IMPORTANT ANNOUNCEMENT

Closing times **(PRIOR TO PUBLIC HOLIDAYS)** for GOVERNMENT NOTICES, GENERAL NOTICES, REGULATION NOTICES AND PROCLAMATIONS

2010

The closing time is **15:00** sharp on the following days:

- ▷ **10 June**, Thursday, for the issue of Friday **18 June 2010**
- ▷ **5 August**, Thursday, for the issue of Friday **13 August 2010**
- ▷ **16 September**, Thursday, for the issue of Thursday **23 September 2010**
- ▷ **23 September**, Thursday, for the issue of Friday **1 October 2010**
- ▷ **9 December**, Thursday, for the issue of Friday **17 December 2010**
- ▷ **15 December**, Wednesday, for the issue of Friday **24 December 2010**
- ▷ **21 December**, Tuesday, for the issue of Friday **31 December 2010**
- ▷ **30 December**, Thursday, for the issue of Friday **7 January 2011**

Late notices will be published in the subsequent issue, if under special circumstances, a late notice is accepted, a double tariff will be charged

The copy for a SEPARATE Government Gazette must be handed in not later than three calendar weeks before date of publication

BELANGRIKE AANKONDIGING

Sluitingstye **(VOOR VAKANSIEDAE)** vir GOEWERMENTS-, ALGEMENE- & REGULASIE- KENNISGEWINGS ASOOK PROKLAMASIES

2010

Die sluitingstyd is stiptelik **15:00** op die volgende dae:

- ▷ **10 Junie**, Donderdag, vir die uitgawe van Vrydag **18 Junie 2010**
- ▷ **5 Augustus**, Donderdag, vir die uitgawe van Vrydag **13 Augustus 2010**
- ▷ **16 September**, Donderdag, vir die uitgawe van Donderdag **23 September 2010**
- ▷ **23 September**, Donderdag, vir die uitgawe van Vrydag **1 Oktober 2010**
- ▷ **9 Desember**, Donderdag, vir die uitgawe van Vrydag **17 Desember 2010**
- ▷ **15 Desember**, Woensdag, vir die uitgawe van Vrydag **24 Desember 2010**
- ▷ **21 Desember**, Dinsdag, vir die uitgawe van Vrydag **31 Desember 2010**
- ▷ **30 Desember**, Donderdag, vir die uitgawe van Vrydag **7 Januarie 2011**

Laat kennisgewings sal in die daaropvolgende uitgawe geplaas word. Indien 'n laat kennisgewing wel, onder spesiale omstandighede, aanvaar word, sal 'n dubbeltarief gehef word

Wanneer 'n APARTE Staatskoerant verlang word moet die kopie drie kalenderweke voor publikasie ingedien word

GOVERNMENT NOTICES GOEWERMENTSKENNISGEWINGS

DEPARTMENT OF MINERAL RESOURCES DEPARTEMENT VAN MINERALE BRONNE

No. 344

7 May 2010

MINES AND WORKS ACT, 1956 ACT No 27 OF 1956

DECLARATION OF WORK IN THE NATIONAL INTEREST

Under Section 9(1)f) of the Mines and Works Act, 1956 (Act No 27 of 1956), I, Ms S Shabangu, Minister of Mineral resources, hereby declare that, in my opinion, the performance on Sundays work, details of which appear in the schedule hereto, at the mine known as Assmang Chrome Dwarsrivier Mine in the district of Steelpoort, is necessary in the National interest for a period of thirty-six months ending 02 December 2012.

Ms S SHABANGU

MINISTER OF MINERAL RESOURCES

**SOUTH AFRICAN QUALIFICATIONS AUTHORITY
SUID-AFRIKAANSE KWALIFIKASIE-OWERHEID**

No. 346

7 May 2010

**Announcement of Intention to Extend the Accreditation of the Chemical Industries
Education and Training Authority (CHIETA)**

The South African Qualifications Authority (SAQA) hereby notifies the public that it intends to extend the accreditation of the **Chemical Industries Education and Training Authority (CHIETA)** to include the Qualification listed below which is registered on the National Qualifications Framework.

No	Qualification Title	NQF Level	NLRD ID Number
1.	Certificate: Oil and Gas: Process Maintenance	Level 5	65899

The accreditation will be effective for the duration of the Accreditation of the **Chemical Industries Education and Training Authority (CHIETA)** in terms of Section 2 (1) of the Education and Training Quality Assurance Regulations (SAQA Act No. 58 of 1995).

Objections to the extension of accreditation must be lodged with the Executive Officer of SAQA by the 05 June 2010.

No. 347

7 May 2010

**STANDARDS ACT, 2008
STANDARDS MATTERS**

In terms of the Standards Act, 2008 (Act No. 8 of 2008), the Council of the South African Bureau of Standards has acted in regard to standards in the manner set out in the Schedules to this notice.

All South African standards that were previously published by the South African Bureau of Standards with the prefix "SABS" have been redesignated as South African national standards and are now published by Standards South Africa (a division of SABS) with the prefix "SANS".

A list of all existing South African national standards was published by Government Notice No. 1373 of 8 November 2002.

In the list of SANS standards below, the equivalent SABS numbers, where applicable, are given below the new SANS numbers for the sake of convenience. Standards that were published with the "SABS" prefix are listed as such.

SCHEDULE 1: ISSUE OF NEW STANDARDS

The standards mentioned have been issued in terms of section 16(3) of the Act.

Standard No. and year	Title, scope and purport
SANS 2531:2010/ ISO 2531:2009	<i>Ductile iron pipes, fittings, accessories and their joints for water applications.</i> Specifies the requirements and test methods applicable to ductile iron pipes, fittings, accessories and their joints for the construction of pipelines.
SANS 7005-1:2010/ ISO 7005-1:1988	<i>Metallic flanges – Part 1: Steel flanges.</i> Specifies requirements for circular steel flanges.
SANS 7005-2:2010/ ISO 7005-2:1988	<i>Metallic flanges – Part 2: Cast iron flanges.</i> Specifies requirements for circular grey, malleable and ductile cast iron flanges.
SANS 7483:2010/ ISO 7482:1991	<i>Dimensions of gaskets for use with flanges to ISO 7005.</i> Specifies the dimensions of gaskets for use in conjunction with flanges.
SANS 8179-1:2010/ ISO 8179-1:2004	<i>Ductile iron pipes – External zinc-based coating – Part 1: Metallic zinc with finishing layer.</i> Deals with an external protective coating system which is factory applied to centrifugally cast ductile iron pipes.
SANS 8179-2:2010/ ISO 8179-2:1995	<i>Ductile iron pipes – External zinc coating – Part 2: Zinc rich paint with finishing layer.</i> Deals with a factory-applied protective external coating system for centrifugally cast ductile iron pipes.
SANS 8180:2010/ ISO 8180:2006	<i>Ductile iron pipelines – Polyethylene sleeving for site application.</i> Specifies the characteristics of polyethylene film, commonly called sleeving, used as additional protection against corrosion for ductile iron pipelines, particularly when laid in aggressive soil conditions.
SANS 9349:2010/ ISO 9349:2004	<i>Preinsulated ductile iron pipeline systems.</i> Specifies the requirements and test methods applicable to preinsulated ductile iron pipes, fittings, accessories and their joints for the construction of pipelines.
SANS 10802:2010/ ISO 10802:1992	<i>Ductile iron pipelines – Hydrostatic testing after installation.</i> Specifies site hydrostatic acceptance tests for installed pressure and non-pressure ductile iron pipelines used for conveying water and other liquids. It does not cover pipelines for gas.
SANS 10803:2010/ ISO 10803:1999	<i>Design method for ductile iron pipes.</i> Covers the design of ductile iron pipes used for conveying water, sewage and other fluids.
SANS 10804-1:2010/ ISO 10804-1:1996	<i>Restrained joint systems for ductile iron pipelines – Part 1: Design rules and type testing.</i> Specifies design rules for restrained joint systems to be used on ductile pipelines.
SANS 11064-1:2010/ ISO 11064-1:2000	<i>Ergonomic design of control centres – Part 1: Principles for the design of control centres.</i> Specifies ergonomic principles, recommendations and requirements to be applied in the design of control centres, as well as in the expansion, refurbishment and technological upgrades of control centres. Covers all types of control centres typically employed for process industries, transportation and logistic control systems and people deployment services.
SANS 16132:2010/ ISO 16132:2004	<i>Ductile iron pipes and fittings – Seal coats for cement mortar linings.</i> Specifies the requirements for seal coatings for factory application to the surfaces of cement mortar linings, which are factory applied to the interior of ductile iron pipes and fittings.
SANS 16269-7:2010/ ISO 16269-7:2001	<i>Statistical interpretation of data – Part 7: Median – Estimation and confidence intervals.</i> Specifies the procedures for establishing a point estimate and confidence intervals for the median of any continuous probability distribution of a population, based on a random sample size from the population.
SANS 16269-8:2010/ ISO 16269-8:2004	<i>Statistical interpretation of data – Part 8: Determination of prediction intervals.</i> Specifies methods of determining prediction intervals for a single continuously distributed variable.
SANS 16818:2010/ ISO 16818:2008	<i>Building environment design – Energy efficiency – Terminology.</i> Gives terms and definitions for use in the design of energy-efficient buildings. Applies to new buildings and retrofitted buildings.
SANS 17043:2010/ IEC 17043:2010	<i>Conformity assessment – General requirements for proficiency testing.</i> Specifies general requirements for the competence of providers of proficiency testing schemes and for the development and operation of proficiency testing schemes. These requirements are intended to be general for all types of proficiency testing schemes, and they can be used as a basis for specific technical requirements for particular fields of application.

Standard No. and year	Title, scope and purport
SANS 19757-2:2010/ ISO/IEC 19757-2:2008	<i>Information technology – Document Schema Definition Language (DSDL) – Part 2: Regular-grammar-based validation – RELAX NG.</i> Specifies RELAX NG, a schema language for XML, which specifies a pattern for the structure and content of an XML document.
SANS 19757-3:2010/ ISO/IEC 19757-3:2006	<i>Information technology – Document Schema Definition Languages (DSDL) – Part 3: Rule-based validation – Schematron.</i> Specifies Schematron, a rules-based schema language for XML. Establishes requirements for Schematron schemas and specifies when an XML document matches the patterns specified by a Schematron schema.
SANS 19757-4:2010/ ISO/IEC 19757-4:2006	<i>Information technology – Document Schema Definition Languages (DSDL) – Part 4: Namespace-based Validation Dispatching Language (NVDL).</i> Specifies a Namespace-based Validation Dispatching Language (NVDL). An NVDL script controls the dispatching of elements or attributes in a given XML document to different validators, depending on the namespaces of the elements or attributes.
SANS 22971:2010/ ISO/TR 22971:2005	<i>Accuracy (trueness and precision) of measurement methods and results – Practical guidance for the use of ISO 5725-2:1994 in designing, implementing and statistically analysing interlaboratory repeatability and reproducibility results.</i> Provides users with practical guidance to the use of ISO 5725-2:1994 (published in South Africa as an identical adoption under the designation SANS 5725-2) and presents simplified step-by-step procedures for the design, implementation, and statistical analysis of inter-laboratory studies for assessing the variability of a standard measurement method and on the determination of repeatability and reproducibility of data obtained in inter-laboratory testing.
SATR 26122:2010/ ISO/TR 26122:2008	<i>Information and documentation – Work process analysis for records.</i> Provides guidance on work process analysis from the perspective of the creation, capture and control of records. Identifies two types of analyses, namely functional analysis (decomposition of functions into processes), and sequential analysis (investigation of the flow of transactions). Each analysis entails a preliminary review of context (i.e. mandate and regulatory environment) appropriate for the analysis. The components of the analysis can be undertaken in various combinations and in a different order from that described here, depending on the nature of the task, the scale of the project, and the purpose of the analysis. Includes guidance in the form of lists of questions/matters to be considered under each element of the analysis.
SANS 29901:2010/ ISO/TR 29901:2007	<i>Selected illustrations of full factorial experiments with four factors.</i> Describes the steps necessary to specify, to use and to analyse full factorial designs through illustration, with five distinct applications of this methodology. Depending on the application, a number of factors other than four may be considered in the experiment.
SANS 53015:2010/ EN 13015:2001	<i>Maintenance for lifts and escalators – Rules for maintenance instructions.</i> Specifies the elements necessary for the preparation of the instructions for the maintenance operations, which are provided for new installed passenger lifts, goods passenger lifts, accessible goods only lifts, service lifts, escalators and passenger conveyors. Does not cover instructions for the installation, dismantling, any legal examinations and tests based on national regulations.
SANS 60839-2-3:2010/ IEC 60839-2-3:1987	<i>Alarm systems – Part 2: Requirements for intruder alarm systems – Section Three: Requirements for infrared-beam interruption detectors in buildings.</i> Specifies the specific requirements and test procedures for infrared-beam interruption detectors to be used in intruder alarm systems installed in buildings.
SANS 60839-2-4:2010/ IEC 60839-2-4:1990	<i>Alarm systems – Part 2: Requirements for intruder alarm systems – Section 4: Ultrasonic Doppler detectors for use in buildings.</i> Gives the specific requirements and test procedures for ultrasonic Doppler detectors for use in intruder alarm systems installed in buildings.
SANS 60839-2-5:2010/ IEC 60839-2-5:1990	<i>Alarm systems – Part 2: Requirements for intruder alarm systems – Section 5: Microwave Doppler detectors for use in buildings.</i> Gives the specific requirements and test procedures for microwave Doppler detectors for use in intruder alarm systems installed in buildings.
SANS 60839-2-6:2010/ IEC 60839-2-6:1990	<i>Alarm systems – Part 2: Requirements for intruder alarm systems – Section 6: Passive infra-red detectors for use in buildings.</i> Gives the specific requirements and test procedures for passive infra-red detectors for use in intruder alarm systems installed in buildings.
SANS 60969:2010/ IEC 60969:2001	<i>Self-ballasted lamps for general lighting services – Performance requirements.</i> Specifies the performance requirements together with the test methods and conditions required to show compliance of tubular fluorescent and other gas-discharge lamps with integrated means for controlling starting and stable operation (self-ballasted lamps) intended for domestic and similar general lighting purposes having a rated wattage up to 60 W, a rated voltage of 100 V to 250 V, and Edison screw or bayonet caps.

SCHEDULE 2: AMENDMENT OF EXISTING STANDARDS

The standards mentioned have been amended in terms of section 16(3) of the Act. The number and date of a standard that has been superseded appear in brackets below the new number. In the case of an amendment issued in consolidated format, the edition number of the new (consolidated) edition appears in brackets below the number of the standard.

Standard No. and year	Title, scope and purport
SANS 105-J03:2010/ ISO 105-J03:2009	<i>Textiles – Tests for colour fastness – Part J03: Calculation of colour differences.</i> Provides a method of calculating the colour difference between two specimens of the same material, measured under the same conditions. Also provides a means for establishing the ratio of differences in lightness to chroma and to hue.
SANS 285:2010 (Ed. 3.1)	<i>Calcium silicate masonry units. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation from SABS to SANS, to update referenced standards and the definition of "acceptable", and to delete reference to the certification mark from the text.
SANS 347:2010 (Ed. 1.1)	<i>Categorization and conformity assessment criteria for all pressure equipment. Consolidated edition incorporating amendment No. 1.</i> Amended to expand the scope, update definitions of "assembly" and "unstable gas", update a normative reference, add the abbreviation of "test pressure", modify tables 1, C.2 and C.3, update figures 1 to 10, change requirements for determining hazard categories, add a requirement for product quality assurance for module E2, insert a note, update annex A and replace "AIA" with "certification body" where applicable.

Standard No. and year	Title, scope and purport
SANS 446:2010 (Ed. 4.1)	<i>Absorbent gauze (fabric and swabs) and butter muslin. Consolidated edition incorporating amendment No. 1.</i> Amended to update a referenced standard.
SANS 642:2010 (Ed. 1.2)	<i>Reconstituted flexible polyurethane foams. Consolidated edition incorporating amendment No. 2.</i> Amended to update referenced standards, to add definitions for "acceptable", "block" and "polyurethane foam", to delete the requirements for packing and for compliance, and to modify the requirements for sampling, inspection and methods of test.
SANS 1043:2010 (SABS 1043:1985)	<i>The manufacture of sanitary towels.</i> Covers the manufacturing and performance requirements for four types of sanitary towels for external use.
SANS 1223:2010 (Ed. 2.2)	<i>Fibre-cement pressure pipes and couplings. Consolidated edition incorporating amendment No. 2.</i> Amended to update referenced standards, to modify the recommended design specifications of fibre-cement pipes and couplings of diameter exceeding 1 000 mm and to remove reference to the certification mark.
SANS 1241:2010 (Ed. 2.1)	<i>Aluminium sulfate for general purposes. Consolidated edition incorporating amendment No. 1.</i> Amended to update a referenced standard.
SANS 1372:2010 (Ed. 1.3)	<i>Prefabricated concrete components for fences. Consolidated edition incorporating amendment No. 3.</i> Amended to change the designation of SABS standards to SANS standards, to remove reference to the standardization mark scheme, to update the definition of "acceptable" and to update referenced standards. 3.
SANS 5201:2010 (Ed. 3.2)	<i>Water – Cadmium content. Consolidated edition incorporating amendment No. 2.</i> Amended to update referenced standards.
SANS 5203:2010 (Ed. 3.2)	<i>Water – Copper content. Consolidated edition incorporating amendment No. 2.</i> Amended to update referenced standards.
SANS 5207:2010 (Ed. 3.2)	<i>Water – Iron content. Consolidated edition incorporating amendment No. 2.</i> Amended to update referenced standards.
SANS 5208:2010 (Ed. 3.2)	<i>Water – Lead content. Consolidated edition incorporating amendment No. 2.</i> Amended to update referenced standards.
SANS 5209:2010 (Ed. 3.2)	<i>Water – Manganese content. Consolidated edition incorporating amendment No. 2.</i> Amended to update referenced standards.
SANS 5748:2010 (Ed. 2.1)	<i>Specific surface of cement. Consolidated edition incorporating amendment No. 1.</i> Amended to delete a withdrawn standard.
SANS 10105-1:2010 (Ed. 3.1)	<i>The use and control of fire-fighting equipment – Part 1: Portable and wheeled (mobile) fire extinguishers. Consolidated edition incorporating amendment No. 1.</i> Amended to update the requirements for site inspection, and to add a table for the evaluation of fire classes.
SANS 10105-2:2010 (Ed. 3.1)	<i>The use and control of fire-fighting equipment – Part 2: Fire hose reels and above-ground hydrants. Consolidated edition incorporating amendment No. 1.</i> Amended to change the title and to replace a type of hydrant.
SANS 10313:2010 (Ed. 3.1)	<i>Protection against lightning – Physical damage to structures and life hazard. NOTICE 368 OF 2010**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CUSTOMS TARIFF APPLICATIONS****LIST 03/2010**

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following application concerning the Customs Tariff. Any objection to or comments on this representation should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, **within 4 weeks** of the date of this notice. Attention is drawn to the fact that the rate of duty mentioned in this application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>. These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- ☐ *Each instance where confidential information has been omitted and the reasons for confidentiality;*
- ☐ *A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- ☐ *In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

REDUCTION OF CUSTOMS DUTY ON:

"Pistons, whether or not fitted with gudgeon pins, pistons rings or cylinder liners or sleeves, for motor vehicle engines classifiable under tariff subheading 8409.91.27"

APPLICANT:

Masterparts (Pty) Ltd
24 Warrington Road
Kenilworth
CAPE TOWN
7702

Ref. ITAC: 41/2009, Enquiries: Mr Sipho Tshabalala; Tel: 012 394 3739, Fax: 012 394 4627, E-mail: Stshabalala@itac.org.za

REASON FOR THE APPLICATION:

There is no local manufacturer of pistons for vehicle engines within the SACU.

LIST 02/2010 WAS PUBLISHED UNDER NOTICE 153 OF 26 FEBRUARY 2010.

NOTICE 369 OF 2010
INTERNATIONAL TRADE ADMINISTRATION COMMISSION
IMMINENT LAPSE OF ANTI-DUMPING DUTIES

In accordance with the provisions in Article 53.1 of the Anti-Dumping Regulations, any definitive anti-dumping duty shall be terminated on a date not later than five years from the date of imposition, unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry, that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and injury.

The International Trade Administration Commission (ITAC) hereby notifies all interested parties that, unless a duly substantiated request is made by or on behalf of the SACU industry, indicating that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and injury, the anti-dumping duties indicated in the table below, will expire during 2011. SACU manufacturers, who do submit a request within the time limit set out below, are requested to submit duly substantiated information, indicating that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and material injury, to the Commission, on the dates as specified below:

TARIFF HEADING	PRODUCT	COUNTRY	DATE OF IMPOSITION OF THE DUTY	DATE OF EXPIRY OF DUTY	DATE OF SUBMISSION
0207.14	Chicken meat portions	United States of America (USA)	27/10/06	26/10/11	21/04/11
28.03	Carbon Black	Thailand	25/10/06	24/10/11	21/04/11
4810.92	Paperboard	Korea	22/12/06	21/12/11	21/06/11
7005.29	Drawn and Float Glass	Indonesia	03/10/06	02/10/11	01/04/11

PROCEDURAL FRAMEWORK

The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement) and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available from the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

Manufacturers in the Southern African Customs Union (SACU) of the subject products listed above, who wish to submit a request for the duty to be reviewed prior to the expiry thereof, are requested to do so within the time limit set out below. In the instances where no replies are received from the SACU manufacturers within these time limits, the Commission will recommend the termination of the duties on the date of expiry.

The Commission will consider the information submitted in order to determine whether *prima facie* evidence exist to justify the initiation of a review. Should the Commission decide to initiate a review, notice will be given in the Government Gazette and other parties, being exporters and importers of the subject products, will be requested to comment and provide information.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- Where confidential information has been omitted and the nature of such information;
- Reasons for such confidentiality;

- A summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*

- (e) *actual sales volumes;*
- (f) *individual sales prices;*
- (g) *information, the release of which could have serious consequences for the person that provided such information; and*
- (h) *information that would be of significant competitive advantage to a competitor;*

Provided that a party submitting such information indicates it to be confidential."

ADDRESS

The requests by manufacturers in the SACU of the subject products, and the duly substantiated information indicating what the effect of the expiry of the duties will be, must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

Manufacturers in the SACU of the subject products listed above, who wish to submit a request for the duty to be reviewed prior to the expiry thereof, are requested to do so not later than close of business on **30 June 2010**.

SACU manufacturers, who do submit a request before **30 June 2010**, should submit duly substantiated information, indicating that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and material injury, to the Commission.

It should be noted that the investigation process is complex and the Commission is subject to strict time limits within which to complete the investigation. Late submissions will therefore not be accepted, except with the prior written consent of the Commission.

The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original period. Merely citing insufficient time is not an acceptable reason for extension.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Enquiries may be directed to the Senior Manager: Trade Remedies I, Ms Carina Janse van Vuuren, at telephone (012) 394-3594 or at fax (012) 394-0518.
