(b) if at the commencement of this Act he or his predecessor in title was lawfully abstracting water from the area comprised within the limits of the works by means of irrigation works then in existence, shall be entitled without permit to continue to abstract from the said area, whenever the water is available, the amount of water such owner or his predecessor in title was so abstracting at the commencement of this Act; and if such amount was less than a quantity of water calculated at one-fifth of a cubic foot of water per second for every mile of river frontage of such riparian land owned by him, he shall be entitled on application to the issue to him of such a permit authorizing him to abstract the difference whenever the water is available.

(3) Every owner of land riparian to the storage area of the works constructed by the Rand Water Board shall be entitled on application to the issue to him of such a permit authorizing him to abstract whenever the water is available, such an amount of water as the extraordinary water court referred to in section *fourteen* of Act No. 18 of 1914 may determine on application to such court:

6. (1) Behoudens die bepalings van hierdie Wet, kan die Permitte Minister aan enigeen ook aan die Suid-Afrikaanse Spoorweë en Hawensadministrasie 'n permit uitrek, wat die besitter magtig om, onderworpe aan bepalings en voorwaardes deur die Minister vas te stel, 'n bepaalde hoeveelheid van die waters wat die omvang van die werke bevat, wanneer dit beskikbaar is, te neem en vir primêre, sekondêre, tersiêre of enige andere doeleinades op enige grond, of dit oewergrond aan die Vaalrivier of sy syriviere is of nie, en of dit binne of buite die opvangterrein van die Vaalrivier is, te gebruik.

(2) Elke eienaar van grond, wat oewergrond aan die Vaalrivier of sy syriviere binne die omvang van die werke is, uitgesonderd grond wat oewergrond is aan die bewaringsgebied van die werke aangelê deur die Rand Waterraad—

(a) is, tensy hy of sy regsvorsteller ten tyde van die inwerkingtreding van hierdie Wet wettiglik deur middel van alsdan bestaande besproeiingswerke water uit die gebied begrepe binne die omvang van die werke uitgehaal het, op aansoek geregtig op die uitreiking aan hom van so 'n permit, wat hom magtig om, in plaas van sy redelike aandeel in die normale stroming, 'n hoeveelheid water uit vermelde gebied uit te haal, wanneer die water beskikbaar is, bereken op een-vyfde kubieke voet water per sekonde vir elke myl oewerlengte begrepe in sodanige oewergrond waarvan hy eienaar is;

(b) indien hy of sy regsvorsteller ten tyde van die inwerkingtreding van hierdie Wet wettiglik deur middel van alsdan bestaande besproeiingswerke water uit die gebied begrepe binne die omvang van die werke uitgehaal het, kan sonder permit aanhou om uit vermelde gebied, wanneer die water beskikbaar is, die hoeveelheid water uit te haal, wat bedoelde eienaar of sy regsvorsteller ten tyde van die inwerkingtreding van hierdie Wet uitgehaal het: en in geval daardie hoeveelheid water minder was dan 'n hoeveelheid water bereken op een-vyfde kubieke voet water per sekonde vir elke myl oewerlengte begrepe in sodanige oewergrond waarvan hy eienaar is, is hy op aansoek geregtig op die uitreiking aan hom van so 'n permit, wat hom magtig om, wanneer die water beskikbaar is, die verskil uit te haal.

(3) Elke eienaar van grond, wat oewergrond is aan die bewaringsgebied van die werke deur die Rand Waterraad aangelê is, op aansoek geregtig op die uitreiking aan hom van so 'n permit, wat hom magtig om, wanneer die water beskikbaar is, 'n hoeveelheid water uit te haal wat die buitenewone waterhof bedoel in artikel veertien van Wet No. 18 van 1914, na applikasie aan daardie hof, mag vasstel:

Met dien verstande dat iedereen, wat ten tyde van die inwerkingtreding van hierdie Wet wettiglik deur middel van alsdan bestaande besproeiingswerke water uit bedoelde bewaringsgebied uithaal (en elke regsvorsteller van so 'n persoon), sonder permit kan aanhou om uit bedoelde bewaringsgebied, wanneer die water beskikbaar is, die hoeveelheid water uit te haal, wat hy aldus ten tyde van die inwerkingtreding van hierdie Wet uithaal of geregtig is om uit te haal.

(4) 'n Permit ingevolge hierdie Wet uitgereik is verbonden aan die grond of onderneming ten opsigte waarvan dit uitgereik is, en, solank dit van krag bly, is dit ter beschikking van 'n regsvorsteller van die persoon aan wie dit uitgereik was.

(5) Die uithaal van surplus water uit dele van die Vaalrivier en sy syriviere, wat geleë is binne die bewaringsgebied van die werke aangelê deur die Rand Waterraad of bokant daardie gebied dog onderkant die boonste dam, word nie deur 'n kragtens hierdie Wet uitgereikte permit veroorloof nie, behalwe terwyl genoeg surplus water uit die boonste dam uitgelaat word, spesiaal om aan die permithouer die hoeveelheid water te verskaf wat kragtens die permit hy geregtig is om uit te haal.

(6) Die Minister is nie bevoeg om permitte uit te reik nie vir die uithaal van surplus water uit dele van die Vaalrivier en sy syriviere, wat geleë is binne die bewaringsgebied van die werke aangelê deur die Rand Waterraad, behalwe vir sekondêre gebruik, tensy die hele hoeveelheid water, waarop die Rand Waterraad ingevolge die voorskrifte van artikel ag geregtig is, uitgehaal word of as 'n reserwe vereis word of deur die

or is required for reserve or has been disposed of by it or unless the Rand Water Board is unwilling to dispose of or allow to be abstracted and used upon terms and conditions approved of by the Minister any water which it is entitled to dispose of or allow to be abstracted and used in accordance with the provisions of paragraph (b) of section eight.

(7) The powers conferred by any permit issued by the Minister under this section shall be exercised in such a manner that the physical, chemical or biological condition of the water to which the Rand Water Board is entitled is not prejudicially affected.

Rates and charges.

7. The Minister may assess and recover rates on land authorized (by permit or otherwise) to be irrigated with water abstracted or supplied from the works or from within the limits of the works, or he may assess and recover charges for water authorized (by permit or otherwise) to be abstracted or supplied from the works or from within the limits of the works, or he may assess and recover both such rates and such charges:

Provided that no rate or charge shall be assessed or recovered in respect of water which any person is entitled to abstract in accordance with the provisions of sub-section (2) or (3) of section six, or in respect of such additional quantity of water as the Minister may by permit authorize any such person to abstract for the irrigation of not more than one hundred morgen of land.

Rights of Rand Water Board to water.

8. In pursuance of the agreement entered into between the Government of the Union and the Rand Water Board and set out in the Second Schedule to this Act, and in consideration of the payment by the Rand Water Board to the Government of the sum of two hundred and forty thousand pounds, the Rand Water Board shall, in addition to the quantity of water it is empowered to abstract from the Vaal River under the provisions of Act No. 18 of 1914, be authorized and entitled, free of any rates or other charges—

(a) to abstract from the storage area of the works constructed by it and from the upper dam, and take, convey, transmit and supply in a potable or non-potable condition, within the limits of supply as defined in the Rand Water Board Statutes 1903-1933, or as may be determined from time to time in accordance therewith, a quantity of water which, calculated over a period of twelve calendar months, shall not exceed eighty thousand five hundred and seventy acre-feet (in this calculation no account shall be taken of water returned directly to the Vaal River); and

(b) to abstract from such storage area and such dam, and dispose of and deliver for use, or to allow to be so abstracted and used, in a potable or non-potable condition, beyond such limits of supply, any water which it is entitled to abstract under paragraph (a), and which it does not require for supply within such limits: Provided that before the Rand Water Board disposes of, or allows to be abstracted and used, any water in pursuance of the powers conferred upon it by this paragraph, the terms and conditions of such disposal or permission shall be first approved of by the Minister.

Ratification of agreement between Government and Rand Water Board.

9. The said agreement is hereby ratified and confirmed, and all powers and authorities necessary for giving effect to the terms thereof are hereby conferred upon the Minister and the Rand Water Board.

Determination of normal flow at certain places.

10. (1) For the purposes of this Act, the normal flow of the Vaal River at the wall of the upper dam is fixed at two hundred and sixty cubic feet per second.

(2) Nothing in this Act contained shall affect the determination made by the extraordinary water court constituted in accordance with the provisions of section fourteen of Act No. 18 of 1914 of the normal flow of the Vaal River for the purposes of that Act, as set forth in the judgment delivered by that court on the nineteenth day of May, 1916.

Duty of Government to release water from its works.

11. (1) The Minister shall cause to be released from the upper dam the actual flow as determined in accordance with sub-section (2) of this section, whenever such actual flow does not exceed the normal flow as fixed by sub-section (1) of section ten.

(2) For the purposes of this Act, the actual flow of the Vaal River at the wall of the upper dam shall be taken to be the

Rand Waterraad afgestaan is of tensy die Rand Waterraad nie gewillig is om water wat hy geregtig is om af te staan of toe te laat om uitgehaal en gebruik te word ingevolge die bepalings van paragraaf (b) van artikel agt, af te staan of toe te laat om uitgehaal en gebruik te word nie op terme en voorwaardes goedgekeur deur die Minister.

(7) Die bevoegdhede verleen deur 'n permit, wat kragtens hierdie artikel deur die Minister uitgereik is, word op so 'n wyse uitgeoefen dat die fisiese, chemiese of biologiese toestand van die water waarop die Rand Waterraad geregtig is, nie op 'n nadelige wyse beïnvloed word nie.

7. Die Minister kan belastings vasstel en invorder op grond, die besproeiing waarvan met water, wat uit die werke of uit die omvang van die werke uitgehaal of verskaf is, deur permit of andersins veroorloof is, of hy kan foote vasstel en invorder ten opsigte van water, die uithaal of verskaffing waarvan uit die werke of uit die omvang van die werke deur permit of andersins veroorloof is, of hy kan beide sodanige belastings en sodanige foote vasstel en invorder:

Met dien verstande dat geen belasting of fooi vasgestel of ingevorder word nie ten opsigte van water, wat enigeen ingevolge die bepalings van sub-artikel (2) of (3) van artikel ses geregtig is om uit te haal, of ten opsigte van 'n ekstra hoeveelheid water wat die Minister deur permit so 'n persoon mag magtig om uit te haal vir besproeiing van hoogstens honderd morg grond.

8. Ter uitvoering van die ooreenkoms aangegaan tussen die Unie-Regering en die Rand Waterraad, 'n vertaling waarvan opgemaak is in die Tweede Bylae tot hierdie Wet, en met die oog op die betaling deur die Rand Waterraad aan die Regering van die bedrag van tweehonderd-en-veertigduisend pond, word die Rand Waterraad gemagtig en is hy geregtig om, behalwe die hoeveelheid water wat hy ingevolge die bepalings van Wet No. 18 van 1914 uit die Vaalrivier kan uithaal, en sonder betaling van belastings of ander vorderings—

(a) uit die bewaringsgebied van die werke deur hom aangelê en uit die boonste dam 'n hoeveelheid water wat, bereken oor 'n tydperk van twaalf kalendermaande, tagtigduisend vyfhonderd-en-seentig akkervoet nie te bove gaan nie (by hierdie berekening word water, wat direk in die Vaalrivier teruggestort word, nie in aanmerking geneem nie), uit te haal en binne die verskaffingsterrein, soos omskrywe in die Rand Waterraad Statute, 1903-1933, of soas dié van tyd tot tyd daarvolgens vasgestel mag wees, in 'n drinkbare of ondrinkbare toestand te neem, lei, voer en verskaf; en

(b) uit bedoelde bewaringsgebied en bedoelde dam water wat hy kragtens paragraaf (a) geregtig is uit te haal, en wat hy nie nodig het nie vir verskaffing binne bedoelde verskaffingsterrein, uit te haal en buite bedoelde verskaffingsterrein in 'n drinkbare of ondrinkbare toestand af te staan en vir gebruik te lewer, of toe te laat dat dit aldus uitgehaal en gebruik word: Met dien verstande dat voor die Rand Waterraad, by uitoefening van die magte deur hierdie paragraaf aan hom verleent, water afstaan of toelaat dat water uitgehaal en gebruik word, die terme en voorwaardes waaronder dit afgestaan word, of waaronder toegelaat word dat dit uitgehaal en gebruik word, eers deur die Minister goedgekeur moet word.

9. Die vermelde ooreenkoms word hiermee bekratig en bevestig, en alle bevoegdhede en gesag wat vereis mag wees om die ooreenkoms uit te voer word hiermee aan die Minister en aan die Rand Waterraad verleent.

10. (1) Vir toepassing van hierdie Wet, word die normale stroming van die Vaalrivier by die wal van die boonste dam vasgestel op tweehonderd-en-sestig kubieke voet per sekonde.

(2) Die bepalings van hierdie Wet maak geen inbreuk nie op die vasstelling gedaan deur die buitengewone waterhof ingestel ingevolge artikel veertien van Wet No. 18 van 1914, van die normale stroming van die Vaalrivier vir toepassing van daardie Wet, soas uiteengesit in die uitspraak deur daardie hof gegee op die neentiende dag van Mei 1916.

11. (1) Die Minister moet die werklike stroming, soas ingevolge sub-artikel (2) van hierdie artikel vasgestel, uit die boonste dam uitlaat, wanneer bedoelde werklike stroming nie die normale stroming, soas deur sub-artikel (1) van artikel tien bepaal, te bove gaan nie.

(3) Subject to the provisions of this Act and to the obligations imposed upon the Government of the Union by the said agreement, the Minister shall cause to be passed through the diversion weir so much water as is necessary to supply to the Kimberley Municipality as the successor to the rights conferred upon the Kimberley Waterworks Company, Limited, by the Ordinance No. 12 of 1880 (Griqualand West) and Act No. 5 of 1906 (Cape of Good Hope) and to the owners of land riparian to the Vaal River below the diversion weir down to the junction of the said river with the Orange River the quantity of water which the said Municipality and the said owners are entitled to abstract from the Vaal River and which is required by the said Municipality and the said owners, and in addition, he shall, if requested by the Kimberley Municipality to do so, cause to be passed down the Vaal River at the diversion weir a continuous flow of one thousand cubic feet per second for a period of twenty-four hours once in every period of three months commencing on the first day of January, the first day of April, the first day of July or the first day of October in every year: Provided that if the water so passed through is not sufficient to maintain the water at not less than one foot below the crest level of the weir referred to in section one of Act No. 5 of 1906 (Cape of Good Hope), the Minister shall, subject to the provisions of this Act and to the obligations imposed upon the Government by the said agreement, cause to be passed down from the diversion weir sufficient water to maintain the water at the said level: Provided further that whenever there is not sufficient water available for the purposes of this sub-section, no water shall be diverted from the diversion weir into the main canal as described in paragraph 3 of the First Schedule to this Act.

Powers and duties of Rand Water Board as to storage of water in and release of water from its works.

(2) For the purposes of this section, the actual flow of the Vaal River at any given time shall be taken to be the actual flow of the said river at the wall of the upper dam at that time as determined under sub-section (2) of section eleven, less five cubic feet per second, and less the amount of normal flow lawfully being abstracted from the Vaal River at that given time above the storage area of the works constructed by the Rand Water Board under Act No. 18 of 1914 but below the upper dam, plus the actual flow at that given time of the Zuikerboschrand River, the Klip River (Transvaal), the Rietspruit and the Taaboschspruit, where these streams enter the said storage area.

Acquisition of land or servitudes by consent.

13. (1) If land, or a servitude over land is, in the opinion of the Governor-General, required in connection with the works or in connection with any settlement which is supplied or which the Minister proposes should be supplied with water from the works, the Governor-General may enter into an agreement with the owner of that land for the acquisition of that land or that servitude.

(2) Whenever the Governor-General has by agreement acquired any such servitude, the Minister may cause the agreement to be produced to a Water Court, and thereupon such court may make the agreement an order of court, notwithstanding the fact that the parties thereto have not appeared before it; and registration of the servitude so acquired shall be effected in accordance with the regulations made under the Irrigation Act or under this Act.

(1) As grond, of 'n serwituit op grond, volgens mening van die Goewerneur-generaal, vereis word in verband met die werke of in verband met 'n nedersetting wat met water uit die werke voorsien word, of wat die Minister voornemens is om te laat voorsien met water uit die werke, kan die Goewerneur-generaal 'n ooreenkoms tot verkryging van daardie grond of daardie serwituit met die eienaar van daardie grond aangaan.

(2) Wanneer die Goewerneur-generaal by wyse van ooreenkoms so 'n serwituit verkry het, kan die Minister die ooreenkoms aan 'n water hof doen oorle, en daarop kan bedoelde hof die ooreenkoms tot 'n bevel van die hof verhef, al het die kontraktante nie voor die hof verskyn nie; en registrasie van die aldus verkreeë serwituit geskied in ooreenstemming met die regulasies kragtens die Besproeiingswet of kragtens hierdie Wet uitgevaardig.

DEED OF AGREEMENT.

Deed of agreement made between the Honourable Deneys Reitz in his capacity as the Minister of Lands of the Union of South Africa and as such representing the Government of the Union in its Department of Lands (hereinafter referred to as "the Government") of the one part, and the Rand Water Board (hereinafter referred to as "the Board") constituted and incorporated in accordance with the provisions of the Rand Water Board Statutes 1903 to 1933 (hereinafter referred to as "the Statutes") herein represented by Sidney Alleyne van Lingen, the Chairman of the Board, he being duly authorized thereto by virtue of a Resolution passed at a Meeting of the Board held at Johannesburg on the 13th day of January, 1934, of the other part.

1: In the interpretation of this Agreement, unless contrary to the context, any word or expression to which a meaning has been assigned in the Irrigation and Conservation of Waters Act, 1912, has the same meaning and the following words and expressions have the following meanings respectively:—

"Board's storage area" means the area in which the Board is empowered to impound and store water in accordance with the provisions of Act No. 18 of 1914;

"Board's Barrage" means the barrage constructed by the Board in accordance with the provisions of Act No. 18 of 1914;

"Government Dam" means the dam to be constructed by the Government on the Vaal River;

"Twelve monthly period" means a period of twelve months beginning on the 1st April in any year and terminating on the 31st March in the following year.

2. Unless prevented by circumstances beyond its control, the Government undertakes before releasing any surplus water from its dam for any other purpose:—

(a) To maintain the water level in the Board's storage area at not less than R.L. 4,664.08 or 24 feet above the sills of the gates of the Board's barrage;

(b) To impound and store in the Government dam exclusively for the Board during each twelve monthly period a quantity of water calculated in acre-feet in accordance with the following formula (hereinafter referred to as "the said formula"):

$$Q = \frac{1,600 (D - 10) (12 - M)}{12}$$

Where—

"Q" represents the quantity of water in acre-feet;

"M" represents the number of months and/or any fraction of a month elapsed as from the commencement of the twelve monthly period;

"D" represents in million gallons per day the capacity of the Board's plant and pipelines to abstract water from the Vaal River together with such water as is required by persons whom the Board has authorized to take water from the Board's storage area and of which the Board has advised the Director in accordance with the provisions of Clause 3 hereof: Provided that in no circumstances shall the quantity of water represented by "D" exceed seventy (70) million gallons per day.

3: For the purpose of determining the quantity of water which the Government shall impound and store for the Board at the commencement of the next twelve monthly period the Board shall, on or before the 1st September preceding such twelve monthly period, advise the Director in writing of the number of million gallons per day which is to be substituted for "D" in the said formula, and shall, at the same time, give the Director such information as may be necessary to enable him to examine and check its correctness.

4: In order to ensure as far as possible that the quantity of water represented by "Q" on the 1st April in each and every year shall be in the Government dam on that date the Government agrees that in addition to the quantity of water calculated in terms of Clause 2 hereof, it shall as and from the 1st October in each and every year impound and store for the Board fifty per cent. (50%) of the surplus water entering the Government dam until the quantity of water represented by "Q" as at the 1st April following is stored and impounded on behalf of the Board, and shall continue to impound and store surplus water in order to maintain such quantity until the 1st April on which date in any case all the water held in the Government dam up to the quantity of water represented by "Q" as above shall be stored in the said dam exclusively for the Board.

5. The Board shall at all times have the right:—

(a) To use any water released by the Government from the Government dam for the purpose of developing such power as it may be entitled to develop and to construct, either in the bed of the Vaal River or in the neighbourhood thereof, such works as may be necessary for this purpose;

(b) To transmit any power which it may so develop to any of its Pumping Stations or other works.

6. The Government shall not be in any way liable to the Board for damages or otherwise should the water so released at any time be insufficient to enable the Board to develop power as hereinbefore provided, or be released in a manner which would prevent the Board developing such power, but it shall in so far as is convenient and subject to its own requirements, discharge the water from its dam through the plant to be erected by the Board.

7. The Government agrees that in designing its dam it will consult with the Board in order that in so far as is convenient and subject to the requirements of the Government such provisions may be made as the Board requires to enable it to develop power. Any cost incurred by the Government at the request of and in agreement with the Board in making such special provisions, shall be borne by the Board.

Tweede Bylae.

AKTE VAN OOREENKOMS.

Aangegaan tussen die Edelbare Denys Reitz in sy hoedanigheid as Minister van Lande vir die Unie van Suid-Afrika, en as suks die Regering van die Unie in sy Departement van Lande verteenwoordigende (hierin later „die Regering” genoem) ter ene syde, en die „Rand Water Board” (hierin later „die Raad” genoem) ingestel en ingelyf luidens die bepalings van die Rand Waterraad Statute, 1903-1933 (hierin later „die Statute” genoem), hierin verteenwoordig deur Sydney Allelyne van Lingen, Voorsitter van die Raad, hy daartoe gemagtig synde kragtens 'n besluit op 'n vergadering van die Raad te Johannesburg op die 13de dag van Januarie 1934 aangeneem, ter andere syde.

(1) By die interpretasie van hierdie ooreenkoms, tensy in stryd niet die samehang, sal enige woord of uitdrukking waaraan 'n betekenis toegeken word in die Besproeings- en Waterbewaringswet, 1912, dieselfde betekenis behou, en die volgende woorde en uitdrukings het onderskeidelik die volgende betekenis—

- „Raad se versamelterrein” beteken die terrein waarin die Raad gemagtig is om water op te gaan en te versamel luidens die bepalings van Wet No. 18 van 1914;
- „Raad se barrage” beteken die barrage deur die Raad luidens die bepalings van Wet No. 18 van 1914 opgerig;
- „Regeringsdam” beteken die dam deur die Regering in die Vaalrivier opgerig te word;
- „Twaalfmaandelikse tydperk” beteken 'n tydperk van twaalf maande wat op 1 April in enige jaar begin, en op 31 Maart in die volgende jaar eindig.

(2) Tensy deur omstandigheide buite sy beheer verhinder, onderneem die Regering, voordat enige surplus water vir enige ander doel uitgelaat word—

- (a) om die waterhoogte in die Raad se versamelterrein op nie minder dan R.L.4,664.08 of 24 voet bo die hekkebank van die Raad se barrage te behou;
- (b) om uitsluitlik vir die Raad in die Regeringsdam gedurende elke twaalfmaandelikse tydperk 'n hoeveelheid water op te gaan en te bewaar in akkervoete gereken luidens die volgende formulier (hierin later „die gemelde formulier” genoem),

$$Q = \frac{1,600 (D - 10) (12 - M)}{12}$$

Waar —

- „Q” die hoeveelheid water in akkervoete voorstel.
- „M” die aantal maande en/of gedeelte van 'n maand verstreke sedert die begin van die twaalfmaandelikse tydperk voorstel.
- „D” die kapasiteit in miljoen gellings per dag voorstel, van die Raad se toestel en pyplyn om water uit die Vaalrivier te haal, tesame met sodanige water wat benodig word deur persone deur die Raad gemagtig om water uit die Rand se versamelterrein te neem, en waarvan die Raad die Direkteur luidens artikel (3) hiervan in kennis gestel het : Met dien verstande dat onder geen omstandigheid die water deur „D” voorgestel 70 miljoen gellings per dag sal te bo gaan nie.

(3) Ten einde die hoeveelheid water vas te stel wat die Regering by die begin van die volgende twaalfmaandelikse tydperk vir die Raad moet opgaar en bewaar, sal die Raad, voor of op die 1ste September sodanige twaalfmaandelikse tydperk voorafgaande, die Direkteur skriftelik in kennis stel van die aantal miljoen gellings per dag wat „D” in genoemde formulier sal vervang, en sal terselfdertyd die Direkteur sulke inligtings verskaf as nodig mag wees om die juistheid daarvan te ondersoek en vas te stel.

(4) Ten einde sover moontlik te verseker dat die hoeveelheid water deur „Q” voorgestel, op 1 April in elk en ieder jaar in die Regeringsdam op daardie datum sal wees, kom die Regering ooreen dat behalwe die hoeveelheid water luidens klousule (2) hiervan gereken, hy vanaf 1 Oktober in elk en ieder jaar vyftig persent (50%) van die surplus water wat in die Regeringsdam loop vir die Raad sal opgaar en bewaar totdat die hoeveelheid water wat deur „Q” op die volgende 1ste April voorgestel sal wees, ten bate van die Raad opgegaar en bewaar is, en sal voortgaan om surplus water op te gaan en te bewaar sodat sodanige hoeveelheid behou word tot op 1 April, wanneer al die water in die Regeringsdam versamel tot op die hoeveelheid deur „Q” voorgestel soos voormeld, in elk geval uitsluitlik vir die Raad bewaar sal word.

(5) Die Raad sal te eniger tyd die reg hê :

- (a) Om enige water deur die Regering uit die Regeringsdam uitgelaat te gebruik vir die ontwikkeling van sodanige krag soos hy geregtig is om te ontwikkel, en om sodanige werke op te rig, of in die bed van die Vaalrivier of in die nabijheid daarvan, soos vir hierdie doel nodig mag wees.
- (b) Om enige krag wat hy so mag ontwikkel aan enige van sy pompstasies of ander werke oor te dra.

(6) Die Regering sal geensins aan die Raad aanspraaklik wees vir skadevergoeding of andersins nie indien die water so uitgelaat te eniger tyd onvoldoende is om die Raad in staat te stel om krag te ontwikkel soos hierbo omskryf, of indien dit op so 'n manier uitgelaat word dat die Raad verhinder is om sodanige krag te ontwikkel, maar hy sal, insover dit gerieflik mag wees, en onderworpe aan sy eie vereistes, die water van sy dam uitlaat deur die toestel deur die Raad opgerig te word.

(7) Die Regering kom ooreen dat by die planberaming van sy dam hy die Raad sal raadpleeg, ten einde, insover dit gerieflik mag wees, en onderworpe aan die vereistes van die Regering, sodanige voorsiening te maak soos die Raad nodig het om hom in staat te stel om krag te ontwikkel. Enige koste deur die Regering gemaak op versoek van en in ooreenkoms met die Raad in verband met die daarstelling van sodanige spesiale voorsienings sal gedra word deur die Raad.

8. The Board agrees to allow water released from the Government dam to pass through the Board's barrage in such manner and at such times as the Director may determine: Provided that the Board shall not be obliged to pass any water, other than the actual normal flow, through the Board's barrage as long as the level of the water impounded by such barrage has sunk to the level mentioned in Clause 2 (a) hereof.

9. The cost of installing and maintaining any telephone lines and equipment which may be found necessary in connection with the regulation of the passing of water from the Government dam through the Board's barrage, shall be borne by the Government.

10. The Board shall have the right of entry at all reasonable times to the Government works and offices for the purpose of inspecting the level of the water in such works and records kept by the Government, in order to satisfy itself that the water which the Government agrees to impound and store for it has actually been so impounded and stored.

11. The Government agrees to proceed with the erection of the Government works as soon as is practicable and unless prevented by circumstances beyond its control to continue the construction of such works in such manner as to enable a quantity of water equal to ninety-six thousand (96,000) acre-feet being stored in such works by June, 1938.

12. The Board shall pay the sum of two hundred and forty thousand pounds (£240,000) to the Government as and when the construction of the Government dam is completed and such payment shall be made either in one sum or in annual payments calculated on such basis as regards interest on and payment of the principal amount as may be agreed upon between the Minister and the Board.

13. This agreement is subject to ratification by Parliament.

IN WITNESS WHEREOF this Agreement has been signed by the parties hereto at Cape Town on this the 30th day of January, 1934, in the presence of the undersigned witnesses.

As Witnesses:

1. ALFRED D. LEWIS.

2. J. H. STEVENSON.

D. REITZ.

S. A. VAN LINGEN.

(8) Die Raad kom ooreen om water van die Regeringsdam uitgelaat toe te laat om deur die Raad se barrage te loop op sodanige wyse en op sodanige tye soos die Direkteur mag voorstel: Met dien verstande dat die Raad nie verplig sal wees nie om enige water, behalwe die normale stroom, deur die Raad se barrage te laat loop terwyl die hoogte van die water deur sodanige barrage opgegaar gesak het tot die hoogte in klosule 2 (a) hiervan vermeld,

(9) Die koste van die oprigting en onderhoud van enige telefoonlyne en uitrusting wat nodig gevind word in verband met die reëling van die loop van water van die Regeringsdam deur die Raad se barrage, sal deur die Regering gedra word.

(10) Die Raad sal te alle redelike tyd die reg van ingang hê tot die Regering se werke en kantore, ten einde die hoogte van die water in sodanige werke vas te stel en registers deur die Regering gehou na te siën, om sigself te oortuig dat die water wat dié Regering onderneem om op te gaan en te bewaar werklik so opgegaar en bewaar is.

(11) Die Regering kom ooreen om met die oprigting van die Regeringswerke so spoedig doenlik aan te gaan, en tensy deur omstandighede buite sy beheer verhinder, om die oprigting van sodanige werke voort te sit op so 'n manier dat 'n hoëveelheid water gelykstaande aan ses-en-neentig duisend akkervoët in sodanige werke versamel word voor Junie 1938.

(2) Die persone wat, oorekomstig die bepalings van die in sub-artikel (1) vermelde proklamasie, as lede van die besproeiingsraad Sondagsrivier gekies word beklee hul amp vanaf die datum waarop kennisgewing van hul verkiesing in die *Staatskoerant* gepubliseer word, in die plek van die

(XI). In the event of this agreement not being confirmed then the amount expended by the Government in carrying out the works referred to in Clause V and the amount paid under Clause VIII shall be treated and regarded as an irrigation loan made by the Government to the Company and be subject to the rules and regulations and the law affecting such loans, and the Company hereby undertakes to sign and execute all papers necessary for the passing of a mortgage bond over its property in favour of the Government for the amount of such loan.

(XII) If after confirmation of this agreement the Government should require transfer passed to it of any ground, now or hereafter, occupied by the main canal and/or distributing furrows and the ground adjacent for purposes of access, which stands registered in the name of the Company, or of the four pieces of ground (each piece approximately ninety (90) feet by one hundred and twenty (120) feet occupied by the waterforemen's cottages, then the Company undertakes to pass transfer of the same in due form of law to the Government subject to condition 18 of Annexure "D", but otherwise free of any encumbrance except as already registered in the Deeds Office, the Government to pay the survey expenses and for the relative diagrams and the usual and customary costs of transfer. Indien, egter, vir die doel van sodanige werk of werke enige geskeduleerde grond van die Sondagsrivier-besproeiingsraad geneem of gebruik word, sal die Goewerment aan die Maatskappy die waarde daarvan betaal, in sover dit ooreengeskou is en waar so 'n wedersydse ooreenkoms ontbrek, soos vasgestel sal word deur arbitrasie ingevolge die voorwaarde van die Arbitrasiewet, 1898 (Kaap) of enige wysigings of vervangingswet. As die grond wat geneem word nie geskeduleer is nie, sal geen kompensasie betaalbaar wees nie.

(X) Daar alle erwe in die dorp Kirkwood geskeduleer en belas is deur die Sondagsrivier-besproeiingsraad, sal die Goewerment aan die dorpsbestuursraad (of enige plaaslike wetlike bestuur van die dorp Kirkwood), wat aangevind vir en ten behoeve van en as verteenwoordigende die erfhouers, enige water toestaan wat gemelde besproeiingsraad aan sodanig erfhouers mag gee of toeken—en sodanige water sal geneem word deur die gemelde dorpsraad, agerende soos bogemeld, van die hoofkanaal op so 'n punt of punte soos die Goewerment mag besluit teen 'n belasting of koste van hoogstens £1 2s. 6d. per morg.

(XI) Ingeval hierdie ooreenkoms nie bekragtig word nie, sal die bedrag deur die Goewerment gespandeer aan die werke gemeld in Klousule V en die bedrag betaal volgens Klousule VIII, behandel en beskou word as 'n Besproeiingslening aan die Maatskappy deur die Goewerment gemaak en sal onderworpe wees aan die reëls en regulasies en die wet wat betrekking het op sodanige lenings, en die Maatskappy onderneem hierby om alle stukke nodig om 'n verband op sy eiendom te passeer ten gunste van die Goewerment vir die bedrag van sodanige lening, te teken en uit te voer.

(XII) Indien na bekragtiging van hierdie ooreenkoms die Goewerment transport wil neem van enige grond, nou of hierna ingeneem deur die hoofkanaal en/of verdelingsvlore en die aangrensende grond vir toegangsdoeleindes, wat geregistreer is op naam van die Maatskappy, of van die vier stukke grond (elke stuk ongeveer Neentig (90) voet by honderd-en-twintig (120) voet ingeneem deur die Watervoormaaine se huise, onderneem die Maatskappy om behoorlik volgens wet transport daarvan te passeer aan die Goewerment onderworpe aan voorwaarde 18 van Aanhangel „D”, maar andersins vry van enige beswaring behalwe soos alredes geregistreer in die Registrasiekantoor, en die Goewerment betaal die opmetingskoste en vir die kaarte en die gewone en gebruiklike koste van transport. Transport moet uitgemaak word deur die Maatskappy se Transportuitmakers in Kaapstad.

(XIII) Op en vanaf die datum van bekragtiging van hierdie ooreenkoms sal die Goewerment water verskaf vir die grond van die Maatskappy geskeduleer deur die Sondagsrivier-besproeiingsraad op dieselfde wyse en op dieselfde terme soos water verskaf word aan die algemene besproeiers op die Strathsomers-Estate en van sodanige grond ('n deel van die Pioneer-sisteem of Bothasdrift-nedersetting uitmakende) sal die Maatskappy of sy Opvolgers behandel en beskou word asof dit en hulle 'n koper was onder en onderworpe aan die voorwaarde van Aanhangel „D”. Grond, nou die eiendom van die Maatskappy, wat deel uitmaak van die grond verkoop deur die Guardian-Maatskappy onder enige van die voorwaarde van Aanhangels „A” en „B”, sal van water voorsien word op dieselfde terme as besproeiers onder daardie Sisteme. Dit is ooreengeskou dat met betrekking tot sy oppervlakte volgens skedule die Maatskappy nie in 'n slechter of beter posisie as die algemene besproeiers op die Strathsomers-Estate sal wees nie en moet op presies dieselfde manier as die algemene besproeiers behandel word.

(XIV) Aangesien die Maatskappy aan bewoners en huurders, in die algemeen bekend as Aandeelhouers en aldus genoem, reg van bewoning op die eiendom gegee het, kom die Maatskappy ooreen en kontrakteer met die Goewerment dat, vanaf die datum van bekragtiging van hierdie ooreenkoms, geen waterbelasting of onderhoudskoste van sodanige Aandeelhouers, of enige van hulle gehef sal word nie; die Maatskappy, sal egter, geregtig wees op terugbetaling deur die Aandeelhouers van enige voorskot deur hom gemaak vir waterbelasting of onderhoud plus rente vanaf datum van betaling tot terugbetaling. Terwyl en gedurende die tyd wat die Maatskappy geregistreer is as eenare van sodanige hoeue sal dit aanspreeklik wees vir die waterbelasting en ander koste betaalbaar in terme van Aanhangel „D”, behalwe in sover hierdie voorwaarde mag verander of getref word deur Klousule XIII van hierdie ooreenkoms.

(XV) If and when the Company sells or transfers any and every portion of the remainder of the land belonging to it on the schedule of the Sundays River Irrigation Board (not being land already held under conditions, Annexures "A", "B", and "C" hereof, and land in the Kirkwood village) the sales shall be subject, *inter alia*, to Conditions 4, 9, 10, 11, 12, 13, 17, 20, 21, 22, 23, 25, 26, 27, 28, 33, 34, 35 of Annexure "D", and the Company undertakes to arrange for the execution by each purchaser of a contract binding each such purchaser to the Government to carry out and observe the terms of said conditions and so thereby to constitute the necessary contractual relationship as regards such conditions as though the purchaser were the one party thereto and the Government the other party thereto.

Beknoptheidshalwe, en alleen vir die doeleindes van die volgende voorwaardees, reëls en regulasies, sal die gemelde Guardian-Maatskappy hierin genoem word die Verkopers, en diegene wat enigeen of meer van gemelde persele of gedeeltes van grond mag verkry as die Kopers.

1. Die verkopers behou die reg om te allen tyde hierna alle redelike veranderings in die reëls te maak as dit nodig geag word.

2. Die verkopers sal, wanneer ook al die toestand van die Sondagsrivier dit toelaat, water verskaf in genoegsame en redelike hoeveelhede vir besproeiingsdoeleindes teen drie uur per morg, twee keer in elke maand.

3. Geen water sal verskaf word op 'n Sondag tussen die ure 6 v.m. en 6 n.m. behalwe as dit werklik nodig is, soos in die geval van bome, tabakplante, ens., wat pas geplant is, wanneer die water, na goedunke van die bestuurder van die verkopers, kan verskaf word. Maar wanneer, volgens oordeel van genoemde bestuurder, daar geen sodanige behoeftte bestaan, sal die verkopers die reg op die water behou gedurende sodanige bogemelde ure om damme vol te maak of vir ander doeleindes.

4. As daar 'n tekort van water sou wees deurdat die rivier ophou loop, of deur ander oorsake, dan sal, as die water weer verkrybaar is, die verskaffing daarvan begin waar sodanige oponthoud voorgeval het, dit wil sê, van of by die plek laas voorsien; dit moet egter duidelik verstaan word, dat die kopers net geregtig sal wees tot sodanige water wat mag geleë word in die kanale deur natuurlike gravitasie van die Sondagsrivier, en geen aanspraak sal hê op die gebruik van die verkopers se pomptoestel of masjinerie nie.

5. Die verkopers behou alle reg, titel, eiendomsreg en belang op en by alle damme, slote, en besproeiingswerke op die eiendom, sowel as op en by riviere en water wat deur, in of oor die gemelde eiendom loop, en alleenreg en bevoegdheid om willekeurig te verbeter, vergroot, verander, verdeel en andersins daar mee te handel, en om alles te doen wat nodig is om sodanige veranderings, verbeterings en sake uit te voer, op voorwaarde dat enige skade daaroor veroorsaak deur die verkopers, aan die kopers sal vergoed word, en, in geval van enige geskil met betrekking tot die bedrag van sodanige vergoeding, die kwessie besluit sal word deur arbitrasie.

6. The vendors will appoint a foreman, who shall be under the control of the manager of the estate.

7. It shall be the duty of the foreman to keep account of the hours of water supply, to give all reasonable information to any purchasers who may apply to him as to water turn, and to inquire into and adjust so far as it may be possible, any impediments or stoppages which may arise.

But the right to recover such penalty shall not prevent the vendors, instead of claiming the said penalty, from suing for and recovering in ordinary course any special damages which the vendors may have suffered over and above the amount of such penalty through and by any wrongful act of the purchasers, whether such wrongful act be in contravention of these rules or otherwise, or from taking such other legal steps for obtaining an interdict, or for carrying into effect the provisions of the next paragraph, as the vendors may elect and to them may seem meet.

10. Should any purchaser be guilty of a second offence of the nature above described within three months after being condemned to pay in respect of a prior act of the same nature, or should he, by interfering in any way from time to time with the due, proper and effective management of the estate, render it best, in the discretion of the vendors, for the interests of the estate and of the purchasers, or any of them, that the said purchaser so acting should be removed from the estate, it shall be within the power of the vendors, after reasonable notice, to repurchase his holding from the said purchaser at the price which he paid the vendors for it, and in doing so the vendors shall compensate the said purchaser for any improvement which he may have made, such improvements, if any, to be ascertained and valued by impartial appraisers agreed upon by the parties, or, in default of agreement, to be appointed by the vendors alone. But no amount shall be paid to any such purchaser until after deduction of the amount of special damage, if any, caused to the vendors by the act or acts of the purchaser causing his removal, and until after deduction of all costs of re-transfer and conveyance of the said holding to the vendors; and the purchaser hereby undertakes for his part, after payment of what may be due to him in the premises, to re-transfer the said holding to the vendors.

11. An annual contribution or money payment of 10s. per morgen shall be paid to the vendors by each purchaser in two instalments, viz.: on the 30th of June and on the 31st of December in each and every year, which contribution shall go towards assisting the vendors or their successors in cleansing all dams and sluits.

12. Each purchaser shall be obliged to keep, and hereby agrees to keep, all portions of sluits intersecting his own ground in fair working order and repair, and shall likewise keep down the burr-weed. And in the event of any purchaser failing in either of these respects, the vendors may, and are hereby empowered, should they deem it advisable, to effect, at the cost and charges of the purchaser, all necessary repairs to maintain fair working order, and for the destruction of the burr-weed, which costs and charges the purchaser hereby undertakes and contracts to pay on demand, and, on failure of payment, to submit to judgment of a court of law.

13. Each purchaser shall, and hereby agrees to, erect one or more sluice-gates at suitable spots on his land, and shall draw water from the sluits through such gates only.

14. Each purchaser shall, and hereby agrees to, make proper and efficient drains to catch up all overflow water, and prevent the same from damaging the lands of others or injuring the thoroughfares.

15. Each purchaser shall, and hereby agrees to, enclose his ground with a substantial fence of not less than 4½ feet in height, and, failing to do so, he shall be debarred from claiming damages for trespass of any kind.

16. All pigs and poultry found trespassing or doing damage within such enclosures may be destroyed.

17. No purchaser shall suffer or permit washing or the perpetration of any nuisance whatsoever on any of the water-courses, by which the purity of the water may be destroyed or sullied.

18. Each purchaser shall so soon as his term of water-leading has expired, efficiently secure, and keep secured, all his damming or outlet places along the water-courses, and for any failure or neglect in this respect he shall be liable for all loss and damage sustained by reason thereof.

19. The vendors reserve the right when and where necessary to make fresh sluits through any alienated portion or portions of the estate, granting compensation for any injury done, as provided for in clause.

20. No purchaser shall be at liberty to apply for a licence for a canteen, tap, hotel, or other place for the sale of wines, malt or spirituous liquors, by wholesale or retail, unless with the written consent of the vendors.

Dit sal die plig van die voorman wees om aantekening te hou van die ure van waterleiding, om alle redelike informasie te verskaf aan enige kopers wat by hom mag aanvraag doen omtrent waterbeurte, en om onderzoek in te stel na enige belemmering of oponthoud wat mag voorkom, en dié sover moontlik te rēel.

AANHANGSEL "F".

NADEMAAL die Strathsomers-Estate-Maatskappy, Beperk (hierna genoem „die Ondereienare“) die geregistreerde eienare is van sekere plaaseindom geleë in die distrik Uitenhage, aan die oewers van die Sondagsrivier, synde gedeeltes van die eiendom bekend as Klaaskraal, Governmentsbeloning, Malmaison, Bonterug, Landdrost Vee Plaats, Lot 5 grensende aan Malmaison, en Lot 7 grensende aan Kohraansdrift, volgens transportaktes op naam van die gemelde Maatskappy gedateer 30 Oktober 1907, en 24 Maart 1908.

EN NADEMAAL die volgende partye, naamlik, Isaac Cornelis du Preez, Petrus Hendrick du Preez, Johan Andries du Preez, Adriana Josiena Waits, gebore du Preez gehuud in gemeenskap van goedere met John William Waits, en deur hom hierin bygestaan, Anthoine Michael du Preez, Stephanus Johannes du Preez, S.J. Seun, Stephanus Johannes du Preez, H.H. Seun, en Michael Arnoldus Muller, met vruggebruik oor die naburige plaas bekend as Kohraans Drift (of Korhaans Drift), ook aan die oewer van die gemelde rivier, volgens en kragtens die uiterste wil en testament gedateer 21 Junie 1856, van wyle Stephanus Johannes du Preez en Susanna Jacoba Potgieter, en welke eiendom op die oomblik geregistreer is op naam van die gemelde Isaac Cornelis du Preez, Petrus Hendrick du Preez, Johan Andries du Preez, Anthoine Michael du Preez, Adriana Josiena du Preez (nou Waits), wyle Stephanus Johannes du Preez (vader van die gemelde Stephanus Johannes du Preez, S.J. Seun), in wie sé boedel Ockert Jacobus Oosthuizen die eksekuteur datief is, en wyle Stephanus Johannes Muller (vader van die gemelde Michael Arnoldus Muller); wat toe hy nog in lewe was insolvent verklaar is, en Henry Chase, aangestel as die enigste kurator van sy insolvente boedel, deur transportaktes gedateer 23 Junie 1863, en 11 Oktober 1895 (almal hierne genoem „die Hoër Eienare“):

EN NADEMAAL gemelde testament, gemaak voor die passering van Wet No. 32 van 1908, hoewel dit aan die hoër eienare die vruggebruik gee van gemelde plaas Kohraans Drift, enige vervreemding wat ook al daarvan belet solank as die wette van die land dit toelaat, gedurende welke tydperk die gemelde plaas onbeswaard moet geërf word deur

successive male descendants of the testators, and further prohibits the granting of servitudes upon the said farm:

AND WHEREAS certain of the upper proprietors have at an expenditure of about £400 attempted to lead water from the Sundays River for the irrigation of certain irrigable lands on the said farm Kohraans Drift, and did for that purpose construct a small weir or dam at a site on the said river known as du Freez Dam, but which weir or dam and relative furrows have proved wholly inadequate for the object in view:

AND WHEREAS it would be of great benefit to the upper proprietors and their successors in title if proper irrigation works were constructed whereby the arable lands of the said farm Kohraans Drift could be supplied with water, and whereby the value of holdings would be greatly increased, but that the present upper proprietors have not the means to erect and construct such proper irrigation works:

AND WHEREAS the lower proprietors have constructed irrigation works on their said property whereby they have been enabled to lead water from the Sundays River to a considerable extent of the arable land thereof known as the Strathsomers Estate to the great benefit thereof, but are desirous of increasing their irrigable area, which can most effectively be done by taking out and leading water from the said river at a point upon and over the said farm Kohraans Drift, which farm is situated higher up the said river than the said lands of the lower proprietors:

AND WHEREAS the upper and lower proprietors have negotiated with each other for the construction of such irrigation works as shall benefit all concerned:

AND WHEREAS Andries Jacobus Piernaar was by order of the Supreme Court of the Colony of the Cape of Good Hope, dated the 25th May, 1910, appointed as curator for the purposes and with the powers referred to in the order hereunto annexed and marked "A", and has acted under the said order in negotiating and approving of the terms of this agreement, subject to the sanction of the Honourable the Supreme Court of South Africa (Cape of Good Hope Provincial Division):

AND WHEREAS instead of having recourse to a water court for the purpose of the obtaining of the said servitudes, the upper proprietors and lower proprietors have agreed, subject to the sanction as aforesaid, to amicably concur in the following agreement, which on such sanction being obtained is to be embodied in notarial form and registered against the respective transfer deeds concerned:

NOW THEREFORE THESE PRESENTS WITNESS as follows, to wit:—

1. The upper proprietors for themselves and their successors in title hereby grant and concede in perpetuity to the lower proprietors the right to construct a dam or weir across the Sundays River at or near the site known as du Freez' Dam. The right so conferred shall consist of the right to occupy by a dam or weir the bed of the river at or near the said spot and the banks adjacent thereto as may be necessary for the said dam or weir. The said dam or weir shall be constructed by the lower proprietors at their own cost, and as shown on the plan hereunto annexed and marked "B", which plan is hereinafter referred to as the said plan.

2. The upper proprietors for themselves and their aforesaid hereby further grant and concede in perpetuity to the lower proprietors the right to convey the water to be caught up by means of the said dam or weir from the said dam or weir over the said farm Kohraans Drift to the properties aforesaid of the lower proprietors and such other riparian properties as they may hereafter acquire, as well as to the properties of other riparian owners on the said river, but in such last event subject to the terms of paragraph 15 hereof, by means of an aqueduct to be constructed along the course shown on the said plan or within the limits of deviation shown thereon. Such right of aqueduct shall be held to include all that the servitude of aqueduct involves under the said Act 32 of 1908, and may take the form wholly or partially of canal, furrow, piping or other means of conveyance as may be found most suitable. The said aqueduct, whatever its form, shall be constructed by the lower proprietors at their own cost.

3. The lower proprietors shall be bound at their own cost to fence and keep fenced the said dam or weir, the said aqueduct and its intake, and all relative works, the said fence to be erected along the respective boundary lines of the said works shown on the said plan, but the area so to be fenced shall not exceed seventeen morgen. The lower proprietors shall at their own cost provide and maintain a bridge over the aqueduct where it crosses the main road to the farm Kohraans Drift, and at another site, if required, to be selected by the upper proprietors; also to similarly provide and maintain swing gates, not to exceed six (6), if required, along the said fence at places to be indicated by the upper proprietors.

4. For the purpose of construction of the said dam or weir and aqueduct and the relative intake and sluice gate or outlet, hereafter referred to, and of all works relative thereto, as also for the purpose of reconstruction in the event of a complete washaway of all or any of the said works, the lower proprietors shall have free access with their workmen and plant over the portion of the farm Kohraans Drift between the course of the said aqueduct shown on the said plan and the north-east boundary of the farm Kohraans Drift, as well as the bed of the Sundays River along its course through the said farm as may be necessary for these purposes, and for the said purposes they shall further be entitled to take free of charge all necessary sand, gravel and stone from the bed of the said river, and from such place or places in the said portion as shall be agreed upon and pointed out by the upper proprietors, or failing agreement on the subject, as a single arbitrator under the Arbitration Act, 1898, shall award and determine as necessary for requirements at the time of the reference, or for future requirements from time to time. If thereafter further requirements arise, not provided for by such award, and parties cannot agree as to the place or places at and from which

die opvolgende manlike afstammelinge van die testateurs, en verder die verleen van servitute op die gemelde plaas belet:

EN NADEMAAL sekere van die hoëreienare teen 'n uitgaaf van omrent £400 geprobeer het om water van die Sondagsrivier te lei vir die besproeiing van sekere besproeibare grond op gemelde plaas Kohraansdrift, en vir daardie doel 'n klein dam of opdamming gemaak het op 'n terrein aan gemelde rivier bekend as „du Freez dam", maar welke dam of opdamming en toebehorende vors geheel ongenoegsaam vir die beoogde doel was:

EN NADEMAAL dit van groot nut vir die hoëreienare en hulle opvolgers in titel sou wees as behoorlike besproeiingswerke gemaak sou word waardeur die beboubare grond van gemelde plaas Kohraansdrift van water kon voorsien word en waardeur die waarde van hoeves grootlik sou vermeerder word, maar dat die teenswoordige hoëreienars nie die geld het om sodanige behoorlike besproeiingswerke op te rig en te maak nie:

EN NADEMAAL die ondereienare besproeiingswerke gemaak het op hulle gemelde eiendom waardeur hulle in staat gestel is om water van die Sondagsrivier te lei na 'n groot gedeelte van die beboubare grond daarvan, bekend as die Strathsomers-Estate, tot groot nut daarvan, maar begerig is om hulle besproeibare grond te vergroot, wat op die mees doeltreffende wyse kan gedoen word deur water uit die Sondagsrivier te lei op 'n punt op en oor die gemelde plaas Kohraansdrift, welke plaas hoër op langs die rivier geleë is as die gemelde grond van die ondereienare:

EN NADEMAAL die hoë- en ondereienare met mekaar onderhandel het oor die aanleg van sodanige besproeiingswerke as wat alle belanghebbendes sel benutsig:

EN NADEMAAL Andries Jacobus Piernaar deur 'n order van die Hooggereghof van die Kolonie die Kaap die Goeie Hoop, gedateer 25 Mei 1910, aangestel is as kurator vir die doeinde en met die bevoegdhede genoem in die order hieraan geheg en gemerk „A", en gehandel het volgens die gemelde order deur te onderhandel oor die terme van hierdie ooreenkoms en dié goed te keur, onderworpe aan die goedkeuring van die Hooggereghof van Suid-Afrika (Provinciale Afdeling, Kaap die Goeie Hoop):

EN NADEMAAL in plaas van na 'n waterhof te gaan vir die doel van die verkryging van die gemelde servitute, die hoëreienare en ondereienare oorengekom het, onderworpe aan die goedkeuring soos gemeld, om minlik, toe te stem in die volgende ooreenkoms, wat na die verkryging van sodanige goedkeuring notarieel opgestel en geregistreer moet word teen die respektiewe transportakte daarby betrokke:

SO IS DIT DAT HIERDIE AKTE GETUIG as volg, te wete:—

1. Die hoëreienare vir hulself en hulle opvolgers in titel gee en maak hierby altyddurend oor aan die ondereienare die reg om 'n dam of opdamming oor die Sondagsrivier op of nabij die terrein bekend as „du Freez Dam" te bou. Die reg aldus verleent sal bestaan uit die reg om op te neem deur 'n dam of opdamming die bed van die rivier by of nabij die gemelde plek en die aangrensende walle daarvan soos mag nodig wees vir die gemelde dam of opdamming. Die gemelde dam of opdamming moet gebou word deur die ondereienare op eie koste, en soos aangedui volgens die plan hieraangeheg, en gemerk „B", welke plan hierin die gemelde plan genoem word.

2. Die hoëreienare, vir hulself en hulle bogemelde ges' hiermee en maak verder altyddurend oor aan die ondereienare die reg om die water wat opgevang moet word deur gemelde dam of opdamming van die gemelde dam of opdamming oor die gemelde plaas Kohraansdrift te vervoer na bogemelde eiendomme van die ondereienare en sodanige ander oewer eiendomme as hulle hierna mag verkry, sowel as na die eiendomme van ander oewereienare van gemelde rivier, maar in die laaste geval onderworpe aan die terme van patgraaf 15 hiervan, deur 'n afleivoor wat moet aangelê word langs die loop aangetoon op gemelde plan of binne die grense van verlegging daarop aangetoon. Sodanige reg van waterleiding sal beskou word as insluitende alles wat die servituit van waterleiding omvat kragtens die gemelde Wet 32 van 1906, en mag geheel of gedeeltelik die vorm neem van 'n kanaal, voor, pype of ander wyse van vervoer soos geskik mag blyk. Gemelde afleivoor, wat ookal sy vorm, moet aangelê word deur die ondereienare op hulle eie koste.

3. Die ondereienare is verplig om op eie koste te omhein en omhein te hou die gemelde dam of opdamming, die gemelde afleivoor en sy opvangplek, en alle toebehorende werke, en gemelde omheining moet opgerig word langs die respektiewe grense van gemelde werke aangetoon op gemelde plan, maar die oppervlakte wat aldus omhein word mag nie 17 morgte te bove gaan nie. Die ondereienare moet op eie koste verskaf en onderhou 'n brug oor die afleivoor waar dit die grootpad na die plaas Kohraansdrift kruis, en op 'n ander plek, as dit nodig is, na keuse van die hoëreienare; ook om insgelyks te verskaf en te onderhou swaaihekke hoogstens ses (6) as dit nodig is, langs die gemelde omheining op piekke wat aangetoon sal word deur die hoëreienare.

4. Vir die doel van die bou van gemelde dam of opdamming en afleivoor en die toebehorende opvangplek en sluis of uitlaatplek, hierna vermeld en van alle werke in verband daarmee, asook vir die doel van herbou in die geval van 'n totale verspoeling van alle of enige van gemelde werke, het die ondereienare met hulle werksmense en masjinerie vrye toegang tot die deel van die plaas Kohraansdrift tussen die loop van gemelde afleivoor, aangetoon op gemelde plan, van die noordoostelike grens van die plaas Kohraansdrift, asook die bed van die Sondagsrivier langs sy loop deur gemelde plaas soos mag nodig wees vir hierdie doeinde, en vir gemelde doeinde sal hulle verder geregtig wees om gratis alle nodige sand, gruis en klippe van die bed van die rivier te neem, en van sodanige plek of plekke in die gemelde deel soos oorengelkom en aangetoon deur die hoëreienare, of by gebreke van ooreenkoms daaromtrent, soos 'n enkele arbiter onder die Arbitrasiewet, 1888, sal beslis en vastel soos nodig vir vereistes op die tyd van die verwysing, of vir toekomstige vereistes van tyd tot tyd. As daarna verder vereistes voorkom waarvoor in sodanige beslissing geen voorsiening

the necessary sand, etc., is to be taken, further reference to a single arbitrator shall be made in manner aforesaid. The upper proprietors shall not interfere or meddle with any portion of the said works, which shall be viewed as belonging to the lower proprietors, and the lower proprietors and their agents, servants, and employees shall alone have the right to construct, handle and manipulate the said works and all the details thereof.

5. The lower proprietors shall be entitled at all times to take free of charge from the bed of the Sundays River along its course through the farm Kohraans Drift and from the side of the hill in proximity to the proposed weir, all necessary sand, gravel, and stone for the purpose of maintaining the works aforesaid, and shall have the right of access for the purposes of this agreement.

6. Upon the completion of the said work the lower proprietors, their workmen and plant shall, subject to paragraphs 4 and 5 hereof, only have access over the farm Kohraans Drift along the course of the said aqueduct and within the fence to be erected in terms of paragraph 3 hereof.

7. The lower proprietors shall at no time be held responsible for damage caused to the farms Kohraans Drift or Sundays River Poort by floods or other *vis major* unless such damage shall be proved to have been caused by the existence of the said dam or weir.

8. The lower proprietors shall at their cost, at a site in the aqueduct to be selected by the upper proprietors, fix a suitable outlet in the shape of a pipe or sluice gate according to the form of construction of the aqueduct from which the upper proprietors and their aforesaid shall receive the supply of water hereinafter mentioned.

9. The lower proprietors shall see to the opening, closing and regulating of the aqueduct as the condition of the river requires and permits, so as to allow of the water freely passing into the said aqueduct, and shall for the purposes thereof have the right to erect a caretaker's cottage and outhouses at the said dam or weir within the aforesaid boundary fence and to appoint a man or men to reside thereon to attend duly to the intake, aqueduct and outlet pipe or sluice gate so as to carry out as effectually as possible the intention of the parties and so that the upper proprietors shall receive the water to which they are entitled as hereinafter mentioned.

10. From the point of the said outlet the lower proprietors undertake at their own cost to construct a branch canal or furrow along the course most suitable for the irrigation by gravitation of the 48.4 morgen shown on the said plan, and to construct a bridge over the said branch canal or furrow; also to provide and construct six (6) division gates in the said canal or furrow at sites to be selected by the upper proprietors: thereafter the said canal and furrow shall be maintained by the upper proprietors and their aforesaid.

11. On the completion of the works hereby contemplated, and subject to the considerations and conditions hereinafter mentioned, the lower proprietors undertake whenever the state of the Sundays River admits of it (and while water is flowing in the aqueduct down to the lower proprietors) to supply water through the said outlet to the upper proprietors and their successors at the rate of 750 gallons per minute, but should this quantity be in excess of what the upper proprietors can claim as riparian owners, then to supply to them the quantity of water which they, as riparian owners, can claim as their proportion, save and except, however, when prevented by the act of God, flood, storm, accident or any unforeseen contingency or circumstance. The upper proprietors and their successors shall make an annual contribution or money payment for the said 750 gallons to be charged on 48.4 morgen calculated at the rate of one-half of the amount at the time charged to irrigators from and under the lower proprietors receiving water from the said aqueduct, but such contribution shall not exceed ten shillings (10s.) per morgen per annum. Such contribution or payment shall be paid to the lower proprietors on the 30th June and 31st December in each and every year, the first whereof shall be made in the June or December following the completion of the works contemplated. Should the contribution or payment remain three (3) months in arrear the lower proprietors shall not be obliged or required to supply water until such time as the said arrears shall be paid, and they shall have the right to cut off the supply of water to the upper proprietors or their aforesaid till such payment is made.

12. The upper proprietors and their successors shall have the right to the use of the water in and above the said weir or dam for domestic purposes and watering their stock, and to pump water therefrom, not, however, to exceed 100,000 gallons per diem of 24 hours.

13. In the event of any lower riparian proprietors on the said river making claim against the upper proprietors or their aforesaid for any infringement of alleged riparian rights by reason of the acts of the lower proprietors, then the lower proprietors agree to indemnify the upper proprietors and their successors provided they give notice in writing by registered letter to the lower proprietors of such alleged infringement, and grant to the lower proprietors full and absolute power to act as they may deem necessary or advisable in regard to such alleged infringement.

14. Should the upper proprietors or their successors require more than the said 750 gallons per minute for irrigating other ground besides the said 48.4 morgen, then they shall declare and demarcate the ground for which such extra water is required, and if practicable the lower proprietors agree to supply water therefrom from the said aqueduct subject to all the conditions under which they supply water from the said aqueduct to irrigators on the properties aforesaid of the lower proprietors, and to the payment of a water rate not to exceed two pounds (£2) per morgen per annum.

15. The upper proprietors for themselves and their successors hereby further grant and concede to the lower proprietors the right to supply water by means of the works hereby contemplated to lower riparian proprietors on the said river subject to such terms as the lower proprietors

gemaak is nie, en, partye nie ooreen kan kom omtrent die plek of plekke by en vanwaar die nodige sand, ens., moet geneem word, moet verder verwys word na 'n enkele arbiter op die wyse hierbo gemeld. Die hoëreienare mag hulle nie met enige deel van gemelde werke, wat sal beskou word as behorende aan die ondereienare, bemoei of inlaat nie, en die ondereienare en hulle agente, bediendes, en werknelers sal alleen die reg hê om die gemelde werke en alle besonderhede daarvan te bou, te hanteer en te bewerk.

5. Die ondereienare sal ten allen tyde geregtig wees om gratis van die bed van die Sondagsrivier langs sy loop deur die plaas Kohraansdrift en van die kant van die koppie in die nabijheid van die voorgestelde dam, alle nodige sand, gruis, en klippe te neem vir die doel om die gemelde werke te onderhou, en sal die reg van toegang hê vir die doeleinades van hierdie ooreenkoms.

6. Na voltooiing van gemelde werk, sal die ondereienare, hulle werkmense en masjinerie, onderworpe aan paragrafe 4 en 5 hiervan, alleen toegang hê tot die plaas Kohraansdrift langs die loop van gemelde afleivoor en binne die omheining wat opgesit moet word ingevolge paragraaf 3 hiervan.

7. Die ondereienare sal nimmer verantwoordelik gehou word vir skade gedoen aan die plase Kohraansdrift of Sondagsrivierpoort deur oorstromings of ander natuurkrag, tensy dit bewys word dat sodanige skade veroorsaak is deur die bestaan van die gemelde dam of opdamming.

8. Die ondereienare sal op hulle koste, op 'n plek in die afleivoor wat gekies sal word deur die hoëreienare, 'n geskikte uitlaat in die vorm van 'n pyp of sluis vasstel, volgens die vorm van bou van die afleivoor vanwaar die hoëreienare en hulle bogemelde die watervoorraad, hierna geneem, sal ontvang.

9. Die ondereienare moet let op die oopmaak, toemaak en regulering van die afleivoor soos die toestand van die riviere vereis en toelaat, sodat die water ongehinderd in die gemelde afleivoor kan gaan, en sal vir die doeleinades daarvan die reg hê om 'n opsigtter se woning en buitegeboue by die gemelde dam of opdamming binne gemelde grensomheining te bou, en 'n man of manne aan te stel om daarop te bly om behoorlik na die opvanggebied, afleivoor en uitlaatpype of sluise te kyk sodat die doel van die partye so doeltreffend moontlik uitgevoer kan word en sodat die hoëreienare die water sal ontvang waartoe hulle geregtig is soos hierna genoem.

10. Die ondereienare onderneem om van die punt van gemelde uitlaat op eie koste 'n tak-kanaal of voor langs die mees geskikte loop vir die besproeiing deur gravitasie van die 48.4 morgaangetoon op gemelde plan, te bou, en 'n brug oor die gemelde tak-kanaal of voor te bou; asook om ses (6) verdelingshekke in gemelde kanaal of voor by plekke wat deur die hoëreienare gekies sal word, te verskaf en te bou; daarna sal die gemelde kanaal en voor onderhou word deur die hoëreienare en hulle voornoemdes.

11. Na voltooiing van die werke hierby voorgeneem, en onderworpe aan die oorwegings en voorwaardes hierna genoem, onderneem die ondereienare wanneer ook al die toestand van die Sondagsrivier dit toelaat (en terwyl water in die afleivoor afloop na die ondereienare) om water te verskaf deur gemelde uitlaat aan die hoëreienare en hulle opvolgers teen 750 gelling per minuut, maar ingeval hierdie hoeveelheid meer is as wat die hoëreienare as oewereienare kan eis dan om aan hulle die hoeveelheid water te verskaf wat hulle, as oewereienare as hulle aandeel kan eis, buiten en behalwe, egter, wanneer sulks belet word deur 'n natuurram, vloed, storm, ongeluk of enige onvoorsiene toeval of omstandigheid. Die hoëreienare en hulle opvolgers moet 'n jaarlike kontribusie of geldelike betaling maak vir die gemelde 750 gelling wat gedebiteer sal word teen 48.4 morg bereken teen die helfte van die bedrag op die tyd gevorder van besproeiers van en onder die ondereienare wat water ontvang uit die gemelde afleivoor, maar sodanige bydrae sal nie tien sjielings (10s.) per morg per jaar te boewe gaan nie. Sodaanige bydrae of betaling moet aan die ondereienare betaal word op 30 Junie en 31 Desember in elke jaar, die eerste waarvan gemaal moet word in die Junie of Desember wat op die voltooiing van die voorgestelde werke volg. As die bydrae of betaling drie (3) maande agterstallig is sal die ondereienare nie verplig wees of gevra word om water te verskaf alvorens gemelde agterstallige gelde betaal is, en hulle het die reg om die watertoevoer af te sny vir die hoëreienare of hulle voornoemdes tot tyd en wyl sodanige betaling gemaak is.

12. Die hoëreienare en hulle opvolgers het die reg tot die gebruik van die water in en bokant die dam of opdamming vir huishoudelike doeleinades en water vir hulle vee, en om water daarvandaan te pomp, maar nie meer as 100,000 gelling per dag van 24 uur nie.

13. Ingeval enige onder oewereienare op gemelde rivier vorderings het teen die hoëreienare of hulle voornoemdes vir enige oortreding van beweerde oewerregte deur die dade van die ondereienare, dan stem die ondereienare toe om die hoëreienare en hulle opvolgers te vrywear, op voorwaarde dat hulle aan die ondereienare skriftelike kennis per ge registreerde brief gee van sodanige beweerde oortreding, en hulle volle en gehele bevoegdheid verleen om te handel soos hulle mag nodig of raadsaam ag in verband met sodanige beweerde oortreding.

14. As die hoëreienare of hulle opvolgers meer as die gemelde 750 gellings per minuut nodig het om ander grond buite die gemelde 48.4 morg, te besproei, moet hulle die grond waarvoor sodanige ekstra water nodig is, bepaal en afbaken, en indien moontlik kom die ondereienare ooreen om water daarvoor van die gemelde afleivoor te verskaf, onderworpe aan al die voorwaardes waaronder hulle water verskaf van gemelde afleivoor aan besproeiers op bogemelde eiendomme van die ondereienare, en teen betaling van 'n waterbelasting van hoogstens twee pond (£2) per morg per jaar.

15. Die hoëreienare, vir hulself en hulle opvolgers, gee en staan hierby verder aan die ondereienare die reg toe om water te gee aan onder oewereienare aan gemelde rivier by wyse van die werke hierby voorgeneem, onderworpe aan sodanige terme as die ondereienare en die ander

and the other lower riparian proprietors may agree upon, but should the area so to be supplied exceed one hundred and fifty (150) morgen then the upper proprietors and their successors shall be absolved from the payment of the contribution in respect of the said 48.4 morgen, referred to in paragraph 11 hereof, from the date water is supplied to the said lower riparian proprietor by the lower proprietors. Should such other lower riparian proprietor or proprietors, after entering into any agreement with the lower proprietors to supply water as aforesaid, dispose or transfer such land, so to be watered to the lower proprietors, then notwithstanding such subsequent ownership by the lower proprietors, the condition to absolve the upper proprietors and their successors from payment of the said contribution, as provided by Clause 11 of these presents, shall continue of full force and effect.

16. The upper proprietors for themselves and their successors hereby further grant and concede to the lower proprietors the right to lay down and maintain in perpetuity within the boundary fence of the said aqueduct to the said dam or weir telephone and/or telegraph poles and wires.

17. Upon the signing of these presents the lower proprietors shall refund equally among the said present beneficiaries the aforesaid four hundred pounds (£400) expended by them in the construction of the du Preez' Dam and relative furrow, and the lower proprietors shall be entitled in consideration to make use of the site and materials of the said du Preez' Dam or such part thereof as they may desire in the construction of the dam or weir contemplated by these presents.

18. Subject to paragraph 13 hereof, and in consideration of their undertakings under these presents, the lower proprietors shall be entitled to all the water conveyed by means of the said dam or weir and aqueduct, save and except only what the upper proprietors are to receive at the point aforesaid as above provided and in terms of paragraphs 12 and 14 hereof, and the said upper proprietors shall accept in full settlement of their rights as riparian owners on the said Sundays River of the farm Kohraans Drift the said proportion of water so to be allowed to them, the intention of the parties being that subject to the allowance of such proportion the water caught up by the said dam or weir and aqueduct shall be appropriated to and enjoyed by or for the benefit of the lower proprietors in consideration of the undertakings on the part of the lower proprietors as herein contained and the valuable services to be rendered by them under these presents.

19.
