GENERAL NOTICES ALGEMENE KENNISGEWINGS

NOTICE 993 OF 2008

Safety in Mines Research Advisory Committee (SIMRAC) on behalf of the Mine Health and Safety Council (the Council)

Invitation to submit project proposals

SIMRAC, a permanent committee of the Mine Health and Safety Council, was established in terms of the Mine Health and Safety Act (29/1996) to conduct research and surveys regarding, and for the promotion of, health and safety in the South African mining industry. Suitably qualified agencies and/or persons are invited to submit proposals in response to the project specifications in this Notice. In soliciting research projects for the 2008/2009 research programme, the Council has the following goals:

- to indicate the current research needs for research to commence in the 2008/2009 cycle;
- to invite research proposals in response to these defined priority areas of research; and
- to invite applications for postgraduate funding[□] for research which will promote health and safety within the South African mining industry.

A consultative process has resulted in the Council formulating a co-ordinated, long-term health and safety research programme and identifying priority areas for research to commence in the 2008/2009 cycle. Researchers and agencies are invited to submit research proposals for the research projects indicated. Proposed research must be well designed with a detailed methods section, be ethical *and* must have the potential to add to existing knowledge, practice or technology, involve the end users and implement/transfer outputs. Research teams must have the specified skills.

Submission of Proposals

1. Proposals must be submitted in accordance with the prescribed format. Contact Cheryl Jones at telephone 011 358 9182, fax 011 403 1821, e-mail cjones@mhsc.org.za or visit the MHSC website www.mhsc.org.za to download the submission template. **PLEASE NOTE THAT THE NEW FORMAT NEEDS TO BE USED.**
2. Queries regarding the aims and objectives of the thrusts listed in this notice can contact the following persons:
Engineering and Machinery: Dragan Amidzic at damidzic@mhsc.org.za (011 358 9109)
Rock Engineering: Dragan Amidzic at damidzic@mhsc.org.za (011 358 9109)
Occupational Health: Audrey Banyini at abanyini@mhsc.org.za (011 358 9183)
SIMRAC Chairperson: Thabo Dube at Thabo.Dube@dme.org.za (012 317 8000)
Proposal Submission: Cheryl Jones at cjones@mhsc.org.za (011 358 9190)
3. Proposers are requested to take note of past work in the different thrust areas. (Details are available on website www.mhsc.org.za).

[□] Guidelines for the Council postgraduate research and Ethics Guidelines are obtainable from nwoods@mhsc.org.za

4. The closing time and date for the receipt of the proposals is **12:00 on Friday 19 September 2008**. Late entries will not be considered.
5. Two copies of each proposal, in a sealed envelope, in a form suitable for photocopying **plus** a disk or CD with the proposal in MS Word, should be deposited in the repository labelled "*Proposals*" at the Council's offices².
6. The Council may at its sole discretion, decide to recommend the acceptance, rejection or amendment of any proposal and to commission the team to develop the proposal on the basis of which the contract is awarded. The Council shall not furnish any reasons for its decisions regarding proposals.
7. Every proposal accepted by the Council would be subject to a set of Terms and Conditions, which on acceptance of the final detailed proposal will form part of the contract applicable to the project. All prospective proposers should peruse a set of the standard terms and conditions prior to submitting a proposal. A copy of the draft standard terms and conditions is available on the SIMRAC website www.mhsc.org.za.
8. **Charge-out rates have to be in accordance with the rates specified by the Science Council, ACSA and SACNAPS**
9. **Preference will be given to proposals that composes of a project team with HDI's.**
10. In compiling proposals, prospective proposers should provide details of methods, identifiable outputs and estimated costs as indicated.
11. The Council will endeavour to solicit the services of South African organisations to undertake projects, but will consider proposals from overseas-based organisations if expertise, cost considerations and local capacity building components compare favourably.
12. The Council requires full disclosure regarding all subcontracts included in the proposal.
13. The proposer and any of its affiliates shall be disqualified from providing other goods, works, or services under the project if, in the Council's judgment, such activities constitute a conflict of interest with the services provided under the assignment/project.
14. Where an output includes a device, mechanism, procedure, or system capable of being applied in the mining environment, a prospective proposer shall include in the proposal an output which suggests how the outputs in question might best be applied in practice. In drafting proposals, all prospective proposers should bear in mind the potential for technology transfer and phasing the project as indicated.
15. The period for which the proposals should be held valid is 150 days.
16. During this period the proposal must undertake to maintain, without change, the proposed key staff, and must hold to both the rates and total price proposed; in case of extension of the proposal validity period, it is the right of the proposer not to maintain their proposal
17. The anticipated commencement date of the projects is 1 April 2008.

², 2nd Floor, Braamfontein Centre, 23 Jorissen Street, Cnr. Bertha Street, Braamfontein

18. Each proposer have to submit a TAX Clearance Certificate with the proposal
19. A BEE Questionnaire has to be completed by each proposer. The questionnaire can be obtained from Madumetsa Thobakgale at mthobakgale@mhsc.org.za
20. Each successful proposer may, during the contract period or shortly after its completion, be required to provide:
- ☐ A competent spokesperson with appropriate materials to make not more than two separate presentations, on an annual basis for the duration of the project, and
 - ☐ A technical paper on the project for publication and/or a poster presentation, without additional remuneration or reimbursement of costs.
- These activities must be detailed and costed within the project.
14. Where relevant, proposers may obtain copies of earlier project reports and other information from the website address or from contacts listed (See paragraph 1 and 2).
15. Proposers are advised that all Council projects should be submitted to language editing and may be subjected to technical and financial audits. Funding for editing and audits should be included in the proposal budget.
16. Proposers should substantiate and cost separately, all proposed travel outside the borders of South Africa in connection with the project, and provide details of all expenses such as travelling and subsistence.
17. All proposed project costs must be expressed in South African Rands and the total price must be VAT inclusive. Fluctuations in the exchange rate and purchase of forward cover should be considered when costing the proposal.
18. The Council will take all reasonable steps to ensure that confidentiality of proposals is maintained during the adjudication process. If a proposal is not accepted within the programme, the Council may invite additional proposals on the topic.
19. No unsolicited proposals will be included in the programme for 2008/9.
20. The following three-stage evaluation procedure will be followed:
- a. A technical evaluation of the proposal that will consist of the following items and weight allocations:

1.	Capability and capacity of the project team	
1.1	Relevant formal qualifications	5
1.2	Knowledge of relevant OHS issues in mining industry	5
1.3	Experience in conducting research in this area	5
1.4	Balance of team composition and competencies	5
1.5	Resources and facilities available	5
1.6	Track record: quality, on-time and within budget	5
2.	Research design and methods	

2.1	Appropriate study design and proptocol	5
2.2	Representivity, sample, strategy and size	5
2.3	Technical methods (tests etc)	5
2.4	Intended analysis of results	5
2.5	Ethics, risks and limitations	5
3.	Research outputs	
3.1	Appropriate format	5
3.2	Usefulness	5
3.3	Potential impact	5
3.4	Technology transfer	5
	Total Score – Technical	75

b. A price evaluation that will be calculated as follows:

$$Ps = (Pmin/Pt) * Ap$$

Where

Ps = % scored for price by proposal being evaluated

Pmin = price of lowest bidder

Pt = price of proposal being evaluated

Ap = % allocated for price aspect of proposal (15%)

c. A preferential procurement purposes using the following criteria and weightings:

- The proposals will each be given a score out of 100 that will be converted to a score out of 10 for the SIMRAC evaluation process
- Commercial Entities will be evaluated against the following criteria and weightings:
 - Ownership - 20%
 - Management - 10%
 - Employment Equity & Skills development – 30%
 - Preferential Procurement – 30%
 - SMME Status – 10%
- National Institutions and Public Entities will be evaluated against the following criteria and weightings:
 - Ownership - 0%
 - Management - 30%
 - Employment Equity & Skills development – 40%
 - Preferential Procurement – 30%

The **objectives** of the Council in commissioning health and safety research, for both general and commodity-based projects, are to:

- Obtain and evaluate information to establish evidence-based risk assessment, standard setting and health and safety performance measurement;
- Develop techniques or guidelines to prevent, reduce, control or eliminate risks;

- Develop and pilot innovative ideas and procedures, where appropriate, to eliminate, reduce or control risk;
- Obtain information on the extent of work-related ill health;
- Identify, develop and improve sampling and measurement techniques to detect environmental hazards and assess personal exposure;
- Understand the aetiology and identify and evaluate best-practice screening, diagnostic and treatment interventions to reduce the impact of occupational disease;
- Evaluate the effectiveness of control interventions;
- Understand risk perception, attitudes and behaviour related to health and safety and promote best practices in hazard recognition and procedural conformance;
- Empower its statutory committees to formulate policy, expedite research aimed at improving the health and safety in the South African mining industry; and
- Collaborate with national and international initiatives and research to promote health and safety in the mining industry.

The **criteria** by which proposals will be evaluated include:

- **Added value and impact** – the Council supports research which can contribute significantly to the improvement in the health and safety of South African miners;
- **Value for money** – the Council supports cost-effective research;
- **Innovation** – the Council welcomes new approaches or new areas of focus for research leading to technologies or best practices to improve health and safety;
- **Excellence** – the Council demands excellence, particularly in the methods employed to conduct research, be it quantitative or qualitative, and hence will consider the track record of the proposer/s for expertise and delivery (quality, time and to budget);
- **Use and development of research skills** – the Council requires research teams to possess the skills relevant to the success of the project and also favours projects which assist in developing research capacity, particularly in previously disadvantaged groups;
- **Collaboration** – the Council places a high priority on collaboration between researchers and the “teams of excellence” approach. Thus, the means of soliciting research proposals is intended to stimulate collaboration between centres of excellence and individual experts in order to optimise the use of the Council funding and the research outcomes.
- **Development of key indicators** – the Council recognises the challenge in assessing performance and improvement in health, as opposed to safety, in the mining industry. There is a lack of suitable occupational health (OH) indicators and baseline data. Thus innovative and robust research to develop relevant OH indicators and baseline values will be favourably considered.

The Council's research and implementation programme consists of occupational health and safety, addresses occupational medicine and hygiene, rock engineering, engineering and machinery, behavioural issues and technology transfer processes.

Each proposal must:

- Address only the research topic advertised and this must be specified;
- Be in the format indicated and the template specified using Word format; and
- Be phased as indicated in the project scope.

Thrust 1

Title SIM 08 01 XX : An Investigation into elements of key areas of behavioural issues on occupational health and safety in the South African mining industry.

Phase 1 scope

- Identify elements of Occupational Health & Safety Behaviour (OHS), their meaning and their impact within different context.
- Identify systems of Occupational Health & Safety Behaviour (OHS) locally and internationally
- Explore and compare advantages and disadvantages of each system (e.g. what are the elements that improves leadership or culture behaviours conducive to Occupational Health & Safety Behaviour (OHS) including implementation.)
- Identify the gaps unique to the mining industry, and how these relate to the SA mining industry
- Identify, define and develop the Research agenda and programme on OHS behaviours for SA mining industry
- Produce scopes for the programme and
- Recommend a list of priority research topics and scopes for possible inclusion in the next new programme commencing 2010/11 cycle. The list should consider projects with maximum impact on human factors on their conclusion

Phase 2:

- Implementation of identified research programme from phase 1
- Develop behaviour changed methodology suitable for the SA mining industry environment

Motivation

The following were considered as motivation by HTAC for the scope and the outputs outlined. The South African mining industry is unique in its operations and the diversity of culture of employees and employers. Evaluative research of Behavioural Based Systems (BBS) and the majority of previous research done on BBS research concentrated on work environments that are conducive to workers systematically monitoring one another's safety related actions (peer review). The following factors were also considered as further key consideration in motivating this research:

- 1) Analysis of the SAMRASS statistics of 2007 shows that unsafe acts/human practice is a major cause of accidents.
- 2) Leading Indicators report (SIM 06 09 04A) concluded that over 90% of accidents are related to human practices.
- 3) The majority of research at MHSC has been focused on the technical aspects, which have now been exhausted and focus is now required to address "soft issues" related to working environment. One of these key areas identified is OHS Human behaviour
- 4) At the MHSC mini-indaba and the 5th MHSC biennial summit in 2007 a need with regards to human factors through a research programme under thrust 1 was emphasised.

Statement:

To date MHSC has focused on technical aspects of research; however this Project addresses the human OHS behaviour.

Primary Outputs**Phase 1**

Primary output document with the following chapters which are holistic:

- Identified elements of OHSC behaviour
- Identified systems local and internationally
- Compared local and international literature review and systems
- Identified gaps relevant to the South African mining industry
- Recommend an HTAC research programme
- List of research topics to be included in the HTAC research programme
- Scope for identified research topics

Phase 2

1. Implementation of identified research programme from phase 1

2. Develop behaviour changed methodology suitable for the SA mining industry environment**Scope**

- 1) International and local review of Literature and systems related to OHS in the mining industry.
 - Local documentation that require review are the leading indicator report, research from MHSC, scopes and the needs analysis workshops, individual mines and tertiary institutions
 - Local OHS behavioural systems in use
- 2) International Research
 - review international research in regard to OHS behavioural systems
 - review OHS behavioural systems done by international institutions such as the ILO, WHO, other countries and tertiary institutions
- 3) Literature review into behavioural and Culture Issues in the classification of Mining Accidents locally and internationally, taking into consideration USA and Australian practices
- 4) Define how the international systems compares with the local system with regard to OHS
 - a. Identify the gaps unique to the SA industry on areas related to OHS BEHAVIOURAL issues-
 - b. Identify key research areas and scopes with possible feasible outputs with research agenda on OHS behavioural issues in SA industry

Duration

Phase 1: 12 months from the commencement date.

Typical recipients of the Report

- Mine Health and Safety Council, its committees and stakeholders
- Occupational health and safety practitioners and representatives, employers, management and workers

Requirements for technology transfer

- A word document as stipulated by the MHSC research site including a CD with hyperlinks for easy reference
- Research programme for HTAC

Special skills and facilities required by project team

- Academic setting and non academic settings required
- Human Behavioural Scientist and Specialist
- Sociologist

NOTICE 994 OF 2008**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****INITIATION OF A SUNSET REVIEW OF THE ANTI-DUMPING DUTY ON COLOUR COATED PRODUCTS ORIGINATING IN OR IMPORTED FROM AUSTRALIA**

In accordance with the provisions in Article 11.3 of the World Trade Organisation Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade, any definitive anti-dumping duty shall be terminated on a date not later than five years from its imposition, unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry within a reasonable period of time prior to that date, that the expiry of the duty would likely lead to continuation or recurrence of dumping and injury.

On 25 January 2008, the Commission notified the SACU industry through Notice No. 122 in Government Gazette No. 30680, that unless a substantiated request is made by it indicating that the expiry of the anti-dumping duties on the subject product originating in or imported from Australia would likely lead to the continuation or recurrence of dumping and injury, the anti-dumping duties on the subject product originating in or imported from Australia will expire on 10 October 2008.

A response to the sunset review application questionnaire was received from the Southern African Customs Union (SACU) industry on 10 April 2008.

THE APPLICANT

The application was lodged by Arcelormittal South Africa Limited (the Applicant), being the major manufacturer of the subject product in the SACU. The Applicant alleges that the expiry of the duty would likely lead to the continuation or recurrence of dumping and injury.

The Applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that a sunset review investigation should be initiated.

THE PRODUCT

The subject product is described as flat rolled products of iron or non-alloy steel of a width of 600mm or more, painted, varnished or coated with plastics (excluding Zinalume not colour coated, but covered with resin) and flat rolled products of iron or non-alloy steel, of a width of less than 600mm, painted, varnished or coated with plastics, commonly known as Colourbond XRW (exterior walling and roofing), classifiable under tariff subheadings 7210.70 and 7212.40.

THE ALLEGATION OF THE CONTINUATION OR RECURRENCE OF DUMPING

The allegation of continuation or recurrence of dumping is based on the comparison between the normal value in and the export price from Australia. The normal value for Australia was constructed based on prices obtained from World Steel Dynamics - Financial Dynamics of International Steelmaker – Core Report RRR March 2006. Adjustments were made based on the Applicant's distribution costs of 2007 to determine the ex-factory Australian prices. The export price was determined based on the official import statistics obtained from the South African Revenue Service. On this basis, the Commission found that there was *prima facie* proof of the likely recurrence of dumping should the duties expire.

THE ALLEGATION OF THE RECURRENCE OF MATERIAL INJURY

The Applicant alleges and submitted sufficient evidence to show that there will be price undercutting and that the imports in question will be suppressing its selling price, should the anti-dumping duties expire. The Applicant's information indicated that it will experience a decline in sales volume, profit, output, market share and productivity, with a further increase in inventories, should the duties expire. On this basis the Commission found that there was *prima facie* proof of the likely recurrence of material injury.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the continuation or recurrence of dumping from Australia will be from 1 July 2007 to 30 June 2008. The period of investigation for purposes of determining continuation or recurrence of injury will be from 1 January 2003 to 31 December 2007.

An estimate of what the situation will be, should the anti-dumping duties expire, will also be considered by the Commission.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of a sunset review investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement) and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting country have also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and

- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representation, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representation, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously, will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representation on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*
- (e) actual sales volumes;*
- (f) individual sales prices;*
- (g) information, the release of which could have serious consequences for the person that provided such information; and*
- (h) information that would be of significant competitive advantage to a competitor;*

Provided that a party submitting such information indicates it to be confidential."

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting material injury must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

All responses, including non-confidential copies of the responses, should be received by the Senior Manager: Trade Remedies 1, not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by Embassies on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration.

The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure that when they engage consultants, they will be available at the requisite times, to ensure compliance with the above time frames.

Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of the Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. Failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only.

The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Enquiries may be directed to the investigating officers, Ms Mandie Wagner at telephone +27 12 394-3593, Mr Edwin Mkwana at +27 12 394-3742 and Mr Andre Zietsman at +27 12 394-3673.

NOTICE 995 OF 2008**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****ANTI-DUMPING DUTIES EXPIRING DURING 2009**

In accordance with the provisions in Article 53.1 of the Anti-Dumping Regulations, any definitive anti-dumping duty shall be terminated on a date not later than five years from the date of imposition, unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry, that the expiry of the duty would likely lead to continuation or recurrence of dumping and injury.

The International Trade Administration Commission (ITAC) hereby notifies all interested parties that, unless a duly substantiated request is made by or on behalf of the SACU industry, indicating that the expiry of the duty would likely lead to continuation or recurrence of dumping and injury, the following anti-dumping duties will expire during 2009:

	PRODUCT	COUNTRY	DATE OF IMPOSITION OF THE DUTY	DATE OF EXPIRY OF DUTY
1	Uncoated woodfree paper	Brazil, Poland	20/02/04	19/02/09
2	Float glass	China, India	05/11/04	04/11/09
3	Flat glass	China, India	05/11/04	04/11/09

PROCEDURAL FRAMEWORK

The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement) and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available from the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

Manufacturers in the Southern African Custom Union (SACU) of the subject products listed above, who wish to submit a request for the duty to be reviewed prior to the expiry thereof, are requested to do so within the time limit set out below. In instances where no reply is received from the SACU manufacturers within these time limits, the Commission will recommend the termination of the duties on the date of expiry.

SACU manufacturers, who do submit a request within the time limit set out below, are requested to submit duly substantiated information, indicating that the expiry of the duty would likely lead to continuation or recurrence of dumping and material injury, to the Commission, on or before the dates as specified below:

	PRODUCT	COUNTRY	DATE OF IMPOSITION OF THE DUTY	DATE OF SUBMISSION
1	Uncoated woodfree paper	Brazil, Poland	20/02/04	30/09/08
2	Float glass	China, India	05/11/04	04/05/09
3	Flat glass	China, India	05/11/04	04/05/09

The Commission will consider the information submitted in order to determine whether *prima facie* evidence exist to justify the initiation of a review. Should the Commission decide to initiate a review, notice will be given in the Government Gazette in terms of which other interested parties, being exporters and importers of the subject products, will be requested to comment and provide information.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- Where confidential information has been omitted and the nature of such information;
- Reasons for such confidentiality;

- A summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed in the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representation, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representation, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representation on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1) (a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*

- (e) actual sales volumes;*
- (f) individual sales prices;*
- (g) information, the release of which could have serious consequences for the person that provided such information; and*
- (h) information that would be of significant competitive advantage to a competitor;*

Provided that a party submitting such information indicates it to be confidential.”

ADDRESS

The requests by manufacturers in the SACU of the subject products, and the duly substantiated information indicating what the effect of the expiry of the duties will be, must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

Manufacturers in the SACU of the subject products listed above, who wish to submit a request for the duty to be reviewed prior to the expiry thereof, are requested to do so no later than close of business on **1 September 2008**.

SACU manufacturers, who do submit a request before **1 September 2008**, should submit duly substantiated information, indicating that the expiry of the duty would likely lead to continuation or recurrence of dumping and material injury, to the Commission.

It should be noted that the investigation process is complex and the Commission is subject to strict time limits within which to complete the investigation. Late submissions will therefore not be accepted, except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original period. Merely citing insufficient time is not an acceptable reason for extension.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. Failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Enquiries may be directed to the Senior Manager: Trade Remedies I, Ms Carina Janse van Vuuren, at telephone (012) 394-3594 or at fax (012) 394-0518.

NOTICE 996 OF 2008**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CUSTOMS TARIFF APPLICATION****LIST 12/2008**

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following applications concerning the Customs Tariff. Any objection to or comment on this representation should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, within six weeks of the date of this notice. Attention is drawn to the fact that the rate of duty mentioned in the application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>.

These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- ❑ Each instance where confidential information has been omitted and the reasons for confidentiality;*
- ❑ A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- ❑ In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

REASON FOR THE APPLICATION:

“As liquefied petroleum gas (LPG) cylinders are not manufactured in the SACU region and the duty applicable only increase the cost of gas to the consumer, ITAC has decided to publish the application for a reduction in the duty on liquefied petroleum gas cylinders classifiable under tariff subheading 7311.00.10, from 15% ad valorem to free of duty.”

2. REBATE OF THE DUTY ON:

“Liquid Crystal Display (LCD) panels classifiable in tariff subheading 8529.90.80 for the manufacture of video monitors incorporating an automatic data processing machine, classifiable in tariff subheading 8528.51”.

Applicant: Tedelex Trading (Pty) Ltd

Ref: 20/2008-Enquiries: Mr Dumisani Mbambo, Tel: 012 394 3743

Fax: 012 394 4743, E-Mail: dmbambo@itac.org.za

REASON FOR THE APPLICATION:

The applicant contended that these panels are not manufactured domestically and the expensive investments required to manufacture these display panels makes it highly impossible for domestic manufacturing. The low volumes and the small market are other factors for lack of investment in this kind of venture.

LIST 11/2008 WAS PUBLISHED UNDER NOTICE 915 OF 04 AUGUST 2008.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties. The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

1. REDUCTION IN THE RATE OF DUTY ON:

Containers for compressed or liquefied gas, of iron or steel of a welded construction, indelibly stamped that it has a water capacity of 1, 5 litres or more but not exceeding 150 litres, identifiable for use with liquefied petroleum gas classifiable under tariff subheading 7311.00.10, from 15% ad valorem to free of duty.

NOTICE 997 OF 2008**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****INVESTIGATION INTO THE ALLEGED DUMPING AND SUBSIDISATION OF STAINLESS STEEL SINKS ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA (PRC) AND MALAYSIA.****CORRECTION NOTICE**

The intention of this notice is to provide a more concise description of the alleged subsidy programmes in the People's Republic of China. This Notice serves as an amendment to Notice no. 907 of 2008 published in the government gazette on 25 July 2008. However it should be noted that this notice does not add or reduce the allegation of subsidisation previously indicated in Notice no 907 of 2008 published on 25 July 2008.

The International Trade Administration Commission of South Africa (the Commission) accepted an application alleging that stainless steel sinks originating in or imported from the People's Republic of China (PRC) and Malaysia are being subsidised and dumped on the Southern African Customs Union (SACU) market, causing material injury to the SACU industry concerned.

THE APPLICANT

The application was lodged by Franke Kitchen Systems (Pty) Ltd, being the major manufacturer of the SACU like product. The Applicant alleges that it cannot compete with the low prices charged by the importers of Chinese and Malaysian kitchen sinks and that the allegedly dumped and subsidised products are causing it material injury. The Applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, subsidies, material injury and causality.

THE PRODUCT

The product allegedly being dumped and subsidised is stainless steel kitchen sinks and the tariff classification is Tariff Heading 7324.10.

THE ALLEGATION OF DUMPING: PRC

The allegation of dumping is normally based on a comparison between the normal value and the export price in the country of origin. The Applicant alleged that market conditions with regard to the supply of stainless steel in the PRC are not according to free market principles. The stainless steel in the PRC is cheaper compared to that available on the international market. The Applicant alleges that as a result of this particular market situation in the PRC, the prices in that market do not permit a proper comparison. The normal value for the PRC was therefore based on the selling price of the product of a nominated third country i.e. Malaysia. The Applicant indicated that the stainless steel sink industries in Malaysia and the PRC are on the same level of development and the production processes for the manufacturing of stainless steel sinks in the PRC and Malaysia are the same.

The normal value for Malaysia was based on a price list of the subject product in Malaysia. The export price was determined based on the official import statistics obtained from the South African Revenue Service. On this basis, the Commission found that there is *prima facie* evidence of dumping.

THE ALLEGATION OF DUMPING: MALAYSIA

The allegation of dumping is based on a comparison between the normal value and the export price from Malaysia.

The normal value for Malaysia was based on a price list indicating the domestic selling price to the wholesalers of the subject product in Malaysia. The export price was determined based on the official import statistics obtained from the South African Revenue Service. On this basis, the Commission found that there is *prima facie* evidence of dumping

THE ALLEGATION OF SUBSIDISATION: PRC

The Applicant alleges that the manufacturers of the subject products in the PRC benefit from the following potential subsidy programs in the following categories:

a) Special Economic Zone (SEZ) incentives which are alleged to be:

- Preferential tax policies for enterprises with foreign investment established in special economic zones (excluding Shanghai Pudong area);
- Preferential tax policies for enterprises with foreign investment established in the coastal economic open areas and in the economic and technological development zones;
- Preferential tax policies for enterprises with foreign investment established in Pudong area of Shanghai;
- Preferential tax policies for enterprises with foreign investment established in the Three Gorges of Yangtze River Economic Zone;
- Preferential tax policies in the Western regions;
- Tariff exemptions on imported materials;
- Reduction of corporate income tax;
- Exemption/Reduction in Local Income tax for SEZ Enterprises; and
- Income Tax Refund of Amounts Further Invested in SEZs.

b) Grants provided for export performance and employing common workers which are alleged to be in the form of:

- Preferential tax policies for enterprises which provide employment for unemployed people.

c) Preferential loans

- The loans are alleged to be available to enterprises in the People's Republic of China at preferential interest rates and financing terms directly through the government or indirectly via financial institutions in the People's Republic of China.

d) Loan guarantees

- The loan guarantees are alleged to be made available to enterprises in the People's Republic of China directly by the government or indirectly via the financial institutions.

e) Grants are alleged to be available to enterprises in the PRC are the following

- Development funds for SMEs;
- Fund for international market exploration by SMEs;
- Grants from Development Zone Management Committees Under the Authority of Town Governments; and
- Grants Provided to Companies Newly Established in the Pudong New Area of Shanghai;

f) Preferential Income Tax Programs

The following preferential tax programs are alleged to be available to enterprises in the People's Republic of China.

- Preferential Tax Policies for Foreign-Invested Enterprises;
- Preferential Tax Policies for Foreign-Invested Export Enterprises;
- Preferential tax policies for enterprises with foreign investment which are technology intensive and knowledge-intensive;
- Preferential tax policies for enterprises with foreign investment recognized as high or new technology enterprises established in the State's high or new technology industrial development zones, and for advanced technology enterprises invested in and operated by foreign businesses;
- Preferential tax policies for enterprises recognized as high or new technology enterprises established in the State high or new technology industrial development zones;
- Preferential tax policies for township enterprises;
- Preferential tax policies for the research and development of foreign invested enterprises;
- Preferential tax policies for foreign invested enterprises and foreign enterprises which have establishments or locations in China and are engaged in production or business operations purchasing domestically produced equipments; and
- Preferential tax policies for domestic enterprises purchasing domestically produced equipments for technology upgrading purposes.

g) Relief from duties and taxes on materials and machinery are alleged to be

- Exemption of tariff and import VAT for the imported technologies and equipment;
- Preferential tax treatment for casting and forging products;
- Preferential tax treatment for dies products; and
- Preferential tax treatment for numerically controlled machine tool products.

h) Reduction in land use fees;

- There is an allegation that the government of the PRC may be reducing land use fees to enterprises in the PRC.

i) Purchase of Goods from state-owned enterprises**Existence of a subsidy**

In terms of Countervailing Regulation 8.1(ii), the abovementioned programmes constitute a subsidy, as government revenue that is otherwise due is foregone or not collected.

Countervailability of subsidy

The Applicant believes that the subsidies are limited to a group of enterprises, and are therefore countervailable.

Amount of subsidy

The applicant estimated that if a company makes use of all the subsidies, the overall margin of subsidization could be 47.72%.

THE ALLEGATION OF SUBSIDISATION: MALAYSIA

The Applicant indicated that the manufacturers of the subject products in Malaysia benefit from the following subsidy programmes:

- Pioneer status;
- Import duty exemption and sales tax exemptions;
- Export credit refinancing program;
- Industrial building allowance; and
- Double deduction for the promotion of exports and Investment Tax Allowance

Existence of a subsidy

In terms of Countervailing Regulation 8.1(ii), the abovementioned programmes constitute a subsidy, as government revenue that is otherwise due is foregone or not collected.

Countervailability of subsidy

According to information submitted, the benefits provided by the Malaysian government are alleged to be contingent upon export performance or limited to specific companies and therefore specific and countervailable.

Amount of subsidy

The Applicant estimated that if a company makes use of all the subsidies, the overall margin of subsidization could be 35%.

THE ALLEGATION OF MATERIAL INJURY

The Applicant alleges and submitted sufficient evidence to show that there is price undercutting and that the imports in question are suppressing its selling prices. The Applicant's information indicated a decline in sales volumes, profit margins, output, market share, productivity, and return on investment, utilisation of capacity, cash flow, increased inventories and inability to grow. It was also evident that the decrease in market share has been at the expense of a corresponding increase in the market share of the allegedly dumped and subsidised goods from the PRC and Malaysia. On this basis, the Commission found that there was *prima facie evidence* of material injury and causal link.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the dumping margins and subsidy margins in the respective exporting countries of origin is from 1 January 2007 to 31 December 2007. The period of investigation for purposes of determining injury is from 1 January 2005 to 31 December 2007. If there are subsequent events that are relevant to injury, the Commission may later request and consider further, more recent information.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement), Agreement on Subsidies and Countervailing Measures (SCM Agreement), the International Trade Administration Commission Countervailing Regulations (Countervailing Regulations) and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). The ITA Act, Countervailing Regulations and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting countries have also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and

- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously, will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*
- (e) actual sales volumes;*

(f) individual sales prices;

(g) information, the release of which could have serious consequences for the person that provided such information; and

(h) information that would be of significant competitive advantage to a competitor;

Provided that a party submitting such information indicates it to be confidential."

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping, subsidisation and the resulting material injury must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

All responses, including non-confidential copies of the responses, should be received by the Senior Manager: Trade Remedies II not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for extension.

Please note that the Commission will not consider requests for extension by Embassies on behalf of exporters.

The information submitted by any party may need to be verified by the investigating officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of the Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Sections 5 of the ADR and the Countervailing Regulations, provided that the party indicates reasons for not relying on the written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Enquiries may be directed to the investigating officers Thuli Nkomo at +27 12 394-3631, Jeffrey Maphagela +27 12 394 3639, Greg Kuhn +27 12 394 3636, or Fax +27 12 394 0518.
