MALARIA.

Natal and Zululand.

The hot and humid weather with intermittent rain is creating favourable conditions for the breeding of malaria carrying mosquitos in the coastal areas of the Province.

broei van *Anopheles gambiae* is gevind in die distrikte benede Umfolozi en Hlabisa van Zoeloeland en twee gevalle van malaria is in eersgenoemde distrik aangemeld. Besoekers aan die laeveld van noordelike Zoeloeland word dringend versoek om slegs in gebiede waar malariabestryding toegepas word, te kampeer, asook gedurende hulle verblyf hulle voertuie daagliks met 'n goeie insekdodende spuitstof te bespuit.

Transvaal.

Gedurende die afgelope veertien dae was daar baie min verandering in malariatoestande in Transvaal. Droogtetoestande heers nog en die bietjie reën wat geval het, het nie gunstiger toestande geskep vir die uitbroei van *A. gambiae* in die besmette malaria gebied nie. Om sulke toestande te skep, is goeie reëns nodig. Geen nuwe gevalle van malaria het voorgekom nie en slegs klein aantalle malariadraende muskiete is versamel.

Die weer bly egter warm en vogtig en meer reën kan verwag word.

Voorsorgmaatreëls teen malaria.

(1) Deeglike gaasbeskerming van die hele huis.

(2) Deeglike uitspuiting elke aand met 'n goeie insektegif soos Pyagra of Gemken Pyrethrum Concentrate, behoorlik met parafien verdun.

(3) Huise, met inbegrip van gaasskerms, deure en vensters moet elke drie maande deeglik met D.D.T. bespuit word.

(4) Bednette moet gebruik word vir ekstra beskerming.

(5) Huise moet op hoë grond gebou word en so ver moontlik weg van Naturellewonings en water waar gunstige toestande vir die uitbroei van muskiete geskep word.

(6) Die smeer van sitronellaolie of ander insekteweermiddels aan ontblote liggaamsdele wanneer buitenshuis gedurende die nag.

(7) Visvang gedurende die nag in malariagebiede is gevaarlik en moet vermy word.

EPIDEMIESE SIEKTES IN ANDER LANDE.

Volgens jongste berigte is daar:—

G. W. GALE,
Sekretaris van Gesondheid.

Breeding of *Anopheles gambiae* has been located in the lower Umfolozi and Hlabisa Districts of Zululand and two cases of malaria have been reported from the former district. Visitors to the low veld of Northern Zululand are urged to camp only in areas under organised malaria control and to spray their vehicles daily with a good insecticide during their stay.

Transvaal.

There has been very little change in malarial conditions in the Transvaal in the past fortnight. Drought conditions continue and the little rainfall registered in the endemic malaria regions, has not created more favourable breeding conditions for *A. gambiae*. Good rains are necessary to create such conditions. No cases of malaria have occurred and only very small numbers of malaria vector mosquitoes have been collected.

The weather, however, remains hot and humid and more rain can be expected.

Precautionary Measures against Malaria.

(1) Thorough protection of dwellings by screening with gauze.

(2) Thorough spraying every evening with a good insecticide, e.g. Pyagra or Genken Pyrethrum Concentrate suitably diluted with parafin.

(3) Dwellings, including gauze screens, doors and windows must be sprayed quarterly with D.D.T.

(4) Bednets should be used as an additional protection.

(5) Houses should be built on high ground and as far away as possible from Native dwellings and water which provide favourable conditions for mosquito breeding.

(6) Application of citronella oil or other insect repellents to exposed parts of the body when out of doors at night.

(7) Fishing at night in malaria areas is dangerous, and should be avoided.

EPIDEMIC DISEASES IN OTHER COUNTRIES.

At date of latest available information there existed:—

CIRCULAR TO SHAREHOLDERS.

Dear Sir (or Madam),

As stated by the Chairman in his address at the Annual General Meeting held on the 23rd November, 1951, the present assets of the Company are principally share investments comprised of its large holding in Union Free State Coal & Gold Mines Limited, and minor holdings in certain other companies.

For a considerable period the Company has either operated with limited cash resources or, as has been the case in recent years, on borrowed funds; it is thus unfavourably placed either to follow up its present investments by exercising such rights as accrue on them from time to time, or to extend its portfolio in any other way.

Your Directors have therefore made a careful review of the Company's policy and prospects in order to decide on a course of action, which, in these financial circumstances, would be in the best interests of the general body of Shareholders. They have come to the conclusion that a proposal to raise additional capital would have little, if any, attraction and they have decided that it would be preferable, and to the advantage of Shareholders, to place the Company in voluntary liquidation. This course would enable a distribution to be made of the Company's Principal asset—its shares in Union Free State Coal & Gold Mines, Limited—which Shareholders would then hold directly instead of indirectly through their holding in this Company.

Accompanying this Circular is a Notice convening an Extraordinary General Meeting of Shareholders to be held at 11 a.m. on 15th February, 1952, for the purpose of considering and, if thought fit, of passing Special Resolutions placing the Company in voluntary liquidation.

Should you be unable to attend the meeting, you are requested to complete the enclosed Form of Proxy as indicated thereon and return it to the Transfer Secretaries, P.O. Box 2058, Johannesburg, to reach them not later than forty-eight hours before the time fixed for the holding of the meeting.

Persons who have not yet lodged their shares for registration are advised to do so not later than 8th February, 1952, to enable them to participate in the distribution should it be decided that the Company be wound up in terms of the Special Resolutions detailed in the accompanying Notice. —Yours faithfully, Rand Mines, Limited, Secretaries, per J. CIRCULAR NOTICE TO SHAREHOLDERS.

Dear Sir/s,

Owing to increasing costs and the necessity of holding larger stocks to meet the growing demand for the Company's products, and also to avoid difficulties due to the uncertainties of shipments, it has become advisable to increase the working capital of the Company.

Your Directors have come to the conclusion that the time is inopportune to increase the issued share capital and that the situation can best be met by temporary borrowings. To enable this to be done it is necessary to amend the Articles of Association so as to increase the borrowing powers of the Company.

Accordingly an Extraordinary General Meeting of Shareholders is being called, as per notice herewith, for the purpose of passing, if deemed fit by Shareholders, a Special Resolution which, if passed, would have the effect of empowering the Directors, on behalf of the Company, to borrow sums of money up to 100 per cent. of the issued Share Capital of the Company.

Shareholders, who desire to be represented at the Meeting, but who are unable to be present in person, should complete the enclosed Form of Proxy which should reach the Secretary not later than 48 hours before the time fixed for the Extraordinary General Meeting. By Order of the Board.—H. Henshilwood, Secretary, Verbena Street, Paarden Eiland, Cape, 10th January, 1952. 434—11
