BUITENGEWONE EXTRAORDINARY Staatskoerant Government Gazette

(Registered at the Post Office as a Newspaper)

VOL. CLXXVII.] PRYS 6d. PRETORIA, 23 JULY 1954. PRICE 6d. [No. 5315.

*Alle Proklamasies, Goewerments- en Algemene Kennisgewings, wat vir die eerste maal gepubliseer word, is in die linker-bohoek met 'n * gemerk.*

GOEWERMENTSKENNISGEWING.

Onderstaande Goewermentskennisgewing word vir algemene inligting gepubliseer:—

DEPARTEMENT VAN HANDEL EN NYWERHEID.

* No. 1515.] [23 Julie 1954.
KONSOLIDASIE EN VERSLAPPING VAN UITVOERBEHEER.

Ek, ERIC HENDRIK LOUW, Minister van Ekonomiese Sake, handelende kragtens die bevoegdheid my verleen by Oorlogsmaatreël No. 146 van 1942, soos gewysig, gelees met Oorlogsmaatreël No. 75 van 1945, gelas hierby soos volg:—

1. Met ingang van die datum van publikasie van hierdie kennisgewing mag geen goedere wat in bygaande Bylaes A en B aangegee is, uit die Unie uitgevoer word nie tensy sodanige goedere gedeck is deur 'n uitvoerpermit uitgereik met die magtiging van die Sekretaris van Handel en Nywerheid en uitgevoer word onder die voorwaardes wat in die bygaande Bylaes voorgeskryf is; met dien verstande dat—

- (a) ten opsigte van die goedere in Bylae A genoem, geen uitvoerpermit nodig is nie waar sodanige goedere na Basoetoland, Swazieland en die Protektoraat Betsjoenanaland uitgevoer word;
- (b) ten opsigte van die goedere in Bylae B genoem, geen uitvoerpermit nodig is nie waar sodanige goedere na die Verenigde Koninkryk van Groot-Brittannie en Noord-Ierland, of enige Britse dominium, kolonie (uitgesonderd Hong-Kong), besitting, protektoraat of mandaatgebied, of na die Verenigde State van Amerika uitgevoer word; en
- (c) geen permit ingevolge hierdie kennisgewing ten opsigte van die uitvoer van goedere in Bylae C hiervan genoem, nodig is nie.

2. Aansoeke om uitvoerpermitté moet deur die applikant in die vorm van Bylae D (Vorm H.N. 100 X) hiervan ingeval word en moet op die wyse daarin aangedui ingediend word. Wanneer aansoeke ingediend word ten opsigte van goedere wat in meer as een besending uitgevoer sal word, moet applikante 'n aantekening daarvan op die aansoekvorms maak sodat vervolgstate in die vorm van Bylae F aangeheg kan word. Besonderhede van uitvoere kragtens die betrokke permit sal deur die Doeanedepartement op die vervolgstate aangegeteken word. (Aansoekvorms vir uitvoerpermitté is by enige Doeanekantoor of by die Sekretaris van Handel en Nywerheid verkrygbaar.)

3. Uitvoerpermitté is nie oordraagbaar nie en die goedere daarin vermeld mag alleen deur die persoon of firma daarin genoem as die afsender na die persoon of firma daarin genoem as die geadresseerde uitgevoer word; met dien verstande dat waar die geadresseerde nie ten tyde van die aansoek om 'n permit bekend is nie, die Sekretaris van Handel en Nywerheid na goedgunke magtiging kan verleen tot die uitreiking van 'n permit sonder die naam van die geadresseerde.

*All Proclamations, Government and General Notices published for the first time, are indicated by a * in the left-hand upper corner.*

GOVERNMENT NOTICE.

The following Government Notice is published for general information:—

DEPARTMENT OF COMMERCE AND INDUSTRIES.

* No. 1515.] [23 July 1954.
CONSOLIDATION AND RELAXATION OF EXPORT CONTROL.

I, ERIC HENDRIK LOUW, Minister of Economic Affairs, acting under and by virtue of the powers vested in me by War Measure No. 146 of 1942, as amended, read with War Measure No. 75 of 1945, do hereby order as follows:—

1. As from the date of publication of this Notice, none of the goods listed in Schedules A and B hereto, shall be exported from the Union unless such goods are covered by an export permit issued under the authority of the Secretary for Commerce and Industries, and are exported under the conditions as are prescribed in the Schedules hereto, provided that—

- (a) in respect of the goods listed in Schedule A no export permit shall be required when such goods are exported to Basutoland, Swaziland and the Bechuanaland Protectorate;
- (b) in respect of the goods listed in Schedule B no export permit shall be required when such goods are exported to the United Kingdom of Great Britain and Northern Ireland, or any British Dominion, Colony (except Hong Kong), Possession, Protectorate or Mandated Territory or to the United States of America; and
- (c) no permit in terms of this notice shall be required in respect of the export of goods listed in Schedule C hereto.

2. Applications for export permits shall be completed by the applicant in the form of Schedule D (Form C.I. 100 X) hereto, and shall be submitted in the manner indicated therein. When applications are submitted in respect of goods which will be exported in more than one consignment, applicants should endorse the application forms accordingly in order that continuation sheets as per Schedule F may be attached. Particulars of exports against the relative permit will be recorded on the continuation sheets by the Customs Department. (Application forms for export permits may be obtained from any Customs House or from the Secretary for Commerce and Industries).

3. Export permits are not transferable and the goods mentioned therein may be exported only by the person or firm named therein as consignor to the person or firm named therein as consignee; provided that where the consignee is not known at the time of application for a permit, the Secretary for Commerce and Industries in his discretion may authorise the issue of a permit omitting the name of the consignee.

RAAD VAN BEHEER OOR DIE VEE- EN VLEISNYWERHEID.

- (1) Huide en velle (uitgesonderd merinoskaapvelle en angorabokvelle, karakool- en volstruisvelle en alle velle van wilde diere en reptiele) indien dit uit die gebied Suidwes-Afrika uitgevoer word.
- (2) Huid- en velstukke, hetsy onverwerk, gedeeltelik verwerk of verwerk.
- (3) Leer, alle tipes, maar uitgesonderd leerfabrikate.

OPMERKING.—Huide en velle wat uit die Unie van Suid-Afrika uitgevoer word, word kragtens Goewermentskennisgewing No. 2859, soos in *Staatskoerant* No. 5201 van 18 Desember 1953 gepubliseer, deur die Raad van Beheer oor die Vee- en Vleisnywerheid beheer.

KONTOROLEUR VAN MOTORVOERTUIE.

Dit items hieronder aangedui, as hulle uit nie-sterling gebiede in 'n gemonterde toestand of as los dele ingevoer word.

(OPMERKING.—Kyk ook Kontroleur van Motorvoertuie, Bylae B.)

- (1) Motorvoertuie waarvan al die wiele aangedryf kan word.
- (2) Trekkers, olifantskrappers, loopkrame, sleepwaens, selfaangedrewe masjiengrawe en selfaangedrewe padmaakmasjinerie. [Kyk ook item (9), Diverse, Bylae B.]
- (3) Passasiers- en kommersiële motornoertuie, maar uitgesonderd motorfietse en motorfietse met syspanwaens en dwergmotorfietse, behoudeens die volgende voorwaardes:
 - (a) Geen permit word ten opsigte van 'n mtoorvoertuig wat deur die eienaar daarvan vir 'n tydperk van hoogstens drie maande in verband met sy tydelike afwesigheid uit die Unie uitgevoer word, vereis nie, mits sodanige eienaar voor sy vertrek uit die Unie by die bevoegde doeane-amptenaar by die uitklaringsentrum 'n kennisgewing in die vorm van Bylae E van hierdie kennisgewing by die Sekretaris van Handel en Nywerheid ingedien het waarin die inklaarsentrum waardeur die voertuig na die Unie teruggebring sal word, genoem word.
 - (b) Die eienaar van 'n motorvoertuig wat kragtens paragraaf (a) hierbo uit die Unie uitgevoer is, moet die motorvoertuig binne 'n tydperk van drie maande nadat dit uitgevoer is, deur die inklaarsentrum wat in die kennisgewing genoem is, terugbring.
 - (c) Die Sekretaris van Handel en Nywerheid kan die tydelike uitvoer van motorvoertuie vir enige tydperk op die volgende voorwaardes toeklaat:
 - (i) Die aansoek om uitvoer moet op Vorm H.N. 100 X, soos in Bylae D van hierdie kennisgewing aangedui, gedoen word.
 - (ii) Die eienaar van die motorvoertuig moet die Sekretaris van Handel en Nywerheid in die vorm van Bylae E van hierdie kennisgewing verwittig van die inklaarsentrum, waardeur die motorvoertuig na die Unie teruggebring sal word.
 - (d) Die eienaar van 'n motorvoertuig wat kragtens so 'n permit uit die Unie uitgevoer is, moet binne die tydperk wat in die permit genoem is, die motorvoertuig deur die inklaarsentrum wat in die kennisgewing genoem is, na die Unie terugbring.

LIVESTOCK AND MEAT INDUSTRIES CONTROL BOARD.

- (1) Hides and skins (excluding merino sheep skins and angora goat skins, karakul, ostrich and all wild animal and reptile skins) when exported from the Territory of South West Africa.
- (2) Hide and skin pieces, whether unprocessed, partly processed or processed.
- (3) Leather, all types but excluding leather manufacturers.

NOTE.—Hides and skins when exported from the Union of South Africa are controlled under Government Notice No. 2859 as published in *Government Gazette* No. 5201, dated the 18th December, 1953, by the Livestock and Meat Industries Control Board.

CONTROLLER OF MOTOR VEHICLES.

The items specified below, when of non-sterling origin, whether imported in an assembled condition or in parts.

NOTE.—See also Controller of Motor Vehicles—Schedule B.

- (1) Automotive vehicles in which power may be applied to all wheels.
- (2) Tractors, bulldozers, mobile cranes, trailers, self-propelled mechanical excavators and self-propelled road-making machinery. [See also item (9) Misc. Sch. B.]
- (3) Passenger and commercial motor vehicles but excluding motor cycles and motor cycle and side-car combinations and scooters, subject to the following conditions:
 - (a) No permit shall be required in respect of any motor vehicle which is exported by the owner thereof for a period of not more than three months in connection with the temporary departure of the owner thereof from the Union; provided such owner has, before his departure from the Union, handed in to the proper officer of customs at the point of exit, a notification to the Secretary for Commerce and Industries in the form of the Annexure E to this notice, of the point of entry through which the motor vehicle will be returned to the Union.
 - (b) The owner of any motor vehicle which has been exported from the Union in terms of paragraph (a) above shall return the motor vehicle to the Union through the point of entry specified in the notification within a period of three months after it has been so exported.
 - (c) The Secretary for Commerce and Industries may permit the temporary export of motor vehicles for any period on the following conditions:
 - (i) Application for export shall be made on Form C.I. 100 X as indicated in Schedule D to this notice.
 - (ii) The owner of the motor vehicle shall notify the Secretary for Commerce and Industries in the form of the Annexure E to this notice, of the point of entry through which the motor vehicle will be returned to the Union.
 - (d) The owner of any motor vehicle which has been exported from the Union under any such permit, shall return the motor vehicle to the Union through the point of entry specified in the notification within the period stated in the permit.

CONTROLLER OF NON-FERROUS MATERIALS.

- (a) Aluminium in enige vorm, met inbegrip van afval, oorblyfsels, as, poeier of stof.
- (b) Antimoon en die legerings en ertse daarvan.

- (a) Aluminium in any form, including scrap, residues, ashes, powder or dust.
- (b) Antimony and its alloys and ores.

- (c) Geelkoper, brons, geskutmetaal en koper in enige vorm, met inbegrip van afval, snippers, afdraaisels, snysels, vylsels, veegsels, skuim, as, afskepel, slak en kopererts.
- (d) Chroom en die ertse en legerings daarvan.
- (e) Kobalt in enige vorm, met inbegrip van kobaltoksiede en -soute.
- (f) Grafiët, sintetiese grafiët en amorfse koolstof (uitgesonderd houtskool) in enige vorm, met inbegrip van afval, oorblyfsels en afknipsels.
- (g) Lood in enige vorm, met inbegrip van loodaafval, batteryplaatafval, loodskuim, oorblyfsels, as en die afskepel van lood, asook loodertse.
- (h) Magnesium en die legerings en ertse daarvan.
- (i) Mangaan en die legerings en ertse daarvan.
- (j) Molibdeen in enige vorm, met inbegrip van ertse en konsentrate en ferromolibdeen, molibdeensuur en molibdeensoute (met inbegrip van kalsiummolibdaat en molibdeenoksied).
- (k) Nikkel, soos volg:—
- Ertse, konsentrade en rusteen.
 - Nikkelmetaal en nikkelbasislegerings in die vorm van gietblokke, knuppels, stawe, korrels, stange, plate, stroke, koeëls, platstukke, sirkels, skywe, skuim, gietondstof, foelie, poeier in olie, lint, ringe, buise en draad.
 - Anodes, katodes, elektrodes en sveissstange.
 - Katalisators en nikkeloksied.
 - Transformators en smoerspoellamelleringe en kernmontasies van nikkelmetaal of nikkelbasislegerings gemaak. (Hierby word sulke nikkel-legerings soos Perm-legering, MU-metaal, Armco 48, Carpenter 49, Hipernik en Delfamax ingesluit, maar genoemdes is nie noodwendig die enigste nie.)
- (l) Soldeersel en witmetaal in enige vorm, met inbegrip van afval, drukkersafvalmetale en afvallegerings wat tin bevat.
- (m) Silikon.
- (n) Tin in enige vorm, met inbegrip van stawe, stange, gietblokke, afval, as, skuim, oorblyfsels en afskepel, asook tinkonsentrate en -ertse.
- (o) Wolfram, soos volg:—
- Metale en legerings, met inbegrip van karbiede, maar uitgesonderd draad en gloeilampdraad (oorgeblaas of kaal);
 - wolframaal;
 - samestellings, uitgesonderd wolfram-organiese kunsmatige kleurstof wat minder as 20 persent wolfram bevat.
- (p) Sink in enige vorm, met inbegrip van afval, oorblyfsels, as, poeier, stof, konsentrate en ertse.

KONTROLEUR VAN PAPIER.

- (1) Alle houtpap en papierpap.
- (2) Skeurpapier: Die volgende in skeurvormpapier, bord, karton, papiersakke en -sakkies, bord- of kartondose en kartonhouers, koerante, boeke en tydskrifte, met inbegrip van surplustydskrifte.

Met dien verstande dat geen permit vir die uitvoer van die materiaal wat onder (2) hierbo genoem is, vereis word nie as dit vir die verpakking van goedere vir uitvoer gebruik word.

DIVERSE.

- (1) Akkumulatorbatterye (van die loodsuurtipe), nuut of gebruik, en onderdele daarvan (met uitsondering van dié wat 'n integrerende onderdeel van 'n voertuig uitmaak).
- (2) Alle metaalhouers met 'n inhoudsmaat van 25 gelings of meer, behalwe wanneer hulle as houers vir uitvoerprodukte gebruik word.
- (3) Alle goedere wat in die Unie ingevoer en weer as gratis geskenke uitgevoer word.

- (c) Brass, bronze, gunmetal and copper in any form, including scrap, webbings, turnings, cuttings, swarf, sweepings, drosses, ashes, skimmings, slag and copper ore.
- (d) Chrome and its alloys and ores.
- (e) Cobalt in any form, including cobalt oxides and salts.
- (f) Graphite, artificial graphite, and amorphous carbon (excluding charcoal) in any form, including scrap, residues and off-cuts.
- (g) Lead in any form, including lead scrap, scrap battery plates, drosses, residues, ashes and skimmings from lead as well as lead ores.
- (h) Magnesium and its alloys and ores.
- (i) Manganese and its alloys and ores.
- (j) Molybdenum in any form, including ores and concentrates and ferro-molybdenum, molybdic acid and molybdenum salts (including calcium molybdate and molybdc oxide).
- (k) Nickel, as follows:—
- Ores, concentrates and matte;
 - nickel metal and nickel base alloys in the form of ingots, billets, bars, grains, rods, sheets, strips, shot, plates, circles, discs, dross, flue dust, foil, powdered in oil, ribbons, rings, tubes and wire;
 - anodes, cathodes, electrodes and welding rods;
 - catalysts and nickel oxide;
 - transformer and choke laminations and core assemblies made of nickel metal or nickel base alloys. (This includes, but is not limited to, such nickel alloys as Perm-alloy, MU-metal, Armco 48, Carpenter 49, Hipernik and Delmax.)
- (l) Solder and white metal in any form, including scrap, scrap printers' metals and scrap alloys containing tin.
- (m) Silicon.
- (n) Tin in any form, including bars, rods, ingots, scrap, ashes, drosses, residues and skimmings as well as tin concentrates, and tin ores.
- (o) Tungsten, as follows:—
- Metals and alloys, including carbides, but excluding wire and filaments (coated or un-coated);
 - ferro-tungsten;
 - compounds, except tungsten-organic artificial colouring matter containing less than 20 per cent tungsten.
- (p) Zinc in any form, including scrap, residues, ashes, powder, dust, zinc ores and concentrates.

CONTROLLER OF PAPER.

- (1) All woodpulps and paper pulps.
- (2) Waste paper: The following in waste form—paper, board, cardboard, paper bags and pockets, board or cardboard boxes and cartons, newspapers, books and periodicals, including over-issues.

Provided that no permit shall be required for the export of the goods mentioned under (2) above when used for packing goods for export.

MISCELLANEOUS.

- (1) Accumulators (batteries of the lead acid type), new or used and components (excluding those fitted as an integral component of vehicles).
- (2) All metal containers of 25-gallon capacity or more, excepting when used to clothe commodities for export.
- (3) All goods which have been imported into the Union and are exported therefrom as free gifts.

NYWERHEIDSCHEMIKALIEË.

- (1) Asynsuur en asynsuuranhydried.
- (2) Asetoon.
- (3) Anilien.
- (4) Aluminiumchloried, watervry.
- (5) Bariumnitraat; bariumchromaat.
- (6) Kalsiumkarbied.
- (7) Kalsiumpermanganaat.
- (8) Koolstofswart, en mengsels bevattende koolstofswart, maar uitgesonderd lakvernis, verf, pastaverf en skil-deremaljes, tensy dit elders in hierdie groep gespesifieer word.
- (9) Sellulosenitraat wat (i) minstens 11·2 persent en hoogstens 12·3 persent stikstof, en (ii) minder as 11·2 persent stikstof bevat.
Sellulose, gesuiwer, wat minstens 88 persent alfasellulose bevat.
Chlorate; en preparate wat hoofsaaklik daaruit bestaan.
Chloorfluorometane.
Chroomverbindings soos volg:—
 - (a) Natriumdichromaat en -chromaat.
 - (b) Kaliumdichromaat en -chromaat.
 - (c) Chroomsuur.
 - (d) Chroomoksied, groen.
 - (e) Sinkchromaat.
 Kresielsuur, met inbegrip van para-, meta- en ortho-kresol en xilenol.
- (10) 1:2-dibroom-etaan (etileendibromied).
- (11) 2:4-dinitrofenol.
- (12) Dinitrotolueen-vastestowwe en -olies.
- (13) Diortho-tolieluretaan.
- (14) Difenielamien.
- (15) Difenieluretaan.
- (16) Etielbenseen.
- (17) Etiel-NN-difenielureum- (etiel-onsimmetriese, difeniellureum) etiellsellulose.
- (18) Etiel- en metielcentralite.
- (19) Etielfenieluretaan.
- (20) Flotteringsreagense, sinteties-organiëse.
- (21) Formaldehyd.
- (22) Furfural; furfurielalkohol, tetrahydrofurfurielalkohol.
- (23) Glyserien.
- (24) Guanidiennitraat.
- (25) Heksametileentetramien.
- (26) Hidrasien; hidrasienhidraat; hidrasiensoute.
- (27) Waterstofperoksied (sterkte van 50 volumes en meer).
- (28) Hidrochinon.
- (29) Isopropielalkohol; isopropieleter.
- (30) Loodasied; loodstifnaat en loodtiosianaat.
- (31) Knalkwik.
- (32) Magnesiumsilikaat (steatiet).
- (33) (a) Metielmetakriaatharssoorte in die vorm van plate (met inbegrip van stukke in 'n ander vorm wat geredelik in plate omgeskep kan word), stawe, blokke, stange, buise, vormpoeier en ongeslypte of geslypte prismas wat vir oogkundige gebruik geskik is, maar uitgesonderd geriffelde plate en enigeen van bogenoemde vorms wat ondeurskynend is.
OPMERKING.—By 'n praktiese toets vir ondeurskynendheid word die materiaal vir hierdie doel as ondeurskynend beskou as tikskef wat 1 duim agter materiaal met 'n dikte van $\frac{1}{2}$ duim geplaas word, gelees kan word. Die ondeurskynendheid moet nie aan kleursel of applique-werk op die oppervlakte toe te skryf wees nie.
(b) Metielmetakriatmonomeer, met of sonder die byvoeging van stabiliseerders, in grootmaathouers van minstens 10 gellings verpak, en metielmetakriaatharssoorte in die vorm van afval.
- (34) Metanol.
- (35) Metielisobutielketoon.

INDUSTRIAL CHEMICALS.

- (1) Acetic acid and acetic anhydride.
- (2) Acetone.
- (3) Anilene.
- (4) Aluminium chloride, anhydrous.
- (5) Barium nitrate; barium chromate.
- (6) Calcium carbide.
- (7) Calcium permanganate.
- (8) Carbon black, and mixtures containing carbon black but not including lacquers, paints, paste paints and painters' enamels unless specified elsewhere in this Group.
- (9) Cellulose nitrate containing (i) not less than 11·2 per cent and not more than 12·3 per cent nitrogen and (ii) less than 11·2 per cent nitrogen.
Cellulose, purified, containing not less than 88 per cent alphacellulose.
Chlorates; and preparations consisting mainly thereof.
Chlorofluoromethanes.
Chromium compounds as follows:—
 - (a) Sodium dichromate and chromate.
 - (b) Potassium dichromate and chromate.
 - (c) Chromic acid.
 - (d) Chrome oxide, green.
 - (e) Zinc chromate.
 Cresylic acid including para, meta, and ortho-cresol and xylene.
- (10) 1:2-Dibromoethane (ethylene dibromide).
- (11) 2:4-Dinitrophenol.
- (12) Di-nitro-Toluene solids and oils.
- (13) Diortho-tolyl-urethane.
- (14) Diphenylamine.
- (15) Diphenyl-urethane.
- (16) Ethyl benzene.
- (17) Ethyl-NN-diphenyl-urea (ethyl unsymmetrical diphenyl-urea) ethyl cellulose.
- (18) Ethyl and methyl centralites.
- (19) Ethyl phenyl-urethane.
- (20) Flotation reagents, synthetic organic.
- (21) Formaldehyde.
- (22) Furfural, furfuryl alcohol, tetrahydrofurfuryl alcohol.
- (23) Glycerine.
- (24) Guanidine nitrate.
- (25) Hexamethylenetetramine.
- (26) Hydrazine; hydrazine hydrate; hydrazine salts.
- (27) Hydrogen peroxide (50 volumes strength and over).
- (28) Hydroquinone.
- (29) Isopropylalcohol; isopropylether.
- (30) Lead azide, lead styphnate and lead thiocyanate.
- (31) Mercury fulminate.
- (32) Magnesium silicate (steatite).
- (33) (a) Methyl methacrylate resins in the form of sheet (including sheet shaped into any other form readily convertible into sheet), rods, blocks, bars, tubes, moulding powders and prism blanks or ground prisms suitable for optical use, except corrugated sheet and any of the above forms which are opaque.
NOTE.—As a practical test of opacity for this purpose, the material is not considered opaque if, in a thickness of $\frac{1}{2}$ inch, typescript can be read when placed one inch behind the material. The opacity must not be due to surface coloration or applique.
(b) Methyl methacrylate monomer, with or without the addition of stabilisers, packed in bulk containers of 10 gallons or more; and methyl methacrylate resins in the form of scrap.
- (34) Methanol.
- (35) Methyl isobutylketone.

- (36) Metiel-NN-difenielureum (metiel-onsimmetriese difenielureum).
 (37) Monochloorbenseen.
 (38) Mononitrobenseen.
 (39) Naftamineraalspiritus en -oplosmiddels (met inbegrip van koolteernafta).
 (40) NN-dimetielanilien.
 (41) NN-difenielureum (onsimmetriese difenielureum).
 (42) Salpetersuur; ammoniumnitraat; kaliumnitraat.
 (43) Nitroguanidien.
 (44) p-aminofenol, en die soute daarvan.
 (45) Penta-eritritoltetranitrate.
 (46) Perchloorsuur, en die soute daarvan.
 (47) Persulfate, natrium-, kalium- en ammonium-
 (48) Fenol.
 (49) Fosfor en rooi fosfor; fosforsuur-katalisator (Victor).
 (50) Ftaalanhidried en ftaalesters.
 (51) Pikriensuur (trinitrofenol).
 (52) Poli-etileen.
 (53) Poli-isobutileen.
 (54) Politetrafluoretilene.
 (55) Kaliumpermanganaat.
 (56) Kaliumtetroksied.
 (57) p-fenileendianien.
 (58) Silikon(-oon) organiese bestanddele van die volgende aard :—
 (a) Silikon(-oon)-hoëvakuumghries.
 (b) Silikon(-oon)-afsluiterghries, hoëvakuum- of gewone.
 (c) Silikon(-oon) rubber.
 (59) Natriumasied.
 (60) Natriumsianied, chemiese grade.
 (61) Natrium, metaal.
 (62) Natriumperoksied.
 (63) Swawel (uit watter bron ook al): ru, vergruis, gemaal, geraffineer, gesublimeer en blom- en stuifkonsentrate en ander preparate wat minstens 85 persent swawel bevat, soos bv. toegerigte en benatbare swawel, maar nie nooddwendig dit alleen nie; swawelsuur: 93 per cent H_2SO_4 en sterker, met inbegrip van oleum (rokende swawelsuur).
 (64) Stireen (monomeer); dichloorstireen (monomeer); polidichloorstireen en vormpoeier, plate, stawe en buise daarvan.
 (65) Tetra-etiellood en tetra-etielloodvloeistof.
 (66) Talliumbroomjodied.
 (67) Titaantetrachloried.
 (68) Tolueen.
 (69) Trikresielfosfaat.
 (70) Trifluoorchlooretilene (gepolimeriseer of nie).
 (71) Vanadiumkatalisators.
 (72) Viniel- en vinilideenharssoorte, vormpoeier, plate, stawe en buise.
- (36) Methyl-N,N-diphenyl-urea (methyl unsymmetrical, diphenyl-urea).
 (37) Monochlorobenzene.
 (38) Mononitrobenzene.
 (39) Naphtha' mineral spirits and solvents (including coal tar naphtha).
 (40) N, N-dimethylaniline.
 (41) N, N-diphenyl-urea (unsymmetrical diphenyl-urea).
 (42) Nitric acid; ammonium nitrate; potassium nitrate.
 (43) Nitroguanidine.
 (44) p-aminophenol and salts.
 (45) Pentaerythritol tetranitrates.
 (46) Perchloric acid and its salts.
 (47) Pursulphates: sodium, potassium and ammonium.
 (48) Phenol.
 (49) Phosphorus and red phosphorus; phosphoric acid catalyst (Victor).
 (50) Phthalic anhydride and phthalic esters.
 (51) Picric acid (trinitrophenol).
 (52) Polyethelene.
 (53) Polyisobutylene.
 (54) Polytetrafluoroethylene.
 (55) Potassium permanganate.
 (56) Potassium tetroxide.
 (57) P-phenylenediamine.
 (58) Silicon(e) organic components of the following kinds :—
 (a) Silicon(e) high vacuum grease;
 (b) silicon(e) stopcock grease, high vacuum or regular;
 (c) silicon(e) rubber.
 (59) Sodium azide.
 (60) Sodium cyanide, chemical grades.
 (61) Sodium, metallic.
 (62) Sodium peroxide.
 (63) Sulphur (from whatever source): crude, crushed, ground, refined, sublimed and flowers and spray concentrates and other preparations containing 85 per cent or more sulphur, such as but not limited to conditioned sulphur and eatable sulphur; sulphuric acid: 93 per cent H_2SO_4 and stronger, including oleum (fuming sulphuric acid).
 (64) Styrene (monomer); dichlorostyrene (monomer); poly-dichlorostyrene and its moulding powders, sheets, rods and tubes.
 (65) Tetra-ethyl lead and tetra-ethyl lead fluid.
 (66) Thallium bromoiodide.
 (67) Titanium tetrachloride.
 (68) Toluene.
 (69) Tricresyl phosphate.
 (70) Trifluorochloroethylene (polymerised or not).
 (71) Vanadium catalysts.
 (72) Vinyl and vinylidene resins, moulding powders, sheets, rods and tubes.

ELEKTROTEGNIEK.

ELEKTRIESE TOERUSTING.

- (1) Antenne-patroonregstreerders vir gebruik by frekwensies van meer as 250 megahertz.
 (2) Versterkers, enigeen van die volgende:—
 (a) Versterkers ontwerp om by frekwensies van meer as 100 megahertz te werk.
 (b) Ingestermede versterkers met 'n bandbreedte (beskryf as die frekwensieband waaroor die kragversterking nie laer as die helfte van sy maksimum waarde daal nie) wat 5 megahertz of 10 persent van die gemiddelde frekwensie te boe gaan, watter ook al die laagste is. (Die gemiddelde frekwensie word beskryf as die rekenkundige gemiddelde van die frekwensies waarop die kragversterking die helfte van sy maksimum waarde is).
 (c) Oningestemde versterkers met 'n bandbreedte, soos in subitem (b) hierbo omskryf, wat 5 megahertz te boe gaan.

ELECTRONICS.

ELECTRICAL EQUIPMENT.

- (1) Antenna pattern recorders for use at frequencies over 250 megacycles per second.
 (2) Amplifiers, any of the following:—
 (a) Designed to operate at frequencies in excess of 100 megacycles.
 (b) Tuned amplifiers having a band-width (defined as the band of frequencies over which the power amplification does not drop to less than one-half of its maximum value), which exceeds 5 megacycles or 10 per cent of the mean frequency whichever is less. (The mean frequency is defined as the arithmetic mean between the frequencies at which the power amplification is one-half of its maximum value).
 (c) Untuned amplifiers having a band-width as defined in sub-item (b) above, which exceed 5 megacycles per second.

- (d) G.S.-versterkers met 'n geruispeil (in die toeroerkring genoem) van 10-16 watt of minder en/of 'n zeroafwyking in 1 uur wat met 'n verandering van 10-16 watt of minder in die toeroerkring ooreenstem.
- (e) Versterkers met 'n totale kragafvoer van meer as 500 watt by enige frekwensie of frekwensies tussen 15 kilohertz en 200 kilohertz.
- (3) Toestelle wat ontwerp is om radio-ontvangsteurings te veroorsaak of anders om radio-ontvangs te belemmer, en gespesialiseerde dele van sodanige toestelle.
- (4) Toestelle om voorwerpe deur middel van magnetiese of akoestiese of ultrasoniese metodes onder die water te ontdek of aan te wys (uitgesonderd seediepte-peilingstoestelle van die soort wat slegs gebruik word om die diepte van water te meet of om die afstand van onderwatervoorwerpe vertikaal onder die apparaat vas te stel), en gespesialiseerde onderdele van sodanige toestelle.
- (5) Toestelle van die soort wat gebruik word om voorwerpe te ontdek of om die relatiewe rigting, posisie of beweging van voorwerpe deur middel van die konstante snelheid of die reglynige voortplantingseenskappe van elektromagnetiese golwe vas te stel, gespesialiseerde onderdele en toebehore vir sodanige apparaat, en gespesialiseerde toerusting vir die toets of kalibrering van sodanige apparaat.
- (6) (a) Elektroniese balanse wat gewigverskille van minder as tien mikrogram kan aanwys, en gespesialiseerde onderdele vir sodanige balanse.
 (b) Balanse met 'n gevoeligheid van 0·01 milligram of fyner.
- (7) Brûe vir die meet van kapasitansie, impedansie en induktansie, en/of weerstandspresisietipes.
- (8) Kondensators, soos volg:—
 (a) Vaste kondensators.
 (b) Radiofrekwensiekondensators.
 (c) Alle vakuum- en gaskondensators.
- (9) Verbindingstoerusting van die soort wat spesiaal vir gebruik in vliegtuie ontwerp is, en gespesialiseerde onderdele vir sodanige toerusting.
- (10) Verbindingstoerusting van dié soort wat van infrarooi straling of ultrasoniese golwe gebruik maak, en gespesialiseerde onderdele vir sodanige toerusting.
- (11) Elektroniese rekenmasjiene, uitgesonderd handelsrekenmasjiene.
- (12) (a) Kristaldiodes wat by 'n frekwensie van 100 of meer megahertz kan werk.
 (b) Kristaldiodes wat germanium of silikon bevat en van die soort is wat ontwerp is om by frekwensies van minder as 100 megahertz te werk.
 (c) Kristaldiodes, sonder inagneming van frekwensies.
- (13) Digtheidsmeters wat regstreeks deur middel van 'n fotovermenigvuldigerbuis meet.
- (14) Elektriese of elektroniese impulsregistreerders of -tellers wat ontwerp is om teen meer as 20 tellings per sekonde te werk.
- (15) Elektriese motore, n.e.v. [Kyk ook item (22), Diverse, Bylae B.]
- (16) Elektromagnetiese golfgeleiers, resonansiekringe of uitstralers van die soort wat by frekwensies van meer as 600 megahertz gebruik word, en artikels of toerusting wat enigeen van die genoemde items bevat of wat spesiaal ontwerp is om met sulke items verbind of daarin bevat te word.
- (17) Elektriese vakuumbuisse of -lampe van die volgende aard:—
 (a) Elektronestraalbuisse met 'n skermagloed van langer as 'n half sekonde;
 (b) fotovermenigvuldigerbuisse, en gespesialiseerde onderdele daarvoor;
 (c) gelykrikg- of versterkerbuisse, kouekatodetipes, en gelykrikgbuisse van die hoëvakuum- of warmkatode-kwikdamptipe;
 (d) televisiekamerabuisse, en ander buisse waarin voorsiening gemaak word vir die akkumulering van 'n elektriese lading in 'n ruimtepatroon;
 (e) dié wat ontwerp is om swaar mekaniese trilling of skok te weerstaan;

- (d) D.C. amplifiers having a noise level (referred to in the input circuit) of 10-16 watts or less and/or a zero drift in 1 hour corresponding to a change in input power of 10-16 watts or less.
- (e) Amplifiers capable of a total power output in excess of 500 watts at any frequency or frequencies between 15 kilocycles per second and 200 kilocycles per second.
- (3) Apparatus designed to jam or otherwise interfere with radio reception, and specialised parts of such apparatus.
- (4) Apparatus for detecting or locating objects under water by magnetic or acoustic or ultra-sonic methods (except marine depth sounders of a kind used solely for measuring the depth of water or the distance of submerged objects vertically below the apparatus), and specialised components of such apparatus.
- (5) Apparatus of a kind used for detecting objects or for determining the relative direction, position, or motion of objects—by means of the constant velocity or rectilinear propagation characteristics of electromagnetic waves, specialised parts and accessories of such apparatus, and specialised equipment for testing or calibrating such apparatus.
- (6) (a) Balances, electronic, capable of detecting differences in weight smaller than 10 micrograms; and specialised parts for such balances.
 (b) Balances of a sensitivity of 0·01 milligrams or better.
- (7) Bridges for measuring capacitance, impedance, inductance and/or resistance-precision types.
- (8) Capacitors, as follows:—
 (a) Fixed capacitors.
 (b) Radio-frequency capacitors.
 (c) All vacuum and gas capacitors.
- (9) Communication equipment of a kind specially designed for use in aircraft, and specialised parts for such equipment.
- (10) Communication equipment of a kind using infra-red radiation or ultra-sonic waves, and specialised parts for such equipment.
- (11) Computers, electronic, other than business-type calculating machines.
- (12) (a) Crystal diodes capable of operating at a frequency of 100 or more megacycles per second;
 (b) crystal diodes, incorporating germanium or silicon of a kind designed to operate at frequencies below 100 megacycles per second;
 (c) crystal triodes, regardless of frequencies.
- (13) Densitometers measuring directly by photomultiplier tube.
- (14) Electric or electronic impulse registers or counters designed to operate at over 20 counts per second.
- (15) Electric motors, n.e.s. [See also item (22) Misc. Sch. B].
- (16) Electromagnetic wave guides, resonant circuits or radiators of a kind used at frequencies exceeding 600 megacycles per second, and articles or equipment incorporating, or specially designed to be connected to or incorporated in any such item.
- (17) Electric vacuum tubes or valves of the following description:—
 (a) Cathode ray tubes, with screen afterglow longer than $\frac{1}{2}$ second;
 (b) photomultiplier tubes and specialised parts thereof;
 (c) rectifier or amplifier tubes, cold-cathode types, and rectifier tubes of the high-vacuum or hot-cathode mercury-vapour type;
 (d) television camera tubes, and other tubes in which provision is made for the storage of electric charge in a spatial pattern;
 (e) those designed to withstand severe mechanical vibration or shock;

- (f) tiratron- en ontstekingsbuise wat 'n maksimum stroom van meer as 10 ampères kan gele; (g) elektroniese vakuumlampe (-buise) wat 'n maksimum stroom van meer as 10 ampères kan gele, uitgesonderd dié wat in hierdie paragraaf, nl. (17), gedeck word;
- (h) vakuumbuise met 'n onafgebroke plaatverspreidingsvermoë van 150 watt of meer, uitgesonderd dié wat in hierdie paragraaf, nl. (17), gedeck word;
- (i) buise van die soort wat deur 'n ronde gat met 'n deursnee van 'n half duim (1·27 cm.) kan gaan;
- (j) buise van dié soort wat by frekwensies van 100 megahertz of meer gebruik word;
- (k) buise van die soort wat met 'n potensiaalverskil van meer as 9,000 volt tussen elektrodes gebruik word.
- (18) Elektrometers (nie die studentetipe nie).
- (19) Elektroniese verwarmingsinstrumente wat in die metallurgiese bedryf gebruik word.
- (20) Frekwensiometers van die volgende soorte:—
- (a) Frekwensiometers wat ontwerp is om frekwensies van 600 megahertz of meer te meet, en gespesialiseerde onderdele daarvoor;
- (b) frekwensiometers van die frekwensiointesetipe (d.w.s. instrumente waarmee seine met reëlbare frekwensies, bekend tot presies een deel op 'n miljoen, deur die heterodinekombinasie van seine met ossilators met kristalkontrole geproduceer word).
- (21) Impedansiemeetapparaat (apparaat van die soort wat gebruik word om elektriese impedansie by frekwensies van meer as 60 megahertz te meet), en gespesialiseerde onderdele daarvoor.
- (22) Infrarooi-absorpsiometers.
- (23) Ionosfeerregistreerapparaat, volkome outomaties.
- (24) Lekverklinkinstrumente (instrumente wat geringe gaslekkasies onder hoë vakuum of hoë druk kan aantoon).
- (25) Meteorologiese peilballonne, 1,100 gram of groter.
- (26) Toestelle vir die toets van mikrohardheid.
- (27) Mikroskope (a) elektronies (b) metallurgies, of toestelle (verligters) wat spesiaal ontwerp of aangepas is om by enige ander mikroskoop aangebring te word vir die ondersoek van ondeurskyneride monsters, hetsy saam met 'n kamera (met metallograaf) of nie.
- (28) Optiese kurweproduksietoestelle (slypmasjiene, vlakslypmasjiene en poleerders), en onderdele.
- (29) Ossillograwe (registreer-) en ossiloskope (elektronestraal-), en toebehore.
- (30) Foto-elektriese selle met maksimum gevoeligheid by 'n lengtegolf langer as 7,000 angstrom-eenhede.
- (31) (a) Kragtoerusting vir die opwekking, transformasie, gelykrigting en omsetting, transmissie en kragverdeling van elektrisiteit, reëlinrigtings en toebehore, substasietoerusting en onderdele daarvoor;
- (b) kragstroombrekers, met 'n werkspanning van 2·3 kVA. of meer en met 'n onderbrekingsvermoë van 50,000 kVA. of meer, en onderdele spesiaal daarvoor ontwerp;
- (c) outomatiese en half-outomatiese toerusting vir die aansit, afskakeling, omstelling en snelheidsbeheer van elektriese motore van 60 pk. (45 kVA. by eenheidskragfaktor) en meer, n.e.v., en onderdele spesiaal daarvoor ontwerp;
- (d) gelykrigters: kwikboog- en mekaniese tipes, met gelykriegvermoë van 20 kV. en meer, en onderdele spesiaal daarvoor ontwerp.
- (32) Pulsmodulators wat elektriese impulse met 'n maksimum vermoë van meer as 10 kW kan produseer; en pulstransformatore en pulsformende toerusting wat gespesialiseerde onderdele van sodanige modulators is.
- (f) thyratron and ignition tubes, capable of conducting a peak current greater than 10 amperes;
- (g) vacuum valves (tubes) electronic, capable of conducting a peak current greater than 10 amperes, except those covered in this paragraph, viz. (17);
- (h) vacuum tubes capable of continuous plate dissipation of 150 watts or over, except those covered in this paragraph, viz. (17);
- (i) valves of a kind that can be passed through a circular hole one-half inch (1·27 cm.) in diameter;
- (j) valves of a kind used at frequencies of 100 megacycles or more per second;
- (k) valves of a kind used with a potential difference exceeding 9,000 volts between electrodes.
- (18) Electrometers (except student type).
- (19) Electronic heating instruments used in the metallurgical industry.
- (20) Frequency meters of the following kinds:—
- (a) Frequency meters designed for measuring frequencies of 600 megacycles per second or above; and specialised components thereof;
- (b) frequency meters of the frequency-synthesis type (being instruments by which signals with adjustable frequencies, known to an accuracy of one part in a million, are produced by the heterodyne combination of signals from crystal-controlled oscillators).
- (21) Impedance-measuring apparatus (apparatus of a kind used to measure electric impedance at frequencies over 60 megacycles per second), and specialised parts therefor.
- (22) Infra-red absorption meters.
- (23) Ionosphere recording apparatus, fully automatic.
- (24) Leak-detecting (instruments capable of detecting small leaks of gases under high vacuum or high pressure).
- (25) Meteorological sounding balloons, 1,100 grams or larger.
- (26) Micro-hardness testers.
- (27) Microscopes, (a) electronic, (b) metallurgical, or devices (illuminators) specially designed or adapted for attachment to any other microscope, for the purpose of examination of opaque specimens, whether or not in combination with a camera (metallograph).
- (28) Optical curve generators (grinders, "surfacers and polishers) and parts.
- (29) Oscillographs (recording) and oscilloscopes (cathode-ray) and accessories.
- (30) Photo-electric cells with peak sensitivity at a wavelength longer than 7,000 Angström units.
- (31) (a) Power-equipment: electric generating, transforming, rectifying and converting, transmission, power distribution, control and gear accessories, including sub-station equipment and parts thereof;
- (b) power circuit breakers, with an operating voltage of 2·3 kVA. or over and with an interrupting capacity of 50,000 kVA. or over, and specially designed parts;
- (c) automatic and semi-automatic equipment for the starting, stopping, reversing and speed control of electric motors of 60 h.p. (45 kVA. at unity power factor) and over, n.e.s., and specially designed parts;
- (d) rectifiers: mercury arc and mechanical types, with rectifying capacity of 20 kV. and over, and specially designed parts.
- (32) Pulse modulators capable of providing electric impulses of peak power exceeding 10 kW., and pulse-transformers and pulse-forming equipment being specialised parts of such modulators.

- (33) Pirometers: (a) optiese en (b) uitstralings-tipe.
- (34) Radioveldsterktemeters van die soort wat by frekwencies van meer as 60 megahertz gebruik word, en gespesialiseerde onderdele van sodanige meters.
- (35) Radiofrekvensie-seingenerators wat afgeskermde elektriese ossilators is en wat aangetref word by dempers van die soort wat gebruik word om seine met frekwencies van meer as 300 megahertz en sterktes met 'n maksimum waarde van minder as 1 mikrowatt of 10 millivolt te lewer, en gespesialiseerde onderdele vir sodanige generators.
- (36) Panoramradio-ontvangers, d.w.s. ontvangers wat 'n gedeelte van die radiofrekvensiespektrum automaties afoek en die ontvange seine sigbaar wys; en gespesialiseerde onderdele vir sodanige ontvangers. (Radio- en televisie-ontvangers van die huishoudelike tipe is uitdruklik van beheer vrygestel.)
- (37) Radiospektrumontleders, d.w.s. apparaat wat die enkelfrekvensiebestanddele van meerfrekvensie-ossilasies met frekwencies van meer as 30 kilohertz kan aantoon, en gespesialiseerde onderdele vir sodanige ontleders.
- (38) Radar- en radionavigasietoerusting (met uitsondering van rigtingsoekers) wat by frekwencies laer as 100 megahertz werk.
- (39) Radiosenders en onderdele.
- (40) Radiorelaistoerusting met baie hoë frekvensie.
- (41) Temperatuurgevoelige weerstande van die soort wat in bolometers of by die meet van elektriese krag van minder as 10 milliwatt gebruik word; maar nie elektriese lampe nie.
- (42) Draaiende elektriese masjinerie, soos volg:—
- (a) Elektriese generators (W.S. en G.S.), elektriese generatorstelle en motorgeneratorstelle (met inbegrip van mengtrappe) van 1·5 kVA. tot 375 kVA. (by eenheidskragfaktor), en spesiaal ontwerpde onderdele;
 - (b) elektriese motore van 60 pk. (of 45 kVA. by eenheidskragfaktor) tot 500 pk. (of 375 kVA. by eenheidskragfaktor), en spesiaal ontwerpde onderdele.
- (43) Spektrograwe, spektrometers en monochrometers.
- (44) Rekmetertoerusting wat elektries registreer, en gespesialiseerde onderdele daarvoor.
- (45) Onderdele van subminiaturelektronekringe, soos volg:—
- (a) dié wat nie spesiaal vir geneeskundige gehoor-toestelle ontwerp of bedoel is nie;
 - (b) dié wat spesiaal vir geneeskundige gehoor-toestelle ontwerp of bedoel is.
- (46) Telestuuroerusting wat vir die beheer van onbemande vliegtuie of geleide wapens geskik is, en gespesialiseerde onderdele vir sodanige toerusting.
- (47) Telegraftoerusting (masjiene) soos volg:—
- (a) mechaniese, elektromechaniese of elektroniese toerusting [uitgesonderd dié wat in (b) hieronder omskryf word] wat gebruik word vir die omsetting van die inligting bevat in skrif, drukskrif, lyn- of halftint-tekenings, kaarte, diagramme of foto's in elektriese golfsome wat vir transmissie oor verbindingskringe geskik is;
 - (b) toerusting wat ontwerp is om sodanige elektriese golfsome op te neem en om die inligting in sigbare vorm aan te toon;
 - (c) gespesialiseerde onderdele en toebehore vir sodanige toerusting.
- (48) Telefoon-toerusting wat uit draagfrekvensietoerusting vir telefooneindstasies en tussenherhalers of -versterkers bestaan en wat ontwerpe, onderdele of konstruktiewe sietegnieke inlyf watveral vir militêre veldtoepassing geskik is; en gespesialiseerde onderdele en submontasies daarvan (soos bv. kristaltraliefilters).
- (49) Telefoonskakelborde.
- (50) Tydmeettoerusting.
- (33) Pyrometers (a) optical (b) radiation type.
- (34) Radio field-strength meters of a kind used at frequencies exceeding 60 megacycles per second, and specialised parts of such meters.
- (35) Radio-frequency signal generators, being screened electric oscillators associated with attenuators of a kind used to provide signals having frequencies exceeding 300 megacycles per second and magnitudes less than 1 microwatt or 10 millivolts peak value, and specialised parts for such generators.
- (36) Radio receivers, panoramic, being receivers which search automatically part of the radio-frequency spectrum and indicate visibly the signals received, and specialised parts for such receivers. (Broadcast and television receivers of the domestic type are expressly exempt from control.)
- (37) Radio spectrum analysers, being apparatus capable of indicating the single-frequency components of multi-frequency oscillations having frequencies exceeding 30 kilocycles per second, and specialised parts for such analysers.
- (38) Radar equipment, and radio navigation equipment (other than direction-finders) operating at frequencies below 100 megacycles per second.
- (39) Radio transmitters and components.
- (40) Radio V.H.F. relay equipment.
- (41) Resistors, temperature-sensitive, of a kind used in bolometers or in the measurement of electric power below 10 milliwatts, but not including electric lamps.
- (42) Rotating electrical machinery, as follows:—
- (a) Electric generators, A.C. and D.C., electric generating sets, and motor generator sets (including frequency changers) of 1·5 kVA. to 375 kVA. (at unity power factor), and specially designed parts;
 - (b) electric motors of 60 h.p. (or 45 kVA. at unity power factor) to 500 h.p. (or 375 kVA. at unity power factor) and specially designed parts.
- (43) Spectographs, spectrometers and monochrometers.
- (44) Strain gauge equipment, electric recording, and specialised parts therefor.
- (45) Sub-miniature electronic circuit components, as follows:—
- (a) Other than those specially designed for, or intended for medical hearing aids;
 - (b) specially designed for, or intended for, medical hearing aids.
- (46) Telecontrol equipment suitable for controlling pilotless aircraft or guided weapons, and specialised parts for such equipment.
- (47) Telegraph equipment (machines) as follows:—
- (a) Mechanical, electro-mechanical, or electronic equipment [other than defined in (b) below] used to translate the information contained in written text, printed matter, line or half-tone drawings, maps, diagrams or photographs into electrical wave-forms suitable for transmission over communication circuits;
 - (b) equipment designed to accept such electrical wave-forms and display the information from them in visible form;
 - (c) specialised component parts and accessories for such equipment.
- (48) Telephone equipment being carrier frequency telephone terminal equipment, and carrier frequency intermediate repeater or amplifier equipment, which incorporate designs, components, or construction techniques specially suitable for military field application; and specialised components and sub-assemblies thereof (e.g. crystal lattice filters).
- (49) Telephone switchboards.
- (50) Time measuring equipment.

- (51) Transformators, n.e.v., en onderdele, soos volg:—
 (a) krag- en verdelingstransformators, 650 kVA. en meer, en spesiaal ontwerpte onderdele;
 (b) transformators wat van elektriese staal gemaak is en 'n kernverlies van meer as 1·7 watt per kilogram by 10,000 gauss en 50 siklusse per sekonde het;
 (c) transformators en smoorspoellamellering en kernmontasies met 'n kernverlies van meer as 1·7 watt per kilogram by 10,000 gauss en 50 siklusse per sekonde. [Kyk ook item (k) (v), nie-ysterhoudende stowwe, Bylae A.]
- (52) Ultrasoniese detektors en elektrokardiograwe, maar uitgesonderd elektrokardiograafuitvoere in klein hoeveelhede in gevalle waar uitvoerande vasgestel het dat hulle vir mediese doeleindes ontvang word.
- (53) Voltmeters, ammeters en mikroammeters (met inbegrip van die draagbare toestype) van die presisie-aanduidingstipes, met 'n sekurheid van 0·5 persent van die volle skaaldefleksie.
- (54) Warburg-toestelle vir die ondersoek van lewend weefsels.
- (55) Toerusting vir X-straalbuiging soos volg:—
 (a) X-straalbuigingseenhede;
 (b) X-straalbuse wat vir gebruik by X-straalbuigingsontleding ontwerp en bedoel is;
 (c) pocierkameras met 'n verwarmingselement vir temperatuur van 500° C. (932° F.) of hoër;
 (d) Ossillerende en draaiende enkelkristal-X-straalgoniometers met X-straalfilms- of -plaathouers;
 (e) elektronbuigingseenhede, en gespesialiseerde onderdele daarvoor;
 (f) X-straalbuse van 1,000 P.K.V. en meer.

DIVERSE.

- (1) Slypmiddels soos volg:—
 (a) Silikonkarbied, ru en in die vorm van korrels;
 (b) boorkarbied;
 (c) natuurlike korund;
 (d) smeltaluminiumoksied;
 (e) slapskywe van silikonkarbied in gritgroottes, en ander artikels wat hierdie korrels bevat;
 (f) slapskywe van natuurlike korund, en ander artikels wat hierdie korrels bevat;
 (g) slapskywe van smeltaluminiumoksied, en ander artikels wat hierdie korrels bevat.
- (2) Addisiestowwe vir motorolie, soos volg:—
 Korosiewerende addisiestowwe.
 Skuumwerende addisiestowwe.
 Oksidasiewerende addisiestowwe.
 Roeswerende addisiestowwe.
 Reinigingsaddisiestowwe.
 Hoëdrukaddisiestowwe.
 Oktaanryke vermengingsmiddels vir vliegtuigbrandstof.
 Mengsels wat geheel en al of hoofsaaklik uit een of meer van bogenoemde stowwe bestaan.
 Gietpuntverlaagmiddels.
 Viskositetindeksverbeteraars.
- (3) Lugsproeispuite wat 13½ kub. vt. (0·38 kub. meter) of meer sand en cement in die vorm van nat mengsels per uur kan hanteer, en toebehore daarvoor.
- (4) Antibiotiese middels, malariamiddels en sulfonamide-geneesmiddels.
- (5) Asbes, vervaardig, maar uitgesonderd asbessementprodukte, filterásbes, lasasbes en asbespakking.
- (6) Asbesweefstowwe en -draad.
- (7) Motoronderdele.
- (8) Ketelhuisinstallasie vir gebruik met (a) toerutsing vir die opwekking, transformasie, gelykrigting en omsetting, transmissie en kragverdeling van elektrisiteit, reëlinrigtings en toebehore, substasietoerusting, en onderdele vir bogenoemde, en (b) installasie vir die ontwikkeling van brandstofgas.
- (9) Olfantskrapers, skuinsskrapers en padskrapers.
- (10) Krane en kleppe, met of sonder korrosiewerende voering, en gekontroleerde outomatiese tipes.

- (51) Transformers, n.e.s., and parts, as follows:—
 (a) Power and distribution transformers, 650 kVA. and above, and specially designed parts;
 (b) transformers made from electrical steels, having a core loss in excess of 1·7 watts per kilogram at 10,000 gausses and 50 cycles per second;
 (c) transformers and choke laminations and core assemblies with a core loss in excess of 1·7 watts per kilogram at 10,000 gausses and 50 cycles per second. [See also item (k) (v), Non-Ferrous Materials, Sch. A.]
- (52) Ultrasonic detectors and electrocardiographs with the exception of electrocardiograph exports in small quantities in cases where exporting countries have made sure that they are received for medical purposes.
- (53) Voltmeters, ammeters, and microammeters (including portable test type)—precision indicating types, with an accuracy of 0·5 per cent of full scale deflection.
- (54) Warburg apparatus for the examination of living tissues.
- (55) X-ray diffraction equipment as follows:—
 (a) X-ray diffraction units;
 (b) X-ray tubes designed or intended for use in X-ray diffraction analysis;
 (c) powder cameras with heating element for temperatures of 500° C. (932° F.) or above;
 (d) single crystal oscillating and rotating X-ray goniometers with X-ray film or plate holders;
 (e) electron diffraction units and specialised components thereof;
 (f) X-ray tubes 1,000 P.K.V. and over.

MISCELLANEOUS.

- (1) Abrasives as follows:—
 (a) Silicon carbide, crude and in grains;
 (b) boron carbide;
 (c) natural corundum;
 (d) fused aluminium oxide;
 (e) grinding wheels of silicon carbide in grit sizes and other articles incorporating these grains;
 (f) grinding wheels of natural corundum, and other articles incorporating these grains;
 (g) grinding wheels of fused aluminium oxide, and other articles incorporating these grains.
- (2) Additives for motor oil, the following:—
 Anti-corrosion additives.
 Anti-foam additives.
 Anti-oxidation additives.
 Anti-rust additives.
 Detergent additives.
 Extreme pressure additives.
 High-octane blending agents for aircraft fuels.
 Mixtures wholly or mainly of one or more of the above.
 Pour point depressants.
 Viscosity index improvers.
- (3) Air-operated spray guns capable of placing 13½ cu. ft. (0·38 cubic meters) or more of wet mixtures of cement and sand per hour, and accessories therefor.
- (4) Antibiotics, anti-malaria and sulphonamide drugs.
- (5) Asbestos, manufactured, excepting asbestos cement products, filters asbestos, and asbestos jointing and packing.
- (6) Asbestos textiles and yarns.
- (7) Automotive parts.
- (8) Boiler house plant for use with (a) equipment for electric generating, transforming, rectifying and converting, transmission, and power distribution; control gear and accessories, sub-station equipment and parts for the foregoing and (b) plant for the production of fuel gas.
- (9) Bulldozers, angledozers, trail-builders.
- (10) Cocks and valves, with or without corrosive-resistant lining, and controlled automatic types.

- (11) Kooks en kooksmeel, afkomstig van—
 (a) petroleum; or
 (b) koolteerpik.
- (12) Vervoerband.
- (13) Kompressieontstekingsmotore (diesel-) van die volgende tipes:—
 Wat 200 pk. tot 300 pk. met 'n draaisnelheid van 1,000 o.p.m. of meer kan ontwikkel.
 Wat 300 pk. tot 800 pk. met 'n draaisnelheid van 600 o.p.m. of meer kan ontwikkel.
 Wat meer as 800 pk. met 'n draaisnelheid van 400 o.p.m. of meer kan ontwikkel.
- (14) Kompressors en blasers, en onderdele daarvoor.
- (15) Industriële diamante, ru en ongeslyp, met inbegrip van diamantsplinters en diamantgruis. Ondanks andersluidende bepalings in klousule 1 (b) van hierdie kennisgewing vervaat, word 'n permit vereis vir die uitvoer van bostaande artikels na Maleia en Singapoer.
- (16) Dieselmotore, skeeptipes van 1,500 pk. of meer en minder as 200 o.p.m. of met 'n draaisnelheid van 200 o.p.m. of meer.
- (17) Dieselmotore van meer as 25 pk.
- (18) Dinamometers wat meer as 300 remperdekrag kan absorbeer.
- (19) Elektriese toerusting wat vir industriële elektriese smelt- en raffineeroonde (het sy vir, of as 'n onderdeel van 'n volledige oond) ontwerp is.
- (20) Elektriese oonde.
- (21) Elektriese generatorstelle.
- (22) Elektriese motore van meer as 1,000 pk. en outomatische reëlings om sulke motore aan te sit, tot stilstand te bring of om te stel.
- (23) Elektrodes vir snywerk onder water (bedekte buisstaal of keramiektypes).
- (24) Toerusting vir die vervaardiging en behandeling van chemikaliëe.
- (25) Masiengrawe (met inbegrip van kragskopgrawe).
- (26) Buigsame metaalbuis.
- (27) Hysvurk- en platformwaens.
- (28) Gietery-installasie.
- (29) Toerusting vir die produksie van brandstof.
- (30) Vlamkaste en oonde, alle weerstandstipes, vir hittebehandeling en tempering, en elektriese onderdele daarvoor.
- (31) Petrolmotore.
- (32) Geofisiese prospekteertoerusting.
- (33) Staal met verguldmetaal beslaan, vir koelhulse.
- (34) Geskutsmeestukke en -giestukke, ru en ru-legering.
- (35) Girokompassse; gyroherhalers.
- (36) Plateringsinstallasies vir harde chroom (uitgesonderd die klein vaatjietype elektroplateringsinstallasies vir sierdoeleindes).
- (37) Hidrouliese vloeistowwe of olieseorte, kasteroliebasis.
- (38) Ysterpoeier en ysterlegeringpoeier.
- (39) Landingsmatte vir vliegtuie.
- (40) Vloeistofgomstremmers.
- (41) Lokomotiewe en lokomotiefonderdele.
- (42) Domkrage, met 'n hysvermoë van 10 ton of meer.
- (43) Toerusting vir die hantering van materiaal, soos volg:—
 (a) Hysvurkwaens.
 (b) Platformwaens.
 (c) Ander waens, sleepwaens en stapeltoestelle van die industriële tipe.
- (OPMERKING.—Hierdie item dek slegs toerusting wat spesiaal vir die hantering van materiaal ontwerp is, soos bv. dié wat met kraanbalke en windasse toegerus is.)
- (44) Binnebrandskeepmotore, tipes met vergasser, buitenboordmotore van meer as 50 pk. en binneboordmotore van meer as 100 pk.
- (11) Coke and coke flour, derived from—
 (a) petroleum, or
 (b) coal tar pitch.
- (12) Conveyor belting.
- (13) Compression ignition (Diesel) engines of the following description:—
 Capable of developing 200 h.p. to 300 h.p. with rotary speed of 1,000 r.p.m. or over.
 Capable of developing 300 h.p. to 800 h.p. with rotary speed of 600 r.p.m. or over.
 Capable of developing over 800 h.p. with rotary speed of 400 r.p.m. or over.
- (14) Compressors and blowers and parts thereof.
- (15) Diamonds, industrial, rough and uncut, including splints and borts. Notwithstanding anything contained in clause 1 (b) of this notice, a permit will be required for the export of the foregoing to Malaya and Singapore.
- (16) Diesel engines, marine types, of 1,500 h.p. or over and less than 200 r.p.m., or with rotary speed of 200 r.p.m. or over.
- (17) Diesel engines of over 25 h.p.
- (18) Dynamometers capable of absorbing more than 300 brake horsepower.
- (19) Electrical equipment designed for electric industrial melting and refining furnaces (whether for, or as a part of, a complete furnace).
- (20) Electric furnaces.
- (21) Electric generating sets.
- (22) Electric motors exceeding 1,000 h.p. and automatic controls for starting, stopping and reversing such motors.
- (23) Electrodes for underwater cutting (covered tubular steel or ceramic types).
- (24) Equipment for the manufacture and treatment of chemicals.
- (25) Excavators (including power shovels).
- (26) Flexible metal tubing.
- (27) Fork lift and platform trucks.
- (28) Foundry plant.
- (29) Fuel production equipment.
- (30) Furnaces and ovens, all resistor-types, heat-treating and annealing, and electric component parts thereof.
- (31) Gasoline engines.
- (32) Geophysical prospecting equipment.
- (33) Gilding metal clad steel, for bullet envelopes.
- (34) Gun forgings and castings, rough and alloy rough.
- (35) Gyro-compasses; gyro repeaters.
- (36) Hard-chrome plating plants (except small barrel-type electro-plating plants for decorative purposes).
- (37) Hydraulic fluids or oils, castor oil base.
- (38) Iron powder and iron alloy powder.
- (39) Landing mats for aircraft.
- (40) Liquid gum inhibitors.
- (41) Locomotives and locomotive parts.
- (42) Jacks, 10-ton capacity and over.
- (43) Materials—handling equipment, as follows:—
 (a) Fork-lift trucks;
 (b) platform trucks;
 (c) other industrial-type trucks, trailers and stackers.
- (NOTE.—This item covers only equipment specially designed for material handling, such as those equipped with crane booms and winches.)
- (44) Marine engines, internal combustion, carburettor types, outboard over 50 h.p., and inboard over 100 h.p.

- (45) Meet- en toetsinstrumente vir gebruik in ingenieurswerkplekke:—
- (a) Slipmate.
 - (b) Vergelykmate, horisontaal en vertikaal, opties en meganies.
 - (c) Toleransiemate.
 - (d) Mikrometers.
 - (e) Werkwinkel- en standaardmate.
- (46) Metaalhouers van die Duitse kan of soortgelyke type, d.w.s. houers met 'n inhoudsmaat van $3\frac{1}{2}$ gellings of meer, wat met handvatels en waterdige deksels toegerus is en vir die opberging en vervoer van petrol geskik is.
- (47) Toerusting vir die bespuiting van metaal.
- (48) Mynveegtoerusting, magneties en akoesties.
- (49) Mynboumasjinerie.
- (50) Nitroglycerien en dinamiet.
- (51) Nylontou en valskeermdoek.
- (52) Olieboor- en olieopsporingstoerusting en olieraffinadery- en olie- en aardgastoerusting.
- (53) Optiese glas (plaat of ruwe vorms) soos volg:—
- (a) Onbewerkte optiese glas;
 - (b) onbewerkte optiese filterglas.
- (54) Optiese instrumente wat by die ontwikkeling, produksie en toetsing van militêre toerusting gebruik kan word.
- (55) Papier en sintetiese film vir diëlektriese gebruik (condensatorweefsel), bedek of onbedek, 0·0015 duim (0·038 mm.) of dunner.
- (56) Toerusting vir die raffinering van petrol.
- (57) Petroleum en petroleumprodukte, naamlik—
- (a) petrol;
 - (b) lamp- en kragparafien;
 - (c) diesel, oond- en ander brandstofolie;
 - (d) mineraalspiritus;
 - (e) vliegtuigpetrol;
 - (f) bensien;
 - (g) smeeroolie en -ghries;
 - (h) bitumen;
 - (i) petroleumjellie;
 - (j) paraffienwas;
 - (k) maatstafbrandstowwe.
- (58) pH-meters en pH-beheerapparaat, vir nywerheidsprosesse.
- (59) Pype en buise, n.e.v., van enige korrosieverende materiaal gemaak, of daarmee uitgevoer.
- (60) Masjinerie vir die druk van fotoplanne, nie opties nie.
- (61) Presisie-, wetenskaplike en optiese instrumente, n.e.v., wat vir die ontwikkeling, produksie en toetsing van militêre toerusting gebruik kan word.
- (62) Precipitators (elektrostatis) wat 90 persent of meer (volgens die swartheidstoets) van alle deeltjies in die lug tot so klein as $1/250,000$ ste van 'n duim kan verwijder, en gespesialiseerde onderdele daarvoor.
- (63) Skroewe (skeeps-) met 'n deursnee van 12 duim (30 cm.) en meer, en blaaie vir sodanige skroewe.
- (64) Rollende spoorwegmateriaal, n.e.v., en onderdele daarvoor.
- (65) Selfaandreve padrollers, tandem- en driewieltype met staalbande, 8 ton of meer sonder ballastgewig.
- (66) (a) Draaiende elektriese masjinerie, met inbegrip van W.S.- en G.S.-generators, sinchrome- (draaiende) omsetters, faseomsetters, motore en motorgeneratorstelle (met inbegrip van mengtrappe) van 500 pk. of 375 kVA. (by eenheidskragfaktor) en meer, en spesiaal ontwerpde onderdele;
- (b) kragbronne vir generators, met inbegrip van stoomturbines, hidrouliese turbines en dieselmotore van 500 pk. en meer, en spesiaal ontwerpde onderdele daarvoor.
- (OPMERKING.—Bostaande dek kragbronne vir generators, ongeag of hulle saam met die generators of afsonderlik verskeep word.)
- (67) Rubberslang en -buise wat slegs van neopreenrubber en N-tipes rubber gemaak is.
- (45) Measuring and testing instruments for use in engineering workshops:—
- (a) Slip gauges;
 - (b) comparators, horizontal and vertical, optical and mechanical;
 - (c) limit gauges;
 - (d) micrometers;
 - (e) workshop and standard gauges.
- (46) Metal containers of the "jerry can" or similar type, i.e., containers of $3\frac{1}{2}$ gallon capacity or more, equipped with handles and watertight lids, and suitable for use in storing or transporting petroleum.
- (47) Metal-spraying equipment.
- (48) Minesweeping equipment, magnetic and acoustic.
- (49) Mining machinery.
- (50) Nitro-glycerine and dynamite.
- (51) Nylon rope and parachute cloth.
- (52) Oil well drilling and exploration equipment and oil refinery and oil and natural gas equipment.
- (53) Optical glass (slab or rough mouldings) as follows:—
- (a) Raw optical glass;
 - (b) raw optical filter glass.
- (54) Optical instruments capable of being used in the development, production and testing of military equipment.
- (55) Paper and synthetic film for dielectric use (condenser tissue), coated or uncoated, 0·0015 inch (0·038 mm.) or less in thickness.
- (56) Petroleum refining equipment.
- (57) Petroleum and petroleum products, namely—
- (a) petrol;
 - (b) illuminating and power paraffin;
 - (c) diesel, furnace and other fuel oils;
 - (d) white spirit;
 - (e) aviation gasoline;
 - (f) benzine;
 - (g) lubricating oils and greases;
 - (h) bitumen;
 - (i) petroleum jelly;
 - (j) paraffin wax;
 - (k) reference fuels.
- (58) pH meters and pH control apparatus, for industrial processes.
- (59) Pipe and tubing, n.e.s., made of or lined with, any corrosion-resistant material.
- (60) Photo plan printing machines, not optical.
- (61) Precision, scientific and optical instruments, n.e.s., capable of being used in the development, production and testing of military equipment.
- (62) Precipitators (electrostatic) capable of removing 90 per cent or more (by blackness test) of all airborne particles down to sizes as small as $1/250,000$ th of an inch; and specialised parts therefor.
- (63) Propellers (marine) of 12 in. (30 cms.) diameter and over; and blades for such propellers.
- (64) Railway rolling stock, n.e.s., and parts therefor.
- (65) Road-rollers, self-propelled, tandem and three-wheel steelyred types, 8-ton unballasted weight or over.
- (66) (a) Rotating electrical machinery including A.C. and D.C. generators, synchronous (rotary) converters, phase converters, synchronous condensers, motors, and motor generator sets (including frequency changers), of 500 h.p. or 375 kVA. (at unity power factor) and over; and specially designed parts;
- (b) Prime movers for generators, including steam turbines, hydraulic turbines and diesel engines, of 500 h.p. and over, and specially designed parts.
- (NOTE.—This covers prime movers for generators, whether accompanying or shipped separately from the generators.)
- (67) Rubber hose and tubing made from neoprene and N-types rubbers only.

- (68) Rubber, onbewerk (natuurlik en sinteties), rubber-oplossing, rubberafval en rubberverbindingsmiddels, soos volg:—
 (a) Anti-oksidermiddels;
 (b) nie-mineraalversnellingsmiddels;
 (c) draaiende hoëdrukboorslang (toetsdruk 3,000 p.v.k.d. en meer);
 (d) laers met watersmering (rubberprodukte).
- (69) Soekligbedieningseenhede, en onderdele daarvoor, en bedieningsdryfwerk vir soekligte.
- (70) Samestellings vir skeepsrompe, korrosiewerend en aanpakselwerend.
- (71) Stabiliseerders vir springstowwe, soos volg:—
 (a) etiel- en metielcentraliete;
 (b) difenielamien;
 (c) NN-difenielureum (onsimmetriese difenielureum);
 (d) metiel-NN-difenielureum (metiel-onsimmetriese difenielureum);
 (e) etiel-NN-difenielureum (etiel-onsimmertiese difenielureum);
 (f) etielfenieluretaan;
 (g) difenieluretaan;
 (h) diortotolijluretaan.
- (72) Opmetingsinstrumente, soos volg:—
 (a) Basislyntoerusting;
 (b) geodetiese teodoliete (eerste orde-instrumente);
 (c) (i) presisie-teodoliete met 'n sekuurheid van meer as 4 seksgesimale sekondes by regstreekse aflesing;
 (ii) teodoliete, tagimeters en passasiepeilings-teodoliete met 'n teleskopiese vergroting van X15 of meer, en 'n regstreekse aflesing tot op 1 seksgesimale minuut of sekuurder;
 (d) (i) presisiewaterpasse vir eerste orde-werk;
 (ii) landmeters- of ingenieursinstrumente met 'n teleskopiese vergroting van X15 of meer en 'n voorwerpglasgaatjie van 1·2" (30 mm.) of meer;
- (e) kartografiese instrumente, soos volg:—
 (i) kaartmaakinstrumente vir gebruik met land- of lugfoto's;
 (ii) instrumente vir die bestudering en vertolking van lugfoto's.
- (73) Teleskope en verkykers (uitgesonderd toneelkykers met geen prismas en 'n vergroting van minder as X3½).
- (74) Turbines van meer as 300 pk. (uitgesonderd dié wat ontwerp is om elektriese generators aan te dryf).
- (75) Bandvulkaniseringsperse, met een of meer holtes, wat bandvorms met 'n totale uitwendige diepte van 10 duim of meer kan hou.
- (76) Vaartuie: Baggarskepe, en toerusting en onderdele daarvoor; en ander vaartuie langer as 40 voet of met 50 dryfasperdekrag (of die ekwivalent daarvan).
- (77) Watervaartuie en onderdele daarvoor.
- (68) Rubber, unworked (natural and synthetic), rubber solution, rubber scraps and rubber-compounding agents, as follows:—
 (a) Anti-oxidants;
 (b) non-mineral accelerators;
 (c) rotary drilling hose high pressure (test pressure 3,000 psi and over);
 (d) water-lubricated bearings (rubber products).
- (69) Searchlight control units, and component parts thereof and control gear for searchlights.
- (70) Ship's bottom compositions, anti-corrosive and anti-fouling.
- (71) Stabilizers for explosives as follows:—
 (a) Ethyl and methyl centralites;
 (b) diphenylamine;
 (c) NN-diphenylurea (unsymmetrical diphenylurea);
 (d) methyl-NN-diphenylurea (methyl unsymmetrical diphenylurea);
 (e) ethyl-NN-diphenylurea (ethyl unsymmetrical diphenylurea);
 (f) ethyl phenyl urethane;
 (g) diphenyl urethane;
 (h) diortho tolyl-urethane.
- (72) Surveying instruments as follows:—
 (a) Base line equipment;
 (b) geodetic theodolites (first-order instruments);
 (c) (i) precise theodolites having an accuracy better than 4 sexagesimal seconds by direct reading;
 (ii) theodolites, tacheometers and transits with a telescope magnification of X15 or higher and reading direct to 1 sexagesimal minute or better;
 (d) (i) precise levels for first-order work;
 (ii) surveyors' or engineers' telescopic magnification instruments of X15 or higher and an object glass aperture of 1·2" (30 mm.) or higher;
- (e) cartographic instruments as follows:—
 (i) map-making instruments for use with terrestrial or aerial photographs;
 (ii) instruments for studying and interpreting aerial photographs.
- (73) Telescopes and binoculars (except opera glasses having no prisms and magnification of less than X3½).
- (74) Turbines over 300 h.p. (except those designed for driving electric generators).
- (75) Tyre curing presses, single or multiple cavity, capable of accommodating tyre moulds of a total outside depth of 10 inches or over.
- (76) Vessels: Dredgers and equipment and components thereof and other vessels over 40 feet in length or 50 shaft h.p. (or equivalent).
- (77) Watercraft and components.

BYLAE C.

GOEDERE IN BYLAE A WAT SONDER 'N PERMIT UITGEVOER KAN WORD.

- (a) Goedere in transit deur die Unie.
 (b) Vars vrugte (met uitsondering van pynappels wat vir die Verenigde Koninkryk bestem is) en vars groente (uitgesonderd uie en aartappels) wat na die Verenigde Koninkryk van Groot-Brittannie en Noord-Ierland, enige Britse dominium, kolonie, besitting, protektoraat en mandaatgebied, Portugese-Oos- en Wes-Afrika, die Belgiese Kongo, Frans-Kameroen en Frans-Ekwatoriaal-Afrika uitgevoer word.

SCHEDULE C.

COMMODITIES LISTED IN SCHEDULE A WHICH MAY BE EXPORTED WITHOUT PERMITS.

- (a) Goods in transit through the Union.
 (b) Fresh fruit (excluding pineapples destined for the United Kingdom) and fresh vegetables (except onions and potatoes) exported to the United Kingdom of Great Britain and Northern Ireland, and any British Dominion, Colony, Possession, Protectorate and Mandated Territory, Portuguese East and West Africa, the Belgian Congo, French Cameroons and French Equatorial Africa.

- (c) Skeepsvoorrade, d.w.s. goedere vir gebruik of onmiddellike gebruik op die besondere vaartuig waarop die betrokke goedere in Uniehawens gelaaï word, mits die voorgeskrewe premies betaalbaar op sodanige goedere betaal word, met uitsondering van—
- die volgende items soos onder die hoof „Kontroleur van Yster en Staal“ in Bylae A hierbo uiteengesit:—

Plaat, afval, blad, bekledingsbuise, pype, buise, draad, staaldraadtou; en
 - die volgende items soos onder die hoof „Sekretaris van Voeding“ in Bylae A hierbo uiteengesit:—

Alle soorte voedsel of artikels waarop hefings betaalbaar is aan Rade aangestel kragtens die Bemarkingswet, No. 26 van 1937, soos gewysig, wanneer dit deur leveransiers in die Unie aan skepe as handelsware vir winkels op sodanige skepe verkoop word, soos onder die hoof „Sekretaris van Voeding“ in Bylae A hierbo genoem is.
- (d) Enige goedere wat deur die Unie se land-, see- of lugmagowerheid uitgevoer word.
- (e) Gebruikte persoonlike of huishoudelike besittings wat die eiendom is van persone wat die Unie permanent verlaat of verlaat het.
- (f) *Bona fide*-geskenke wat op eie koste deur 'n natuurlike persoon woonagtig in die Unie aan 'n aangewese natuurlike persoon woonagtig in die land waarheen dit uitgevoer word, verskaf; met dien verstande—
- dat die inhoud volledig op die etiket en/of doeanevorms aangegee word;
 - dat geen vleis (vars, bevrore, ingesout, gerook, nie in blikke ingemaak nie—maar uitgesonderd varkyleis of varkvleisprodukte), kakao, koffie, tee, gekondenseerde melk of melkpoeier, rys, suiker, koringmeel en -meelblom, koringprodukte (uitgesonderd stukkies bruidskoek, met 'n gewig van hoogstens 2 onse per geskenkpakkie, wat om sentimentredes uitgevoer word) en enige ingevoerde voedselware daarby ingesluit word nie, tensy dit deur 'n uitvoer-permit gedek word;
 - dat goedere wat aan uitvoerbeheer onder Bylae A onderworpe is, in elke afsonderlike geskenkpakkie hoogstens £2 in waarde en hoogstens 11 lb. in gewig mag wees, en dat geen voedselsoort alleen meer as 5 lb. mag weeg nie;
 - dat geen goedere (uitgesonderd tekstielware wat vir Suid- en Noord-Rhodesië en Njassaland bestem is, en gebruikte klere) in so 'n geskenkpakkie ingesluit word nie, tensy dit deur 'n uitvoerpermit gedek word;
 - dat individuele geskenkpakkies afsonderlik versend word en nie deur 'n persoon, firma of organisasie in hours saamgegroepeer word nie vir versending, namens die skenkers in die Unie van sodanige geskenkpakkies, aan 'n persoon, firma of organisasie woonagtig in die land waarheen die pakkies versend word vir verspreiding deur genoemde persoon, firma of organisasie onder die individuele persone, woonagtig in daardie land, aan wie die pakkies geadresseer is.
- (g) Voedsel en drank (uitgesonderd vleis, vars, bevrore, ingesout, geroök, nie in blikke ingemaak nie, vleismere in bottels of blikke—maar nie varkyleis of varkvleisprodukte nie—kakao, koffie, tee, gekondenseerde melk of melkpoeier, rys, suiker, koringmeel, en -meelblom, koringprodukte en enige ingevoerde voedselware) tot 'n totale netto gewig van 25 lb. (en hoogstens 5 lb. van enige item wat aan uitvoerbeheer onderworpe is) per persoon, op voorwaarde dat sodanige voedselware saamgaan met persone wat die Unie permanent of op besoek van drie maande of langer verlaat en hul eiendom is.

- (c) Ships' stores, i.e., goods for consumption or immediate use on the particular vessel on which those goods are loaded in Union ports, provided the prescribed premiums payable on such goods are paid, with the exception of—
- the following items as enumerated under the heading "Controller of Iron and Steel" in Schedule A above:—

Plate, scrap, sheet, casing, pipe, tube, wire, steel wire rope; and
 - the following items as enumerated under the heading "Secretary for Nutrition" in Schedule A above:—

All articles of food or commodities on which levies are payable to Boards constituted under the Marketing Act, No. 26 of 1937, as amended, when sold by suppliers in the Union to ships as merchandise for shops on those ships as referred to under the heading "Secretary for Nutrition" in Schedule A above.
- (d) Any goods exported by the Union's Military, Naval and Air Force Authorities.
- (e) Used personal and household effects, the property of persons leaving or having left the Union permanently.
- (f) *Bona fide* gifts supplied by a natural person resident in the Union at his own expense to a designated natural person resident in the country to which export is effected; provided—
- that the contents are fully declared on the parcel label and/or customs form;
 - that no meat, fresh, frozen, salted, cured, not tinned (but excluding pork and pork products), cocoa, coffee, tea, condensed or powdered milk, rice, sugar, wheaten meal and flour, wheaten products (excluding pieces of wedding cake to a maximum weight of 2 ozs. per gift parcel, exported for sentimental reasons), and any imported foodstuffs are included therein, unless covered by an export permit;
 - that goods subject to export permit under Schedule A above, in any one gift parcel do not exceed £2 total value and 11 lb. total weight, with no single commodity of food exceeding 5 lb. in weight;
 - that no imported goods (except any textile goods destined to Southern and Northern Rhodesia and Nyasaland and any used clothing) are included in such gift parcels unless covered by an export permit;
 - that individual gift parcels are despatched separately and are not grouped in containers by a person, firm or organisation for despatch on behalf of the donors in the Union of those gift parcels to a person, firm, or organisation resident in the country to which the parcels are despatched for distribution by that person, firm or organisation to the individual persons resident in that country to whom the parcels are addressed.
- (g) Articles of food or drink (except meat—fresh, frozen, salted, cured, not tinned, meat pastes, potted or tinned, but excluding pork or pork products—cocoa, coffee, tea, condensed or powdered milk, rice, sugar, wheaten meal and flour, wheaten products and any imported foodstuffs) to a total net weight of 25 lb. and not more than 5 lb. of any one commodity subject to export control per person; provided such foodstuffs accompany persons leaving the Union permanently or on visits of three months or longer and are their own property.

- (h) Botter, eiers en kaas (uitgesonderd ingevoerde kaas) wat deur lede van die bemanning van 'n skip aan boord geneem word vir hul eie persoonlike gebruik.
 - (i) Monsters van geen kommersiële waarde nie.
 - (j) Goedere wat ingevoer is om herstel te word.

VERDUIDELIKENDE OPMERKINGS.

(1) Die uitwerking van hierdie kennisgewing is dat uitvoerbeheer oor 'n wye reeks artikels, veral vervaardigde goedere, afgeskaf is. (Bylaes A, B en C is dienooreenkomsdig hersien en gekonsolideer.)

(2) Daar moet op gelet word dat die Doeanedepartement vereis dat uitvoerders wat goedere sonder 'n permit wil uitvoer, die volgende sertifikaat op die doeane-uitvoeraangifte moet onderteken:—

„Ek verklaar dat 'n permit nie nodig is vir die goedere wat met 'n X gemerk is nie.

Handtekening.”

- (h) Butter, eggs and cheese (excluding imported cheese), which are taken on board ship by members of the ship's crew for their personal use.
 - (i) Samples of no commercial value.
 - (j) Goods that have been imported for the purpose of being repaired.

EXPLANATORY NOTES.

(1) The effect of this notice is that export control on a wide range of commodities, particularly manufactured articles, has been abolished. (Schedules A, B and C have accordingly been revised and consolidated.)

(2) It should be noted that it is required by the Customs Department that exporters claiming the export of permit-free goods must make and subscribe to the following certificate on the Customs Bill of Entry Export:—

"I certify that the goods marked X are not subject to export permit.

.....
Signature.”

H.N. 100 X.

BYLAE D.

Moet ingedien word soos in die opmerkings hieronder aangedui en wel regstreeks by die betrokke Kontroleur, nl. Yster en Staal en Nie-ysterhoudende Stowwe: Privaatsak 84, Pretoria (Kamer 204, Paulhof, Paul Krugerstraat). Boumateriaal: Posbus 7795, Johannesburg. Motorvoertuie: Munlochgebou, Pretoria. Jute: Posbus 1097, Pretoria. Leer: Posbus 1357, Pretoria. Teksteilstowwe, Papier en Nywerheidschemikalie: Privaatsak 84, Pretoria. Veevoer en Lewende Hawe: Sekretaris van Landbou, Pretoria. Voedselware (uitgesondster suiker, kreef en kreefsterte en melasse): Sekretaris aan Voeding, Impalagebou, Pretoria. Suiker, kreef en kreefsterte en melasse: Privaatsak 84, Pretoria.

AANSOEK OM 'N PERMIT VIR DIE UITVOER VAN GOEDERE UIT DIE UNIE VAN SUID-AFRIKA EN SUIDWES-AFRIKA.

Ek/Ons, die ondergetekende(s), doen hierby aansoek om 'n permit vir die uitvoer uit die Unie van Suid-Afrika/die gebied Suidwes-Afrika van ondervermelde goedere. Ek/Ons verklaar dat die inligting wat hierin verstrek word, na my/ons beste wete en oortuiging in alle opsigte waar en juig is.

Merk en nommers op pakkette en pakkies.

OPMERKINGS.

1. 'n Afsonderlike aansoek, wat in drie- of viervoud ingedien word ten opsigte van goedere wat deur die hawe Lourenco Marques verskeep gaan word, is in die geval van elke besending nodig. Ekstra afskrifte is ook nodig in gevalle waar aansoeke deur meer as een Kontroleur behandel moet word. (bv. asbes in sakke verpak).
 2. Aansoekvorms moet of in tiksksrif of in blokletters met ink ingevul word.
 3. Aansoekvorms waarop veranderings aangebring is of waarop uitgegee is of wat nie volledig ingevul is nie, sal nie oorweeg word nie.
 4. 'n Aansoek om 'n uitvoerpermit kan van die hand gewys word sonder dat redes daarvoor aangegee word.
 5. 'n Noodsaaklikheidsertifikaat en/of Invoerpermit, indien deur die Regering van die land van bestemming uitgereik, moet die aansoek vergesel.
 6. As goedere wat uitgevoer gaan word, nie voorhande is nie maar nog vervaardig moet word, moet die aansoek vergesel gaan van 'n begeleidende brief waarin die applikant moet verklaar watter materiaal daarvoor gebruik word, of die materiaal beskikbaar is, en wat die lewingsbron is.
 7. 'n Permanente verwysingsnommer word aan elke uitvoerder toegewys wanneer hy sy eerste aansoek indien. Hierdie nommer moet op latere aansoeke en korrespondensie in dié verband aangehaal word.
 8. As 'n applikant om 'n permit onjuiste inligting in verband met sy aansoek verstrek, kan die Sekretaris van Handel en Nywerheid so 'n aansoek en enige aansoeke wat deur dieselfde applikant gedoen word, weier.
 9. Uitvoerders kan by hul aansoeke ongesfrankeerde geadresseerde koeverte insluit waarin hul permitte aan hulle gestuur kan word.
 10. Telefoon- of persoonlike navrae betreffende aansoeke sal nie beantwoord word nie.
 11. As goedere uitgevoer gaan word om 'n besending te vervang wat onderweg verlore geraak het, moet genoegsame besonderhede om dit te identifiseer, met inbegrip van noemmers van begeleidende permitte, verstrek word in 'n verklaring wat aan die aansoek geheg moet word.
 12. Applikante kan hul eie vorms met die medewerking van die Staatsdrukker laat druk, mits die besonderhede en die uiteensetting met die amptelike vorm ooreenkom.
 13. 'n Ongerojeerde Inkomsteseël moet in die ruimte daarvoor op die keersy van hierdie vorm opgeplak word.
 14. Aansoeke om 'n permit vir die uitvoer van strategiese materiaal moet vergesel gaan van 'n begeleidende Invoerpermit of Eindgebruikverklaring wat deur die Regering van die land van bestemming uitgereik is.

SCHEDULE D.

**APPLICATION FOR EXPORT PERMIT TO COVER THE EXPORT OF GOODS FROM THE UNION OF SOUTH AFRICA AND
SOUTH WEST AFRICA.**

I/We, the undersigned, hereby apply for a Permit to export from the Union of South Africa/the Territory of South West Africa the goods detailed hereunder. I/We declare that to the best of my/our knowledge and belief, the information given herewith is in all respects true and correct.

Name and Full Address of Applicant (Union Address).

Name and Full Address of Consignee (Destination).

**Firm's Reference
Number.**
474/17/-

Signature of Applicant

Proposed Date and Place of Export

NOTES.

1. A separate application, which must be submitted in triplicate, or in quadruplicate in respect of goods for shipment through the port of Lourenco Marques, is required in respect of each consignment. Extra copies are also required in respect of applications to be dealt with by more than one Controller (e.g. asbestos packed in bags).
 2. Applications must be completed either in typescript or in block capitals in ink.
 3. Applications which contain alterations or erasures or which are not fully completed will not be considered.
 4. An application for an export permit may be refused without assignment of any reasons therefor.
 5. A Certificate of Essentiality and/or Import Permit if issued by the Government of the country of destination must be forwarded with the application.
 6. If goods to be exported are not in stock but still have to be manufactured the application must be accompanied by a covering letter in which the applicant must state what materials are involved, whether such materials are available and the source of supply.
 7. A permanent reference number will be allocated to each Exporter at the time his first application is received. This number must be quoted on all subsequent applications and relative correspondence.
 8. If an applicant for a permit supplies any false information in connection with his application, the Secretary for Commerce and Industries may refuse such application and any future applications made by the same applicant.
 9. Exporters may enclose with their applications, unstamped addressed envelopes to be used for forwarding permits to them.
 10. Telephonic or personal enquiries regarding applications will not be entertained.
 11. If and when goods are to be exported to replace a consignment lost in transit, particulars sufficient to identify it, including numbers of covering permits, should be submitted in a statement attached to the application.
 12. Applicants may have their own forms printed with the concurrence of the Government Printer provided the particulars and lay-out conform with the official form.
 13. An uncancelled Revenue Stamp must be affixed in the space provided on the back of this form.
 14. Applications for the export of strategic materials must be accompanied by a covering Import Permit or End Use Declaration issued by the Government of the country of destination.

SEKRETARIS VAN HANDEL EN NYWERHEID.

SECRETARY FOR COMMERCE AND INDUSTRIES.

Uitvoerpermit No.....

Export Permit No.....

Permission is hereby granted to the applicant described on the application completed on the reverse side hereof to export from the Union of South Africa/the Territory of South West Africa, within a period of 180 (one hundred and eighty) days from the date of this permit, the goods detailed and consigned as indicated on the said application.

Toestemming word hierby aan die applikant, in die ingevulde aansoek op die keersy hiervan beskryf, verleën om uit die Unie van Suid-Afrika/die gebied Suidwes-Afrika binne 'n tydperk van 180 (honderd-en-tachtig) dae na die datum van hierdie permit, die goedere soos in die genoemde aansoek aangegee en beskryf, uit te voer.

Hierdie permit word uitgereik ingevolge Goewerments-kennisgewing No. 1515 van 23 Julie 1954 en onderworpe aan die voorwaarde en opmerkings hieronder aangegee.

Hierdie permit verval op die.....dag van
.....19.....

Sekretaris van Handel en Nywerheid.

2s. 6d.
Inkomsteseël.

Moet slegs op die oorspronklike vorm geplak word—een seël per bladsy van nie meer as 15 inskriftings nie.

1. Hierdie permit moet aan die Doeane-owerheid besorg word wanneer die doeane-uitvoeraangifte ten opsigte van die goedere wat van hawes in die Unie van Suid-Afrika of die gebied Suidwes-Afrika uitgevoer word, voorgelê word. Geen verskepingsorder sal uitgereik word nie tensy die permit aldus ingediend word.

2. Hierdie permit hou geen waarborg in dat skeepsruimte vir die vervoer van die goedere in die aansoek vermeld van die Unie af beskikbaar sal wees, of dat genoemde goedere hul bestemming sonder onderbreking sal bereik nie.

3. In die geval van goedere wat uit die Unie van Suid-Afrika of die gebied Suidwes-Afrika per spoor vir verskeping uit die hawe Lourenco Marques uitgevoer moet word, sal hierdie permit in tweevoud uitgereik word; die gevindosseerde duplikaatkopie word oorgedra aan die Spoorweg- of Doeanebeampte by die afsendingstasie as hul magtig om die goedere aan te neem. Die oorspronklike vorm moet deur die uitvoerder aan die Ontvanger van Unie-doeane, Posbus 1158, Lourenco Marques, gestuur word.

4. In die geval van goedere wat per lug, spoor of pad na enige gebied in Afrika uitgevoer word, moet hierdie permit aan die Doeane- en/of Spoorwegbeampte voorgelê word tesame met die doeane-uitvoeraangifte of, in die geval van Noord-Rhodesië, die „Customs Union”-vorm.

DEPARTEMENT VAN HANDEL EN NYWERHEID.

KENNISGEWING VAN TYDELIKE UITVOER VAN MOTORVOERTUIG INGEVOLGE GOEWERMENSKENNISGEWING NO. 1515 VAN 23 JULIE 1954.

Die Sekretaris van Handel en Nywerheid,
Pretoria.

(Deur bemiddeling van die Ontvanger van Doeane te.....)

Ek (volle naam),permanent woonagtig te (volledige adres)....., gee hierby kennis dat ek 'n motor (type voertuig).....na (land).....tydelik uitvoer en dat ek genoemde voertuig na die Unie deur.....(inklaringshawe) sal terugbring voor of op die dag van.....19.....

Die besonderhede van genoemde motor.....is soos volg:—

Fabrikaat van voertuig.....
Jaar van vervaardiging.....
Registrasienommer.....
Masjiennommer.....

Ek is ten volle bewus van die bepalings van die regulasie waarby hierdie kennisgewing geskied en dat ek vervolgoed kan word en strafbaar is met die strawwe voorgeskryf in artikel *sewe-en-dertig* van Oorlogsmaatreel No. 146 van 1942, soos gewysig, indien ek versuum om bovermelde voertuig deur die vermelde inklaringshawe en binne die bepaalde tyd terug te bring.

OPMERKING.—Die strawwe voorgeskryf in artikel *sewe-en-dertig* van Oorlogsmaatreel No. 146 van 1942 is soos volg:—

This permit is issued in terms of Government Notice No. 1515 of the 23rd July, 1954, and subject to the conditions and remarks stated hereunder.

This permit expires on the.....day of.....19.....

Secretary for Commerce and Industries.

2s. 6d.
Revenue Stamp.

To be affixed to the original only. One stamp per page of not more than 15 entries.

1. This permit must be produced to the Customs Authorities when the Bill of Entry Export is presented in respect of the goods to be exported from ports in the Union of South Africa or the Territory of South West Africa. No shipping order will be issued unless the permit is so produced.

2. This permit carries with it no guarantee that shipping space will be available for the conveyance from the Union of the goods detailed in the said application or that the goods specified herein will reach their intended destination without interruption.

3. In respect of goods to be exported from the Union of South Africa, or the Territory of South West Africa by rail for shipment from the port of Lourenco Marques, this permit will be issued in duplicate, the duplicate copy being endorsed to the Railways or Customs officials at the despatching station as their authority for the acceptance of the goods. The original should be forwarded by the exporter to the Collector of Union Customs, P.O. Box 1158, Lourenco Marques.

4. In respect of goods exported by air, rail or road to any African territory, this permit must be produced to the Customs and/or Railway Authorities together with a Bill of Entry Export or, in the case of Northern Rhodesia, the Customs Union form.
