Department:
Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (GPW).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

DEPARTMENT OF WATER AND SANITATION

NO. 1220

13 NOVEMBER 2020

MZIMVUBU-TSITSIKAMMA WATER MANAGEMENT AREA (WMA 7) IN THE EASTERN CAPE PROVINCE: LIMITING THE USE OF WATER IN TERMS OF SECTION 6 OF SCHEDULE 3 OF THE NATIONAL WATER ACT OF 1998; FOR URBAN, AGRICULTURAL AND INDUSTRIAL (INCLUDING MINING) PURPOSES

I, T Balzer, in my capacity as acting Director-General of the Department of Water and Sanitation (DWS), on reasonable grounds believe that a water shortage exists in certain areas of the Mzimvubu-Tsitsikamma Water Management Area in the Eastern Cape Province, due to insufficient rains in the 2019/20 rainfall season and below average rainfall predictions for the oncoming months, as well as a high water demand, that it is necessary to limit the taking of water from the Algoa Water Supply System (WSS) and other water schemes and dams listed in this gazette.

The Minister of Water and Sanitation may, in terms of section 6 (1) of Schedule 3 of the National Water Act of 1998 (Act 36 of 1998) (The Act) limit the use of water in the area concerned if the Minister, on reasonable grounds, believes that a water shortage exists within the area concerned. This power has been delegated to me in terms of Section 63 (1) (b) of the Act.

Therefore, in my capacity as the acting Director-General of the Department of Water and Sanitation I hereby under delegated authority in terms of section 6 (1) of Schedule 3 read with section 72(1) of the Act, limit the taking and storing of water in terms of section 21(a) and 21(b) of the Act by all users in the geographical areas listed and described below, as follows:

1. The Algoa Water Supply System, its associated primary catchments and its footprint area of supply excluding the Nooitgedagt scheme as indicated in table 1:
 - a. Curtailment of overall 30% on all taking of water from surface water resources for domestic and industrial water use from the Algoa WSS and the relevant parts of the primary catchments within which the Algoa WSS occurs;
 - b. Curtailment of 80% on all taking of water from surface water resources for agricultural water use from the Algoa WSS and the relevant parts of the primary catchments within which the Algoa WSS occurs;
 - c. The taking of water from individual sub-systems and dams in the Algoa WSS be limited to the reduced allocations as specified in Table 1;

Table 1: *Dams & sub-systems of the Algoa WSS with restricted allocations for 2020/21, (based on operation risk assessments and Algoa WSS Operating Forum meeting decisions of 25th June 2020)*

Scheme / Dam	River catchment	Restricted Allocation Availability
Kouga & Loerie Dams Scheme	Kouga River	6.9 million m ³ /a for domestic use (NMBM), 12.06 million m ³ /a for irrigation use, 0.62 Mm ³ /a for domestic use (Kouga LM)
Churchill & Impofu Dams	Kromme River	19.04 million m ³ /a for domestic use (NMBM), 2.84 million m ³ /a for domestic use (Kouga LM) 0.4 million m ³ / for irrigation use.
Nooitgedacht	Sundays River	No Restriction - for domestic use (NMBM)
Groendal Dam	Kwazunga River	5.44 million m ³ /a for domestic use (NMBM) and 0.8 million m ³ /a for irrigation use
Van Stadens, Sand & Bulk Dams	Van Stadens, Sand & Bulk Rivers	3.3 million m ³ /a for domestic use (NMBM)

- d. The taking of water from the groundwater resources listed in Table 2 below for domestic, industrial and irrigation use be restricted by the percentages shown in the corresponding rows in Table 2

Table 2: Groundwater resource restrictions per area

Catchment	Water use	Aquifer	Restriction
Upstream of Kouga, Impofu, Lorie and Groendal dams	Domestic	Whole aquifer	20%
	Agriculture		30%
Downstream of Groendal Dam, Kouga dam, Kabeljous, Swart & Seekoei catchments as well as quaternary catchments M10, M20 and M30	Domestic	Shallow (0-200m)	20%
		Deep (200m+)	0%
	Agriculture	Shallow (0-200m)	30%
		Deep (200m+)	10%
Downstream of Impofu dam	Domestic	Whole aquifer	0%
	Agriculture		20%

- e. The Eastern Cape Provincial Head is delegated the power to review the water restrictions, should the Algoa WSS recover adequately as informed by systems models and amend the water restrictions. Should the Algoa WSS or Kouga Dam recover to above 65% before the next decision date on 1 June 2021 the restrictions are deemed to be lifted.
- f. The DWS Eastern Cape Provincial Head is delegated powers to cease any further water supply from the system dams/schemes to an irrigation bulk water user association, irrigation board and/or individual water users once they have depleted their curtailed annual bulk volumes.
2. Other water schemes / dams and catchments affected by drought, listed in Table 3 below:
- a. The taking of water from the water schemes/ dams/ catchments listed in Table 3 below for domestic, industrial and irrigation use be restricted by the percentages shown in the corresponding rows,
- b. The taking of surface or ground water for domestic, industrial and irrigation water use within the catchments above the schemes/ dams listed in Table 3 be restricted at the same percentage level applicable to the scheme / dam in that catchment.(Table 3).

3. The DWS Eastern Cape Provincial Head is delegated the power to individually review the water restrictions, should the dams/schemes in table 3 recover adequately as informed by DWS operating rules, and lift or relax the water restrictions should it happen before the next relevant decision date.
4. The curtailments in points (1) and (2) above are measured against the water allocations / water registrations or water demand of the users as per projected annual water use.
5. The limitation applies to the annual water year commencing 1st June 2020 or from the date of publication of this gazette.
6. All water use sector groups and individuals taking water from any water resource (surface or groundwater) regardless of their authorisation type, in the geographical areas listed and described above in the Mzimvubu to Tsitsikamma Water Management Area, shall install electronic water recording, monitoring or measuring devices to enable monitoring of abstractions, storage and use of water by existing lawful users.
7. All water use sectors groups and individuals taking water from any water resource (surface or groundwater) regardless of their authorisation type, in the geographical areas listed and described above in the Mzimvubu to Tsitsikamma Water Management Area must
 - a. take records of water abstracted on a daily basis;
 - b. establish links with any monitoring or management system designated by the responsible authority;
 - c. submit monthly totals of metered volumes abstracted with effect from 30 days following the date of publication of this notice, in a format specified by the Department and shall continue such recording and reporting data monthly to the Department by the 5th day of each month to *metering.mzitsi@dws.gov.za*

All the affected Water Service Authorities must ensure that all domestic water users, at least, have access to basic water service and that potable water supply to all domestic water users is not completely restricted.

In exercising these powers I have given preference to, the maintenance of the Reserve, treated all water users on a basis, that is fair and reasonable, considered the actual extent of the water shortage, the likely effects of the shortage on the water users, the strategic importance of any water use and any water rationing or water use limitations by a Water Services Institution having jurisdiction in the area concerned, under the Water Services Act 108 of 1997.

Placing limitation on the taking of water use as set out in this notice is an administrative action, affecting the rights of the public as contemplated in section 4 of the Promotion of Administrative Justice Act 3 of 2000 (PAJA). After I have taken into consideration all relevant factors, including those referred to in section 4 (4) (b), I have decided that it is reasonable and justifiable in the circumstances to depart from the requirements referred to in section 4 (1)(a) to (e), (2) and (3) and instituted this limitation without allowing the water users affected and other role players to comment on the matter before I institute the limitation.

PR

This Notice overrides any other previous authorization on water use issued by the Department relating to water users from systems, schemes, dams and catchments specified in this Notice.

- e) Every livestock agent must appoint a Biosecurity practitioner (a person registered with the South African Veterinary Council).

Definitions

“Agent” means a person who, for the acquisition of gain on his or her own account or in a partnership, in any manner holds himself or herself out as a person who either directly or indirectly advertises that he or she on the instructions of or on behalf of any other person, purchases or sells agricultural produce or negotiates in connection therewith or canvasses or undertakes or offers to canvass a purchaser or seller therefor;

“Biosecurity practitioner” a person registered with the South African Veterinary Council, who oversees compliance with minimum biosecurity requirements for animals from different origins congregating for auctioning, in line with the requirements of Sections 11 and 26 of the Animal Diseases Act, Act 35 of 1984 and the rules in this document;

“Animal Owner Health Attestation” is a signed declaration from the owner of the animals that attests:

- The name and location of the farm/area of origin.
- The absence of overt signs of disease and parasites.
- The absence of unexplained mortalities on the property of origin in the preceding 28 days.

“Livestock agent” means an agent acting as such with regard to any agricultural product specified in Part B of Schedule 1 (Act) and for purposes of section 3(1)(b) includes any director of a company, trustee of a trust or a member of a close corporation which acts as a livestock agent as aforesaid.

“Visitor” includes any person at the auction yard e.g. administrative personnel, auctioneers, managers, sellers, owners, buyers, workers, veterinarians etc.

2. OBJECTIVES:

Auction facilities are the second level of detection for animal diseases for animals that are traded through this very critical marketing section of the livestock production value chain and therefore should play a very important role in reducing the spread of animal disease(s) through transactional business activities conducted within the auction facilities. This document aims to establish an auditable and traceable system, while at the same time minimizing the spread of animal disease(s) because of auction activities.

This will be achieved by the specific objectives:

- a) Implementation of a reliable, accurate, and auditable record-keeping system that ensures that all transactions conducted at livestock auctions were carried out in accordance with these reasonable and justifiable rules.

- b) Application of good biosecurity measures to prevent the introduction of diseased animals onto the property and to prevent between-animal spread at a livestock auction.
- c) Prompt and diligent reporting of any suspected controlled or notifiable animal diseases to the relevant state veterinarian.
- d) Commitment to adhere strictly to the prescripts of the following legislation, their regulations, and rules:
 - Animal Diseases Act, Act No. 35 of 1984 and the control measures therein.
 - Animal Identification Act, Act No. 6 of 2002 and the Regulations published in Government Gazette no 26732 of 21 November 2003.
 - Stock Theft Act, Act No. 57 of 1959 with specific reference to Section 6, 7 and 8 (Guidelines as to the completion of documentation).
 - Animal Protection Act, Act No. 72 of 1962.
 - Agricultural Produce Agents Act, Act No. 12 of 1992 and the Rules in Respect of Livestock Agents published in Government Gazette 41473 dated 2 March 2018.
 - The Livestock Agent takes full responsibility for any animal found within the auction premises, that is found not to be compliant with the above Legislation or the Rules in this document.

3. RECORD KEEPING AND AUDITING:

As per the Rules in Respect of Livestock Agents published in Government Gazette 41473 dated 2 March 2018.

In addition, the following documentation must arrive with the animals and should be kept:

- a) Original valid Article 6 and/or 8 documentation from the owner of the animals.
- b) Copy of Brand Registration Certificate of the owner of the animals.

- c) Copy of RSA ID of the owner of the animals.
- d) Original Animal Owner Health Attestation, that may have a confirmation of that attestation by a veterinarian, for the farm of origin and the specific animals.
- e) Complete details of premises of origin on the Section 6 document: physical address, farm name, Surveyor General number and portion number etc. as declared and signed by the owner of the animals as well as the owner or manager of the premises of origin.

4. ANIMAL IDENTIFICATION:

As per the Animal Identification Act, Act No. 6 of 2002 and the Regulations published in Government Gazette no 26732 of 21 November 2003; and the Stock Theft Act, Act No. 57 of 1959 with specific reference to Section 6, 7 and 8 (Guidelines as to the completion of documentation). Animals that are not compliant with these regulations should not be permitted to enter the biosecure area.

- a) All animals accepted at an auction must be properly and permanently marked with the owner's registered mark in accordance with the Animal Identification Act, Act 6 of 2002, and regulations published in Government Gazette no 25732 of 21 November 2003.
- b) Animals without registered marks shall not be off-loaded at the biosecure area.
- c) No freshly branded animals may be accepted.
- d) No animals with wet paint marks of previous auctions may be accepted within 28 days after the previous sale.
- e) No branding or marking of animals is allowed on the auction premises.
- f) The auctioneer must ensure the registered brand belongs to the owner, check the brand marking certificate and ID of the owner and driver/transporter where applicable and to follow up any suspicious brands with the local Stock Theft Unit. The livestock agent must insist on a confirmation of their reporting of the non-compliance with the Stock Theft Act and keep these on record.

- g) The ear tag / identity tag for each animal's individual identification – as per the Livestock Identification and Traceability System, shall correspond with the list of animals in the Original Animal Owner Health Attestation.

5. BIOSECURITY MEASURES AT THE AUCTION FACILITY:

- a) The auction facility must be divided into areas of varying risk, based on the concept of “arrival” (dirty) and “biosecure” (clean) areas. Only animals allowed into the biosecure area may be sold to third parties.
- b) A flow diagram must be available for each facility which clearly indicates the different areas and their risk profile.
- c) Every auction facility must appoint a Biosecurity Practitioner.

6. BIOSECURITY MEASURES AT FARM OF ORIGIN BEFORE MOVEMENT TO AN AUCTION:

- a) Biosecurity at auctions cannot be 100% fool-proof and the risk of spread of disease needs to be reduced through biosecurity and disease surveillance on the farms of origin of the animals destined for sale.
- b) All animals moved to an auction facility must be accompanied by an Original Animal Owner Health Attestation.
- c) Livestock agents must ensure that an Original Animal Health Attestation accompanies ALL livestock BEFORE animals can be moved to the auction facilities.
- d) Only animals that comply with the Original Animal Health Attestation may be off-loaded at the auction facility's biosecure area.

7. ADMINISTRATIVE CHECKPOINT:

- a) No animals may be accepted by the livestock agent when not registered with the auctioneer/livestock agent at least 24 hours (1 day) prior to the auction taking place.

- b) Registration will imply that all the documentation required from the animal owner including a copy of the Animal Owner Health Attestation (see section 3) has been provided to the livestock agent. This will form part of the audit trail.
- c) All animals should have been individually identified at the farms of origin and carry the AIDA registered brand mark of their owner. The individual identification must be verified on arrival at the facility and must correspond to the identification provided in the Animal Owner Health Attestation from the owner, a section 6 declaration.

8. ACTIONS REQUIRED AT THE ARRIVAL AREA (DIRTY AREA):

8.1 Biosecurity measures on entering at the Auction's Livestock Vehicle Entrance

- a) A standard operating procedure (SOP) for cleaning of all vehicles entering the arrival area must be adhered to. The SOP will be prepared by the Biosecurity Practitioner and approved by a veterinarian.

8.2 Animal Inspection at Off-loading

- a) No vehicle transporting animals may enter the auction premises without all documentation (section 3) being checked and verified beforehand at the Arrival area.
- b) A pre-quarantine facility with a crush and proper neck clamp must be available in the arrival area where suspect animals could be examined by a trained assistant for the presence of overt signs of disease and external parasites, prior to being admitted to the Biosecure area.
- c) All animals must, upon arrival, be checked for lesions or clinical signs of disease or external parasites. In addition, animals shall be checked for official marks/brands indicating any of the controlled animal diseases such as Brucellosis, Tuberculosis and Foot and mouth disease. If there is any suspicion of any infectious disease, please refer to section 10 below.

- d) There must be a designated camp where unfit animals can be detained so that they are not allowed to enter the Biosecure area.

All animals accepted at an auction must be properly and permanently marked (see section 4).

8.3 Cleaning and disinfection of vehicles after off-loading

- a) A parking area with a vehicle cleaning and disinfection station must be identified away from the animals in the auction pens.
- b) All vehicles that off load and reload animals must be cleaned/disinfected.
- c) Proper and functional cleaning equipment (high-pressure washers) must be available/provided.
- d) Access points to the area must be identified and demarcated clearly and vehicle movement pathways must be mapped and clearly indicated.
- e) Waste and effluent from the vehicle washing area must be managed in a manner to prevent contamination of the facilities or the area outside the facilities. Preferably a French Drain System must be installed.

9. BIOSECURE AREAS (CLEAN):

9.1 Separation of personnel from arrival and biosecure areas

- a) Personnel working in each of the defined risk areas are strictly restricted to those areas and must be identified by differently coloured overalls. Alternatively, personnel moving between areas of different risk must shower, change clothing, and disinfect shoes/boots and hands before entering or leaving the Biosecure area.
- b) No access of vehicles or any person to the Biosecure area are permitted unless via proper decontamination protocols.
- c) The control boundary must be respected and identified to all persons.

- d) Access points must be respected, well-demarcated and notices of procedures to be followed in specific access areas should be displayed.

9.2 Vehicle and visitor control

- a) control logbooks must be kept of all visitors, vehicles, equipment etc. entering or leaving the Biosecure area.
- b) No entry of persons, vehicles or products should be allowed into the Biosecure area if not expressly permitted by the Biosecurity Practitioner, subject to the rules in the biosecurity plan as drawn up by the Biosecurity Practitioner.
- c) A different access gate for visitors and their vehicles should be used, if possible.
- d) A wheel dip or spray must be used for access of vehicles into the Biosecure area.
- e) People moving into and out of the Biosecure area must use a foot dip when going in and out of the area.
- f) Ideally, persons entering the Biosecure area should make use of raised walkways and not the walkways demarcated for the livestock.

9.3 Cleaning and disinfection of Biosecure area after auction

The entire Biosecure area will be cleaned and disinfected after the auction according to the SOP drawn up by the Biosecurity Practitioner.

10. OFFICIAL REPORTING PROCEDURES OF SUSPECT ANIMALS:

- a) Any case of an animal showing any suspected clinical signs of FMD or any other controlled/notifiable disease will immediately be reported to the state veterinarian. (See section 11(2) of the Animal Diseases Act, Act 35 of 1984).
- b) Any instruction of the state veterinarian issued must be adhered to immediately.
- c) Any animals presented at the auction without the proper and necessary documentation at the Arrival area shall not be allowed entry at the Biosecure area at the auction facility. If there is suspicion of animal ownership the animals should

be held back on the vehicle in a dedicated area and be reported to the nearest Stock Theft Unit. However, if delays ensue that threaten the welfare of the affected animals, then they will have to be temporarily offloaded and held in the detainment area while they await said Stock Theft Unit.

- d) The contact details and (after hours details) of the state veterinarian and stock theft units must be available and displayed at the auction premises.
