NOTICE 385 OF 2013**ECONOMIC DEVELOPMENT DEPARTMENT****INTERNATIONAL TRADE ADMINISTRATION COMMISSION OF SOUTH AFRICA****EXPORT CONTROL**

Following the publication under General Notices 33 and 34 in the Government Gazette of 25 January 2013, of the draft policy directive and export control guidelines on the exportation of ferrous and non-ferrous waste and scrap metal, this Notice serves to inform interested parties, including scrap metal merchants, recyclers, and the industrial users of scrap metal for further processing, that the International Trade Administration Commission of South Africa (ITAC) is considering the recommendation of a price preference system, in essence a price preferential rate to the extent of 20% below the LME benchmark spot price for the published types and grades of scrap metal, to ensure that the domestic foundries and mills have access to the critical supply of affordable scrap.

It is the intention that the industrial users of scrap be given first option and opportunity to purchase the quantity of scrap for which an export permit is applied for, at a price preferential rate of 20% below the LME benchmark price for that particular type and grade of metal scrap. If this option is not taken up after 15 working days, the export permit application will be approved and processed and an export permit issued. The exporter will then be able to export the scrap at the transacted price between buyer and seller.

Interested parties are hereby invited to submit written representations on the proposed system. The representations should include pertinent company-specific financial information, cost and price structures as well as data on the type and prices of metal scrap exported and the type and prices of metal scrap available for further processing by domestic users. The comments received by the Commission will be considered in determining the final preferential rate should the Minister of Economic Development decide to issue a final policy directive. Based on the comments received, the Commission may determine, if appropriate, a lower or higher price preference than 20%.

Representations and comments must be submitted within a period of 2 weeks from publication of this Notice to Senior Managers; Mr Philip Snyman or Ms Nomonde Somdaka at psnyman@itac.org.za/ nsomdaka@itac.org.za, or must be hand delivered at ITAC's offices; The dti Campus, Block E, 77 Meintjies Street, Sunnyside, Pretoria, 0002

NOTICE 386 OF 2013**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****NOTICE OF INITIATION OF INTERIM REVIEW OF THE ANTI-DUMPING DUTIES ON
ROPES AND CABLES MANUFACTURED BY CASAR AND ORIGINATING IN OR
IMPORTED FROM GERMANY**

The International Trade Administration Commission of South Africa (the Commission) accepted an application for an interim review in terms of the Anti-Dumping Regulations (ADR) 45 with regard to dumping of ropes and cables manufactured by Casar Drahtseilwerk Saar GmbH (the Applicant) and originating in or imported from Germany.

THE APPLICANT

The application was lodged by Casar Drahtseilwerk Saar GmbH (the Applicant). The Applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of changed circumstances with regard to dumping and the level of anti-dumping duty applicable to the Applicant.

THE PRODUCT

The subject product is described as ropes and cables originating in rope, of iron or steel, not electrically insulated, of a diameter exceeding 8mm (excluding that of wire of stainless steel, that of wire plated, coated or clad with copper and that identifiable as conveyor belt cord) (Scientific name), commonly identified or referred to as steel wire ropes (common name), classifiable under tariff subheading 7312.10.40

THE ALLEGATION OF CHANGED CIRCUMSTANCES

The Applicant stated that in August 2007 it was acquired by WireCo WorldGroup Incorporated. This change in ownership occurred after the period of investigation in the sunset review. The Applicant also stated that the change in ownership brought about a change in the pricing policy which is strictly enforced.

On this basis the Commission found that there was *prima facie* of changed circumstances with regard to dumping.

THE ALLEGATION OF DUMPING

The Applicant submitted information for the Commission's consideration to demonstrate that it no longer dumps the subject product in the South African Customs Union (SACU); and that the dumping margin has decreased significantly and is in fact significantly negative.

The normal value was determined based on the domestic sales by the Applicant in Germany. The Applicant claimed adjustments on the normal value for cost of payment terms, delivery and packaging costs to arrive at the net ex-factory weighted average normal value. The export price was determined based on the export sales by the Applicant to the SACU market. The Applicant adjusted the export price to arrive at the net ex-factory weighted average export price. The dumping margin for the Applicant was determined to be negative.

On this basis, the Commission found that there was *prima facie* proof that dumping no longer takes place.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the dumping margin in the exporting country of origin will be from 1 January 2012 to 31 August 2012.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an interim review, the Commission has begun an investigation in terms of Anti-Dumping Regulation (ADR) 45. The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, and the Commission's Anti-Dumping Regulations (ADR). The ITA Act, together with the ADR is available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Sections 2.3 of the ADR provide as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) *management accounts;*
- (b) *financial accounts of a private company;*
- (c) *actual and individual sales prices;*
- (d) *actual costs, including cost of production and importation cost;*
- (e) *actual sales volumes;*
- (f) *individual sales prices;*
- (g) *information, the release of which could have serious consequences for the person that provided such information; and*
- (h) *information that would be of significant competitive advantage to a competitor; provided that a party submitting such information indicates it to be confidential."*

The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for an extension. Please note that the Commission will not consider requests for extension by Embassies on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. Specifically, it is planned to verify the information submitted by the exporters within three to five weeks subsequent to the submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants, will not be considered to be good cause. Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Sections 5 of the ADR, provided that the party indicates reasons for not relying on written submissions only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing must provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request. If the required information is not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons. If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due).

3. CREATION OF A REBATE PROVISION:

“Palm oil, refined, bleached and deodorised but not fractioned, classifiable in tariff subheading 1511.90, for the manufacture of edible fats or oils, classifiable in tariff subheading 1517.90.”

APPLICANT:

Sime Darby Hudson & Knight (Pty) Ltd
P O Box 1053
511 Commissioner Street
Boksburg
1460

Enquiries: ITAC Ref: 63/2012, Enquiries: Ms L Maliaga Tel: 012 394 3835 or Email: lmaliaga@itac.org.za

REASONS AS STATED BY THE APPLICANT:

- (I) all palm oil is imported and is currently subject to 10% import duty. There is no local substitute product to protect as there are no alternatives to palm oil in SACU region.

- (II) Sime Darby Hudson & Knight do not have a fractionation facility at their plant; as a Palm Olean.
- (III) Vegetable oil prices have been highly volatile, increasing by 150% over the last two years. With vegetable oils being the largest component of the formulation, in certain blends up to 70%, price increase have put severe pressure on the cost of manufacturing these products and ultimately to consumers.
- (IV) The high prices of vegetable oil have created a decline in usage of margarine, spreads and baking fats in the industry over 2010 and 2011. This has affected the sales of the product and volumes have declined steadily in a manner which will mean scaling down the operations and lead to unemployment.
- (V) These increases have also impacted consumers negatively as ever increasing prices have made the final selling product unaffordable. The rebate provision will allow Sime Darby Hudson and Knight and Unilever to invest in more training, upgrading facilities and much more employees and consumers and to reduce the price of the final products. Furthermore, the rebate provision will directly result in increase in sales ultimately creating additional shifts and increase in employment.
- (VI) The rebate of duty on Palm oil for the manufacture of edible fats, if approved, will result in lower input costs for food manufacturers. The benefit of these lower costs will be passed on to customers through the competitive action of all participants in the edible oil industry. This will increase the affordability of margarines, spreads and prepared foods using palm oil for all income groups, but particularly lower income groups where the negative impact of rapidly rising cooking oil prices has been significant in recent years.
