CHAIRMAN'S INTERIM REPORT.

The estimated results of the Company for the half-year ended 31 December 1967, are set out below, together with the figures for the corresponding period of 1966 and for the financial year ended 30 June 1967.

	July to Dec. 1967.	Dec. 1966.	July 1966 to June 1967.
	R	R	R
Group profit before taking into account the items mentioned below.....	1,169,000	1,284,000	2,125,000
Less Depreciation of Fixed Assets.....	236,000	187,000	404,000
Less Interest Paid.....	213,000	183,000	396,000
Net Profit before Tax.....	720,000	914,000	1,325,000
Less Provision for Taxation.....	289,000	326,000	527,000
Net Profit after Taxation.....	R431,000	R588,000	R798,000

Trading conditions during the 6 months under review were difficult but if we take into account the heavy expenditure involved in the introduction of computers to which I referred in my annual statement last year, the results, if a little disappointing, are reasonably satisfactory.

It is often dangerous and never easy to forecast future trends; the normal pattern of trading by your Company is that profits in the second half of the financial year, are less than in the first half. There are no reasons for thinking that there will be any change in this pattern in the case of the current 6 months.

In my statement last year I said:—

“A cautionary note must here be sounded that, in view of your Company's illiquidity and the expected continuation of the credit squeeze, the payment of the next dividend in June 1968, will have to be very carefully considered in the light of the liquid resources available at the time.”

There has been a marked improvement in the liquidity of your Company since I made those remarks, and your directors consider that taken in conjunction with the profits earned, the payment of a dividend is justified. In view, however, of the lower estimated profits, your directors deem it wise to reduce the dividend to 10 per cent on ordinary shares, payable on 21 June 1968.
