wat die wintergraansoort of wintergraanprodukt in sy bewaring of onder sy toesig het of op wie se perseel dit is of die getuie, in drie gelyke dele verdeel, elk waarvan dadelik op sodanige wyse as wat sy aard toelaat, verpak en verseël en behoorlik geëtiketteer of gemerk word. Een deel tesame met 'n sertifikaat in die vorm voorgeskryf in Bylae A en onderteken deur die persoon wat die monster geneem het, word so spoedig moontlik vir gradering of ontleding aan die Koringraad, Posbus 908, Pretoria, 0001, gestuur, of oorhandig of gestuur aan 'n persoon wat deur die Koringraad aangewys is om die monster te gradeer of te ontleed. Die tweede deel, tesame met 'n afskrif van genoemde sertifikaat, word aan die eienaar van die wintergraansoort of wintergraanprodukt of die persoon wat dit in sy bewaring of onder sy toesig het of op wie se perseel dit is, oorhandig of per aangetekende pos gestuur. Die derde deel word bewaar deur die persoon wat die monster geneem het: Met dien verstande dat indien die totale hoeveelheid van die wintergraansoort of wintergraanprodukt wat beskikbaar is, minder as ongeveer 3 kg is en die monsters na verdeling nie voldoende vir gradering of ontleding is nie, die totale hoeveelheid beskikbaar vir gradering of ontleding aan die Koringraad gestuur word, of oorhandig of gestuur word aan 'n persoon wat deur die Koringraad aangewys is om die monster te gradeer of te ontleed.

(2) Monsters wat ingevolge die bepalings van paragraaf 1 (2) geneem word, word verder behandel soos in die graderingsregulasies vir wintergraan voorgeskryf.

Die monsters word, tesame met die sertifikaat voorgeskryf in Bylae A en onderteken deur die persoon wat die monsters geneem het, aan die Koringraad, Posbus 908, Pretoria, 0001, gestuur of oorhandig vir ontleding deur 'n persoon

A copy of the said certificate shall be handed or forwarded by registered post to the owner of the winter cereal or winter cereal product or the person in whose custody or in whose charge or on whose premises such winter cereal or winter cereal product may be.

wat vir dié doel deur die Koringraad aangewys is. 'n Afskrif van genoemde sertifikaat word aan die eienaar van die wintergraansoort of wintergraanprodukt of die persoon wat dit in sy bewaring of onder sy toesig het of op wie se perseel dit is, oorhandig of per aangetekende pos gestuur.
