13. The Government Printer reserves the right to levy an additional charge in cases where notices, the cost of which has been calculated in accordance with the list of fixed tariff rates, are subsequently found to be excessively lengthy or to contain overmuch or complicated tabulation.

Note

The comparative unaudited results for the six months ended 31 December 1986 and the audited results for the twelve months ended 30 June 1987 have been increased by making the necessary adjustments for discontinued operations incurred in that period, which is in line with the adjustments made to the audited results in the prospectus.

Comment

Barnetts was listed on The Johannesburg Stock Exchange on 17 November 1987 after being the subject of a management buyout from its previous holding company, Currie Motors (1946) Limited. Management were assisted in the buyout by Corporate Merchant Bank Limited. The results have been achieved despite the disruption to trading caused by the negotiations regarding the buyout which were only finalised towards the end of August. Net income for the six months under review has increased from R989 000 to R1 430 000—an increase of 44,5 % over the previous comparable period.

During the period, two new stores were opened and action was taken to relocate two other stores to more strategic trading positions. In addition, we recommenced trading at three sites where we had previously discontinued operations. All of these actions only took place towards the end of the period and therefore the full benefit will only be felt in the second half of the financial year. In addition, a new Barnetts store will open in Pietersburg in March 1988.

It has been decided, in view of the improvement in trading, to declare an interim dividend of 2 cents per share. The official dividend notice is noted below. Shareholders will, as noted in the prospectus and barring unforeseen circumstances, receive dividends totalling at least 5 cents per share for the financial year to 30 June 1988.

Taxation has been notionally provided at 50 % of pre-tax income, but had the partial method of accounting for deferred taxation been adopted, as is increasingly being done by comparable listed companies, then earnings per share would have been 22 cents per share, for the six months ended 31 December 1987.

Prospects

The company continues to trade buoyantly and although traditionally the first half of the financial year contributes more towards profits than the second half, in view of the action taken in the second paragraph above and in the absence of any unforeseen circumstances, the forecast earnings per share as noted in the prospectus, will be exceeded.

The raising of new capital on the JSE has placed Barnetts in a sound financial position from which the business can be developed.

DIVIDEND DECLARATION NOTICE
