(2) Die Minister kan by kennisgewing in die *Staatskoerant* vereis dat meer of hoër gediplomeerde offisiere of ander persone as wat deur subartikel (1) voorgeskryf word, aanboord van 'n kategorie van skepe van 'n tonnemaat of perdekrag wat in daardie kennisgewing gemeld word, in diens moet wees; en na publikasie van so 'n kennisgewing sorg die eienaar van 'n skip waarvoor dit geld, dat aan boord van daardie skip die aantal offisiere of ander persone wat behoorlik kragtens hierdie Wet gediplomeerd of geag gediplomeerd te wees, in diens is.

(3) Wanneer die Minister uit 'n verslag deur 'n opnemer daarvan oortuig is dat dit onredelik sou wees om van die eienaar van 'n skip wat voor die inwerkingtreding van hierdie artikel gebou was, te verlang dat hy aan boord van daardie skip die akkommodasie sou moet verskaf wat nodig sou wees om die aantal offisiere of ander persone wat ingevolge subartikel (1) of ingevolge 'n kragtens subartikel (2) uitgereikte kennisgewing in diens moet wees, te akkommodeer, kan hy ten opsigte van daardie skip die vereistes van subartikel (1) of van daardie kennisgewing na goeddunke wysig.

(4) Die eienaar van elke Statebond-skip (behalwe 'n skip wat passasiers by 'n Uniehawe aan boord neem) wat uit 'n Uniehawe uitvaar, sorg dat aan boord van die skip in hul toepaslike werkkringe werkzaam is 'n gesagvoerder en soveel skeepoffisiere wat die houers is van sertifikate van sulke grade as wat, volgens die betrokke wette wat in daardie deel van die Statebond waarin die skip geregistreer is, van krag is, die skip verplig is om aan boord te hê wanneer dit uit 'n hawe in daardie deel van die Statebond uitvaar.

(2) The Minister may by notice in the *Gazette* require that more or more highly certificated officers or other persons than are prescribed by sub-section (1) shall be employed on board any class of ships of any tonnage or horse-power specified in that notice; and after the publication of any such notice the owner of any ship to which it applies shall ensure that there are employed on board that ship the number of officers or other persons prescribed by that notice, duly certificated or deemed to be certificated under this Act.

(3) Whenever the Minister is satisfied from a report by a surveyor that it would be unreasonable to require the owner of a ship built before the coming into operation of this section to provide the accommodation on board that ship necessary to accommodate the numbers of officers or other persons required to be employed in terms of sub-section (1), or in terms of a notice issued under sub-section (2), he may vary the requirements of sub-section (1) or of that notice in respect of that ship as he deems fit.

(4) The owner of every Commonwealth ship (other than a ship embarking passengers at a port in the Union) going to sea from any port in the Union shall ensure that there are employed on board that ship in their appropriate capacities a master and so many ships' officers holding certificates of such grades as, by the relative laws in force in that part of the Commonwealth in which the ship is registered, she is required to carry when going to sea from a port in that part of the Commonwealth.

(5) Niemand wat ter voldoening aan subartikel (1) of (2) as gesagvoerder of skeepsoffisier in diens geneem is, waar uit ter see nie tensy hy kragtens hierdie Wet behoorlik gediplomeerd is of geag word aldus gediplomeerd te wees.

(6) By toepassing van subartikel (1) of (2) neem niemand 'n gesagvoerder of skeepsoffisier as sodanig in diens nie sonder vooraf vas te stel dat hy kragtens hierdie Wet behoorlik gediplomeerd is, of geag word aldus gediplomeerd te wees.

(7) In hierdie artikel beteken „nominaal perdekrag“ ten opsigte van 'n skip die perdekrag van die masjiene van die skip bereken volgens die regulasies, wat ten aansien van verskillende soorte masjiene verskillende metodes van berekening kan voorskryf.

(8) Hierdie artikel is nie ten aansien van enige vaartuig wat aan die Spoerwegadministrasie behoort en wat deur daardie Administrasie in verband met sy hawebedryf gebruik word, as daardie vaartuig in geval van nood ter see uitvaar, van toepassing nie.”

[LEL WEL.—Die aandag word gevëstig op die feit dat die voorneme bestaan om magtiging te verkry om artikel *drie-en-sewentig* van die Wet as volg te wysig:—

(1) Deur die tabel wat in subartikel (1) voorkom, deur die volgende tabel te vervang:—

(5) No persons who has engaged for the purpose of sub-section (1) or (2) as master or ship's officer shall go to sea as such unless he is duly certificated, or deemed to be so certificated, in terms of this Act.

(6) No person shall for the purpose of sub-section (1) or (2) employ a master or ship's officer as such without first ascertaining that he is duly certificated, or deemed to be so certificated, in terms of this Act.

(7) In this section “nominal horse-power” in relation to any ship means the horse-power of the engines of the ship, calculated according to the regulations, which may provide for different methods of calculation in respect of different types of engines.

(8) This section shall not apply in respect of any vessel belonging to the Railway Administration and used by that Administration in connection with the working of its harbours, if that vessel goes to sea in an emergency.”

(2) As die Direkteur nie oortuig is nie dat die fout in die berekening van die kandidaat se dienstyd weens die skuld of opsetlike wanvoorstelling van die kandidaat ontstaan het, word die sertifikaat agterweë gehou hangende die voorlegging van bevredigende bewys dat die vereiste diens volledig voltooi is, waarop die sertifikaat, behoudens die bepaling van hierdie regulasies, aan hom uitgereik word.

(3) As die Direkteur oortuig is dat die fout opsetlik gedoen is, word die sertifikaat agterweë gehou totdat die kandidaat die vereiste kwalifiserende diens volledig voltooi het en sodanige verdere dienstyd voltooi het as wat die Direkteur mag bepaal, en die toepaslike gelde weer betaal het en opnuut in die eksamen geslaag het.

(4) Addisionele diens wat deur 'n kandidaat ingevolge paragraaf (3) verrig word, kom nie as kwalifiserende diens vir enige ander sertifikaat in aanmerking nie.

(LET WEL.—Die aandag word gevvestig op subartikel (2) van artikel *agt-en-sewentig* van die Wet, wat bepaal dat die Minister te eniger tyd voor die aflevering van 'n sertifikaat kan gelas dat die applikant opnuut geëksamineer word deur die eksaminatore wat die eksamen afgeneem het of deur enige ander eksaminatore, en dat nadere ondersoek na sy getuigskrifte of inbors of albei ingestel word, en as hy nie met die uitslag tevrede is nie, kan gelas dat geen sertifikaat aan hom uitgereik word nie.)

(1) If during the progress of an examination the examiner finds that a candidate is deaf, or has an impediment in his speech, or suffers from some other physical or mental infirmity, and is satisfied that the degree of deafness or the impediment or other infirmity is such as to render the candidate incompetent to discharge the ordinary duties of the station on a ship which the certificate for which the candidate is being examined would entitle him to hold, he shall not allow the candidate to complete the examination.

(2) The examiner shall report to the Director all cases in which action of this nature is taken.

(3) A candidate against whom action has been taken in terms of paragraph (1) may appeal to the Director for a review of the circumstances of his case.

(4) The Director may, in deciding whether such a candidate may be allowed to sit again for an examination, take into consideration any medical certificate subsequently produced stating that the candidate's hearing, speech or physical or mental condition has improved or is normal.

(NOTE.—Attention is invited to the provisions of section *eighty-seven* of the Act which empowers the proper officer to require the holder of a certificate of competency or service to submit himself to a medical examination, if at any time it appears that owing to ill health or mental or physical defect he is unfit to perform the duties required of him. If after consideration of the medical report the Minister is satisfied that the person concerned is incapable of performing satisfactorily the duties appertaining to his certificate of competency or service he may direct that the holder shall not be engaged or go to sea in the capacity referred to in the certificate or in any other capacity specified by the Minister.)

12. (1) If after a candidate has passed the examination it is discovered that his service is insufficient to entitle him to receive a certificate of the grade for which he has passed, the certificate shall not, subject to the provision of this regulation, be granted to him.

(2) If the Director is not satisfied that the error in the calculation of the candidate's service occurred through the fault of or through wilful misrepresentation by the candidate, the certificate shall be withheld pending the production of satisfactory proof that the necessary service has been completed in full, upon which the certificate shall, subject to the provisions of these regulations, be issued to him.

(3) If the Director is satisfied that the error was deliberately made, the certificate shall be withheld until the candidate has completed the necessary qualifying service in full and has performed such further period of service as may be decided by the Director, has again paid the appropriate fee and has again passed the examination.

(4) Any additional service performed by a candidate in terms of paragraph (3) shall not count as qualifying service for any other certificate.

(NOTE.—Attention is invited to sub-section (2) of section *seventy-eight* of the Act, which provides that the Minister may, at any time before the delivery of a certificate, require a re-examination of the applicant by the examiners who made the examination or by other examiners, and order a further enquiry into his testimonials or character or both, and if not satisfied with the result may order that the certificate be not granted to him.)

## APPLICATION FOR A CERTIFICATE OF SERVICE UNDER THE PROVISIONS OF SECTION EIGHTY OF THE MERCHANT SHIPPING ACT, 1951 (ACT NO. 57 OF 1951).

Read the following notes carefully:—

- (1) Section eighty of the Merchant Shipping Act, 1951, is printed on page 4 of this form. The section provides full information as to what certificates of service may be granted and as to the persons who may apply for them.
- (2) (a) Persons who are mentioned under section eighty (1) (a) may apply at any time for a certificate of service under this Act. However, they are advised to apply as soon as possible since they may not be employed in certain ships unless they are in possession of a valid certificate of service granted under Act No. 57 of 1951. They must also surrender any certificates held by them.
- (b) Persons who are mentioned under section eighty (1) (b) may be granted certificates of service under this Act provided they make application before 31st December, 1959, and provided they surrender the certificates held by them.
- (c) Persons who are mentioned under section eighty (1) (c) may apply at any time within three (3) years i.e. up to 31st December, 1961, for a certificate of service under the Act. Because these certificates of service will cease to be valid on 31st December, 1961, unless the period of validity is extended by endorsement, it is recommended that persons concerned should apply well in advance of the expiry date in order that it may be possible to hold the practical examination referred to in section eighty (6). (See also the special NOTE TO CANDIDATES appearing in Division D of this form.)
- (3) Evidence of the sea service required should be produced and attached to this application. The evidence may be a discharge certificate, or a letter from an owner or other responsible person.
- (4) Applicants for certificates of service as master, navigating officer, skipper, mate or boatswain must pass colour and form vision tests which is a test of eyesight. This does not apply to the persons referred to in paragraphs (a) and (b) of Note (2) above.
- (5) Applicants for certificates of service are required to make a sworn declaration on this application form. If a false statement is made the applicant will be guilty of an offence and liable to a fine of £500.

## AANHANGSEL B.

GESIGSTOETSE VIR KLEUR EN VORM.  
(Sien regulasie 15.)BESONDERHEDE AANGAANDE DIE HOU VAN GESIGSTOETSE VIR  
KLEUR EN VORM.

(LET WEL.—Die doel van hierdie toetse is om te verzeker dat die gesigsvermoë van die kandidaat skerp genoeg is om hom in staat te stel om in die verte die ligte van skepe ter see duidelik te sien en te identifiseer. Die ondervinding het geleer dat hy vir hierdie doel in die gesigstoetse, beide vir vorm en kleur, in staat moet wees om sekere minimum standaarde te behaal. Daar word twee toetse gestel, 'n letter- en lanterntoets, besonderhede waarvan hieronder uiteengesit word. Die lettertoets is slegs 'n gesigstoets vir vorm, en die lanterntoets is 'n gekombineerde gesigstoets vir vorm en kleur.)

## ALGEMEEN.

(1) Die toets word onder strenge toesig van die eksamener gehou, wat 'n aantekening moet hou van al die foute wat deur die kandidaat in die letter- asook in die lanterntoets gemaak word.

(2) *Gebruik van 'n bril word nie toegelaat nie.*—Gedurende die eksamens in die gesigstoetse word kandidate nie toegelaat om enige soort bril, kontaklens of verkyker, of enige ander kykmiddels te gebruik nie. Kandidate het die keuse om die een of ander oog afsonderlik of albei oë gesamentlik te gebruik.

## LETTERTOETS.

(3) Die eerste toets wat kandidate moet aflê is die lettertoets, wat op die Snellenbeginsel deur middel van letterblaaisie gehou word. Elke blad bevat 7 reëls, die 5de, 6de en 7de reël waarvan onderskeidelik met standaarde 5/10, 5/7·5 en 5/5 ooreenstem.

(4) *Verlangde gesigstandaard.*—'n Kandidaat moet in staat wees om vyf van die ses letters in die sesde reël en vier van die sewe letters in die sewende reël, op 'n afstand van sesien voet van die oog af, korrek af te lees.

(5) *Toetsmetode.*—Weens die onmoontlikheid om by gebruik van daglig uniformiteit te verkry, moet by voorkeur kunsmatige verligting gebruik word. Waar geskikte donkerkamers beskikbaar is, moet die toetsblaaisie vyf of ses voet hoog van die vloer af teen 'n muur gehang word, met twee elektriese gloeilampe elk van 40 watt, horisontaal aangebring, met geskikte skerms, sodat die lig regstreeks op twee letterreëls van die blad val.

Die toetskamer moet matig verlig word en daar moet sorg gedra word dat daar geen skerp lige of blink voorwerpe in die gesigsveld van die kandidaat is nie. Uiterste kontraste tussen die verligte toetskaart en die agtergrond moet vermy word.

Ingeval 'n geskikte donkerkamer nie beskikbaar is nie, moet die toetsblaaisie op die vereiste hoogte teen 'n muur in 'n goeie lig gehang word, maar nie regstreeks in die sonlig nie.

As die kandidaat die juiste plek ingeneem het, moet een van die kaarte onthuul word, en moet hy gevra word om die letters van links na regs, met aanvang van bo na onder, af te lees.

As na afloop van die toets bevind word dat die kandidaat die vereiste standaard behaal het, word dit bekhou dat hy geslaag het en kan hy met die lanterntoets aangaan, tensy hy diehouer is van 'n bekwaamheidsertifikaat in 'n dekhoedanigheid, in watter geval die lanterntoets verval.

(6) *Druiping.*—(a) Ingeval 'n kandidaat faal om die vereiste standaard op die eerste blad te behaal, moet hy met minstens vier blaaisie getoets word en die volgende alternatiewe aan hom verduidelik word—

- (i) hy kan die eksamen onderbreek en binne minstens drie maande weer eksame kom aflê, in watter geval 'n sertifikaat dat hy gedruip het aan hom uitgereik word; of
- (ii) hy kan met die lanterntoets aangaan. In hierdie geval moet 'n aantekening op die voorgeskrewe vorm gemaak word van al die foute in die lettertoets en al die foute, indien enige, in die lanterntoets. Dit word dan aan die Direkteur deurgestuur om te besluit of die kandidaat in die gesigstoetse vir vorm geslaag of gedruip het.

## ANNEXURE B.

COLOUR AND FORM VISION TESTS.  
(See regulation 15.)DETAILS AS TO THE CONDUCT OF COLOUR AND FORM  
VISION TESTS.

(NOTE.—The purpose of these tests is to ensure that the candidate's eyesight is sufficiently good to enable him to pick up and identify correctly the lights of distant ships at sea. Experience has shown that for this purpose he must be able to reach certain minimum standards both of form and colour vision. The tests employed are two, a letter and a lantern test, details of which are given below. The letter test is a test of form vision only, and the lantern test is a test of form and colour vision combined.)

## GENERAL.

(1) The tests shall be conducted under the strict personal supervision of the examiner, who shall keep a record of all mistakes made by the candidate both in the letter test and in the lantern test.

(2) *Spectacles not Allowed.*—During the examinations in the sight tests candidates shall not be allowed to use spectacles, contact lenses, or glasses of any kind, or any other artificial aid to vision. Candidates shall have the option of using either eye separately or both eyes together.

## LETTER TEST.

(3) The first test which the candidate shall be required to undergo is the letter test conducted on Snellen's principle by means of sheets of letters. Each sheet contains 7 lines the 5th, 6th and 7th lines corresponding to standards 5/10, 5/7·5 and 5/5 respectively.

(4) *Standard of Vision Required.*—Every candidate shall be required to read correctly five of the six letters in the sixth line and four of the seven letters in the seventh line, at a distance of sixteen feet from the eye.

(5) *Method of Testing.*—Artificial illumination shall be used in preference to daylight owing to the impossibility of securing uniformity where the latter is used. Where suitable dark rooms are available the test sheets shall be hung on a wall at a height of five or six feet from the floor, with two electric bulbs each of 40 watts placed horizontally and suitably screened so that the light falls directly on two lines of letters on the sheet.

The test room shall be moderately illuminated and care taken that there are no glaring lights or bright objects in the candidate's field of vision. Extreme contrast between the illuminated test card and the background shall be avoided.

If a suitable dark room is not available the test sheets shall be hung on a wall at the required height in a good light, but not in direct sunlight.

When the candidate has taken up the correct position one of the sheets shall be exposed, and he shall be asked to read the letters on the sheet from left to right, beginning at the top and going downwards.

If at the conclusion of the test the candidate is found to reach the required standard, he shall be considered as having passed and may then proceed to the lantern test unless he holds a certificate of competency in a deck capacity, in which case the lantern test need not be taken.

(6) *Failure.*—(a) If a candidate fails to reach the standard required on the first sheet, he shall be tested with at least four sheets and the following alternatives explained to him:—

- (i) he may break off the examination and present himself for re-examination in not less than three months in which case a certificate of failure shall be issued to him; or
- (ii) he may proceed to the lantern test. In this case a record of all mistakes made in the letter test and all mistakes, if any, made in the lantern test, shall be recorded on the prescribed form and forwarded to the Director, who shall decide whether the candidate has passed or failed in form vision.

(b) As 'n kandidaat in die lettertoets druip, moet hy aangeraai word om 'n oogarts te gaan raadpleeg ten einde te laat vasstel wat die gebrek in sy gesigsvermoë is om vorms te onderskei, en of dit geneesbaar is.

#### LANTERNTOETS.

(7) *Toestel.*—Vir hierdie toets word 'n spesiale lantern en spieël verskaf. Die toets moet in 'n kamer gehou word wat so verdonker is dat daar geen lig indring nie. Die lantern moet reg voor die spieël geplaas word sodat die voorkant van die lantern presies tien voet van die spieël af is, en in so 'n stand dat die ligte wat in die spieël weerkaats duidelik is as die kandidaat links van die lantern daarna kyk.

(8) *Aanpassing van donkerheid.*—As die kandidaat by die aanvang van die lanterntoets 'n fout maak, moet hy minstens 'n kwartier in 'n geheel of half verdonkerde kamer gehou word en daarna weer met die toets aangaan.

(9) *Metode van toetsing.*—Die lantern wat vir die eksamen verskaf word is so saamgestel dat een groot en twee klein ligte sigbaar is, en is voorsien van twaalf skywe met drie kleure—rooi, wit en groen. By die aanvang van die eksamen word daar 'n reeks ligte deur 'n groot opening aan die kandidaat getoon, en as die kleure verskyn moet hy die name daarvan noem. As die wit lig getoon word, moet dit beklemtoon word dat dit nie 'n swiere wit lig is nie. As 'n kandidaat 'n fout maak en dit 'n „rooi“ lig noem, moet daar dadelik 'n regte rooi lig getoon word en sy aandag moet dan op die onderskeid tussen die twee ligte gevvestig word.

Nadat 'n reeks ligte deur die groot opening getoon is, moet daar twee volledige kringlope en een onderbroke kringloop met die klein openinge gedoen word, en die kleure van elke stel van twee ligte moet van links na regs deur die kandidaat genoem word.

10. *Slaag of druip.*—(a) Ingeval 'n kandidaat, nadat hy in die lettertoets geslaag het, in die lanterntoets geen fout maak nie, word dit beskou dat hy in die hele eksamen geslaag het, en 'n sertifikaat te dien effekte word dan deur die eksaminator uitgereik.

(b) As 'n kandidaat, ditsy met die groot opening of die twee klein openinge van die lantern, rooi vir groen en groen vir rooi aansien, word dit beskou dat hy in die lanterntoets gedruip het.

(c) As 'n kandidaat enige ander fout met die lantern maak, dit is, as hy wit „rooi“ noem of rooi „wit“, of groen en wit verwarr, word sy geval na die Direkteur verwys.

(d) Die eksaminator moet die kandidaat verwittig of hy geslaag of gedruip het of anders dat sy geval na die Direkteur verwys is, en in daardie geval sal hy van die beslissing of hy geslaag of gedruip het verwittig word, en as hy 'n verdere eksamen moet afle sal hy te geleger tyd daarvan in kennis gestel word. Hangende die ontvangs van die Direkteur se opdragte, word 'n kandidaat toegeraai om met die eksamen vir 'n bekwaamheidsertifikaat aan te gaan, maar slegs op die uitdruklike voorwaarde dat laasgenoemde eksamen gekanselleer sal word ingeval hy in die gesigstoets vir kleur en vorm druip.

(11) *Gevalle wat na die Direkteur verwys word.*—Elke keer as 'n geval na die Direkteur verwys word, besluit hy of die kandidaat geslaag of gedruip het, of 'n verdere toets moet afle. As die Direkteur besluit dat die kandidaat 'n verdere toets moet afle, word die kandidaat van die datum, tyd en plek van die verdere eksamen in kennis gestel. Geen addisionele gelde word vir sodanige eksamen gevorder nie. Elke sodanige eksamen moet deur 'n eksaminator, uitgesonderd die eksaminator wat die eerste toets afgeneem het, gehou word. Die eksaminator besluit of die kandidaat in die toets geslaag of gedruip het.

(12) *Appelle.*—Elke keer as—

- (a) die kandidaat in die eerste lanterntoets gedruip het; of
- (b) die Direkteur in 'n geval wat na hom verwys is, besluit het dat die kandidaat in die eerst lanterntoets gedruip het; of

(b) Whenever a candidate fails to pass the letter test he shall be advised to consult an ophthalmologist with a view to ascertaining the nature of the defect in his form vision, and whether it is curable.

#### LANTERN TEST.

(7) *Apparatus.*—A special lantern and a mirror are provided for this test. The test shall be conducted in a room so darkened as to exclude all light. The lantern shall be placed directly in front of the mirror, so that the front part of the lantern is exactly ten feet from the mirror, and in such a position that the lights reflected in the mirror show clearly when viewed by the candidate on the left of the lantern.

(8) *Darkness Adaptation.*—If the candidate makes a mistake at the beginning of the lantern test he shall be kept in a completely or partially darkened room for at least a quarter of an hour and shall then begin the test again.

(9) *Method of Testing.*—The lantern supplied for the examination is so constructed as to allow one large or two small lights to be visible, and is fitted with twelve glasses of three colours—red, white and green. At the beginning of the examination the candidate shall be shown a series of lights through the large aperture, and he shall be required to name the colours as they appear. In showing the white light it shall be emphasised that this light is not a pure white. If a candidate makes a mistake in calling this light "red" a proper red light shall be shown immediately after and his attention directed to the difference between the two.

After a series of lights through the large aperture has been shown, two complete circuits and one broken circuit with the two small apertures shall be made, the candidates naming the colours of each set of two lights from left to right.

(10) *Passing or Failure.*—(a) If a candidate does not make any mistake in the lantern test after passing the letter test he shall be deemed to have passed the whole examination and the examiner shall issued a certificate to that effect.

(b) If, with either the large aperture or the two smaller apertures of the lantern, a candidate mistakes red for green or green for red, he shall be considered to have failed in the lantern test.

(c) If a candidate makes any other mistake with the lantern, i.e. if he calls white "red" or red "white" or confuses green and white, his case shall be referred to the Director.

(d) A candidate shall be notified by the examiner of his success or failure or else that his case has been referred to the Director, and in that event he shall be told that the decision as to whether he has passed or failed, or must undergo a further examination, will be communicated to him in due course. Pending the receipt of the Director's instructions, a candidate for a certificate of competency shall only be allowed to proceed with such examination on the express understanding that the latter examination will be cancelled in the event of failure at the colour and form vision tests.

(11) *Cases Referred to Director.*—Whenever a case has been referred to the Director, he shall decide whether the candidate has passed or has failed or must undergo a further test. If the Director decides that the candidate must undergo a further test, the candidate shall be informed of the date, time and place of the further examination. No additional fee shall be charged for such examination. Every such examination shall be conducted by an examiner other than the examiner who conducted the first test. The examiner shall decide that the candidate has passed or that he has failed the test.

(12) *Appeals.*—Whenever—

- (a) the candidate has failed to pass the first lantern test; or
- (b) the Director has decided in a case referred to him that the candidate has failed to pass the first lantern test; or

(c) die kandidaat wie se geval na die Direkteur verwys is, in die verdere lantertoets, volgens die beslissing van die Direkteur, gedruip het,

Kan die kandidaat skriftelik na die Direkteur appelleer, en daarna word hy, by betaling van twee ghienies, wat aan hom terugbetaal word as hy slaag, toegelaat om 'n verdere spesiale toets af te lê.

'n Verdere spesiale toets moet, waar doenlik, gehou word deur 'n eksaminator, uitgesonderd 'n eksaminator wat een van die vorige toetse afgeneem het, wat dan deur 'n oogarts deur die Direkteur benoem, geadviseer moet word. Die kandidaat kan, vir eie rekening, versoek dat 'n bloedverwant of vriend of 'n addisionele oogarts, deur hom benoem, as getuies by die afneem van die eksamen teenwoordig moet wees.
