2. Policy statement

The Authority was established in terms of Section 2 of the Private Security Industry Regulation Act (56 of 2001) in 2002, hereinafter referred to as the "Act". The strategic mandate of PSiRA originates from the Act and the regulations issued in terms thereof. The primary objectives of PSiRA are to regulate the private security industry and to exercise effective control over the practice of the occupation of security service provider in the public and national interest and in the interest of the private security industry itself.

The Authority is funded through annual fees payable by registered security services providers as well as other tariffs as determined by Council. Other income includes

registrations fees, training fee income, fine income, infrastructure assessment fees and other charges as determined by the PSIR Act.

The entire revenue is utilized to defray operational and capital expenditure of the PSIRA incurred in the normal course of discharging its mandate in terms of the PSIR Act.

During 2020/2021 financial year, the Authority will embark on a review of the Private Security Levies Act 23 of 2002. The purpose of the review will be to align the Act prior to implementation and to effectively address the funding gaps which currently exist.

3. Background

Currently, PSiRA is fully funded by the annual fees it receives from the registered security service providers representing the industry within its regulatory jurisdiction. These annual fees are used to cover the costs of the Authority to regulate the private security industry and to exercise effective control over the practice of the occupation of security service provider, the public and national interest and the interest of the private security industry itself. The costs associated with meeting this regulatory mandate includes but not limited to;

- Conducting studies, monitoring and investigations on the rendering of security service,
- Instituting legal proceedings and defend or oppose any legal proceeding against the Authority,
- Receive and consider applications for registration of security service providers,
- Develop and maintain a computerized database.

During the 2019/2020 Financial year consultations the security service providers raised suggestions and concerns and below is the summary of the concerns and suggestion raised:

PSiRA Consultation Paper Annual Fees 2020/2021 Financial Year

Page 5 of 20

3.1 Security Businesses who are not generating revenue should not be charged annual fees

PSiRA is in the process of implementing the Levies Act, which is aimed at reducing the burden of paying annual fees especially on small security businesses. The Levies Act. The Act in its current form would not stand a constitutional test as advised by National Treasury and would therefore be revised to be in line with Section 77 of the Constitution. National Treasury has undertaken to assist and to take responsibility to run with the review of the Act as all Money Bills are introduced in Parliament by the Minister of Finance.

3.2 Special payment terms for small security businesses

As from 2017/2018 financial year, PSiRA introduced special payment terms from security businesses employing less than 100 security officers. Regulation 7 was therefore amended as follows:

- In the case of security business employing 21 100 security officers, 50% of the fees is payable by 7 May of each year. The remaining 50% is payable in 2 equal instalments. The first instalment will be due by 7 June and the second instalment due by 7 July of each year.
- In case of security business employing 0 20 security officers, 50% of the fees is payable by 7 May of each year. The remaining 50% is payable in 5 equal instalments, with the first instalment due on 7 June, second instalment due on 7 July, third instalment due on 7 August, fourth instalment due on 7 September and the fifth instalment due on 7 October of each year.

3.3 Failure by PSiRA's Inspectors to deal with unregistered businesses, especially in the malls and residential areas

PSiRA has conducted joint operations with SAPS and Department of Labour inspecting security service providers operating from malls and residential premises. Arrests and criminal cases have been opened against unregistered security service providers and code of conduct dockets against non-compliant security service providers.

Page 6 of 20

3.4 Whether PSiRA's pricing structure was compulsory and if PSiRA was investigating businesses for under-quoting of tenders and security contracts PSiRA investigates and conducts inspections to establish if a business complies with the Sectoral Determination and the National Minimum Wages Act. Matters relating to underpayment of wages and non-complaint with the Provident Fund are dealt with in terms of the Improper Conduct Regulations.

3.5 Opening of PSiRA offices in North West and Northern Cape

Considering the growth of the industry in all the provinces, PSiRA has embarked on not only establishing new offices in the provinces, particularly where it currently does not have any footprint. Moreover, increasing its current footprint to improve service delivery through identifying functions that can be best performed using technology platforms as opposed to manual processes. PSiRA will also be identify partners that will provide PSiRA services through a vendor system to improve the current footprint.

4. Consultation process

The consultation process considers principles pronounced by the Promotion of Administrative Justice Act, the budget of the Authority and the judgment of the Supreme Court of Appeal (SCA) which was delivered on 15 August 2014, in respect of the Annual Fees Review.

The draft regulation considers the categorisation of security service provider in the determination of the proposed fees structures. In order to broaden scope and enhance transparency, the consultation process will be in two-fold.

PSiRA Consultation Paper Annual Fees 2020/2021 Financial Year

Page 7 of 20

First, the Industry will be given an opportunity to submit their initial written comments and representations on the proposed annual fee review. The second process will be oral representations from the industry and relevant stakeholders. The two processes will run concurrently during the consultation period. The due date for submission of representations from interested parties shall be on 31 January 2020.

All comments and submissions from interested parties, stakeholders and Industry participants will be considered before a request for concurrence is submitted to the Minister of Police for his independent consideration.

It is anticipated that, upon the Minister's independent consideration and concurrence with the proposed review of the annual fees, final annual fees regulations will be published from the 02 March 2020.

6. Basis for the review

Historically, the annual fees were reviewed based on inflationary increases of each financial year. The fees were successfully reviewed by the Authority in 2016 after consulting with different industry stakeholders. Due to the continuing increase in operational costs the Authority decided to increase the fees on an annual basis and the increase is based on the CPI and operational costs requirements of the Authority to effectively execute its mandate as required by PSIR Act. In reviewing the current fees, the Authority will take the following into account:

- The average CPI for 2019/2020 Financial year;
- The number of security officers employed by a security business or made available by it to render a security service during a calendar month;
- The operational costs as indicated in the 2020/2021 Financial year Budget including increasing PSiRA's footprint, increasing of inspectorate personnel and acquiring of new ERP system; and
- Equitable contribution by different classes or categories of security service providers.

7. Method of payment

The payment method of different fees is as follows:

7.1 Annual Fees

Annual Fees are payable by the 7th May of each year (extended payment terms are available for security businesses employing 100 and less security officers)

7.2 Special Levy Fees

Special Levy Fees are payable for each Security Officer employed by the 7th of each month.

7.3 Individual Security Officer Fee

This fee is deducted from each Security Officer employed and paid over to the Authority by the 7th May of each year. The last increase was effected over ten years ago.

10. Categories of security service providers by numbers

The Authority's database encompasses categories of security service providers, as listed here below. The number of sectors represented are as provided by security service providers in their respective applications for registration. The Authority will soon embark on a project to segment the industry according to its represented sectors. The process of segmentation will assist the Authority to rationalise the regulations and focus on the implementation of the monitoring of the code of conduct to specific sectors of the industry. This process will result in specific regulations for specific sectors, separate registration licenses for specific sectors and ultimate specific sectors.
