For purposes of calculating the interest, the provisions of section 2 (2) of the Act shall *mutatis mutandis* apply.
- (iii) The Council shall, in its absolute discretion, be entitled to waive payment by the employer of any interest which accrues in terms of this subclause.

8. ANNUAL LEAVE

Each Industry employer shall grant each employee a minimum of 13 days' paid leave (calculated on basic weekly hours) per annum. Any paid public holidays that may fall within the annual leave period (excluding those public holidays falling on a Saturday) shall be paid and added to the annual leave entitlement. Employees who have been employed in the Industry for a period of less than 12 months shall accrue paid annual leave on a *pro rata* basis. Where Industry employers currently offer employees more favourable paid annual leave arrangements, that status quo shall remain.

9. MATERNITY LEAVE AND BENEFITS

The following arrangements shall apply with regard to females embarking upon maternity leave:

- 9.1 Maternity leave shall be for a maximum period of three months to cover the period before, during and after confinement, which shall be paid at a rate of 33 per cent of the employee's basic weekly wage before deductions. The whole amount due shall be paid on the employee's last day of work immediately preceding the commencement of her maternity leave.
- 9.2 No pregnant employee shall be permitted to work during the period commencing four weeks prior to her expected date of confinement and ending eight weeks after her date of confinement.
- 9.3 For the purpose of calculating length of service, maternity leave shall not be deemed to constitute a break in service.
- 9.4 An employee wishing to apply for maternity leave shall apply at least one month before embarking on such leave.

- 9.5 Should a registered medical practitioner determine that it is advisable that a person should commence maternity leave at an earlier date, such employee shall not be required to give one month's written notice.
- 9.6 The employer shall guarantee re-employment after the expiry of the maternity leave at the same job grade that was applicable to the employee immediately prior to commencing her maternity leave, and at the same rate of pay or the new minimum wage for that grade, whichever is the greater. This guarantee shall not apply where the employee has been selected for retrenchment on the basis of criteria agreed between the employer and the trade union representing the employee(s).
- 9.7 Should the employee elect or be unable to resume work on the due date (i.e. on the Monday immediately following the completion of the 8th week after the birth of her child/children) for reasons excluding medical grounds (supported by a certificate issued by a registered medical practitioner), such employee's services shall be deemed to have terminated on the last day of the maternity leave as discussed in clause 9.1, unless the employee has made a prior mutual arrangement with her employer and/or the reason for her non-resumption of work is valid and acceptable to the "reasonable employer".
- Any employee granted any extension as per this clause shall not be paid for the period of the absence and such extension shall be conditional to her return to work within four weeks of her initial due date of return (subject to the conditions specified in the new Labour Relations Act).
- 9.8 It is agreed that maternity leave may be extended up to maximum of three additional months on medical grounds, supported by a certificate from a registered medical practitioner, with the proviso that the maternity leave from the day of commencement to the day of return to work shall be unbroken, and such extension as envisaged in this paragraph shall be unpaid.
- 9.9 Any employer may engage the services of a temporary employee to fill the position of an employee on maternity leave. The services of such an employee shall cease when the employee who was on maternity leave returns to work, unless a suitable vacancy exists, in which event the temporary employee may be employed to fill that vacancy on a permanent basis.
- 9.10 Any employee temporarily promoted to fill a vacancy while another employee is on maternity leave shall be demoted when such employee returns to work unless a suitable alternative vacancy exists.
- 9.11 An employee who wishes to return to work, either within or at the end of six months' maternity leave shall endeavour to provide the employer with a medical certificate from a registered medical practitioner indicating that she is fit for work, and give the employer one month's notice of her intention to return to work.
- 9.12 Where Industry employers currently provide more favourable maternity benefits, the *status quo* shall remain.

10. PATERNITY AND COMPASSIONATE LEAVE

A minimum of three days' unpaid paternity/compassionate leave shall be granted per employee per annum. Where Industry employers currently provide more favourable arrangements, the *status quo* shall remain.

11. ANNUAL BONUS

Industry employers shall pay their employees in their employ in December of each year, on the day immediately prior to the annual shutdown, a guaranteed minimum annual bonus made up of one week's basic earnings, pro rata to service where less than a year's service has been rendered by the employee. Under no circumstances shall this annual bonus be less than the minimum wage of R317,00 per employee in the case of establishments located in Centralised Magisterial Districts, and R254,00 per employee in the case of establishments located in De-centralised Magisterial Districts. Where Industry employers currently offer employees more favourable annual bonus arrangements, the *status quo* shall remain.

12. PROVIDENT FUND

All Industry employers and employees shall each contribute a minimum amount of 5,5 per cent of an employees' basic wage to a provident fund. A portion of these contributions may be used to finance the insurance costs related to death and disability benefit policies. Where no registered provident fund exists the employer, together with his employees and SACTWU, shall establish such a fund; alternatively they may agree to become a party to the Textile Industry Provident Fund. Any employer whose employees are member of a provident fund other than the Textile Industry Provident Fund shall immediately (and on an annual basis thereafter) provide the Council with a copy of that provident fund's registered constitution (including all its rules and regulations) as well as its most recent annual audited statements.

Where Industry employers' and employees' present contributions to a provident fund each exceed 5,5 per cent, the *status quo* shall remain.

13. SACTWU EDUCATION BURSARY BENEFIT SCHEME

13.1 Each Industry employer shall pay an amount of twenty cents per week per SACTWU member in their employ to the SACTWU Education Bursary Benefit Scheme. The total amount for each month shall be paid to the SACTWU Finance Department, P.O. Box 18359, Dalbridge, 4014, Province of KwaZulu-Natal, by not later than the 14th day of the following month.

13.2 SACTWU shall not extend the benefit of the employer's contribution to any employee who is not making a similar contribution to the SACTWU Education Bursary Benefit Scheme.

14. NIGHT SHIFT ALLOWANCE

All employees shall be entitled to a minimum night shift allowance of 12,5 per cent per shift worked between the hours of 22:00 and 06:00. Where Industry employers currently offer more favourable allowance, the *status quo* shall remain.
