TOEPASSING VAN DIE REGULASIES UITEENGESIT IN DIE BYLAE BY DIE WYSIGINGSWET OP DIE KONTROLE OOR WYN EN SPIRITUALIEË, 1954.

Nademaal die Minister van Landbou-ekonomie en -bemarking rede het om te vermoed dat die hoeveelheid wyn, synde wyn soos omskryf in die Wet op Beheer oor Wyn en Spiritualieë, 1956 (Wet No. 38 van 1956), en vir distilleringsdoeleindes bestem, wat gedurende die jaar 1965, geproduseer is of geproduseer staan te word, te min sal wees om aan die geraamde behoeftes van die handel en die geraamde benodighede van die Ko-operatieve Wijnbouwers Vereniging van Zuid-Afrika, Beperkt, ten opsigte van sulke wyn te voldoen;

So is dit dat ek, op aanbeveling van die Minister en kragtens die bevoegdheid my verleen by artikel *twee* van die Wysigingswet op die Kontrole oor Wyn en Spiritualieë, 1954 (Wet No. 22 van 1954), soos gewysig, die regulasies in die Bylae by die genoemde Wet uiteengesit,

APPLICATION OF THE REGULATIONS SET OUT IN THE SCHEDULE TO THE WINE AND SPIRITS CONTROL AMENDMENT ACT, 1954.

Whereas the Minister of Agricultural Economics and Marketing has reason to believe that the quantity of wine, being wine as defined in the Wine and Spirits Control Act, 1956 (Act No. 38 of 1956), and intended for distillation purposes, produced or to be produced during the year 1965 will be insufficient to meet the estimated needs of the trade and the estimated requirements of the Ko-operatieve Wijnbouwers Vereniging van Zuid-Afrika, Beperkt, in respect of such wine;

Now, therefore, on the recommendation of the Minister and under the powers vested in me by section *two* of the Wine and Spirits Control Amendment Act, 1954 (Act No. 22 of 1954), as amended, I hereby declare the regulations set out in the Schedule to the said Act, with the inclusion

CHAIRMAN'S REVIEW.

Since my last review major changes in the operations of your Company have taken place. As reported to you at the time, the mining interests of LONRHO, LIMITED, were taken over by your Company and recently your Company became a subsidiary of TWEEFONTEIN UNITED COLLIERIES, LIMITED. In view of the fact that this Company is in effect a subsidiary of LONRHO, LIMITED, it has become necessary for its financial year end to coincide with that of Lonrho and it has consequently been changed to 30th September. Direct comparison of results, especially in the case of the new subsidiaries with varying periods of time being included in the accounts, is, therefore, not very significant so I intend to lay more emphasis in this review on certain aspects of current operations and future prospects.

MURIEL MINE.

At the Muriel Mine emphasis in development operations was placed on the provision of facilities for handling ore below 22 Level and the position for the proposed main sub-vertical shaft to be collared on 22 Level had been reached at the year end. The slightly lower development footages and consequent decrease in ore reserves are therefore not significant. During the period under review development and prospecting operations disclosed three new encouraging occurrences, namely, a new reef on 14 Level, possibly related to old workings in the No. 1 Shaft area which are recorded as having beeen worked to about 9 Level; a new reef called the Backhill Reef, well in the footwall of the Muriel workings and carrying payable quantities of copper-gold; and a possible mineralised area about a mile from the mine workings revealed by a programme of surface geochemical sampling and power augering carried out during the year with Government assistance and co-operation.

The smelting plant operated satisfactorily according to original expectations and this factor combined with a more advantageous selling contract for the matter produced resulted in higher revenue from this source, apart from the increase due to the higher world price of copper. During the current year improvements will be made to the smelter plant to increase overall recovery still further.

Mining in the known ore shoots should continue at an even tenor for the foreseeable future. Improvements in mill and smelter will result in added revenue to offset rising costs. Prospecting on the three new exposures mentioned holds some promise of success so that the outlook at Muriel is good.

ARCTURUS MINE.

At the Arcturus Mine two factors of note emerged from the development operations. The first was that the small rich shoots in the hangingwall and footwall West Reefs persisted to 26 Level, giving encouragement to follow them downwards; the second was that an encouraging intersection of the Venus Reef was made in a borehole from surface drilled as part of an active surface exploration programme carried out during the year. These two features will be intensively prospected during the current year.

Ore reserves as compared with the previous year decreased from 164,000 to 58,000 tons due to the facts that new ore exposed did not match depletion and a further 50,000 tons contained in pillar reserves have been written off as it is not considered that they can be extracted profitably and safely.

It is thus seen that, unless success attends the prospecting operations during the current year, the mine will have to adopt a policy of greatly curtailed production until closure, as was indicated in my previous review.

MAZOE MINE.

At the Mazoe Mine the policy has been and will continue to be aimed at increasing ore reserves to a level commensurate with the mine potential. During the past year a high development rate combined with a low depletion rate of ore reserves had the desired effect of increasing the ore reserves to 232,000 tons at 7·1 dwts. over 52 inches. Development into new areas indicated westward extension of the main Connaught payshoot which in time should allow of increased production. Exploration on surface was vigorously pursued during the year as well as crosscutting underground and some extension to old workings was indicated by this work. As a result an extensive area of ground adjoining the mine was pegged.

Hoisting, sorting, milling and handling facilities on the mine are not adequate for the output contemplated in a few year's time, so capital expenditure for the next two years is likely to be of the order of R220,000 for the provision of these facilities. In addition, some R70,000 annually will be required for provision of housing, plant and equipment, and exploration.

To assess the prospects of this mine, it is necessary to consider simultaneously the operating results of the Nucleus Mine. Although the Nucleus Mine is accounted for separately it is, from a geological and mining point of view, part of the Mazoe Mine. A policy aimed at increasing ore reserves during the past year resulted in an increase in these reserves to 25,700 tons at 19·1 dwts. over 57 inches. Production for the current year at 1,000 tons per month to sorting plant is expected to yield a profit of over R120,000 for the year.

KANYEMBA MINE.

At the Kanyemba Mine, development operations have revealed odd small patches of payability which, combined with stoping from sources outside ore reserves, have contributed sufficient gold to the plant to allow of negligible calls being made on ore in reserves whilst maintaining small profits. Dependent upon prospecting results during the current year the mine will either continue to run as a self-financing prospect, or be closed down after extracting all remaining ore.

I must remind you in this connection that when this Company took over the Kanyemba Mine the price paid was calculated on the basis that Kanyemba would be shut down and the mine gutted and the machinery and plant sold.

Application has been made to thee Rhodesian Government to have this mine declared an assisted mine.

GENERAL.

The increase in potential earning capacity which has been indicated by the intensive development programme carried out in recent years gives cause for firm conviction that the Mazoe Mine area in conjunction with the Muriel Mine will make up the reduction in Group earnings which could be expected to follow the closure of the Arcturus and Kanyemba Mines, should such a course be dictated by results. Gold mining history in Rhodesia can produce many examples where sound technical and administrative abilities have consolidated a group of small workings into a stable productive unit with a long life, and we consider the Mazoe area to have the makings of another such example.

In this connection, I cannot but pay tribute to the enlightened approach by the Rhodesian Government to the question of increasing gold production. The recent increase of the depletion allowance to 15 per cent, the reduction of income tax to 7s. 3d. in the pound and the various schemes for financial and technical participation in prospecting ventures are all examples of this approach.

Prospecting and the search for an examination of new mining propositions is being energetically pursued and on this too the assistance of the Rhodesian Government Authorities is frequently received.

ACCOUNTS.

The Company's accounts for the fifteen months period are summarized in the Report of the Directors. As I have stated, the major changes in the operations, the alterations to the capital structure consequent upon the increase in capital authorized at the last Annual Meeting, the acquisition of various additional interests in Rhodesia and the change in the year-end have made direct comparison of results with previous years of no significance.

The consolidated accounts for the period to 30th September, 1964, cover fifteen months' operations of the Muriel and Arcturus Mines and nine months of Kanyemba, Mazoe and Nucleus Mines. The Empress Mine was shut down early in 1964. Other items of revenue and expenditure are for the full period of fifteen months.

These operations, after charging depreciation of R110,380 and writing off R29,514 for prospecting and claims expenses, resulted in an operating profit for the period of R548,452. After providing R16,479 for taxation in Rhodesia (there is still no liability in South Africa), writing off a net amount of R23,786 from Mining Claims and Shafts, and transferring R73,000 to General Reserve there remained R435,187 available for distribution. Dividends paid and declared accounted for R380,500 and the balance of R54,687 was added to the amount carried forward which now stands at R174,500.

DIVIDENDS.

Your Board has decided that as the Company's year end has been changed Dividends in future will be declared in March and September each year instead of December and June as previously. To bring the distribution into line with the future and to be in keeping with the fifteen months' period of the accounts a Dividend of 1½ cents per Share was declared in September, 1964. This made a total distribution for the period of 7½ cents. At the time of the increase in capital and the acquisition of the further interests in Rhodesia it was stated that it was expected to be able to maintain a Dividend of six cents per Share on the increased capital of your Company for the next few years; there seems to be no reason for changing that view.

In conclusion I wish to record the appreciation and thanks of the Board to the Managers and their staffs at the various mines, to the Consulting Engineers and to the staffs of the Johannesburg, Salisbury and London Offices for their loyal and efficient services.—S. F. Dench, Chairman, Johannesburg, 12th January, 1965.

(*a*) why this Honourable Court should not confirm that reduction of the Capital of the Company in terms of the following Special Resolution passed by the Company on 29th December, 1964:—

"II. AS A SPECIAL RESOLUTION.

(*d*) (i) why 24th November, 1964, should not be determined, in terms of Section 47 (1) of Act No. 46 of 1926 (as amended), as the date on which Creditors entitled to object to the proposed reduction of Capital are to be determined;

(ii) why the list of Creditors which is Annexure K to the petition should not be settled as the list required in terms of Section 47 (2) of the said Act, No. 46 of 1926 (as amended);

3. That the Company send forthwith, by prepaid registered post, a copy of this order to each Creditor whose name is set out in the list referred to in paragraph 2 (*d*) (ii) and whose claim has not been paid at the date of this order, or who does not consent to the granting of this order (excluding, however, those referred to under the heading "Sundry Shareholders) (whose addresses are not known) in respect of unclaimed Dividends and repayments in terms of a re-organisation of Capital";

4. That on the return day of this order the Company file—

(*a*) an affidavit showing—

Dear Sir,

Re: MY INSOLVENT ESTATE.

My father, Mr. L. A. van Eyssen, having arranged a settlement of the petitioning creditor's claim, and the S.A. I wish to be re-invested with the remainder of my estate, including the immovable property in which I reside, subject to the mortgage bonds thereon, on the understanding that I will arrange to pay the instalments due under the bonds as and when they fall due.

The amount due to cover the sequestration and administration costs, preferent and secured creditors, excluding the bondholders, and the amount required to pay concurrent creditors in full, will be liquidated by a deposit of R900 which will be paid to you in trust as soon as you circularise my creditors, and the balance will be paid on acceptance of the offer by creditors when you should be in a position to advise me as to what amount will be required.

The amount due by me in terms of this offer will be guaranteed by my father, Mr. L. A. van Eyssen.

Yours faithfully,
