General Notes.

1. (*a*) *South African branches of foreign firms.*—If a foreign firm conducts its operations in South Africa through a branch(es), the branch(es) should be regarded as an entity separate from its foreign head office organisation, and only the liabilities and assets of the South African branch(es) should be reported. The accounting relationship between the branch(es) and its (their) foreign head office should be reflected on a net basis under Liability Item 5 and in exceptional cases when this balance is a debit under Asset Item 8.
   (*b*) *Foreign branches of a South African firm.*—The liabilities and assets of a foreign branch(es) of a South African firm should likewise be excluded from the liabilities and assets to be reported by the firm. The accounting relationship between the South African firm and its foreign branch(es) should likewise be reflected on a net basis under Asset Item 8 and in exceptional cases when this balance is a credit under the Liability Item 5.
   (*c*) Foreign assets and liabilities of a South African firm which are held or owned directly and not through foreign branches should be show against the appropriate items and not against item 5 of liabilities of item 8 of assets.
2. *Parent, subsidiary and fellow-subsidiary company.*—A parent-subsidiary relationship is recognised in the following cases:—
   (*a*) If the parent company has an effective say in the policy of the organisation, whether by virtue of share ownership, agreement, or as secretaries and consultants, or otherwise.
   (*b*) Ownership by one firm (the parent) of at least 25 per cent of the voting rights of another firm (the subsidiary).
