NOTICE 814 OF 2014**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****INITIATION OF A SUNSET REVIEW OF THE ANTI-DUMPING DUTIES ON
STAINLESS STEEL SINKS ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S
REPUBLIC OF CHINA (CHINA) AND MALAYSIA**

In accordance with the provisions in Article 53.1 of the Anti-Dumping Regulations (ADR), any definitive anti-dumping duty shall be terminated on a date not later than five years from the date of imposition, unless the International Trade Administration Commission (the Commission) determines, in a review initiated before that date on its own initiative or upon a duly substantiated request made by or on behalf of the domestic industry, that the expiry of the duty would likely lead to continuation or recurrence of dumping and material injury.

On 28 June 2013, the International Trade Administration Commission of South Africa (the Commission) notified the interested parties through Notice No. 664 of 2013 in *Government Gazette* No. 36592, that unless a substantiated request is made indicating that the expiry of the anti-dumping duties against imports of stainless steel sinks originating in or imported from China and Malaysia would likely lead to the continuation or recurrence of dumping and injury, the anti-dumping duties on stainless steel sinks originating in or imported from China and Malaysia will expire on 5 November 2014.

A response to the sunset review application questionnaire was received from Franke Kitchen Systems (Pty) Ltd on behalf of the Southern African Customs Union (SACU) industry on 13 August 2014.

THE APPLICANT

The application was lodged by Franke Kitchen Systems (Pty) Ltd, the major producer of stainless steel sinks in the SACU. The Applicant is one of two producers of stainless steel sinks in the SACU. A letter of support was received from PABAR (Pty) Ltd, the other producer in the SACU.

The Applicant alleges that the expiry of the duty would likely lead to continuation or recurrence of dumping and material injury. The Applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that a sunset review investigation should be initiated.

THE PRODUCT

The product allegedly being dumped is stainless steel sinks classifiable under tariff subheading 7324.10 originating in or imported from China and Malaysia.

THE ALLEGATION OF THE CONTINUATION OR RECURRENCE OF DUMPING

The allegation of continuation or recurrence of dumping is based on the comparison between the normal values and the export prices.

The Applicant provided domestic selling prices in China and Malaysia obtained from price lists in the respective countries for purposes of the normal value. To calculate the export price for China, the Applicant provided the average f.o.b import price from the official SARS import statistics for the period 1 January 2013 to 31 December 2013. As there were no imports from Malaysia during the period of investigation, the Applicant provided the official SARS import statistics for 2010, which was then increased by the Malaysian producer price index for the period 2010 to 2013 to obtain the export price for 2013.

On this basis, the Commission found that there was *prima facie* proof of the likelihood of continuation or recurrence of dumping should the duties expire.

THE ALLEGATION OF CONTINUATION OR RECURRENCE OF MATERIAL INJURY

The Applicant alleges and submitted *prima facie* evidence to show that it is experiencing a decline in profits, production, capacity utilisation, employment and return on investment and that there would be price undercutting, price depression and suppression should the anti-dumping duties expire.

On this basis the Commission found that there was *prima facie* proof of the continuation or recurrence of material injury should the duties expire.

PERIOD OF INVESTIGATION

The investigation period for dumping is from 1 January 2013 to 31 December 2013 and the injury investigation involves evaluation of data for the period of 01 January 2011 to 31 December 2013. The Commission will also consider an estimate of what the situation would be, should the anti-dumping duties expire.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of a sunset review investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting countries have also been notified.

Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due).

Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*
- (e) actual sales volumes;*
- (f) individual sales prices;*
- (g) information, the release of which could have serious consequences for the person that provided such information; and*
- (h) information that would be of significant competitive advantage to a competitor;*

Provided that a party submitting such information indicates it to be confidential."

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting threat of material injury must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

The Senior Manager: Trade Remedies 1, should receive all responses, including non-confidential copies of the responses, not later than 40 days from the date hereof, or 30 days from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original deadline. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by the Embassy on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted would subsequently be available for verification.

It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown. Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination.

Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Should you have any queries, please do not hesitate to contact investigating officers, Mr. Andre Zietsman at telephone number +27 12 394 3673, Mr. Busman Makakola at telephone number +27 12 394 3380 or Ms Charity Ramaposa at +27 12 394 1817 or at fax number +27 12 394 0518.

NOTICE 815 OF 2014**ECONOMIC DEVELOPMENT DEPARTMENT****INTERNATIONAL TRADE ADMINISTRATION COMMISSION OF SOUTH AFRICA****EXPORT CONTROL**

In September 2013, the Commission introduced a Price Preference System (PPS) pursuant to which it would not allow the exportation of scrap metal unless it had first been offered for sale to the domestic scrap consuming industry with the intention to domestically beneficiate such scrap metal. Under the PPS, exporters are required to offer scrap metal at 20% below the international benchmark price.

The Commission recommended that a review of the applicable preferential rates be conducted one year after the date of its implementation. The review aims to determine a price preference level that is sufficient to assist the metals beneficiation industries.

Interested parties are hereby invited to submit comments on the following proposed amendments to the price preference levels:

- An increase in the price preference rate for steel (including stainless steel) scrap metal from 20% to 30% below the international benchmark price;
- An increase in the price preference rate for aluminium scrap metal from 20% to 25% below the international benchmark price; and
- the existing price preference rate of 20% to remain for all other types of scrap metal.

Representations and comments must be submitted within a period of four (4) weeks from the publication of this Notice to Mr Dumisani Mbambo at Tel: 012 394 3743 or Email: dmbambo@itac.org.za

SCHEDULE

PROPOSED CLASSES OF WATER RESOURCE FOR CATCHMENTS OF THE CROCODILE (WEST), MARICO, MOKOLO AND MATLABABAS IN TERMS OF SECTION 13(1)(A) OF THE NATIONAL WATER ACT, 1998, ACT NO.36 OF 1998

DESCRIPTION OF WATER RESOURCE

1. The proposed classes are determined for all or part of every significant water resource within the catchments of the Crocodile (West), Marico, Mokolo and Matlabas as set out below:

Water Management Area:	Limpopo
Drainage Regions:	A10, A21 to A24, A31, A32 (Crocodile (West) and Marico) A42A-H and A42J (Mokolo) A41C and A41D (Matlabas)
Rivers:	Piernaars, Apies, Moretele, Hennops, Jukskei, Magalies, Elands, Tambotie, Poer-se-Loop, Rietspruit, Matlabas

2. The Minister has, in terms of section 12 of the National Water Act, Act No 36 of 1998 (the Act), prescribed a system for classifying water resources by promulgating Regulation 810, Government Gazette 33541 dated 17 September 2010. In terms of section 13(1) of the Act the Minister must, as soon as reasonably practicable after the Minister has prescribed a system for classifying water resources and subject to subsection (4), by notice in the *Gazette*, determine for all or part of every significant water resource, a class in accordance with the prescribed classification system.
3. The Minister, in terms of section 13(1) of the Act, proposes to determine the following classes of each significant water resource for catchments of the Crocodile (West), Marico, Mokolo and Matlabas.

1. Water Resource Classes of the Crocodile (West), Marico, Mokolo and Matlabas catchments

SCHEDULE

PROPOSED CLASSES OF WATER RESOURCE FOR CATCHMENTS OF THE OLIFANTS IN TERMS OF SECTION 13(1)(A) OF THE NATIONAL WATER ACT, 1998, ACT NO.36 OF 1998

DESCRIPTION OF WATER RESOURCE

1. The proposed classes are determined for all or part of every significant water resource within the catchments of the Olifants as set out below:

Water Management Area:	Olifants
Drainage Regions:	B primary drainage region
Rivers:	Olifants River System

2. The Minister has, in terms of section 12 of the National Water Act, Act No 36 of 1998 (the Act), prescribed a system for classifying water resources by promulgating Regulation 810, Government Gazette 33541 dated 17 September 2010. In terms of section 13(1) of the Act the Minister must, as soon as reasonably practicable after the Minister has prescribed a system for classifying water resources and subject to subsection (4), by notice in the *Gazette*, determine for all or part of every significant water resource, a class in accordance with the prescribed classification system.
3. The Minister, in terms of section 13(1) of the Act, proposes to determine the following classes of each significant water resource for catchments of the Olifants.

**DETERMINATION OF THE CLASS OF WATER RESOURCE IN TERMS OF
SECTION 13(1)(A) OF THE NATIONAL WATER ACT, 1998**

1. A summary of the water resource classes for Integrated Units of Analysis (Figure 1) and ecological categories for the Olifants is set out in Table 1.
2. Integrated units of Analysis are classified in terms of their extent of permissible utilization and protection as either Class I: indicating high environmental protection and minimal utilization; or Class II indicating moderate protection and moderate utilization; and Class III indicating sustainable minimal protection and high utilization.

1. Water Resource Classes for the Olifants catchment

NOTICE 820 OF 2014**DEPARTMENT OF WATER AND SANITATION****NATIONAL WATER ACT, 1998
(ACT NO.36 OF 1998)****PROPOSED CLASSES OF WATER RESOURCES FOR THE CATCHMENTS OF
THE MIDDLE VAAL**

I, Nomvula Paula Mokonyane, in my capacity as Minister of Water and Sanitation, and duly authorised in terms of section 13(4) of the National Water Act (Act No. 36 of 1998) hereby publishes for public comment the proposed classes of water resources for catchments of the Middle Vaal, in the Schedule, to be issued under section 13(4) of the said Act.

Any person who wishes to submit written comments with regard to the proposed classes should submit the comments within 60 days from the date of publication of this Notice to:

SCHEDULE

PROPOSED CLASSES OF WATER RESOURCE FOR CATCHMENTS OF THE MIDDLE VAAL IN TERMS OF SECTION 13(1)(A) OF THE NATIONAL WATER ACT, 1998, ACT NO.36 OF 1998

DESCRIPTION OF WATER RESOURCE

1. The proposed classes are determined for all or part of every significant water resource within the catchments of the Middle Vaal as set out below:

Water Management Area:	Vaal
Drainage Region:	C Primary Drainage Region
River(s):	Vaal River System

2. The Minister has, in terms of section 12 of the National Water Act, Act No 36 of 1998 (the Act), prescribed a system for classifying water resources by promulgating Regulation 810, Government Gazette 33541 dated 17 September 2010. In terms of section 13(1) of the Act the Minister must, as soon as reasonably practicable after the Minister has prescribed a system for classifying water resources and subject to subsection (4), by notice in the *Gazette*, determine for all or part of every significant water resource, a class in accordance with the prescribed classification system.
3. The Minister, in terms of section 13(1) of the Act, proposes to determine the following classes of each significant water resource for catchments of the Middle Vaal.

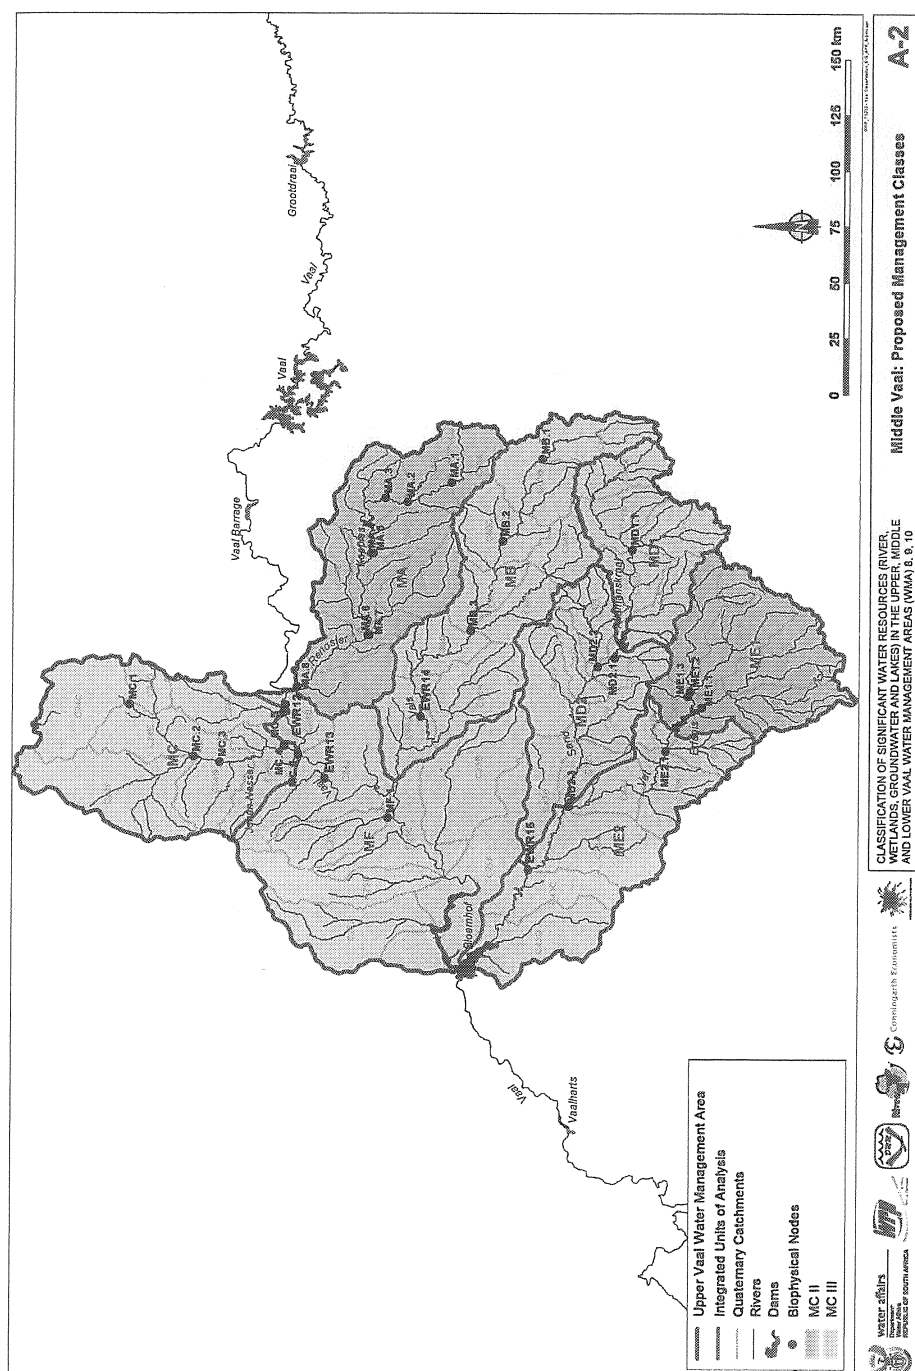

**DETERMINATION OF THE CLASS OF WATER RESOURCE IN TERMS OF
SECTION 13(1)(A) OF THE NATIONAL WATER ACT, 1998**

1. A summary of the water resource classes for Integrated Units of Analysis (Figure 1) and ecological categories for the Middle Vaal is set out in Table 1.
2. Integrated units of Analysis are classified in terms of their extent of permissible utilization and protection as either Class I: indicating high environmental protection and minimal utilization; or Class II indicating moderate protection and moderate utilization; and Class III indicating sustainable minimal protection and high utilization.

PROPOSED CLASSES OF WATER RESOURCE FOR CATCHMENTS OF THE UPPER VAAL IN TERMS OF SECTION 13(1)(A) OF THE NATIONAL WATER ACT, 1998, ACT NO.36 OF 1998

DESCRIPTION OF WATER RESOURCE

1. The proposed classes are determined for all or part of every significant water resource within the catchments of the Upper Vaal as set out below:

Water Management Area:	Vaal
Drainage Region:	C Primary Drainage Region
River(s):	Vaal River System

2. The Minister has, in terms of section 12 of the National Water Act, Act No 36 of 1998 (the Act), prescribed a system for classifying water resources by promulgating Regulation 810, Government Gazette 33541 dated 17 September 2010. NOTICE 823 OF 2014**DEPARTMENT OF WATER AND SANITATION****NATIONAL WATER ACT, 1998
(ACT NO.36 OF 1998)****PROPOSED CLASSES OF WATER RESOURCES FOR THE LETABA CATCHMENT**

I, Nomvula Paula Mokonyane, in my capacity as Minister of Water and Sanitation, and duly authorised in terms of section 13(4) of the National Water Act (Act No. 36 of 1998) hereby publishes for public comment the proposed classes of water resources for the Letaba catchment, in the Schedule, to be issued under section 13(4) of the said Act.

Any person who wishes to submit written comments with regard to the proposed classes should submit the comments within 60 days from the date of publication of this Notice to:

Director: Water Resource Classification

SCHEDULE

PROPOSED CLASSES OF WATER RESOURCE FOR THE LETABA CATCHMENT OF IN TERMS OF SECTION 13(1)(A) OF THE NATIONAL WATER ACT, 1998, ACT NO.36 OF 1998

1 DESCRIPTION OF WATER RESOURCE

1. The proposed classes are determined for all or part of every significant water resource within the Letaba catchment as set out below:

Water Management Area:	Olifants
Drainage Region:	B8 Secondary Drainage Region
River(s):	Letaba River System

2. The Minister has, in terms of section 12 of the National Water Act, Act No 36 of 1998 (the Act), prescribed a system for classifying water resources by promulgating Regulation 810, Government Gazette 33541 dated 17 September 2010. In terms of section 13(1) of the Act the Minister must, as soon as reasonably practicable after the Minister has prescribed a system for classifying water resources and subject to subsection (4), by notice in the *Gazette*, determine for all or part of every significant water resource, a class in accordance with the prescribed classification system.
3. The Minister, in terms of section 13(1) of the Act, proposes to determine the following classes of each significant water resource for the Letaba catchment.

DETERMINATION OF THE CLASS OF WATER RESOURCE IN TERMS OF SECTION 13(1)(A) OF THE NATIONAL WATER ACT, 1998

1. A summary of the water resource classes for Integrated Units of Analysis (Figure 1) and ecological categories for the Letaba catchment is set out in Table 1.
2. Integrated units of Analysis are classified in terms of their extent of permissible utilization and protection as either Class I: indicating high environmental protection and minimal utilization; or Class II indicating moderate protection and moderate utilization; and Class III indicating sustainable minimal protection and high utilization.
3. Table 1 provides the Integrated Units of Analysis, its Management Classes and its respective catchment configuration. The catchment configuration consists of a number of biophysical nodes representing river reaches or resource units. The target ecological category for each unit in the Integrated Units of Analysis is provided.

Note (1): nMAR is the natural Mean Annual Runoff in million cubic meters per annum.

Note (2): The monthly flow requirements for EWR 3, 4, 5 and 7 represent the total flow defined by the recommended scenario where the Present Ecological State low flows and releases for water users defines the minimum requirements for the respective EWR sites.

Note (3): Ecological Water Requirements not specified as primary problems are related to water quality or rivers inundated by consecutive dams.

Note (4): Ecological Water Requirements not relevant as rivers situated in its totality within the Greater Kruger National Park and should stay natural.

NOTICE – CHANGE OF TELEPHONE NUMBERS: GOVERNMENT PRINTING WORKS

As the mandated government security printer, providing world class security products and services, Government Printing Works has adopted some of the highly innovative technologies to best serve its customers and stakeholders. In line with this task, Government Printing Works has implemented a new telephony system to ensure most effective communication and accessibility. As a result of this development, our telephone numbers will change with effect from 3 February 2014, starting with the Pretoria offices.

The new numbers are as follows:

- Switchboard : 012 748 6001/6002
- Advertising : 012 748 6205/6206/6207/6208/6209/6210/6211/6212
