6. The Joint Council shall compile a register of all detachments belonging to each corps, and once a year shall forward a list of all such detachments to the Director of Medical Services with particulars of the strength of each detachment.

7 (1) The Joint Council shall compile and keep up to date—

(*a*) a special service list of not less than 200 voluntary aid nurses for registration as probationers in the South African Medical Nursing Service. A copy of this list shall be furnished annually to the Matron-in-Chief, South African Military Nursing Service, and notification made to her from time to time of any changes in such list;

(*b*) a special service list of not less than 200 qualified members of ambulance detachments who in time of war or national emergency would be prepared to engage for general service in the South African Medical Corps. A copy of this list shall be furnished annually to the Director of Medical Services, and notification made to him from time to time of any changes in such list.

(2) There shall not be placed on either of the lists mentioned in clause (1) the name of any person who is disqualified by age or infirmity, or who is not likely to be available for general service in time of war or national emergency.

8. Each registered detachment shall be inspected annually by the Director of Medical Services or his representative, and failure on the part of any member to attend the inspection without furnishing the officer in charge with an adequate excuse will involve the member in loss of efficiency for the year.

9. In order to be classified as efficient in any one year each member of a detachment (excepting the officer in charge and honorary surgeon) shall be required

(*a*) to attend at least twelve drills of not less than one hour's duration each;

(*b*) to pass such examinations as may be prescribed by the responsible Central Executive Council at least once in three years;

(*c*) to attend the annual inspection of the detachment;

(*d*) to be certified by the officer in charge and honorary surgeon as efficient in the duties required;

(*e*) to have responded to the satisfaction of the officer in charge when called upon to perform public duty.

Members failing to qualify under any one of these heads will lose credit for the year as regards efficiency.

10. (1) Nothing contained in the preceding regulations or in the rules prescribed by the responsible Central Executive Council for either corps shall relieve any member of any obligation attaching to him as a citizen in regard to liability to personal service and training by the Government in the Union Defence Forces; and service in the corps shall be regarded as of a voluntary nature undertaken by a citizen in addition to any duties prescribed by the South Africa Defence Act, 1912, and regulations framed thereunder.

(2) Any member of either corps required to perform any military duty as a citizen shall, during the period he is performing such duty, be excused from performing any duty required by the corps.

(3) Dokters en gecefende verpleegsters wat geregistreer is om in Suidafrika te praktiseer kan in een van hierdie twee korpse ingeskryf word.

4. (1) Die St. Johannes Korps staan onder die algemene beheer van die Hoofbestuursraad van die Orde van die Hospitaal van St. Johannes in Suidafrika en is onderworpe aan die reëls wat deur genoemde Raad voorgeskryf is.

(2) Die Rooikruis Korps staan onder die algemene beheer van die Hoofbestuursraad van die Suidafrikaanse Rooikruis Vereniging en is onderworpe aan die reëls wat deur die genoemde Raad voorgeskryf is.

(3) Die reëls van albei korpse moet deur bemiddeling van die Direkteur van die Geneeskundige Diens aan die Minister vir informasie voorgelê word.

5. Die Gesamentlike Raad deur die twee Hoofbestuursrade aangesteld is in terme van die ooreenkoms, gedateer 1 Mei 1921, aangegaan tussen die voornoemde Grootproosdy en die voornoemde Rooikruis Vereniging vir die instelling van 'n gesamentlike Raad onder die naam van "Die Gesamentlike Raad van St. Johannes en Rooikruis in Suidafrika" sal oor geen van die twee korpse regsmag hê nie, behalwe vir sover weersyds ooreengekom mag word, en sal dien om beskikbare gelde toe te wys, om dubbele werk te voorkom en om enige geskilpunt te reël.

6. Die Gesamentlike Raad moet 'n register opstel van al die afdelings wat aan elke korps behoort en moet eenmaal elke jaar 'n lys van al daardie afdelings aan die Direkteur van die Geneeskundige Diens deurstuur met besonderhede van die sterkte van elke afdeling.

7. (1) Die Gesamentlike Raad moet die volgende lyste opstel en byhou—

(*a*) 'n spesiale dienslys met die name van nie minder nie as 200 vrywillige-hulp-verpleegsters vir registrasie as verpleegsters op proef in die Suidafrikaanse Geneeskundige Verpleegdiens. 'n Afskrif van hierdie lys moet jaarliks aan die opperste matrone, Suidafrikaanse Militêre Verpleegdiens verskaf word en aan haar moet van tyd tot tyd kennis gegee word van enige veranderinge wat in bedoelde lys voorkom;

(*b*) 'n spesiale dienslys met die name van nie minder nie as 200 gekwalifiseerde lede van ambulansafdelings wat in tyd van oorlog of nasionale gevaar bereid sal wees om hulle te verbind vir algemene diens in die Suidafrikaanse Geneeskundige Diens. 'n Afskrif van hierdie lys moet jaarliks aan die Direkteur van die Geneeskundige Diens verskaf word en aan hom moet van tyd tot tyd kennis gegee word van enige veranderinge wat in bedoelde lys voorkom.

(2) Op geen een van die lyste wat in klausule (1) vermeld is, mag die naam geplaas word van enige persoon wat weens ouderdom of swakheid gediskwalifiseer is of wat waarskynlik nie in tyd van oorlog of nasionale gevaar vir algemene diens beskikbaar sal wees nie.

8. Elke geregistreerde afdeling moet jaarliks deur die Direkteur van die Geneeskundige Diens of sy verteenwoordiger geïnspekteer word. As 'n lid versuim om hierdie inspeksie by te woon en nie 'n voldoende rede vir sy afwesigheid aan die offisier aan die hoof opgee nie dan verloor hy wat anders sou getel het as bekwaamheid vir die jaar.

9. Om in enige jaar as bekwaam geklassifiseer te kan word, moet elke lid van 'n afdeling (behalwe die offisier aan die hoof en die honorêre-dokter—

(*a*) aan minstens twaalf driloefeninge, van 'n duur van nie minder nie as een uur elk, deelneem;

(*b*) in die eksamens slaag wat deur die verantwoordelike Hoofbestuursraad minstens eenmaal in drie jaar voorgeskryf mag word;

(*c*) by die jaarlikse inspeksie van die afdeling aanwesig wees;

(*d*) deur die offisier aan die hoof en die honorêre-dokter gesertifiseer word as bekwaam in die werk wat vereis word;

(*e*) tot genoeë van die offisier aan die hoof gehoor gegee het aan die oproep om publieke diens te doen.

Lede wat in gebreke bly om onder een van hierdie hoofde te kwalifiseer verloor wat anders sou getel het as bekwaamheid vir die jaar.

10. (1) Niks wat in die voorgaande regulasies vervat is of in die reëls wat deur die verantwoordelike Hoofbestuursraad vir elke korps voorgeskrywe is, sal 'n lid onthef van sy verpligting as burger om persoonlik diens te doen en oefening mee te maak in die Unie Verdedigingsmagte. Diens by die korps word beskou as vrywillige diens wat 'n burger op hom neem benewens enige dienspligte voorgeskrywe deur die Suidafrikaanse Verdedigingswet, 1912, en die regulasies wat daaronder opgestel is.

(2) Elke lid van een van die bedoelde korpse, wat onder die verpligting is om militêre diens te doen as burger, sal gedurende die tyd wat hy op sulke diens is, verskoon word van die uitvoering van enige diens wat deur die korps vereis word.

H. WARINGTON SMYTH,
Sekretaris voor Mijnwezen en Nijverheid.

Departement van Mijnwezen en Nijverheid, Pretoria.

* No. 267.] [9 Februarie 1923.

Het volgende rapport van het Komitee van Onderzoek naar het sluiten van de Knight Central, Limited, wordt hiermede gepubliceerd op bevel van Zijn Hoogedele de Minister van Mijnwezen en Nijverheid.

16 Januarie 1923.

De Goevernements Mijn Ingenieur,
Johannesburg.

Mijnheer.

In overeenstemming met uw instruksies van de derde dezer maand, hebben wij de eer hiermede aan de Edelachtbare de Minister van Mijnwezen en Nijverheid ons verslag betreffende sluiting van de "Knight Central Limited" voor te leggen

The terms of reference to us were to inquire into and report upon—

(i) the immediate causes of the closing down of the mine;
(ii) whether continued working is practicable, and, if so, what steps should be taken to enable it to continue;
(iii) whether adjacent mines will be affected by closing down.

Public sittings of the Committee were held in the Council Chamber of the Germiston Municipality on the 10th and 13th instant. In addition to these public sittings, four meetings of the Committee were held for investigation and deliberation.

The personnel and terms of reference to the Committtee were published in the *Star* of the 4th instant, and further notification appeared in both the *Rand Daily Mail* and *Star* of the 9th instant announcing that the Committtee would sit on the following day in the Council Chamber of the Germiston Municipality.

As the Committee was informed by certain persons wishing to give evidence that they had not had sufficient time to prepare the same, a further public sitting was held on the 13th instant. The only evidence submittted on behalf of the public were two statements by the S.A. Reduction Workers' Association and the Mining Guild of the Witwatersrand, Ltd., respectively, which are attached hereto.

The property is situated in the Mining District of Boksburg, and is bounded on the north and west by the claims of the Knights Deep, Ltd. (in liquidation) and Simmer Deep, Ltd., and on the east by the property of the Witwatersrand Gold Mining Co., Ltd., and Witwatersrand Deep, Ltd. The size of the property is approximately 5,000 feet on the strike along the northern boundary and some 10,000 feet on the dip, and consists of 905 claims of which 211 are diggers' claims and 694 prospecting claims.

The Company was formed in September, 1895, with a nominal capital of 525,000 shares of £1 each, which was increased in 1908 to 900,000 shares of £1 each, all fully paid. There are no shares in reserve or debentures. Actual work commenced on the 18th January, 1896.

The mine is served by two five-compartment main compound shafts, namely, No. 1 West Shaft and No. 2 East Shaft.

No. 1 Shaft descends vertically to a depth of 2,111 feet and continues on the incline at a dip of 28 degrees for a distance of 2,889 feet.

No. 2 Shaft descends vertically to a depth of 2,219 feet, and continues on the incline at a dip of 30 degrees for a distance of 2,512 feet.

The well-known Simmer Dyke enters the property from the west and runs parallel to the strike for, so far as is proved, a distance of 4,000 feet towards the eastern boundary. The presence of this dyke necessitated the driving of two long crosscuts and the sinking and equipping of three subsidiary incline shafts, namely, Nos. 3, 4, and 5, the collars of which lie vertically below the surface 3,200 feet and 3,318 feet, respectively.

No. 3 Shaft (three compartments) has a length of 780 feet, and dips at 35 degrees.

No. 4 Shaft (three compartments) has a length of 1,221 feet, and dips at 38, 28, and 22 degrees.

No 5 Shaft (five compartments) has a length of 899 feet, and dips at 32 degrees.

Since milling operations commenced in February, 1909, and up to 30th November of 1922, 4,067,548 tons have been crushed of an average value of 5.665 dwt.; the theoretical extraction on this tonnage has been 95.17 per cent., and the actual recovery amounted to 1,092,537 fine ozs. of gold, equal to 5.372 dwt. per ton milled.

The mine is equipped with 120 1,450-lb. stamps. and three tube mills, the nominal crushing capacity being 30,000 tons per month.

In 1912 attention was called by the then consulting engineer to the fact that a dyke, supposed to be the Simmer dyke and which afterwards proved to be so, had been struck in the incline shafts Nos. 1 and 2. Between that date and June, 1917, the ground south of this dyke was developed through the subsidiary inclines Nos. 3, 4, and 5 above-mentioned. On the 14th June, 1917, the consulting engineer to the company reported to the directors the results of development work to date south of the Simmer dyke. From this report it appeared that in the period 1912-17, 23,793 feet had been driven, risen and sunk in development of this area south of the dyke. Of this footage 13,602 feet had been sampled, giving an average value of 3.6 dwt. over a stoping width of 58 inches. He stated:—

"The total footage shown represents footage driven, risen, and sunk, and also prospecting work, main crosscuts and ore passes."

The estimate then made of the total tonnage exposed by the drives was summarized as follows:—

Level.	Total Tonnage.	Payable Tonnage.	Percentage Payable.
13	49,600	1,500	3·02
14	149,900	5,800	3·87
15	56,500	nil.	nil.
16	170,300	nil.	nil.
17	221,600	23,300	10·51
18	104,300	23,800	22·82
19	8,500	1,900	22·35
	760,700	56,300	7·40

It will be observed that the percentage of payability varied from nothing in the 15th and 16th levels to nearly 23 per cent. in the 18th level.

In this report the consulting engineer to the company pointed out that—

"The total amount spent in development, including crosscutting and prospecting, has been £90,200. Thus the total amount spent on development and shaft sinking is £148,030, and the total amount actually spent, including preliminary

Wij hadden onderzoek in te stellen en verslag uit te brengen omtrent:—

(i) De onmiddellike oorzaken van het sluiten der mijn;
(ii) Of voortzettting van werken mogelik is, en zo ja, welke stappen genomen zouden moeten worden om die voortzetting te bewerkstellingen;
(iii) of dit sluiten invloed zal hebben op aangrenzende mijnen.

Publieke zittingen van het Komitee werden in de Raadzaal van de Munisipaliteit van Germiston op de 10de en 13de dezer maand gehouden. Behalve deze publieke zittingen, werden vier vergaderingen van het Komitee gehouden ten doel hebbende onderzoek en beraadslaging.

De namen van het personeel en de betreffende voorwaarden werden gepubliceerd in de *Star* van 4 dezer, en verder werden in de *Rand Daily Mail* en in de *Star* van 9 dezer aangekondigd dat het Komitee de volgende dag zitting zou houden in de Raadzaal van de Munisipaliteit van Germiston.

Daar door verscheidene personen aan het Komitee kennis gegeven was, dat zij niet voldoende tijd hadden om zich voor de vergadering voor te bereiden, werd nog een publieke zitting gehouden op de 13de dezer. De enige getuigenis uitgebracht ten behoeve van het publiek, bestond uit twee opgaven, respektievelik van de Z. A. Smeltoven Werklieden Vereniging, en de Witwatersrand Mijnwerkers Vereniging, en deze opgaven zijn hier aan toegevoegd.

Dit eigendom is in het Boksburg Mijndistrikt gelegen, en wordt in het noorden en westen begrensd door de claims van de "Knights Deep, Limited" (in likwidatie) en "Simmer Deep, Limited," en in het costen door de eigendommen van de "Witwatersrand Gold Mining Company, Limited," en "Witwatersrand Deep, Limited." De grootte van deze eigendommen is ongeveer 5000 voet lang langs de noordelike grens en 10,000 voet helling, en bestaat uit 905 claims, waarvan 211 Delversclaims zijn en 694 Prospekteerclaims.

De maatschappij werd in September 1895 opgericht, met een nominaal kapitaal van 525,000 aandelen, van £1 elk, hetwelk in 1908 verhoogd werd tot 900,000 aandelen van £1 elk, alle ten volle opbetaald.

Er zijn geen gereserveerde aandelen of schuldbrieven. Op 18 Januarie 1896 werd met het werk een aanvang gemaakt.

De mijn bestaat uit twee verbonden hoofdschachten, elk van vijf afdelingen, namelik No. 1 de Westelike Schacht, en No. 2 de Oostelike Schacht.

No 1 Schacht daalt vertikaal af tot een diepte van 2,111 voet en gaat dan over in een helling van 28 graden, voor een afstand van 2,889 voet.

No. 2 Schacht daalt vertikaal af tot een diepte van 2,219 voet en gaat dan over in een helling van 30 graden voor een afstand van 2,512 voet.

De welbekende "Simmer Dyke" vangt in het westen aan en loopt voor zover is nagegaan, 4,000 voet parallel in de lengte in de richting van de oostelike grens. De aanwezigheid van deze dyke maakte twee lange doorsneden nodig en het uitgraven en uitrusten van drie bijschachten, nl. No. 3, 4 en 5, waarvan de bodemranden respektievelik 3,200, 3,320 en 3,318 voet beneden de oppervlakte zijn.

Schacht No. 3 (bestaande uit drie afdelingen) is 780 voet lang, en helt 35 graden.

Schacht No. 4 (bestaande uit drie afdelingen) is 1,221 voet lang, en helt 38, 28 en 22 graden.

Schacht No. 5 (vijf afdelingen) is 899 voet lang en helt 32 graden.

Sinds in Februarie 1909 met malen begonnen is, en er tot 30 November 1922, 4,067,548 ton gemalen is, met een gemiddelde waarde van 5.665 pennyweights, de theoretiese opbrengst van deze tonneinhoud is 95.17 persent geweest, en het werkelike verkregene bestond uit 1,092,537 onzen gelouterd goud, gelijk aan 5.372 pennyweights per ton gemalen goud.

De mijn bevat 120—1,450 lb. stampers en drie buismolens, de nominaal maalkapaciteit zijnde 30,000 ton per maand.

In 1912 werd door de toen der tijd Raadgevende Ingenieur de aandacht gevestigd op het feit dat een dyke (welke verondersteld werd de Simmer-dyke te wezen, wat later bleek inderdaad zo te zijn) bereikt was door de Hellende Schachten No. 1 en 2.

Tusschen die datum en Junie 1917 was de bodem ten zuiden van deze schacht uitgegraven door de bovengenoemde bij-hellingen Nos. 3, 4 en 5. Op de 14de Junie 1917 bracht de Ingenieur aan de Direkteuren verslag uit over de resultaten van het werk in 't zuiden van de Simmer-dyke. Uit dit verslag blijkt dat in het tijdvak 1912-17, er 23,793 voet gedreven, opgeheven en gezonken zijn bij het ontwikkelen van deze oppervlakten ten zuiden van de dyke. Van dit aantal voeten grond zijn 13,602 voet onderzocht, welke een gemiddelde waarde geven van 3. pennyweights over een stopewijdte van 58 duim. Hij verklaarde:—

"De drijf-, ophef- en boorarbeid, alsook onderzoekingswerk, voornaamste doorgravingen en ertsgangen, strekten zich uit over het totaal van het aangeduide aantal voeten."

De begroting van het totaal tonneaantal was, oordelend naar de doorgangen, opgegeven als volgt:—

Doorgang.	Totaal Tonnemaat.	Betalend Tonnemaat.	Percent Betalend.
13	49,600	1,500	3·02
14	149,900	5,800	3·87
15	56,500	nil.	nil.
16	170,300	nil.	nil.
17	221,600	23,300	10·51
18	104,300	23,800	22·82
19	8,500	1,900	22·35
	760,700	56,300	7·40

Het zal opgemerkt werden dat het persentage van opbrengst van nil in de 15de en 16de doorgang varieerde tot bijna 23 persent in de 18de doorgang.

In dit verslag toonde de Raadgevende Ingenieur van de Maatschappij aan, dat het totaal bedrag, hetwelk ten koste gelegd is aan het bewerken, doorsneden maken en onderzoeken van de mijn £90,200 had bedragen. Aldus is het totaal bedrag ten koste gelegd aan bewerking en schachten boren £148,030, en het totaalbedrag, hetwelk werkelik besteed is, met inbegrip van voorbereidin-

cutting of engine chambers, etc., is £184,692. The most extraordinary item in this expenditure is that of development, viz., £90,200, which has resulted in the exposure of only 56,300 payable tons."

Having expressed his opinion that the probability of an improvement in depth was remote, and that the cost of sinking subsidiary shafts and undertaking new development would rapidly exhaust the limited financial resources of the company, the report concluded with a recommendation that all shaft sinking and new development work should be immediately stopped, and that milling operations should be continued until such time as it became impossible to earn profits. The company, on this recommendation, decided to suspend all shaft sinking, to limit development to the most promising points, and to continue mining and milling as long as it was possible to do so profitably, and on the 28th June, 1917, a circular was issued to shareholders advising them of the reasons for this decision of the directors. Since that date this policy has been adhered to.

It consequently follows that the exploring and mining operations of the company have been confined to the areas and levels served by the shafts existing at that time.

The footage driven, risen, and sunk from June, 1917, in thes areas to the present date has been as follows:—

Development footage acomplished since June, 1917:

Year.	Total Footage.	Cost per Foot.	Total Cost.	Cost per Ton Milled.
		s. d.		s. d.
July–December 1917	5,289	59 6	£15,764	2 0·4

1921	1,004	54 3	2,725	0 2·0
January–November 1922	405	54 7	1,106	0 1·0
Total	16,098			

Of the above footage 8,759 fet was done in the areas north of the dyke, and 7,339 in the area south of it.

Summarizing the results of the exploratory work indicated by the above figures we find that an area of payable main reef, measuring about 600 feet along the strike by about 700 feet on the dip, was encountered north of the dyke on the eastern side of the mine, and a smaller area of south reef on the eastern workings below the dyke. With regard to the former of these two areas values fell off below payable limit in the development eastward, and we understand that the management was influenced in determining not to continue exploring in this easterly direction by information obtained as to the low values on the corresponding levels of the adjacent mine.

To the south this enrichment appears to be dying away in disturbed ground which gives rise to the suspicion that the neighbourhood of the dyke is being approached.

With regard to the latter area, which measures 300 feet along the strike by 500 feet on the dip, this patch of ore was worked out until the faces in both directions became unpayable.

All other development work has been practically limited to prospecting blocks of ground which had been left behind as unpayable.

The following are the results of mining and reduction operations since 1st July, 1917:—

gen voor het uitgraven van machinekamers, enz., £184,692. De merkwaardigste post bij deze uitgaven is die voor bewerking, namelik £90,200, wat voortgevloeid is van slechts 56,300 opbrengende tonnen.

De mening te kennen gegeven hebbend, dat de waarschijnlikheid verbetering te verkrijgen bij het dieper boren, gering was, en dat de kosten van het boren bij schachten de begrensde finansiële bronnen van de Maatschappij zouden uitputten, eindigde het verslag met aan te raden dat het boren van schachten en het uitvoeren van nieuwe bezigheden ter ontwikkeling van de mijn, onmiddellik te staken, en dat het malen moest worden voortgezet tot het onmogelik was, voordeel er uit te behalen. De Maatschappij besloot naar aanleiding van dit advies, het schachtenboren te laten staken, ontwikkeling van de mijn tot de meest belovende punten te beperken, en met mijnarbeid en malen voort te gaan, tot zolang het mogelik was dit met voordeel te doen, en op 28 Junie 1917 werd een circulaire aan de aandeelhouders gezonden waarin hun de redenen van dit besluit door de Direkteuren meegedeeld werden. Sinds die datum werd deze gedragslijn gevolgd.

Daaruit volgt dat de onderzoekings- en de mijnwerkzaamheden door de maatschappij zijn beperkt tot de ruimten en de gangen die op dat tijdstip in de schacht waren.

De uitgegraven voetemaat ,vanaf Junie 1917 was in deze ruimten tot op heden als volgt:—

Van bovengenoemde voetemaat was 8,759 voet uitgegraven in de ruimten noordelik van de dyke, en 7,339 zuidelik van de dyke.

Opsommende de resultaten van onderzoekingswerk aangegeven door bovenstaande cijfers, zien we dat een ruimte van betalend Hoofdrif, zich ongeveer 600 voet in de lengte bij 700 voet helling uitstrekkende, ten noorden van de dyke samenkwam aan de oostkant van de mijn, en een kleinere ruimte van de Zuidrif bij de oostelike werken beneden de dyke.

Met betrekking tot de eerste van deze twee ruimten, daalden de waarden beneden betalende grens in de oostwaartse bewerkingstreek en het bestuur, toen het besloot om de onderzoekingen in oostelike richting niet voort te zetten, beïnvloed was door de verkregen inlichtingen betreffende de lage waarden van de overeenkomstige oppervlakken van de aangrenzende mijn.

Verder naar het zuiden schijnt de rijkdom van kostbare metalen in de grond over te gaan in omgewoelde grond, betgeen aanleiding geeft aan het vermoeden, dat men de nabije dyke nadert.

Met betrekking tot de laatste ruimte, welke 300 voet lang was en over 500 voet helde, werd deze goudstrook bewerkt tot beide kanten niet voldoede meer opbrachten. Al de overige verrichte bezigheden waren beperkt tot onderzoeken van stukken grond welke achtergelaten waren daar zij niet genoeg opbrachten.

Het hier volgende geeft de resultaten van het exploiteeren der mijnen en van reduksie werkzaamheden aan sinds 1 Julie 1917.

From the foregoing it will be seen that the history of the mine since the decision was taken in June, 1917, to suspend all shaft-sinking, has been one of exhausting the then available ore reserves, increased by the discovery of a few payable patches in the limited amount of development since carried out.

This augmentation of reserves, coupled with the higher realization price of gold, has extended the period of profitable operations considerably beyond what has from year to year been anticipated.

As to the wisdom or otherwise of the decision taken in 1917, we do not feel ourselves called upon at this date to pass judgment thereon.

The sinking of the incline shafts was and is the only means by which any knowledge could be obtained as to the probability or otherwise of the deeper ground offering more encouraging prospects. Whether, in view of the very discouraging results obtained to that date in the area south of the dyke, the necessary expenditure was justifiable seems to us to be a question depending mainly on the financial courage of those providing the money. In view of the facts of the position upon which the determination had to be made, we do not feel ourselves justified in questioning the decision come to by the directors in the exercise of their discretion.

Our investigations led us to the following conclusions:—

(1) The immediate cause of the closing down of the mine is the depletion of the reserve of payable ore in the portion of the mine served by the existing shafts following on the decision arrived at in 1917 to stop shaft-sinking and to confine development to the area already served by those shafts.

(2) We are satisfied that within the limits laid down by this policy every reasonable effort has been made by the management to prolong operations as long as possible. We have no suggestions to make by which the life of the mine can reasonably be expected to be prolonged which do not involve the exploration of the company's property in depth.

In the existing situation there seem to us only two possible ways in which mining can be continued, namely:—

(*a*) The expenditure of large sums for the opening up of the deeper ground.

(*b*) The working of the mine by such person or persons as will undertake the risk of losses in working the area of ground already developed and available for development, which the present owners are not prepared to take.

As to (*a*), an estimate of the cost of opening up this ground by means of new shafts has been made by the management, and indicates that about £1,500,000 would be required. This expenditure would include the cost of two vertical shafts, each 5000 feet deep, two incline shafts, and the necessary development to provide payable ore reserves of at least 1,500,000 tons. To this must be added the cost of shaft equipment and engines, and the extension of the reduction works to a capacity of 50,000 tons per month. Such expenditure could only be justified by more encouraging indications as to the value of the reefs in depth than existed when shaft-sinking was stopped in 1917. As has already been mentioned, preliminary exploration of this deeper ground can only be done by extending the existing incline shafts, and the cost of doing this after milling operations have ceased must necessarily be considerably greater than if it had been done concurrently with the working out of the reserves above the level they had reached in 1917.

As to (*b*), we append the correspondence between the Mining Guild of the Witwatersrand and the Company, and also a letter addressed to this Committee with reference thereto. We were informed by the chairman of the company that the refusal of the directors to entertain the offer made was that they did not regard the financial security offered as being sufficiently satisfactory to justify them in committing to the control of the Guild their plant and property.

Uit het voorafgaande blijkt dat voor de mijn sinds het besluit het schachtenboren te doen staken, in Junie 1917 genomen was de toen dienstige ertsreserves plus een paar opbrengende stroken tot het beperkte bedrag, opgebruikt waren.

Deze toename van reserves te zamen met de hogere prijs van goud, heeft de periode van winstgevende bezigheden belangrijk verlengd in verhouding van jaar tot jaar verwachte tijdruimte.

Wat betreft het inzicht of anders het besluit, hetwelk in 1917 genomen was, gevoelen we ons op dit oogenblik niet geroepen om hierover ons oordeel uit te spreken.

Het boren van hellende schachten was en is het enige middel waardoor men kan te weten komen betreffende de waarschijnlikheid of de diepere lagen meer bemoedigende vooruitzichten bieden.

Of, met betrekking tot de zeer ontmoedigende resultaten welke tot op dat tijdstip in het gedeelte zuid van de dyke verkregen zijn, en benodigde onkosten gerechtvaardigd waren, schijnt ons toe een kwestie te wezen, welke voornamelik afhangt van de finansiële moed van diegenen, die het kapitaal verschaffen.

Wat betreft de feiten van de toestand, door welke het besluit werd genomen, gevoelen wij ons niet gerechtvaardigd het besluit, tot hetwelk de direkteuren bij het uitoefenen van hun diskretie gekomen zijn, te examineeren.

Onze onderzoekingen hebben ons tot de volgende gevolgtrekkingen geleid:—

(1) De onmiddellike oorzaak van het sluiten der mijn is gelegen in de vermindering van de reserve van betalend erts in dat gedeelte van de mijn, waar de bestaande schachten zijn volgens het besluit waartoe in 1917 gekomen was, om het schachteboren niet voort te zetten en het bewerken te beperken tot de ruimte waar reeds schachten zijn.

(2) Wij nemen er voldoening mede dat binnen het tijdperk dat door deze methode vastgesteld was, elke redelike poging gedaan is om de werkzaamheden zolang mogelik te doen voortduren.

Wij hebben geen wenken te opperen, waardoor het bestaan van de mijn zou kunnen verwacht worden verlengd te worden, en welke het onderzoek in de diepte van het eigendom der maatschappij niet zouden inhouden.

In gegeven konditie schijnt het ons toe dat er slechts twee wijzen zijn waardoor met de uitgravingen doorgegaan kan worden nl.:—

(*a*) Het besteden van grote sommen voor het openwerken van die diepere lagen.

(*b*) Het bewerken van de mijn door diegene of diegenen welke risiko van verlies op zich willen nemen door het laten bewerken van die grond welke reeds uitgegraven is en geschikt is voor uitgravingen; doch welk risiko de tegenwoordige eigenaars niet op zich wensen te nemen.

Wat betreft (*a*), een schatting van de kosten voor het opgraven van deze gronden door middel van nieuwe schachten is door het bestuur uitgevoerd, en wijst aan dat ongeveer £1,500,000 vereist zou zijn.

Deze kosten zouden zijn voor de onkosten van twee vertikale schachten, elk 5000 voet diep, twee hellende schachten en de nodige bewerkingen om in minstens 1,500,000 ton betalend erts te voorzien. Hier moet bijgevoegd worden de kosten van de uitrusting van de schacht en van de machines en het opvoeren van het reduktiewerk tot een kapasiteit van 50,000 ton per maand. Deze onkosten konden alleen gerechtvaardigd worden door meer bemoedigende aanwijzingen wat betreft de waarde in de riffen naar de diepten dan welke bestonden toen het schachtboren in 1917 werd gestopt. Zoals reeds aangevoerd is, kan voorlopig onderzoek van deze diepere lagen slechts geschieden door de bestaande hellende schachten uit te breiden, en de kosten hiervan, nadat met het malen is opgehouden, zijn natuurlik belangrijk groter dan wanneer dit gedaan was tegelijk met het uitgraven van de reserves boven de hoogte hetwelk in 1917 bereikt was.

Wat betreft (*b*) hechten wij briefwisseling aan, gehouden tusschen de Mijn Vereniging van Witwatersrand en de Maatschappij en ook 'n brief aan dit Komitee gericht met betrekking hierop.

De Voorzitter van de Maatschappij deelde ons mede dat de weigering van de Direkteuren om het aanbod aan te nemen, voortvloeide uit het feit dat zij de geldelike waarborg, welke aangeboden was, niet beschouwden als voldoende om zich te rechtvaardigen zich te belasten met de kontrole en de eigendommen van de vereniging.

(3) The only effect on adjacent mines of the closing down of the Knight Central will be the additional water to be pumped when the lower workings of the mine have been filled. Approximately, 5½ million gallons are pumped to the surface per month. It is estimated that the volume of the present excavations in the mine below the lowest connection to the Simmer & Jack is roughly equivalent to 18 months' pumping. The only mine which will be affected, therefore, is the Simmer & Jack to the extent of having to pump the additional quantity of water as given above.

Before concluding, we would refer to the protest made in the letter from the South African Reduction Workers' Association as to the limitation of our powers as a Committee as against those which we should have possessed as a Commission. So far as we are able to interpret article 127 of the Act No. 35 of 1908, there seems no reason why a Commission could not have been appointed.

We cannot, of course, say to what extent this limitation of our powers may have deterred members of the public from tendering evidence, but it is right that we should state that all records, reports, and plans required by us from the mine were readily placed at our disposal.

We have the honour to be,

Sir,

Your obedient Servants,

C. E. HUTTON, Chairman.
F. H. P. CRESWELL,
J. WHITEHOUSE,
Members.

RIDER.

As will be seen from the above observations, the present position of the mine is the direct result of the decision taken in 1917 to suspend shaft-sinking.

Section *one hundred and twenty-seven* of Act No. 35 of 1908, sub-sections (1) and (2), read:

Article 127. (1) Whenever in the opinion of the Minister—

(*a*) development work or mining has either wholly or in part ceased on ground held under mining title; or

(*b*) a mine already developed has not yet produced, or a producing mine has ceased to produce precious or base metals;

he may, by notice in writing, call upon the holder of the mining title to give, within three months from the date of such notice, the reasons (if any) why the development work or mining has ceased, or why such mine has not produced or has ceased to produce (as the case may be).

(2) If within such period no reasons have been stated by such holder, or, if having been given, the Minister shall not deem them satisfactory, he shall appoint a commission to inquire into the matter and report to him. Such commission shall consist of the Government Mining Engineer and two other persons, and shall have all the powers, jurisdiction, and privileges which may be conferred upon commissions by the Commissions Powers Ordinance, 1902.

It would appear that the cessation of shaft-sinking in 1917 was a sufficient justification for the appointment at that date of a Commission under the Act. I submit that it would have been more satisfactory had a Commission, as contemplated by the Act, then investigated the position of the mine.

F. H. P. CRESWELL,
Member.

(3) Het enige effekt dat het sluiten van de "Knight Central" heeft op de aangrenzende mijnen zal wezen dat de vermeerderde hoeveelheid water opgepompt moet worden als de lagergelegen gedeelten van de mijn gevuld zijn.

Bij benadering zullen 5½ miljoen gallons per maand opgepompt moeten worden. Naar ruwe schatting zal de hoeveelheid water in de tegenwoordige uitgravingen in de mijn, beneden de laagste verbinding met de Simmer and Jack, in 18 maanden uitgepompt kunnen worden. De enige mijn welke invloed zal ondervinden (door het sluiten der Knight Central) is daarom de Simmer and Jack, welke de hierboven aangegeven hoeveelheid water op te pompen heeft.

Voor te eindigen zouden zij willen terugkomen op het protest ingediend in de brief van de Vereniging van Zuidafrikaanse Reduktiearbeiders wat betreft de beperktheid van onze macht als een Komitee zowel als tegen de beperktheid van macht, welke we zouden bezeten hebben als "Kommissie." Voor zover wij instaat zijn artikel *honderd zeven en twintig* van Wet No. 35 van 1908 uit te leggen, schijnt er geen reden te zijn waarom een Kommissie niet benoemd zou hebben kunnen worden.

Wij kunnen natuurlik niet zeggen in hoeverre deze beperking van onze macht leden van het publiek heeft mogen afschrikken bewijzen te geven, maar wij moeten verklaren dat alle opgaven, verslagen en plannen, welke door ons van de mijn vereist waren, dadelik tot onze beschikking werden gesteld.

Wij hebben de eer te zijn,

Mijnheer,

Uw dienstwillige dienaars,

AANHANGSEL.

Zoals uit bovengenoemde opmerkingen blijkt, is de tegenwoordige toestand van de mijn het direkte gevolg van het in 1917 *genomen besluit, het schachtboren te eindigen.*

Artikel *honderd zeven en twintig* van Wet No. 35 van 1908, bij artikel (1) en (2) luidt:—

Artikel 127. (1) Telkenmale wanneer de Minister denkt—

(*a*) dat het bewerken van de mijn of het uitgraven geheel of gedeeltelik niet voortgezet wordt, op gebied dat voor mijnbouw gepacht is, of dat

(*b*) een mijn, waarin reeds gewerkt wordt, nog niet heeft opgebracht, of dat een inwerking zijnde mijn niet meer edele of onedele metalen voortbrengt;

kan hij door schriftelike mededeling, de houder van de mijn verzoeken, hem binnen drie maanden na kennisgeving de redenen (indien er redenen zijn) op te geven waarom het de bewerking heeft opgehouden, of waarom die mijn niet opgebracht heeft of niet meer opbrengt.

(2) Indien binnen dit tijdvak geen redenen zijn aangevoerd door de pachter, of, wanneer redenen wel aangegeven zijn, maar deze de Minister niet voldoen, zal hij een Kommissie aanwijzen om onderzoekingen in te stellen en aan hem verslag uit te brengen. Zodanige Kommissie zal bestaan uit de Goevernements Mijningenieur en twee andere personen, en zal al de macht, jurisdiktie en voorrechten hebben, welke aan Kommissies zijn toegekend door de Wetgeving voor Macht van Kommissies, 1902.

Het wil voorkomen alsof het niet-voortzetten van het schachtenboren een voldoende rechtvaardiging was voor het op die datum aanstellen van een Kommissie. Ik maak de opmerking dat het meer voldoening gegeven zou hebben, als een Kommissie zoals bedoeld door de Wet, toentertijd de toestand van de mijn nagegaan had.

The following report of a Board of Conciliation and Investigation, under section *ten* of Act No. 20 of 1909, to deal with a dispute between certain municipal employees and the Municipality of Johannesburg, together with a minority report thereon, is published for information.

M.M.L. 214.

To the Honourable the Minister for Mines and Industries,
Pretoria.

Sir,—

1. This Board was appointed on an application, dated 24th October, 1922, made by the joint executives of the building industry at the request and on behalf of certain municipal employees engaged in the work of building and construction. Two points were in dispute as the result of the adoption by the municipality on the 26th September, 1922, of a report of their General Purposes Committee, which recommended:—

(1) The alteration of the prevailing rates of pay from 3s. 6d. per hour to 2s. 6d. per hour, plus a cost of living allowance of 6d. per hour, to be revised quarterly, to come into effect on the 1st November, 1922.

(2) The alteration of the working hours from 44 to 48 per week, to come into effect from the 1st November, 1922.

2. After preliminary meetings of the Board on the 27th and 30th November, public meetings were held on the 6th, 13th, 14th, 18th, 20th, 21st, 22nd, 27th, 28th, 29th of December, 1922, and the 3rd January, 1923. At these meetings the witnesses appeared who are mentioned in the attached list. The Board met on the 8th, 17th, and 26th January for the purpose of discussing the

Rapport van een Raad van Verzoening en Onderzoek ingevolge Artikel 10 van Wet No. 20 van 1909, ter behandeling van een geschil tussen zekere municipale employees en de Municipaliteit van Johannesburg.

Aan Zijn Edelgestrenge
De Minister voorMijnwezen en Industrieën,
Pretoria.

Mijnheer,

1. Deze Raad werd aangesteld op een applikatie gedateerd 24 Oktober 1922, gedaan door de Gezamenlike Uitvoerende Raden van de Bouwvakken op het verzoek en ten behoeve van zekere municipale employees, wier werk bestaat in bouwen en aanleg. Er waren twee punten van geschil welke ontstonden tengevolge van de aanneming door de municipaliteit op 26 September 1922, van een rapport van hun Algemene Doeleinden Komitee, waarin werd aanbevolen:—

(1) De wijziging van de bestaande loonschaal van 3s. 6d. per uur tot 2s. 6d. per uur, plus een kosten van bestaan toelage van 6d. per uur onderworpen aan driemaandelikse herziening, in werking te treden op 1 November 1922.
(2) De wijziging van de werkuren van 44 tot 48 uren per week, in werking te treden op 1 November 1922.

2. Na inleidende bijeenkomsten van de Raad op de 27ste en 30ste November, werden openbare vergaderingen gehouden op de 6de, 13de, 14de, 18de, 20ste, 21ste, 22ste, 27ste, 28ste en 29ste Desember 1922 en op de 3de Januarie 1923. Op deze vergaderingen verschenen de getuigen wier namen genoemd zijn in de bijgaande lijst. De Raad kwam bijeen op de 8ste, 17de en 26ste Januarie ter bespreking van het rapport. Er werd een verbatim verslag van de verrichtingen genomen. De employees waren

report. A verbatim report of the proceedings was taken. The employees were represented by Mr. H. A. Wyeth, President of the Joint Executives of the Building Industry, and Mr. H. W. Green, a member of the Joint Executive; the municipality by Councillors W. Fearnhead, E. S. L. Taaffe, and A. Immink.

3. When the municipality passed the resolution above mentioned, the building unions found themselves in a difficult position, for they had expelled from their unions men in the power station for returning to work upon the terms and conditions to which the employees of the Council, who are parties to this inquiry, are now asked to conform.

4. It is common cause that under an agreement between the building trade unions and the Master Builders' Association in Johannesburg, the building trade artisans employed by the M.B.A. received 3s. 4d. per hour for a 44-hour week or £7. 6s. 8d. per week, and the employees claim that this agreement should be applied to all building trade artisans in municipal service engaged upon similar work. They argue—

(1) that as a general rule municipalities observe local conditions as to hours and wages agreed upon in the building industry, and that this was the case in Johannesburg before the strike;

(2) that taking the cost of living into account the municipal proposals involve an unjustifiable reduction in wages;

(3) that the 44-hour week for European artisans is the rule in the building trade throughout the world;

(4) that the special privileges attached to municipal employment in Johannesburg—

(*a*) should not be brought into account when artisans' wages are under consideration;

(*b*) or if brought into account are insufficient in the majority of cases to make up the difference between the wages in the building industry and the proposed municipal wages;

(5) that the 3s. 4d. in the building industry is a minimum wage, often increased when men have proved themselves competent, whereas the municipal proposal was to make their rates of pay maxima as well as minima;

(6) that this municipal proposal was unfair to the employees whose character and ability had made the work of the Town Engineer's Department a success, and would mean that the better men would leave the municipal service;

(7) that taking the strenuous and in some cases dangerous nature of the work into account, the extension from a 44 to a 48 hour week would mean undue fatigue and little, if any, increase in output.

5. On the other side, the municipality contend—

(1) that they could not agree to different conditions of employment for different sections of municipal daily-paid employees, and that the proposals now under consideration including the 48-hour week applied already to other sections of the daily-paid municipal service;

(2) that therefore special conditions as to wages and hours could not be granted to members of the building trade unions who were only a minority, and for all practical purposes performed their work under conditions similar to those of other municipal artisans;

(3) that different hours of work, in different departments of the municipal service, would certainly cause inconvenience and discontent;

(4) that these criticisms apply to native employees as well as Europeans, seeing that the native worked the same hours as the European employee with whom he was associated;

(5) that the privileges granted to artisans in municipal service should be brought into account in arriving at the real wages paid by the municipality;

(6) that these privileges were worth 4½d. an hour, and therefore raised municipal wages per hour above those paid in the building industry;

(7) that whatever the wages arrangements elsewhere, the fact remained that in Johannesburg neither the mines nor the Victoria Falls Power Company, nor the railways, nor the breweries recognized the agreement between the building trades unions and the M.B.A., but had their own wages system and hours of labour; there was therefore no reason why the municipality alone should recognize this agreement;

(8) that the conditions of municipal employment had never coincided with those in the building industry;

(9) that the 48-week would certainly mean increased output without undue fatigue.

6. The claim of the municipality that their artisans should work under like conditions of pay and hours, no matter what department they belong to, is a reasonable one, and any other arrangement would certaintly tend to cause inconvenience and discontent. If, as a general rule, the conditions adopted by other municipalities in South Africa correspond with those existing in the local building industries, it only shows that they have followed the line of least resistance, and find these local conditions of assistance in determining what are reasonable wages and hours of labour. It is not legitimate to contend that building industry conditions of employment are necessarily binding upon municipalities or any other employer of labour.

7. The importance of this is clear when the fact (admitted in evidence by the officials of the building trade unions) is remembered that in the building trade it has been possible, both in this country and elsewhere, to impose upon master builders more favourable conditions as regards wages and hours worked than are economically possible in the majority of other industries. The reason for this is that the building industry being essentially local, the increased cost of building due to the payment of high

vertegenwoordigd door de heer H. A. Wyeth, Voorzitter van de Gezamelike Uitvoerende Raden van de Bouwvakken en de heer H. W. Green, een lid van Gezamenlike Uitvoerende Raden. De municipaliteit door de Raadsleden W. Fearnhead, E. S. L. Taaffe en A. Immink.

3. Toen de municipaliteit het bovengenoemde besluit passeerde, vonden de bouwvakverbonden zich in een moeilike positie geplaatst omdat ze uit hun verbonden de mannen in de elektriese centrale uitgezet hadden omdat deze naar hun werk teruggekeerd waren op de bedingingen en voorwaarden waaraan de employees van de Stadsraad betrokken in dit onderzoek nu verlangd werden zich te onderwerpen.

4. Het is een algemeen bekende zaak dat onder een overeenkomst tussen de Bouwvakverbonden en de Bouwmeesters Vereniging in Johannesburg de bouwvak-handwerkslieden geëmployeerd door de B.M.V. 3s. 4d. per uur ontvingen voor een arbeidsweek van 44 uren of £7. 6s. 8d. per week en de employees verlangen dat deze overeenkomst van toepassing gemaakt moet worden op alle bouwvak-handwerkslieden in dienst bij de municipaliteit en gebezigd voor soortgelijk werk. Zij beweren—

(1) dat over het algemeen municipaliteiten zich houden aan de plaatselike gebruiken wat betreft de uren en lonen waarover men het eens is geworden in het bouwvak en dat dit het geval was in Johannesburg vóór de staking;

(2) dat in acht genomen de kosten van bestaan de voorstellen van de municipaliteit een niet gerechtvaardigde vermindering in loon betekenen;

(3) dat de 44-urige week voor blanke handwerkslieden de regel is in het bouwvak over de gehele wereld;

(4) dat de speciale voorrechten verbonden aan dienstneming bij de municipaliteit in Johannesburg—

(*a*) niet mede moeten wegen bij het overwegen van de lonen van handwerkslieden;

(*b*) of, indien er rekening mede gehouden wordt, zij in de meeste gevallen niet voldoende zijn om het verschil goed te maken tussen de lonen betaald in het bouwvak en de voorgestelde municipale lonen;

(5) dat de 3s. 4d. in het bouwvak een minimumloon is dat dikwels vermeerderd is wanneer mannen zich bekwaam betoond hebben, doch dat de municipaliteit voornemens is om dit zowel maksimum- als minimum-loon te maken.

(6) dat het voorstel van de municipaliteit onbillik is jegens de employees, wier karakter en bekwaamheid het werk van het Stadsingenieurs Departement tot een sukses gemaakt hebben, en dat het gevolg ervan zou zijn dat de betere soort mannen de dienst van de municipaliteit zouden verlaten;

(7) dat in acht genomen de vermoeiende en in sommige gevallen zelfs gevaarlike aard van het werk de verlenging van de uren van 44 tot 48 per week slechts onnodige vermoeienis zou betekenen en weinig of geen meerder werk;

5. Aan de ander kant beweert de municipaliteit—

(1) dat zij geen verschillende dienstvoorwaarden kunnen toelaten in verschillende klassen van per dag betaalde municipale employees en dat de voorstellen die nu onder overweging zijn, met inbegrip van de 48-urige week, alreeds toepassing vinden wat betreft de andere klassen van bij de dag betaalde employees van de municipaliteit;

(2) dat speciale voorwaarden betreffende lonen en uren dus niet kunnen toegestaan worden aan leden van bouwvakverbonden, die slechts een minderheid uitmaken en voor alle praktiese doeleinden hun werk verrichten onder omstandigheden overeenkomende met die van andere handwerkslieden in dienst bij de municipaliteit;

(3) dat verschillende werkuren in de verschillende departementen van de municipale dienst zeer zeker aanleiding zou geven tot ongerief en ontevredenheid;

(4) dat deze kritiek zowel van toepassing is wat betreft naturelle-employees als blanken aangezien de naturel hetzelfde aantal uren werkt als de blanke onder wie hij werkt;

(5) dat de voorrechten verleend aan handwerkslieden in de municipale dienst mede in rekening moeten worden gebracht bij het vaststellen van de werkelike lonen betaald door de municipaliteit;

(6) dat deze voorrechten een waarde vertegenwoordigen van 4½d. per uur en gevolgelik de municipale lonen hoger zijn dan die betaald in het bouwvak;

(7) dat wat ook de regelingen betreffende lonen elders mogen zijn, het een feit is dat in Johannesburg noch de mijnen noch de Victoria Falls Krachtmaatschappij, noch de spoorwegen, noch de brouwerijen de overeenkomst erkennen aangegaan tussen de bouwvakverbonden en de B.M.V., doch dat zij allen hun eigen loonschalen en werkuren hebben. dat er dus geen enkele reden bestaat waarom de municipaliteit alleen deze overeenkomst wel zou erkennen;

(8) dat de dienstvoorwaarden in de municipale dienst nooit overeenkomst hebben vertoond met die in zwang in het bouwvak;

(9) dat de 48-urige week wel degelik meerder werk zou betekenen zonder onbehoorlike vermoeienis.

6. Dat de municipaliteit verlangt dat zijn handwerkslieden allen onder gelijke voorwaarden wat betreft loon en arbeidsduur moet werken onverschillig tot welk departement zij behoren, is niet meer dan billik, en elke andere regeling zou zeer zeker leiden tot ongerief en ontevredenheid. Indien over het algemeen genomen de dienstvoorwaarden aangenomen door andere municipaliteiten in Zuid-Afrika overeenstemmen met die bestaande in de plaatselike bouwvakken, dan bewijst dit slechts dat zij er zich zo gemakkelik mogelik van af hebben gemaakt en deze plaatselike dienstvoorwaarden van nu hebben bevonden bij het vaststellen van redelike lonen en arbeidsuren. Doch het is niet recht om te beweren dat de voorwaarden van dienst zoals die gevonden worden in de bouwvakken noodzakelikerwijze bindend moeten zijn voor municipaliteiten of enige andere werkgever.

7. De belangrijkheid van dit punt wordt duidelik wanneer men zich het feit herinnert (toegestemd in het getuigenis door de beambten van de bouwvakverbonden) dat het in het bouwvak mogelik is geweest, zowel in dit land als elders, om de bouwmeesters gunstiger voorwaarden wat betreft lonen en uren af te dwingen dan ekonomies mogelik zijn in de meeste andere vakken. De reden hiervan is dat aangezien het bouwvak in wezen geheel en al plaatselik is, de hogere kosten van het bouwen welke het gevolg zijn

wages, etc., can be passed on by the master builders to their clients, or charged in the form of higher rents to the public generally. As the work in the town engineer's department is only to a small extent similar to that performed by Johannesburg master builders, there is no reason why conditions which may be acceptable to them should be imposed upon the municipality or upon other employers. In fact, the figures produced by the municipality show that of the 466 artisans employed only 24 are working under building industry conditions.

8. On the Witwatersrand to-day, apart from the municipalities, members of the building trade unions work under five distinct arrangements, namely, with the mines, the railways, the V.F.P., the breweries, and the Master Builders' Association, and as the building trade unions have recognized all these arrangements, the Board can see no reason why recognition should be refused to a sixth with the municipality, if the proposed conditions are satisfactory. The Board is therefore prepared to consider the municipal proposals on their merits.

9. As already indicated, the Board considers that the action of the municipality in laying down that all municipal daily-paid employees shall work 48 hours a week is reasonable. A 48-hour week is also worked by the mines, railways, V.F.P., and breweries, so that they have ample local precedent for their resolution. A report in the *Sydney Telegraph*, of the 11th September, 1922, published by the International Labour Office at Geneva, reads as follows:—

(Volume IV, No. 20, 24th November, 1922.)

"Australia.—Reversion to the 48-hour Week in Certain Industries.

"The Arbitration Court delivered judgment at Melbourne on 11th September allowing the application of the employers for a return to the 48-hour week in the engineering and timber industries.

"As regards the timber industry, the Court's decision reverses the former decision of December, 1920, allowing a week of 44 hours, in so far as the following groups of workers are concerned—

"1. Workers engaged in obtaining timber and/or cutting and sawing it at mills in the city or country.

"2. Workers engaged in mixed industries in which the majority of the employees are working 48 hours a week.

"In the case of the engineering industry, the Court's decision alters the award previously made in June, 1921, by which hours were fixed at 44 per week.

"The President of the Court stated that the claim for a change in the standard hours of all industries in Australia was based principally on the fact that hours had been reduced in other countries to the Australian standard. A claim for a reduction of standard hours was not supported by any proof that the workers of Australia were not capable of working 48 hours without injury to health, or without the forfeiture of a reasonable standard of comfort. The Court, therefore, was satisfied that the present time was not suitable for decreasing a recognized standard 48-hour week in Australia. It would be impossible to grant shorter hours unless they were granted to all industries.

"The Deputy-President of the Court said that the evidence was overwhelming that the reduced hours had caused a reduction in output and a corresponding increase in the cost of production in the timber and engineering industries throughout the whole Commonwealth."

10. The following telegrams have also been exchanged between the Town Engineer of Johannesburg and the Master Builders' Association of Sydney:—

"The Town Engineer.—To M.B.A., Sydney.
"Cable hours worked weekly, also daily, by your building artisans, also municipal building artisans.

"M.B.A., Sydney.—To Town Engineer, Johannesburg.
"New award in building trades provides 48-hour week, except men employed on buildings in Sydney and Newcastle—46½ hours."

11. It is therefore clear that a 48-hour week is the recognized general standard for daily-paid men in Australia, and that these working hours have been reverted to even in the building trade in New South Wales.

12. Much evidence was produced to us in the attempt to prove or disprove the advantages of the 48-hour week, but from this evidence we are not justified in drawing any conclusion, and as 48 hours are widely adopted as a reasonable weekly working period, we do not consider this evidence material.

13. The municipality has produced to use the following figures showing the hours worked by their daily-paid employees, other than tramway motormen and conductors and night watchmen:—

	48 *hours.*	44 *hours.*
Daily-paid employees, except artisans ...	383	168
Artisans	350	116
Natives	3509	1251
	4242	1535

Of the 1535 working 44 hours per week 1488 are in the town engineer's department. The Board agrees with the municipality's contention that this state of things, if continued, will tend to cause inconvenience and discontent throughout the municipal service. In the opinion of the Board, the alternatives before the municipality are a universal 48-hour or a universal 44-hour week. The former is considered reasonable, the latter impracticable.

van de betaling van hoge lonen, door de bouwmeesters weer verhaald kunnen worden van hun klanten of in de vorm van hogere huren van het publiek in het algemeen. Daar de aard van het werk in het Stadsingenieurs Departement slechts voor een klein gedeelte overeenstemt met dat verricht door de Johannesburgse bouwmeesters, bestaan er geen reden waarom voorwaarden welke voor hen aannemelik zijn ook opgelegd moeten worden aan de municipaliteit en andere werkgevers. De cijfers overgelegd door de municipaliteit tonen aan dat van de 446 handwerkslieden door hen geëmployeerd slechts 24 werken onder bouwvak voorwaarden.

8. Op de Witwatersrand hebben de leden van de bouwvakverbonden heden ten dage, afgescheiden van hun overeenkomsten met de municipaliteiten, vijf verschillende arbeidsovereenkomsten, namelik met de mijnen, de spoorwegen, de Victoria Falls Krachtmaatschappij, de brouwerijen en de Bouwmeesters Vereniging en daar de bouwvakverbonden al deze overeenkomsten erkend hebben, ziet de Raad geen reden waarom erkenning geweigerd zou worden aan een zesde met de municipaliteit, indien de voorgestelde dienstvoorwaarden bevredigend zijn. De Raad is derhalve bereid om de voorstellen van de municipaliteit ieder op zich zelf te overwegen.

9. Zoals reeds gezegd werd is de Raad van mening dat de handelwijze van de municipaliteit wat betreft het neerleggen van de regel dat alle municipale employees die bij de dag betaald worden 48 uren per week moeten werken redelik is. Een 48-urige week wordt ook gewerkt bij de mijnen, de spoorwegen, de Victoria Falls Krachtmaatschappij en de brouwerijen, zodat zij plaatselike precedenten te over hebben voor hun besluit. Een verslag in de *Sydney Telegraaf* van 11 September 1922, gepubliceerd door het Internationale Arbeids-bureau te Genève, leest als volgt:—

(Deel IV, No. 20, 24 November 1922.)

Australië.—Terugkeer tot de 48-urige Arbeidsweek in zekere Industrieën.

"Het arbitragehof deed de volgende uitspraak te Melbourne op 11 September, het aanzoek toestaande van de werkgevers voor een terugkeer tot de 48-urige arbeidsweek in de ingenieurs- en houtindustrieën.

"Wat betreft de houtindustrie werpt deze beslissing van het Hof de vroegere beslissing van Desember 1920, waarbij een week van 44 uren werd toegestaan, weder omver voor zover de volgende groepen werkers betrokken zijn:—

"1. Werkers gebezigd voor het verkrijgen van timmerhout en/of het hakken en zagen daarvan in de zaagmolens in de stad of op het platteland;

"2. Werkers in dienst bij gemengde industrieën waarin de meerderheid van de employees 48 uren per week werken.

"In het geval van de ingenieursindustrie wijzigt de beslissing van het Hof de vroeger gedane uitspraak in Junie 1921 waarbij de uren werden vastgesteld op 44 per week.

"De Voorzitter van het Hof zeide dat de eis om een verandering in de standaarduren van alle industrieën in Australië voornamelik gebaseerd was op het feit dat in andere landen de uren verlaagd waren tot de australiese standaard. Een eis om een vermindering van standaarduren was niet gestaafd door enig bewijs dat de werkers van Australië niet in staat waren om 48 uren te werken zonder schadelike gevolgen voor hun gezondheid of de verbeuring van een redelike mate van komfort. Het Hof was derhalve overtuigd dat de tegenwoordige tijd niet geschikt was voor het verminderen van een erkende standaard-week van 48 uren in Australië. Het zou onmogelik zijn om korter uren toe te staan tenzij deze ook aan alle andere industrieën werden toegestaan.

"De Onder-voorzitter van het Hof zeide dat het getuigenis overweldigend bewees dat de verminderde uren geleid hadden tot een verminderde produktie en een daarmede gelijke tred houdende vermeerdering in de kosten van produktie in de hout- en ingenieursindustrieën in het gehele Gemenebest."

10. De volgende telegrammen werden gewisseld tussen de Stadsingenieur van Johannesburg en de Vereniging van Bouwmeesters te Sydney:—

"De Stadsingenieur.—Aan B.M.V., Sydney.
"Kabel uren gewerkt per week, ook dageliks door uw bouwvak-handwerkslieden, ook municipale bouw-handwerkslieden."

"B.M.V., Sydney.—Aan Stadsingenieur, Johannesburg.
"Nieuwe beslissing in bouwvakken maakt voorziening voor 48-urige week, behalve mannen geëmployeerd aan bouwwerken in Sydney en Newcastle 46½ uur.

11. Het is dus duidelik dat een 48-urige week de erkende algemene standaard voor bij de dag betaalde mannen in Australië is en dat men tot deze werkuren zelfs in de bouwvakken in Nieuw Zuid-Wales teruggekeerd is.

12. Er werd veel getuigenis afgelegd voor ons om de voordelen of nadelen van de 48-urige week aan te tonen, doch wij zijn niet gerechtvaardigd om daaruit gevolgtrekkingen te maken, en daar de 48-urige werkweek wijd en zijd aangenomen is als een redelike wekelikse arbeidstijd, beschouwen wij dit getuigenis niet als belangrijk.

13. De municipaliteit heeft ons de volgende gegevens voorgelegd aantonende de uren gewerkt door hun bij de dag betaalde employees, anders dan de motor-bestuurders en kondukteurs van de trams en de nachtwachten:—

	48 *uren.*	44 *uren.*
Bij de dag betaalde employees, met uitzondering van handwerkslieden	383	168
Handwerkslieden	350	116
Naturellen	3509	1251
	4242	1535

Van de 1535 die 44 uren per week werken zijn er 1488 in het Departement van de Stadsingenieur. De Raad is het eens met de bewering van de municipaliteit dat deze staat van zaken indien daarmede voortgegaan wordt veel ongerief en ontevredenheid in de gehele municipale dienst zal veroorzaken. Naar mening van de Raad staat de municipaliteit voor het alternatief om een universele 48-urige week of een universele 44-urige week aan te nemen. Het eerstgenoemde wordt redelik geacht en het laatstgenoemde ondoenlik.

14. The municipality claims that the privileges granted to their daily-paid employees total £34. 17s. 9d. per annum, made up as follows:—

Twelve days' leave	£12	0	0
Four public holidays	4	0	0
Sick leave	3	17	9
Council's contribution to pension fund	12	0	0
Council's contribution to sick benefit fund	3	0	0
	£34	17	9

And states they are equivalent to 4.6292d. per hour. This figure being arrived at by adding 20 per cent., representing the difference between 2s. 6d. and 3s. an hour, and dividing the total so obtained by 2138, representing 52 weeks of 44 hours, less 150 hours leave. Assuming for the moment the correctness of the items making up the £34. 17s. 9d., it is clear that under 48-hour conditions the divisor should be 2346 hours.

15. This correction, however, is a detail, for these privileges are stated from the point of view of the permanent employee, and temporary employees only benefit by them to a very small extent. The importance of this criticism is clear from the following figures of daily-paid employees supplied by the municipality, again excluding tramway motormen and conductors and night watchmen:—

	Permanent.	Temporary.
Town Engineer's Department—		
Artisans	72	40
Others	55	113
Other Departments—		
Artisans	307	47
Others	250	133
	684	333

16. The £12 for leave does not increase the wages of the individual workman, either permanent or temporary, as it in no way assists him to meet his expenses. In arriving at employees' wages, therefore, it should not be taken into account. It is an additional expense of the municipality which looks to reimbursing itself out of the better work done after leave has been taken.

17. Even if it could be included, the limited extent to which it affects the temporary employee is clear from the following table:—

Artisans who signed on during the three years to 30th November, 1922 = 167. [NOTE.—134 of these signed on once, 30 twice, and 3 three times.]

Of this total—

61 were paid for leave due when leaving service;

85 received no leave pay, having worked less than six months;

21 are still working, of whom 14 are entitled to leave and 7 not yet entitled.

Total 167

The Board also desires to point out that the temporary employee only gets the benefit of such public holidays as happen to fall within his period of service, and that as no sick pay is granted until an employee has been registered a member of the sick benefit society for thirteen weeks, many of them cannot participate. Temporary employees are not eligible for membership of the pension fund.

18. It is therefore clear that the temporary employee derives very little benefit from these privileges, and that the permanent employee's wages are not affected by the pay for 12 days' leave. Even in his case, therefore, the 4.692d. per hour from the wages standpoint is an over-statement of the value of the privileges obtained in municipal service. In the course of the inquiry statements have been made that the Council's wages proposals now under consideration were intended to throw the whole burden of the pension fund on the employees, and use it as a weapon to keep down their wages. There is no foundation for this allegation, Rule 16 of the Johannesburg Municipal Pension and Provident Funds laying down that if a member retire voluntarily from the service of the Council before having attained the pensionable age, he shall be entitled to the whole amount of his own contributions, together with interest thereon at 2 per cent. per annum after ten years' service and 3 per cent. per annum after twenty years' service

19. The rules of the Sick Benefit Society also bear heavily on the temporary employee, for the following reasons:—

(1) Membership is compulsory (Council meeting, 4th July, 1922).

(2) The member who leaves the service of the municipality loses all his contributions, as well as all rights to further benefits (Rule 9).

(3) No member is entitled to sick pay until he has been registered for 13 weeks (Rule 13).

(4) It is usual for artisans to join some benefit society like the Independent Order of Oddfellows, and as long as they are temporary employees of the municipality they have to keep up their subscriptions to their outside benefit society.

The Municipal Sick Benefit Society payments must therefore in many cases prove a burden rather than a benefit to temporary employees.

20. Witnesses who appeared before us for the employees tried to make out that the work of the town engineer's department was specially hazardous and fatiguing as compared with the work done by artisans in other trades, but the Board are not prepared to accept this contention on general grounds; moreover the by-laws of the Loyal Johannesburg Lodge, No. 7154, I.O.O.F.M.U., do not support this. The only distinction drawn by the Oddfellows is

14. De municipaliteit beweert dat de voorrechten gegeven aan de bij de dag betaalde employees een totaal bedrag van £34 17s. 9d. per jaar uitmaken, opgemaakt als volgt:—

Twaalf dagen verlof	£12	0	0
Vier Openbare Feestdagen	4	0	0
Ziekeverlof	3	17	9
Bijdragen van Raad tot Pensioenfonds	12	0	0
Bijdragen van Raad tot Ziekefonds	3	0	0
	£34	17	9

en zegt dat dit gelijk staat met 4.692d. per uur. Dit cijfer wordt verkregen door de toevoeging van 20 percent voorstellende het verschil tussen 2s. 6d. en 3s. per uur en het aldus verkregen totaal te delen door 2138, welk cijfer staat voor 52 weken van 44 uren min 150 uren verlof. Als wij voor het ogenblik de juistheid van de verschillende posten die tesamen de £34 17s. 9d. uitmaken aannemen, dan is het duidelik dat bij een week van 48 uren de deler 2346 uren behoort te zijn.

15. Deze korrektie is echter niet van veel belang want deze voorrechten worden genoemd met het oog op de permanente employee en de tijdelike employees hebben er slechts heel weinig voordeel van. De belangrijkheid van deze kritiek blijkt duidelik uit de volgende cijfers met betrekking tot de bij de dag betaalde employees verstrekt door de municipaliteit, in welke gegevens ook hier de motorbestuurders en kondukteurs van trams en nachtwakers niet zijn inbegrepen:—

	Permanent.	Tijdelik.
Stadsingenieurs Departement—		
Handwerkslieden	72	40
Anderen	55	113
Anders Departementen—		
Handwerkslieden	307	47
Anderen	250	133
	684	333

16. De £12 voor verlof verhoogt het loon van de individuele werkman, hetzij permanent of tijdelik, niet in het minst, want het helpt hem op geen enkele wijze ter bestrijding van zijn uitgaven. Bij het bepalen van de lonen van de employees moet daarmede dus geen rekening worden gehouden. Het is een additionele onkosten van de municipaliteit die hoopt waarde voor zijn geld te krijgen door beter werk na genoten verlof.

17. En zelfs al wordt het verlof medegerekend dan blijkt de geringe mate waarin dit van invloed is op de tijdelike employee duidelik uit de volgende tabel:—

Handwerkslieden die dienst genomen hebben in de drie jaren tot 23 November 1922=167. [N.B.—134 daarvan hebben eenmaal dienst genomen, 30 tweemaal en 3 driemaal.

Van dit totaal—

Kregen 61 betaling voor verlof hun toekomende bij het verlaten van de dienst	61
Ontvingen 85 geen betaling voor verlof omdat ze minder dan zes maanden gewerkt hadden	85
Zijn er 21 nog in dienst, waarvan 14 recht hebben op verlof en 7 nog geen recht hebben	21
Totaal	167

Ook wenst de Raad erop te wijzen dat de tijdelike employee enkel het voordeel krijgt van zulke openbare feestdagen die toevallig in zijn diensttijd vallen en dat geen ziekebetaling gegeven wordt voordat een employee gedurende 13 weken geregistreerd is geweest als lid van het Ziekefonds, zodat velen van hen in deze voordelen niet delen. Tijdelike employees kunnen geen lid worden van het Pensioenfonds.

18 Het is dus duidelik dat de tijdelike employee heel weinig voordeel van deze voorrechten trekt en dat het loon van de permanente employee niet beïnvloed wordt door de betaling voor 12 dagen verlof. Zelfs in zijn geval dus is de 4.692d. per uur van het loonstandpunt gezien een te hoge berekening van de waarde van de voorrechten gegeven in de Municipale Dienst. In de loop van het onderzoek is het beweerd geworden dat de nu onder behandeling zijnde Loonvoorstellen van de Stadsraad bedoeld waren om de gehele last van het Pensioenfonds op de employees te werpen en het te gebruiken als een wapen om de lonen omlaag te houden. Er is geen grond voor deze bewering, want Regel 16 van het Pensioen- en Spaarbankfonds van de Johannesburgse Municipaliteit legt neer dat indien een lid vrijwillig zijn ontslag uit de dienst van de Stadsraad neemt voordat hij de leeftijd voor pensionering bereikt heeft, hij gerechtigd is tot het gehele bedrag van de door hem inbetaalde bijdragen, alsmede rente daarop tegen 2 percent per jaar na tienjarige dienst en 3 percent per jaar na twintigjarige dienst.

19. De regels van het Ziekefonds zijn ook een groote last voor de tijdelike employeee, om de volgende redenen:—

(1) Lidmaatschap is verplichtend (Raadsbesluit 4 Julie 1922).

(2) Het lid dat de dienst van de municipaliteit verlaat verliest al zijn bijdragen alsook alle rechten op verdere voordelen (Regel 9).

(3) Geen lid is gerechtigd tot ziekebetaling voordat hij gedurende 13 weken geregistreerd is geweest (Regel 13).

(4) Het is gebruikelik voor handwerkslieden om lid te worden van de een of andere Onderlinge Hulpvereniging zoals bijvoorbeeld The Independent Order of Oddfellows en gedurende de tijd dat zij in tijdelike dienst bij de municipaliteit zijn moeten zij toch doorgaan met het betalen van hun kontributie aan de Onderlinge Hulpverenigirg buiten de Municipale Dienst waarvan zij lid zijn.

Het Municipale Ziekefonds is dus waarschijnlik in vele gevallen een zware last in plaats van een voordeel voor de tijdelike employee.

20. Getuigen die voor ons verschenen zijn voor de employees trachtten ons de indruk te geven dat het werk van het Stadsingenieurs Departement biezonder gevaarlik en vermoeiend was vergeleken bij het werk gedaan door handwerkslieden in andere vakken, maar de Raad is niet bereid om deze bewering aan te nemen op algemene gronden; bovendien gaan de verordeningen van de Loyale Johannesburg Lodge, No. 7154, I.O.O.F.M.U., daarmede niet akkoord. Hen enige verschil dat door de Oddfellows

22. In the opinion of the Board the above table shows that the wages and conditions of employment now proposed by the Johannesburg Municipality compare most favourably with those of other local employers, and the Board recommends that they be adopted. This applies specially to the permanent staff of the municipality, and time alone will show whether the wages and conditions of service offered to their temporary employees are sufficiently attractive to enable the municipality to select from among those temporary employees the men of character and ability required for their permanent establishment. The fact that work for a municipality implies employment within the municipal area, and thereby obviates migration, is in its favour when compared with the conditions of the building trade generally.

23. It has been claimed by the building trade unions that they are entitled to a wage which will wholly compensate them for the increased cost of living to-day as compared with pre-war conditions. To this claim we cannot agree. The increase in the cost of living arising from abnormal economic conditions brought about by the Great War adversely affects the community as a whole, and all sections of the community should share this burden. Parliament has adopted this policy in regard to all members of the Public Service, the cost of living allowance having been first reduced and finally abolished. The vast majority of daily-paid workers in South Africa have likewise been deprived of such allowances or increased wages.

Under these circumstances there is no reason why a small group of daily-paid employees of the Johannesburg Municipality should be especially entrenched. The Municipal proposal to grant an allowance to all its daily-paid employees practically equivalent to the increased cost of living to-day as compared with 1914, is generous.

gemaakt wordt is tussen gewoon en ondergronds werk; personen die ondergronds werk verrichten betalen een opnemingsfooi van £7, onverschillig hoe oud zij zijn, vergeleken met slechts £1 betaald door alle personen die aan de oppervlakte werken. Ondergrondse werkers betalen ook dubbel de periodieke bijdragen betaald door hen die ambachten aan de oppervlakte uitoefenen hoewel de betaling in geval van ziekte en de begrafenisgelden voor alle leden hetzelfde zijn.

Goede Vrijdag, Meidag, Dingaansdagen, Kerstdag zijn betaalde openbare feestdagen.

22. Naar mening van de Raad tonen de bovenstaande tabellen aan dat de lonen en arbeidsvoorwaarden nu voorgesteld door de Johannesburgse Municipaliteit een vergelijking met die van andere plaatselike werkgevers zeer gunstig doorstaan en de Raad beveelt aan dat zij aangenomen worden. Dit slaat meer in het bizonder met betrekking tot de permanente staf van de municipaliteit en de tijd alleen zal leren of de lonen en arbeidsvoorwaarden aangeboden aan hun tijdelike employees voldoende aantrekkelik zijn om de municipaliteit in staat te stellen uit deze tijdelike employees de mannen van karakter en bekwaamheid uit te kiezen nodig voor hun permanent personeel. Het feit dat werk voor een municipaliteit betekent werk binnen het municipale gebied en dus trekken van de ene naar de andere plaats onnodig maakt is een argument ten gunste voor dienstneming bij de municipaliteit wanneer vergeleken met de toestanden die in de bouwvakken in het algemeen gevonden worden.

23. Het is beweerd geworden door de bouwvakverbonden dat zij recht hebben op een loon dat hun geheel en al schadeloos stelt voor de verhoogde kosten van bestaan hedentendage vergeleken met de toestande vóór de oorlog. Hiermede kunnen wij niet akkoord gaan. De stijging in de kosten van bestaan ontstaan door abnormale ekonomiese toestanden die het gevolg zijn van de Grote Oorlog wordt gevoeld door de gehele gemeenschap en alle delen van de gemeenschap moeten hun deel van de last dragen. Het Parlement heeft deze gedragslijn gevolgd met betrekking tot alle leden van de Staatsdienst, de kosten van bestaan toelage is eerst verminderd en ten slotte geheel en al weggenomen. De overgrote meerderheid van de bij de dag betaalde werkers in Zuid-Afrika heeft eveneens zodanige toelagen of verhoging van loon verloren.

Onder deze omstandigheden is er geen reden waarom een kleine groep van bij de dag betaalde employees van de Johannesburgse Municipaliteit speciaal verzorgd moet worden. Het voorstel van de municipaliteit om aan al zijn bij de dag betaalde employees een toelage te geven die zo goed als gelijk staat met de verhoogde kosten van bestaan hedentendage vergeleken met het jaar 1914, is edelmoedig.

24. The Board was impressed by the witnesses who gave evidence for the employees, and is convinced that if the satisfactory results hitherto obtained by the Town Engineer's Department are to continue, the character and efficiency of the employees of the municipality must be maintained.

25. The Board also considers that in addition to privileges permanent employees should receive extra remuneration as a recognition of added responsibility. The Board also recommends that in so far as temporary employees are concerned, the resolution making membership of the Sick Benefit Fund in their cases compulsory, should be withdrawn.

26. Mr. Wyeth concluded his address for the employees in the following words:—

> "The Joint Executives have a duty to perform to their members, and that is the protection of their interests, combined conditions and many other features, and they cannot allow any one section to break the regulations of the industry. The effect of doing this would not only extend to the municipality but to other municipalities, and also to the industry as a whole, consequently any infringement as suggested will be met by a united front in the building industry."

The Board regrets this note of menace on which Mr. Wyeth closed.

27. The building trade unions have expelled members who remained in municipal service under the altered conditions, after the strike, and to this extent Mr. Wyeth's statement correctly reflects the action they have taken, but they have not expelled many of their members who have accepted far less advantageous conditions on the mines, V.F.P., etc. The statemeet that "they cannot allow any one section to break the regulations of the industry" is therefore meaningless. They have already allowed large sections of the building industry to make their own terms with employers, and in these cases have not insisted upon the wages and working conditions agreed upon with the Master Builders' Association.

Mr. T. G. Macfie, a member of the Board, is submitting a Minority Report, which is attached hereto.

MINORITY REPORT.

1. I regret that I am unable to concur in the recommendations of the other members of the Board, and I have the honour to submit the following recommendations for the settlement of the dispute in accordance with what appear to me to be "the merits thereof and of equity":—

(1) That the rate of wages for building workers employed in the building trade by the municipality be the standard rate of wages in the building trade on the Witwatersrand paid by members of the Master Builders' Association from time to time.

(2) That such hours of work of such building workers be the hours of work observed in the building trade on the Witwatersrand by the Master Builders' Association from time to time.

24. De getuigen die voor de employees hun getuigenis gegeven hebben, hebben een gunstige indruk op de Raad gemaakt en de Raad is ervan overtuigd dat wil men de bevredigende resultaten welke tot nog toe door het Departement van de Stadsingenieur werden verkregen blijven behouden, het karakter en de bekwaamheid van de employees van de municipaliteit gehandhaafd moeten worden.

25. De Raad is voorts van mening dat behalve voorrechten permanente employees ook extra betaling moesten ontvangen als een erkenning van verhoogde verantwoordelikheid. De Raad beveelt tevens aan, voor zover het de tijdelike employees betreft, dat het besluit waarbij het lid worden van het Ziekefonds verplichtend is gemaakt in hun geval ingetrokken moet worden.

26. De heer Wyeth besloot zijn aanspraak voor de employees met de volgende woorden:—

> "De Gezamenlike Uitvoerende Raden hebben een plicht te vervullen jegens hun leden en die bestaat in de bescherming van hun belangen, gekombineerde kondities en vele andere opzichten en zij kunnen niet toestaan dat een enkele sektie de regels van de industrie schendt. Het gevolg van het toelaten daarvan zou niet beperkt blijven tot de municipaliteit doch het voorbeeld van de municipaliteit zou door andere municipaliteiten gevolgd worden en ook door andere werkgevers in de bouwvakken en gevolgelik zal iedere inbreuk zoals de voorgestelde met vereende krachten door de bouwvakken bestreden worden."

De Raad betreurt de dreigende toon waarmede de heer Wyeth zijn rede besloot.

27. De Bouwvakverbonden hebben uit hun verbonden de leden uitgezet die in dienst van de municipaliteit gebleven zijn onder de veranderde voorwaarden na de staking en voor zover dit betreft is de verklaring van de heer Wyeth, een korrekte weergave van de stappen die zij genomen hebben, doch vele van hun leden die de veel minder gunstige arbeidsvoorwaarden op de mijnen, bij de Victoria Falls Krachtmaatschappij, enz., hebben aangenomen, hebben zij niet uitgezet. De verklaring "dat zij niet kunnen toestaan dat de regels van de industrie door een enkele sektie geschonden worden" heeft dus niets te betekenen. Zij hebben alreeds aan zeer grote onderdelen van het bouwvak toegestaan om een eigen vergelijk met de werkgevers te treffen en in die gevallen hebben zij niet aangedrongen op de lonen en arbeidsvoorwaarden overeengekomen met de Vereniging van Bouwmeesters.

De heer T. G. Macfie, een lid van de Raad, dient een minderheidsrapport in, dat hieraan gehecht is.

MINDERHEIDSRAPPORT.

1. Het spijt mij dat ik niet kan instemmen met de aanbevelingen van de andere leden van de Raad en heb ik de eer de volgende aanbevelingen te maken voor het vereffenen van het geschil, die, in mijn mening, "overeenkomstig de merieten daarvan en volgens billikheid" zijn:—

(1) Dat het loon van de bouwlieden, door de Stadsraad in het bouwvak geëmployeerd, het standaard-loon moet zijn dat door de Bouwmeestersvereniging van tijd tot tijd op de Witwatersrand betaald wordt.

(2) Dat de werkuren van zulke werkers de uren zullen zijn die door de Bouwmeestersvereniging van tijd tot tijd op de Witwatersrand bepaald worden.

(3) That on that basis—

(*a*) it be optional on the part of such building workers when temporarily employed whether they will join the Municipal Sick Benefit Society, and that, if they elect to join, the municipal contribution at the rate of 5s. per month be also deducted from their wages, and

(*b*) such building workers when so temporarily employed be paid for leave only in accordance with the practice on the subject from time to time in the building trade on the Witwatersrand as carried out by the Master Builders' Association.

2. (1) The Act provides in section *twenty-seven* (1) (*d*) that the ultimate duty of this Board is to make "recommendations for the settlement of the dispute in accordance with the merits thereof and of equity"; but no guide is given as to what is either "merits" or "equity" in a labour dispute. A board of three members is therefore very likely to disagree; and it is possibly desirable that when it does both aspects of the matter should be presented to the public. That is perhaps specially desirable on the Witwatersrand, since the white skilled worker here is practically marooned industrially. Unlike most other countries there is for practical purposes no other industrial centre to which he can remove if he is dissatisfied with conditions here, and labour disputes when they arise and cannot be settled amicably are, therefore, apt to become of more than usual virulence. It appears to me, therefore, to be in all the circumstances desirable also to base recommendations on principles and not desirable for a public body on the Witwatersrand to depart, except for very good reasons, from accepted principles of municipal administration as to the wages and hours of its employees.

(2) It is, however, objected in paragraph 7 of the Majority Report that only twenty-four of the municipal artisans are working under building trade conditions, and the suggestion is that even if those principles be adhered to, only an insignificant minority of the men are entitled to benefit by them in this case. As we are dealing only with men who have been employed by the municipality from the building trades as building trade workers, to whom the municipality has always paid building trade wages and who were put by the municipality on building trade hours and wages under their resolution of the 22nd of March last that the men be engaged under the current local conditions as to hours, leave, overtime, etc., and at the current local standard rate of wages, it appears to me to be rather futile quibbling about work for the municipality to turn round now and say that they have been wrong for many years and that most of these men should never have been employed as building trade workers on building trade wages and conditions. The opinion of a party before a dispute has arisen is always more reliable than the opinion he expresses for the purposes of the dispute after it has arisen. The pre-dispute opinion of the municipality on this question was also in accordance with the fact that the building trade is not confined to the erection of houses. Bridge building, kerbing, guttering, sewerage, and water-supply are all parts of the building trade. That work happens on the Witwatersrand to be done by the municipality; but it is in evidence, and has not been contradicted, that in England, for instance, in the development of a building estate the building contractor would do all that work as well as the actual erection of houses.

3. (1) The recommendations which I have the honour to make are on the basis of long and widely recognized principles of municipal administration. In the standard authority on the subject (Principles and Methods of Municipal Trading; Knoop. Macmillan and Co., 1912), it is said (page 283) as to artisans employed directly by a municipality that:—

> "So far as the skilled artisan is concerned the general practice appears to be to pay the local trades union rates.
>
> "In addition to their money wages, municipal employees may be entitled to sick pay and to holidays with wages, and the local authorities may contribute to superannuation schemes on their behalf. All these things must of course be taken into account in considering the amount of wages paid."

This is emphasized by the fact that as to artisans employed by contractors doing work for a municipality, it has long been the practice to have a "fair wage" clause in all contracts. The "fair wage" clause in the present municipal contracts is as follows:—

> "The contractor undertakes—
>
> to employ only Union men and to pay wages at rates not less than the current local standard wages, and to observe the hours and conditions of labour which are recognized as proper in the district. "Current local standard rates" shall be such as are for the time being recognized and agreed upon as standard rates by the Witwatersrand Trades Council or other local body representing workmen in the particular trade concerned on the one hand and any other local association representing employers in such trade on the other, and the hours and conditions of labour recognized as proper in the district shall be such hours and conditions of labour as are similarly recognized and agreed upon."

That is (except as to employing only Union men) the "fair wage" clause which has for a generation past been insisted upon in the contracts of most elective public bodies, and which, I believe, owes its origin to a resolution passed by the House of Commons at the instance of the present Lord Buxton about 30 years ago. It is obviously indefensible and impracticable for a municipality to observe a lower standard of employment than it requires from outside contractors.

(3) Dat op die basis—

(*a*) zulke werkers de keuze gelaten zal worden, wanneer zij tijdelik werkzaam zijn, of zij al dan niet lid willen worden van het Municipale Ziekefonds, en dat, zo zij verkiezen lid te worden, de municipale kontributie van 5s. per maand ook van hun loon afgetrokken zal worden; en

(*b*) het verlof van zulke werkers, wanneer aldus tijdelik werkzaam, alleen uitbetaald zal worden volgens het gebruik in dit opzicht in het bouwvak en zoals van tijd tot tijd door de Bouwmeestersvereniging op de Witwatersrand neergelegd.

2. (1) De Wet bepaalt in artikel *zeven en twintig* (1) (*d*) dat het de uiteindelike plicht van deze Raad is om "aanbevelingen te maken voor het vereffenen van het geschil overeenkomstig de merieten daarvan en volgens billikheid"; doch geen aanwijzing wordt gegeven wat "merieten" of "billikheid" in een arbeidsgeschil is. Een Raad van drie leden kan dus heel waarschijnlik van mening verschillen, en is het dus mogelik wenselik in zulk een geval om beide aanzichten van de zaak onder de aandacht van het publiek te brengen. Vooral is dit misschien wenselik op de Witwatersrand, daar de blanke bedreven werker op de Witwatersrand industrieel vrijwel achtergelaten is. De positie is niet zoals in andere landen, want voor praktiese doeleinden is er geen ander industrieel centrum waarheen hij verhuizen kan als hij ontevreden is met kondities alhier, en kunnen arbeidsgeschillen, wanneer die zich voordoen en niet op vriendschappelike wijze vereffend kunnen worden, allicht van meer dan kwaadaardige aard worden. Het komt mij dan ook onder al de omstandigheden wenselik voor om ook aanbevelingen op principes te baseren en onwenselik voor een publiek lichaam op de Witwatersrand om, behalve op goed gegronde redenen, af te wijken van de aangenomen beginselen van municipale administratie in verband met lonen en werkuren van zijn employees.

(2) In paragraaf 7 van het Meerderheidsrapport wordt echter bezwaar gemaakt dat slechts vier en twintig van de municipale ambachtslieden onder de bouwvakkondities werken, en het wordt geopperd dat zelfs al houdt men zich aan deze principes, slechts een onbeduidend klein gedeelte van de mannen in dit geval gerechtigd is om er van te profiteren. Daar wij alleen te handelen hebben met mannen in het bouwvak die door de municipaliteit aangenomen zijn als bouwlieden, aan wie de municipaliteit altijd bouwvaklonen betaald heeft en die door de municipaliteit op bouwvakuren en -loon geplaatst werden onder hun besluit van de 22ste Maart ll., "dat de mannen aangenomen worden onder bestaande plaatselike kondities wat betreft uren, verlof, overtijd, enz., en tegen de bestaande plaatselike lonen," komt het mij enigszins nutteloos voor om over woorden te redetwisten en voor de municipaliteit om nu om te draaien en te zeggen dat zij voor jaren verkeerd geweest zijn en dat de meeste van deze mannen nooit als bouwlieden tegen bouwvakloon en op die kondities aangenomen hadden moeten worden. De mening van iemand, die in een geschil betrokken is, is altijd meer betrouwbaar vóór een geschil zich voordoet, dan de mening die hij uitspreekt over het geschil na het zich voorgedaan heeft. De opinie van de municipaliteit vóór het geschil in dit opzicht kwam ook overeen met het feit dat het bouwvak niet beperkt is tot het bouwen van huizen. Het bouwen van bruggen, leggen van randstenen, vastmaken van goten, riolering en watertoevoer behoren allen tot het bouwvak. Toevallig wordt dit werk op de Witwatersrand door de Stadsraad ondernomen; doch het werd in de getuigenis beweerd, en werd niet tegengesproken, dat in Engeland bijvoorbeeld bij het uitleggen van een landgoed, met het doel om bebouwd te worden, de aannemer al dit werk deed bij het werkelike bouwen van de huizen.

3. (1) De aanbevelingen die ik de eer heb te maken zijn op de basis van lang en alombekende principes van municipale administratie. In de standaard-autoriteit op dit onderwerp (Principles and Methods of Municipal Trading; Knoop. Macmillan & Co., 1912) wordt gezegd (bladzijde 283) in verband met ambachtslieden rechtstreeks door de municipaliteit geëmployeerd, dat:—

> "Wat betreft de bedreven ambachtsman schijnt het de algemene gewoonte zijn om de plaatselike vakverenigingslonen te betalen.
>
> "Behalve hun loon in geld, mogen municipale employees gerechtigd zijn op loon gedurende afwezigheid wegens ziekte en op vakantiedagen met behoud van loon, en de plaatselike autoriteiten mogen ten behoeven van hen tot pensioenfondsen bijdragen. Al deze dingen moeten natuurlik in aanmerking genomen worden wanneer het bedrag van het loon dat betaald moet worden in overweging genomen wordt."

Nadruk wordt hierop gelegd door het feit dat wat ambachtslieden betreft die in dienst zijn van aannemers die voor een municipaliteit werken, het reeds lang de gewoonte geweest is om een "billik loon" klausule in alle kontrakten te hebben. De "billik loon" klausule in de tegenwoordige municipale kontrakten luidt als volgt:—

> "De kontrakter onderneemt—
>
> om alleen mannen aan te nemen die aan vakverenigingen behoren en lonen te betalen die niet lager zijn dan de lopende standaard-lonen en de uren en kondities van arbeid die als behoorlik in het distrikt erkend worden, toe te passen. 'Lopende plaatselike standaard-lonen' zullen de lonen zijn die op 't ogenblik als standaard-lonen erkend en overeengekomen zijn door de Witwatersrand Trades Council of ander plaatselik lichaam dat de werklieden in het biezondere ambacht vertegenwoordigt aan de ene zijde en enige andere plaatselike vereniging die de werkgevers in zulk ambacht vertegenwoordigt aan de andere zijde, en de werkuren en kondities van arbeid erkend als behoorlik in het distrikt zullen de uren en kondities van arbeid zijn die op gelijke wijze erkend en overeengekomen zijn."

Dat wil zeggen dat (behalve wat betreft het aannemen van enkel leden van vakverenigingen) de "billik loon" klausule, waarop voor jaren en jaren aangedrongen is in de kontrakten van de meeste verkozen publieke lichamen, en die, naar ik meen, zijn oorsprong te danken heeft aan een besluit van het Lagerhuis op voorstel van de tegenwoordige Lord Buxton, ongeveer 30 jaar geleden, het klaarblijkelik onverdedigbaar en ondoenlik is voor een municipaliteit om een lagere standaard van werkverschaffing vast te stellen dan hij van partikuliere aannemers vereist.

(2) The claim of the municipality, with which the Majority Report agrees except in regard to paying some undefined increase to men on the permanent establishment for special reasons, is contrary to those principles because it is to reduce wages to 4d. an hour below the "current local standard rates" and to increase the hours of work by four hours per week above the hours recognized as proper in the district. It may be pointed out incidentally at this stage that, if the claim of the municipality is given effect to, the municipality, unless it either cancels or revises this "fair wage" clause, will in the first place be engaging in unfair competition with outside contractors, and will in the second place be unable to carry out new building work departmentally, since that necessitates the engagement of men temporarily and I agree with Mr. Isaacs, the municipal superintendent of works, that the municipality will not be able to get good men temporarily at less than what master builders are paying as the minimum standard wage.

4. Whilst a well-established trade custom or principle of public administration is presumably right, because it represents the conclusions of many practical men based on long experience, I concede, however, that it may possibly not always be right. Thus, if the wages in the building trade rose to (say) £1 an hour or fell to (say) 5s. a day owing to abnormal conditions, it would in my opinion not be right for a public body to increase the wages of its permanent building trade employees to £1 an hour, or to reduce them to 5s. a day. Such a departure from custom would be justified by regard to the paramount interest of the public; but, so far as I am aware, no such emergency has ever arisen or is likely to arise in the trade, and within reasonable limits the artisans employed permanently by a municipality should share the good or bad fortune of their fellow-workers in the trade. But certainly when, as here, it is sought to depart from a custom which is long established, which has worked satisfactorily and which is widely recognized and acted upon, it is incumbent upon the party which wishes to depart from it, as the municipality at present proposes, to prove that there are good grounds for the departure.

5. The questions before this Board are therefore in my opinion whether the municipality has established good grounds for departing from the established standards of the building trade by reducing wages from 3s. 4d. to 3s. per hour, of which 6d. is subject to a sliding scale varying with the cost of living, and by increasing the hours of work from 44 to 48 per week. It will be useful to bear in mind that a 44-hour week is an 8-hour day with a half-holiday on Saturday, whilst the 48-hour week is 8 hours 40 minutes on five days and 4 hours 40 minutes on Saturday, and that the 3s. 4d. an hour which the municipality seeks to reduce to 3s. per hour has less than the purchasing power of the pre-war wage of 2s. 6d. per hour.

On both these questions all the witnesses called by the municipality were singularly elusive. No one apparently had any objection to the 44-hour week or the 3s. 4d. an hour wage on the merits except Mr. Councillor Taaffe who, however, elected in the end not to give evidence. For the rest the objection was that other people were getting less and working longer hours, that, therefore, as the difference would "tend to cause inconvenience and discontent sometime in the future, although no trouble had as yet arisen in fact, it was necessary to put all the municipal artisans on the same hours and wages, and that the building workers should, in view of the wages on the mines for instance, be thankful for what they were about to receive. Procrustean methods are not usually sound, especially when they are not based on any ascertainable principle and are applied because of fears of a hypothetical future. And as a matter of fact neither wages nor hours have ever been uniform throughout the municipal service, and will not be under the changes which are now proposed to the detriment of their building trade workers.

6. Much has been said in the course of this inquiry on the one hand by the municipal representatives as to their duty to protect the general public against excessive claims by one section of their employees, and on the other by the representatives of the men as to the duty of the municipality to be a model employer. There is probably no disagreement on those principles, which are by no means novel.

Certainly on every labour dispute board I have sat on I have emphasized that the public welfare must always be the governing factor. In the report of the Building Trades Board of 1916-17 of which I was chairman (*Gazette* Notice No. 374 of 14th March, 1917), it is said (section 9, paragraph 4) that:—

> "When the position is reviewed by the Joint Board after an experience of (say) six months, then it will be only just to recognize both that the public has a right to expect that workmanlike building work shall be done at a reasonable price, and also that any attempt to use a system of mutual co-operation in order to obtain an extortionate price from the public will not only fail but will cause damage both to the employers and to the workmen concerned."

In an address which I gave to S.A. Trades Union Congress in Johannesburg at the end of 1917, I said:—

> "We shall all have to rely more on the public spirit of the citizen and recognize in some increasingly practical fashion the truth of the very old maxim that the welfare of the whole people is the supreme law."

The public interest, which this Board represents, is obviously not served by blindly supporting the claims of either employers or employees, however oppresive or extortionate they may be; but the public interest is in my opinion served by the employment of white men in the skilled trades at wages which will enable them to support themselves and their families according to European standards of life and as independent and self-respecting citizens.

7. The first question is whether the municipality has shown good grounds for reducing wages to 4d. per hour below the minimum standard local rates.

(2) De eis van de municipaliteit, waar het Meerderheidsrapport mede instemt, behalve wat betreft het betalen van de een of andere onbepaalde verhoging aan mannen van het permanente personeel onbepaalde verhoging aan mannen van het permanente personeel voor speciale redenen, is in strijd met deze beginselen omdat die een vermindering van loon tot 4d. per uur onder de "lopende plaatselike standaard-lonen" wenst teweeg te brengen en de werkuren wenst te vermeerderen met vier per week boven de uren erkend als behoorlik in het distrikt. Hier mag terloops opgemerkt worden dat, indien de eis van de municipaliteit ingewilligd wordt, de municipaliteit, tenzij hij de "billik loon" klausule herroept of wijzigt, in de eerste plaats in oneerlike kompetitie zal treden met partikuliere kontrakters en in de tweede plaats niet in staat zal zijn om nieuw bouwwerk op departementale wijze uit te voeren, aangezien dat het tijdelik in dienst nemen van mannen nodig zal maken, en ik stem overeen met de heer Isaacs, de Municipale Superintendent van Werken, dat de municipaliteit geen goede mannen voor tijdelik werk zal kunnen krijgen tegen minder dan wat de bouwmeesters betalen als het minimum standaard-loon.

4. Alhoewel een lang bestaande gewoonte in het ambacht of beginsel van publieke administrasie waarschijnlik korrekt is, omdat het de gevolgtrekkingen te zien geeft van vele praktiese mannen, gebaseerd op lange ondervinding, geef ik echter toe dat het mogelik niet altijd korrekt is. Als bijvoorbeeld de lonen in het bouwvak zouden stijden tot, zeg, £1 per uur, of daalden tot, zeg, 5s. per dag tengevolge van abnormale kondities, zou het volgens mijn mening een publiek lichaam niet passen om het loon van zijn permanente employees in het bouwvak op te slaan tot £1 per uur, of die te verlagen tot 5s. per dag. Zulk een afwijking van gewoonte zou gerechtvaardigd zijn door de hoogste belangen van het publiek in acht te nemen; doch, zover ik weet, heeft zo een geval zich nooit voorgedaan en zal ook waarskijnlik nooit in het ambacht voorkomen, en binnen redelike grenzen behoren de ambachtslieden in dienst van de municipaliteit het goede en slechte met hun medewerkers in het ambacht te delen. Doch zeker is het dat wanneer het, zoals hier, de bedoeling is om af te wijken van een lang bestaande gewoonte, die bevrediging gegeven heeft en wijd erkend en toegepast wordt, diegenen, die er van wensen af te wijken, zoals de municipaliteit nu van plan is te doen, verplicht zijn te bewijzen dat er gegronde redenen voor de afwijking bestaan.

5. De kwesties voor de Raad zijn dus, volgens mijn mening, of de munisipaliteit gegronde redenen heeft om van de vastgestelde standaard van het bouwvak af te wijken door lonen van 3s. 4d. tot 3s. per uur te verlagen, waarvan 6d. onderhevig is aan een afgaande schaal die verschilt met de kosten van levensonderhoud en de werkuren van 44 tot 48 per week te vermeerderen. Het heeft zijn nut om er aan te denken dat een week van 44 uur een 8-urige dag is met een halve vakantiedag op Zaterdag, terwijl de 48-urige week 8 uur 40 minuten op vijf dagen en 4 uur 40 minuten op Zaterdag is, en dat de 3s. 4d. per uur die de municipaliteit wenst te verlagen tot 3s. per uur minder koopwaarde bezit dan het loon van 2s. 6d. per uur vóór de oorlog.

Op beide deze kwesties waren al de getuigen die door de municipaliteit geroepen werden biezonder ontwijkend. Schijnbaar had geeneen enig bezwaar tegen de 44-urige week of het loon van 3s. 4d. per uur op de merieten, behalve Raadslid Taaffe, die echter uiteindelik besloot om geen getuigenis te geven. Voor het overige was het bezwaar dat andere mensen minder kregen en langere uren werkten, dat het daarom, aangezien het verschil vroeger of later "ongemak en ontevredenheid zou veroorzaken," ofschoon er in werkelikheid nog geen moeilikheden geweest waren, nodig was om alle municipale ambachtslieden op dezelfde uren en hetzelfde loon te plaatsen, en dat de bouwlieden, met het oog op de lonen op de mijnen bijvoorbeeld, dankbaar behoorden te wezen voor wat zij zouden ontvangen. Geforceerde methoden zijn in de regel niet degelik, vooral wanneer zij niet gebaseerd zijn op een bevestigbaar beginsel en toegepast worden uit vrees voor een hypothetiese toekomst. In werkelikheid zijn noch lonen, noch uren ooit in de municipale dienst overal gelijk geweest en zullen zij dit ook niet zijn na de veranderingen die nu voorgesteld zijn tot nadeel van hun werkers in het bouwvak.

6. Er is in de loop van dit onderzoek veel gezegd geworden van de zijde van de vertegenwoordigers van de municipaliteit over hun plicht om het publiek in het algemeen te beschermen tegen buitensporige eisen van een deel van hun employees, en aan de andere zijde, door de vertegenwoordigers van de werklieden, over de plicht van de municipaliteit om een voorbeeldig werkgever te zijn. Er bestaat waarschijnlik geen meningsverschil over deze beginselen, die in 't geheel niet nieuw zijn. Zeker heb ik op elke Raad voor arbeidsgeschillen, waarop ik gezeten heb, klem gelegd op het feit dat het publiek belang altijd de beslissende faktor moet zijn. In het rapport van de Raad voor het bouwvak van 1916-17, waarvan ik voorzitter was (*Staatskoerant* Kennisgeving No. 374 van 14 Maart 1917) wordt gezegd (sektie 9, paragraaf 4), dat:—

> "Wanneer de positie na een ondervinding van, zeg, zes maanden door de Gemeenschappelike Raad herzien wordt, zal het niet meer dan billik zijn om te erkennen dat het publiek gerechtigd is om degelik bouwwerk te verwachten tegen redelike prijzen en ook dat enig sisteem van onderlinge samenwerking met de bedoeling om een uitzuigerige prijs van het publiek te verkrijgen niet alleen mislukken zal, maar schade zal berokkenen zowel aan werkgevers als aan de betrokken werknemers."

In een toespraak, die ik voor het kongres van de "South African Trades Unions" tegen het eind van 1917 in Johannesburg hield, zei ik:—

> "Wij zullen allen meer moeten gaan vertrouwen op de publieke geest van de burger en op de een of andere toenemende praktiese manier de waarde van het oude gezegde erkennen, dat het welzijn van het gehele volk de hoogste wet is."

Het algemeen belang, hetwelk deze Raad vertegenwoordigt, wordt voor zeker niet behartigd door blindelings de eisen van werkgevers of van werknemers te steunen, hoe drukkend of uitzuigerig die ook mogen zijn; doch het algemene belang wordt in mijn opinie behartigd door het tewerkstellen van blanke mannen in de bedreven ambachten tegen een loon dat hen in staat zal stellen om zichzelven en hun families volgens Europese levenswijzen en als zelfstandige en zelfrespekterende burgers te onderhouden.

7. De eerste vraag is of de municipaliteit gegronde redenen opgebracht heeft om de lonen te verlagen tot 4d. per uur onder het minimum plaatselik standaard-loon.

(1) It has never been suggested that the standard wage in the skilled trades on the Witwatersrand in 1914, viz., 2s. 6d. per hour was an excessive wage, and in fact the municipality seeks now to re-establish that as the basic rate plus certain increases towards meeting the increase since then in the cost of living whilst an increase continues. But 3s. 4d. an hour is merely a 33 3 per cent. increase on 2s. 6d. per hour and when the municipality made its reductions the increase in the cost of living was 34.4 per cent. At the time of the latest returns at the end of December it was 36 per cent. A wage which has to-day less than the purchasing power of the pre-war wage of 2s. 6d. per hour does not appear to be on the face of it an unreasonable wage. Mr. Councillor Fearnhead, the chief representative of the municipality, agreed (9th day, p. 18) that the standard wage of 3s. 4d. an hour in the building industry is a fair and not an excessive wage, and that perfectly proper admission should, in my opinion, be accepted as final on that point. Why then does the Council seek to reduce it?

(2) The municipality stated in its resolution that it had gathered full information as to current rates of pay on the mines, the V.F.P. Co., the railways, the Rand Water Board, the town shops and the reef municipalities. Since then the wages paid in the breweries have also been imported into the matter. As a matter of fact the other reef municipalities pay the standard rate of wages and observe the standard hours. The other bodies mentioned each pay a different and differing rate of wages, and on the mines and the railways there are special privileges the value of which it is difficult to assess. With the exception of the railway rate all these outside rates compare most unfavourably with the current standard rate paid by the Master Builders Association. Having made these inquiries the municipality then evolved a rate of its own, viz., 2s. 6d. per hour with 6d. an hour on a sliding scale. This, whilst less than the standard wage in the building trades, is more than the standard wage in other trades. It is admitted for the municipality that it is not based on any principle. Mr. Sankey, the manager of the Gas and Electric Department, assented that the municipal wage is not based on any logical application of any settled principle. Mr. Waugh, the Acting Town Engineer, was not prepared to say that the municipality should follow the example of the mines, the Victoria Falls Power Co., or the breweries as to rates of wages, as he thought they were down rather low. Mr. Councillor Fearnhead says that, as is obvious, the municipality is not following the wage standards of the mines or the Victoria Falls Power Company. There are obvious reasons for that decision. For instance, before the Mining Industry Board the Victoria Falls Power Company admitted (paragraph 209) quite candidly that its reason for refusing to increase wages was that its rates for the supply of power had been fixed by contracts running for terms of years and could not be raised. Its present wage of 2s. 6d. per hour has only the purchasing power of a pre-war wage of 1s. 8d. an hour. No disinterested person would attempt, on behalf of a public body, to justify either such a wage or the reason for imposing it, since it is certainly not the business of the Town Council to reduce the wages of its workmen because the Victoria Falls Power Company made what would have been foolish and improvident contracts if they had not been necessary in order to attract mining companies to enter into contracts to take power.

These low rates of wages paid by outside bodies are introduced in the Majority Report not to show that the Town Council should adopt them but to show that the wage proposed by the Town Council is a "generous" wage (paragraph 23) although it is 4d. an hour less than the standard minimum wage in the trade. Generosity in business mattters is to be distrusted; a "generous" wage is an insult, and a Town Council has no right to be "generous" with the municipal funds. Incidentally I venture to disagree with the statement in that paragraph of the Majority Report, that this sliding 6d. per hour is "practically equivalent to the increased cost of living to-day." It is an increase of 20 per cent. on the pre-war wage and 20 per cent. is not "practically equivalent" to 36 per cent. The difference amounts on the weekly wage to 17s. 9d. and in a month to £3. 11s. I should have thought also that the idea that wages were or could be based on the generosity of the employer had now been discarded, but in this respect the principles on which the Town Council has acted as to wages and on which the Majority Report is based appear to me to be exactly those which preceded Adam Smith's "Wealth of Nations," published in 1776. Rather more than sixty years ago Buckle, in his "History of Civilization in England," said: speaking of the effect of the "Wealth of Nations" that:—

> "According to the old notions, which indeed are not yet quite extinct, those who received wages were under a personal obligation to those who paid them, that is to say they were under a moral obligation over and above the moral obligations of performing certain services. It was believed that a master could not only select what servants he chose but could pay them what he chose; or at all events that it was the will of the masters considered as a body which fixed the usual and average rate of wages. The lower classes were, therefore, much indebted to the higher ones for giving them so much as they did and it was incumbent upon all persons who received wages to take them with humble thankfulness and with a feeling of gratitude on account of the favour bestowed upon them by the generosity of their superiors.
>
> "This doctrine, so convenient to the upper classes of society and so natural to the universal ignorance which formerly prevailed on these matters, began to be shaken by the speculative thinkers of the 17th century; but it was reserved for the 18th century to overthrow it, by letting in the great idea of necessity, and proving that the rate of wages established in a country was the inevitable consequence of the circumstances in which that country was placed, and had no connection with the wishes of any individual or indeed with the wishes of any class. To all instructed persons this is now a familiar truth. Its discovery has excluded the notion of gratitude from the pecuniary relation between employers and

(1) Het is nooit gezegd geworden dat het standaard-loon in de bedreven ambachten op de Witwatersrand in 1914, nl. 2s. 6d. per uur, een te hoog loon was, en inderdaad wenst de municipaliteit dat weder als grondslag neer te leggen, plus zekere verhogingen om tegemoet te komen in de verhoging sedert die tijd van de kosten van levensonderhoud, zolang die verhoging blijft bestaan. Doch 3s. 4d. per uur is slechts een verhoging van 33.3 percent boven 2s. 6d per uur, en toen de municipaliteit zijn verminderingen invoerde waren de kosten van levensonderhoud 34.4 percent hoger. Ten tijde van de laatste staten aan het einde van Desember was het cijfer 36 percent. Een loon dat vandaag een koopwaarde heeft van minder dan het loon van 2s. 6d. per uur vóór de oorlog is klaarblijkelik niet een onredelik loon. Raadslid Fearnhead, de voornaamste vertegenwoordiger van de municipaliteit, stemde toe (negende dag, bladzij 18), dat het standaard-loon van 3s. 4d. per uur in het bouwvak een redelik en niet te hoog loon is, en deze absoluut juiste erkenning dient, volgens mij, over dit punt als finaal aangenomen te worden. Waarom wil de Stadsraad het dan verlagen?

(2) De municipaliteit verklaarde in zijn besluit dat volle inlichting ingewonnen was over lopende lonen op de mijnen, de V.F.P. Co., de spoorwegen, de Rand Water Board, de stedelike werkplaatsen en de municipaliteiten op de Reef. Sedert dien zijn ook de lonen in de brouwerijen in de zaak genoemd geworden. In werkelikheid betalen de andere municipaliteiten op de Reef de standaard-lonen en werken zij de standaard-uren. De andere genoemde lichamen betalen allen verschillende lonen en op de mijnen en spoorwegen bestaan speciale voorrechten waarvan de waarde moeilik te berekenen is. Met uitzondering van het loon op de spoorweg, steken al deze partikuliere lonen zeer slecht af bij het lopende standaard-loon dat door de bouwmeestersvereniging betaald wordt. Na deze informatie ingewonnen te hebben, stelde de municipaliteit zijn eigen loon vast, nl. 2s. 6d. per uur met 6d. per uur op een afgaande schaal. Dit, alhoewel minder dan het standaard-loon in het bouwvak, is meer dan het standaard-loon in andere vakken. De municipaliteit erkent dat het op geen principe gebaseerd is. De heer Sankey, Bestuurder van het Gas- en Elektriese Stroomdepartement, stemde toe dat het municipale loon op geen logiese toepassing van een aangenomen principe gebaseerd is. De heer Waugh, Waarnemende Stadsklerk, verklaarde zich niet bereid om te zeggen dat de municipaliteit het voorbeeld van de mijnen, de Victoria Falls Power Co. of de brouwerijen, wat lonen betreft, behoort te volgen, daar hij dacht dat zij wel wat laag waren. Raadslid Fearnhead zegt, wat duidelik is, dat de municipaliteit niet de loon-standaard van de mijnen of van de Victoria Falls Power Co. volgt. Er zijn duidelike redenen voor dit besluit. Voor de Mijnindustrie Raad bijvoorbeeld, erkende de Victoria Falls Power Co. (paragraaf 209) gans openhartig dat de reden waarom de maatschappij weigerde om de lonen te verhogen was dat het tarief voor levering van elektriese kracht vastgesteld was in kontrakten, die voor een aantal jaren van kracht zouden blijven, en niet verhoogd kon worden. Zijn tegenwoordig loon van 2s. 6d. per uur heeft een koopwaarde van een loon van slechts 1s. 8d. per uur vóór de oorlog. Geen onpartijdig persoon zou trachten om, ten behoeve van een publiek lichaam, zulk een loon, of de reden waarom het neergelegd wordt, te rechtvaardigen, daar het voorzeker niet de plicht van de Stadsraad is om het loon van zijn werkmensen te verminderen omdat de Victoria Falls Power Co. kontrakten gesloten had die onzinnig of ondoordacht zouden geweest zijn als zij niet nodig waren om de mijnmaatschappijen te bewegen om kontrakten aan te gaan voor het verkrijgen van kracht.

Deze lage lonen door partikuliere lichamen betaald worden in het Meerderheidsrapport aangehaald, niet om aan te geven dat de Stadsraad die moet aannemen, doch om te tonen dat het door de Stadsraad voorgestelde loon een "edelmoedig" loon is (paragraaf 23), ofschoon het 4d. per uur minder is dan het standaard minimum-loon. Edelmoedigheid in bezigheid moet met wantrouwen beschouwd worden; een "edelmoedig" loon is een belediging en een Stadsraad heeft niet het recht om edelmoedig te zijn met municipale fondsen. In het voorbijgaan kan ik niet instemmen met de verklaring in die paragraaf van het Meerderheidsrapport, dat deze afgaande 6d. per uur vrijwel overeenkomt met de hedendaagse verhoogde kosten van levensonderhoud. Het is een verhoging van 20 percent op het loon van vóór de oorlog en 20 percent is niet vrijwel gelijk aan 30 percent. Het verschil bedraagt 17s. 9d. in het wekeliks loon en £3. 11s. in de maand. Ook zou ik gedacht hebben dat het idee dat lonen gebaseerd waren of gebaseerd konden worden op de grootmoedigheid van de werkgever nu verworpen was, doch in dit opzicht komt het mij voor dat de principes waarop de Stadsraad op het gebied van loon gehandeld heeft en waarop het Meerderheidsrapport gebaseerd is, precies die zijn die voorafgingen aan "Wealth of Nations" van Adam Smith, gepubliceerd in 1776. Iets meer dan zestig jaar geleden zei Buckle, in zijn "History of Civilization in England" sprekende over het effekt van de "Wealth of Nations," dat:—

> "Volgens de oude ideeën, die in werkelikheid nog niet geheel en al uitgewist zijn, hadden diegenen die loon trokken een persoonlike verplichting tegenover hen die ze betaalden, dat wil zeggen, zij hadden een morele verplichting boven en behalve de morele verplichtingen om zekere diensten te leveren. Men geloofde dat een meester niet alleen kon kiezen welke dienstknechten hij verkoos, doch hen kon betalen wat hij wilde; of in elk geval dat het de wil was van de meesters, als een lichaam beschouwd, die de gewone en gemiddelde lonen bepaalde. De lagere klassen waren dus de hogere veel verschuldigd, omdat zij hen zoveel gaven en alle personen die loon trokken waren verplicht om ze ootmoedig te ontvangen en met een gevoel van dankbaarheid voor de gunsten hen verleend door de grootmoedigheid van hun meerderen.
>
> "Deze leer, zo gemakkelik voor de hogere stand en zo overeenkomend met de algemene onwetendheid die er vroeger over deze zaken bestond, werd aan het wankelen gebracht door de denkers van de 17de eeuw; doch het werd aan de 18de eeuw overgelaten om hem omver te werpen, door het grote idee van noodzakelikheid te voorschijn te doen komen en te bewijzen dat het loon in een land vastgesteld het onvermijdelike gevolg was van de omstandigheden waarin dat land zich bevond en niet in verband stond met de wensen van de een of andere persoon of zelfs met de wensen van een klas. Voor alle onderrichte personen is dit nu een welbekend feit. Het uitvinden ervan heeft het idee van dankbaarheid, volgende de sekuniaire verhouding

employed, and has made known that servants or workmen who receive wages have no more reason to be grateful than those who pay them. For, no choice having been exercised in fixing the wages, no favour can be conferred in their payment."

The ideas on the subject which Buckle thought had become practically obsolete more than a century and a half ago find a curious echo in the complaint of Mr. Councillor Fearnhead that the daily-paid employees of the Council had not been "loyal" to it rather than to their fellow-workmen during the strike of last year and his obvious feeling that that was a factor to be considered in fixing their future wages. My personal view is simply that the wage fixed in the trade generally for skilled men is normally a fair wage because it has been arrived at by the natural play of conflicting forces, and, therefore, that public bodies should pay it unless good grounds are shown to the contrary. Have any grounds been shown to the contrary on this inquiry?

(3) It is said in the first place that the community generally has not obtained an increase in its income equal to the increased cost of living, and that it is unfair that one section of the community should be free from the burden of the increased cost of living. That argument would have more weight if the value of the real estate in Johannesburg (on which the wages in question are a burden) had not increased during the past three years by about £11,000,000, and if the municipality had not made the increased cost of living allowance to its clerical staff a permanent increase of salaries on a 120-312 basis. Lawyers, also, for instance, have obtained a substantial increase of their scale charges, and there has not as yet been any movement for its removal. Parliament has, it is true, abolished the cost of living allowance in the public service, but the reason was not that the allowance was wrong but that the country could not afford to pay it, and the permanent salaries in the public service have been increased substantially. No evidence has been called, although it would have been advisable, to show that the municipality cannot pay the local standard rates of wages. It is, therefore, not necessary to consider whether the action of Parliament has any application to this dispute. It may also be useful to point out that the local building trade wage of 3s. 4d. an hour whilst higher than the standard wage in the building trade in most places, is lower than in some places. Thus the standard hourly wage for carpenters according to the latest returns (October) was in Winnipeg 3s. 6½d., Toronto 3s. 9d., San Francisco, Boston and Philadelphia 4s. 2½d., Chicago 4s. 7d., and New York and Pittsburgh 4s. 9d., reckoning the dollar at 4s. 2½d., which is rather less than its present exchange value.

It does not on the face of it appear to be unreasonable to expect on the richest goldfield in the world, and where men have to work at an altitude of 5600 feet and within a short distance of the tropics, a wage which is 1s. 5d. per hour less than the customary wage in New York and 5d. per hour less than the customary wage in Toronto.

(4) It has also been urged by the municipality that the difference between its proposed 3s. an hour and the standard wage of 3s. 4d. per hour is made up to the employees by the contributions which it makes to the Sick Benefit Society and the Pension Fund and by full pay on four annual statutory holidays and also during an annual holiday of a fortnight. I agree that these contributions must be taken into account in reckoning the amount of the true wage. But in the first place they are of no appreciable value to the building workers employed temporarily by the municipality, and I recommend that in their case they should be abolished and the practice of the municipality brought into harmony with the practice of the trade. They are, however, of material value in the case of the permanent employees. Omitting, for the reasons given in the Majority Report, the payment for annual leave they amount to approximately 3d. per hour on wages; but that has to be taken with two reservations. The first is that if the workman retires voluntarily with less than ten years' service he is paid only the amount of his own contributions without interest, so that he in fact loses by the system. The second is that if he is injured or killed by accident at his work the liability of the municipality under the Workmen's Compensation Act is reduced by the amount it has contributed to the Pension Fund so that the municipality gets that money back. But the provisions of the Municipal Pension Fund are undoubtedly liberal and worthy of wider adoption, and I will therefore take it that these privileges add another 3d. per hour to the wages of the permanent staff. That does not, however, affect the matter. The permanent staff are all reliable men of long service, their work has very largely to be done without supervision and is admittedly well done, they have acquired a special knowledge of the requirements of municipal work, they are available as foremen, and at times act as such when large building operations are undertaken, and it is admitted that they are one of the necessary factors in enabling departmental work to be done successfully. It is agreed that to attempt to do their work with temporary men would end in chaos. Mr. Hittinger, who is the senior vice-president of the National Federation of Building Trade Employers in South Africa, says that it is the custom of the trade for this class of man to get in the ordinary building trade more than the standard wage, and Mr. Forbes, who is a member of the Master Builders' Association, agrees and says the increase might be 3d. per hour. Mr. Isaacs and Mr. Waugh agree that these privileges are the municipal substitute for the extra wages which such men receive in the building trade, and it is obviously a substitute in the interest of the municipality since the system tends to ensure continuity in municipal work. In the municipal service the standard minimum, and the artisan with twenty years' service receives cash wage is otherwise the maximum as well as the minimum, and the artisan with twenty years' service receives only the same cash wage as the artisan who has just started work.

It appears to me, therefore, to be plain that these privileges are not a reason for reducing the municipal cash wage below the standard rate in the trade, because, shortly, they are of no

tussen werkgever en werknemer, uitgewist en heeft bekend gemaakt dat knechten of werklieden die een loon ontvangen niet meer reden tot dankbaarheid hebben dan zij die het betalen. Want daar geen keuze gelaten werd bij het vaststellen van het loon, kan geen gunst bewezen worden wanneer het betaald wordt."

De ideën over dit onderwerp, die, naar Buckle dacht, meer dan anderhalve eeuw geleden vrijwel vergeten waren, vinden een zonderlinge echo in de klacht van Raadslid Fearnhead, dat de dagloners van de Stadsraad niet "getrouw" aan de Raad waren geweest, maar eerder tegenover hun medewerkers gedurende de werkstaking van verleden jaar, en zijn klaarblijkelike mening dat dit een faktor was die in aanmerking genomen moest worden bij het vaststellen van hun loon voor de toekomst. Mijn persoonlike zienswijze is dat het loon, dat algemeen in het ambacht voor bedreven mannen vastgesteld wordt, gewoonlik een billik loon is, omdat het bepaald is geworden door het natuurlike spel van tegenstrijdige krachten en dat publieke lichamen het dus behoren te betalen, tenzij er gegronde redenen tegen zijn. Zijn in dit onderzoek enige gegronde redenen hiertegen aangebracht?

(3) In de eerste plaats wordt gezegd dat de ingezetenen over het algemeen geen verhoging van inkomen ontvangen hebben die gelijk staat aan de verhoogde kosten van levensonderhoud en dat het niet billik is dat één gedeelte van de bevolking vrijgesteld is van de druk van de verhoogde kosten van levensonderhoud. Dat argument zou van meer gewicht zijn indien de waarde van vaste eigendommen in Johannesburg (waarop de betrokken lonen een last zijn) gedurende de laatste drie jaar niet toegenomen was met ongeveer £11,000,000, en indien de municipaliteit de verhoogde toelage voor levensonderhoudkosten aan zijn klerkelike staf niet een permanente verhoging van salaris op een 120-312 basis gemaakt had. Prokureurs bijvoorbeeld hebben ook een aanzienlike verhoging van hun schaal van kosten verkregen en tot dusver is er nog geen beweging op touw gezet om die af te nemen. Weliswaar heeft de Volksraad de toelage voor levensonderhoudkosten in de Staatsdienst afgeschaft, doch niet omdat de toelage verkeerd was, maar omdat het land het niet kon bekostigen en de permanente salarissen in de dienst zijn aanmerkelik verhoogd. Er is geen getuigenis afgelegd, ofschoon die toegelaten had kunnen worden, om aan te tonen dat de municipaliteit niet in staat is om de plaatselike standaardlonen te betalen. Het is dus niet nodig om na te gaan of de handelwijze van de Volksraad op dit geschil toegepast kan worden. Het mag ook van nut zijn om er op te wijzen dat het plaatselik bouwvak-loon van 3s. 4d. per uur, alhoewel hoger dan het standaard-loon in het bouwvak in de meeste plaatsen, lager is dan in sommige plaatsen. Zo was het standaard-loon per uur voor timmerlieden volgens de laatste staten (Oktober) in Winnipeg 3s. 6½d., Toronto, 3s. 9d., San Francisco, Boston en Philadelphia 4s. 2½d., Chicago 4s. 7d. en Nieuw York en Pittsburgh 4s. 9d., met de dollar berekend tegen 4s. 2½d., wat iets minder is dan de waarde volgens de wisselkoers vandaag.

Het schijnt dus niet onredelik te zijn om op het rijkste goudveld in de wereld, en waar mannen moeten werken op een hoogte van 5600 voet en op korte afstand van de keerkring, een loon te verwachten dat 1s. 5d. per uur minder is dan het gewone loon in Nieuw York, en 5d. per uur minder dan het gewone loon in Toronto.

(4) Ook is door de municipaliteit beweerd geworden dat het verschil tussen de voorgestelde 3s. per uur en het standaard-loon van 3s. 4d. per uur aan de werknemers vergoed wordt door de bijdragen die voor hen gemaakt wordt aan het ziekefonds en het pensioenfonds en door volle betaling op vier vakantiedagen per jaar, alsook gedurende een jaarlikse vakantie van veertien dagen. Ik stem toe dat deze bijdragen in aanmerking genomen moeten worden bij het berekenen van het bedrag van het werkelike loon. Doch in de eerste plaats zijn zij van geen grote waarde voor de bouwlieden die tijdelik bij de municipaliteit werkzaam zijn en beveel ik aan dat die in hun geval afgeschaft worden en dat de gewoonte van de municipaliteit overeen moet komen met de gewoonte in het ambacht. Zij zijn echter van grote waarde in het geval van de permanente werknemers. Als men, voor de redenen aangegeven in het Meerderheidsrapport, de betaling voor jaarliks verlof weglaat, bedragen zij ongeveer 3d. per uur op het loon; doch dat moet aangenomen worden met twee voorbehoudingen. De eerste is dat als de werkman vrijwillig aftreedt na minder dan tien jaar dienst, krijgt hij alleen zijn eigen kontributies terug, zonder rente, zodat hij in werkelikheid door het stelsel verliest. De twede is dat als hij per ongeluk op zijn werk bezeerd of gedood wordt, de verantwoordelikheid van de municipaliteit onder de Wet op Werkliedenschadeloosstelling verminderd wordt met het bedrag betaald aan het pensioenfonds, zodat de municipaliteit dat geld terug krijgt. Doch de voorziening die in het municipale pensioenfonds gemaakt wordt is ongetwijfeld liberaal en waard om meer toegepast te worden, en zal ik dan ook aannemen dat deze voorrechten nog 3d. op het loon van het vaste personeel betekenen. Maar dat doet niets aan de zaak toe. De permanente staf zijn allen vertrouwbare mannen met lange dienst, hun werk moet voor een groot gedeelte gedaan worden zonder overzicht en, het wordt erkend, wordt goed uitgevoerd, zij hebben een speciale kennis opgedaan van de municipale vereisten, zij kunnen als voormannen aangesteld worden en treden somtijds als zodanig op wanneer er een groot bouwwerk ondernomen wordt en het wordt erkend dat zij een van de nodige faktors zijn om departementaal werk goed te kunnen uitvoeren. Men stemt toe dat zou men proberen om hun werk door tijdelike mannen te laten doen, het gevolg ervan een warboel zou zijn. De heer Hittinger, Senior Vice-President van de "National Federation of Building Trade Employers" in Zuid-Afrika, zegt dat het de gewoonte in het ambacht is dat deze klas mannen in het gewone bouwvak meer krijgen dan het standaard-loon, en de heer Forbes, die lid is van de Bouwmeestersvereniging, gaat hiermede akkoord en zegt dat het hogere loon wel 3d. per uur kan zijn. De heren Isaacs and Waugh zijn het eens dat deze voorrechten door de municipaliteit verleend worden in plaats van het ekstra loon dat zulke mannen in het bouwvak krijgen en klaarblijkelik is dit in het belang van de municipaliteit, daar het stelsel tengevolge heeft dat municipaal werk aaneenlopend is. In de municipale dienst is anders het standaard-kontant-loon zowel het maksimum als het minimum en de ambachtsman met 20 jaar dienst ontvangt precies hetzelfde kontant-loon als de ambachtsman die pas is begonnen te werken.

Het komt mij dan ook duidelik voor dat deze voorrechten niet een reden zijn om het municipale kontant-loon onder het standaard-loon in het ambacht te brengen, omdat zij, in het kort van geen

appreciable value to the temporary employee, and they give to the permanent employee merely the addition to his cash wage which he would receive outside in the ordinary course of the trade.

There are further objections to a contrary view. Thus:—

When this pension system was started the agreement of the municipality was that one-half of the cost should be paid by the municipality and one-half by the municipal employees. The municipal contribution has never been regarded as part of the wages, and there was originally no reduction of wages because of it. It has also never been allowed by the municipality as earnings in assessing the compensation to which an injured workman is entitled under the Workmen's Compensation Act. But the proposal is now in effect to deduct the municipal contribution from wages by a reduction of the cash wages because of it, with the result that the whole cost of the pension system, and the cost (to the extent of these reductions) of liability under the Workmen's Compensation Act would be thrown on to the workman. There are two objections to that which appear to me to come under the heading of lack of "equity." In the first place most of the permanent establishment are men of long service, some of whom have been induced to remain in the municipal service partly by the agreement of the municipality to bear half the cost of the pension system. To repudiate that agreement now and throw the whole cost of the pension system on the workman would, in my opinion, be an indefensible breach of good faith. In the second place, the proposal is an ingenious confirmation of the objection with which I have for many years been familiar on the part of workmen to schemes of profit sharing or pension proposed by employers, viz., that however plausible they might be, the intention was firstly to fetter the liberty of the workman and detach him from his fellow-workmen, and ultimately to take advantage of that to throw the whole cost of such schemes on the workman by a reduction of wages equal to the value of those privileges. It would be difficult to find a more striking illustration of the soundness of that objection than is given by these municipal proposals which confirm my view that, whilst compulsory provision for old age and invalidity is necessary in the skilled trades, it should not be controlled in any way by particular employers, although it will always have an indirect effect on wages.

(5) It has also been contended, and is in fact the basis of the municipal proposals, that all the artisans in their employment should be paid the same rate of wages. This procrustean argument is fallacious for several reasons, as procrustean methods usually are. It is not for instance applied on the mines. The chief reason for differentiation in wages is that in the building trade wages stop when work is stopped by wet weather as frequently happens, or by shortage of material as sometimes happens, whilst that is not the case in any of the other trades. In the municipal service also, as new building work is intermittent, the number of building workers temporarily employed is very much greater than in other departments, and these temporary men do not share to any appreciable extent in the pension and leave privileges which the municipality values as worth about 4d. per hour. The result of the municipal proposals would therefore be in fact that the average true wage paid to its artisans would be less in the building trade than in other trades. The importance of this is shown by the fact that even at the present time, when no serious amount of departmental building work is being done, there are 40 artisans employed temporarily in the Town Engineer's Department out of a total of 112, or a percentage of 35.71, whereas in the other departments 47 only are temporary out of a total of 354, or a percentage of 13.27 only. There is no doubt also that the building trade involves a greater liability to injury or death by accident than in many other trades, as was illustrated by one of the applicants for this Board being killed during the sittings of this Board by a fall from a roof of a building on which he was working. Whilst no one in a trade fears the customary risks of the occupation, it is obvious common-sense to insist on a wage which will enable provision to be made against the possible consequences of taking these risks, as it is also obvious common-sense to insist on working hours which will not increase the risks by fatigue. It is not a question of exhaustion. Every tennis player, for instance, knows that there is a stage at which, although he is not conscious of fatigue, his quickness and accuracy are lessened. To miss one's footing on the roof of a four-story building is a more serious matter than to miss a ball, but the reason may be the same.

(6) One of the arguments for the Council was that the wages of the municipal employees were paid out of funds supplied by the whole population of Johannesburg, "men, women, and children," that these were mainly artisans whose wages had been reduced below 3s. 4d. an hour and who worked not less than a 48-hour week, and that therefore their building employees should not be employed on better terms. No evidence was called to support that contention; and the argument is absurd because, whether all rates are or are not a burden on property, as I think they are, certainly the assessment rate is a burden on property paid directly by the owners of property, and it is only out of the assessment rate that the building workers employed by the Council are paid, apart from any special revenue collected as payment for specific services which add to the value of property. And it would obviously be indefensible if it were otherwise, since if the cost of road-making, kerbing, guttering, sewers, and water installation were paid by the general public, the result would be that, as these works obviously and admittedly add to the value of the properties concerned, the general public would plainly not only be paying rates to increase the value of house property belonging to a minority but would also be paying to house owners rents increased by the value the public

aanzienlike waarde zijn voor de tijdelike werknemer en zij de vaste werknemer alleen de verhoging van zijn kontant-loon geven die hij buiten de dienst in de gewone loop zou krijgen.

Daar zijn verdere bezwaren op een tegenstrijdige zienswijze. Aldus:—

Toen dit pensioen systeem begonnen werd was het overeenkomst van de stadsraad dat één helft van de kosten door de stadsraad zou worden betaald en één helft door de municipale employees. De municipale bijdrage werd nooit beschouwd als een gedeelte van de lonen, en daar was oorspronkelik geen vermindering van lonen om die reden. Het werd ook nooit door de stadsraad toegelaten als verdiensten in het aanslagen van kompensatie waaraan een beseerde werksman gerechtig op is, krachtens de Werklieden Schadeloosstelling Wet. Doch het voorstel is tans in werking om de municipale bijdrage af te trekken van lonen door een vermindering van de kontante lonen om die reden, met het gevolg dat al de kosten van het pensioensysteem, en de kosten (tot de omvang van deze verminderingen) van verantwoordelikheid krachtens de Werklieden Schadeloosstelling Wet, op de werksman geworpen zouden worden. Er zijn twee bezwaren tegen die welke, naar het mij schijnt, onder het hoofd vallen van gebrek aan onpartijdigheid. Ten eerste zijn meeste van het permanente establissement mannen van lange dienst, sommigen waarvan overgehaald werden om in de municipale dienst te blijven gedeeltelik door het overeenkomst van de stadsraad om helft van de kosten van het pensioensysteem te dragen. Om die overeenkomst nu te verwerpen en al de kosten van het pensioen systeem op de werksman te werpen, zou, naar mijn mening, een onverdedigbare afbreuk zijn van goede trouw. Ten twede is het voorstel een ongeveinsde bekrachtiging van het bezwaar waarmee ik voor vele jaren eigen was in het geval van werklieden tot plannen van het delen van winst of pensioen door werkgevers voorgesteld n.l. dat, hoe schoonschijnend ook zij mogen zijn, de voorneming eerstelik was om de vrijheid van de werksman te boeien en hem van zijn medewerksman te scheiden, en eindelik voordeel daarvan te nemen om al die kosten van zodanige schema's op de werksman te werpen door een vermindering van lonen gelijk aan de waarde van die voorrechten. Het zou moeilik zijn een meer treffend illustratie van de gezondheid van die bezwaren te vinden dan gegeven wordt door deze municipale voorstellen, welke mij oogpunt bekrachtigen dat, terwijl verplichtende voorzorg voor oude ouderdom en ziekelikheid nodig is in bedreven bedrijfsvakken, zou het niet bedwongen worden in enig geval door partikuliere werkgevers, hoewel het altoos een indirekte uitslag op lonen zal hebben.

(5) Het werd ook beweerd, en het is werkelik de basis van de municipale voorstellen, dat al de ambachtslieden in hun werk dezelfde schaal van lonen zouden betaald worden. Dit geforceerde argument is misleidend voor verscheidene oorzaken, zoals geforceerde methoden gewoonlik zijn. Dit wordt bijvoorbeeld niet toegepast op de mijnen. De hoofdoorzaak voor het differentiëren in lonen is dat in geval van het bouwbedrijf wordt lonen niet betaald wanneer werk stopgezet wordt door nat weder zoals menigmaal gebeurt, of door tekort aan materiaal zoals soms gebeurt, terwijl dit niet het geval is in enige andere bedrijfvakken. In de municipale dienst ook, daar nieuw bouwwerk afwisselend is, is het getal bouwlieden, tijdelik aangenomen, zeer veel groter dan in andere departementen, en deze tijdelike lieden delen niet aan enige merkbare omvang in de pensioen- en verlofvoordelen, welke de Stadsraad waardeert als omtrent 4d. per uur waard. Het gevolg van de municipale voorstellen zou derhalve werkelik zijn dat het gemiddelde ware loon aan zijn ambachtslieden betaald minder zou zijn in het bouwbedrijf dan in enig andere bedrijfsvakken. De belangrijkheid van dit wordt getoond door het feit dat zelfs ook op de tegenwoordige tijd, wanneer er geen ernstige departementele bouwwerk gedaan wordt, werken er 40 ambachtslieden tijdelik in het Departement van de Stadsingenieur uit een totaal van 112 of een percentage van 35.71, dewijl in andere departementen er maar 47 tijdelik zijn uit een totaal van 354, of een percentage van 13.27 alleenlik. Er is geen twijfel ook dat het bouwbedrijf een groter verantwoordelikheid verwikkelt tot bezering of dood door ongeluk dan in vele andere bedrijfsvakken, zoals geïllustreerd werd door dat een van de applikanten voor deze Raad gedood werd gedurende de zittingen van deze Raad door een val van een dak van een gebouwd, waarop hij gewerkt had. Terwijl geen een in een bedrijfvak de gewoonlike risiko van beroep bevreest, is het klaarblijkelike gezonde verstand om aan te dringen op een loon welke men in staat stellen voorzorg te maken tegen de mogelike gevolgen om deze risiko te nemen, zo is dit ook klaarblijkelike gezonde verstand om aan te dringen op werksuren die niet de risiko zullen vermeerderen door vermoeidheid. Het is niet een vraag van uitputting. Elk kaatsspeler, bijvoorbeeld, weet dat daar een stadium is wanneer, hoewel hij niet bewust is van vermoeidheid, zijn snelheid en juistheid vermindérd zijn. Om zijn balans op het dak van een vierverdieping gebouw te verliezen is een veel ernstige zaak dan om een bal mis te slaan, maar de oorzaak kan dezelfde zijn.

(6) Een van de argumenten van de Raad was dat de lonen van de municipale employees betaald werden uit de fondsen door de gehele populatie van Johannesburg verschaft, "mannen, vrouwen en kinderen," dat deze merendeels ambachtslieden waren, de lonen van wie verminderd werden beneden 3s. 4d. een uur en die niet minder dan 48 uur per week werken, en derhalve behoren hunne bouwlieden niet op betere termen geëmployeerd te worden. Geen getuigenis om die bewering te staven werden opgeroepen; en het argument is absurd om reden, of alle belastingen een last op eigendommen zijn of niet, en ik denk zij zijn, zekerlik is de aanslagbelasting een last op eigendommen, direkt door de eigenaars van eigendommen, en de bouwlieden door de Raad geëmployeerd worden alleenlik uit de aanslagbelasting betaald, behalve enige speciale inkomsten geïnd als betaling voor specifieke diensten, die tot de waarde van eigendommen bijdragen. En het zou klaarblijkelik onverdedigbaar zijn indien het anders was, omdat, indien de kosten van wegmaking, randsteenmaking, straatgrootmaking, riool en water installatie betaald werden door het algemene publiek, zou het gevolg geweest zijn dat, daar die werken klaarblijkelik en erkennelik tot de waarde van betrokken eigendommen bijdragen, zou het algemene publiek klaarblijkelik niet alleen belastingen betalen tot verbetering van de waarde van huiseigendommen behorende aan een minderheid, doch zou huur aan huiseigenaars betalen, vermeerderd door de waarde waarvoor het publiek zelf betaald had. Er is ook geen

had themselves paid for. There is also no obvious reason why property owners should expect to get building work done at a less wage and with longer hours in the case of the municipality than in the case of a reputable master builder. This is the more plain in view of the fact that during the past three years the municipal valuation has been increased by about £11,000,000, of which only £4,500,000 is in respect of buildings erected during that period.

(7) Akin to this last argument of the municipality is another which has more than once been suggested, viz., that wages in the building trade are excessive because the building industry is exceptionally well organized, can pass on the increased cost to the public, and is "essentially local." Mr. Councillor Taaffe, one of the representatives of the Town Council on this Board, put it thus—

> "My feeling is that the building industry, of which the municipal workers are only a handful, has got a grip on Johannesburg. My object is to show how any body of men occupying the peculiar position that the workers in the building trade do, plus the master builders, plus the architects, can by a combination enforce their will, even though they be wrong, even although it be illegal, against all others until some one or some few band themselves together and in the public interests fight them and stop it. My feeling is that the building industry, of which the municipal workers are only a handful, have got a grip on Johannesburg. My object was to show that the rate of wages which we claim to be wrong is wrong and is only what it is by force."

This view is at least comprehensive, charging as it does architects, master builders, and artisans with an illegal combination to raise wages, but it is somewhat discounted by the fact that on the other hand Mr. Councillor Fearnhead, another representative of the Town Council on the Board, says:

> "Yes I think it (the minimum wage of 3s. 4d. an hour in the building trade) is a fair wage. I do not say that it is an excessive wage."

If the building trade is exceptionally well organized, that is not a matter for regret or a reason for either reducing the wages or increasing the hours of the municipal employees, since the building worker is obviously entitled to the fruits of his capacity for intelligent organization. The industry cannot, in fact, pass on any unreasonable increase of cost to the public because in that event the public either would not build or would employ inferior builders, of whom there are many who do not observe the reputable standards of the trade. The argument arising from the absence of foreign competition has now been abandoned, and it therefore is unnecessary to discuss it; but since in the Majority Report (paragraph 7) the fact that the building trade is "essentially local" is cited as relevant to reducing wages and increasing hours in it, it is necessary to state what it means, viz., that since it is impossible to import houses from (say) China, the building trade wage is not reduced by Chinese competition, and is therefore unfair to those residents who live by making goods which are subject to Chinese competition, and therefore that the building trade wage should be reduced.

8. The second question is whether the hours of the building workers employed by the municipality should be increased from 44 to 48 hours a week.

(1) The same consideration applies to this question also, viz., that as it would be a departure from the custom of the trade and of municipal administration, the onus is upon the municipality to justify it. The customary hours of the building trade on the Witwatersrand have, for nearly four years past, been a 44-hour week, i.e. an 8-hour day with a half-holiday on Saturday. Not a single witness called for the municipality advocated that a change to 48 hours was necessary on its merits, with the possible exception of Mr. Rade, who is in charge of the main drainage construction work. Mr. Waugh, the Acting Town Engineer, said he had no objection to the 44-hour week in itself, but that the rest of the community would have to pay for it, an argument which, if valid, applies *a fortiori* to the 39-hour week of the municipal clerical staff. He stated at first that the main reason he could see was the division of the day into three shifts of eight hours each; but, as that is impossible with a working-day of 8 hours 40 minutes, Mr. Waugh is apparently an unconscious believer in the 44-hour week. Mr. Councillor Fearnhead stated that the objection was not so much as regards the building workers but as regards the consequences he feared in regard to the rest of the municipal employees. Mr. Sankey, the manager of the Power Station, put in some striking figures as to increased output, and at first said that he thought the increase from 44 to 48 hours had actually increased the output per hour, but a few minutes afterwards he said that he was not prepared to say whether that was the case or not, and that he had not investigated the thing or discovered whether the increased output was due to the increased hours or not.

(2) The 44-hour week in the building trade is not confined to the Witwatersrand, where it has prevailed for nearly four years past. Those are the practically universal hours in the building trade in Great Britain, the Dominions, and the United States of America. There are exceptions, as in the case of Ireland, to which I drew attention throughout the inquiry. It is true that recently in New South Wales a local board recommended an increase to 48 hours, except in Sydney and Newcastle, where the hours recommended were 46½, but if the altitude and climate of the Witwatersrand are taken into consideration a difference of 2½ hours a week is justified. The report of the Melbourne board referred to in paragraph 9 of the Majority Report is confined to engineering, lumber, and mixed industries, and does not apply to the building trades; and its value is apparent from the fact that, although the board was being asked to reverse previous decisions of December, 1920, as to the

du'delike reden waarom huiseigenaars konden verwachten om bouwwerk gedaan te verkrijgen tegen een lager loon en met langere uren in het geval van de stadsraad dan in het geval van een bouwmeester van stand. Het wordt te meer duidelik ziende dat gedurende de afgelopen drie jaren de municipale waardering vermeerderd werd bij omtrent £11,000,000, waarvan slechts £4,500,000 is ten opzichte van gebouwen opgericht gedurende dat tijdperk.

(7) Gelijkluidend met deze laatste argument van de stadsraad is een ander welke meer dan eens aan de hand gegeven werd n.l. dat lonen in het bouwbedrijf overmatig zijn omdat het bouwindustrie biezonderlik goed georganiseerd is, kan de vermeerderde kosten overmaken aan het publiek, en is "hoofdzakelik plaatselik." Raadslid Taaffe, een van de vertegenwoordigers van de Stadsraad op deze Raad, heeft het als volgt duidelik gemaakt—

> "Ik ben van mening dat de bouwindustrie, waarvan de municipale werklieden slechts een handjevol zijn, een vaste houding heeft op Johannesburg. Mijn doel is om te tonen hoe enig lichaam van lieden, welke de eigenaardige positie bekleedt dat de werklieden in het bouwbedrijf houden, plus de bouwmeesters, plus de architekten, hun wil door een vereniging kan aandringen, hoewel zij verkeerd mochten zijn, hoewel het onwettig mocht zijn, tegen alle anderen tot iemand of sommigen zich verenigen en in publieke belang hen bevechten en het stop zet. Ik ben van mening dat de bouwindustrie, waarvan de municipale werklieden een handjevol zijn, een vaste houding heeft op Johannesburg. Mijn doel was om te tonen dat de schaal van lonen, welke wij beweren verkeerd te zijn, verkeerd is, en is slechts wat het is bij dwang."

Dit inzicht is ten minste veelomvattend beschuldigende, zoals het doet, architekken, bouwmeesters en ambachtslieden met een onwettige kombinatie om lonen te heffen, doch het is een weinig afgetrokken door het feit dat aan de ander kant Raadslid Fearnhead, een ander vertegenwoordiger van de Stadsraad, het volgende zegt:

> "Ja, ik denk dat het (de minimum loon van 3s. 4d. per huur in het bouwbedrijf) een billike loon is. Ik zeg niet dat het een overmatig loon is."

Indien het bouwverdrijf biezonderlik goed georganiseerd is, is het niet betreurenswaardig of een reden of om de lonen te verminderen of de uren van de municipale employees te vermeerderen, omdat de bouwman klaarblijkelik gerechtigd is tot de vruchten van zijn kapasiteit voor verstandige organisatie. De industrie kan in werkelikheid niet enige onredelike vermeerdering van kosten overmaken aan het publiek, want in dit geval zou het publiek òf niet bouwen òf ondergeschikte bouwlieden employeren, waarvan er velen zijn, die niet de waardige standaard van het bedrijf naleven. Het argument voortspruitende uit de afwezigheid van uitlandse kompetitie is tans opgegeven en het is derhalve niet nodig het te bespreken; doch daar het feit dat het bouwbedrijf "hoofdzakelik plaatselik" is in het Meerderheidsrapport (para. 7) aangehaald wordt als toepasselik op vermindering van lonen en vermeerdering van uren in het, wordt het nodig te verklaren wat het betekent n.l. dat, daar het onmogelik is huizen in te voeren van (zegge) China, wordt de bouwbedrijfsloon niet verminderd door Chinese kompetitie, en het is herhalve niet recht tot die inwoners die leven op het maken van goederen welke onderhevig zijn aan Chinese kompetitie, en derhalve dat de bouwverdrijfsloon verminderd zou worden.

8. De tweede vraag is of de uren van de bouwlieden door de Stadsraad geëmployeerd vermeerderd zouden worden van 44 tot 48 uren per week.

(1) Dezelfde overweging past ook toe op deze vraag, nl. dat, daar het een afstappen van de gewoonte van het bedrijf en van municipale administratie zou zijn, rust de verplichting op de Stadsraad om het te rechtvaardigen. De gewoonlike uren van het bouwbedrijf op de Witwatersrand waren voor bijna de laatste vier jaar een 44 uur week, d.i. een 8 uur dag met een halve vakantie dag op Zaterdag. Niet een enkele getuige voor de Stadsraad geroepen pleitte dat een verandering tot 48 uren nodig was op zijn merieten, met de mogelike uitzondering van de heer Rade, die in beslag is van de hoofddrainering-konstruktiewerk. De heer Waugh, de Waarnemende Stadsingenieur, zegde dat hij geen bezwaar tegen de 44-uur week in zichzelve heeft, doch dat de rest van de gemeente daarvoor zou moeten betalen, een argument, welke, indien geldig, past toe *a fortiori* op de 39-uur week van de municipale klerkelike staf. Eerst verklaarde hij dat de hoofdoorzaak dat hij kon zien was de verdeling van de dag in drie schoften van 8 uur elk; doch, daar dit onmogelik is met een werksdag van 8 uur 40 minuten, is de heer Waugh waarschijnlik een onbewuste gelover in de 44-uur week. Raadslid Fearnhead verklaarde dat de bezwaar niet zo erg aangaande de bouwlieden was, doch aangaande de gevolgen waarvoor hij bevreesd was met betrekking tot de rest van de municipale employees. De heer Sankey, de bestuurder van de Kracht Statie, heeft een paar treffende cijfers aangaande vermeerderde opbrengst voorgelegd en zegde eerst dat hij dachte dat de vermeerdering van 44 tot 48 uur de opbrengst per uur werkelik vermeerderd had, doch een paar minuten daarna zeide hij dat hij niet bereid was te zeggen of dat het geval was of niet, en dat hij niet het onderzocht had of ontdekt of de vermeerderde opbrengst te wijten was aan vermeerderde uren of niet.

(2) De 44-uur week in het bouwbedrijf is niet beperkt tot de Witwatersrand alwaar het voor bijna de laaste vier jaar geheerst heeft. Die zijn vrijwel de algemene uren in het bouwbedrijf in Groot Brittanje, de Dominions en de Verenigde Staten van Amerika. Er zijn uitzonderingen, als in het geval van Ierland, waartoe ik de aandacht bepaald heb door het gehele onderzoek. Het is waar dat kort geleden een plaatselike Raad in Nieuw Zuid Wallis een vermeerdering tot 48 uur aanbevolen heeft, behalve in Sydney en Newcastle, waar de uren aanbevolen 46½ waren, doch indien de hoogte en klimaat van de Witwatersrand in aanmerking genomen worden, een onderscheid van 2½ uren per week is gerechtvaardigd. Het rapport van de Melbourne Raad in para. 9 van de Meerderheidsrapport naar gerefereerd is bepaald tot werktuigkundige, hout- en gemengde industrieën, en wordt niet toegepast op bouwbedrijf; en zijn waarde zichtbaar van het feit

lumber industry, and of June, 1921, as to the engineering industry, establishing a 44-hour week, the president considered it necessary to put it that the issue was one of "decreasing a recognized standard 48-hour week in Australia." These reports do not appear to me to establish that the 48-hour week has been reverted to even in the building trade in New South Wales, but even if they do the fact that the 44-hour week is the recognized custom in the building trade in such centres, as for instance Lancashire, the Clyde, Montreal, Vancouver, New York, San Francisco, and Chicago creates at least a presumption that the 8-hour day with a Saturday half-holiday is considered by many competent practical men to be the best system for the industry. In New Zealand the 44-hour week has been the custom in the building trade for many years (Mr. Torkington), and New Zealand is neither an indolent nor an unprosperous country. In London the working week is 45 hours. The obvious reason for those hours is that the work of the building worker is not only highly skilled work, but also hard physical work, and to some extent hazardous work. That it is hard work is obvious from the fact that a bricklayer laying 800 bricks a day raises and places in position with his left hand over three tons of bricks a day. Incidentally, it may be mentioned that it was agreed that the reports that bricklayers had adopted an unduly low rate of work were largely unfounded. Mr. Forbes, a member of the Master Builders' Association says: "I have read that (that bricklayers laid only 250 bricks a day) in the papers, but I do not think it occurred in practice," and it was not disputed that the men employed by the municipality have always done a fair day's work.

(3) The evidence given before this Board was certainly in favour of the 44-hour week on the merits. Mr. Bell-John, the District Engineer of the Public Works Department, did not increase his staff in consequence of the change from 48 to 44 hours, arrears had not accumulated, the 44-hour week had not caused any noticeable increase of cost, and he has never taken the alteration to 44 hours into account in his estimates of the vote he required. Mr. Isaacs, the Superintendent of Works in the Town Engineer's Department, does not think the effect of the alteration from 48 to 44 hours was appreciable or worth considering, and never allowed for it in estimating. Mr. Archer Smith, Inspector of Sewerage Works, considers a 44-hour week quite sufficient, and justifies it by the totally different conditions in which sewerage construction men work than in the other trades. Mr. Carlin, Assistant Engineer for Roads and Sewerage in the southern area, considers that eight hours in any day at his work is sufficient for both Europeans and natives. Mr. Steele, the foreman of the Water Department, considered the men should work the Trade Union hours. On the other hand, Mr. Rade, who is in charge of the main drainage construction work, says:—

> "I am rather in favour of 48 hours. I get more work done; frequently I have to get work done quickly, during the rainy season for instance; I would like frequently to work them overtime."

Most practical men would, I think, agree that it is not sound to base normal working hours on what is desirable in occasional emergencies.

(4) Whilst I am satisfied that the 8-hour day with a half-holiday on Saturday is the best system for the building trade, the evidence as to whether as much work can be done in a 44-hour week as in a 48 does not impress me much one way or the other. All the practical witnesses have said the difference of output is not appreciable, and that is probably the case. If men were working on a test probably more work would be done in a week of 48 hours than in one of 44, but working normally probably the amount of work done in the course of a year would be about as much under the one system as under the other. But if by working 48 hours one-eleventh more work is done than by working 44, it obviously follows that one-eleventh of the building trade workers will be thrown out of employment by reverting to a 48-hour week, and the present is not, in my opinion, a time for throwing men out of employment. I agree, of course, that in normal circumstances an appreciable decrease in the cost of building will lead to an appreciable increase in the amount of building work, but I do not think that that would in fact be the result on the Witwatersrand at the present time. I agree rather with Mr. Waugh that in fact the building trade flourishes when costs are high and there is plenty of money in circulation.

(5) The only argument against a 44-hour week was that other employees of the Council worked a 48-hour week, and that it was inconvenient or undesirable for a section of the municipal employees to work less. This is the same procrustean argument as was advanced as to wages. It was advanced first by Mr. Waugh, the Acting Town Engineer, who was, however, in favour of 8-hour shifts, and stated that he had no objection to the 44-hour week in itself, but only because the rest of the community would have to pay, which is an obvious fallacy. Incidentally, I do not understand why the town engineer was not called by the municipality. He was on leave, but was still in Johannesburg. Against Mr. Waugh's theoretical objection, Mr. Dowsett, who is at present filling Mr. Waugh's position whilst Mr. Waugh acts as town engineer, states that he does not think there is any practical building trouble from building workers working a 44-hour week and others, e.g. electric light fitters, working a 48-hour week, and cannot call any practical trouble to mind.

This argument for the Town Council would carry more weight if all the municipal employees had ever worked the same hours per week or per day. The clerical employees have always worked a 39-hour week. The resolution of the Town Council introducing the 44-hour week expressly excludes from it "firemen, compound managers, and shiftmen." The continuous shiftmen work an 8-hour day, whilst others now work an 8 hours 40 minutes day. In

dat, hoewel de Raad gevraagd werd vorige besluiten van Desember 1920 te herzien, aangaande houtindustrie, en van Junie 1921 aangaande de werktuigkundige industrie, een 44 uur week bevestigende, achtte de president het nodig om het voor te brengen als een vraagstuk van "een erkende standaard 48 uur week in Australie te verminderen." Deze rapporten komen mij niet voor te vestigen dat "de 48 uur week op teruggevallen is, zelfs in het bouwbedrijf in Nieuw Zuid Wallis" doch, zelfs al doen zij het, het feit dat de 48 uur week het erkende gewoonte in het bouwbedrijf in zodanige centra als bijvoorbeeld, Lancashire, de Clyde, Montreal, Vancouver, Nieuw York, San Francisco en Chicago schept ten minste een vermoeden dat de 8 uur dag met een half-vakantie dag op Zaterdag beschouwd wordt door vele bekwame praktiese lieden het beste systeem te zijn voor de industrie. In Nieuw Zeeland was de 44 uur week het gewoonte in het bouwbedrijf voor vele jaren (de heer Torkington) en Nieuw Zeeland is noch een lui noch een niet-voorspoedig land. In Londen is de werksweek 45 uur. De duidelike oorzaak voor die uren is dat het werk van de bouwman niet slechts hoog bedreven werk is maar ook harde lichamelike werk, en tot een zekere einde gevaarlike werk. Dat het harde werk is is duidlik van het feit dat een metselaar leggende 800 stenen per dag tillen op een plaatsen in positie met zijn linkerhand over drie ton stenen per dag. Toevallig kan het aangehaald worden dat het overeengekomen werd dat de rapporten dat metselaars een ongepaste lage rang van werk aangenomen hebben groteliks ongegrond gevonden werden. De heer Forbes, een lid van de Bouwmeesters Vereniging, zegt: "Ik heb het geleest (dat metselaars slechts 250 stenen per dag legde) in de kranten maar ik denk niet dat het in praktijk gebeurde," en het werd niet bestrijd dat de lieden geëmployeerd door de Stadsraad altijd een billik dagswerk gedaan hebben.

(3) De getuigenis voor deze Raad gegeven was zekerlik ten faveure van de 44 uur week op de merieten. De heer Belljohn, de Distriktsingenieur van het Departement van Publieke Werken, heeft niet zijn staf vermeerderd ten gevolge van de verandering van 48 tot 44 uren, achterstalligen hadden niet opgezameld, de 44 uur week had niet een opmerkelike vermeerdering van kosten veroorzaakt en hij heeft nooit de verandering tot 44 uren in aanmerking genomen in zijn begrotingsposten welke hij benodigde. De heer Isaacs, de Superindent van Werken in het Departement van de Stadsingenieur, beschouwt niet dat het gevolg van de verandering van 48 tot 44 uren merkbaar of overweging waard was, en heeft nooit het in acht genomen in zijn begroting. De heer Archer Smith, Inspekteur van Rioolwerken, acht een 44 uur week helemaal voldoende en rechtvaardigt het door de totale verscheidene kondities waarin rioolkonstruktie lieden werken dan in de andere bedrijfsvakken. De heer Carlin, Assistent Ingenieur voor wegen en riolen in het zuidelike terrein, beschouwt dat 8 uren in enig dag op zijn werk voldoende is voor beide blanken en naturellen. De heer Steele, de voorman van het Water Departement, dacht dat de lieden zouden werken volgens de uren van de Bedrijfsvakken Unie. Aan de andere zegt de heer Rade die in beslag is van de hoofd drainering konstruktie werk:—

> "Ik ben eerder in faveure van 48 uren. Ik verkrijg meer werk gedaan, herhaaldelik moet ik werk spoedig verrichten gedurende de regenmaanden, bijvoorbeeld; ik zou herhaaldelik hen overtijd kunnen doen werken."

De meeste praktiese lieden zouden, denk ik, overeenstemmen dat het niet zuiver is om normale werkuren te baseren op wat wenselik is in toevallige dringende gevallen.

(4) Terwijl ik tevreden ben dat de 8 uur dag met een half-vakantie op Zaterdag het beste systeem voor het bouwbedrijf is, maakt de getuigenis of daar juist zoveel werk kan gedaan worden in een 44 uur week als in een 48 uur week geen indruk op mij in enig opzicht.

Al de praktiese getuigen hebben gezegd dat het onderscheid van opbrengst niet merkbaar is, en dat is waarschijnlik het geval. Indien lieden op een toets mochten werken zou er waarschijnlik meer werk gedaan worden in een week van 48 uren dan in een week van 44, maar indien normaal gewerkt wordt zou het bedrag werk in de loop van een jaar waarschijnlik omtrent zoveel onder het ene systeem als onder het andere. Doch, indien door het werken van 48 uren één-elfde meer werk gedaan wordt dan door het werken van 44 uren, volgt het klaarblijkelik dat één-elfde van de bouwlieden uit het werk geworpen zullen worden op het terugvallen op een 48 uur week, en het tegenwoordige is niet volgens mijn mening de tijd om lieden uit het werk te werpen. Ik stem overeen, natuurlik, dat in normale omstandigheden een merkbare vermindering in de kosten van bouwen tot een merkbare vermeerdering in het bedrag bouwwerk zal leiden, doch ik denk niet dat dit in werkelikheid het gevolg zou zijn op de Witwatersrand op de tegenwoordige tijd. Ik stem eerder overeen met de heer Waugh dat het bouwbedrijf in werkelikheid floreert wanneer kosten hoog zijn en er is veel geld in cirkulatie

(5) Het enigste argument tegen de 44-uur week was dat andere employees van de Raad een 48-uur week werkten en dat het ongerieflik en onwenselik was voor een sektie van de municipale employees om minder te werken. Dit is hetzelfde geforceerde argument als welke voortgebracht werd ingeval van lonen. Het werd eerst voortgebracht door de heer Waugh, de Waarnemende Stadsingenieur, die, echter, in faveure was van 8 uur schoffen en verklaarde dat hij geen bezwaar had tegen de 44 uur week in zichzelve doch slechts omdat de rest van de gemeente zou moeten betalen, welke blijkbare onjuistheid is. Toevallig verstaan ik niet waarom de Stadsingenieur niet door de Stadsraad geroepen werd. Hij was op verlof doch nog in Johannesburg. Tegen de heer Waugh bezwaar, verklaart de heer Dowsett, die op het tegenwoordige de plaats van de heer Waugh invult terwijl de heer Waugh ageert als Stadsingenieur, dat hij niet denkt dat er enige praktiese bouwmoeilikheid is van bouwlieden werkende een 44 uur week en anderen, b.v. elektriese lichtfitters, werkende een 48 uur week en kan geen praktiese moeilikheid in gedachte roepen.

Dit argument voor de Stadsraad zou van meer waarde zijn indien al de Municipale employees ooit dezelfde uren per week of per dag gewerkt mochten hebben. De klerkelike employees hebben altoos een 39 uur week gewerkt. Het besluit van de Stadsraad de 44 uur week in werking brengende, sluit opsettelik uit "brandweerlieden, kompoundbestuurders en schoflieden." De gedurigwerkende schoflieden werken een 8 uur dag terwijl anderen werken

the printing trade linotype operators work only 43 hours, whilst hand compositors work 46, and the work of the linotype operator and the hand compositor is not only on the same premises, but is often inter-dependent. In Messrs. Wright & Boag's engineering works, engineers work 48 hours a week and carpenters 44, without friction. In the Town Engineer's Department most of the permanent staff are on maintenance work, which does not bring them into touch with the artisans of any other department. The intermixing applies only to new building work where men from the Power Station come in to put in the electric light on a 48-hour week, or on special work, such as building a refrigerator, where part of the work is building and part engineering. But where the municipality employs an outside contractor to do building work the same difficulty will continue to arise, and these proposals of the municipality inevitably mean, for the reasons already stated, that new building work will in future have to be done by outside contractors. The objection to different hours in intermixed trades will, therefore, still continue, while the hours will have been increased to 48 hours in those parts of the town engineer's work, e.g. road-making, sewerage and water installation, where there is no admixture of trades, and where it is practically common cause that a 44-hour week is reasonable. Mr. Sankey, the manager of the Gas and Electrical Department, states that no particular discontent has arisen up to the present over the 39 or 44 or 48 hour week; and Mr. Waugh states that no objection has come from others to the building workers working only a 44-hour week. I cannot help thinking, therefore, that the Town Council has been unduly influenced by the example of the railway, the mines, the Victoria Falls Power Company, and the breweries, and that its real objection to the 44-hour week in the building trade is that it is an undesirable object-lesson to the other trades outside the municipality, a matter with which the Town Council has nothing to do.

(6) In my opinion, therefore, the municipality has not shown any grounds for altering the customary hours of the trade.

9. The municipality was represented on this inquiry by, amongst others, Mr. Councillor Taaffe, who adopted the unfortunate, but not unusual, practice of making long speeches to the witnesses, and then asking them if they agreed with him. The following is an example:—

> "If he when he stops work and disorganizes the whole of the town affecting men, women, and children, even women who are lying on sick-beds, even giving birth to children, because the light goes out and the doctor cannot attend to them properly. Is the municipal employee a model employee when he does that?"

No evidence has been called to substantiate any part of this statement.

Mr. Taaffe was quite properly asked whether he would give evidence so that he might be cross-examined on these statements, and he intimated that he was prepared to do so. At the end of the inquiry he was again asked by the representatives of the employees to give evidence, but he then refused to do so. This conduct of a representative of the Council, in making offensive speeches in the form of questions, and refusing to submit himself to cross-examination, is to be regretted. It not only creates bad feeling quite unnecessarily, but it is, in my opinion, not the standard of conduct which a board such as this is entitled to expect on the part of a town councillor representing the Municipality of Johannesburg.

tans een dag van 8 uur 40 minuten. In het drukkersbedrijf werken linotype werkers slechts 43 uur terwijl hand-lettersetters 46 uur werken, en het werk van de linotype werker en de handlettersetter wordt niet slechts in hetzelfde gebouw verricht maar is dikwels onderlinge afhankelik. In de werktuigkundige werkswinkels van de heren Wright en Boag, werken ingenieurs 48 uren per week en timmerlieden 44 zonder wrijving. In het Departement van de Stadsingenieur zijn het grotere deel van de permanente staf op instandhoudingswerk, welke hen niet in aanraking brengt met de ambachtslieden van enig ander departement. De tussenmenging wordt slechts op nieuw bouwwerk toegepast, alwaar lieden van de Kracht Statie komen om elektriese licht in te zetten op een 48 uur week, of op speciale werk zoals het bouwen van een koelkelder wanneer gedeelte van het werk bouwwerk is en gedeelte werktuigkunde. Doch waar de Stadsraad een buite aannemer employeert om bouwwerk te doen, zal dezelfde moeilikheid voortblijft voor te komen, en deze voorstellen van de Stadsraad beteken noodwendig dat, voor de redenen alreeds verklaard, nieuwe bouwwerk in de toekomst door buite aannemers ondernomen zal moeten worden. De bezwaar tegen verschillende uren in gemengde bedrijven zal derhalve nog voortgaan, terwijl de uren vermeerderd zullen worden tot 48 uren in die delen van het werk van de Stadsingenieur, b.v. wegmaking, rioolmaking en water installatie alwaar geen menging van bedrijven is en waar het vrijwel gemeen is dat een 44 uur week redelik is. De heer Sankey, de bestuurder van het Departement van Gas en Elektriciteit, verklaart dat geen partikulaire ontevredenheid voorgevallen heeft tot op het tegenwoordige over de 39 of 44 of 48 uur week; en de heer Waugh verklaart dat geen bezwaar heeft van anderen gekomen tegen het feit dat de bouwlieden slechts een 44 uur week werken. Ik kan niet nalaten te denken, derhalve, dat de Stadsraad ongepast beïnvloed werd door de voorbeeld van de spoorweg, de mijnen, de Victoria Falls Power Company en de brouwerijen en dat zijn eigenlike bezwaar tegen de 44 uur week in het bouwbedrijf is dat het een onwenselike aanschouwelike voorstelling is tot andere bedrijven buiten de Stadraad, een zaak waarmee de Stadsraad niets te maken heeft.

(6) Volgens mijn mening, derhalve, heeft de Stadsraad geen oorzaak getoond voor het veranderen van de gewoonlike uren van het bedrijf.

9. De Stadsraad werd vertegenwoordigd op dit onderzoek door, onder anderen, Stadsraadslid Taaffe, die de ongelukkige doch niet ongewone praktijk volgde om lange aanspraken te maken tot getuigen en hun dan vroeg of zij met hem overeenstemmen. De volgende is een voorbeeld:—

> "Indien hij wanneer hij ophoudt met werk en de gehele stad in wanorde brengt, mannen, vrouwen en kinderen affekteert, zelfs vrouwen die op sponde liggen, zelfs baren, omdat het licht uitgaat en de dokter niet over hen behoorlik kan gaan. Is de municipale employee een voorbeeldige employee wanneer hij dit doet?"

Geen getuigenis werd geroepen om enig deel van deze verklaring te staven.

De heer Taaffe werd helemaal passend gevraagd of hij getuigenis wou afleggen zodat hem kruisvragen kan gedaan worden op deze verklaringen en hij deelde mede dat hij bereid was zulks te doen. Aan het einde van het onderzoek werd hij weer gevraagd door de vertegenwoordigers van de employees om getuigenis af te leggen, doch hij weigerde toen zulks te doen. Dit gedrag van een vertegenwoordiger van de Stadsraad, om aanstotelike aanspraken te maken in de vorm van vragen, en te weigeren om zich te laten ondervragen, is te betreuren. Het veroorzaakt niet alleen slechte en helemaal onnodige gevoelings, maar het is, volgens mijn mening, niet de standaard van gedrag dat een Raad zoals deze gerechtig is te verwachten van een Stadsraadslid, vertegenwoordigende de Stadsraad van Johannesburg.

Director of Irrigation.

Regulations framed under the provisions of sections five *and* eight *of Act No.* 28 *of* 1917 *for the allotting of Water by the Director of Irrigation to the Land within the Irrigation District and to the lands beyond the limits of the Irrigation District.*

The general principles will be as follows:—

1. The quantity of water to be let into the canal from time to time will be determined by the Director or officer acting under his orders, having regard to the immediate and future needs of the crops to be irrigated and the supply of water available in the river and storage reservoir.

2. Of such water let into the canal the respective quantities allotted for use within the irrigation district, and on lands beyond the limits of the irrigation district, whether simultaneously or by turn, will be in the proportion which the area scheduled as irrigable within the district bears to the arable area commanded by the canals beyond the district, provided that deductions may be made for areas which are not cultivated or on which rates due have not been paid.

The above quantities will be the totals as measured or estimated at the boundaries of individual holdings and in deciding what water is to pass any point, due allowance must be made for reasonable losses en route.

3. Use which in the opinion of the Director or officer acting under his orders is wasteful will not be permitted.

4. The officer acting under the orders of the Director may shut off the water from any portion of the canals in order to effect repairs. As far as possible, the general advisory committee will be consulted and reasonable notice will be given in advance.

✱ No. 294.] [15 Februarie 1923.

Hiermede wordt bekendgemaakt dat het Zijn Koninklike Hoogheid de Goeverneur-generaal behaagd heeft, overeenkomstig artikels *vijf* en *acht* van de Wet op de Olifants Rivier Besproeiingswerken, 1917, de uitvaardiging van regulaties voor de toewijzing van water door de Direkteur van Besproeiing aan de grond binnen het Besproeiingsdistrikt en aan de gronden buiten de grenzen van het Besproeiingsdistrikt, zoals hieronder, goed te keuren.

A. D. LEWIS,
Direkteur van Besproeiing.

Regulaties opgesteld ingevolge de bepalingen van artikels vijf *en* acht *van Wet No.* 28 *van* 1917 *voor de Toewijzing van Water door de Direkteur van Besproeiing aan de grond binnen het Besproeiingsdistrikt en aan de Gronden buiten de Grenzen van het Besproeiingsdistrikt.*

De algemene beginselen zijn als volgt:—

1. De hoeveelheid water welke op gezette tijden in het kanaal wordt gelaten, wordt bepaald door de Direkteur of door de op last van de Direkteur handelende beambte, waarbij gelet wordt op de ogenblikkelike en toekomstige behoeften van de te bevloeien gewassen en de hoeveelheid water welke in de rivier of in het reservoir beschikbaar is.

2. Van het aldus in het kanaal geleide water, zullen de respektieve hoeveelheden toegewezen voor gebruik, hetzij gelijktijdig of om beurten, binnen het besproeiingsdistrikt en op de gronden buiten de grenzen van het besproeiingsdistrikt, in de verhouding staan waarin de oppervlakte binnen de grenzen van het distrikt welke als besproeibaar op de lijst voorkomt staat tot de oppervlakte van het bouwland buiten het distrikt bediend door de kanalen, met dien verstande dat verminderingen kunnen geschieden ten opzichte van streken welke niet bebouwd zijn of ten opzichte waarvan de verschuldigde waterbelasting niet betaald is.

De bovenstaande hoeveelheden zijn de totalen zoals gemeten of geraamd op de grenzen van individuele hoeven en bij het vaststellen hoeveel water voorbij een gegeven punt zal stromen, wordt met redelike verliezen e nroute rekening gehouden.

3. Het gebruiken van water op een wijze welke naar mening van de Direkteur of van de op last van de Direkteur handelende beambte verkwisting is, wordt niet toegestaan.

4. De op last van de Direkteur handelende beambte kan in elk deel van de kanalen het water afsluiten om herstellingen te verrichten. Voor zover als mogelik wordt het algemeen adviserend komitee daaromtrent geraadpleegd en wordt een redelike tijd van te voren daarvan kennis gegeven.

DEPARTEMENT VAN LANDEN.

De volgende Goevernements Kennisgevingen worden voor algemene informatie gepubliceerd.

J. SOMMERVILLE,
Sekretaris voor Landen.

Departement van Landen, Pretoria.

Particulars of the Holdings :—

No. 1. Suitable for stock, and also for the cultivation of mealies, kaffir corn, etc. Would also probably grow cotton.

The successful applicant will be called upon to pay to this Department in cash, upon allotment, an amount of £50 in respect of certain wood and iron buildings and fencing erected on the lot.

No. 2 is situated on the eastern side of the Zululand Railway, north of Reserve No. 6, west of Reserve No. 4, and south of the Umsunduzi River. The land is flat, slightly undulating, fairly well watered, with boggy land on the holding and with small bushes scattered here and there. The veld is sour, but, when used to it, the cattle do well on it.

The following special clause will be inserted in the leases in respect of Nos. 1 and 2 :—

In the event of buildings of brick or stone or other improvements of a permanent nature having been made by natives heretofore residing on any part of the allotted or leased lands in Zululand, the lessee shall, in case such natives are removed from the allotted or leased lands at his instance, be bound to compensate them for such improvements. If such natives have planted crops (such as sugar, wattles, and the like) which require more than a year to reach maturity, the lessee shall have the option of giving such natives not less than five months' notice in writing and compensating them for the value of such crops at the time of the expiry of such notice or of allowing them to retain the land until they are able to cut such crops and dispose of them at maturity.

Any dispute which may arise in respect of the amount of compensation or otherwise shall be referred to the magistrate for decision.

No. 3. Suitable for horses, cattle, and sheep ; the whole farm is good for grazing and it is just possible to grow sufficient feed to carry the stock through the winter months. Potatoes and root crops should do well ; the extent of the arable land is about 80 acres. The following improvements have been effected, and the value thereof has been added to the purchase price : wood and iron house, outbuildings, and fencing. The holding is at present leased on monthly tenure, and the temporary lessee will submit an application therefor.

General Conditions and Remarks :

In the event of the Government being required, in terms of the Fencing Act, No. 17 of 1912, or any amendment thereof to contribute towards the cost of fencing the boundaries or any part thereof, of any of the holdings advertised in this notice, or to accept liability for the payment of such contribution prior to the registration of the lease, the successful applicant shall, on allotment being made to him, assume liability for the payment of such contribution. The amount of such contribution shall be paid by the allottee to the Government in cash, or at the option of the allottee it may be added to the valuation of the holding, in which case the rental payments and instalments of purchase price shall be increased accordingly. The successful applicants for any of the holdings on which the boundaries or part thereof are fenced shall accept liability under the Fencing Act, 1912, for any amounts which may be claimed by adjoining owners in terms of the said Act.

Biezonderheden van Hoeven :—

No. 1. Geschikt voor vee en ook voor het verbouwen van mielies, kafferkoren, enz. Er zal waarschijnlik ook katoen kunnen groeien. De inkomende huurder zal bij toekening dit Departement in kontant geld moeten betalen een som van £50 voor zekere gebouwen van hout en ijzer en heiningen die op de plaats opgericht zijn.

No. 2. Ligt ten oosten van de Zoeloeland spoorweg, ten noorden van Reserve No. 6, ten westen van Reserve No. 4 en ten zuiden van de Umsunduzirivier. Het land is vlak, enigszins golvend, tamelik waterrijk met moerasachtige grond op de hoeve en met kleine bossen hier en daar verspreid. Het veld is zuur maar indien beesten er eerst aan gewend zijn kunnen zij er goed aarden.

In de huurkontrakten ten aanzien van Nos. 1 en 2 te worden uitgegeven zal de volgende klausule worden opgenomen :—

Ingeval gebouwen van bakstenen of klippen of andere verbeteringen van blijvende aard door naturellen, die tot nu toe op een gedeelte van de in Zoeloeland uitgegeven of verhuurde gronden hebben gewoond, mochten zijn tot stand gebracht, dan zal de huurder verplicht zijn, ingeval zulke naturellen op zijn verzoek van de uitgegeven of verhuurde gronden worden verwijderd, om hen voor zodanige verbeteringen vergoeding te betalen. Indien zulke naturellen de grond beplant hebben met gewassen (zoals suiker, bastbomen en dergelijke), welke langer dan een jaar nemen om tot rijpheid te geraken, dan zal de huurder de keuze hebben om die naturellen minstens vijf maanden vooruit schriftelik kennis te geven en hen vergoeding te betalen voor de waarde van zodanig gezaaide bij het verstrijken van zodanige kennisgeving, of om hen toe te staan de grond te behouden tot tijd en wijle zij in staat zijn dat gezaaide te snijden en zodra het rijp is te verkopen.

Enig dispuut, dat mocht ontstaan ten opzichte van het bedrag van de vergoeding of anderszins, zal naar de magistraat worden verwezen om te worden beslist.

No. 3. Geschikt voor paarden, beesten en schapen ; de gehele plaats is geschikt voor weiveld en het is misschien mogelik er genoeg voer te verbouwen om het vee door de wintermaanden te brengen. Aardappels en wortelplanten zouden er goed kunnen aarden. Het bouwland van deze plaats is ongeveer 80 akkers groot. De volgende verbeteringen zijn aangebracht en de waarde daarvan is bij de koopprijs gevoegd : Een huis van hout en ijzer, buitengebouwen en omheining. Het perceel is tegenwoordig verhuurd onder een maandeliks huurkontrakt en de tijdelike huurder zal er een applikatie voor inzenden.

Algemene Voorwaarden en Opmerkingen—

Ingeval het Goevernement, overeenkomstig de Omheiningswet, No. 17 van 1912, of enige wijziging daarvan, tot de kosten van de omheining van de grenslijnen, of enig deel daarvan, van de hoeven in deze kennisgeving geadverteerd, zou moeten bijdragen of voor de betaling van zodanige bijdrage aansprakelikheid op zich zou moeten nemen vóór de registratie van het huurkontrakt, dan zal de suksesvolle applikant, bij de toekenning van een hoeve aan hem de aansprakelikheid voor de betaling van zodanige bijdrage aanvaarden. Het bedrag van zodanige bijdrage moet door de persoon aan wie de plaats wordt toegekend in kontanten aan het Goevernement worden betaald of kan naar verkiezing van de persoon aan wie het eigendom is toegekend, worden gevoegd bij de waardering van de hoeve, in welk geval de bedragen van de huur en paaiementen van de koopprijs dienovereenkomstig zullen worden verhoogd. Geslaagde applikanten voor enige van de hoeven, waarvan de grenslijnen of gedeelten daarvan omheind zijn, zullen aansprakelikheid moeten aanvaarden, overeenkomstig de Omheiningswet van 1912, voor enige bedragen welke door de eigenaren van aanliggende eigendommen, krachtens die wet, geëist mogen worden.

The lease to be issued will contain conditions relative to residence, improvements, fencing, minerals, outspans, roads, and such other conditions as are usually inserted in agricultural leases granted under the Land Settlement Act, No. 12 of 1912, as amended by Acts Nos. 23 of 1917, 28 of 1920, and 21 of 1922.

The Department has made every effort to render as accurate as possible the information given in this notice, but will not be responsible for any inaccuracies should such exist.

All applications must be submitted on the prescribed form.
