DEPARTMENT OF WATER AFFAIRS

No. 137 7 February 1969
NOTICE OF CURTAILMENT IN RESPECT OF THE ABSTRACTION AND USE OF WATER FOR AGRICULTURAL PURPOSES.—VAAL RIVER AND ORANGE RIVER, TRANSVAAL AND CAPE PROVINCE

1. It is hereby notified for general information that the Minister of Water Affairs has, by virtue of the powers vested in him by section 9A of the Water Act, 1956 (Act 54 of 1956), on account of the abnormal drought conditions and the serious decrease in the flow of the Orange River, decided to release a quantity of water from the Vaalharts Weir for use by riparian owners in the Lower Orange River area. In order to exercise control over the inflow into the Vaalharts Weir as well as the water released it has been decided to control the Vaal River between Vaal Dam and Maselsfontein and the Orange River between Maselsfontein and the Aughrabies Falls in terms of section 9A of the Water Act, 1956 (Act 54 of 1956), so as to distribute such water as may be available for irrigation purposes amongst the riparian owners entitled to use such water for agricultural purposes, in such manner as the Minister or his authorised representative deems fit.

2. In order that the above-mentioned control measures may be exercised as expeditiously and smoothly as possible, the Minister of Water Affairs has, in terms of section 165 of the said Water Act, delegated the powers conferred upon him by section 9A of the said Act to the Circle Engineer at Upington in respect of the portion of the river between Prieska and Aughrabies Falls and to the Head Water Bailiff, Vaalharts Government Water Scheme, in respect of the portion of the river between the Vaalharts Weir and Prieska, and to the Circle Engineer at Kroonstad in respect of the portion of the river between Vaal Dam and the Vaalharts Weir.

Government Notice 1555 of 30 August 1968, is hereby repealed.

STEWARTS AND LLOYDS OF
SOUTH AFRICA LTDCHAIRMAN'S STATEMENT TO
THE SHAREHOLDERS

The following is a review of the Company's affairs for the 52 weeks ended 28 September 1968.

Sales and Earnings

Sales for the period were R51,098,699, approximately R4m more than for the preceding period. This amount does not include a figure of R2,514,923 which is the value invoiced on behalf of Stewarts and Lloyds Limited, United Kingdom, for the Richards Bay pipeline. To include this figure in the total sales would tend to distort comparisons. We earned on this a net commission of R45,993.

The net trading profit before tax is this year R2,421,587 compared with R1,088,279 for the previous year. Trading profit after taxation is R1,339,727 compared with R695,933. In addition, there were considerable profits from trade investments realised, and the sale of fixed properties made possible by the reorganisation of the group, and the final profit after tax for the period of R2,619,642.

These figures are a considerable improvement on last year which admittedly was poor. It is significant that they were achieved in the face of rising costs and fierce competition. There is still overcapacity in the tube-making industry in this country, yet we have extended our share of the market at keen prices, and have succeeded in increasing loading for our mills. While there are fluctuations in the level of contributions from differing territories and products, the profit improvement indicates the inherent strength of the group.

Dividends

The improvement in trading profit forecast last year has been achieved and the directors have declared a dividend of 6½ cents per issued ordinary share (1967—6½ cents). This dividend is covered approximately 1½ times this year.

Company Developments

This year your Company concluded the purchase of a stainless steel tube mill from Hospital Equipment Co., a subsidiary of Protea Holdings. In the ensuing year it will be re-installed in our own works and we will add to it the necessary ancillary equipment to cater for a fair portion of the local stainless steel tube market.

Further work on Company reorganisation during the year has resulted in a management structure based on divisional operation with emphasis on future planning.

Mr B. C. Warner has been appointed Assistant Managing Director (Operations) with the three divisions of production, distribution and engineering and contracting reporting to him, and Mr W. F. Spence has been appointed Assistant Managing Director (Planning) to look after long range planning for diversification and technological improvement.

Future Prospects

The improvement in performance in 1968 is reasonably satisfactory but we are not complacent. We are determined to restore full profitability to the group, and

our use of resources is undergoing searching enquiry. Although we face further increased salaries and wages, we intend to continue our progress. Nor are we satisfied with our service to customers, and there will be determined efforts to improve this important side of our business.

Furthermore, several potentially attractive schemes are under review by Company management, and it is hoped that these will prove to be worth undertaking.

Our basic raw material is steel, and the price and delivery pattern of steel is vital to us. Continuing world competition in steel and finished product exports affects out coastal markets and those in neighbouring territories. Overseas prices for steel tubes at the coast and in these markets are often below the cost to us of steel. The distance of both steel-works and tube-works from the coast is a further factor operating against us, and a more realistic appraisal of rail rates would be of immense value to the continued development of this important secondary industry. Any increase of basic steel prices would have a serious effect on our ability to service these markets and an increase in tube prices would be inevitable.

We have experienced serious problems in employing efficiently a new computer, and have suffered additional costs. It will be some time before we will reap the full benefits of the installation. Partly as a result of these difficulties debtors control has suffered, and debtors have risen unduly. There is room here for material change which will improve our liquidity.

Metrication

The determination to proceed with metrication is another important cost factor which will have to be borne by the country in terms of conversion costs of a wide range of products, particularly where volumes are small and in greatly increased interim stocks to be carried until installations are completely changed over to the new measurement and specification requirements.

Subsidiary Companies

Rhodesia has had another good year and prospects there are fair, but a settlement of the problems arising from U.D.I. would make for easier management and expansion.

In Zambia we have reduced the scale of our operations, and trading branches have been closed. While the remaining Kitwe manufacturing operation has been profitable, it is difficult to predict what the future holds.

Bundy Tubing Company of S.A. (Pty) Limited incurred a loss of R62,000 on its first full year of operation. Vigorous campaigns have improved sales which, although more than quadrupled over the previous year, are still not at break-even level.

Directors

Pending his retirement at the end of this year Mr J. L. Hime who had been a director of the Company for nearly 14 years and had served the Company in numerous capacities for 42 years, resigned from the board on 30 September 1968. We shall miss his experienced contributions and wish him a long and happy retirement.

On 18 October 1968, Mr W. N. Menzies-Wilson resigned as Chairman of the Board after giving since 1953 sustained and valuable service as a director, Managing Director and then Chairman. I am happy that he remains a director and that his counsel and experience will be available to us.

On 26 March 1968, it was announced that Mr W. L. Morrison would retire as Managing Director on 31 December 1968, but that he would remain a director of the Company. He retires after a long and distinguished career in the Company, and in the industry, and I express our great appreciation for his devoted service. He is to be succeeded from 1 January 1969, by Mr T. M. King who has had over 30 years service with the group.

I was elected Chairman on 18 October 1968, and look forward to serving this great Company of ours and assisting in creating a sound future for it.

I would like to express my appreciation to the executives of the Company who have in this past very difficult year set about improving the Company's position. I am pleased to find a fine spirit of determination and loyalty at all levels of management.

I record my thanks to my colleagues on the board for their support and counsel, and to all employees of the group for their sustained and unstinting service.—
H. C. Kuiper, Chairman, 13 December 1968. 2716—7

ECLIPSE ENGINEERING LIMITED (Incorporated in the Republic of South Africa)

Profits for the six months to 31 December 1968 show a definite increase on the figures for the corresponding period of the previous year. The forward order position in most departments shows an improvement and the Board is sanguine that, subject to no unforeseen circumstances, the profit for the year to 30 June 1969, should be significantly higher than that for the previous financial year. However, it has been decided to maintain the interim dividend at one cent per share, formal notice of which appears below. If profit expectations are realised when final figures are available for the financial year consideration will be given to increasing the final dividend beyond last year's declaration of two cents. By Order of the Board.—J. Kelly, Secretary.

INTERIM ORDINARY DIVIDEND 35

Notice is hereby given that Dividend 35 of one cent per share, has been declared as an interim dividend in respect of the financial year ending 30 June 1969, payable to shareholders registered in the books of the Company at the close of business on 28 February 1969.

Warrants in payment of this dividend will be posted on or about 1 April 1969.
