NOTICE 231 OF 2011

DEPARTMENT OF RURAL DEVELOPMENT AND LAND REFORM

I, Mdu Shabane, Director-General of Rural Development and Land Reform, in terms of section 8 of the Land Survey Act, 1997 (Act No 8 of 1997), hereby prescribe the fees set out in the Annexure, as the fees which shall be charged for the products or services provided by the Office of the Chief Director of Surveys and Mapping. The Office of the Chief Director of Surveys and Mapping is hereafter referred to in the Annexure as the Office of the Chief Director of National Geo-spatial Information in terms of the new Departmental structure approved for the Department of Rural Development and Land Reform. The fees shall be payable on and after **21 April 2011** and shall replace the scale of fees promulgated by Notice No. 1224 of 2009 in Government gazette No. 32554 dated 11 September 2009, which is hereby repealed.

ANNEXURE

**SCALE OF FEES TO BE CHARGED IN THE OFFICE OF THE
CHIEF DIRECTOR OF NATIONAL GEO-SPATIAL INFORMATION**

2011/2012

Promotion of Access to information Act 2 of 2000

In terms of section 15(1) of the Promotion of Access to Information Act 2 of 2000, these standard products and services are available free of charge and only the direct costs of copy and supply such as transfer medium, printing, paper, ink, postage and packaging are recovered.

Products can be ordered via:

URL: <http://www.ngi.gov.za>

E-mail: Sales@ruraldevelopment.gov.za Fax 021 – 686 9884

Private Bag X10, Mowbray, 7705

A.**STANDARD PRODUCTS AND SERVICES**

Note that fees prescribed do not include packaging and postage. The fee for packaging and postage is reviewed from time to time in line with the SA Postal Services fees and published on the Chief Directorate of National Geo-spatial Information website <http://www.ngi.gov.za> for easy reference.

2011/2012**1. MAPS OF THE NATIONAL SERIES****2011/2012**

Maps of the national series specified below, per map/print:

(a) Maps of the 1:10 000 Orthophoto series of the national map series per print:

Paper print

R8.50

Black and white orthophotos HP coated paper

R13.00

(b) 1:50 000 topographical, South Africa

R12.50

(c) 1:250 000 topo-cadastral, South Africa.

R12.50

(d) 1:500 000 topo-admin edition

R12.50

2. OTHER MAPS**2011/2012****(a) Aeronautical edition (ICAO symbols)**

R18.50

(b) 1:1 000 000 world aeronautical chart (ICAO)

R18.50

(c) 1:1 000 000 South Africa

R73.00

(d)	1:2 000 000 South Africa (2002 Edition)	R18.50
(e)	1:2 500 000 topographical (Southern Africa)	R18.50
(f)	Provincial Map (various scales) , South Africa	R18.50
(g)	Maps of the Regional Series (various scales)	R18.50
3.	AERIAL PHOTOGRAPHY – AND IMAGERY RELATED PRODUCTS	<u>2011/2012</u>
	Availability is subject to the following condition: Research and or preparation requirements for aerial photography products or imagery will be free for the first hour, thereafter an hourly rate in terms of paragraph B5 will apply to research and preparation of the information.	
(a)	Prints produced from Panchromatic (Black and White) Aerial imagery products: Prints on HP coated satin photo paper not exceeding	
i)	125mm x 250mm per sheet	R7.50
ii)	250mm x 250mm per sheet	R13.00
iii)	450mm x 500mm per sheet	R27.00
iv)	700mm x 900mm per sheet	R65.00
v)	900mm x 1000mm per sheet	R86.00
(b)	Prints produced from Colour Aerial imagery products (digital process): Prints on HP coated satin photo paper not exceeding :	
i)	125mm x 250mm per sheet	R8.50
ii)	250mm x 250mm per sheet	R16.00
iii)	450mm x 500mm per sheet	R32.00

	iv) 700mm x 900mm per sheet	R75.50
	v) 900mm x 1000mm per sheet	R102.50
(c)	Flight Plans	
	i) Paper copy	R8.50
	ii) Film transparency copy	R92.00
4.	PRODUCTS OF THE NATIONAL CONTROL SURVEY SYSTEM	<u>2011/2012</u>
(a)	Co-ordinates and/or heights of trigonometrical stations, town survey marks and bench marks	
	(i) Output in printed format, per page	R1.50
	(ii) Output in digital format, also available on internet, per point	R0.00
	(iii) Plans of the national control survey network per paper print for every half square metre or portion thereof :	
	- Trigonometrical stations, town survey marks or bench marks	R8.50
	- Reconnaissance reports or locality reports	R7.00
	Provided that the Chief Director of National Geo-spatial Information cannot guarantee that any trigonometrical station, town survey mark or bench mark for which data have been supplied has not been disturbed or removed	
	Please note that co-ordinates based on the Cape Datum (Modified Clarke 1880) are no longer kept up to date and may not represent the current position of trigonometrical beacons and town survey marks.	
(b)	TrigNet (GPS) Data	
	i) Post Processing Data Only	R0.00
	A standard suite of products can be downloaded directly via http or ftp server (internet). Any non-standard products will be charged in terms of paragraph B5 at the standard hourly rate for preparation and dispatch.	

	No charge for client self-download of data	
	ii) Real time differential and kinematic GNSS services	R0.00
	This data is disseminated as live data streams via Networked Transport of RTCM via Internet Protocol (NTRIP)	
5.	DIGITAL SPATIAL INFORMATION	<u>2011/2012</u>
	The fees payable for the supply of listed digital spatial information where available as a standard product:	
	<i>Digital data is prepacked on server, only cost to be paid is medium onto which data is written. No cost implication on labour, material, equipment and overheads.</i>	
	(a) Digital topographical and related information: (Off-the-shelf products)	
	<i>The proposed tariff structure communicates the fees and products and services that are available.</i>	
	(i) Digital elevation data of high resolution available as a 25 metre grid	R0.00
	(ii) Digital topographic information of high resolution, all features, supplied in shape file format only (1:50 000 map series)	R0.00
	(iii) Digital map image, per image, supplied in jpeg format. (1:50 000 map series and 1:250 000 map series)	R0.00
	(iv) Digital contours, supplied in shape file format only, where available (1:10 000 map series)	R0.00
	(b) (i) Digital ortho-rectified image, panchromatic or colour, per image, where available	R0.00
	(ii) Low resolution digital aerial photographic imagery, panchromatic or colour	R0.00

where available. (Jpeg format)

Provided that the supply of digital information not contained in the off-the-shelf products and/or required in any other format other than that prescribed above, will be charged at an hourly rate to prepare such information. (See para B5)

B. NON-STANDARD PRODUCTS AND SERVICES

Note that the fees prescribed do not include packaging and postage. The fee for packaging and postage is reviewed from time to time in line with the SA Postal Services Fees and published on the Chief Directorate of National Geo-spatial Information website <http://www.ngi.gov.za> for easy reference.

1. Supply of prints

Digital data is prepacked on server, only cost to be paid is medium onto which data is written. No cost implication on labour, material, equipment and overheads.

2011/2012

(a)	Prints on paper, per sheet:	
	(i) A4 size	R7.00
	(ii) A3 size	R12.00
(b)	(i) Paper copy of colour grid index guide (includes 1:50 000 and 1:250 000 map series)	R12.50
	(ii) Digital (Jpeg file format).	R0.00
(c)	Film copy of index grid overlay	
	(i) 1:10 000	R61.00
	(ii) 1:250 000	R61.00
(d)	Previous edition maps	
	(i) Paper copies	R12.00
	(ii) Digital copies (Jpeg file format)	R0.00

Provided that the supply, nature, scale and material used for any print shall be at the discretion of the Chief Director National Geo-spatial Information

- (a) Fees charged for the supply of digital products using exchange formats not specified in the sections above, excludes the cost of data processing time at R220.00 per hour or part thereof, postage, transfer media and packaging. See proviso on formats:
- Provided that the Chief Directorate of National Geo-spatial Information is able to support the exchange format, the digital information could be supplied in one of the following file formats.
 Topographical Vector data: Map Info(.mif), Micro station(.dgn), Auto Cad(.dwg) and Auto Cad (.Dxf), Shape (.shp).
 Topographical Raster data: TIFF,
Note:
The proposed tariff structure communicates not only the fees but also the products and services that are available.
- R220.00
- (b) RSA Geographical Names
 Both gazette and non-gazette names are available from the topographical integrated system (ITIS).
 Queries can be referred to the South African Geographical Names Committee (SAGNS) @ <http://sagns.dac.gov.za>
Note: Digital data (names) is prepacked on server, only cost to be recovered is medium onto which data is written. No cost implication on labour, material, equipment and overheads.
- R0.00
- (c) Software
Note: Software is prepacked on server, only cost to be recovered is medium onto which data is written. No cost implication on labour, material, equipment and overheads.
- (i) Transformation software WGSTRN ver 2.12 plus Transformation parameters
- R0.00
- Transform between Cape Datum and

Hartebeesthoek 94 or vice versa

- Transformation Parameters covering RSA

(ii) Conversion software GEOTRAN98 R0.00
 To convert Y X co-ordinates to geographical
 co-ordinates (phi)(lambda) and vice versa
 To convert UTM to geographical co-ordinates (phi)(lambda)
 and vice versa, geocentric co-ordinates, calculate joins,etc.

(iii) Geoid Interpolation Software. To interpolate geoidal heights from SA R0.00
 Geoid model

(d) Digital coastline high resolution of RSA R0.00
**Note: Digital data is prepacked on server, only cost to be recovered is
 medium onto which data is written. No cost implication on labour, material,
 equipment and overheads.**

C. PACKAGING, POSTAGE AND COST OF TRANSFER MEDIA 2011/2012

1. Notes:
 SA Postal Mailing services available:
- Domestic surface mail
 - Speed service couriers (Priority mail) Postal or street address
- The fee for packaging and postage is reviewed from time to time in line with the SA Postal Services Fees and published on the Chief Directorate of National Geo-spatial Information website <http://www.ngi.gov.za> for easy reference.

Collections at Chief Directorate of National Geo-spatial Information counter by courier other than SA Postal Services to be arranged and paid for by the client. Packaging will be charge for separately by the Chief Directorate and will depend on the requirements of the order. The fee for packaging is reviewed from time to time

and published on the Chief Directorate of National Geo-spatial Information website
<http://www.ngi.gov.za> for easy reference.

On request transfer media i.e. CD or DVD is available at the following fee.

CD

R20.00

DVD

R20.00

The fees for foreign orders, special deliveries and delivery services will be made
available on request.

NOTICE 232 OF 2011

science
& technology

Department:
Science and Technology
REPUBLIC OF SOUTH AFRICA

National
Research
Foundation

NOMINATION OF CANDIDATES THE NATIONAL RESEARCH FOUNDATION (NRF) BOARD

The Board of the National Research Foundation is appointed by the Minister of Science and Technology in terms of the NRF Act, 1998 (Act No. 23 of 1998). Nominations of suitable candidates to be considered for appointment to the NRF Board are hereby invited from all interested persons or organisations. The Board shall consist of the Chairperson and not less than nine and not more than eleven members.

The objective of the NRF is to support and promote research through funding, human resource development and the provision of the necessary research facilities in order to facilitate the creation of knowledge, innovation and development in all fields of science and technology, including indigenous knowledge and thereby contributing to the improvement of the quality of life of all the people of the Republic.

The members of the NRF Board must all be persons who have achieved distinction in the field of research and technology, research and technology management, business, public affairs or civil society.

Board members are appointed in their personal capacities, but the Minister must ensure that they are broadly representative of the following sectors: tertiary education; business; agricultural and environmental sciences; health sciences; natural sciences and engineering; social sciences and humanities; and civil society. Nominations received in response to the advert which closed on the 30 August 2010 will be considered in this round of nominations. Members shall hold office for a period of three years.

Members will receive remuneration or allowances as the Minister may, with the concurrence of the Minister of Finance determine. The nominations should be submitted to the Minister of Science and Technology by no later than **6 May 2011**.

The nominations must include comprehensive curricula vitae; identity number; gender and race; designation and responsibilities; address, telephone, fax and e-mail; qualifications / field of study; current and past service on boards; area of expertise; names of contactable referees, as well as confirmation of the availability of the nominee.

NB: Failure to comply with the requirements of the advert, will result in the nomination not being considered.

NOTICE 233 OF 2011

science
& technology

Department:
Science and Technology
REPUBLIC OF SOUTH AFRICA

**NOMINATIONS OF POTENTIAL CANDIDATES
TO THE NATIONAL INTELLECTUAL PROPERTY MANAGEMENT OFFICE (NIPMO)
DISPUTE PANEL**

Nominations of suitable candidates to be considered for appointment to the National Intellectual Property Management Office (NIPMO) Dispute Panel, by the Minister of Science and Technology are hereby invited from all interested persons. The Dispute Panel shall consist of five but not more than twenty members.

According to the Intellectual Property Rights from Publicly Financed Research and Development (IPR-PFRD) Act, 2008 (Act 51 of 2008), NIPMO's core function is to promote the objects of this Act, i.e. the statutory protection, management and commercialisation of intellectual property emanating from publicly financed research and development. The NIPMO is also expected to provide assistance to recipient institutions with the establishment of offices of technology transfer and capacity building.

The regulations to the IPR-PFRD Act as published in the Government Gazette No 33433 Vol. 3 provide for the establishment of a Dispute Panel by the Minister of Science and Technology. The NIPMO Dispute Panel is accountable to the Minister and will establish its own rules of procedure which NIPMO must publish. The Dispute Panel will be mandated to hear and determine disputes relating to administrative decisions of NIPMO applying the principles of fairness, justice and reasonableness. Allowances will be in accordance with National Treasury guidelines.

It should be borne in mind that the NIPMO Dispute Panel members should be persons who are citizens of the Republic or have the right of permanent residence in the Republic. The Dispute Panel will be drawn from a diverse background and representative of as many institutions as possible so as to minimise conflict of interests. The Dispute Panel shall consist of at least five, but no more than twenty members with experience and expertise in areas relating to at least, intellectual property protection and management, commercialisation, dispute resolution and business.

The shortlisted candidates shall undergo screening to ensure that candidates that are appointed to the Dispute Panel have been declared to comply with the objects of the IPR-PFRD Act. Nominations should be submitted to the Minister of Science and Technology by no later than **6 May 2011**.

Appropriate *curricula vitae* should accompany the nominations. The following information should also be provided: **identity number; gender and race; designation and responsibilities; address, telephone, fax and e-mail; qualifications / field of study; current and past service on boards; area of expertise; names of contactable referees, as well as confirmation of the availability of the nominee.**

Nominations may be e-mailed, posted and/or delivered to DST Reception at the following addresses (in envelopes marked – National Intellectual Property Management Office: Dispute Panel):

Department:
Science and Technology
REPUBLIC OF SOUTH AFRICA

**NOMINATIONS OF POTENTIAL CANDIDATES
TO THE NATIONAL INTELLECTUAL PROPERTY MANAGEMENT OFFICE (NIPMO)
ADVISORY BOARD**

Nominations of suitable candidates to be considered for appointment to the National Intellectual Property Management Office (NIPMO) Advisory Board, by the Minister of Science and Technology are hereby invited from all interested persons. The Advisory Board will consist of five but not more than nine members appointed by the Minister of Science and Technology.

According to the Intellectual Property Rights from Publicly Financed Research and Development Act, 2008 (Act 51 of 2008) (IPR-PFDR), NIPMO's core function is to promote the objects of this Act, i.e. the statutory protection, management and commercialisation of intellectual property emanating from publicly financed research and development. The NIPMO is also expected to provide assistance to recipient institutions with the establishment of offices of technology transfer and capacity building.

The regulations to the IPR-PFRD Act as published in the Government Gazette No 33433 Vol. 3 provide for the establishment of an Advisory Board by the Minister of Science and Technology. The Advisory Board will advise NIPMO on the performance of its functions, the exercise of its powers and the execution of its duties. The Minister, in consultation with the Minister of Finance, will determine the allowances and other benefits of the members of the Advisory Board. Members shall hold office for a period not exceeding four years.

It should be borne in mind that the NIPMO Advisory Board members should be persons who are citizens of the Republic or have the right of permanent residence in the Republic and have distinguished themselves in the fields of research management, higher education environment, intellectual property protection and management, technology transfer and business, technology licensing and commercialisation or possess the relevant qualifications, experience or skills in relation to some aspects of the functions of the NIPMO.

The shortlisted candidates shall undergo screening to ensure that candidates that are appointed to the Advisory Board have been declared to comply with the objects of the IPR-PFRD Act. Nominations should be submitted to the Minister of Science and Technology by no later than **6 May 2011**.

Appropriate *curricula vitae* should accompany the nominations. The following information should also be provided: **identity number; gender and race; designation and responsibilities; address, telephone, fax and e-mail; qualifications / field of study; current and past service on boards; area of expertise; names of contactable referees, as well as confirmation of the availability of the nominee.**

NOTICE 235 OF 2011**transport**Department:
Transport
REPUBLIC OF SOUTH AFRICA**NOTICE ON THE APPOINTMENT OF MEMBERS TO THE BOARD OF THE
CROSS-BORDER ROAD TRANSPORT AGENCY (C-BRTA)**

The Cross-Border Road Transport Agency is a national public entity established in terms of the Cross-Border Road Transport Act, 1998 (Act 4 of 1998). Its mandate is to improve the flow of freight and passengers in the region; introduce regulated competition in cross-border road transport; reduce operational constraints for the cross-border road transport industry as a whole; improve and strengthen the capacity of the public sector in support of its strategic planning and monitoring functions; and empower the cross-border road transport industry to maximize business opportunities.

The Agency has a Board, whose function is to ensure that the entity strives for the achievement of the objectives outlined in the Act and exercise authority and control over the financial position, operations and management of the entity.

In terms of section 10 of the Act, the Minister of Transport hereby publish the following names of the non-executive members appointed to the Board of the C-BRTA, for a period of three (3) years with effect from 1 April 2011 –

- Ms Maleho Nkomo as the Deputy Chairperson, Mr Nala Mhlongo and Ms Mathabo Nakene; and
- Mr Hartley Dikgale re-appointed as a non-executive member.

NOTICE 236 OF 2011**transport**

Department:
Transport
REPUBLIC OF SOUTH AFRICA

**A SHORTLIST OF SUITABLE PERSONS ELIGIBLE FOR APPOINTMENT AS
DIRECTOR: CIVIL AVIATION AUTHORITY**

The South African Civil Aviation Authority is a public entity established in terms of Civil Aviation Act, 2009 (Act No. 13 of 2009). The mandate of the entity is to control and regulate civil aviation safety and security; oversee the implementation and compliance with the National Aviation Security program; oversee the functioning and development of the civil aviation industry; promote civil aviation safety and security; develop regulations that are required in terms of the Act; and monitor and ensure compliance with the Act and the international Aviation Conventions.

The Civil Aviation Act makes provision for the Minister of Transport to appoint the Director: Civil Aviation Authority. In fulfilling the mandate, the Minister has on 5 and 19 September 2010 issued an advert calling for applications or nominations for the post of the Director: Civil Aviation Authority.

The Minister hereby, in terms of the Act and before he decides to appoint one of the candidates, publishes the shortlist of eligible persons recommended for appointment as Director: Civil Aviation Authority, for public comments viz;

- Mr Sipho David Msikinya, Mr Tshupo Mankopane Peege, Mr Evan Lombard
Mr Mpho Mamashela and Mr Zakhele Thwala

Public comments regarding the above shortlisted candidates must be forwarded on or before the 24 May 2011.

Public comments should be posted or e-mailed to the Director General, Department of Transport, Private Bag X193, Pretoria, 0001 for the attention of Ms S Petse, Fax (012) 309 3495, E-mail: petses@dot.gov.za.

NOTICE 237 OF 2011**DEPARTMENT OF PUBLIC WORKS****AGRÉMENT SOUTH AFRICA**

(Approval of innovative construction products and systems)

Notice is hereby given that Agrément South Africa has, with effect from 21 April 2010, issued an Agrément certificate, details of which appear in the schedule hereto.

SCHEDULE

Agrément Certificate 2010/370

Name of product: MG SIP Building System

Certificate holder: Marble Gold 231 Pty (Ltd)

Description: The MG SIP Building System is a combination of innovative and conventional construction method. It is a single storey structure that utilises factory produced wall and roof panels. Walls are 2400 mm x 1200 mm x 125 mm thick lightweight interlocking sandwich panels comprising a polyurethane (PU) core encapsulated in two layers of 11 mm thick oriental strand board (OSB). They are clad internally with 15 mm thick fire resistant gypsum plasterboard and externally with 12 mm thick medium density Nutek board.

Foundations are cast in-situ concrete surface bed with thickened edge beams. They are in all cases designed by a professional engineer or a competent person.

The roof panels are constructed in the same manner as the wall panels and are clad externally with light or heavyweight cladding. Alternatively roofs are conventional.

Windows are "clisco" type frames and doors frames are made of galvanised pressed steel. Services are conventional.

The Agrément certificate contains detailed information on the product and can be accessed at <http://www.agrement.co.za>

SCHEDULE

Agrément Certificate 2010/370 (Amended August 2010)

Name of product: MG SIP Building System

Certificate holder: Marble Gold 231 Pty (Ltd)

Description: The MG SIP Building System is a single or double storey building that is constructed in accordance with a rational design, prepared by a professional engineer, who will:

- ensure the structural integrity of the entire building, and
- adhere to the construction details within this certificate

The MG SIP Building System is a combination of innovative and conventional construction methods that utilises factory produced wall and roof panels. Walls are 2400 mm x 1200 mm x 125 mm thick lightweight interlocking sandwich panels comprising a polyurethane (PU) core encapsulated in two layers of 11 mm thick oriented strand board (OSB). For single or double storeys, they are clad internally with one or two layers of 15 mm thick fire-resistant gypsum plasterboard respectively and externally with:

- 12 mm thick medium density Nutec board, un-rendered or
- rendered with cement plaster
- brick cladding
- T&G timber cladding

Foundations are cast *in-situ* concrete surface bed with thickened edge beams. They are in all cases designed by a professional engineer or a competent person. Suspended flooring systems that are in all cases designed by a professional engineer.

The roof panels are constructed in the same manner as the wall panels and are clad externally with light- or heavyweight cladding. Alternatively roofs are conventional.

Windows are "clisco" type frames and doors frames are made of galvanised pressed steel. Alternatively, windows can be conventional timber or aluminium frames.

Services are conventional.

SCHEDULE

Agrément Certificate 2010/375

Name of product: Enviro Prime

Certificate holder: Tarspray cc

Description: Enviro Prime is an emulsified cutback bitumen prime, developed as an alternative to tar-based primes which makes it safer to use by workers and to the environment. It is used as a prime coat in pavement (road) construction in all regions of South Africa. It is applied to a non-bituminous granular pavement layer as a preliminary treatment prior to the application of a bituminous base or surfacing in a similar manner to conventional MC 30 prime.

SCHEDULE

Agrément Certificate 2010/371

Name of product: HOUSE-IN-A-CAN Building System

Certificate holder: HIAC Group Of Companies

Description: The House-In-A-Can Building System is a combination of innovative and conventional construction methods. It is a single storey structure that comprises:

- foundations: cast in-situ concrete surface bed and thickened edge beams which in all cases are designed by a professional engineer or competent person.
- columns: 125 mm x 75 mm x 3 mm rectangular galvanised steel hollow sections at 2565 mm centres
- 100 mm thick lightweight interlocking sandwich in-fill panels comprising a polystyrene beaded concrete core with a density of 650 kg m⁻³, encapsulated in two layers of 4,5 mm thick magnesium oxide sheets.
- light gauge structural steel roof trusses with
- light or heavyweight roof cladding and
- insulated ceilings
- Windows are "clisco" type frames and doors frames are out of galvanised pressed steel.
- services are conventional

SCHEDULE

Agrément Certificate 2010/372

Name of product: Blast Building System

Certificate holder: Nare Housing (Pty) Ltd

Description:

The Blast Building System foundations consist of conventional concrete surface bed foundation with thickened edge beams and thickening under the internal load bearing walls. Surface bed is power floated to a smooth finish or screed at a later stage.

The structural frame comprises 90mm x 40mm x 0.6mm zincalume base rails, 90mm x 40mm x 10mm x 0.6mm zincalume lipped channel vertical studs at 600mm centres and 90mm x 40mm x 0.6mm zincalume ring beams. Horizontal reinforcing bars, 8mm diameter, are centrally placed passing through the vertical studs and spaced at 1.2m centres.

Internal walls are constructed from zincalume base rails, vertical studs and ring beam capping (no horizontal reinforcing) of similar dimensions as external wall and clad both sides with 10mm thick magboard. Internal load bearing walls are constructed as external walls.

The base rails are anchored to the surface bed with 10mm diameter expansion bolts with large diameter washes at 800mm centres. Bitumen 2mm thick forms the DPC below the base rail. The external base rail overlaps the edge of the foundation by 10mm.

Vertical studs, base rail and ring beams etc are secured to one another using three self drilling tapping tek screws per side.

Galvanised lipped channel roof beam 150mm or 100mm x 50mm x 10mm x 2mm thick span from gable to gable and can be supported on internal cross walls. Roof beams are anchored to ring beams with 32mm x 1.6mm galvanised mild steel straps taken over the beam and bolted to the ring beam on either side. Roof construction can also be conventional timber construction spanning from eaves to eaves. Roof cladding can be either light or heavy weight.

All external walls are internally clad with 6mm thick magnesium oxide boards (magboard) secured at 300mm centres to the structural frame. A 2mm wide gap is left between boards that is sealed with an acrylic sealant before painting. Internal walls are insulated with 100mm thick fibreglass blanket wedged between the magboard linings.

Window and door openings are lined with zincalume lipped channels, Timber or "clisco" type frames are secured in position with foamed polyurethane. 20 MPa concrete (1: 5 mix with 750 micron to 10mm graded aggregate) is spray applied to external walls in two layers filling the cavities between structural members and floated to a smooth finish. Walls externally are always rendered with 12mm to 15mm thick plaster.

Services are conventional.

SCHEDULE

Agrément Certificate 2010/380

Name of product: Ikhaya Brick Building System

Certificate holder: Amakhaya Technologies (PTY) Ltd

Description:

The Ikhaya Brick Building System utilises soil - cement Blocks for the erection of the external and internal walls for a detached single storey buildings. Ikhaya Brick technology (IBT) portable machinery is used to produce the 7 Mpa Blocks. The blocks are 300 mm long x 150 mm wide x 100 mm high with two vertical cavities measuring 60 mm in diameter.

Foundations are concrete rafts with thickened edge beams designed by a Professional engineer. A liberal coat of good quality bituminous paint that complies with the requirements of **SANS 317** is applied to the concrete surface bed along the length and across the width of all proposed walls.

If strip foundations are used, the foundation wall must be built using conventional bricks up to damp proofing membrane level. The foundations and surface floor slab are cast in accordance with the plan of the building, using concrete with a minimum compressive strength of 20 MPa at 28 days. The surface is floated to a true and smooth finish.

In abnormal or problematic ground conditions, all foundations are designed by a professional engineer in accordance with the requirement of **SANS 10161** and constructed accordingly. The first levelling course of Ikhaya blocks is bedded on top of bituminous paint.

Where internal walls join with the external walls, an 8 mm \emptyset re-bar is used to tie walls together. The 8 mm \emptyset re-bar are used vertically and horizontally and concrete is poured into the cavities where reinforcement is positioned. In between each Ikhaya block the adhesive is applied on both the horizontal and vertical edges of the block.

A mixture of tile cement and sand is mixed to create a coloured mortar slurry effect. This mix is then used to grout in between all the horizontal and vertical V-Joints on the external wall.

I-Brick Seal is then sprayed onto the wall leaving it to dry for 3 hours before a second coat is applied. The sealant makes for a 100% waterproof seal whilst sealing in the grout and keeping out any pollutants. Roof structures are conventional and they are tied down to a 8 mm \emptyset reinforcing bar using a double strand 4 mm \emptyset galvanised wire.

SCHEDULE**Agrément Certificate 2011/385****Name of product:** JoJo Liquid Storage Tanks**Certificate holder:** JoJo Tanks (Pty) Ltd

Description: The JoJo Liquid Storage Tank is a prefabricated and rotary-moulded polyethylene tank with a material thickness of between 3 mm and 5 mm thick, depending on the volume of the tank. The vertical tanks (see Figures 1 and 3) are subdivided into high and low profile shapes and are mainly used for water storage. The low profile tanks are mainly used when height limitations are a factor, especially when transporting.

Where appropriate, tanks are ultraviolet light (UV) stabilised and the inside are lined with a black food safety accredited lining that also inhibits algae growth. They are available in liquid capacities as illustrated in Tables 4 and 5.

The horizontal tanks (see Figure 2, 4 and 5) are available in liquid capacities as illustrated in Table 6. These tanks are mainly used for chemical storage.

All tanks are available in a variety of colours and are per customer's requirements. They are supplied with appropriate accessories, (viz. tank connectors, water fittings, lids, etc).

Agrément Certificate 2010/379

Name of product: LEPA Building System

Certificate holder: LWP Holdings(Pty) Ltd

Description: The LEPA Building System foundations consist of:

- Foundations which are cast insitu concrete surface bed and thickened edge beams cast on a damp proof membrane. All foundations are designed by a professional engineer.
- External walls consist of a 150 mm-180 mm thick expanded polystyrene (EPS) beaded concrete core with a dry density of 650 kg/m³ encapsulated both sides with a 4, 5 mm calcium silicate board .Walls fixed together using interlocking tongue and groove method between the panels.
- Internal walls are 120 mm thick and comprise of the same material.
- Roof consists of light gauge, structural steel trusses and clad with lightweight cladding.
- Insulated ceilings must always be installed and can be gypsum plasterboard, fibre cement, Isofoam or 30 mm thick Lampboard (polyisocyanurate foamed board coated both sides with impregnated fibreglass tissue) installed in accordance with the manufacturers instruction
- Windows and all other services are conventional.

SCHEDULE**Agrément Certificate 2010/377**

Name of product: Mega Building System

Certificate holder: Mega Green Structures (Pty) Ltd

Description:

The Mega Building System is a single storey structure that comprise a combination of innovative and conventional construction methods.

Foundations are concrete strip foundations or cast in-situ concrete surface bed with thickened edge beams. They are in all cases designed by a professional engineer or a competent person.

The walls comprise interlocking expanded polystyrene (EPS) core which act as permanent insulation. The EPS core for external walls is 2400 mm x 1200 mm x 150 mm thick and finished with one layer of 25 mm thick glass-fibre reinforced concrete (GFRC) and 15 mm thick sand-cement plaster, both sides.

The EPS core for internal walls is 2400 mm x 1200 mm x 100 mm thick and clad both sides with 12 mm thick GFRC.

Roofs (with the exception of roof holding-down hoop irons tied around steel bars and inserted in polyvinyl-chloride pipes (PVC)) and roof coverings are conventional viz. light or heavyweight cladding.

Insulated ceilings are always installed

All other aspects of construction are conventional.

SCHEDULE

Agrément Certificate 2010/373

Name of product: PC FOR ROADS Non-traditional soil additive

Certificate holder: Marble Gold 453 (Pty) Ltd trading as PowerCem Southern Africa

Description: **PC for Roads** a brand name for an additive consisting of earth alkaloids and zeolites which is used in conjunction with cement for road base stabilisation. It reacts with cement and bond in-situ soil to form a water resistant, elastic and high strength composite material. **PC for Roads** is manufactured in the Netherlands in compliance with the specification of ISO 9001 and ISO 14002 standards and imported into South Africa by PowerCem Southern Africa. It is delivered in powder form and packed in 25 kg moisture resistant bags.

PC for Roads blend reacts with cement and supports the ionization process until equilibrium is reached and neutralisation has occurred by the positive ions. It is a complex chemical reaction and the interaction between the cement and the constituents of **PC for Roads** rapidly produces a needle-like crystalline cementitious matrix. The matrix has interlocking potential and generates significant improvements in strength, and also allows for more flexibility than in traditional cement based or only cement treated materials.

The chemical compounds within **PC for Roads** ensure that any contaminants are chemically solubilised and mobilised and made available in the cementitious reaction process. The contaminants subsequently become encapsulated within the non-water soluble hydrous cementitious product. Leaching potential is significantly reduced and in some cases eliminated completely.

SCHEDULE**Agrément Certificate 2011/384**

- Name of product:** Spunsulation Roofing Undertile Membrane
- Certificate holder:** Spunbond Holdings (Pty) Ltd t/a Spunchem International
- Description:** The Spunsulation Roofing Undertile Membrane is manufactured from pigmented ultraviolet (UV) light resistant and non-woven spunbond polypropylene. The layer is coated with a polyolefin film blend. The membrane has a weight of 95 g/m² with a thickness of between 0,33 mm to 0,35 mm. It is supplied in rolls of 30 m long and 750 mm or 1,5 m wide.
- Spunsulation Roofing Undertile Membrane is suitable for installation in all tiled-roof buildings with timber, lightweight steel and aluminium or Agrément approved roof construction. It can be used in all regions of South Africa for all types of occupancy classification (SANS 10400: Table 1 of regulation A (20) (1)). When used in the conventional manner it can:
- reduce air movement between tiles, since the membrane can contribute to maintaining a balanced air pressure on both sides of the roof tiles
 - reduce ingress to the roof space of wind-driven rain and dust.

Agrément Certificate 2010/376

Name of product: Styrocon Building System

Certificate holder: Zonum Enterprise (Pty) Ltd *t/a* HBT Investment SA Pty (Ltd)

Description: The Styrocon Building System is a combination of innovative and conventional construction methods. It is a single storey structure that comprises:

- foundations: cast in-situ concrete surface bed and thickened edge beams which in all cases are designed by a professional engineer or competent person.
- 75 mm thick lightweight interlocking sandwich in-fill panels comprising a polystyrene beaded concrete core with a density of 650 kg m⁻³, encapsulated in two layers of 4,5 mm thick fibre cement boards.
- light gauge structural steel roof trusses with lightweight roof cladding including.
- ceilings which are always insulated and
- conventional services

SCHEDULE

Agrément Certificate 2010/381

Name of product: *UL-M 20/10*: Thin bituminous road surfacing system

Certificate holder: National Asphalt (Pty) Ltd

Description: UL-M 20/10 is a thin bituminous road surfacing system generally laid to a nominal compacted thickness ranging from 20 - 40 mm. Principally it consists of a blend of modified bituminous binder *Evatech U* (EVA), graded crushed stone (aggregates) of nominal size 10 mm and a filler. The UL-M 20/10 is applied by a paver over a tack coat. It is designed to provide improved skid resistance and reduce tyre/surface noise levels and, where required, reduce permeability.

UL-M 20/10 was developed in the 1980's in France by Enterprise Jean Lefebvre and it carries the British Board of Agrément certification (Roads and Bridges Agrément Certificate No 01 / H047). It is extensively used around the world including Europe, USA, and South America. It has successfully been used on a number of sites in South Africa. National Asphalt (Pty) Ltd is licensed to manufacture and apply the product in South Africa.

The mix design, manufacturing and application of the product is to be strictly controlled and under the supervision of a competent person and approved by the manufacturer's design Engineer. The mix proportions may vary slightly from area to area, depending on the traffic, substrate (road base) and the actual properties of the stone received. Aggregates must meet specifications with respect to grading, strength, shape, polished stone value and aggregate/ bitumen compatibility etc.

Agrément Certificate 2011/383

Name of product: Vela Steel Building System

Certificate holder: Vela Steel Building System (Pty) Ltd

Description: The Vela Steel Building System is based on the Structural Insulated Panels (SIP) incorporating a steel frame which enhances the structural integrity of the system. The steel frame is designed in accordance with the requirements of **SANS 517**. The composite wall panels comprise Autoclaved Magnesium Oxide board encapsulating polyurethane core and polystyrene blanks between panel cavities. The walls are finished with armour coat waterproof paint. Where required, the panels are delivered on site with factory fitted window and door frames.

The foundation and floor slab are conventional and are always the responsibility of a competent person. The roof is constructed of standard lightweight steel trusses clad with metal sheeting, concrete roof tiles or Agrément approved cladding. The plumbing and electrical conduits are pre-fixed into the composite panels.

SCHEDULE**Agrément Certificate 2010/374**

Name of product: WinKlik FibreCrete Windows

Certificate holder: Cipco (Pty) Ltd

Description: The WinKlik FibreCrete Windows comprise a combination of fibre cement frames (mullions and transoms), aluminium sashes with monolithic or laminated glazing and ancillary components, viz, lugs (see figure 1), bolts, nuts and screws.

The frames are manufactured from a homogeneous blend made up of graded sand, cement, chemical admixtures and polypropylene fibres to provide ductility and to avoid brittleness.

The aluminium sashes are standard Casement 30.5 Window System and are supplied by **Wispeco (Pty) Ltd**, a member of **AAAMSA**, which are then assembled by Cipco (Pty) Ltd at their factory.

Glazing for opening sections less than 0.25 square metres is 3 mm thick and 4 mm thick for bigger opening sections. Maximum sizes for opening sections are 0.75 square metres.

The window frames are installed in buildings, left unpainted (bare concrete appearance) or painted before being fitted with aluminium sashes and glazing.

The windows are available in side-hung and top-hung ventilators. Overall dimensions, unless specified by the purchaser and subject to a tolerance of ± 3 mm, shall conform to the relevant values specified in **SANS 727** or as illustrated in the *WinKlik 55 Series Window Catalogue* available from the certificate holder.

Fittings such as locking handles, hinges and peg stays shall be of brass or other corrosion resistant material and, if so specified by the purchaser, shall be chromium plated in accordance with **SANS135**.

Agrément Certificate 2008/342: Amended April 2010

Name of product: Imison™ 3 Building System

Certificate holder: Imison (Pty) Ltd

Description:

The Imison™ 3 Building System comprises:

- a concrete surface bed with thickened foundation beams (on non-problematic soils)
- a galvanized light-gauged, cold-rolled structural steel frame
- infill panels made up of:
 - a central core of expanded polystyrene (EPS)
 - alkali resistant woven fibreglass mat reinforced spray-applied and fibre-reinforced plaster applied to both sides of the wall core
- a galvanized light-gauge, cold-rolled structural steel first floor deck (in the case of double storey construction)
- timber or light-gauge structural steel roof trusses
- conventional light or heavyweight roof coverings
- ceilings which may be insulated.

The System may be used in all areas of South Africa for the erection of single- and double-storey building for the occupancies specified in the certificate.

CONSTRUCTION INDUSTRY DEVELOPMENT BOARD

REGISTER OF PROJECTS

ESTABLISHED IN TERMS OF THE CONSTRUCTION INDUSTRY DEVELOPMENT BOARD ACT, 2000 (ACT NO.38 OF 2000)

In terms of Sections 5(2)(f) and 22(1) of the Construction Industry Development Board Act, 2000 (Act No. 38 of 2000) ("the Act"), the Construction Industry Development Board ("the Board") has established a Register of Projects for purposes of gathering information on the nature, value and distribution of infrastructure projects. Section 22(3) of the Act requires National and Provincial Departments, Municipalities and Public Entities delivering infrastructure to register all construction contracts awarded above the prescribed tender value to be registered on the Register of Projects.

The Board hereby issues instruction to National and Provincial Departments, Municipalities and Public Entities delivering infrastructure to register all construction contracts awarded through a tender process during 2009/2010 and 2010/2011 financial years, as applicable in Regulation 18(1A)(a) and (b).

In order to enforce the legislative requirement to register tender advertisements on the iTender System and register project award, progress and completion and / or cancellation on the Register of Projects, the Board will from 1 May 2011 conduct random Compliance Audits of projects registered by public sector clients.

Failure to comply with the above instruction may result in the following:

- a. Name and Shame list of non-compliant clients
- b. Imposition of a fine or penalty to the maximum of R100 000
- c. Referral to the Special Investigations Unit for further investigation and prosecution

Enquiries may be referred to Ms Bongwiwe George at 012 482 7234 or email bongwiweg@cldb.org.za
