No. 419

2 April 2004

NATIONAL TREASURY**PUBLIC FINANCE MANAGEMENT ACT, 1999
EXEMPTIONS**

I, TREVOR ANDREW MANUEL, MINISTER OF FINANCE, acting in terms of Section 92 of the Public Finance Management Act, 1999 (Act No 1 of 1999), hereby exempt the institutions specified in the first column below from the provisions of that Act specified in the second column to the extent and duration specified in the third and fourth columns of the Schedule.

MINISTER OF FINANCE

Date: 16 March 2002

SCHEDULE

INSTITUTION EXEMPTED	SECTION OF ACT	EXTENT OF EXEMPTION	DURATION OF EXEMPTION
IDC and its subsidiaries – Findevco (Pty) Ltd, Konoil (Pty) Ltd, Impofin (Pty) Ltd, Export-Import Finance Corporation of SA (Pty) Ltd	55(2)(c)	Each subsidiary under the ownership control of the IDC must annually submit a copy of its audited financial statements to the National Treasury.	Until 31 October 2005
Dormant Subsidiaries of the IDC	Whole Act	The exemption lapses when the dormant subsidiary becomes active. A list of all dormant subsidiaries must be submitted to National Treasury bi-annually.	Until 31 October 2005
Foskor Limited	Whole Act		Until 31 October 2005
Mocotex Limitada	Whole Act		Until 31 October 2005
Swellensharon Property	Whole Act		Until 31 October 2005
Rotundo Walnuts	Whole Act		Until 31 October 2005
Debt Restructuring subsidiaries of the IDC	Whole Act	The exemption lapses when the IDC gains control over the entity to the extent that it requires consolidation on the IDC's balance sheet. A list of Debt Restructuring subsidiaries must be submitted to National Treasury bi-annually.	Until 31 October 2005

GENERAL NOTICES

NOTICE 528 OF 2004

NOTICE OF AN APPLICATION FOR AN EXEMPTION IN TERMS OF SECTION 10 OF THE COMPETITION ACT 1998: NATIONAL HOSPITAL NETWORK

An application for an exemption has been filed with the Competition Commission by the National Hospital Network (the Applicant), a co-operative venture owned and controlled by a group of independent private hospitals. The Applicant applies for an exemption for a category of agreements, as provided for in section 10(1)(b), from the provisions of section 4(1)(b)(i) of Chapter 2 of the Competition Act 1998 (the Act). The application relates to agreements in terms of which members of the Applicant agree to support and/or implement prices, terms and conditions of agreements negotiated and entered into on their behalf by the Applicant with medical schemes, medical schemes administrators and input suppliers.

Section 4(1)(b)(i) of the Act prohibits an agreement between, or concerted practice by firms or a decision by firms in a horizontal relationship if it involves directly or indirectly fixing a selling or purchase price or any other trading condition. A horizontal relationship refers to a relationship between competitors.

The Applicant submits that the category of agreements for which an exemption is sought is required to obtain the objective contained in section 10(3)(b)(ii) of the Act, since it contributes to the promotion of the ability of small businesses and firms controlled or owned by historically disadvantaged persons to become competitive.

The period for which an exemption has been applied for is 6 years, incorporating agreements signed between members of the Applicant for the year 2003, as well as agreements to be entered into for the years 2004 to 2008.

In accordance with the provisions of section 10(6) of the Act, notice is hereby given of the above application for exemption. Interested parties can make written submissions to the Commission as to why the exemption should not be granted. Such submissions must reach the Commission within 20 (twenty) working days from the date of this Notice and should be directed to:

NOTICE 535 OF 2004**PRACTICE MANUAL OF THE KZN DIVISION OF THE HIGH COURT****1. Introduction**

This is an attempt to consolidate into one document the rules of practice of this Division. Much of it will be repetition of what has gone before. Judges President in the past have issued practice directives and where they are still applicable these will simply be incorporated herein. Where we have felt it necessary to modify or even change a rule of practice we have indicated this in the text. Changes have taken place since some of these past directives. One that comes to mind is the Rule of Court which permits the registrar to grant default judgment in respect of liquidated claims.¹ That has significantly reduced the number of cases on the daily motion court rolls. However the previous directives are still of application in regard to issues such as, for example, the sufficiency of allegations in a simple summons.

What is meant by the practice of the court? This deals essentially with the daily functioning of the courts. It sets forth how we in KZN do things. Obviously it does not seek to override the Rules of Court which of course have the force of law. Practice directions supplement the rules. They are intended to act as a ruling in advance, as it were, by all the judges of the Division as to how things are to be done.

Judges are however not bound by practice directives. While we obviously strive to achieve uniformity it must clearly be understood that these directives cannot fetter the exercise of a judge's discretion and in an appropriate case he/she may be persuaded to relax or change a practice of the court. We envisage that this will only arise in exceptional circumstances. If a judge

does depart from a particular practice this will not be regarded as a modification of the practice. Changes can only come about if this is done with the authority of the Judge President in consultation with the other judges of the Division.

2. Service of Process²

2.1. On Company or Corporation³

Where service is effected by affixing the process to the principal door at the registered office of a company the Sheriff must state in his return that he ascertained that there was a board at the office indicating that this was indeed the registered office of the company. In the absence of such indication practitioners must present to the court or the registrar the form CM22 issued by the registrar of companies to prove the efficacy of the service.⁴

2.2. Service at *domicilium citandi et executandi*⁵

Apart from making the allegation that the address in question is the chosen *domicilium* practitioners are required to produce to the court or the registrar when service is proved a copy of the document wherein the defendant chose such *domicilium*. In many instances this document will probably form part of the application or action but there will be cases where a simple summons makes the bare allegation.⁶

Rule 4(10) makes it clear that the court has a discretion whether to accept service at a *domicilium* as good service. Whether such service

¹ See Rule 31(5)

² Rule 4

³ Rule 4(1)(a)vii

⁴ This a change to the existing practice.

⁵ Rule 4(1) a(iv)

⁶ This is a change to the existing practice.

will be accepted as good service will depend on the particular facts of each case. There is, however, no rule of practice to suggest that such service is ordinarily not good or effective service. In most case it will be regarded as good service.⁷

- 2.3 Where an application for default judgment is made six months after the date of service of the summons, it is both the practice of the registrar's office and the Court to require that a notice of set down be served on the defendant informing him her that such default judgment will be sought on a given date and time⁸, such date and time being not less than five days from the date of the notice.

3. Filing of Returns of Service⁹

Returns of service must be filed timeously. It is the duty of the attorney to ensure that the Sheriff's return of service (or where informal service has been effected, proof of such service) is in the judge's papers before they are sent to the judge's chambers. This also applies to newspaper tearsheets in cases where, for example, service has been effected by substituted service and where publication has been ordered in winding up proceedings. If for some reason, the return or other proof of service cannot be filed timeously then an explanation must be included in the judge's papers. In future, the papers will not be read in the absence of the return of proof of service or a satisfactory explanation for the absence of such documents.

4. The Short Form of Summons

⁷ JP's memorandum 14/7/1982

⁸ New practice

⁹ JP's memorandum 14/7/1982

Rule 17(2)(b) provides that where a claim is for a debt or liquidated demand the summons shall be as near as may be in accordance with form 9 of the first schedule. The following rules of practice apply in relation to the sufficiency of allegations in the summons.

- The court cannot have regard to returns of service to determine whether it has jurisdiction. The averments necessary to establish jurisdiction must be made in the summons. Adjournments will however be granted to effect the necessary amendments¹⁰, subject, of course, to questions of wasted costs which may arise.
- An allegation in a summons that a natural person is "of" a certain address, will be regarded as a sufficient allegation that that is his place of residence, but an allegation that a person is "care of" a certain residence will not.
- An allegation that an artificial person is "of" a certain address will not be regarded as an allegation that that is its registered office or principal place of business.
- Where in actions other than divorce actions, the summons states that "the whole cause of action arose within the area of jurisdiction of this honourable court", that will be regarded as a sufficient allegation.
- The summons must make it clear whether the claim is for a debt or liquidated demand or a claim for damages and contains the allegations that the cases have established as being necessary.

¹⁰ JPs memorandum 14/7/82

- An allegation that a claim is for "the price of goods sold and delivered" will be regarded as a sufficient description of the cause of action. Likewise an allegation that the amount claimed is "in respect of goods sold and delivered" is sufficient.¹¹
- Where the cause of action is founded on a deed of suretyship it is necessary to set out the cause of action giving rise to the original debt. (It is not necessary to annex the suretyship agreement to a simple summons. In summary judgment proceedings it will be necessary to do so if the document is in fact a liquid document.

5. *Mora* Interest

A court making an order for the payment of interest can only decide if the rate is lawful at the date of judgment and make an order accordingly. Furthermore, interest at the rate laid down in Act No 55 of 1975 can only be ordered if there is no agreement as to the rate of interest.¹²

When *mora* interest is claimed on a dishonoured cheque, the date of presentment must be alleged in the summons; if this is not done, interest will run only from the date of service of the summons.

6. Bank Overdraft Interest

Where the agreement between banker and customer provides that interest will be paid at the "current overdraft rate" and there has been a change in the rate of interest since the date of issue of the summons an employee of the bank is required to put up a certificate setting out all relevant changes in the

¹¹ JP's memorandum 15/12/86

¹² JP's memorandum 15/12/1986

overdraft rate since the date of issue of summons as well as dates upon which such changes occurred.¹³

7. Confession to Judgment¹⁴

Where application is made through the registrar for the entry of judgment in terms of a confession, the party submitting same is required to depose to an affidavit which shall set forth all payments made subsequent to the execution of the confession and demonstrate how the capital and interest claimed is calculated. In addition such affidavit shall also very briefly set out the nature of the default that gave rise to the plaintiff's entitlement to lodge the confession¹⁵ and any reason for the delay in submitting the confession.

8. Application Procedure¹⁶

8.1. Introduction

There are fundamentally three categories of Applications.

8.1.1. *Ex parte* applications, which are catered for in Rule 6(4)(a), read with form 2 of the first schedule. Here the applicant gives notice to the Registrar in what is termed "a short form of notice of motion". In sequestration and winding up proceedings where the applicant relies on an act of insolvency or inability to pay debts and is able to produce documentary evidence of such inability - eg a letter or balance sheet, the application may be brought

¹³ JP's memorandum 15/12/1986

¹⁴ Rule 31(1)(c)

¹⁵ This is a new practice directive although we are aware that some judges in the past have followed this procedure

ex parte without notice. This is a practice of long standing in this Division¹⁷ In winding up proceedings an amendment to the Companies Act and the Insolvency Act¹⁸ requires *inter alia* that the applicant "must furnish the company or the debtor, whatever the case may be, with a copy of the application unless the court in the exercise of its discretion dispenses with this after being satisfied that it would be in the interests of the creditors and the debtor to do so." We do not consider that this amendment detracts from the aforesaid practice. The furnishing of the copy of the application is intended to take place informally.¹⁹ It is envisaged that in the majority of cases the applicant will make out a case to dispense with the provision.

8.1.1.1. This Division adheres to the practice laid down in *ex parte Three Sisters (Pty) Ltd*²⁰ (that is to say, where a company applies for its own winding up) which is set forth as follows:²¹

"Whatever a company's reason may be for wanting to be wound up in terms of s 344(a) of the Companies Act 61 of 1973, and

¹⁹ see Sub-s (4A) (b) Act 69 of 2002

²⁰ 1986(1)SA 592 (D)

irrespective of whether or not its liabilities exceed the value of its assets, creditors of the company have a very real interest in its continued existence or demise, and the court should ensure, in so far as it is able to, that they are not prejudiced. The most effective way of doing this is to require that creditors be given notice of the application, and at a stage which would afford them the opportunity of voicing their objection to the grant of a provisional winding-up order, since even the grant of such an order has the potential of prejudicing them. Creditors need only be given informal notice (eg by pre-paid registered post) of the nature of the application and of the date of hearing, together with an intimation that the papers are available for inspection at the offices of the plaintiff's attorneys."

- 8.1.2. Interlocutory applications and other applications incidental to pending proceedings can be brought on notice supported by such affidavits as the case may require.²² Here the KZN practice is that a short form of notice of motion is also used.

²¹ Headnote Three Sisters case *supra*

²² Rule 6(11)

8.1.3. Every application other than the above must be brought in terms of Rule 6(5)(a) using a notice of motion in accordance with Form 2(a) of the first schedule. KZN practitioners have over the years have not adhered strictly to this rule and the judges of this Division encounter numerous instances where the short form of notice of motion is incorrectly used and applications are set down for hearing on short notice. The time periods and format of the long form of notice of motion can only be abridged or dispensed with altogether where the application is one of urgency and a proper case is made out therefor in the founding affidavit.²³ This also includes service of process. Service is effected by the sheriff.²⁴ So-called "informal service" by fax, post and the like will only be condoned in extremely urgent applications where a case is made out therefor in the founding affidavit. A failure to comply with the above may result in the application being struck off the roll.

9. Opposed Applications

Apart from opposed applications that are governed by Rule 6(5) insofar as the time periods for delivery of affidavits and the like are concerned, judges presiding in the motion court are very often asked to adjourn applications which have become opposed and to issue directions in

²³ Rule 6(12)(a) and (b); see *Republikeinse Publikasies (Edms) Bpk v Afrikaanse Pers Publikasies (Edms) Bpk* 1972 (1) SA 773 (A) at 782.

²⁴ See Rule 4(1)(a) : "Service of any process of the court directed to the sheriff and subject to the provisions of paragraph (aA) any document initiating application proceedings shall be effected by the sheriff ..."

regard to the filing of further affidavits. Generally speaking these would be applications brought before the court as a matter of urgency. Many judges of this Division have expressed concern about the frequent adjournments that are sought during process of exchanging affidavits prior to the application being placed on the opposed roll. The practice that will be followed henceforth is as follows:²⁵

9.1. Where the parties agree to the dates for exchanging of affidavits, the judge shall issue such directions and then adjourn the case to a date to be arranged with the registrar. If a rule nisi is in force the rule will be extended to the date when the application is finally disposed of.

Where the parties do not agree the judge after hearing both parties shall issue the necessary directions.

If the judge is satisfied that the application ought to receive preference, he may direct the registrar to accord the matter such preference as she/he is able. If the applicant wishes to seek interim relief pending the opposed hearing representations shall be made to the senior civil judge on duty to give the necessary directions for an urgent hearing.

9.2. The registrar will not allocate a date for hearing on the opposed roll unless the applicant or his/her attorney or in cases where the applicant fails to do so after a reasonable time, the respondent or his/her attorney certifies in writing that the application is ripe for hearing, that is to say, that all the affidavits have been

²⁵ New practice

delivered. A matter shall be deemed to be ripe for hearing where the applicant has not delivered a replying affidavit on the date agreed or directed by the court.

9.3. Where the respondent fails to deliver an answering affidavit the applicant may reinstate the matter on the unopposed roll to move for the relief claimed on notice given to the registrar and the respondent before noon on the court day but one preceding the day upon which the same is to be heard.

9.4. The following practice direction is in force in regard to opposed motions both in Pietermaritzburg and Durban.²⁶

9.4.1. The applicant, excipient or plaintiff in opposed motions, exceptions and provisional sentence proceedings shall not less than five court days before the day of the hearing deliver concise heads of argument (ideally no longer than five pages) and not less than three court days before the hearing the respondent or defendant shall do likewise. The heads should indicate the issues, the essence of the party's contention on each point and the authorities sought to be relied on. Further heads may be handed in at the hearing.

9.4.2. By no later than noon two court days before the day of hearing the applicant, excipient or plaintiff shall notify the registrar in writing whether the

²⁶ Practice direction 1998(1) SA 365

matter will be argued, and if not what alternative relief (for example postponement, referral to evidence, etc) will be sought.

9.4.3. Unless condonation is granted on good cause shown by way of written application, failure on the part of the applicant, excipient or plaintiff to comply with the provisions of paras 9.4.1. and 9.4.2. hereof will result in the matter being struck from the roll with an appropriate order as to costs; and failure on the part of the respondent or defendant to comply with the said provisions will result in the court making such order as it deems fit, including an appropriate order as to costs.

9.4.4. If any of the aforesaid matters is of such a nature – by reason of the volume of the record or the research involved or otherwise – that the judge allocated to hear the matter would, in order to prepare for the hearing, reasonably need to receive the papers earlier than he or she would normally do, the applicant, excipient or plaintiff (as the case may be) shall notify the Registrar in writing to that effect not less than seven court days before the day of the hearing. Failure to do so could result in the matter not being heard on the allocated day.

9.4.5. This direction does not apply to Rule 43 proceedings.

10. Urgent Applications :

10.1. Apart from a certificate of urgency (which practitioners are reminded is not a mere formality : in appropriate cases the signatories of such certificates may be ordered to pay costs *de bonis propriis*) which in specific terms records that the matter is of such a nature that relief has to be obtained forthwith and cannot await the ordinary motion court the following day, the following administrative requirements should be followed:

- (a) As soon as an urgent application is in the pipeline, the registrar should be notified and an indication given as to when it is contemplated the application will be moved.
- (b) This should be followed by a call every hour to inform the registrar who in turn will apprise the duty judge of the current position.
- (c) If the urgent application falls away, the registrar should be told forthwith.
- (d) If practitioners, in the absence of a duty registrar, go before a judge and do not obtain an order, they should immediately report this fact to the registrar.

10.2. In every urgent application (including the ordinary motion court) a draft order must be presented to the judge. If the draft is amended in chambers, practitioners must come to the

assistance of the registrar's typist in order to ensure that the order is in a form where it can be issued forthwith.²⁷

- 10.3. Where a rule *nisi* together with an interim interdict or other interim relief is sought as a matter of urgency the rule of practice in force is stated as follows:

"It is not permissible to grant interim interdicts without notice to the respondent unless there is a real danger that the giving of notice will defeat the object of the interdict or it is wholly impracticable to give such notice. (It is not the practice of this Division to grant orders over the telephone save in very exceptional circumstances)"²⁸

11. Practice in regard to so-called "Friendly" Sequestrations:

Practitioners are reminded that the judges of this Division adhere to the practice directive laid down by P. C. Combrinck J in *Mthimkhulu v Rampersad and Another (BOE Bank Ltd, Intervening Creditor)*²⁹. The judgment requires that such "friendly" sequestrations should at least comply with the following minimum requirements which are quoted in full from the judgment³⁰:

- "1. There must be sufficient proof of the applicant's *locus standi*. There must be facts establishing

²⁷ JP's memorandum 29/1/2003

²⁸ JP's memorandum 15/12/1986

²⁹ [2000] 3 All SA 512

³⁰ Page 517

the relationship between the parties giving rise to the debt relied upon by the applicant. There must be sufficient proof of the debt in the form of a paid cheque, documentation evidencing withdrawal from a savings account or a deposit into the respondent's account at or about the time the respondent is said to have received the money. If the indebtedness arises from a written or partly written contract, a copy of the contract or the written portion must be put up, if from sale copies of invoices must be annexed.

2. Reasons must be given for the fact that the applicant has no security for the debt. A court is naturally suspicious of an unsecured loan being made to a debtor at a time when he was obviously in dire financial straits.
3. Care must be taken to put a full and complete list of the respondent's assets and in particular and more importantly, to put up acceptable evidence upon which the court can determine not what their market value is prior to sequestration but what they will realise post-sequestration at a forced sale (see in this regard the remarks of Leveson J in *Ex parte : Steenkamp and related cases (supra)*)³¹. Very often a value is put to household furniture and effects and second-hand motor vehicles which bear no relationship to their true value.

³¹ 1996 (3) SA 822 (W)

4. In the case of immovable property, I consider that it is insufficient to merely put up an affidavit by a valuer who expresses an opinion as to the value of the property. The valuer should state why he is qualified to make the valuation, what experience he has in valuing houses in the area and give details of comparable sales on which he relies for his value. In addition he must state what he considers the house will fetch on a sale by public auction.
5. In the case of urgent applications to stay the sale-in-execution of an immovable property, full reasons must be given why the application is brought at the last moment. In addition details must be given of attempts the debtor has made to sell the property by way of private treaty.
6. Where there is a bondholder, notice of the application must be given to it.
7. Any application for the extension of a provisional order must be supported by an affidavit in which full and acceptable reasons for the extension are set out."

12. Service of and Extension of the Rule *Nisi* in Provisional Sequestration and Liquidation Applications

- 12.1. The general rule is that provisional sequestration orders are served personally on the respondent(s). Where the respondent happened to be present in court when the order was pronounced, it should nonetheless still be served on her/him

because of the consequences which flow from such service as set out in the Insolvency Act.

- 12.2. Generally speaking the practice followed has been to allow one extension of the rule *nisi* in both sequestration and winding-up orders without furnishing any reason therefor. Where a subsequent extension is sought the party seeking same must lodge an affidavit to motivate the application.

13. Divorce Custody and Other Matrimonial Cases

13.1. Service of Summons :

Divorce being a matter of status personal service is required. This of course is always subject to the court's power to direct a form of substituted service.

A defendant is not permitted to waive service on the basis that he/she consents to the divorce. A judge does however have the power in his/her discretion to abridge the *dies induciae* which run after service has been effected and to allow an early set-down of the undefended action. This of course is on the footing that the defendant is aware that the matter is to be heard and consents thereto.

- 13.2. Where it appears at the hearing of an undefended divorce that service was effected more than six (6) months before the date of the hearing it is the practice to require that the notice of set down be served on the defendant alternatively that the plaintiff

satisfy the court by other means that the defendant is aware that the case is to be heard on that day.³²

14. Marriage Certificates

No hard and fast practice can be laid down in regard to whether a copy of a marriage certificate is acceptable. Some judges require production of the certificate while others are prepared to receive a copy which the plaintiff swears is a true copy of the original³³.

15. Divorce Settlement Agreements

Unlike some other Divisions it is an established and long-standing practice that the entire agreement of settlement cannot be made an order of court. The principle has been clearly enunciated by Broome JP in *Mansell v Mansell*³⁴ as follows:

"For many years this court has set its face against the making of agreements orders of court merely on consent. We have frequently pointed out that the court is not a registry of obligations. Where persons enter into an agreement, the obligee's remedy is to sue on it, obtain judgment and execute. If the agreement is made an order of court the obligee's remedy is to execute merely. The only merit in making such an agreement an order of court is to cut out the necessity for instituting action and to enable the obligee to proceed direct to execution. When, therefore, the court is asked to make an agreement an order of court it

³² This is an old practice; however the 6 month provision is new.

³³ See JP's memorandum 14/7/82

³⁴ 1953 (3) SA 716 AT 712B

must, in my opinion, look at the agreement and ask itself the question 'Is this the sort of agreement upon which the obligee (normally the plaintiff) can proceed direct to execution?' If it is, it may well be proper for the court to make it an order. If it is not, the court would be stultifying itself in doing so. It is surely an elementary principle that every court should refrain from making orders which cannot be enforced. If the plaintiff asks the court for an order which cannot be enforced, that is a very good reason for refusing to grant his prayer. This principle appears to me to be so obvious that it is unnecessary to cite authority for it or to give examples of its operation."

Unconditional undertakings to pay maintenance, educational, medical costs and the like as well as custody and access provisions are made orders of court in terms of the practice. An undertaking to pay the costs of the action is also included. Mere contractual obligations are not. Where a defendant has undertaken to pay a sum of money (other than maintenance) by a future date it is undesirable to enter judgment for payment of that amount against such a defendant unless he/she specifically consents in the agreement to judgment being entered against him/her. Otherwise the plaintiff should be limited to the remedy in Rule 41(4).

Where a party to a divorce agrees that the other party shall be entitled to receive a share of his pension interest when that accrues and that the fund concerned makes an endorsement in its record to that effect, the court will only make the said agreement an order of court if it is satisfied that due and

timeous notice has been given to the fund in question indicating that such order will be sought. The order of court must clearly and unambiguously identify the fund in question.

16. Variation of Custody Orders

Proceedings for the variation of a custody order are to be by way of action and not by way of application save where the variation is by consent or to give legal recognition to an existing *de facto* variation of long standing.³⁵

17. Application for a Change in the Matrimonial Regime

This Division follows the Cape practice laid down in *ex parte Lourens et Uxor and Four Others*³⁶ which obviates the necessity of issuing a rule.³⁷

18. Curators ad Litem

Where a *curator ad litem* is to be appointed to represent the interests of minors in a dependants' claim the practice laid down in *ex parte Bloy*³⁸ and *ex parte Padachy*³⁹ is to be followed. This practice does not apply to applications under Rule 57 or applications where a *curator ad litem* is to be appointed to represent the interests of minor children in cases involving the interpretation of a will or trust.⁴⁰

19. Applications to Compel Delivery of Further Particulars⁴¹

Only those particulars will be ordered which the court is satisfied are justified in terms of the Rules. It will no longer be permissible to avoid the question as to whether each request is so justified by arguing that all that is required is

³⁵ JP's memorandum 15/12/1986-

³⁶ 1986 (2) SA 291C

³⁷ JP's memorandum 15/12/1986

³⁸ 1984 (2) SA 410D

³⁹ 1984 (4) SA 325 D

⁴⁰ JP's memorandum dated 15/12/86. The provision in regard to wills and trusts is set forth in a practice note issued by the society of advocates Natal

⁴¹ JP's memorandum 14/7/1982

that the respondent "respond" to the request. If an order is granted for the furnishing of further particulars, the form of the order will still be that the respondent "respond" to the request (or, if only some of the particulars are justifiably sought, that the respondent respond to the questions asked in certain specified paragraphs). This form is considered correct since the defendant may, in some cases, conceivably turn out to be unable to furnish such particulars. The court must, however, be satisfied that each question is justified in terms of the Rules before ordering that the respondent respond to such question.

20. Service on the Registrar of Deeds in Applications for the Removal of Title Deed Restrictions

It is a requirement in these matters that the report of the registrar of deeds be placed before the court at the stage when an *ex parte* application for a rule *nisi* is moved in order that the court can be satisfied that the immovable properties concerned have been correctly described and that the title deed restrictions accord with the registrar's records.⁴²

21. Expedited Hearing⁴³

- 21.1. The registrar shall maintain a separate roll of cases, which shall be called 'The Expedited Roll', for hearing on an expedited basis.
- 21.2. The registrar shall enrol matters on the expedited roll only when directed to do so by order of court or by a judge in chambers.
- 21.3. In all matters to which the provisions of :
 - 21.3.1. Uniform Rule 6(5)(d)(iii), or

⁴² This is a new practice.

21.3.2. Uniform Rule 6(5)(g), or

21.3.3. Uniform Rule 8, or

21.3.4. Uniform Rule 32

apply and it appears to the court or the judge, as the case may be, that no substantial point of law will require determination, and/or that the whole or a substantial portion of the matter will be disposed of by evidence not lasting longer than one day, and that it is in the interests of justice to do so, the court or the judge may *mero motu*, or on the application of any of the parties on notice to the others, after considering the submissions of all the parties, direct that (referred to hereafter as "a direction" or "the direction"), subject to the provisions of this Rule, the matter be placed on the expedited roll.

21.4. In matters to which the provisions of sub-rule 3.4 of this rule apply, and unless the court or judge otherwise directs :

21.4.1. in matters requiring the filing of a declaration, the plaintiff shall file a declaration within five days of the direction being made, failing which he shall be *ipso facto* barred;

21.4.2. the defendant shall file a plea within five days of the direction being made or the declaration being filed, as the case may be, failing which he shall be *ipso facto* barred;

⁴³ The first expedited hearings will be set down from 2 August 2004.

- 21.4.3. the plaintiff shall comply with the provisions of Uniform Rule 35(1), *mutatis mutandis*, within five days thereafter and shall simultaneously index and paginate the court file and shall serve a copy of the index on the defendant;
- 21.4.4. the defendant shall comply with the provisions of Uniform Rule 35(1), *mutatis mutandis*, within five days thereafter, save that the defendant shall not be entitled to rely upon any document at trial, which has not been so discovered, without the leave of the court;
- 21.4.5. the parties shall hold a pre-trial conference and shall comply with the provisions of Uniform Rule 37, *mutatis mutandis*, not less than five days before the hearing of the matter.
- 21.5. In all other matters the plaintiff or applicant, as the case may be, shall within five days of the direction being made, index and paginate the court file and shall serve a copy of the index on the other party.
- 21.6. Upon receipt of a notice requesting that the matter be placed on the expedited roll, which notice shall be served on the other party and which shall contain a certificate signed by a party or his attorney to the effect that the matters set out in sub-rule 4 (excluding sub-rules 4.4 and 4.5) or sub-rule 5 and that any additional directions made by the court or the judge have been

complied with and/or attended to, the registrar shall place the matter on the expedited roll. Where any additional directions have been made by the court or the judge these shall be set out with sufficient particularity in the certificate.

21.7. Where a party upon whose request a direction has been made fails to comply with any of the requirements of sub-rules 4 or 5, as the case may be, the direction shall lapse.

21.8. A direction may be obtained on application, which shall not be supported by an affidavit, on five days' notice to the other party. Such application shall only in exceptional or urgent circumstances be brought before a judge in chambers.

21.9. The matters placed on the expedited roll shall be set down for hearing by the registrar, on twenty days' notice to the plaintiff or applicant or party upon whose application the direction was obtained :-

21.9.1. on a weekly roster of cases which shall be called on a Monday or first Court day of a week as the case may be;

21.9.2. on a continuous roll for each such weekly roster; and shall be heard, unless the presiding judge orders otherwise, in the order in which they were first placed on the expedited roll.

21.10. The registrar shall advise the plaintiff or applicant or party upon whose application the direction was obtained of the date of set

down by telefacsimile transmission to a number specified or email address in the notice referred to in sub-rule 6.

21.11. It shall be the responsibility of the plaintiff or applicant or party upon whose application the direction was obtained to serve a notice of set-down on the other party not less than ten days prior to the date of set-down and to file proof of such service not less than five days prior to the date of set-down.

21.12. Any matter struck-off or removed from the expedited roll or the weekly roster shall not, except on good cause shown on application, be re-enrolled on the expedited roll or the weekly roster. Nothing contained in this sub-rule 12 shall prevent a party, after such striking-off or removal, from enrolling the matter on the ordinary trial or motion roll.

21.13. Where any matter set down on a weekly roster has not been disposed of during that week, such matter shall enjoy such preference on a subsequent weekly roster as the presiding judge may direct.

21.14. Unless otherwise directed by the senior presiding judge from time to time, the registrar shall set down not more than fifteen matters on any weekly roster.

21.15. The senior presiding judge shall, from time to time, make available one or more judges to preside over the matters set down on the weekly roster.

22. Separation of Issues in terms of Rule 33(4)

Where a judge has given a ruling on an issue separated in terms of Rule 33(4), eg liability in a damages action, the matter will be regarded as partly heard before that judge. Should, however, the said judge for any reason not be available at the resumed hearing of the trial, and where the parties agree in writing, another judge shall be allocated to try the remaining issues in the action provided, however, that the second mentioned judge is satisfied that his/her decision does not depend on the credibility of any witness whose credibility was also in issue at the first hearing.⁴⁴

23. Bail Appeals

These are heard by a single judge both in Pietermaritzburg and Durban,⁴⁵ both in term and during the recesses. While the judges of this Division recognize that these matters are inherently urgent, it is nonetheless necessary that appeals be put before the court in an orderly and structured manner. The following practice will henceforth be followed :⁴⁶

23.1. When an appeal is ripe for hearing, that is to say, that the record of the proceedings has been transcribed and certified as correct, the magistrate's reply to the notice of appeal has been obtained and the record has been paginated and indexed the appellant shall be entitled to lodge such record with the registrar and at the same time apply for a date of hearing.

23.2. The registrar shall allocate a date which is not less than five (5) court days from the date of the application. The registrar shall then place the matter before the senior civil judge who generally

⁴⁴ JP's direction 10/12/2002

⁴⁵ S. 65(1)b of Act 51 of 1977

⁴⁶ new practice

speaking, will allocate it to the judge presiding in the motion court on that day. Where however the record of the proceedings before the magistrate is voluminous and in the opinion of the registrar will require extensive reading and preparation, the registrar shall allocate a date not less than 10 court days from the date of the application.

23.3. The parties shall lodge brief and concise heads of argument at least two court days before the hearing of the appeal.

24. Applications for Striking-off of Practitioners in Pietermaritzburg

The practice in applications to strike the names of practitioners from the roll is for a single judge to grant the rule *nisi* even if it involves interim relief such as suspension from practice and the appointment of a *curator bonis*. On the return day the matter is dealt with by two judges opposed or unopposed.⁴⁷

25. Applications for Default Judgment in Actions for Damages

This Division will henceforth follow the practice laid down in *Havenga v Parker*⁴⁸ which is to the following effect.

It is permissible in an application for default judgment in an action for damages to place before the Court the evidence of experts, such as for example medical practitioners, mechanics, valuers and others by way of affidavits, subject to the Court always retaining the power to require *viva voce* evidence, where it considers it necessary to call for further information or elucidation. The affidavits shall set out the qualifications of the experts and fully traverse his/her findings and opinions as well as the reasons therefor.

⁴⁷ JP's memorandum 15/2/91

⁴⁸ 1993 (3) SA 724 T

NOTICE 538 OF 2004**GENERAL NOTICE IN TERMS OF THE RESTITUTION OF LAND RIGHTS ACT, 1994 (ACT NO. 22 OF 1994)**

Notice is hereby given in terms of Section 11 (1) of the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994), that a claim for the restitution of land rights on the following properties has been lodged with the Regional Land Claims Commissioner: KwaZulu-Natal and that the Commission on Restitution of Land Rights will investigate the claim in terms of provisions of the Act in due course:

Property	:	see attached schedule
Extent of property	:	see attached schedule
Magisterial District	:	Eshowe
Administrative District:	:	KwaZulu - Natal
Current Title Deed No.	:	see attached schedule
Current Owner	:	see attached schedule
Claimant	:	Inkosi Sam Zulu, on behalf of the Bhekeshowe Community
Date claim lodged	:	28 April 1998
Reference number	:	KRN6/2/2/E/9/0/0/12

Any party who has an interest in the above-mentioned land is hereby invited to submit, within 60 days from the publication of this notice any comments/information to:

The Regional Land Claims Commissioner: KwaZulu-Natal
Private Bag X9120
Pietermaritzburg 3200

Tel: (033) 355 - 8400

Fax: (033) 342 - 3409

Submissions may also be delivered to Second Floor, 200 Church Street, Pietermaritzburg.

State	Destination	Frequencies
Zambia	Ndola	Seven (7) return flights per week

NOTICE 552 OF 2004
INTERNATIONAL TRADE ADMINISTRATION COMMISSION

**NOTICE OF INITIATION OF A SUNSET REVIEW OF THE ANTI-DUMPING
DUTIES ON UNCOATED WOODFREE WHITE A4 PAPER ORIGINATING IN OR
IMPORTED FROM BRAZIL AND INDONESIA**

In terms of Article 11.3 of the World Trade Organisation Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade, any duty shall be terminated on a date not later than five years from its imposition, unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry within a reasonable period of time prior to that date, that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and injury.

On 30 May 2003, the International Trade Administration Commission (the Commission) notified all interested parties, through Notice No. 1560 of Government Gazette No. 24893, that unless a request is made by or on behalf of the domestic industry for the duties to be reviewed prior to the expiry thereof, the anti-dumping duties on uncoated woodfree white A4 paper originating in or imported from Brazil and Indonesia, will expire on 25 May 2004.

Duly completed Petition Review Questionnaires were submitted to the Commission on 28 November 2003.

THE APPLICANTS

The petitions were lodged on behalf of the South African Customs Union (SACU) industry by Mondi Paper, a Division of Mondi Limited, and by Sappi Fine Paper (Pty) Ltd, the only manufacturers of the subject product in the SACU. The Applicants alleged that the expiry of the duties would be likely to lead to continuation or recurrence of dumping and injury. The Applicants submitted sufficient evidence and

established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that a review investigation should be initiated.

THE PRODUCT

The product under investigation is uncoated woodfree white A4 paper classifiable under tariff subheading 4802.56.90 of Schedule I to the Customs and Excise Act, 1964 originating in or imported from Brazil and Indonesia, and which is subject to the anti-dumping duties levied in terms of item 210.02/4802.56 of Part I of Schedule 2 to the Customs and Excise Act, 1964.

THE ALLEGATION OF THE CONTINUATION OR RECURRENCE OF DUMPING

The allegation of continuation or recurrence of dumping is based on a comparison between the normal values and export prices. The normal values were based on information obtained by the Applicants in the subject countries. The export prices from Brazil and Indonesia were based on export statistics of the different countries to certain third countries. On this basis, the Commission found that there was *prima facie* proof of the likely recurrence of dumping if the duties expire, with regard to exports from Brazil and Indonesia.

THE ALLEGATION OF THE CONTINUATION OR RECURRENCE OF MATERIAL INJURY

The Applicants alleged and submitted sufficient evidence to show that there is price undercutting and that the prices of the imports in question are suppressing its selling prices. The Applicants further indicated that their prices will be depressed once the duties expire. The Applicants' information indicated that they will experience a decline in sales, a decline in profit margins, and a decline in return on investment, if the duties expire. It was also indicated that the Applicants' market will decrease at the expense of a corresponding increase in the market share of the dumped goods, if the duties expire. On this basis, the Commission found that there was *prima facie* proof of the continuation and/or recurrence of material injury.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the continuation or recurrence of dumping from the exporting countries of origin will be from 1 January 2003 to 31 December 2003. The period of investigation for purposes of determining continuation or recurrence of injury will be from 1 January 2000 to 31 December 2003. An estimate of what the situation will be if the duties expire will also be considered by the Commission.

PROCEDURAL FRAMEWORK

The Commission will conduct its investigation in accordance with the International Trade Administration Act (the ITA Act), the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement) and the Anti-Dumping Regulations (ADR) of the International Trade Administration Commission of South Africa. Both the ITA Act and the ADR are available on ITAC's website (<http://www.itac.gov.za>) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send review questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting countries have also been notified. Importers, exporters and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and have been sent the relevant documents. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any part of your submission or further correspondence is based on confidential information, a proper non-confidential version indicating all instances where information has been claimed to be confidential, and the reasons for confidentiality, must be provided. The non-confidential version should be in sufficient

detail to allow other interested parties a reasonable understanding of the substance of the information submitted in confidence. All information not clearly indicated to be confidential will be regarded as non-confidential, and the Commission may disregard all information claimed to be confidential, that is not accompanied by a non-confidential version. All interested parties are referred to sections 33 to 37 of the ITA Act and ADR 2 regarding confidential information.

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of the continuation and/or recurrence of dumping and material injury must be submitted in writing to the following address:

Physical address

The Director: Trade Remedies I
Room 405 A
SABS Building
1 Dr Lategan Road
GROENKLOOF
PRETORIA
SOUTH AFRICA

Postal address

The Director: Trade Remedies I
Private Bag X753
PRETORIA
0001
South Africa

RESPONSES BY INTERESTED PARTIES

Interested parties are required to respond to the relevant questionnaires within 40 days after initiation of the investigation, or within 37 days from the date the relevant letters and questionnaires were dispatched. All parties are referred to ADR 29-32 regarding the procedures to be followed in respect of responses.

ORAL HEARING

Any interested party may request an oral hearing at any stage of the investigation, provided it indicates reasons for not relying on written submissions only. Parties requesting an oral hearing are required to provide the Commission with a detailed

agenda and the information, including a non-confidential version thereof, to be addressed during the oral hearing, as provided for in terms of ADR 5.

VERIFICATION

Verification of information supplied by interested parties may take place as provided for under Section 18 of the ADR.

Enquiries may be directed to the investigating officers, Mr David Potter at telephone (012) 428 7719 and Mr. Albert Strydom at (012) 428 7724, or at fax (012) 427-7736.

NOTICE 553 OF 2004
INTERNATIONAL TRADE ADMINISTRATION COMMISSION
OF SOUTH AFRICA
GENERAL NOTICE
CUSTOMS AND EXCISE TARIFF APPLICATIONS
LIST 4/2004

The following applications concerning the Customs and Excise Tariff have been received by The International Trade Administration Commission of South Africa. (ITAC) Any objections to or comments on these representations should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, within six weeks of the date of this notice. Attention is drawn to the fact that the rates of duty mentioned in the applications are those requested by the applicants and that the Commission may, depending on its findings, recommend lower or higher rates of duty.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- ☐ *Where confidential information has been omitted and the nature of such information;*
- ☐ *A summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and*
- ☐ *In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

REBATE OF DUTY ON:

"Atactic Polypropylene (APP) being a by-product of actual polymerization process of polypropylene, classifiable under tariff sub-heading 3902.10 for the manufacture of waterproofing sheets"

In support of the application the applicant submitted the following reason:

- ❑ SACU suppliers ceased supplying APP due to their advancement in technology.
- ❑ The duty on APP is making the applicant's end product uncompetitive.

[ITAC Ref. (58/2003), Enquiries: Ms. D Mofokeng: Tel: (012) 428 7823;

Fax: (012) 428 7744, email: dudum@dti.pwv.gov.za]

APPLICANT:

Darachem Waterproofing, Darachem House, 6 Mission Road, Anderbolt, Boksburg North.

Foreword

The Expanded Public Works Programme (EPWP) is one of government's short-to-medium term programmes aimed at alleviating and reducing unemployment. The EPWP will achieve this aim through the provision of work opportunities coupled with training. It is a national programme covering all spheres of government and state-owned enterprises (SOE's). President Mbeki formally announced the programme in his State of the Nation Address in February 2003.

Government's medium-to-long term programmes to address unemployment include increasing economic growth, improving skills levels through education and training, and improving the enabling environment for industry to flourish. The EPWP will continue to exist until these medium-to-long term programmes are successful in reducing unemployment.

The programme involves reorientating line function budgets so that government expenditure results in more work opportunities, particularly for unskilled labour. EPWP projects will therefore be funded through the normal budgetary process, through the budgets of line-function departments, provinces and municipalities.

Opportunities for implementing the EPWP have been identified in the infrastructure, environmental, social and economic sectors. In the infrastructure sector the emphasis is on creating additional work opportunities through the introduction of labour-intensive construction methods. Labour-intensive construction methods involve the use of an appropriate mix of labour and machines, with a preference for labour where technically and economically feasible, without compromising the quality of the product.

All public bodies involved in infrastructure provision are expected to attempt to contribute to the programme. As part of this initiative, the national government has through the 2004 Division of Revenue Act placed some additional conditionalities on the Provincial Infrastructure Grant (PIG) and the Municipal Infrastructure Grant (MIG). These additional conditionalities will require provinces and municipalities to use the "Guidelines for the implementation of labour intensive infrastructure projects under the EPWP" agreed upon between SALGA, National Treasury and the Department of Public Works for identification, design and construction of projects financed through the MIG or PIG. This document contains those guidelines.

International and local experience has shown that, with well-trained supervisory staff and an appropriate employment framework, labour-intensive methods can be used successfully for infrastructure projects involving low-volume roads and sidewalks, stormwater drains, and trenches. On the basis of this experience, and in the context of high levels of unemployment, the national government has decided to require that these infrastructure projects must be carried out labour-intensively.

These guidelines aim to provide provinces and municipalities with the necessary tools to successfully tender these projects as labour-intensive projects. These guidelines have been designed with the aim of minimising the additional work required from provincial and municipal officials. The National Department of Public Works is working with the Construction Education and Training Authority (CETA) to develop the capacity of the construction industry to design and manage labour-intensive infrastructure projects successfully.

The guidelines contain sections which should be copied into the relevant parts of the contract documentation for consulting engineers and contractors. These sections introduce a requirement that certain construction activities must be carried out by hand, under certain conditions. These requirements were formulated on the basis of a thorough review of international and local experience of labour-intensive construction, in order to identify the activities for which it is economically and technically feasible to use labour-intensive methods. The guidelines therefore conform to the Public Finance Management Act requirement for assessing the cost-effectiveness of capital projects. The normal tender evaluation processes are followed under these guidelines, and it is not necessary to apply any special additional preferences for employment creation.

The guidelines include the contents of the Code of Good Practice for Special Public Works Programmes, which has been gazetted by the Department of Labour, and which provides for special conditions of employment for these EPWP projects. In terms of the Code of Good Practice, the workers on these projects are entitled to formal training, which will be provided by training providers appointed (and funded) by the Department of Labour. For projects of up to six months in duration, this training will cover life-skills and information about other education, training, and employment opportunities.

In order to develop the capacity of the construction industry to manage labour-intensive projects, these guidelines also include an eligibility requirement for the appointment of contractors and consulting engineers, i.e. that their key staff involved in the project must undergo special NQF-accredited training programmes in labour-intensive construction.

As an additional means of addressing the capacity in the labour-intensive construction sector, DPW together with the CETA has established a labour intensive contractor learnership programme. The aim of this learnership programme is to produce small contractors qualified to execute work in accordance with these guidelines. The CETA is paying for the classroom training of these contractors.

As part of this learnership programme, learner contractors need to execute projects to gain practical experience. Partnering provinces and municipalities may allocate projects identified and designed using these guidelines to the learner contractors on a negotiated price basis.

An electronic version of these guidelines and electronic copies of the following documents can be obtained on the enclosed CD ROM or downloaded from www.publicworks.gov.za.

- Code of Good Practice for Employment and Conditions of Work for Special Public Works Programmes
- Ministerial Determination, Special Public Works Programmes, issued in terms of the Basic Conditions of Employment Act of 1997 by the Minister of Labour in Government Notice N° R63 of 25 January 2002
- Government Gazette (DORA 2004 with MIG and PIG Conditions)
- Documents relating on the Labour Intensive Contractor Learnership Programme

Terminology

By hand: refers to the use of tools which are manually operated and powered

Form of contract: refers to a document (conditions of contract) published by industry which establishes the risks, liabilities and obligations of the contracting parties and the procedures for the administration of the contract.

Labour-intensive: refers to methods of construction involving a mix of machines and labour, where labour, utilising hand tools and light plant and equipment, is preferred to the use of heavy machines, where technically and economically feasible.

(Note: The normal emphasis on the cost-effectiveness and quality of the asset must be retained.)

Public body: refers to a department, trading entity, constitutional institution, municipality, public entity or municipal entity

Scope of work: refers to a specification and description of the services or construction works which are to be provided and any other requirements and constraints relating to the manner in which the contract is to be performed

Abbreviations

CETA:	Construction Education and Training Authority
CIDB:	Construction Industry Development Board
ECSA:	Engineering Council of South Africa
EPWP:	Expanded Public Works Programme
FIDIC:	French acronym for the International Federation of Consulting Engineers
NEC:	New Engineering Contract.
NQF:	National Qualifications Framework
SANS:	South African National Standard
SPWP:	Special Public Works Programme

1 Introduction

Labour-intensive infrastructure projects under the EPWP include:

- using labour intensive construction methods to provide employment opportunities to local unemployed people;
- providing training or skills development to those locally employed workers;
- building cost-effective and quality assets.

This document is a guiding framework for the implementation of labour-intensive projects under the Expanded Public Works Programme. It provides the means by which labour intensive works can be implemented under the most commonly encountered delivery model, namely design by employer (i.e. the model in which the contractor undertakes construction on the basis of full designs issued by the employer.) It also assumes that the public body will appoint a consultant to design the works and to administer the contract. Adjustments to the text of this document will be necessary to accommodate other delivery models. Where no consultants are appointed, the staff of the public body needs to perform the activities assigned to consultants in this document.

The document in addition provides guidance on the:

- identification of suitable projects;
- appropriate design for labour-intensive construction;
- the specification of labour-intensive works; and
- the compilation of contract documentation for labour-intensive projects.

Specific direction is given regarding contract clauses which must be included to amend or augment standard documentation, in order to implement labour-intensive projects.

These guidelines do not have to be applied to projects for which planning had already commenced before the beginning of the 2004-2005 financial year, as it might require too many changes to existing designs or tender documentation. However these guidelines must be applied to all relevant projects for which the design process commences after the beginning of the 2004-2005 financial year.

Appendix A provides sources of additional information.

The employment of locally employed temporary workers on all EPWP labour-intensive infrastructure projects must be in accordance with the Code of Good Practice for Employment and Conditions of Work for Special Public Works Programmes issued in terms of the Basic Conditions of Employment Act, 1997 (Act N° 75 of 1997) and promulgated in Government Gazettes Notice N° P64 of 25 January 2002. The requirements of this Code have been included in this Guidelines document. However, reference should be made to the full text of the Code of Good Practice and the related Ministerial Determination.

2. Responsibilities of the public body

2.1 Selection of projects

The public body must implement the following types of civil infrastructure projects labour-intensively, in accordance with these guidelines:

- low-volume roads (typically less than 500 vehicles per day) and sidewalks;
- stormwater drainage; and
- trenching;

where such projects contain a significant amount of the construction activities for which the use of labour is specified in the Generic Labour Intensive Specification in section 3.3.3 below, i.e. excavation, loading, short-distance hauling, offloading, spreading, grassing, and stone-pitching.

There is also potential for additional employment creation in other types of infrastructure and building (see Annexure B). Public bodies are also encouraged to create additional work opportunities in these projects. These guidelines may be used for other labour-intensive projects other than those types of civil infrastructure projects specified above, as long as such projects involve a significant substitution of labour for machines.

The public body must be satisfied that sufficient local labour (willing to work) is available for the project, before proceeding with the project as a labour-intensive project.

The public body is encouraged to send its relevant managers on the applicable skills programmes in labour-intensive construction (See Appendix D).

As mentioned in section 1 of these guidelines above, these guidelines do not have to be applied to projects for which planning had already commenced before the beginning of the 2004-2005 financial year, to avoid reworking existing designs or tender documentation.

2.2 Setting of rate of pay

In accordance with the Code of Good Practice for Employment and Conditions of Work for Special Public Works Programmes (clause 10.4), the public body must set a rate of pay (task-rate) for workers to be employed on the labour-intensive projects.

Clause 10.4 requires that the following should be considered when setting rates of pay for workers:

10.4.1 The rate set should take into account wages paid for comparable unskilled work in the local area per sector, if necessary.

10.4.2 The rate should be an appropriate wage to offer an incentive for work, to reward effort provided and to ensure a reasonable quality of work. It should not be more than the average local rate to ensure people are not recruited away from other employment and jobs with longer-term prospects.

10.4.3 Men, women, disabled persons and the aged must receive the same pay for work of equal value.

2.3 Appointment of consulting engineers and contractors

The public body must ensure that:

- i) the design of the labour intensive works by consultants is overseen by persons in their employ who have completed the necessary skills training (see Appendix D);
- ii) works contracts are administered by persons in the employ of consultants who have completed the necessary skills training (see Appendix D); and
- ii) works contracts are awarded to contractors who have in their employ managers who have completed the necessary skills training (see Appendix D).

As a concession up to 30 June 2005, persons identified in Appendix D who have not completed the requisite skills training need only to be registered on the relevant skills programmes.

3 Contract documentation for consulting engineers and contractors for labour intensive construction projects

3.1 General

All standard forms of contract applicable in South Africa (see Appendix C) may be used for labour-intensive projects. It is not necessary to create special new forms of contract or to amend existing forms to implement labour based works.

Requirements for labour-intensive works need, however, to be established in the scope of work / specifications / schedules / works information / scope of services / scope associated with a contract for both consultants and contractors.

Each standard form of contract uses different terms to describe the parties to the contract and to establish requirements for the works (see Appendix C). These guidelines use the terms employer and contractor for the parties engaged in construction works, client and consultant for the parties engaged in professional service contracts and scope of work for requirements in both professional service and construction contracts. The terms used in the text in boxes may have to be adjusted to reflect the terms used in the particular standard form of contract.

3.2 Contract Documentation for Consulting Engineering Services

The scope of work must establish the manner in which the consultant is to provide the consulting engineering services associated with labour intensive works.

The following must be included in the scope of work in the contract of employment with a Consulting Engineer:

General

The services shall be provided in accordance with the provisions of the Guideline Scope of Service and Tariff of Fees for Persons Registered in terms of the Engineering Professions Act published by the Engineering Council of South Africa in terms of Board Notice No 18 of 2003 in Government Gazette No 24938, 28 February 2003)

Labour-intensive works

1. The Consultant shall not perform any significant portion of a project involving labour-intensive works under the direction of a staff member who has not completed, or, for the period 1 April 2004 to 30 July 2005, is not registered for training towards, the NQF level 7 unit standard "Develop and Promote Labour Intensive Construction Strategies" (Details of this skills programmes may be obtained from the CETA ETQA manager (e-mail:gerard@ceta.co.za , tel: 011-265 5900).
2. The staff member of the consultant who is responsible for the administration of any works contract involving labour intensive works must have completed or, for the period 1 April 2004 to 30 July 2005, be registered for training towards, the NQF level 5 unit standard "Manage Labour Intensive Construction Projects" (Details of this skills programmes may be obtained from the CETA ETQA manager (e-mail:gerard@ceta.co.za , tel: 011-265 5900).
3. The Consultant must provide the Client with satisfactory evidence that staff members satisfy the requirements of 1 and 2.
4. The Consultant must design and implement the construction works in accordance with the Guidelines for the Implementation of the Labour Intensive Projects under the Expanded Public Works Programme (the Guidelines) published by the national Department of Public Works.

5. The Consultant shall for monitoring purposes, transmit to the Client data obtained from the contractor on the number of people employed, broken down into the amounts spent on women, youth, and persons with disability on the project, the number of person days of employment created and the number of days of formal training provided.
6. All services relating to the implementation of the works which are to be provided in terms of the Guidelines are normal services in terms of ECSA's Board Notice No 18 of 2003. Any changes in the design of the works to incorporate labour intensive works shall not constitute a change in scope or an additional service.
7. The Consultant shall certify that the works have been completed in accordance with the requirements of the Guidelines and the Contract:
 - a) whenever a payment certificate is presented to the Client for payment; and
 - b) immediately after the issuing of a practical completion certificate that signifies that the whole of the works have reached a state of readiness for occupation or use for the purposes intended although some minor work may be outstanding.

3.3 Contract Documentation for the Works

3.3.1 Conditions of tender

Public bodies must only award contracts to contractors who have suitably qualified senior and middle supervisory staff to supervise the labour-intensive works. Tenderers must be made aware of this requirement in tender documents. Those responsible for evaluating tenders must confirm that the contractor has such staff available for the contract during the tender evaluation process.

The following must be included in the tender data / conditions of tender in the contract with the Employer:

Eligibility requirements

A contract will only be entered into with a tenderer who has in his employ management and supervisory staff satisfying the requirements of the scope of work for labour intensive competencies for supervisory and management staff .

Information to be submitted with the tender

The tenderer shall, when requested by the Employer to do so, submit the names of all management and supervisory staff that will be employed to supervise the labour-intensive portion of the works together with satisfactory evidence that such staff members satisfy the eligibility requirements.

3.3.2 Conditions of contract

As mentioned in 3.1, any standard form of contract for construction works may be used for labour-intensive projects (see Appendix C). These forms of contract must not, however, be amended or varied to alter the obligations, liabilities or rights of the employer, representative of the employer (engineer / principal agent / agent / project manager) or contractor where a project manager, materials manager, trainer, mentor or any other person is appointed to support the Contractor.

The following must be included in the contract data / special conditions of contract in the contract with the Employer:

Payment for the labour-intensive component of the works

Payment for works identified in the Scope of Work as being labour-intensive shall only be made in accordance with the provisions of the Contract if the works are constructed strictly in accordance with the provisions of the scope of work. Any non-payment for such works shall not relieve the Contractor in any way from his obligations either in contract or in delict.

Applicable labour laws

The Ministerial Determination, Special Public Works Programmes, issued in terms of the Basic Conditions of Employment Act of 1997 by the Minister of Labour in Government Notice N° R63 of 25 January 2002, as reproduced below, shall apply to works described in the scope of work as being labour intensive and which are undertaken by unskilled or semi-skilled workers.

1 Introduction

1.1 This document contains the standard terms and conditions for workers employed in elementary occupations on a Special Public Works Programme (SPWP). These terms and conditions do NOT apply to persons employed in the supervision and management of a SPWP.

1.2 In this document –

- (a) "department" means any department of the State, implementing agent or contractor;
- (b) "employer" means any department, implementing agency or contractor that hires workers to work in elementary occupations on a SPWP;
- (c) "worker" means any person working in an elementary occupation on a SPWP;
- (d) "elementary occupation" means any occupation involving unskilled or semi-skilled work;
- (e) "management" means any person employed by a department or implementing agency to administer or execute an SPWP;
- (f) "task" means a fixed quantity of work;
- (g) "task-based work" means work in which a worker is paid a fixed rate for performing a task;
- (h) "task-rated worker" means a worker paid on the basis of the number of tasks completed;
- (i) "time-rated worker" means a worker paid on the basis of the length of time worked.

2 Terms of Work

2.1 Workers on a SPWP are employed on a temporary basis.

2.2 A worker may NOT be employed for longer than 24 months in any five-year cycle on a SPWP.

2.3 Employment on a SPWP does not qualify as employment as a contributor for the purposes of the Unemployment Insurance Act 30 of 1966.

3 Normal Hours of Work

3.1 An employer may not set tasks or hours of work that require a worker to work–

- (a) more than forty hours in any week
- (b) on more than five days in any week; and
- (c) for more than eight hours on any day.

3.2 An employer and worker may agree that a worker will work four days per week. The worker may then work up to ten hours per day.

3.3 A task-rated worker may not work more than a total of 55 hours in any week to complete the tasks allocated (based on a 40-hour week) to that worker.

4 Meal Breaks

4.1 A worker may not work for more than five hours without taking a meal break of at least thirty minutes duration.

4.2 An employer and worker may agree on longer meal breaks.

4.3 A worker may not work during a meal break. However, an employer may require a worker to perform duties during a meal break if those duties cannot be left unattended and cannot be performed by another worker. An employer must take reasonable steps to ensure that a worker is relieved of his or her duties during the meal break.

4.4 A worker is not entitled to payment for the period of a meal break. However, a worker who is paid on

the basis of time worked must be paid if the worker is required to work or to be available for work during the meal break.

5 Special Conditions for Security Guards

5.1 A security guard may work up to 55 hours per week and up to eleven hours per day.

5.2 A security guard who works more than ten hours per day must have a meal break of at least one hour or two breaks of at least 30 minutes each.

6 Daily Rest Period

Every worker is entitled to a daily rest period of at least eight consecutive hours. The daily rest period is measured from the time the worker ends work on one day until the time the worker starts work on the next day.

7 Weekly Rest Period

Every worker must have two days off every week. A worker may only work on their day off to perform work which must be done without delay and cannot be performed by workers during their ordinary hours of work ("emergency work").

8 Work on Sundays and Public Holidays

8.1 A worker may only work on a Sunday or public holiday to perform emergency or security work.

8.2 Work on Sundays is paid at the ordinary rate of pay.

8.3 A task-rated worker who works on a public holiday must be paid –

- (a) the worker's daily task rate, if the worker works for less than four hours;
- (b) double the worker's daily task rate, if the worker works for more than four hours.

8.4 A time-rated worker who works on a public holiday must be paid –

- (a) the worker's daily rate of pay, if the worker works for less than four hours on the public holiday;
- (b) double the worker's daily rate of pay, if the worker works for more than four hours on the public holiday.

9 Sick Leave

9.1 Only workers who work four or more days per week have the right to claim sick-pay in terms of this clause.

9.2 A worker who is unable to work on account of illness or injury is entitled to claim one day's paid sick leave for every full month that the worker has worked in terms of a contract.

9.3 A worker may accumulate a maximum of twelve days' sick leave in a year.

9.4 Accumulated sick-leave may not be transferred from one contract to another contract.

9.5 An employer must pay a task-rated worker the worker's daily task rate for a day's sick leave.

9.6 An employer must pay a time-rated worker the worker's daily rate of pay for a day's sick leave.

9.7 An employer must pay a worker sick pay on the worker's usual payday.

9.8 Before paying sick-pay, an employer may require a worker to produce a certificate stating that the worker was unable to work on account of sickness or injury if the worker is –

- (a) absent from work for more than two consecutive days; or
- (b) absent from work on more than two occasions in any eight-week period.

9.9 A medical certificate must be issued and signed by a medical practitioner, a qualified nurse or a clinic staff member authorised to issue medical certificates indicating the duration and reason for incapacity.

9.10 A worker is not entitled to paid sick-leave for a work-related injury or occupational disease for which the worker can claim compensation under the Compensation for Occupational Injuries and Diseases Act.

10 Maternity Leave

10.1 A worker may take up to four consecutive months' unpaid maternity leave.

10.2 A worker is not entitled to any payment or employment-related benefits during maternity leave.

10.3 A worker must give her employer reasonable notice of when she will start maternity leave and when she will return to work.

10.4 A worker is not required to take the full period of maternity leave. However, a worker may not work for four weeks before the expected date of birth of her child or for six weeks after the birth of her child, unless a medical practitioner, midwife or qualified nurse certifies that she is fit to do so.

10.5 A worker may begin maternity leave –

- (a) four weeks before the expected date of birth; or

- (b) on an earlier date –
 - (i) if a medical practitioner, midwife or certified nurse certifies that it is necessary for the health of the worker or that of her unborn child; or
 - (ii) if agreed to between employer and worker; or
- (c) on a later date, if a medical practitioner, midwife or certified nurse has certified that the worker is able to continue to work without endangering her health.

10.6 A worker who has a miscarriage during the third trimester of pregnancy or bears a stillborn child may take maternity leave for up to six weeks after the miscarriage or stillbirth.

10.7 A worker who returns to work after maternity leave, has the right to start a new cycle of twenty-four months employment, unless the SPWP on which she was employed has ended.

11 Family responsibility leave

11.1 Workers, who work for at least four days per week, are entitled to three days paid family responsibility leave each year in the following circumstances –

- (a) when the employee's child is born;
- (b) when the employee's child is sick;
- (c) in the event of a death of –
 - (i) the employee's spouse or life partner;
 - (ii) the employee's parent, adoptive parent, grandparent, child, adopted child, grandchild or sibling.

12 Statement of Conditions

12.1 An employer must give a worker a statement containing the following details at the start of employment –

- (a) the employer's name and address and the name of the SPWP;
- (b) the tasks or job that the worker is to perform; and
- (c) the period for which the worker is hired or, if this is not certain, the expected duration of the contract;
- (d) the worker's rate of pay and how this is to be calculated;
- (e) the training that the worker will receive during the SPWP.

12.2 An employer must ensure that these terms are explained in a suitable language to any employee who is unable to read the statement.

12.3 An employer must supply each worker with a copy of these conditions of employment.

13 Keeping Records

13.1 Every employer must keep a written record of at least the following –

- (a) the worker's name and position;
- (b) in the case of a task-rated worker, the number of tasks completed by the worker;
- (c) in the case of a time-rated worker, the time worked by the worker;
- (d) payments made to each worker.

13.2 The employer must keep this record for a period of at least three years after the completion of the SPWP.

14 Payment

14.1 An employer must pay all wages at least monthly in cash or by cheque or into a bank account.

14.2 A task-rated worker will only be paid for tasks that have been completed.

14.3 An employer must pay a task-rated worker within five weeks of the work being completed and the work having been approved by the manager or the contractor having submitted an invoice to the employer.

14.4 A time-rated worker will be paid at the end of each month.

14.5 Payment must be made in cash, by cheque or by direct deposit into a bank account designated by the worker.

14.6 Payment in cash or by cheque must take place –

- (a) at the workplace or at a place agreed to by the worker;
- (b) during the worker's working hours or within fifteen minutes of the start or finish of work;
- (c) in a sealed envelope which becomes the property of the worker.

14.7 An employer must give a worker the following information in writing –

- (a) the period for which payment is made;
- (b) the numbers of tasks completed or hours worked;
- (c) the worker's earnings;
- (d) any money deducted from the payment;

(e) the actual amount paid to the worker.

14.8 If the worker is paid in cash or by cheque, this information must be recorded on the envelope and the worker must acknowledge receipt of payment by signing for it

14.9 If a worker's employment is terminated, the employer must pay all monies owing to that worker within one month of the termination of employment.

15 Deductions

15.1 An employer may not deduct money from a worker's payment unless the deduction is required in terms of a law.

15.2 An employer must deduct and pay to the SA Revenue Services any income tax that the worker is required to pay.

15.3 An employer who deducts money from a worker's pay for payment to another person must pay the money to that person within the time period and other requirements specified in the agreement law, court order or arbitration award concerned.

15.4 An employer may not require or allow a worker to –

- (a) repay any payment except an overpayment previously made by the employer by mistake;
- (b) state that the worker received a greater amount of money than the employer actually paid to the worker; or
- (f) pay the employer or any other person for having been employed.

16 Health and Safety

16.1 Employers must take all reasonable steps to ensure that the working environment is healthy and safe.

16.2 A worker must –

- (a) work in a way that does not endanger his/her health and safety or that of any other person;
- (b) obey any health and safety instruction;
- (c) obey all health and safety rules of the SPWP;
- (d) use any personal protective equipment or clothing issued by the employer;
- (e) report any accident, near-miss incident or dangerous behaviour by another person to their employer or manager.

17 Compensation for Injuries and Diseases

17.1 It is the responsibility of the employers (other than a contractor) to arrange for all persons employed on a SPWP to be covered in terms of the Compensation for Occupational Injuries and Diseases Act, 130 of 1993.

17.2 A worker must report any work-related injury or occupational disease to their employer or manager.

17.3 The employer must report the accident or disease to the Compensation Commissioner.

17.4 An employer must pay a worker who is unable to work because of an injury caused by an accident at work 75% of their earnings for up to three months. The employer will be refunded this amount by the Compensation Commissioner. This does NOT apply to injuries caused by accidents outside the workplace such as road accidents or accidents at home.

18 Termination

18.1 The employer may terminate the employment of a worker for good cause after following a fair procedure.

18.2 A worker will not receive severance pay on termination.

18.3 A worker is not required to give notice to terminate employment. However, a worker who wishes to resign should advise the employer in advance to allow the employer to find a replacement.

18.4 A worker who is absent for more than three consecutive days without informing the employer of an intention to return to work will have terminated the contract. However, the worker may be re-engaged if a position becomes available for the balance of the 24-month period.

18.5 A worker who does not attend required training events, without good reason, will have terminated the contract. However, the worker may be re-engaged if a position becomes available for the balance of the 24-month period.

19 Certificate of Service

19.1 On termination of employment, a worker is entitled to a certificate stating –

- (a) the worker's full name;
- (b) the name and address of the employer;
- (c) the SPWP on which the worker worked;

- (d) the work performed by the worker;
- (e) any training received by the worker as part of the SPWP;
- (f) the period for which the worker worked on the SPWP;
- (g) any other information agreed on by the employer and worker.

3.3.3 Scope of work

Standard specifications (those normally used by the public bodies) are to be utilised. It is necessary, however, to include certain requirements in the scope of work to implement labour-intensive works in accordance with the provisions of these Guidelines.

The following wording, as appropriate, must be included in the scope of work in the contract with the contractor

DESCRIPTION OF THE WORKS

Employer's objectives

The employer's objectives are to deliver public infrastructure using labour intensive methods

Labour-intensive works

Labour-intensive works comprise the activities described in the Labour-Intensive Specification. Such works shall be constructed using local workers who are temporarily employed in terms of this scope of work.

LABOUR INTENSIVE COMPETENCIES OF SUPERVISORY AND MANAGEMENT STAFF

Established contractors shall only engage supervisory and management staff in labour intensive works who have either completed, or for the period 1 April 2004 to 30 June 2005, are registered for training towards, the skills programme outlined in Table 1.

Emerging contractors shall have personally completed, or for the period 1 April 2004 to 30 June 2005 be registered on a skills programme for the NQF level 2 unit standard. All other site supervisory staff in the employ of emerging contractors must have completed, or for the period 1 April 2004 to 30 June 2005 be registered on a skills programme for, the NQF level 2 unit standards or NQF level 4 unit standards.

Table 1: Skills programme for supervisory and management staff

Personnel	NQF level	Unit standard titles	Skills programme description
Team leader / supervisor	2	Apply Labour Intensive Construction Systems and Techniques to Work Activities	This unit standard must be completed, and any one of these 3 unit standards
		Use Labour Intensive Construction Methods to Construct and Maintain Roads and Stormwater Drainage	
		Use Labour Intensive Construction Methods to Construct and Maintain Water and Sanitation Services	
		Use Labour Intensive Construction Methods to Construct, Repair and Maintain Structures	
Foreman/ supervisor	4	Implement labour Intensive Construction Systems and Techniques	This unit standard must be completed, and any one of these 3 unit standards
		Use Labour Intensive Construction Methods to Construct and Maintain Roads and Stormwater Drainage	
		Use Labour Intensive Construction Methods to Construct and Maintain Water and Sanitation Services	
		Use Labour Intensive Construction Methods to Construct, Repair and Maintain Structures	
Site Agent / Manager (i.e the contractor's most senior representative that is resident on the site)	5	Manage Labour Intensive Construction Processes	Skills Programme against this single unit standard

Details of these skills programmes may be obtained from the CETA ETQA manager (e-mail: gerard@ceta.co.za, tel: 011-265 5900)

EMPLOYMENT OF UNSKILLED AND SEMI-SKILLED WORKERS IN LABOUR-INTENSIVE WORKS

1.1 Requirements for the sourcing and engagement of labour.

1.1.1 Unskilled and semi-skilled labour required for the execution of all labour intensive works shall be engaged strictly in accordance with prevailing legislation and SANS 1914-5, Participation of Targeted Labour.

1.1.2 The rate of pay set for the SPWP is R per task or per day.
(Insert value determined by public body in terms of clause 2.2 of these Guidelines)

1.1.3 Tasks established by the contractor must be such that:

- a) the average worker completes 5 tasks per week in 40 hours or less; and
- b) the weakest worker completes 5 tasks per week in 55 hours or less.

1.1.4 The contractor must revise the time taken to complete a task whenever it is established that the time taken to complete a weekly task is not within the requirements of 1.1.3.

1.1.5 The Contractor shall, through all available community structures, inform the local community of the labour intensive works and the employment opportunities presented thereby. Preference must be given to people with previous practical experience in construction and / or who come from households:

- a) where the head of the household has less than a primary school education;
- b) that have less than one full time person earning an income;
- c) where subsistence agriculture is the source of income.
- d) those who are not in receipt of any social security pension income

1.1.6 The Contractor shall endeavour to ensure that the expenditure on the employment of temporary workers is in the following proportions:

- a) 60 % women;
- b) 20% youth who are between the ages of 18 and 25; and
- c) 2% on persons with disabilities.

1.2 Specific provisions pertaining to SANS 1914-5

1.2.1 Definitions

Targeted labour: Unemployed persons who are employed as local labour on the project.

1.2.3 Contract participation goals

1.2.3.1 There is no specified contract participation goal for the contract. The contract participation goal shall be measured in the performance of the contract to enable the employment provided to targeted labour to be quantified.

1.2.3.2 The wages and allowances used to calculate the contract participation goal shall, with respect to both time-rated and task rated workers, comprise all wages paid and any training allowance paid in respect of agreed training programmes.

1.2.4 Terms and conditions for the engagement of targeted labour

Further to the provisions of clause 3.3.2 of SANS 1914-5, written contracts shall be entered into with targeted labour.

1.2.5 Variations to SANS 1914-5

1.2.5.1 The definition for net amount shall be amended as follows:
Financial value of the contract upon completion, exclusive of any value added tax or sales tax which the

law requires the employer to pay the contractor.

1.2.5.2 The schedule referred to in 5.2 shall in addition reflect the status of targeted labour as women, youth and persons with disabilities and the number of days of formal training provided to targeted labour.

1.3 Training of targeted labour

1.3.1 The contractor shall provide all the necessary on-the-job training to targeted labour to enable such labour to master the basic work techniques required to undertake the work in accordance with the requirements of the contract in a manner that does not compromise worker health and safety.

1.3.2 The cost of the formal training of targeted labour, will be funded by the local office of the Department of Labour. This training will take place as close to the project site as practically possible. The contractor must access this training by informing the relevant regional office of the Department of Labour in writing, within 14 days of being awarded the contract, of the likely number of persons that will undergo training and when such training is required. The Employer and the Department of Public Works (Fax: 012 3258625/ EPWP Unit, Private Bag X65, Pretoria 0001) must be furnished with a copy of this request.

1.3.3 The contractor shall do nothing to dissuade targeted labour from participating in training programmes and shall take all reasonable steps to ensure that each beneficiary is provided with two days of formal training for every 22 days worked.

1.3.4 An allowance equal to 100% of the task rate or daily rate shall be paid by the contractor to workers who attend formal training, in terms of 1.3.3 above.

1.3.5 Proof of compliance with the requirements of 1.3.2 to 1.3.4 must be provided by the Contractor to the Employer prior to submission of the final payment certificate.

GENERIC LABOUR INTENSIVE SPECIFICATION

(This specification must be incorporated in the Scope of Works without amendment or modification. When SANS 1921-5, *Construction and management requirements for works contracts Part 5: Earthworks activities which are to be performed by hand*, is published, the earthworks portions of this generic specification must be replaced with a reference to SANS 1921-5 and its associated specification data)

Scope

This specification establishes general requirements for activities which are to be executed by hand involving the following:

- a) trenches having a depth of less than 1.5 metres
- b) stormwater drainage
- c) low-volume roads and sidewalks

Precedence

Where this specification is in conflict with any other standard or specification referred to in the Scope of Works to this Contract, the requirements of this specification shall prevail.

Hand excavateable material

Hand excavateable material is material:

a) granular materials:

- i) whose consistency when profiled may in terms of table 1 be classified as very loose, loose, medium dense, or dense; or
- ii) where the material is a gravel having a maximum particle size of 10mm and contains no cobbles or isolated boulders, no more than 15 blows of a dynamic cone penetrometer is required to penetrate 100mm;

b) cohesive materials:

- i) whose consistency when profiled may in terms of table 1 be classified as very soft, soft, firm, stiff and stiff / very stiff; or
- ii) where the material is a gravel having a maximum particle size of 10mm and contains no cobbles or

isolated boulders, no more than 8 blows of a dynamic cone penetrometer is required to penetrate 100mm;

- Note: 1) A boulder, a cobble and gravel is material with a particle size greater than 200mm, between 60 and 200mm.
 2) A dynamic cone penetrometer is an instrument used to measure the insitu shear resistance of a soil comprising a drop weight of approximately 10 kg which falls through a height of 400mm and drives a cone having a maximum diameter of 20mm (cone angle of 60° with respect to the horizontal) into the material being used.

Table 1: Consistency of materials when profiled

GRANULAR MATERIALS		COHESIVE MATERIALS	
CONSISTENCY	DESCRIPTION	CONSISTENCY	DESCRIPTION
Very loose	Crumbles very easily when scraped with a geological pick.	Very soft	Geological pick head can easily be pushed in as far as the shaft of the handle.
Loose	Small resistance to penetration by sharp end of a geological pick.	Soft	Easily dented by thumb; sharp end of a geological pick can be pushed in 30-40 mm; can be moulded by fingers with some pressure.
Medium dense	Considerable resistance to penetration by sharp end of a geological pick.	Firm	Indented by thumb with effort; sharp end of geological pick can be pushed in upto 10 mm; very difficult to mould with fingers; can just be penetrated with an ordinary hand spade.
Dense	Very high resistance to penetration by the sharp end of geological pick; requires many blows for excavation.	Stiff	Can be indented by thumb-nail; slight indentation produced by pushing geological pick point into soil; cannot be moulded by fingers.
Very dense	High resistance to repeated blows of a geological pick.	Very stiff	Indented by thumb-nail with difficulty; slight indentation produced by blow of a geological pick point.

Trench excavation

All hand excavateable material in trenches having a depth of less than 1,5 metres shall be excavated by hand.

Compaction of backfilling to trenches (areas not subject to traffic)

Backfilling to trenches shall be placed in layers of thickness (before compaction) not exceeding 100mm. Each layer shall be compacted using hand stampers

- to 90% Proctor density;
- such that in excess of 5 blows of a dynamic cone penetrometer (DCP) is required to penetrate 100 mm of the backfill, provided that backfill does not comprise more than 10% gravel of size less than 10mm and contains no isolated boulders, or
- such that the density of the compacted trench backfill is not less than that of the surrounding undisturbed soil when tested comparatively with a DCP.

Excavation

All hand excavateable material including topsoil classified as hand excavateable shall be excavated by hand. Harder material may be loosened by mechanical means prior to excavation by hand.

The excavation of any material which presents the possibility of danger or injury to workers shall not be excavated by hand.

Clearing and grubbing

Grass and small bushes shall be cleared by hand.

Shaping

All shaping shall be undertaken by hand.

Loading

All loading shall be done by hand, regardless of the method of haulage.

Haul

Excavation material shall be hauled to its point of placement by means of wheelbarrows where the haul distance is not greater than 150 m.

Offloading

All material, however transported, is to be off-loaded by hand, unless tipper-trucks are utilised for haulage

Spreading

All material shall be spread by hand.

Compaction

Small areas may be compacted by hand provided that the specified compaction is achieved.

Grassing

All grassing shall be undertaken by sprigging, sodding, or seeding by hand.

Stone pitching and rubble concrete masonry

All stone required for stone pitching and rubble concrete masonry, whether grouted or dry, must to be collected, loaded, off loaded and placed by hand.

Sand and stone shall be hauled to its point of placement by means of wheelbarrows where the haul distance is not greater than 150m.

Grout shall be mixed and placed by hand.

Manufactured Elements

Elements manufactured or designed by the Contractor, such as manhole rings and cover slabs, precast concrete planks and pipes, masonry units and edge beams shall not individually, have a mass of more than 320kg. In addition the items shall be large enough so that four workers can conveniently and simultaneously acquire a proper hand hold on them.

3.3.4 Schedules of quantities

Labour-intensive works must be highlighted in the schedules / bills of quantities for the payment items relating to labour intensive works.

The following wording, as appropriate, may be included in the preamble or pricing instructions to the schedules / bills of quantities in the contract with the contractor:

1 Those parts of the contract to be constructed using labour-intensive methods have been marked in the bill of quantities with the letters LI in a separate column filled in against every item so designated. The works, or parts of the works so designated are to be constructed using labour-intensive methods only. The use of plant to provide such works, other than plant specifically provided for in the scope of work, is a variation to the contract. The items marked with the letters LI are not necessarily an exhaustive list of all the activities which must be done by hand, and this clause does not over-ride any of the requirements in the generic labour intensive specification in the Scope of Works.

2 Payment for items which are designated to be constructed labour-intensively (either in this schedule or in the Scope of Works) will not be made unless they are constructed using labour-intensive methods. Any unauthorised use of plant to carry out work which was to be done labour-intensively will not be condoned and any works so constructed will not be certified for payment.

The following payment items should be included in the bill of quantities:

Item	Description	Unit	Quantity	Rate	Amount
	Training allowance paid to targeted labour iro formal training	Person days	(insert quantity)	(insert specified day rate)	
	Extra over for the administration of payment of training allowances to targeted labour	Person days	(as above)		
	Transport and accommodation of workers for training where it is not possible to undertake the training in close proximity to the site. (Provisional sum)	Sum	(insert provisional sum)		

4 Design checklist

Cognisance of the following should be taken in the design of labour intensive works:

1. Earthworks must be designed taking consideration of the method of construction, namely labour intensive.
2. Vertical and horizontal alignment of the works (roads, trenches, pipelines and stormwater channels) should be such to optimise cut and fill, minimise deep or hard excavation or areas requiring specialist engineering input for example dewatering or specialist ground stabilisation.
3. During the design of gravel roads, suitable construction material should be sourced in close proximity to the site of the Works.
4. Drawings must be produced and presented in a clear easily understandable way. Where setting out information is provided in the form of coordinates it should be backed up with methods, not relying on sophisticated surveying instruments, such as offsets measurable with the use of a standard tape. Where possible and appropriate drawings should be produced using a background of ortho photos to provide for easily identification of surrounding features.
5. Except in special circumstances, drawings should be produced in a form that is easily readable in A3 format.
6. Where the haul distance is greater than 150m, and less than 5000m the use of small volume local transport, particularly using animal drawn vehicles should be considered.
7. Excavation in material which may constitute a safety hazard for workers must be excluded.
8. All pre-manufactured materials which are incorporated into the Works must be sized such that the mass of individual elements does not exceed 320kg.
9. Hazardous material such as lime or harmful chemical stabilizing agents must not be included in the Works.
10. Stone masonry and grouted stone pitching should be included wherever suitable material is available to the exclusion of pre-cast or cast in situ concrete stormwater structures.
11. Where compaction of road layer works is required, it must be carried out using conventional compaction equipment (mechanised pedestrian rollers where possible). Compaction of small areas and in trenches may be carried out using hand stampers.

12. Consideration must be given to alternative design of trenches for gravity pipelines to reduce depth of excavation.
13. Where there is an indication of local skills, e.g. bricklaying, structures should be designed to make use of such skills.
14. There are appropriate designs for labour-intensive construction of low-cost surfacing for low-volume roads, such as the Cape Seal and interlocking concrete blocks. Refer to Appendix A for further details.

APPENDIX B: TYPES OF INFRASTRUCTURE WHICH ARE SUITABLE FOR CONSTRUCTION USING LABOUR INTENSIVE METHODS**B.1 Roads**

The following operations may be carried out using labour intensive methods:

1. Site clearance
2. Layer work construction including loading, hauling and spreading material.

Note: All compaction should be done using conventional compaction equipment and where necessary the use of heavy machinery may be employed to loosen material for excavation by hand. Where significant use of blasting is indicated, then the Works are probably not suitable for labour intensive methods.
3. Where high categories of roads are to be constructed then the following operations may be included:
 - Macadam base course either dry, water bound or emulsion bound; foamed bitumen gravel; emulsion treated gravel; or slurry bound or composite macadam.
 - Application of bitumen bound surface treatment (cold) including spreading and dragging of chips.
 - Slurry treatments to existing or new road surfaces.
 - In situ concrete roads.
 - Segmented block paved roads.
 - Cast in-situ block pavements (hysen-cells);
 - Road markings.
4. Fencing.
5. Erection of road signs.
6. Grass maintenance.
7. Road reserve maintenance.
8. Rubble masonry bridges, culverts and retaining walls

B.2 Stormwater

The following operations may be constructed using labour intensive construction methods:

1. Gabions and reno mattresses.
2. Small diameter pre-cast concrete elements (pipes and arches).
3. Grassed or lined water channels

B.3 Sewers

The following operations may be constructed using labour intensive construction methods:

1. Sewer manholes either in brickwork or using specially manufactured pre-cast manhole rings (individual mass less than 320kg).
2. Sewer manhole covers and lids using specially designed pre-cast units.

3. Maturation or flocculation ponds with least dimension not exceeding 100m.

B.4 Water

The following operations may be constructed using labour intensive construction methods:

1. Laying of water pipelines, fittings and house connections in all materials (including steel) where the mass of individual pipe lengths does not exceed 320kg.
2. Construction of ferro-cement reservoirs.
3. Excavation for membrane lined and floating roof reservoirs.
4. Construction of small masonry reservoirs.
5. Spring and well protection measures

B.4 Haul of Material

Where the haul of any material exceeds 200m, consideration should be given to the use of local resources for transporting material. This includes the use of animal drawn vehicles and small trailer combinations utilising locally sourced tractors. All loading and off loading can be done by hand.

B.5 Electricity

The following operations may be constructed using labour intensive methods:

1. Excavation of trenches for reticulation of all voltages.
2. Excavation for and erection of poles for overhead lines.
3. Installation of all electricity cables (joints and terminations by qualified persons).

B.6 Houses, schools and clinics

Housing is seen as labour-intensive, but the number of local people that could be employed may be enhanced by one or more of the following:

1. Manufacture of masonry elements on site.
2. Excavation of all foundation trenches by hand.
3. Manufacture of roof trusses on site.
4. Adoption of the BESA System

Note: 1) In the BESA system walls are constructed using bitumen emulsion stabilised adobe blocks and mortar. External and internal wall surfaces can be finished in a variety of ways using a mortar mix or a cement/sand plaster.

- 2) The BESA Building System is the subject of an open certificate issued by Agrément South Africa. The concept of an open certificate is that the technology is not the intellectual property of any company or individual and the information is available to anyone who wishes to use it. Any competent person, company or institution who wishes to use this system and is capable of carrying out this work in accordance with the terms and conditions of certification and undertakes to do so, may apply to Agrément South Africa to be registered as a holder of this open certificate.

APPENDIX C: STANDARD FORMS OF CONTRACT USED IN SOUTH AFRICA

The following standard forms of contract which are in use in South Africa use the following terminology:

Standard form of contract	Location for items covered by the scope of work	Names of the Parties to a Contract
GCC 1990, COLTO 1997, FIDIC Short Form of Contract	Specifications	Employer Contractor
FIDIC Conditions of Contract for Construction ("Red Book")	Specification and schedule	Employer Contractor
NEC Engineering and Construction Contract and Engineering and Construction Short Contract	Works Information	Employer Contractor
JBCC 2000 Principal Building Agreement, Minor Works Agreement	Schedule	Employer Contractor
NEC - The Professional Services Contract	Scope	Employer Consultant
CIDB Standard Services Contract	Scope of Work	Employer Service Provider
SAACE Form of Agreement for Consulting Services	Scope of Services	Client Consultant
GCC 2004	Scope of Work	Employer Contractor

Note:

The Engineering Council of South Africa have issued in government gazette No 24938, dated 28 February 2003, a document entitled: Guideline Scope of Services and Tariff of Fees for Persons Registered in terms of the Engineering Profession Act, 2000, (Act No. 46 of 2000). This document which provides a "guideline scope of service" and a "guideline tariff of fees" repeals Government Notice R 1113 of June 1982.

This document can be referenced in the scope of work and the pricing instructions. It uses the terms "client" and "consulting engineer".

APPENDIX D: REQUIRED SKILLS PROGRAMMES

D.1 Client/ Employer

It is recommended that personnel within public bodies complete skills programmes for NQF registered unit standards, as set out in Table D.1.

Table D.1: Skills programme for client / employer staff

Personnel	NQF	Unit Standard Title	Skills Programme Description
Senior management and professionals	7	Develop and Promote Labour Intensive Construction Strategies	Skills Programme against this single unit standard
Middle management (technical)	5	Manage Labour Intensive Construction Projects	Skills Programme against this single unit standard
Middle management (admin)	5	Manage Labour Intensive Construction Projects	Skills Programme against this single unit standard

D.2 Consultants

The person responsible for the design and documentation of the labour intensive works, must have completed, or be registered on a skills programme for, the NQF level 7 unit standard "Develop and Promote Labour Intensive Construction Strategies". (see Table D.2)

The person who is responsible to the employer for the administration of the contract, must have completed, or be registered on a skills programme for, the NQF level 5 unit standard "Manage Labour Intensive Construction Projects". (see Table D.2)

Table D.2: Skills programme for consultants

Personnel	NQF	Unit standard Title	Skills Programme Description
Administrator / Site Supervisor	5	Manage Labour Intensive Construction Projects	Skills Programme against this single unit standard
Designer	7	Develop and Promote Labour Intensive Construction Strategies	Skills Programme against this single unit standard

D.3 Contractors

The unit standards for contractors are outlined in Table D.3.

For established contractors, the site agent / manager (i.e the contractors' most senior representative that is resident on the site) must have completed, or be registered on a skills programme for the NQF level 5 unit standard "Manage Labour Intensive Construction Projects". For emerging contractors, the emerging contractor himself or herself must have completed, or be registered on a skills programme for the NQF level 2 unit standard.

For both established and emerging contractors, all other site supervisory staff (i.e. team leaders or foremen) must have completed, or be registered on a skills programme for, the NQF level 2 unit standards or NQF level 4 unit standards.

Personnel	NQF	Unit standard Titles	Skills Programme Description
Team Leader / Supervisor	2	Apply Labour Intensive Construction Systems and Techniques to Work Activities	This unit standard must be completed, and
		Use Labour Intensive Construction Methods to Construct and Maintain Roads and Stormwater Drainage	} any one of the 3 listed unit standards must be completed
		Use Labour Intensive Construction Methods to Construct and Maintain Water and Sanitation Services	
		Use Labour Intensive Construction Methods to Construct, Repair and Maintain Structures	
Foreman / Supervisor		Implement labour Intensive Construction Systems and Techniques	This unit standard must be completed, and
		Use Labour Intensive Construction Methods to Construct and Maintain Roads and Stormwater Drainage	} any one of the 3 listed unit standards must be completed
		Use Labour Intensive Construction Methods to Construct and Maintain Water and Sanitation Services	
		Use Labour Intensive Construction Methods to Construct, Repair and Maintain Structures	
Site Agent / Manager	5	Manage Labour Intensive Construction Processes	Skills Programme against this single unit standard

NOTICE 555 OF 2004
DEPARTMENT OF TRADE AND INDUSTRY
MERCHANDISE MARKS ACT, 1941 (ACT 17 OF 1941)

**PROPOSED PROHIBITION ON THE USE OF THE LOGO OF THE
PROVINCIAL DEPARTMENT OF HEALTH OF KWAZULU-NATAL**

I, Alexander Erwin, Minister of Trade and Industry, in pursuance of the requirements of section 13 of the Merchandise Marks Act 1941 (Act 17 of 1941), hereby give notice that the Department of Health of KwaZulu-Natal has conveyed a request for a prohibition, in terms of section 15(1) of the said Act, on the use of its logo, as depicted hereunder, in connection with any trade, business, profession, occupation or event, or in connection with a trade mark, mark or trade description applied to goods other than the use thereof by the abovementioned Department or its mandatories.

Interested persons are invited to submit, in writing, any objections to the Registrar of Trade Marks, Private Bag X400, Pretoria 0001 (or Fax No. (012) 321-3537), to reach him within fourteen (14) days of the publication of this notice.

ALEXANDER ERWIN

MINISTER OF TRADE AND INDUSTRY

NOTICE 529 OF 2004**DEPARTMENT OF LAND AFFAIRS****APPLICATION IN TERMS OF THE LAND REFORM (LABOUR TENANTS) ACT, 1996**

It is hereby given for general information that in terms of section 17 (1) of the Land Reform (Labour Tenants) Act, 1996 (Act No. 3 of 1996), the application for the acquisition of land mentioned in the Schedule has been lodged with the Director-General.

SCHEDULE**Applicants:**

Number	Name	ID Number
1.	Moloto Kwena Phineas.....	3508295140080

Property description of the affected land: Ruigerdraai 809 LS.

Servitude:

District: Polokwane.

Province: Limpopo.

(8 July 2003)

BOARD NOTICES RAADSKENNISGEWINGS

BOARD NOTICE 42 OF 2004

Engineering Council of South Africa

Guideline Scope of Services and Tariff of Fees for Persons Registered in terms of the Engineering Profession Act, 2000, (Act No. 46 of 2000)

The Engineering Council of South Africa has, under Section 34(2) of the Engineering Profession Act, 2000 (Act No. 46 of 2000) determined the guideline scope of services and tariff of fees in the Schedule.

Any amount mentioned in or fee calculated in terms of this Schedule is exclusive of Value Added Tax.

The commencement date of these Rules shall be 2 April 2004.

SCHEDULE

Guideline Scope of Services and Tariff of Fees for Registered Professionals

Index

Headings and clause numbers

1. GENERAL PROVISIONS

- 1.1 Repeal and transition
- 1.2 Generality of terms
- 1.3 Definitions
- 1.4 Short title

2. GUIDELINE SCOPE OF SERVICES

2.1 NORMAL SERVICES

- 2.1.1 Report stage
- 2.1.2 Preliminary design stage
- 2.1.3 Design and tender stage
- 2.1.4 Working drawings
- 2.1.5 Construction stage
- 2.1.6 Targeted procurement

2.2 ADDITIONAL SERVICES

- 2.2.1 Additional services pertaining to all stages of the project
- 2.2.2 Construction monitoring
- 2.2.3 Quality assurance system
- 2.2.4 Lead consulting engineer
- 2.2.5 Principal agent
- 2.2.6 Engineering management services
- 2.2.7 Mediation, arbitration and litigation proceedings and similar services

3. GUIDELINE TARIFF OF FEES

3.1 APPLICATION OF TARIFF OF FEES

3.2 FEES FOR NORMAL SERVICES

- 3.2.1 Civil and structural engineering services pertaining to engineering projects
- 3.2.2 Civil engineering services pertaining to building projects
- 3.2.3 Structural engineering services pertaining to building projects
- 3.2.4 Mechanical engineering services pertaining to engineering projects
- 3.2.5 Electrical engineering services pertaining to engineering projects
- 3.2.6 Mechanical engineering services or wet services pertaining to building projects
- 3.2.7 Electrical engineering services pertaining to building projects
- 3.2.8 Electronic engineering services
- 3.2.9 Services provided partially or in stages

3.3 FEES FOR ADDITIONAL SERVICES

3.4 TIME BASED FEES

3.5 EXPENSES AND COSTS

*Words or expressions in **bold font** are defined in Clause 1.3.*

1. GENERAL PROVISIONS

1.1 REPEAL AND TRANSITION

- (1) Subject to sub-clause (2), the Guideline Scope of Services and Tariff of Fees for Persons Registered in terms of the Engineering Profession Act, 2000 (Act No. 46 of 2000), published under Government Notice No. 18 of 28 February 2003, is hereby repealed.
- (2) The provisions of Government Notice 18 and 19 of 28 February 2003 and R.1113 of 11 June 1982 including subsequent amendments still apply in respect **services** rendered during a **stage** which has not yet been completed by the date of commencement of this Schedule.

1.2 GENERALITY OF TERMS

In this document, except where the context otherwise requires or indicates:

- (1) the masculine includes the feminine,
- (2) the singular includes the plural, and
- (3) any reference to a natural person includes a juristic person

1.3 DEFINITIONS

In this Schedule, any word or expression defined in **the Act**, has that meaning, and, unless the context otherwise indicates:

- (i) "**client**", means any juristic person or organ of the State engaging a **consulting engineer** for **services** on a **project**;
- (ii) "**construction monitoring**" means the process of managing and co-ordinating the contract and over-seeing and/or inspecting the works, to the extent of the **consulting engineer's** engagement, for the purpose of verification that the works are being completed in accordance with the requirements of the contract, that the designs are being correctly interpreted and that appropriate construction techniques are being utilized. **Construction monitoring**, to whatever extent, shall not diminish the contractor's responsibility for executing and completing the works in accordance with his contract.
- (iii) "**consulting engineer**", for purposes of these rules only, means any professional registered in terms of **the Act**, or a juristic person who employs such professional, engaged by a **client** on a **project**;
- (iv) "**contractor**" means any person or a juristic person under contract to a **client** to perform the **works** or part of it on a **project**, including a subcontractor under contract to such **contractor**;

- (v) **"cost of the works"** means the total amount, exclusive of value added tax, certified or which would, normally, be certifiable for payment to **contractors** (irrespective of who actually carries out the works) in respect of the **works** designed, specified or administered by the **consulting engineer**, before deduction of liquidated damages or penalties, including –
 - (a) a pro-rata portion of all preliminary and general items applicable to the **works**; and
 - (b) the costs of new materials, goods or equipment, or a fair evaluation, of such material, goods or equipment as if new whether supplied new or otherwise by, or to, the **client** and including the cost or a fair evaluation of the cost of installation (the sourcing, inspection and testing of such will comprise additional services by the **consulting engineer**);
- (vi) **"normal services"** means the **services** set out in clause 2.1;
- (vii) **"project"** means any total scheme envisaged by a **client**, including all the **works** and **services** concerned;
- (viii) **"services"** means the services contemplated in clause 2 on a **project** for which a **consulting engineer** is engaged;
- (ix) **"stage"** means a stage of **normal services** set out in clause 2.1;
- (x) **"the Act"** means the Engineering Profession Act, 2000 (Act No. 46 of 2000);
- (xi) **"total annual cost of employment"** means the total annual cost of employment as defined in clause 3.4(4);
- (xii) **"works"** means the activities on a **project** for which **contractors** are under contract to the **client** to perform or is intended to be performed, including the supply of goods and equipment;

1.4 SHORT TITLE

This Schedule is called the Guideline Scope of Services and Tariff of Fees for Registered Persons, 2004.

2. GUIDELINE SCOPE OF SERVICES

2.1 NORMAL SERVICES

2.1.1 Report stage

The preparation and submission of a report embodying preliminary proposals or feasibility studies and estimates of cost and time where appropriate for consideration by the **client**, including all or any of the following:

- (1) Consultation with the **client** or **client's** authorized representative.
- (2) Inspection of the site of the **project**.
- (3) Preliminary investigation, route location, planning and a level of design appropriate to allow project decisions to be made, where any of these are required for the determination of feasibility.

- (4) Consultation with authorities having rights or powers of sanction as well as consultation with the public and stakeholder groups.
- (5) Advice to the **client** as to regulatory and statutory requirements, including environmental management and the need for surveys, analyses, tests and site or other investigations, as well as approvals, where such are required for the completion of the report, and arranging for these to be carried out at the **client's** expense.
- (6) Searching for, obtaining, investigation and collation of available data, drawings and plans relating to the **works**.
- (7) Investigation of financial and economic implications relating to the proposals or feasibility studies.
- (8) Clause 2.1.1(7) does not apply in respect of civil and structural **services** pertaining to building projects, except as far as the interpretation of cost figures for civil and structural **services** are concerned.

2.1.2 Preliminary design stage

Following the **client's** instructions to proceed, the development of preliminary proposals or the basic planning of the **project**, comprising all or any of the following:

- (1) Submission of a basic planning report.
- (2) Establishment of final design criteria.
- (3) Advice to the **client** as to the regulatory and statutory requirements, including environmental management and the need for any further surveys, analyses, tests and site or other investigations, as well as approvals, which may be required and arranging for these to be carried out at the **client's** expense. This advice is to be concluded by the **consulting engineer** with the interpretation of the results of these tests and investigations, including geotechnical and/or foundation investigations, together with a report containing recommendations to be applied to and incorporated in designs. The **consulting engineer** will also take the environmental management plan into account.
- (4) Advice to the **client**, as may be necessary, on the engagement and delineation of the services of other consultants and advisers, arranging such engagements and consultation with them on matters pertaining to the **project**.
- (5) Design of any process or system or refinement of the preliminary process design, where such process design is a prerequisite for the design of the **project**.
- (6) Preparation and submission to the **client** of any preliminary plans, drawings and estimates required for seeking the approval of statutory authorities and the **client**.
- (7) Consultation on all technical matters with the **client**, authorities and interested parties other than those having rights or powers of sanction, and making modifications to the preliminary design of the **works** arising out of such consultations.
- (8) Submission of estimates of capital and life cycle costs, financial implications and programmes for the implementation of the **works**.
- (9) Clause 2.1.2(5) does not apply in respect of civil and structural **services** pertaining to building projects.
- (10) Clause 2.1.2(8) does not apply in respect of civil and structural **services** pertaining to building projects, except as far as inputs to and assessment of programmes for civil and structural **services** are concerned or on projects where all financial, tender and contractual matters are handled by other parties.

2.1.3 Design and tender stage

Following the **client's** instructions to proceed with the preparation of all documents necessary to enable tenders for the works to be called for or for the **works** to be otherwise placed by the **client**, including all or any of the following:

- (1) Advice to the client as to the necessity for further surveys, special visits, use of specialist consultants, setting out or staking out the **works**, and arranging for such to be carried out at the **client's** expense.
- (2) Preparation of detail designs and tender and/or working drawings.
- (3) Preparation of specifications and schedules of quantities for engineering **works**.
- (4) Provision of information necessary for the design of other services.
- (5) Submission of updated and revised estimates, capital and life cycle costs, financial implications and programmes for implementation of the **works** previously submitted.
- (6) Drafting or adapting invitations to tender, tender conditions, forms of tender and conditions of contract, advising the **client** on tender strategies and suitable **contractors** and calling for tenders when instructed to do so by the **client**.
- (7) Advice to the **client** on any alternative designs and tenders, but excluding detailed inspection, reviewing and checking of alternative designs and drawings not prepared by the **consulting engineer** and submitted by any **contractor** or potential **contractor**.
- (8) Analyses of tenders and submission of recommendations on the acceptance of tenders and, if necessary, revising the estimates of the cost and the completion date of the **works**.
- (9) Advice to the **client** as to the provision of a **construction monitoring** service in accordance with clause 2.2.2, over and above that provided for under clause 2.1.5(3).
- (10) Clauses 2.1.3(3), 2.1.3(6) and 2.1.3(8) do not apply in respect of civil and structural **services** pertaining to building projects or on projects where all financial, tender and contractual matters are handled by other parties.
- (11) Clause 2.1.3(5) does not apply in respect of civil and structural **services** pertaining to building projects or on projects where all financial, tender and contractual matters are handled by other parties, except as far as inputs to and assessment of programmes for such **services** are concerned.

2.1.4 Working drawing stage

- (1) Following the **client's** instructions to proceed, the preparation of any further plans, designs and drawings, excluding shop details, which may be necessary for the execution of the **works**.
- (2) In the case of reinforced concrete **works**, working drawings must include bending schedules.
- (3) In the case of structural steel **works**, working drawings and details provided by the **consulting engineer** must include full information, dimensions and specifications on all sections, connections, plates, fasteners, bolts and welding, to such an extent that no further designs by **contractors** or other parties are required. The **consulting engineer** need not provide shop drawings for the manufacture of the structural steel **works**.

2.1.5 Construction stage

The overall contract administration and co-ordination, as well as **construction monitoring** of the execution of the **works** in accordance with the contract, including all or any of the following:

- (1) Placing orders for the **works** on behalf of the **client**.
- (2) Advice to the **client** as to the preparation of the contract documents, or preparation of the contract documents in consultation with the **client**.
- (3) Overall contract administration and co-ordination, as well as **construction monitoring** of the execution of the **works** for compliance with the contract and attending site meetings on a combined average frequency of at least one day every two weeks for the duration of the construction of the specific **works** for which the consulting engineer is engaged or at such more frequent intervals as the **consulting engineer** may deem necessary.
- (4) Directing **construction monitoring** operations, but excluding detail day-to-day **construction monitoring** of the **works** and contract administration, as provided for under clause 2.2.2.
- (5) Advice to the **client** as to the provision of a **construction monitoring** service in accordance with clause 2.2.2, over and above that provided for in this clause.
- (6) Checking **contractor's** drawings of structures, plant, equipment and systems for the **works** for conformity with design requirements, but excluding detailed checking of manufacture and installation details for erection or installation fit.
- (7) Advice to the **client** on any further alternative designs, but excluding detailed inspection, reviewing and checking of alternative designs and drawings not prepared by the **consulting engineer** and submitted by any **contractor**.
- (8) Issuing instructions to **contractors** on behalf of the **client**.
- (9) Issuing certificates or recommendations for payment of **contractors** and submitting regular reports regarding **works** finances and anticipated completion dates and final costs.
- (10) Advice to the **client** in regard to or the resolution of disputes or differences that may arise between the **client** and the **contractor**, except mediation, arbitration and/or litigation.
- (11) Preparation of and issuing variation orders on behalf of and after consultation with the **client**.
- (12) General inspection of materials and equipment for compliance with the original design and tender, including checking of marks or documentation for adherence to National and International standards and advice to the **client** regarding further inspection and testing of such materials and equipment as may be necessary and arranging for such inspection and testing to be carried out on behalf of and at the **client's** expense.
- (13) Making arrangements on behalf of the **client** for the provision and reproduction at the **client's** expense of such drawings and documents as may be required by the **contractors** and site staff for the execution of the **works**.
- (14) Agreeing final quantities with **contractors**, compiling final accounts and issuing final payment certificates.
- (15) Prepare and, on completion of the **works**, provide the **client** with record drawings. Making arrangements for the contractor to supply detailed operation, operating and maintenance manuals as part of the contractor's contractual obligations, receiving such and handing it over to the **client**. Both sets of documents shall be in formats as agreed to with the **client**.

- (16) Evaluating results of **contractor's** commissioning procedures and tests and witnessing final performance or acceptance tests on site, only, but excluding day-to-day routine tests.
- (17) Clauses 2.1.5(1), 2.1.5(2), 2.1.5(9), 2.1.5(10), 2.1.5(11) and 2.1.5(14) do not apply in respect of civil and structural **services** pertaining to building projects or on projects where all financial, tender and contractual matters are handled by other parties.

2.1.6 Targeted procurement

Should the **client** during any stage of the **project**, require the **consulting engineer** to perform work or services pertaining to targeted procurement, such work and or services could entail, but are not limited to, any or all of the following:

- (i) incorporation of any targeted participation goals,
- (ii) the measuring of key participation indicators,
- (iii) the selection, appointment and administration of participation and
- (iv) auditing compliance to the above by any contractors and/or professional consultant.

2.2 ADDITIONAL SERVICES

The following **services** are additional to the **normal services** provided by the **consulting engineer**, unless specifically agreed otherwise between the **consulting engineer** and the **client**. The agreement on the scope of **services** and remuneration shall be in writing and should, if at all possible, be concluded before such services are rendered.

2.2.1 Additional services pertaining to all stages of the project

- (1) Enquiries not directly concerned with the **works** and its subsequent utilisation.
- (2) Valuation for purchase, sale or leasing of plant, equipment, material, systems, land or buildings or arranging for such valuation.
- (3) Making arrangements for way leaves, servitudes or expropriations.
- (4) Negotiating and arranging for the provision or diversion of services not forming part of the **works**.
- (5) Additional work in obtaining the formal approval of the appropriate Government Departments or Public Authorities, including the making of such revisions as may be required as a result of decisions of such Departments or Authorities arising out of changes in policy, undue delay, or other causes beyond the **consulting engineer's** control.
- (6) Surveys, analyses, tests and site or foundation or other investigations, model tests, laboratory tests and analyses carried out on behalf of the **client**.
- (7) Setting out or staking out the **works** and indicating any boundary beacons and other reference marks.
- (8) Preparation of drawings for manufacture and installation or detailed checking of such for erection or installation fit.

- (9) Detailed inspection, reviewing and checking of designs and drawings not prepared by the **consulting engineer** and submitted by any **contractor** or potential **contractor** as alternative to those embodied in tender or similar documents prepared by the **consulting engineer**.
- (10) Inspection and testing, other than on site, of materials and plant, including inspection and testing during manufacture.
- (11) Preparing and setting out particulars and calculations in a form required by any relevant authority.
- (12) Abnormal additional services by or costs to the **consulting engineer** due to the failure of a **contractor** or others to perform their required duties adequately and timely.
- (13) Executing or arranging for the periodic monitoring and adjustment of the **works**, after final handover and completion of construction and commissioning, in order to optimise or maintain proper functioning of any process or system.
- (14) Investigating or reporting on tariffs or charges leviable by or to the client.
- (15) Advance ordering or reservation of materials and obtaining licenses and permits.
- (16) Preparing detailed operating, operation and maintenance manuals.
- (17) Additional **services**, duties and/or work resulting from project scope changes, alterations and/or instructions by the **client**, or his duly authorized agents, requiring the **consulting engineer** to advise upon, review, adapt and/or alter his completed designs and/or any other documentation and/or change the scope of his **services** and/or duties. Such additional **services** are subject to agreement in writing between the **consulting engineer** and the **client** prior to the execution thereof.
- (18) Exceptional arrangements, communication, facilitation and agreements with any stakeholders other than the **client** and **contractors** appointed for the **works** on which the **consulting engineer** provides **services**.
- (19) Any other additional **services**, of whatever nature, specifically agreed to in writing between the **consulting engineer** and the **client**.

2.2.2 Construction monitoring

- (1) If the construction **monitoring**, as set out in clause 2.1.5(3), is deemed to be insufficient by the **consulting engineer**, the **consulting engineer** may, with prior written approval having been obtained from the **client**, appoint or make available additional staff for such construction **monitoring** as are necessary to undertake additional construction **monitoring** on site to the extent specifically defined and agreed with the client. The functions in respect of additional construction monitoring are to be limited to detailed inspections and exclude those mentioned under clause 2.1.5.
- (2) Alternatively, the **client** may appoint or make available staff, as intended in clause 2.2.2(1), subject to approval by the **consulting engineer**.
- (3) Staff, as intended in clauses 2.2.2(1) and 2.2.2(2), shall report to and take instructions from the **consulting engineer** or an authorized representative of the **consulting engineer** only and shall be deemed to be in the employ of the **consulting engineer**.
- (4) Should any change regarding the persons utilized for additional on-site **monitoring** or their remuneration be necessary, the utilization of such persons and/or their remuneration must be agreed in writing with the **client** prior to the implementation thereof.

- (5) If, for any reason, no additional staff or inadequate staff for **construction monitoring** is appointed, the **consulting engineer** shall provide additional services, including additional site visits, as required and agreed to in writing with the **client** prior to commencement thereof.
- (6) The duties of the **consulting engineer** for the following four defined levels of **construction monitoring**, respectively, are as follows:

(a) **Level 1:**

The **construction monitoring** staff shall:-

- (i) Monitor the outputs from another party's quality assurance programme against the requirements of the plans and specifications.
- (ii) Visit the **works** at a frequency agreed with the **client** to review important materials, critical work procedures and/or completed elements or components.
- (iii) Be available to advise the **contractor** on the technical interpretation of the plans and specifications.

(b) **Level 2:**

The **construction monitoring** staff shall:-

- (i) Review, preferably at the earliest opportunity, a sample of each important -

- (a) Work procedure
- (b) Construction material

for compliance with the requirements of the plans and specifications and review representative samples of important completed work prior to enclosure or completion as appropriate.

- (ii) Visit the **works** at a frequency agreed with the **client** to review important materials, critical work procedures and/or completed elements or components.
- (iii) Be available to provide the **contractor** with technical interpretation of the plans and specifications.

(c) **Level 3:**

The **construction monitoring** staff shall:

- (i) Maintain a part-time presence on site as agreed with the **client** to review random samples and review important completed work prior to enclosure or on completion as appropriate.
- (ii) Where the **consulting engineer** is the sole consultant or principal agent, carry out such administration of the **project** as is necessary on behalf of the **client**.
- (iii) Be available to provide the **contractor** with technical interpretation of the plans and specifications.

(d) **Level 4:**

The **construction monitoring** staff shall:-

- (i) Maintain a full time presence on site to constantly review -

- (a) Work procedures
 - (b) Construction materials

for compliance with the requirements of the plans and specifications and review completed work prior to enclosure or on completion as appropriate.

- (ii) Where the **consulting engineer** is the sole consultant or principal agent, carry out such administration of the **project** as is necessary on behalf of the **client**.
- (iii) Be available to provide the **contractor** with technical interpretation of the plans and specifications.

2.2.3 Occupational Health and Safety Act, 1993 (Act No.85 of 1993)

Should the **client** require the **consulting engineer** to undertake duties falling under the Occupational Health and Safety Act, 1993 (Act No.85 of 1993) and the Construction Regulations in terms thereof, on behalf of the **client**, the additional **services** may include the following:

- (1) The **consulting engineer** must arrange, formally and in writing, for the contractor to provide documentary evidence of compliance with all the requirements of the Occupational Health and Safety Act, 1993 (Act No.85 of 1993).
- (2) The **consulting engineer** must execute the duties of the client, as his appointed agent, as contemplated in the Construction Regulations to the Occupational Health and Safety Act, 1993 (Act No.85 of 1993).

2.2.4 Quality assurance system

Where the **client** requires that a quality management system or quality assurance services, over and above **construction monitoring** services, be applied to the **project**, these are in addition to **normal services** provided by the **consulting engineer** and to be specifically defined and separately agreed in writing prior to commencement thereof.

2.2.5 Lead consulting engineer

Should the **client** require the **consulting engineer** to assume the leadership of a joint venture, consortium or team of consulting engineers, of the same discipline, prescribed or requested by the **client**, the additional services may include the following:

- (1) Responsibility for the overall administration of all sections of the **services**, including those portions of the **services**, which fall within the ambit of the other consulting engineers.
- (2) Responsibility for the overall co-ordination, programming of design and financial control of all the **works** included in the **services**.
- (3) Processing certificates or recommendations for payment of **contractors**.

2.2.6 Principal agent of the client

When a **consulting engineer** is, in addition to his normal functions as **consulting engineer**, appointed as the principal agent of the **client** on a **project**, the **consulting engineer** will also be responsible for the following:

- (1) Leadership of the professional team.
- (2) Submission of preliminary and developed proposals in the form of consolidated reports, drawings and specifications together with estimates of costs for the **project** as a whole.
- (3) The overall administration of all sections of the **project** including those, which fall within the ambit of the other professional members in the team.
- (4) The overall coordination, programming of design and financial control of the **project**.
- (5) Resolving differences that may arise between the **client** and the **contractors**, excluding mediation, arbitration or litigation
- (6) Approval of certificates for payment to **contractors** issued by the other professional members in the team before their presentation to the **client** for settlement
- (7) Making arrangements to provide the **client**, on completion of the **works**, with such record drawings as may be required for a proper record of the **works** as constructed and such manuals as may be required for the operation and maintenance of the relevant parts of the **works**
- (8) Approval of the final contract account for the **project** as a whole.
- (9) Manage targeted procurement **services** as indicated in clause 2.1.6.

2.2.7 Engineering management services

Should the **client** require the **consulting engineer** to undertake duties of an engineering management nature on behalf of the **client**, the additional **services** will include the following:

- (1) Leadership of the professional team.
- (2) Be responsible for the overall administration of the **project** including the co-ordination of the work of the team, the programming of the execution of designs and the overall financial control of the **project**.
- (3) Instruct the other members of the team, on behalf of the **client**, in writing as to the client's total requirements in connection with the **project**, including the services required from each of the other members and make available to them all relevant information or data pertaining to the **project** which is required by them. The other members of the team shall be entitled to rely upon the accuracy and completeness of such information and data furnished by the **consulting engineer**.
- (4) Convene and preside over regular meetings of the team and the **client** for purposes of planning the **project** including preparing and distributing agendas and minutes to all concerned.
- (5) Co-ordinate the preparation of a budget for the **client**, together with assistance from other members of the team and update it at regular intervals as agreed with the **client**.
- (6) Prepare a construction and procurement plan and policy according to the **client's** requirements with regard to types of contracts to be adopted, general and commercial conditions and the grouping of items and elements into various contracts.

- (7) With assistance of the other members of the team, determine and recommend to the **client** a policy for calling for tenders and/or negotiating contracts.
- (8) Co-ordinate reports and recommendations on tenders received, either directly or by the other members of the team, and make recommendations to the **client** on the award of contracts.
- (9) Award all contracts on behalf of the **client** and arrange for the preparation and signing of contract documents with the assistance of the other members of the team.
- (10) Issue all instructions to **contractors**, either directly or by delegation to the other members of the team.
- (11) Convene and preside over regular meetings on site with **contractors**, members of the team and the **client** for the purpose of administering the contract including the preparation and distribution of agendas and minutes to all concerned.
- (12) Process and certify all payment and valuation certificates and issue payment certificates for settlement.

2.2.8 Mediation, arbitration and litigation proceedings and similar services

Where the **client** requires the **consulting engineer** to, on his behalf, perform the services listed hereunder or similar work, the extent thereof and remuneration therefore is subject to agreement between the **client** and the **consulting engineer**:

- (1) Dealing with matters of law, obtaining parliamentary or other statutory approval, licenses or permits.
- (2) Assisting with or participating in contemplated or actual mediation, arbitration or litigation proceedings.
- (3) Officiating at or attending courts and commissions of enquiry, select committees and similar bodies convened by statute, regulation or decree.

3. GUIDELINE TARIFF OF FEES

3.1 APPLICATION OF TARIFF OF FEES

- (1) The guideline tariff of fees contained in this Schedule applies in respect of the **services** set out in clause 2.
- (2) The **client** should remunerate the **consulting engineer**, for the **services** rendered, on the basis of clauses 3.2 to 3.5. In cases where the **client** and **consulting engineer** have agreed that clauses 3.2 and 3.3 are not applicable, payment should be on the basis of clause 3.4 or as agreed according to clause 3.1(4).
- (3) The **client** shall reimburse the **consulting engineer** for all expenses and costs incurred in terms of clause 3.5 in performing his **services**, irrespective of whether fees are charged in terms of clauses 3.2 and 3.3 or clause 3.4, as well as for all costs incurred on behalf, and with the approval, of the **client**.
- (4) Should the tariff of fees contained in this Schedule be found to be inappropriate to any **project, works, services** or part thereof, the **client** and **consulting engineer** may agree a fee deemed more appropriate. Contributing factors to be taken into account, although not limited to, may include all or any of the following:

- (a) *Complexity:* Where the **works** call for the application of new, unusual or untried techniques or designs or application of complex control circuits, systems or processes or excessive complexity of the whole or part of the **works**.
 - (b) *Repetition:* Where the **works** consist of one or more duplicated entities.
 - (c) *Monetary value of the works:* Where the monetary value of the **works** is abnormally low relative to the services required from the **consulting engineer** and the tariff of fees for normal projects does not compensate the **consulting engineer** reasonably for the services to be rendered.
 - (d) *Time duration:* Where the works are executed over appreciably shorter or longer than normal or realistic time periods during any of the stages defined in 2.1
 - (e) *Level of responsibility, liability and risk:* Where unusually high demands in respect of these factors are expected to be carried by the **consulting engineer**.
 - (f) *Level of expertise, qualifications, skills and experience* required of the **consulting engineer** for the **services**.
- (5) Agreement on any adjustment of or special fees should be reached at the time of the engagement of the **consulting engineer** or as soon after circumstances warrant such as practically possible, but in all cases prior to the **consulting engineer** rendering services which may be affected.
- (6) Where the **normal services** relate to more than one of the disciplines of consulting engineering contemplated in clauses 3.2.1 to 3.2.8, namely civil, structural, mechanical, electrical or electronic engineering services, a separate fee for **services** in each discipline should be calculated in accordance with the relevant clause.
- (7) Where at the instance and with the consent of the **client** the **works** are undertaken on separate non-contiguous sites, continuity is interrupted or are unusually fragmented or are constructed as separately documented phases or sections, the fee for **normal services** is:
- (a) the sum of the fees calculated separately for each site, contract, phase or section as if they were separate **works**; or
 - (b) A fee agreed to between the **client** and the **consulting engineer** and which fee lies between the fee calculated on the total **cost of the works** and the sum of the fees contemplated in clause 3.1(7)(a).
- (8) The fee for **services** provided in the report stage is calculated on a time basis.
- (9) The following fees may be claimed after each stage of **services** or monthly or as agreed between the **consulting engineer** and the **client**:
- (a) Percentage fees determined on the basis of the **cost of the works** prevailing at the time of the fee calculation and pro-rata to the completed **services**.
 - (b) Time based fees applicable when the **services** were rendered.
- (10) Disbursements as set out in clause 3.1(3) may be claimed monthly.

3.2 FEES FOR NORMAL SERVICES

3.2.1 Civil and structural engineering services pertaining to engineering projects

- (1) The basic fee for **normal services** in the disciplines of civil and structural engineering, pertaining to engineering projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 320 000		A Lump Sum or on a Time Basis	
Range of brackets		Primary Fee	Percentage
Where the cost of the works exceeds	But does not exceed		
R 320,000	R 860,000	R 40,000	12,5%
R 860,000	R 4,300,000	R 107,500	10,0%
R 4,300,000	R 16,100,000	R 451,500	8,0%
R 16,100,000	R 64,400,000	R 1,395,500	6,0%
R 64,400,000	R 264,400,000	R 4,293,500	5,5%
R 264,400,000		R 15,293,500	5,0%

- (2) The following additional design fee shall be applicable to the value of the reinforced concrete and structural steel portions of the **works**, inclusive of the costs of concrete, reinforcing, formwork, structural steel work and any pro-rata preliminary and general amounts. Where structures of identical design are repeated on the same project, the combined costs shall be cumulated for the determination of the cost of the reinforced concrete and structural steel works. In cases where structures require individual design, a separate fee shall be calculated for each structure based on the cost of the reinforced concrete and/or structural steel work for that particular structure.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 320 000		A Lump Sum or on a Time Basis	
Range of brackets		Primary Fee	Percentage
Where the cost of the works exceeds	But does not exceed		
R 320,000	R 2,950,000	R 16,000	5,00%
R 2,950,000	R 8,590,000	R 147,500	4,00%
R 8,590,000	R 29,290,000	R 373,100	2,65%
R 29,290,000		R 921,650	1,65%

- (3) To calculate the fee for railway track work in terms of this item, 50 per cent of the cost of the permanent way materials is excluded from the **cost of the works**, but the full cost of ballast and equipment specially designed by the **consultant** is included in the **cost of the works**.
- (4) For **normal services** relating to a description of the **works** mentioned in the first column of the following table, the basic fee calculated in terms of clause 3.2.1(1) and 3.2.1(2) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor by which basic fee is multiplied
Only one of the following factors will be applicable to any portion of work:	
Rural roads (single carriageways), excluding bridges	0,85
Rural freeways and dual carriageways, excluding bridges	0,95
Freeways and dual carriageways through existing populated (but not urban) areas, excluding bridges	1,00
Freeways and dual carriageways through existing urban areas	1,25
Gravel roads: Primary roads Secondary roads Informal roads	1,25 to 1,50 1,00 to 1,25 0,75 to 1,00
Water and waste water treatment works	1,25
Services for existing informal settlements and to reduced standards of supplies	1,25 to 1,50
Water and sanitation in rural areas	1,35
Alterations to existing works . (Can be used in conjunction (multiplication) with any factor obtained above and is only applicable to the fees on the portion or section of work affected)	1,25
Mass concrete foundations, brickwork and cladding designed and detailed by the consulting engineer (Only applicable to the design portion of the fees on such works)	0,33
Targeted procurement (Applicable to the basic fees prior to the application of any of the other factors)	1,07

3.2.2 Civil engineering services pertaining to building projects

- (1) The basic fee for **normal services** in the discipline of civil engineering, pertaining to building projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 320 000		A Lump Sum or on a Time Basis	
Range of brackets		Primary Fee	Percentage
Where the cost of the works exceeds	But does not exceed		
R 320,000	R 860 000	R 40,000	12,5%
R 860,000	R 3,760,000	R 107,500	10,0%
R 3,760,000	R 8,590,000	R 397,500	9,0%
R 8,590,000	R 21,490,000	R 832,200	7,5%
R 21,490,000		R 1,799,700	7,0%

- (2) For **normal services** relating to a description of the **works** mentioned in the first column of the following table, the basic fee calculated in terms of clause 3.2.2(1) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor by which basic fee is multiplied
Alterations to existing facilities <i>(Only applicable to the fees on the portion or section of work affected)</i>	1,25
Internal water and drainage for buildings upon specific agreement with the client to render such services	1,25
Re-use on duplicated works <i>(Only applicable to the design portion of the fees on duplicated works)</i>	0,25

3.2.3 Structural engineering services pertaining to building projects

- (1) The basic fee for **normal services** in the discipline of structural engineering, pertaining to building projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 320 000		A Lump Sum or on a Time Basis	
Range of brackets		Primary Fee	Percentage
Where the cost of the works exceeds	But does not exceed		
R 320,000	R 860 000	R 40,000	12,5%
R 860,000	R 4,300,000	R 107,500	10,0%
R 4,300,000	R 9,130,000	R 451,500	9,0%
R 9,130,000	R 20,930,000	R 886,200	8,0%
R 20,930,000		R 1,830,200	7,0%

- (2) For **normal services** relating to a description of the **works** mentioned in the first column of the following table, the basic fee calculated in terms of clause 3.2.3(1) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor by which basic fee is multiplied
Alterations to existing facilities (Only applicable to the fees on the portion or section of works affected)	1,25
Mass concrete foundations, brickwork and cladding designed and detailed by the consulting engineer (Only applicable to the design portion of the fees on such works)	0,33
Re-use on duplicated works (Only applicable to the design portion of the fees on duplicated works)	0,25

3.2.4 Mechanical engineering services pertaining to engineering projects

- (1) The basic fee for **normal services** in the discipline of mechanical engineering, pertaining to engineering projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 270 000		A Lump Sum or on a Time Basis	
Range of brackets		Primary Fee	Percentage
Where the cost of the works exceeds	But does not exceed		
R 270,000	R 860,000	R 33,750	12,5%
R 860,000	R 3,760,000	R 107,500	10,0%
R 3,760,000	R 10,740,000	R 397,500	8,0%
R 10,740,000	R 23,640,000	R 955,900	7,0%
R 23,640,000	R 42,940,000	R 1,858,900	6,0%
R 42,940,000		R 3,016,900	5,5%

- (2) For **normal services** relating to a description of the **works** mentioned in the first column of the following table, the basic fee calculated in terms of clause 3.2.4(1) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor
Alterations to existing facilities <i>(Only applicable to the fees on the portion or section of work affected.)</i>	1,25
Wet services, fire protection, water for heating and cooling purposes and drainage inside buildings.	1,25
Re-use on duplicated works <i>(Only applicable to the design portion of the fees on duplicated works)</i>	0,25
Targeted procurement <i>(Applicable to the basic fees prior to the application of any of the other factors)</i>	1,07

3.2.5 Electrical engineering services pertaining to engineering projects

- (1) The basic fee for **normal services** in the discipline of electrical engineering, pertaining to engineering projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 270 000		A Lump Sum or on a Time Basis	
Range of brackets		Primary Fee	Percentage
Where the cost of the works exceeds	But does not exceed		
R 270,000	R 860,000	R 33,750	12,5%
R 860,000	R 2,690,000	R 107,500	10,0%
R 2,690,000	R 8,060,000	R 290,500	8,0%
R 8,060,000	R 18,760,000	R 720,100	7,0%
R 18,760,000	R 34,360,000	R 1,469,100	6,0%
R 34,360,000		R 2,405,100	5,5%

- (2) For **normal services** relating to a description of the **works** mentioned in the first column of the following table, the basic fee calculated in terms of clause 3.2.5(1) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor
Alterations to existing facilities (Only applicable to the fees on the portion or section of work affected.)	1,25
Re-use on duplicated works (Only applicable to the design portion of the fees on duplicated works)	0,25
Targeted procurement (Applicable to the basic fees prior to the application of any of the other factors)	1,07

3.2.6 Mechanical engineering services pertaining to building projects

- (1) The basic fee for **normal services** in the discipline of mechanical engineering or wet services, pertaining to building projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 270 000		A Lump Sum or on a Time Basis	
Range of brackets		Primary Fee	Percentage
Where the cost of the works exceeds	But does not exceed		
R 270,000	R 750,000	R 33,750	15,0%
R 750,000	R 5,370,000	R 112,500	12,5%
R 5,370,000	R 10,740,000	R 690,000	10,5%
R 10,740,000	R 21,440,000	R 1,253,850	9,5%
R 21,440,000	R 64,440,000	R 2,270,350	9,0%
R 64,440,000		R 6,140,350	8,5%

- (2) For **normal services** relating to a description of the **works** mentioned in the first column of the following table, the basic fee calculated in terms of clause 3.2.6(1) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor
Multi-tenant installations	1,25
Alterations to existing facilities (Only applicable to the fees on the portion or section of work affected)	1,25
Wet services, fire protection, water for heating and cooling purposes and drainage inside buildings.	1,25
Re-use on duplicated works (Only applicable to the design portion of the fees on duplicated works)	0,25
For projects where the cost of the works exceeds R 270 000, and where bills of quantities are not required from the consulting engineer and all financial, tender and contractual matters are dealt with by the Quantity Surveyor or other parties.	0,75
As above, but bills of quantities for are not required from the consulting engineer and all financial, tender and contractual matters are dealt with by the consulting engineer (e.g. lump sum, nominated or selected sub-contracts, etc.)	0,90
Targeted procurement (Applicable to the basic fees prior to the application of any of the other factors)	1,07

3.2.7 Electrical engineering services pertaining to building projects

- (1) The basic fee for **normal services** in the discipline of electrical engineering, pertaining to building projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 270 000		A Lump Sum or on a Time Basis	
Range of brackets			
Where the cost of the works exceeds	But does not exceed	Primary Fee	Percentage
R 270,000	R 540,000	R 33,750	15,0%
R 540,000	R 4,300,000	R 81,000	12,5%
R 4,300,000	R 9,670,000	R 551,000	10,5%
R 9,670,000	R 21,470,000	R 1,114,850	9,5%
R 21,470,000	R 64,470,000	R 2,235,850	9,0%
R 64,470,000		R 6,105,850	8,5%

- (2) For **normal services** relating to a description of the **works** mentioned in the first column of the following table, the basic fee calculated in terms of clause 3.2.7(1) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor
Multi-tenant installations	1,25
Alterations to existing facilities (Only applicable to the fees on the portion or section of work affected)	1,25
Re-use on duplicated works (Only applicable to the design portion of the fees on duplicated works)	0,25
For projects where the cost of the works exceeds R 270 000 and where bills of quantities are not required from the consulting engineer and all financial, tender and contractual matters are dealt with by the Quantity Surveyor or other parties.	0,75
As above, but bills of quantities are not required from the consulting engineer and all financial, tender and contractual matters are dealt with by the consulting engineer (e.g. lump sum, nominated or selected sub-contracts, etc.)	0,90
Targeted procurement (Applicable to the basic fees prior to the application of any of the factors)	1,07

3.2.8 Electronic engineering services

- (1) The basic fee for **normal services** in the discipline of electronic engineering, including work pertaining to building projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 270 000		A Lump Sum or on a Time Basis	
Range of brackets		Primary Fee	Percentage
Where the cost of the works exceeds	But does not exceed		
R 270,000	R 970,000	R 54,000	17,0%
R 970,000	R 4 300,000	R 173,000	13,5%
R 4 300,000	R 12,890,000	R 622,550	11,5%
R 12,890,000	R 32,190,000	R 1,610,400	9,5%
R 32,190,000		R 3,443,900	8,5%

- (2) For **normal services** relating to a description of the **works** mentioned in the first column of the following table the basic fee calculated in terms of clause 3.2.8(1) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor
Alterations to existing works (Only applicable to the fees on the portion or section of work affected)	1,25
Where equipment or systems are wholly of proprietary design or approved by a State authority (Only applicable to the design portion of the fees)	0,67
Re-use on duplicated works (Only applicable to the design portion of the fees on duplicated works)	0,25
For projects where the cost of the works exceeds R 270 000 and where bills of quantities are not required from the consulting engineer and all financial, tender and contractual matters are dealt with by the Quantity Surveyor or other parties.	0,75

As above, but bills of quantities for electronic works are not required from the consulting engineer and all financial, tender and contractual matters are dealt with by the consulting engineer (e.g. lump sum, nominated or selected sub-contract, etc.)	0,90
Targeted procurement (Applicable to the basic fees prior to the application of any of the other factors)	1,07

3.2.9 Services provided partially or in stages

- (1) The following table shall be used for proportioning the basic fee for **normal services** over the various **stages** of the services:

Stage of Services	Percentage points for each stage
Civil: Engineering projects: Preliminary design Design and tender Working drawings Construction Completion of all consulting engineering services	30 30 15 20 5
Structural: Engineering projects: Preliminary design Design and tender Working drawings Construction Completion of all consulting engineering services	30 30 20 15 5
Civil: Building projects: Preliminary design Design and tender Working drawings Construction Completion of all consulting engineering services	30 30 15 20 5
Structural: Building projects: Preliminary design Design and tender Working drawings Construction Completion of all consulting engineering services	30 30 20 15 5
Mechanical, electrical and electronic projects: Preliminary design Design and tender, including working drawings Construction Completion of all consulting engineering services	20 40 35 5

- (2) Where not all the **stages** of the **normal services** are provided by the **consulting engineer**, the fee is, subject to clause 3.1(7), calculated as a percentage of the total fee calculated in terms of this clause, which percentage is the sum of the percentage points appropriate to each **stage** as set out in the above table against those **stages** of the **services** provided by the **consulting engineer**, plus 10 percentage points.

3.3 FEES FOR ADDITIONAL SERVICES

- (1) Subject to clauses 3.2.9(2), 3.3(2), 3.3(3), 3.3(4), 3.3(5), 3.3(6), 3.3(7) and 3.3(8), the fees for additional services, contemplated in clause 2.2, are agreed to between the **client** and the **consulting engineer** as set out in clause 3.1.
- (2) (a) Should instructions having been given by the **client** to the **consulting engineer** to proceed with any of the stages of services set out in clause 3.2.9(1) and the whole or part of the works is cancelled or abandoned or postponed for a period of more than six months, the **consulting engineer** shall be remunerated for **services** performed, plus a surcharge of one tenth of the full fee which would have been payable to the **consulting engineer** had his **services** been completed in terms of his engagement.
- (b) For additional **services** as a result of the resumption of such services or the alteration or modification of designs on the instructions of the **client**, the **consulting engineer** is entitled to time based fees and actual costs incurred.
- (3) For the provision of a **construction monitoring** service, as contemplated in clause 2.2.2, the **consulting engineer** is entitled to recover from the **client**
- (a) for monthly monitoring staff costs, the **total annual cost of employment** of such staff (as defined in clause 3.4(4)), divided by 12 and multiplied by one of the following:
- (i) **Case 1:**
Where payment is only made for actual time on site and site allowances are not paid separately:
- 2.1 times total cost of employment.
- (ii) **Case 2:**
Where payment is only made for actual time on site and site allowances are paid separately:
- 2,0 times total cost of employment.
- (iii) **Case 3:**
Where payment is made for leave and non-working days and site allowances are paid separately:
- 1,8 times total cost of employment.
- (b) for part time monitoring staff costs, the amount payable to such staff at the hourly rates contemplated in clause 3.4(3); and
- (4) For all other costs, as set out in clause 3.5, the actual expenses incurred, multiplied by 1,10.
- (5) For duties under the Occupational Health and Safety Act, 1993 (Act No.85 of 1993), as contemplated in clause 2.2.3, the **consulting engineer** shall, if so appointed by the **client**, be remunerated on a time and cost basis as agreed with the **client**.

- (6) For **services** as lead **consulting engineer**, as contemplated in clause 2.2.5, the lead **consulting engineer** is entitled to an additional fee of 10 percent (10%) of the total fees payable for the **services**.
- (7) For services as principal agent, as contemplated in clause 2.2.6, the **consulting engineer** is entitled to an additional fee calculated at one percentage point (1%) of the total **cost of the works** comprising the **project**. The **consulting engineer** is not entitled to any fees for principal agent if he is not explicitly appointed as such.
- (8) For engineering management services, as contemplated in clause 2.2.7, the **consulting engineer** shall be remunerated as follows:
- (a) The basic fee for **services** in the discipline of engineering management services, including work pertaining to building projects, is determined from the table below. The fee for the cost of the works within each bracket is the sum of the primary fee and the percentage applied to the difference between the cost of the works and the amount in the first column of the table for the relevant bracket.

Cost of the Works		Basis of Fee Calculation	
For projects up to R 540 000		A Lump Sum or on a Time Basis	
Range of brackets			
Where the cost of the works exceeds	But does not exceed	Primary Fee	Percentage
R 540,000	R 860,000	R 24,300	4,5%
R 860,000	R 5,160,000	R 38,700	3,5%
R 5,160,000	R 19,360,000	R 189,200	2,5%
R 19,360,000		R 544,200	1,5%

- (b) For **normal services** relating to a description of the **works** mentioned in the first column of the following table, the basic fee calculated in terms of clause 3.3(8)(a) is multiplied by the category factor mentioned against that description in the second column of the table. These factors do not apply when fees are a lump sum or on a time basis.

Description of the Works	Factor
Multi-tenant installations	1,25
Alterations to existing facilities (Only applicable to the fees on the portion or section of work affected)	1,25
Targeted procurement (Applicable to the basic fees prior to the application of any of the other factors)	1,07

- (c) The following table shall be used for proportioning the basic fee over the various **stages** of the **services**:

Stage of Services	Percentage points for each stage
Concept and design development	25
Design, documentation and tender	35
Construction	35
Completion of all engineering management services	5

3.4 TIME BASED FEES

- (1) (a) Time based fees are all-inclusive fees, including allowances for overhead charges incurred by the **consulting engineer** as part of normal business operations, including the cost of management, as well as payments to administrative, clerical and secretarial staff used to support professional and technical staff in general and not on a specific project only.
- (b) Time based fees are calculated by multiplying the hourly rate contemplated in clause 3.4(3), which is applicable to the **consulting engineer** or any other technical staff employed by the **consulting engineer**, with the actual time spent by such technical staff in rendering the **services** required by the **client**.
- (c) Technical staff include all staff performing work directly related to the execution of the **services** the **consulting engineer** is engaged for by the **client** and excludes all administrative, clerical and secretarial staff used to support professional and technical staff in general and not on a specific project only, but includes the typing of letters, minutes, reports and documents for **projects**.
- (2) To determine the time based fee rates the persons concerned are divided into:-
- (a) *Category A*, in respect of a private consulting practice in engineering, shall mean a top practitioner whose expertise and relevant experience is nationally or internationally recognized and who provides advice at a level of specialization where such advice is recognized as that of an expert.
- (b) *Category B*, in respect of a private consulting practice in engineering, shall mean a partner, a sole proprietor, a director, or a member who, jointly or severally with other partners, co-directors or co-members, bears the risks of the business, takes full responsibility for the liabilities of such practice, where level of expertise and relevant experience is commensurate with the position performs work of a conceptual nature in engineering design and development, provides strategic guidance in planning and executing a project and/or carries responsibility for quality management pertaining to a project.
- (c) *Category C*, in respect of a private consulting practice in engineering, shall mean all salaried professional staff with adequate expertise and relevant experience performing work of an engineering nature and who carry the direct technical responsibility for one or more specific activities related to a project. A person referred to in Category B may also fall in this category if such person performs work of an engineering nature at this level.

- (d) *Category D*, in respect of a private consulting practice in engineering, shall mean all other salaried technical staff with adequate expertise and relevant experience performing work of an engineering nature with direction and control provided by any person contemplated in categories A, B or C.
- (3) The time based fee rates are:-
- (a) Calculated for a person in category-
 - (i) A and B at 22,00 cents per hour;
 - (ii) C at 17,5 cents per hour; and
 - (iii) D at 16,5 cents per hour,

for each R100 or part thereof of the **total annual cost of employment** of the person concerned, as contemplated in sub-clause (4); **or**
 - (b) based on such indicative time based fee rates as are determined from time to time by the Engineering Council of South Africa after consultation with service providers and service users, whichever is the lesser: Provided that in all cases the **client** and **consulting engineer** may agree on a more appropriate fee to take account of the specific **services** to be rendered or expertise to be applied.
- (4) For the purposes of clause 3.4(3)(a), the **total annual cost of employment** of a person contemplated in clause 3.4(2) means the total amount borne by an employer in respect of the employment of such a person per year, calculated at the amounts applicable to such a person at the time when the **services** are rendered, including –
- (a) Basic salary, or a nominal market related salary, excluding profit share and asset growth;
 - (b) Fringe benefits not reflected in the basic salary, including:
 - (i) Normal annual bonus;
 - (ii) Employer's contribution to medical aid;
 - (iii) Group life insurance premiums borne by the employer;
 - (iv) Employer's contribution to a pension or provident fund; and
 - (v) All other benefits or allowances payable in terms of a letter of appointment, including any transportation allowance or company vehicle benefit, telephone and/or computer allowances, etc; and
 - (c) Amounts payable in terms of an Act, including:
 - (i) Contributions to the Compensation Fund in terms of the Compensation for Occupational Injuries and Diseases Act;
 - (ii) Contributions to unemployment insurance in terms of the Unemployment Insurance Fund Act;
 - (iii) Levies in terms of the Skills Development Levy Act, and
 - (iv) Recoverable levies to all spheres of government.

3.5 EXPENSES AND COSTS

- (1) Subject to clause 3.3(4) a **consulting engineer** shall recover from the **client**:
 - (a) All expenses actually incurred by the **consulting engineer** and members of the **consulting engineer's** staff in rendering their services; and
 - (b) All other costs incurred on behalf of and with approval of the **client**, plus a mark-up of 10 per cent.

(2) Recoverable expenses include:

- (a) Travelling expenses for the conveyance of the **consulting engineer** or a member of the **consulting engineer's** staff by means of:
 - (i) private motor transport, including any parking charges, toll fees and related expenses;
 - (ii) a scheduled airline or a train, bus, taxi or hired car; or
 - (iii) non-scheduled or privately owned air transport.
- (b) Travelling time on the basis of the rate set out in clause 3.4, for all time spent in travelling by the **consulting engineer** or members of his staff shall be as follows:
 - (i) when fees are paid on a time basis, all hours spent on travelling are reimbursable.
 - (ii) when fees are paid on a percentage basis, reimbursement for travelling time shall be for all time spent in travelling minus the first hour per return journey.
- (c) Accommodation and subsistence expenses incurred by the **consulting engineer** or a member of his staff;
- (d) Agreed costs of typing, production, copying and binding of contract documents, pre-qualification documents, feasibility reports, preliminary design reports, final reports and manuals, excluding general correspondence, minor reports, contractual reports, progress reports, etc.
- (e) Expenses on special reproductions, copying, printing, artwork, binding and photography, etc. requested by the **client**.
- (f) Alternatively, a lump sum or percentage of the **cost of the works** may be determined and agreed between the **consulting engineer** and the **client** to cater for all or any of the above.

(3) Costs that shall be recovered under clause 3.5(1)(b) include, but are not limited to:

- (a) Site traffic surveys;
 - (b) Geotechnical investigations;
 - (c) Laboratory testing;
 - (d) Topographical and land surveys;
 - (e) Supply of specific equipment;
 - (f) Specialist sub-consultants;
 - (g) Environmental investigations and studies; and
 - (h) Land acquisitions, expropriation, way leaves, servitudes.
-

BOARD NOTICE 43 OF 2004
Engineering Council of South Africa

Notification of

INDICATIVE TIME BASED FEE RATES

The Engineering Council of South Africa hereby makes it known that the Rates set out in the table below are the indicative time based fee rates referred to in Clause 3.4(3)(b) of the Guideline Scope of Services and Tariff of Fees Rules published under Notice 42 of 2 April 2004. This Notice supersedes Notice No. 19 of 28 February 2003.

Category of Staff	Indicative Rate
A	R 1 120.00 per hour
B	R 950.00 per hour
C	R 550.00 per hour
D	R 435.00 per hour

For ease of reference the definitions of Categories A to D, referred to in clause 3.4(2) of Notice ????? of 2 April 2004, are quoted below:

- (a) **Category A**, in respect of a private consulting practice in engineering, shall mean a top practitioner whose expertise and relevant experience is nationally or internationally recognized and who provides advice at a level of specialization where such advice is recognized as that of an expert.
- (b) **Category B**, in respect of a private consulting practice in engineering, shall mean a partner, a sole proprietor, a director, or a member who, jointly or severally with other partners, co-directors or co-members, bears the risks of the business, takes full responsibility for the liabilities of such practice, where level of expertise and relevant experience is commensurate with the position performs work of a conceptual nature in engineering design and development, provides strategic guidance in planning and executing a project and/or carries responsibility for quality management pertaining to a project.
- (c) **Category C**, in respect of a private consulting practice in engineering, shall mean all salaried professional staff with adequate expertise and relevant experience performing work of an engineering nature and who carry the direct technical responsibility for one or more specific activities related to a project. A person referred to in Category B may also fall in this category if such person performs work of an engineering nature at this level.
- (d) **Category D**, in respect of a private consulting practice in engineering, shall mean all other salaried technical staff with adequate expertise and relevant experience performing work of an engineering nature with direction and control provided by any person contemplated in categories A, B or C."
