CODE OF CONDUCT FOR REGISTERED PERSONS

Architectural Profession Act 44 of 2000

In terms of section 36 of the Architectural Profession Act 44 of 2000 (“the Act”), the South African Council for the Architectural Profession (“SACAP” or the “Council”) hereby makes known that in compliance with section 27 of the Act, it made the Rules for Professional Conduct set out hereunder.

Preamble

Registered Persons are subject to the disciplinary supervision of the Council. The Rules lay down standards of professional conduct and practice which must be complied with. Failure to do so could lead to an investigation which may result in a disciplinary hearing.

Section 27 of the Act requires Council to draw up a Code of Conduct (“Code”) for Registered Persons. All such persons shall comply with the Code and failure to do so may constitute improper conduct.

Any failure to comply with the provisions of this Code shall not automatically be regarded as unacceptable professional conduct or professional incompetence, but unprofessional conduct or professional incompetence (as a consequence of the failure to uphold these rules) may be considered in any disciplinary proceedings.

Where a particular conduct is not specifically stipulated in this Code it does not mean that such conduct cannot form the basis of disciplinary proceedings. Each case shall be judged on its facts, and there may be circumstances in which unacceptable or improper conduct or serious professional incompetence is found even where there has been no clear breach of the express terms of this Code.

A disciplinary order may be made against any Registered Person convicted of a criminal offence that has material relevance to such person’s fitness to practise as a Registered Person.

1 Introduction

- 1.1 It is acknowledged that the South African Council for the Architectural Profession (“SACAP” or “the Council”) is mandated by the Architectural Profession Act 44 of 2000 (“the Act”) to take any reasonable steps for the protection of the environment and the public in the latter’s dealings with Registered Persons.
- 1.2 It is furthermore acknowledged that the Council may take any steps it considers necessary where, as a result of architectural-related undertakings, public health and safety could be prejudiced.
- 1.3 It is additionally acknowledged that the SACAP may take any reasonable steps in order to maintain the integrity and enhance the status of the profession, and to improve the standards of services rendered by Registered Persons.
- 1.4 In pursuance of the rights and obligations mentioned in 1.1, 1.2, and 1.3, Council must investigate any act of alleged improper conduct by a Registered Person and/or any complaint, charge or allegation of improper conduct against such Registered Person brought by any person.
- 1.5 An investigation mentioned in 1.4 is aimed at and directed toward the professional conduct of a Registered Person and is not intended to recover damages on behalf of any complainant, or enforce specific performance against any person and as such is not meant to replace civil and/or criminal litigation.
- 1.6 Where a Registered Person or persons registered with the different Built Environment professions are involved in the same subject of investigation, SACAP undertakes to share relevant information with other such councils and with stakeholders.
- 1.7 These rules must be read with and are subjective to the Act and to be interpreted and applied in a manner that is lawful, reasonable, and procedurally fair.
- 1.8 The Council acknowledges that misunderstandings and disputes can arise between Registered Persons and their clients and other stakeholders they encounter through their professional dealings and obligations, but that these sometimes do not amount to a breach of the Code of Professional Conduct, in which instances, SACAP may take steps to resolve these amicably.
 - 1.8.1 Thus, SACAP has introduced a peer review mechanism to resolve disputes between members of the public and registered persons promptly and inexpensively. Through this process, parties are full participants in the process and can express their own opinions and concerns without restrictions. Peer review allows the opportunity for parties to work together and reach a settlement and continue to work together to complete the construction project.
