STANDARDS ACT, 1993
STANDARDS MATTERS

In terms of the Standards Act, 1993 (Act 29 of 1993), the Council of the South African Bureau of Standards has acted in regard to standards in the manner set out in the Schedules to this notice.

All South African standards that were previously published by the South African Bureau of Standards with the prefix "SABS" have been redesignated as South African National Standards and are now published by Standards South Africa (a division of SABS) with the prefix "SANS".

A list of all existing South African National standards was published by Government Notice No. 1373 of 8 November 2002.

In the list of SANS standards below, the equivalent SABS numbers, where applicable, are given below the new SANS numbers for the sake of convenience. Standards that were published with the "SABS" prefix are listed as such.

SCHEDULE 1: ISSUE OF NEW STANDARDS

The standards mentioned have been issued in terms of section 16(3) of the Act.

Standard No. and year	Title, scope and purport

SANS 1036:2004/ ISO 36:1999	<i>Rubber, vulcanized or thermoplastic - Determination of adhesion to textile fabric.</i> Specifies a method of test for measuring the force required to separate, by stripping, two plies of fabric bonded with rubber, or a rubber layer and a fabric ply bonded together. The method is applicable when the ply surfaces are approximately plane or when they are in the form of a cylinder having an internal diameter greater than approximately 50 mm. The method is not applicable when the ply surfaces contain sharp bends, angles or other gross irregularities which cannot be excluded when cutting out test pieces.

NOTICE 830 OF 2004
INTERNATIONAL TRADE ADMINISTRATION COMMISSION OF
SOUTH AFRICA (THE COMMISSION)

**TERMINATION NOTICE OF THE INVESTIGATION INTO THE ALLEGED DUMPING
OF GLASS FIBRE ROVINGS ORIGINATING IN OR IMPORTED FROM THE
PEOPLE'S REPUBLIC OF CHINA AND CHINESE TAIPEI**

The International Trade Administration Commission (the Commission) received an application requesting an investigation into the alleged dumping of glass fibre chopped strand mats and rovings originating in or imported from the People's Republic of China (the PRC) and Chinese Taipei. The application was lodged on behalf of the Southern African Customs Union industry by Owens Corning SA Limited (Applicant), which claimed that the alleged dumped imports were causing it material injury.

On 14 November 2003, the Commission initiated the investigation into the alleged dumping of glass fibre chopped strand mats and rovings originating in or imported from the People's Republic of China (PRC) and Chinese Taipei in Government Gazette No. 25690, Notice No. 3285 of 2003.

On 23 February 2004, the Applicant informed the Commission that it had terminated production of glass fibre rovings, and therefore, requested the Commission to terminate the investigation in respect of only glass fibre rovings and to proceed with the investigation on glass fibre chopped strand mats.

On 10 March 2004, the Commission decided that since the glass fibre rovings plant had been shut down, there would not be sufficient reason to proceed with the investigation in respect of this product. The Commission, however, decided that the investigation into the alleged dumping of glass fibre chopped strand mats originating in or imported from the PRC and Chinese Taipei under tariff sub heading 7019.31 be proceeded with. The Commission recommended to the Minister of Trade and Industry (Minister) that the investigation into the alleged dumping of glass fibre rovings originating in or imported under tariff sub-heading 7019.12.90 from the PRC and

Chinese Taipei be terminated. The Minister accepted the recommendation and decided to terminate the investigation into the alleged dumping of glass fibre rovings originating in or imported from the PRC and Chinese Taipei.

Enquiries may be directed to the investigating officers, Mr J Heukelman at telephone (012) 428 7721, Mr J Boning at telephone (012) 428 7732 or Ms M Rakgole at telephone at telephone (012) 428 7733.

VOL.3 PART 2	Traffic Signal Equipment	
VOL.3 PART 3	Traffic Signal Management	
		<u>R 134.66</u>

Please note that Volume 1 Chapter 6 and Volume 4 Chapter 10 are included only for use with the South African Road Traffic Signs Manual Volume 3. They have NOT been approved by SATCC TU/SADC yet.

Contents:

Volume 1

of the Manual contains detailed signing policy and design principles. The text covering each sign, marking and signal starts with a statement regarding the meaning, or significance, of the device. These statements are essentially the same as those given in the harmonized model road traffic sign regulations, prepared at the same time as Volume 1. The content of Volume 1 provides an in depth description of the road traffic sign system and working detail on the use of each individual component of the system.

Volume 2

deals with the collective application of signs, markings, and signals for specific subject areas such as traffic accommodation at roadworks, tourism signing, public transport signing and signing for the control of heavy vehicles.

Volume 3

provides in depth detail on the selection, installation, operation and control methods for traffic signals.

Volume 4

gives complete dimensional details, together with accurate scalable drawings, of all signs, markings and signals, including details of all letter types used on direction signs.
