The consumer shall notify the licensee in writing of the maximum demand in kilovolt amperes (hereinafter referred to as the "notified maximum demand") for which the consumer requires the licensee to provide, and the consumer shall not be entitled to a supply of electricity in excess of the notified maximum demand.

Reasonable notice shall be given from time to time, in writing by the consumer to the licensee of any increase in the notified maximum demand and of the date upon which such increase is required, and from the date upon which the increased supply is made available, the notified maximum demand shall be increased accordingly.

Provided in the event of the maximum demand supplied being increased in any year by reason of one or more increases in the notified maximum demand taking place in such year, then the periods prior to and subsequent to such increase or increases in the notified maximum demand becoming of force shall be treated separately, and, instead of the accounts for that year being rendered on the basis of he maximum demand supplied for the year as a whole, they shall be rendered on the basis of the maximum demands supplied for the respective periods during which the various notified maximum demands are in force.

3. Should the maximum demand supplied be less than the notified maximum demand, the licensee shall be entitled to recover from the consumer a minimum payment calculated at the rate of £9 per annum for each kilovolt ampere of the notified maximum demand, in lieu of the maximum demand charge payable in terms of Clause 1 (*b*) hereof.

4. Subject to the provisions of Section 26 of the Act, the standard prices shall be applicable—

(*a*) to a supply of three-phase alternating current at a periodicity of 50 cycles per second; and

(*b*) to consumers whose notified maximum demand is 40 kilovolt amperes or over.

The charges to consumers whose notified maximum demand is less than 40 kilovolt amperes shall be fixed by arrangement between the licensee and the consumer, subject to the approval of the Board.

5. All charges payable by the consumer shall be paid monthly.

6. (*a*) "Maximum demand" means the highest load in kilovolt amperes supplied by the licensee to the consumer during thirty consecutive minutes in each year, provided that where one or more increases in the notified maximum demand takes place in any year, and the periods during which there is a variation in the notified maximum demand are treated separately, as provided by Clause 2 hereof, then "maximum demand" shall, in respect of each such period, mean the highest load in kilovolt amperes supplied by the licensee to the consumer during thirty consecutive minutes in each such period.

(*b*) "Notified maximum demand" means the highest load in kilovolt amperes during thirty consecutive minutes, for which the Commission has been notified by the consumer to provide.

(*c*) "Year" means calendar year.

SECOND SCHEDULE.

GENERAL CONDITIONS GOVERNING THE INSTALLATION, EQUIPMENT, AND USE OF CONSUMERS' PLANT.

1. The apparatus of the consumer shall be of good design and construction, properly installed and maintained by the consumer, and shall in all respects comply with any statutory or other regulations or by-laws in force from time to time governing the use of electricity.

2. The consumer shall, if and when required to do so by the licensee, provide and maintain a sub-station or sub-stations where necessary, of a design and in a position to the reasonable approval of the licensee. Subject to the consent of the consumer, which shall not be unreasonably withheld, the sub-stations and the apparatus of the licensee therein may be used by the licensee in conjunction with the general supply.

3. The consumer shall provide efficient switchgear and apparatus to the approval of the licensee for the protection of the apparatus of the licensee and the installation of the consumer against overloads, faults and lightning on the consumer's installation.

4. The consumer shall so use the supply as not to interfere with an efficient and economical supply to other consumers.

5. In the event of a consumer not complying with any of the foregoing conditions, the licensee may discontinue the supply, but the supply shall be restored as soon as the cause for discontinuance has been remedied.
