## HIGH ALERT: SCAM WARNING!!!

### TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (GPW).

The scam involves the fraudsters using the letterhead of GPW to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. GPW has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

[PROCUREMENT@GPW-GOV.ORG](mailto:PROCUREMENT@GPW-GOV.ORG)

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the GPW.

GPW has an official email with the domain as [@gpw.gov.za](mailto:@gpw.gov.za)

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. GPW does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

*Government Printing Works* gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

## Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

### How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at [www.gpwonline.co.za](http://www.gpwonline.co.za)
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

### GAZETTE NOTICE: DECLARATION OF THE PRIORITY HUMAN SETTLEMENTS AND HOUSING DEVELOPMENT AREAS (PHSHDAs)

I, LN Sisulu, Minister of Human Settlements, Water and Sanitation, having taken cognisance of Section 3 of the Housing Act (No. 107 of 1997) read in conjunction with Section 7 (3) of the Housing Development Agency Act, 2008 (No. 23 of 2008), the Spatial Planning and Land Use Management Act (SPLUMA) (No. 16 of 2013), and the Infrastructure Development Act (No. 23 of 2014), hereby declare the following 136 Priority Human Settlements and Housing Development Areas (PHSHDAs).

1. The PHSHDAs intends to advance Human Settlements Spatial Transformation and Consolidation by ensuring that the delivery of housing is used to restructure and revitalise towns and cities, strengthen the livelihood prospects of households and overcome apartheid spatial patterns by fostering integrated urban forms.
2. The PHSHDAs are underpinned by the principles of the National Development Plan (NDP) and allied objectives on the National Spatial Development Framework (NSDF) and the Integrated Urban Development Framework (IUDF) which includes:
  - a) **Spatial Justice:** reversing segregated development and creation of poverty pockets in the peripheral areas, integrate previously excluded groups and resuscitate declining areas;
  - b) **Spatial efficiency:** consolidating spaces and promoting densification and efficient communicating patterns;
  - c) **Access to connectivity, economic and social infrastructure:** ensure the attainment of basic services, job opportunities, transport networks, education, recreation, health and welfare to facilitate and catalyse increased investment and productivity;

- d) **Access to adequate accommodation:** emphasis is on provision of affordable and fiscally sustainable shelter in areas of high need; and
  - e) **Provision of quality housing options:** ensure that different housing typologies are delivered to attract different market segments of appropriate quality and innovation.
3. Emphasis is placed on synchronising national housing programmes in these priority human settlements and housing development areas namely:
- a) **Integrated Residential Development Programme** provides a tool to plan, fund and develop integrated settlements that include all the necessary land uses and housing types and price categories to create integrated communities. It provides for subsidized, as well as finance linked housing, social and rental housing, commercial, institutional and other land uses to be developed.
  - b) **Social Housing Programme in Restructuring Zones** provides for Social Housing located in specific, defined localities (mostly urban) which have been identified as areas of opportunity (largely economic) where the poor have limited or inadequate access to accommodation, and where the provision of social housing can contribute to redressing structural, economic, social and spatial dysfunctionalities. It is also aimed to improve and contribute to the overall functioning of the housing sector and in particular the rental sub-component thereof, especially insofar as social housing is able to contribute to widening the range of housing options available to the poor.
  - c) **Informal Settlements Upgrading Programme** provides for the structured in situ upgrading of informal settlements to address the social and economic exclusion of communities. It remains evident that informal settlements provide new migrants and the urban poor an affordable point of access into towns and cities, although they are also associated with high degrees of physical and social vulnerability.
  - d) **Finance Linked Individual Subsidy Programme** provides for the creation of an inclusive and vibrant residential property market which can provide state assistance to households who are unable to independently access housing credit to become upwardly mobile and progress up the housing ladder.
  - e) **The Special Presidential Package (SPP) Programme on Revitalisation of Distressed Mining Communities** by developing and implementing human settlements spatial transformation plans for identified mining areas.
  - f) **Enhanced People's Housing Process** provides for a process in which beneficiaries actively participate in decision-making over the housing process and housing product and make a contribution in such a way that: 1) Beneficiaries are empowered individually and collectively, 2) various partnerships are created, 3) social capital is retained and expanded upon, and 4) housing is valued as an asset far beyond its monetary value.

4. Henceforth, a significant portion of public funding will be directed to the PSHDAs with the intention of attracting private sector investments.
5. Each of the PSHDAs shall be underpinned with an implementation protocol as per the Intergovernmental Relations Framework Act, 2005.

Should you need further details about each of the PSHDAs please visit the website for the National Department of Human Settlements: [www.dhs.gov.za](http://www.dhs.gov.za). Alternatively send an email to [PHDA@dhs.gov.za](mailto:PHDA@dhs.gov.za) or [PHDA@thehda.co.za](mailto:PHDA@thehda.co.za)

## NORTHERN CAPE PROVINCE

The Northern Cape province, largely arid and sparsely populated, is constantly threatened by limited water availability, reliant on a single economic sector typically agriculture and mining, which makes the province vulnerable to external factors (namely currency fluctuations and demand for commodities). Regional adaptation, economic diversification and agricultural innovation needs to be pursued. It is for this reason that the Northern Cape shall be declared as a priority housing development area to ensure that the province responds to the provision of housing and human settlements development in an integrated and wholistic manner.

6 Priority Housing and Human Settlements Development Areas includes the entire province and 4 District Municipalities and 5 Local Municipalities.

## 3. Legal framework

3.1. Safeguards investigations are conducted in terms of the International Trade Administration Act, 2002 (Act 71 of 2002) (the ITA Act), and Safeguard Regulations read with the WTO Agreement on Safeguards.

3.2 If the application is based in part on confidential material the application must contain a non-confidential version of the confidential material together with an explanation of why it is confidential. Section 33 of the ITA Act provides as follows:

“(1) A person may, when submitting information to the Commission, identify information that the person claims to be information that –

is confidential by its nature; or

the person otherwise wishes to be recognised as confidential.

(2) A person making a claim in terms of subsection (1) must support that claim with a written statement in the prescribed form-

explaining, in the case of information that is confidential by its nature, how the information satisfies the requirements set out in the definition of “information that is by nature confidential” in section 1(2); or motivating, in the case of other information, why that information should be recognised as confidential; and

either –

a written abstract of the information in a non-confidential form; or

a sworn statement setting out the reasons why it is impossible to comply with subparagraph (i).”

These summaries should be in sufficient detail to permit a reasonable understanding of the substance of the information submitted in confidence. Therefore where confidential and non-confidential versions are supplied, parties must:

Indicate where information has been omitted in each case;

Provide reasons for confidentiality in each instance;

Provide a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information in each instance; and

Where information is not susceptible to a non-confidential summary, indicate this in each instance and provide a sworn statement setting out the reasons why the information is not susceptible to summarisation.

The Commission will not formally accept an application until a proper non-confidential version has been submitted in accordance with the above guidelines. If, in terms of section 34 of the ITA Act, the Commission finds that a request for confidentiality is not warranted and if the applicant is either unwilling to make the information public or to authorise its disclosure in summarised format, the Commission will not consider such information in determining the merits of the application.

#### **4. General instructions**

- 4.3 The non-confidential file is available for inspection by interested parties at the Commission's offices, by appointment.
- 4.4 Note that interested parties are encouraged to inspect the non-confidential file regularly. The staff of the Commission will not check the non-confidential file on behalf of interested parties.

**SECTION E SERIOUS INJURY**

Note: Before the Commission can initiate a safeguard investigation it must have sufficient evidence to reach a reasonable conclusion that the increased imports are causing or threatening to cause serious injury to a SACU industry. The term industry refers to the domestic procedures as a whole of the like or directly competitive products or to those of them whose collective output of the products constitute a major proportion of the total domestic production of these products.

In terms of SGR 8.1 "serious injury shall be understood to mean a significant overall impairment in the position of the SACU industry."

In determining serious injury or a threat thereof to the SACU industry the Commission shall consider:  
the rate and volume of the increase in imports of the product concerned  
in absolute terms; or  
relative to the production in SACU; and  
whether there have been significant changes in the performance of the SACU industry in respect of the following potential injury factors:

- sales volume;
- profit and loss;
- output;
- market share;
- productivity;
- capacity utilisation;
- employment; and
- any other relevant factors placed before the Commission.

The information requested must relate only to the affected SACU product that is a like or directly competitive product to the product under investigation. Where the available data does not allow separate identification of the product in question, the information given must relate to the narrowest identifiable product group that includes the SACU product that is a like or directly competitive product to the product being the subject of the application.

DEPARTMENT OF TRADE AND INDUSTRY  
NOTICE 272 OF 2020

**INTERNATIONAL TRADE ADMINISTRATION COMMISSION**

**NOTICE OF AN INITIATION OF THE INVESTIGATION FOR REMEDIAL ACTION IN THE  
FORM OF A SAFEGUARD MEASURE AGAINST THE INCREASED IMPORTS OF  
BOLTS WITH HEXAGON HEADS OF IRON OR STEEL**

The International Trade Administration Commission of South Africa (the Commission) decided to proceed with an investigation for remedial action in the form of a safeguard against the increased imports of bolts with hexagon heads of iron or steel.

Based on the information submitted, the Commission decided that the applicant submitted prima facie information to indicate:

- Events cited can be regarded as unforeseen developments that led to the surge or increase in volumes of imports;
- SACU industry is suffering serious injury; and
- There is a causal link between the serious injury suffered by the applicant and the surge in volumes of imports.

**THE APPLICANT**

The application was lodged by South African Iron and Steel Institute (SAISI) on behalf of the South African Fasteners Manufacturers' Association (SAFMA). SAFMA members are the only producers of the subject product in the SACU, thereby constituting 100% by production volume of the domestic industry. SAFMA members are CBC Fasteners (Pty) Ltd (CBC), Transvaal Pressed Nuts Bolts and Rivets (Pty) Ltd (TPN), SA Bolt Manufacturers Company (Pty) Ltd (SAB) and Impala Bolt and Nut (Pty) Ltd (Impala). SAIISI is a representative organization serving the collective interests of the primary steel industry in South Africa.

**DESCRIPTION OF THE SUBJECT PRODUCT UNDER INVESTIGATION**

The applicant described the imported products as bolts with hexagon heads of iron or steel, imported under tariff sub-heading 7318.15.43

**DESCRIPTION OF THE LIKE OR DIRECTLY COMPETITIVE SACU PRODUCT**

The SACU product is described as bolts with hexagon heads of iron or steel.

**ALLEGATION OF SERIOUS INJURY AND CAUSAL LINK**

The period of investigation for data evaluation for the purposes of determining the allegation of serious injury is 01 July 2015 to 30 June 2019.

The injury analysis relates to information submitted by CBC Fasteners (Pty) Ltd, SA Bolt Manufacturers (Pty) Ltd and Transvaal Pressed Nuts, Bolts & Rivets (Pty) Ltd representing more than 80% of the SACU industry by production volumes.

The Applicant alleged and submitted *prima facie* information indicating that it is experiencing serious injury in the form of a decline in sales volumes, output, market share, utilisation of capacity, net profit and productivity for the period 1 July 2015 to 30 June 2019.

On this basis the Commission found that *prima facie* information was submitted to indicate that the SACU industry was suffering serious injury which could be causally linked to the surge in the volumes of imports of the subject products.

**UNFORESEEN DEVELOPMENTS**

The Applicant submitted that a confluence of events forms the basis of the unforeseen development that supports this application. This confluence of events is led notably by China which is the biggest producer of global fasteners, accounting for more than 50% of global fasteners capacity and output.

The Applicant stated that during the Uruguay Round of negotiations, South Africa did not foresee the following events:

- The unprecedented steep rate of increase in fasteners production capacity (including the subject products) over the ensuing two decades (increased 8 folds since 1994) to support growing construction and manufacturing activity, as well as to help build infrastructure, particularly in emerging economies;
- The contraction of the world economy and in particular the Chinese economy resulted in the contraction of demand for fasteners, that contribute to the imbalance between capacity and demand;
- Record export volumes by countries with excess capacity, especially Chinese producers fueled by excess capacity and output; and
- This excess output, capacity and export volumes led by China, displaced production in other regions, thus harming producers in other markets. This has already led to several trade actions by major fasteners markets, including the SACU market. The fact that their markets are now protected, contracts the global demand for fasteners even further, exasperating the problem of increased imports into the SACU;

## LEGAL FRAMEWORK

This investigation will be conducted in accordance with the International Trade Administration Act, 2002 (ITA Act) and the International Trade Administration Commission Safeguard Regulations (SGR) read with the World Trade Organization Agreement on Safeguards (the Safeguard Agreement).

Please note that if any information is considered to be confidential, a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version, the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made, setting out reasons why it is impossible to comply with these requirements.

**PROCEDURES AND TIME LIMITS**

All information submitted, including non-confidential copies thereof, should be received by the Senior Manager: Trade Remedies II by no later than 20 days from the date hereof. Late submissions will not be accepted.
